Ice jordanbaird/Ice ★ 30.0k · GPL GPL-3.0 · App · Fit 3/5	macOS menu bar manager for hiding and organising menu bar icons. *Replaces:* Bartender, Hidden Bar	Mac power users and IT admins	Premium plugins/add-ons White-label reseller	• Menu bar cleanup for designers • Icon manager for dev teams' Macs • Menu bar setup for Mac IT support	$10-20 one-time licence *Effort:* Medium (Swift app, needs code signing and branding) ⚠ GPL-3.0: distributed builds ship source; Apple notarisation and App Store rules
Alt-tab-macos lwouis/alt-tab-macos ★ 16.5k · GPL GPL-3.0 · App · Fit 3/5	Windows-style alt-tab window switcher for macOS with previews. *Replaces:* Contexts, Witch	Mac users switching between many windows	Premium plugins/add-ons White-label reseller	• Window switcher for Windows-to-Mac migrants • Window tools for video editors • Keyboard productivity for support teams	$5-15 one-time, donations *Effort:* Medium (Swift app, needs signing and updates) ⚠ GPL-3.0: distributed builds ship source; alt-tab is a generic feature name
Thaw thaw-app/Thaw ★ 12.6k · GPL GPL-3.0 · App · Fit 3/5	Open-source macOS menu bar manager for organising hidden and visible icons. *Replaces:* Bartender, Ice	Mac users cleaning up crowded menu bars	Premium plugins/add-ons White-label reseller	• Menu bar cleanup for MacBook users • Hidden icon manager for remote workers • Menu bar setup for Mac kiosks	$5-10 one-time licence *Effort:* Medium (Swift app, needs signing and distribution) ⚠ GPL-3.0: distributed builds ship source; crowded market with Ice and Bartender
Mac-mouse-fix noah-nuebling/mac-mouse-fix ★ 11.2k · Check NOASSERTION · App · Fit 3/5	macOS utility that improves third-party mouse buttons and scrolling behaviour. *Replaces:* SteerMouse, Mos	Mac users with third-party mice	Premium plugins/add-ons White-label reseller	• Mouse setup for graphic designers • Button mapping for gamers on Mac • Scroll tuning for coders	Donation model; $10-20 licence *Effort:* Medium (Mac app, licence and signing setup) ⚠ NOASSERTION: read licence; Apple trademark and notarisation rules apply
FineTune ronitsingh10/FineTune ★ 10.1k · GPL GPL-3.0 · App · Fit 3/5	macOS menu bar app for per-app volume, multi-device output, audio routing and 10-band EQ. *Replaces:* SoundSource, Audio Hijack	Mac users managing audio across apps	Premium plugins/add-ons White-label reseller	• Per-app volume for streamers • Audio routing for podcast hosts • EQ tool for Mac music students	$10-20 one-time licence *Effort:* Medium (Audio routing on macOS needs drivers and signing) ⚠ GPL-3.0: distributed builds ship source; audio driver signing and macOS permissions
Dozer Mortennn/Dozer ★ 8.7k · Weak copyleft MPL-2.0 · App · Fit 3/5	Hides menu bar icons on macOS behind a single toggle. *Replaces:* Bartender, Hidden Bar	Mac users with crowded menu bars	Premium plugins/add-ons White-label reseller	• Menu bar tidy for presenters • Icon hiding for shared Mac kiosks • Menu bar cleanup for MacBook students	Free core; $5 donation *Effort:* Low (Small Mac app, single feature) ⚠ MPL-2.0: modified files must be shared; crowded market with Ice and Bartender
Linearmouse linearmouse/linearmouse ★ 7.1k · Permissive MIT · App · Fit 3/5	Mouse and trackpad utility for macOS adjusting pointer, scroll and button behaviour. *Replaces:* Mos, SteerMouse, Mac Mouse Fix	Mac users with external mice	Premium plugins/add-ons White-label reseller	• Mouse setup for Mac designers • Scroll tuning for remote desktop users • Button mapping for accessibility users	Free; $5-10 donation or paid licence *Effort:* Medium (Mac app, needs signing and support) ⚠ MIT permissive; Apple platform rules and a crowded niche
WNTR USEPA/WNTR ★ 474 · Check NOASSERTION · Library · Fit 3/5	EPANET-compatible Python package to simulate and analyze water distribution networks. *Replaces:* Bentley WaterGEMS, InfoWater, Innovyze, Synergi Water	Water utilities and engineers	Consulting/implementation Training/courses API/usage-based	• Resilience studies for utilities • Pipe network modeling for towns • Training for operators *Angle:* Water network resilience studies for small utilities	Consulting $100-200/hr *Effort:* Medium (Python library) ⚠ NOASSERTION license; engineering expertise needed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
EPANET OpenWaterAnalytics/EPANET ★ 432 · **Permissive** MIT · Library · Fit 3/5	Water distribution system hydraulic and water quality analysis toolkit. *Replaces:* Bentley WaterGEMS, InfoWater, Innovyze	Water utilities and engineers	Consulting/implementation Training/courses Premium plugins/add-ons	• Hydraulic modeling for small utilities • Pipe network training • Cloud EPANET modeling *Angle:* Hydraulic modeling services for water districts	Consulting $100-200/hr *Effort:* Medium (Engine, UI to build) ⚠ MIT; EPANET is EPA-origin name
SWMM USEPA/Stormwater-Management-Model ★ 383 · **Check** NONE · Library · Fit 3/5	Dynamic hydrology-hydraulic water quality simulation model for stormwater systems. *Replaces:* PCSWMM, InfoWorks ICM, Bentley SewerGEMS	Stormwater engineers	Consulting/implementation Training/courses Premium plugins/add-ons	• Stormwater studies for municipalities • Cloud SWMM runs • SWMM training *Angle:* Stormwater modeling for municipal engineers	Consulting $100-200/hr *Effort:* High (Engine, no UI) ⚠ No license stated; US government work
QWAT qwat/QWAT ★ 61 · **GPL** GPL-2.0 · Tool · Fit 3/5	TEKSI Water module for QGIS to manage water network assets. *Replaces:* Bentley WaterGEMS, ArcGIS Utility Network, Cityworks	Small water utilities	Consulting/implementation Setup + support retainer Training/courses	• Water asset GIS for municipalities • Pipe register for rural utilities • Network documentation service *Angle:* QGIS water network asset management for municipalities	$3-10k per setup *Effort:* High (QGIS and PostGIS data model) ⚠ GPL-2.0; GIS expertise needed
Qrcp claudiodangelis/qrcp ★ 10.5k · **Permissive** MIT · Tool · Fit 2/5	Terminal tool transferring files between computer and phone by scanning a QR code over wifi. *Replaces:* AirDrop, Snapdrop, Send Anywhere	Developers sharing files with phones on the same network	Premium plugins/add-ons Consulting/implementation	• Quick file sharing for IT support • Phone transfers for field photographers • LAN sharing for classroom teachers	Free core; $5 per desktop licence *Effort:* Low (Small CLI, easy to package) ⚠ MIT permissive; LAN transfers need security review; AirDrop-style competition
Whatcable darrylmorley/whatcable ★ 9.1k · **Check** NOASSERTION · App · Fit 2/5	macOS menu bar app that explains in plain English what each USB-C cable can do.	Mac users buying cables and chargers	Premium plugins/add-ons White-label reseller	• Cable checker for IT departments • Charger guide for Mac retail staff • USB-C diagnostics for video editors	$5-10 one-time licence *Effort:* Low (Single-purpose Mac app, simple scope) ⚠ NOASSERTION: read licence; USB-C and Apple trademarks in product copy
NTrace-core nxtrace/NTrace-core ★ 8.3k · **GPL** GPL-3.0 · Tool · Fit 2/5	Command-line tool that traces network routes and shows them visually with geo data. *Replaces:* Traceroute, PingPlotter, ThousandEyes	Network engineers diagnosing routes	Premium plugins/add-ons Consulting/implementation	• Route checks for ISP support teams • Latency diagnostics for gaming hosts • Route audits for hosting providers	Free CLI; $20-50/yr pro features *Effort:* Low (CLI tool, small scope) ⚠ GPL-3.0: distributed builds ship source; geo IP data licence terms apply
Gitsome donnemartin/gitsome ★ 7.7k · **Check** NOASSERTION · Tool · Fit 2/5	Enhanced command-line interface for Git and GitHub with autocompletion and shell tools. *Replaces:* GitHub CLI, Fig	Developers working in Git from the shell	Premium plugins/add-ons Training/courses	• Git shell tooling for bootcamp students • Autocomplete for DevOps teams • GitHub CLI training for open-source maintainers	Free; not worth pricing *Effort:* Low (CLI tool, easy to wrap) ⚠ NOASSERTION: read licence; GitHub trademark and works-with programme rules
KeepingYouAwake newmarcel/KeepingYouAwake ★ 7.0k · **Permissive** MIT · App · Fit 2/5	Menu bar app that stops a Mac from going to sleep. *Replaces:* Amphetamine, Caffeine	Mac users running long downloads and presentations	Premium plugins/add-ons White-label reseller	• Sleep blocker for presenters • Long-run task keeper for video encoders • Keep-awake tool for kiosk displays	Free; $3 paid version *Effort:* Low (Tiny Mac app, simple scope) ⚠ MIT permissive; trivial feature, many free rivals
Basscss basscss/basscss ★ 5.9k · **Permissive** MIT · Library · Fit 2/5	Low-level utility CSS toolkit for building layouts with atomic classes. *Replaces:* Tailwind CSS, Bootstrap	Frontend developers building atomic CSS sites	Premium plugins/add-ons Training/courses	• CSS framework for static sites • Utility classes for WordPress themes • Layout kit for documentation sites	Free; $99 premium themes *Effort:* Low (CSS toolkit, easy to theme) ⚠ MIT permissive; project is older and Tailwind dominates the market
Remeda remeda/remeda ★ 5.5k · **Permissive** MIT · Library · Fit 2/5	TypeScript utility library of data-first functions, similar to Lodash. *Replaces:* Lodash, Ramda	TypeScript teams wanting typed utilities	Consulting/implementation Training/courses	• Typed helpers for fintech dashboards • Data utilities for ETL scripts • Utility toolkit for TypeScript bootcamps	Free library; $150/hr integration *Effort:* Low (Library, easy to bundle) ⚠ MIT permissive; many utility libraries compete, low moat

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Opentrace Archeb/opentrace ★ 4.5k · GPL GPL-3.0 · Tool · Fit 2/5	Visual route tracing tool for macOS, Windows and Linux. *Replaces:* PingPlotter, Traceroute GUIs	Network admins diagnosing connections	Premium plugins/add-ons Consulting/implementation	• Route diagnostics for ISP helpdesks • Latency checks for remote workers • Route maps for hosting support	Free; $10-20 one-time GUI pack *Effort:* Low (Desktop tool, small scope) ⚠ GPL-3.0: distributed builds ship source; geo IP data licence terms apply
LxRunOffline DDoSolitary/LxRunOffline ★ 4.3k · Permissive MIT · Tool · Fit 2/5	Utility for installing, backing up and managing WSL Linux distributions offline.	Windows developers managing WSL distros	Premium plugins/add-ons Consulting/implementation	• WSL images for offline school labs • WSL setup for corporate dev teams • Backup tools for WSL developers	Free; $20 one-time pro build *Effort:* Low (Small Windows tool, niche audience) ⚠ MIT permissive; Microsoft WSL trademarks; Windows-only
Laravel-zero laravel-zero/laravel-zero ★ 4.0k · Check NONE · Framework · Fit 2/5	PHP framework for building console applications on Laravel components.	PHP developers building CLI tools	Consulting/implementation Training/courses	• CLI tools for Laravel agencies • Internal admin tooling for PHP shops • Deployment CLIs for hosting firms	Free framework; $150/hr integration *Effort:* Low (Framework, easy to build on) ⚠ NONE on record; verify licence; Laravel is a trademark
Reminders-menubar DamascenoRafael/reminders-menubar ★ 4.0k · GPL GPL-3.0 · App · Fit 2/5	Simple macOS menu bar app for viewing and editing Apple Reminders. *Replaces:* Things 3, Todoist	Mac users wanting quick reminders	Premium plugins/add-ons White-label reseller	• Reminders glance for Mac sales teams • Task menu for clinic staff on Macs • Reminder menu for Mac students	$5-10 one-time licence *Effort:* Low (Small SwiftUI app, simple scope) ⚠ GPL-3.0: distributed builds ship source; Apple Reminders and iOS naming
LenovoLegionLinux johnfanv2/LenovoLegionLinux ★ 3.5k · GPL GPL-2.0 · Tool · Fit 2/5	Linux driver and tools for fan control and power modes on Lenovo Legion laptops. *Replaces:* Lenovo Vantage, Legion Toolkit	Linux gamers on Lenovo Legion laptops	Premium plugins/add-ons Consulting/implementation	• Laptop tuning for Linux gamers • Fan control for Legion dev laptops • Thermal tools for Linux repair shops	Free; $10-20 donation or support *Effort:* Medium (Kernel driver, hardware-specific) ⚠ GPL-2.0: distributed builds ship source; Lenovo trademark and warranty risk
Termscp veeso/termscp ★ 3.2k · Permissive MIT · App · Fit 2/5	Terminal UI file transfer client supporting SCP, SFTP, FTP, S3, SMB and WebDAV. *Replaces:* FileZilla, Cyberduck, WinSCP	Sysadmins moving files across many servers	Premium plugins/add-ons Consulting/implementation	• Terminal transfers for hosting admins • S3 browsing for DevOps teams • SMB file moves for office IT	Free; $15 one-time pro support *Effort:* Low (Single-binary CLI, easy to package) ⚠ MIT permissive; competes with free and paid file clients
PySWMM pyswmm/pyswmm ★ 385 · Check NOASSERTION · Library · Fit 2/5	Python wrappers for EPA SWMM stormwater simulation. *Replaces:* Bentley SewerGEMS, InfoWorks ICM, PCSWMM	Stormwater engineers	Consulting/implementation Training/courses API/usage-based	• Stormwater modeling for municipalities • Flood simulation automation • Training for consultants *Angle:* Automated stormwater scenario runs for consultants	Consulting $100-200/hr *Effort:* Medium (Wrapper, needs UI) ⚠ NOASSERTION license; engineering expertise
epanet-js epanet-js/epanet-js-toolkit ★ 223 · Permissive MIT · Library · Fit 2/5	JavaScript toolkit to model water distribution networks with the OWA-EPANET engine. *Replaces:* Bentley WaterGEMS, InfoWater, Innovyze	Water engineers and web developers	Consulting/implementation API/usage-based Agency service	• Web water modeling for small utilities • Hydraulic API for engineers • Network education tool *Angle:* Browser water network modeling SaaS	Project fees $5-20k *Effort:* Medium (Library, app needed) ⚠ MIT; engineering expertise

Wedding & Event Planners · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Hi.Events HiEventsDev/Hi.Events ★ 4.1k · Check NOASSERTION · App · Fit 4/5	Event management and ticket selling platform for concerts and conferences *Replaces:* Eventbrite, Universe, Tito, Ticket Tailor	Event organizers	Managed hosting Vertical SaaS Marketplace	• Ticketing for music venues • Workshop tickets for studios • Conference registration for associations *Angle:* Ticketing for planners running galas and fundraisers	2-4% fee per ticket *Effort:* Medium (Modern stack, Stripe Connect) ⚠ AGPL with additional terms (NOASSERTION), read license
Attendize Attendize/Attendize ★ 4.3k · Check NOASSERTION · App · Fit 3/5	Event management and ticket selling platform on Laravel *Replaces:* Eventbrite, Ticketmaster, Universe, Tito	Event organizers	Managed hosting Vertical SaaS Marketplace	• Ticketing for comedy clubs • Tickets for local festivals • Workshop booking for studios *Angle:* White-label event registration for planners	2-5% fee plus $0.50 per ticket *Effort:* Medium (Laravel, fee-based model, aging) ⚠ AAL attribution license (NOASSERTION), requires attribution; low maintenance
Eventmie-pro-docs classiebit/eventmie-pro-docs ★ 17 · Check NONE · Platform · Fit 3/5	Self-hosted Laravel script for multi-vendor event ticket selling websites. *Replaces:* Eventbrite, Ticket marketplaces	Entrepreneurs launching ticket marketplaces	White-label reseller Setup + support retainer Managed hosting	• Ticketing site for Nigerian concerts • Event marketplace for church groups • Ticketing for local comedy clubs	$300-900 per install, $50/mo hosting *Effort:* Medium (Laravel multi-vendor, needs payment setup) ⚠ NONE license: confirm reuse; sold product, resale may breach terms
Rsvp-to-me joe-cole1/rsvp-to-me ★ 5 · AGPL AGPL-3.0 · App · Fit 3/5	Self-hosted app for creating events, tracking invitations and managing guest RSVPs. *Replaces:* Paperless Post, Evite, Zola RSVP	Wedding couples and event hosts	Managed hosting Setup + support retainer White-label reseller	• Wedding RSVP sites for couples • Guest tracking for charity galas • Invitation tracker for school reunions	$15-40 per event, or $30/mo managed *Effort:* Medium (Next.js and Prisma, needs branding and email) ⚠ AGPL: publish server-side changes; guest data privacy rules apply
Wedding Website rampatra/wedding-website ★ 1.9k · GPL GPL-3.0 · Starter · Fit 2/5	Personal wedding website with RSVP and details. *Replaces:* The Knot, Zola, Joy, Minted	Couples	Agency service Premium plugins/add-ons Content/membership	• Wedding sites for couples • Destination wedding template • RSVP site for events *Angle:* Wedding website templates sold by planners	$99-299 per site *Effort:* Low (Simple template) ⚠ GPL-3.0; personal content to remove
Wedding RSVP Rails jdleesmiller/wedding ★ 60 · Permissive BSD-3-Clause · App · Fit 2/5	Simple Rails app for sharing wedding information and managing RSVPs. *Replaces:* The Knot, Zola, Joy	Couples	Agency service Premium plugins/add-ons Content/membership	• Wedding RSVP sites • Guest manager • Event info sites *Angle:* Guest info and RSVP portal per wedding	$99-199 per site *Effort:* Medium (Single-event Rails app) ⚠ BSD-3-Clause; single-event design
PHP RSVP thesquaregroot/php-rsvp ★ 36 · Permissive Apache-2.0 · Tool · Fit 2/5	LAMP package for wedding RSVP websites. *Replaces:* The Knot, Zola, Joy	Couples	Agency service Premium plugins/add-ons Content/membership	• Wedding RSVP sites • Party invitation pages • Event RSVP tool *Angle:* RSVP management service for event planners	$79-149 per site *Effort:* Low (Simple PHP package) ⚠ Apache-2.0; basic features
Bulma Wedding Planner Template restylianos/bulma-wedding-planner-template ★ 21 · Permissive MIT · Starter · Fit 2/5	Bulma HTML template for wedding planner websites. *Replaces:* Wix wedding templates, Squarespace	Wedding planners	Agency service Premium plugins/add-ons Content/membership	• Wedding planner sites • Event planner template • Florist websites *Angle:* Planner agency website template	$99-199 per site *Effort:* Low (Static template) ⚠ MIT; static template
Wedding Tables Planner juanignaciosl/wedding-tables-planner ★ 15 · Check NONE · Tool · Fit 2/5	Wedding seating tables planner considering loved, known and hated guests. *Replaces:* Social Tables, AllSeated, Zola seating chart	Wedding planners	Vertical SaaS Premium plugins/add-ons Mobile app on top	• Seating planner for wedding planners • Event seating optimizer • Banquet table planner *Angle:* Seating plan optimizer for wedding planners	$5-15 per event *Effort:* Medium (Small tool, no license) ⚠ No license, cannot legally reuse

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
DnyActifisys danielbrendel/dnyActifisys ★ 9 · **Permissive** MIT · App · Fit 2/5	Social network for sharing and joining activities and events. *Replaces:* Meetup, Eventbrite	Local groups organising meetups	Managed hosting Premium plugins/add-ons	• Hobby meetup network for city clubs • Activity hub for school sports • Local events site for expat communities	$29-99/mo per community site *Effort:* High (Social features need moderation and scale) ⚠ MIT permissive; social platforms carry moderation and privacy duties
Venue-studio topninja/venue-studio ★ 9 · **Check** NONE · Tool · Fit 2/5	Browser editor for building venue seating maps with built-in arena layouts. *Replaces:* Seatics, Ticketmaster seat maps	Venues and ticketing firms building seat maps	Setup + support retainer Premium plugins/add-ons	• Seat maps for regional theatres • Arena layouts for minor league teams • Seating editor for banquet halls	$99-299/mo per venue, setup fee *Effort:* Medium (Map editor, needs ticketing integration) ⚠ NONE license: confirm reuse; arena layouts may use venue trademarks
Team5_BE Step3-kakao-tech-campus/Team5_BE ★ 6 · **Permissive** MIT · App · Fit 2/5	Backend matching wedding planners with couples using transparent pricing. *Replaces:* The Knot, Wedding Wire	Korean wedding planners and couples	Marketplace Managed hosting	• Planner matching for Seoul couples • Price-transparent planners for Busan weddings • Planner booking for destination weddings	5-10% matching fee *Effort:* High (Marketplace backend, needs trust and payments) ⚠ MIT permissive; marketplace fees and Korean e-commerce rules apply
Seating-Planner gabriel1ll7/Seating-Planner ★ 6 · **Permissive** MIT · App · Fit 2/5	Drag-and-drop seating chart planner for weddings, conferences and celebrations. *Replaces:* Seating Chart Manager, Seatmap	Wedding planners arranging guest seating	Premium plugins/add-ons Setup + support retainer	• Seating charts for wedding planners • Table plans for conference hosts • Guest tables for charity galas	$9-19 one-time or $5/mo *Effort:* Low (Front-end tool, easy to brand) ⚠ MIT permissive; seating chart tools have many free rivals
Event-list event-list/event-list ★ 6 · **Check** NONE · App · Fit 2/5	App for sharing events and building guest lists to plan attendance numbers. *Replaces:* Eventbrite, Partiful	Hosts planning parties and small events	Mobile app on top Premium plugins/add-ons	• Guest lists for birthday parties • Headcount tools for community dinners • RSVP lists for pop-up shops	Free; $4.99/mo premium guest lists *Effort:* Medium (Needs accounts and invite flows) ⚠ NONE license: confirm reuse; guest data privacy rules
FlowAgenda KiwiGaze/FlowAgenda ★ 5 · **Permissive** MIT · App · Fit 2/5	Turns plain-language requests into calendar events using a large language model. *Replaces:* Motion, Reclaim.ai	Busy professionals managing calendars	Premium plugins/add-ons API/usage-based	• Calendar entry for solo therapists • Scheduling assistant for freelance designers • Meeting capture for small law firms	$8-15/mo per user, free tier *Effort:* Medium (LLM plus calendar API integrations) ⚠ MIT permissive; calendar API terms and LLM costs apply

Blockchain Nodes & Infrastructure · 20

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Fabric hyperledger/fabric ★ 16.8k · Permissive Apache-2.0 · Framework · Fit 3/5	Enterprise permissioned ledger framework for multi-party business networks. *Replaces:* R3 Corda, Oracle Blockchain	Enterprises running consortium ledgers	Consulting/implementation Managed hosting Training/courses	• Supply-chain ledgers for food importers • Trade finance networks for banks • Certificate ledgers for universities	$100k-500k per consortium deployment *Effort:* High (Complex network setup, long enterprise sales cycle) ⚠ Apache-2.0 permissive; Hyperledger is an LF trademark, check naming rules
Foundry foundry-rs/foundry ★ 10.8k · Permissive Apache-2.0 · Tool · Fit 3/5	Fast Rust toolkit for compiling, testing and deploying Ethereum smart contracts. *Replaces:* Hardhat, Truffle	Smart contract developers and audit firms	Premium plugins/add-ons Training/courses Consulting/implementation	• Foundry testing for DeFi audit firms • Contract CI for NFT studios • Foundry training for Solidity bootcamps	Free tool; $300-800/hr audit or test setup *Effort:* Low (Developer tool, used as-is) ⚠ Apache-2.0 permissive; Foundry is a project name, check brand use
Hardhat NomicFoundation/hardhat ★ 8.5k · Check NOASSERTION · Tool · Fit 3/5	Development environment to compile, test, deploy and debug Ethereum software. *Replaces:* Truffle, Foundry	Ethereum dev teams and audit shops	Training/courses Consulting/implementation	• Hardhat courses for Solidity bootcamps • Test automation for DeFi startups • Deploy pipelines for NFT game studios	$200-500/hr dev setup; courses $199 *Effort:* Low (Developer tool, used directly) ⚠ NOASSERTION: read licence; Hardhat is a Nomic Foundation brand
Union unionlabs/union ★ 73.7k · Permissive Apache-2.0 · Platform · Fit 2/5	Trust-minimised zero-knowledge bridge protocol for moving assets between chains. *Replaces:* Wormhole, LayerZero, Axelar	DeFi protocols needing cross-chain transfers	API/usage-based Consulting/implementation	• Cross-chain transfers for DeFi apps • Bridge integration for gaming tokens • Asset bridging for stablecoin issuers	Usage-based fees; integration from $20k *Effort:* High (ZK infrastructure, security audits required) ⚠ Apache-2.0 permissive; bridge exploit risk; regulated asset transfer rules
Fuel-core FuelLabs/fuel-core ★ 56.8k · Permissive Apache-2.0 · Platform · Fit 2/5	Rust full node implementation of the Fuel v2 blockchain protocol. *Replaces:* Managed node services from RPC providers	Blockchain infrastructure teams running nodes	Managed hosting Consulting/implementation	• Node hosting for Fuel dApps • RPC services for DeFi teams • Validator setup for node operators	$300-1000/mo managed RPC node *Effort:* High (Protocol node, needs ops and security work) ⚠ Apache-2.0 permissive; Fuel brand use and chain-specific security risk
Go-ethereum ethereum/go-ethereum ★ 51.5k · Weak copyleft LGPL-3.0 · Platform · Fit 2/5	Official Go implementation of the Ethereum execution client and node software. *Replaces:* Alchemy, Infura	Exchanges and RPC providers running nodes	Managed hosting Consulting/implementation	• RPC node hosting for dApp teams • Node operations for staking pools • Archive nodes for analytics firms	$500-2000/mo per managed node *Effort:* High (Chain-critical node operations, heavy infrastructure) ⚠ LGPL-3.0: modified library parts must be shared; Ethereum brand use
Anoma anoma/anoma ★ 33.6k · Permissive MIT · Platform · Fit 2/5	Reference implementation of Anoma, an intent-centric blockchain protocol.	Protocol researchers and app builders	Consulting/implementation Training/courses	• Intent-based apps for DeFi teams • Protocol training for blockchain engineers • Testnet node hosting for validator groups	$200-400/hr consulting; hosting extra *Effort:* High (Research-stage protocol, unstable APIs) ⚠ MIT permissive; protocol still evolving; Anoma brand and token claims

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Linera-protocol linera-io/linera-protocol ★ 32.0k · **Permissive** Apache-2.0 · Platform · Fit 2/5	Main repository of the Linera microchain blockchain protocol.	Developers building high-throughput dApps	Consulting/implementation Managed hosting	• Microchain apps for games • Real-time dApp backends for social apps • Validator hosting for protocol teams	$5000-20000 per dApp build *Effort:* High (Protocol-level code, evolving APIs) ⚠ Apache-2.0 permissive; protocol immature, verify security audits
Shardeum shardeum/shardeum ★ 31.2k · **Permissive** MIT · Platform · Fit 2/5	EVM-compatible autoscaling blockchain network and node software. *Replaces:* Polygon, Avalanche	Web3 teams wanting EVM chains	Managed hosting Consulting/implementation	• Dedicated chains for gaming studios • EVM validator hosting for staking firms • Test networks for DeFi startups	$1000-5000/mo managed validator *Effort:* High (Chain operations and validator economics) ⚠ MIT permissive; token and validator economics carry securities risk
Solidity argotorg/solidity ★ 25.8k · **GPL** GPL-3.0 · Tool · Fit 2/5	The Solidity smart contract language compiler.	Smart contract developers and audit firms	Training/courses Consulting/implementation	• Solidity courses for finance developers • Contract audits for DeFi startups • Compiler tooling for L2 teams	Audits $150-300/hr; courses $299 *Effort:* Low (Compiler, used as-is by developers) ⚠ GPL-3.0: distributed builds ship source; Solidity Foundation brand use
Fhevm zama-ai/fhevm ★ 24.7k · **Check** NOASSERTION · Framework · Fit 2/5	Full-stack framework for running fully homomorphic encryption computations on blockchains.	Privacy-focused dApp teams	Consulting/implementation Training/courses	• Private voting for DAOs • Confidential payroll for crypto firms • Encrypted order books for DEX builders	$20k-60k per dApp integration *Effort:* High (Cryptography-heavy, needs specialist engineers) ⚠ NOASSERTION: read licence; Zama brand and patent-encumbered FHE techniques
Qbot UFund-Me/Qbot ★ 18.8k · **Permissive** MIT · App · Fit 2/5	Locally deployed AI quant research platform for building and testing trading strategies. *Replaces:* QuantConnect, Composer, TradingView	Retail quant traders and fintech teams	Premium plugins/add-ons Managed hosting	• Strategy backtests for crypto traders • Research tools for A-share analysts • Signal dashboards for trading education	$29-99/mo per seat, data feeds extra *Effort:* High (Trading and data pipelines, heavy compliance) ⚠ MIT permissive; investment advice and trading software regulation apply
Monero monero-project/monero ★ 11.0k · **Check** NOASSERTION · Platform · Fit 2/5	Privacy-focused cryptocurrency node and wallet software. *Replaces:* Bitcoin Core, Zcash wallets	Privacy-focused payment processors	Consulting/implementation Managed hosting	• Private payments for freelancers • Node hosting for privacy merchants • Wallet support for privacy-focused exchanges	$500-2000/mo managed node; consulting extra *Effort:* High (Custom consensus, privacy compliance issues) ⚠ NOASSERTION: read licence; AML and regulatory risk for privacy coins
Chia-blockchain Chia-Network/chia-blockchain ★ 10.8k · **Permissive** Apache-2.0 · Platform · Fit 2/5	Python implementation of the Chia blockchain full node, farmer, harvester and wallet. *Replaces:* Managed staking and node hosting services	Crypto farm operators and node hosts	Managed hosting Consulting/implementation	• Node hosting for Chia farmers • Plot management tools for mining co-ops • Wallet support for small crypto funds	$200-600/mo managed node *Effort:* High (Chain-specific node operations, low demand) ⚠ Apache-2.0 permissive; Chia trademark; token and mining regulation risk
ethers.js ethers-io/ethers.js ★ 8.7k · **Permissive** MIT · Library · Fit 2/5	JavaScript library and wallet implementation for interacting with Ethereum. *Replaces:* Web3.js, Alchemy SDK	JavaScript teams building Ethereum dApps	Consulting/implementation Training/courses	• Wallet integration for dApp startups • Payment flows for NFT marketplaces • Ethereum training for JS bootcamps	Free library; $150/hr integration *Effort:* Low (Library, drop-in for JS apps) ⚠ MIT permissive; check current API compatibility before relying on it
Chainlink smartcontractkit/chainlink ★ 8.3k · **Check** NOASSERTION · Platform · Fit 2/5	Node software for the Chainlink decentralised oracle network. *Replaces:* Pyth, Band Protocol	DeFi teams needing price feeds	Managed hosting Consulting/implementation	• Oracle nodes for lending protocols • Price feeds for prediction markets • Node hosting for oracle operators	$500-2000/mo per managed oracle node *Effort:* High (Decentralised oracle node, security-critical) ⚠ NOASSERTION: read licence; Chainlink trademark and LINK token rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Datahaven datahaven-xyz/datahaven ★ 7.9k · GPL GPL-3.0 · Platform · Fit 2/5	EVM-compatible Substrate chain with storage and restaking-based security. *Replaces:* Filecoin, Arweave	Web3 teams needing decentralised storage	Managed hosting Consulting/implementation	• Storage backends for dApp teams • Validator hosting for restaking firms • Archive storage for NFT projects	$1000-5000/mo managed node *Effort:* High (Chain-level infrastructure, needs audits) ⚠ GPL-3.0: distributed builds ship source; EigenLayer and Substrate dependencies
Go-ibax IBAX-io/go-ibax ★ 7.8k · Permissive Apache-2.0 · Platform · Fit 2/5	Blockchain platform for deploying dApps, DeFi and DAO apps quickly. *Replaces:* Hyperledger Fabric, Ethereum dApp platforms	Enterprises building private dApps	Consulting/implementation Managed hosting	• DAO tools for cooperatives • Loyalty dApps for retailers • Private ledger for supply chains	$20000-80000 per dApp platform project *Effort:* High (Custom chain, small community) ⚠ Apache-2.0 permissive; small chain ecosystem, unclear security record
Sui MystenLabs/sui ★ 7.8k · Permissive Apache-2.0 · Platform · Fit 2/5	High-throughput smart contract blockchain using the Move programming language. *Replaces:* Aptos node services, Ethereum L2 hosting	Game and consumer app teams on Move	Managed hosting Consulting/implementation	• Node hosting for Sui games • RPC for wallet apps • Move training for game studios	$500-3000/mo managed RPC node *Effort:* High (Chain infrastructure, Move expertise needed) ⚠ Apache-2.0 permissive; Mysten Labs brand; token and securities rules
Bitshares-core bitshares/bitshares-core ★ 1.2k · Check NOASSERTION · Platform · Fit 2/5	BitShares blockchain node and command-line wallet.	Crypto node operators and exchanges	Managed hosting Consulting/implementation	• Node hosting for BitShares DEX users • Wallet tools for small exchanges • Witness node setup for delegate pools	$300-1000/mo managed node *Effort:* High (Legacy chain, shrinking community) ⚠ NOASSERTION: read licence; declining network, token rules apply

Core Banking & Ledgers · 5

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Double-entry-generator deb-sig/double-entry-generator ★ 734 · Permissive Apache-2.0 · Tool · Fit 3/5	Rule-based importer converting Alipay, WeChat and exchange statements into double-entry ledgers. *Replaces:* Tiller, Xero bank feeds	Individuals and small firms tracking finances in Beancount	Consulting/implementation Training/courses Premium plugins/add-ons	• Beancount import for Chinese freelancers • Crypto exchange import for small traders • Ledger setup for expat households	$30-80 one-time import packs; consulting $100/hr *Effort:* Medium (Rule files per source need maintenance) ⚠ Apache-2.0 permissive; Alipay and WeChat statement formats change, check ToS
Sequence hoophq/sequence ★ 512 · Permissive Apache-2.0 · Platform · Fit 2/5	Immutable, scalable ledger service for recording financial transactions. *Replaces:* Amazon QLDB, TigerBeetle	Fintech teams needing auditable ledgers	Managed hosting API/usage-based	• Ledger API for payment startups • Audit log for lending apps • Event ledger for marketplace escrow	Usage-based $0.001 per entry, $99/mo base *Effort:* High (Ledger correctness, needs finance review) ⚠ Apache-2.0 permissive; ledger errors carry financial liability, audit needed
Pgledger pgr0ss/pgledger ★ 504 · Permissive MIT · Library · Fit 2/5	Double-entry ledger implemented as PostgreSQL tables and functions. *Replaces:* Modern Treasury, Blnk	Fintech startups building internal ledgers	Consulting/implementation Training/courses	• Ledger for marketplace payouts • Wallet balances for gaming platforms • Internal accounts for lending startups	$5000-15000 per ledger build *Effort:* Medium (SQL schema, needs integration and controls) ⚠ MIT permissive; ledger controls and finance regulation apply
Pyluca datasignstech/pyluca ★ 69 · Permissive MIT · Library · Fit 2/5	Python library for double-entry accounting with journal and ledger features. *Replaces:* Beancount, Ledger CLI	Python developers adding bookkeeping features	Consulting/implementation Premium plugins/add-ons	• Bookkeeping module for Python SaaS • Ledger engine for small clinic billing • Accounting core for freelance tools	Free library; $120/hr integration *Effort:* Medium (Library, needs accounting rules and UI) ⚠ MIT permissive; accounting logic needs review before financial use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Double-entry-bookkeeping-api imetaxas/double-entry-bookkeeping-api ★ 64 · Permissive MIT · Library · Fit 2/5	Java library for double-entry bookkeeping, published to the Maven repository.	Java developers adding accounting to apps	Consulting/implementation Training/courses	• Accounting module for Java ERP add-ons • Bookkeeping core for Spring Boot SaaS • Ledger library for school fee systems	Free; $120/hr integration *Effort:* Medium (Java library, needs accounting rules) ⚠ MIT permissive; accounting correctness and audit needs apply

Crypto Exchanges & DEX · 9

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Jadx skylot/jadx ★ 51.7k · Permissive Apache-2.0 · Tool · Fit 3/5	Decompiler turning Android DEX and APK files into readable Java source. *Replaces:* Hopper, IDA Pro, JEB Decompiler	Mobile security analysts and pentesters	Training/courses Consulting/implementation Premium plugins/add-ons	• Android app audits for fintech firms • Reverse engineering training for pentesters • Malware triage tooling for SOC teams	Free tool; $300-500/hr pentest services *Effort:* Low (Mature CLI and GUI, used directly) ⚠ Apache-2.0 permissive; decompiling apps may breach app terms; get legal review
Androguard androguard/androguard ★ 6.4k · Permissive Apache-2.0 · Library · Fit 2/5	Python toolkit for reverse engineering and pentesting Android applications. *Replaces:* MobSF	Mobile pentesters and app security teams	Consulting/implementation Training/courses	• Android audits for banking apps • Security checks for healthcare apps • Training labs for mobile pentesters	$2000-6000 per app security assessment *Effort:* Medium (Python library, needs security workflow) ⚠ Apache-2.0 permissive; use only on apps you are authorised to test
LIEF lief-project/LIEF ★ 5.6k · Permissive Apache-2.0 · Library · Fit 2/5	C++, Python and Rust library for parsing and modifying ELF, PE and Mach-O binaries. *Replaces:* pefile, Capstone-based tools	Security researchers and compiler toolmakers	Consulting/implementation Training/courses	• Binary patching for embedded device vendors • Malware analysis tooling for SOC teams • Binary instrumentation courses for security students	$3000-8000 per tooling project *Effort:* Medium (C++ library, binary format expertise needed) ⚠ Apache-2.0 permissive; dual-use tooling, export and misuse concerns
Seaprotocol sea-protocol/seaprotocol ★ 5.0k · Check NOASSERTION · Platform · Fit 2/5	Decentralised exchange combining an order book with an automated market maker on Aptos and Sui. *Replaces:* Hyperliquid, Uniswap, Cetus	DEX builders on Move chains	Consulting/implementation Managed hosting	• Order-book DEX for Aptos token launches • Liquidity venues for Sui gaming tokens • Trading front ends for small brokers	$30000-100000 per DEX build *Effort:* High (Trading contracts, audits required) ⚠ NOASSERTION: read licence; exchange regulation and token securities risk
ASC MG1937/ASC ★ 2.7k · Permissive Apache-2.0 · Tool · Fit 2/5	Lightweight Android decompiler built for security agents and mobile researchers. *Replaces:* JEB, Jadx	Mobile security researchers	Training/courses Consulting/implementation	• Decompiler training for pentesters • Android triage for bug bounty teams • Quick analysis tool for SOC mobile reviews	Free tool; training $199 *Effort:* Low (Small decompiler, used directly) ⚠ Apache-2.0 permissive; decompiling apps may breach terms; dual-use concerns
StringFog MegatronKing/StringFog ★ 2.0k · Permissive Apache-2.0 · Tool · Fit 2/5	Android build plugin that encrypts string constants in app bytecode. *Replaces:* DexGuard, ProGuard string encryption	Android app teams protecting code	Premium plugins/add-ons Consulting/implementation	• String protection for fintech apps • Obfuscation for gaming apps • Build plugin for enterprise Android teams	$500-2000 per enterprise app setup *Effort:* Low (Gradle plugin, drop-in for Android builds) ⚠ Apache-2.0 permissive; Chinese docs; obfuscation can hide malware, reputational risk
Dexcalibur reversenseorg/dexcalibur ★ 1.2k · AGPL AGPL-3.0 · Platform · Fit 2/5	Binary intelligence platform automating reverse engineering of mobile and embedded apps. *Replaces:* JEB, commercial Ghidra-based tools	Security labs analysing mobile apps	Managed hosting Consulting/implementation	• Automated app audits for fintech firms • Firmware analysis for IoT vendors • Malware triage for MSSPs	$500-2000/mo per analyst seat *Effort:* High (Complex platform, needs security expertise) ⚠ AGPL: publish server-side changes; dual-use security tooling, legal review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ayza Hakky54/ayza ★ 580 · **Permissive** Apache-2.0 · Library · Fit 2/5	Java SSL library for configuring HTTP clients and servers with hot-reloaded certificates.	Java backend teams managing TLS certificates	Consulting/implementation Training/courses	• TLS reload for Java banking APIs • Certificate rotation for hospital integration servers • Trust-store tooling for enterprise Java shops	Free library; $3-8k per certificate-management integration *Effort:* Low (single library, narrow scope) ⚠ Apache-2.0; TLS mistakes are security risks; test certificate rotation carefully
Etherspot-sdk etherspot/etherspot-sdk ★ 367 · **Permissive** MIT · Library · Fit 2/5	Account Abstraction SDK for building smart-account wallet features. *Replaces:* Biconomy SDK, Alchemy Account Kit	Wallet teams adopting account abstraction	API/usage-based Consulting/implementation	• Gasless onboarding for game wallets • Smart accounts for loyalty apps • Batch payments for crypto payroll tools	Free SDK; $5-15k per wallet integration *Effort:* Medium (SDK integration, chain-specific setup) ⚠ MIT; smart-account contracts need audits; bundler and paymaster reliance
Account ithacaxyz/account ★ 327 · **Permissive** MIT · Library · Fit 2/5	Web account toolkit for authentication and payments. *Replaces:* Privy, Dynamic, Magic.link	Web app teams adding wallet-free login and payments	API/usage-based Consulting/implementation	• Login plus payments for web game studios • Checkout accounts for subscription boxes • Auth for crypto-curious newsletters	Free SDK; per-user fees via hosted service *Effort:* Medium (web SDK, auth and payments both security-critical) ⚠ MIT; auth and payment flows are security-critical; check audits and chain support
Scripts gitmachtl/scripts ★ 283 · **Permissive** MIT · Tool · Fit 2/5	Cardano stake pool operator scripts for pool management, governance and token sending. *Replaces:* Daedalus, Cardano Stake Pool Manager	Cardano stake pool operators	Setup + support retainer Consulting/implementation	• Pool operations for Cardano SPOs in Nordics • DRep setup for governance-active delegates • Pool management for small Cardano validators	Free scripts; $200-500/yr pool support plan *Effort:* Low (shell scripts, Cardano-specific, easy to fork) ⚠ MIT; key handling is risky; Cardano chain changes break scripts
Silius silius-rs/silius ★ 273 · **Permissive** Apache-2.0 · Library · Fit 2/5	Rust ERC-4337 account-abstraction bundler for submitting user operations on-chain. *Replaces:* Pimlico bundler, Alchemy bundler	Wallet infrastructure teams running bundlers	Managed hosting Consulting/implementation	• Bundler nodes for gasless wallet apps • Infra for account-abstraction startups • Rust backends for DeFi relayers	Free software; $1-3k/mo for node ops *Effort:* High (infrastructure node, needs ops and uptime) ⚠ Apache-2.0; bundler uptime and mempool rules are operator risk; spec changes
permissionless.js pimlicolabs/permissionless.js ★ 258 · **Permissive** MIT · Library · Fit 2/5	TypeScript utilities built on viem for ERC-4337 account abstraction. *Replaces:* thirdweb, Alchemy Account Kit	Web3 frontend teams building smart accounts	Consulting/implementation Training/courses	• Smart accounts for gaming dApps • Gasless flows for DeFi dashboards • AA demos for Web3 bootcamps	Free library; $4-10k per smart-account integration *Effort:* Medium (viem-based utilities, fast-changing standard) ⚠ MIT; ERC-4337 standard still changing; pair with audited smart accounts
Safe-transaction-service safe-global/safe-transaction-service ★ 238 · **Check** NOASSERTION · Platform · Fit 2/5	Backend service that indexes and tracks transactions and token transfers for Safe wallets. *Replaces:* Etherscan, DeBank	Multisig and treasury teams tracking wallet activity	Managed hosting Setup + support retainer	• Treasury activity logs for DAO finance teams • Transfer tracking for crypto fund admins • Payroll audit trails for crypto-paid teams	$300-1000/mo hosted indexer, self-host free *Effort:* High (indexer infra, chain-specific, Safe dependency) ⚠ NOASSERTION: read license first; Safe brand; wallet data is sensitive

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Delegation-framework MetaMask/delegation-framework ★ 230 · **Permissive** Apache-2.0 · Library · Fit 2/5	Smart contracts for delegating limited wallet permissions to other accounts.	Wallet teams building delegated permissions	Consulting/implementation Setup + support retainer	• Spending permissions for AI agent wallets • Scoped access for DAO operators • Delegation for gaming session keys	Free contracts; $30-80k per audited wallet build *Effort:* High (security-critical contracts, needs audits) ⚠ Apache-2.0; MetaMask brand; delegation contracts need heavy security audits
Ksprefs cioccarellia/ksprefs ★ 226 · **Permissive** Apache-2.0 · Library · Fit 2/5	Kotlin wrapper for Android SharedPreferences with cryptographic helpers.	Android developers storing app settings securely	Consulting/implementation Training/courses	• Secure settings for Android banking apps • Local storage for kids' learning apps • Preferences modules for field-service apps	Free library; $2-4k per app integration *Effort:* Low (small Android library, easy to embed) ⚠ Apache-2.0; crypto helper misuse can leak data; security review needed

Agriculture Science & Precision Ag · 7

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Dssat-csm-os DSSAT/dssat-csm-os ★ 240 · **Permissive** BSD-3-Clause · Model · Fit 2/5	Cropping system model simulating crop growth, yield and soil processes. *Replaces:* Climate FieldView, Agrimetrics	Agronomists and farm-advisory firms modelling yields	Consulting/implementation Training/courses	• Yield forecasts for Kenyan seed companies • Irrigation timing for Australian wheat growers • Nitrogen planning for Dutch potato advisers	Free model; $5-15k per crop-model study *Effort:* High (scientific model, needs calibration per crop) ⚠ BSD-3-Clause: permissive; DSSAT name is a project brand; outputs need calibration
Helios PlantSimulationLab/Helios ★ 112 · **Weak copyleft** LGPL-2.1 · Tool · Fit 2/5	Open-source 3D plant simulator for modelling plant growth, light and synthetic imagery. *Replaces:* SpeedTree, Blender plant add-ons	Plant scientists and agri-tech teams simulating crops	Consulting/implementation Training/courses	• Synthetic LiDAR data for orchard robotics • Canopy light models for greenhouse growers • Plant imagery for computer-vision startups	Free simulator; $10-25k per synthetic-data project *Effort:* High (research-grade simulator, steep learning curve) ⚠ LGPL-2.1: linking rules apply; research models need validation
Py_DSSATTools daquinterop/Py_DSSATTools ★ 94 · **GPL** GPL-3.0 · Library · Fit 2/5	Python library for crop modelling with the DSSAT model.	Python agronomy researchers using DSSAT	Consulting/implementation Training/courses	• DSSAT scripting for Brazilian soy consultants • Crop model workshops for agronomy grad students • Python pipelines for seed trial analysts	Free library; $3-8k per modelling pipeline *Effort:* Medium (wraps DSSAT, needs model-specific knowledge) ⚠ GPL-3.0: distributed builds ship source; DSSAT dependency licences apply
HANTS-GEE jiezhou87/HANTS-GEE ★ 53 · **Check** NONE · Library · Fit 2/5	Google Earth Engine implementation of HANTS, for reconstructing satellite time series. *Replaces:* ENVI, ArcGIS Pro time-series tools	Remote-sensing analysts and crop monitoring teams	Consulting/implementation Training/courses	• Cloud-based NDVI cleanup for crop insurers • Satellite time series for land-trust monitoring • GEE workflows for water-rights consultants	Free code; $5-12k per remote-sensing project *Effort:* Medium (GEE-specific code, needs analyst skills) ⚠ NONE license: read first; Google Earth Engine terms apply
Aradeepopsis Gregor-Mendel-Institute/aradeepopsis ★ 52 · **GPL** GPL-3.0 · Tool · Fit 2/5	Open-source pipeline that extracts phenotypic measurements from plant images. *Replaces:* Phenospex, LemnaTec	Plant breeders and phenotyping labs	Consulting/implementation Setup + support retainer	• Leaf trait scoring for seed breeding firms • Growth tracking for vertical farms • Phenotype pipelines for university plant labs	Free pipeline; $4-10k per phenotyping study *Effort:* Medium (image pipeline, needs lab-specific calibration) ⚠ GPL-3.0: distributed builds ship source; trait results need field validation
Ndvi2Gif Digdgeo/Ndvi2Gif ★ 47 · **Permissive** MIT · Library · Fit 2/5	Google Earth Engine toolkit for NDVI composites, land cover, phenology and SAR analysis. *Replaces:* ENVI, eCognition	Remote-sensing consultants and land managers	Consulting/implementation Training/courses	• Wetland monitoring for conservation trusts • Crop phenology for regional agronomists • Flood-period mapping for water utilities	Free toolkit; $4-10k per land-monitoring study *Effort:* Medium (GEE-based workflows, needs analyst input) ⚠ MIT; Google Earth Engine terms and satellite data licences apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
CroptimizR SticsRPacks/CroptimizR ★ 32 · Weak copyleft LGPL-3.0 · Library · Fit 2/5	R package that estimates crop model parameters, for calibrating crop simulators.	Agronomy modellers calibrating crop simulators	Consulting/implementation Training/courses	• Calibration for STICS wheat models in France • Parameter fits for regional seed trials • Crop model training for agronomy students	Free package; $4-10k per calibration project *Effort:* Medium (R package, needs crop-model expertise) ⚠ LGPL-3.0: linking rules apply; STICS model licence terms may differ

Astronomy & Space Science · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Stellarium Stellarium/stellarium ★ 10.2k · GPL GPL-2.0 · App · Fit 4/5	Free desktop planetarium app that renders realistic night skies in real time. *Replaces:* SkySafari, Starry Night	Amateur astronomers and planetarium educators	Premium plugins/add-ons Content/membership	• Sky-guide plugins for amateur astronomy clubs • Planetarium shows for science museums • Observing plans for telescope shop customers	Free app; $5-15 one-time mobile pro version *Effort:* Medium (mature desktop app, large feature set) ⚠ GPL-2.0: distributed builds must ship source; Stellarium brand; data licences vary
Celestia CelestiaProject/Celestia ★ 2.4k · GPL GPL-2.0 · App · Fit 4/5	Free real-time 3D space simulator for exploring the universe on the desktop. *Replaces:* Stellarium, Universe Sandbox	Science educators and space enthusiasts	Premium plugins/add-ons Content/membership	• Space visualisation for planetarium domes • Astronomy teaching kits for high schools • Mission-visualisation for space-policy newsletters	Free app; $5-20 one-time add-on content packs *Effort:* Medium (mature desktop app, add-on content) ⚠ GPL-2.0: distributed builds must ship source; texture data terms vary
Allsky AllskyTeam/allsky ★ 1.6k · Permissive MIT · Hardware · Fit 3/5	Software for running a Raspberry Pi all-sky camera that captures night-sky images. *Replaces:* Commercial all-sky camera kits	Amateur astronomers and weather-watch clubs	Hardware kits/assembly Setup + support retainer	• All-sky cameras for meteor clubs • Cloud-cover monitors for solar-farm sites • Night-sky time-lapses for tourist lodges	Free software; $250-450 pre-built camera kit *Effort:* Medium (Pi hardware, camera setup, support load) ⚠ MIT; Raspberry Pi is a trademark; outdoor hardware needs weatherproofing
Solar-Wanderer hyqzz/Solar-Wanderer ★ 766 · Permissive MIT · App · Fit 3/5	Browser-based real-time solar system explorer using NASA JPL ephemeris data and WebGL. *Replaces:* NASA Eyes on the Solar System, Stellarium Web	Space educators and web visualisation developers	Premium plugins/add-ons Content/membership	• Solar system web tours for science teachers • Interactive orbit demos for museum websites • Comet-tracking widgets for space newsletters	Free web app; $1-3k per museum embed *Effort:* Medium (WebGL app, data pipeline for ephemerides) ⚠ MIT; NASA JPL data follows NASA usage policy; NASA name use restricted
Astropy astropy/astropy ★ 5.4k · Permissive BSD-3-Clause · Library · Fit 2/5	Core Python library for astronomy and astrophysics data, units and coordinates. *Replaces:* MATLAB astronomy toolboxes, IDL Astronomy User's Library	Astronomy researchers and university data teams	Training/courses Consulting/implementation	• Astronomy data courses for physics students • Telescope data tools for observatory startups • Coordinate tools for satellite tracking firms	Free library; $5-15k per data pipeline project *Effort:* Medium (library-level, needs data workflow built around it) ⚠ BSD-3-Clause: permissive; astropy is a community brand, do not imply endorsement
OpenSpace OpenSpace/OpenSpace ★ 1.3k · Check NOASSERTION · App · Fit 2/5	Open-source astrovisualization project for exploring space data in 3D. *Replaces:* Uniview, Celestia	Planetarium and science-museum production teams	Consulting/implementation Premium plugins/add-ons	• Planetarium shows for science museums • Mission replays for space-education startups • Dome visuals for university outreach	Free software; $10-30k per dome show build *Effort:* High (large research codebase, dome-specific setup) ⚠ NOASSERTION: read license first; NASA-linked data may carry usage terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Apod-api nasa/apod-api ★ 1.1k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Open-source service that serves NASA's Astronomy Picture of the Day through an API.	App developers building space content feeds	API/usage-based Content/membership	• APOD feeds for science-kids apps • Daily space images for newsletters • Space widgets for planetarium websites	Free API; $20-80/mo for caching and alerts *Effort:* Low (small API service, public-domain images) ⚠ Apache-2.0; APOD images have varied rights; NASA name use is restricted
Woxi ad-si/Woxi ★ 960 · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Rust reimplementation of the Wolfram Language for running Mathematica-style code. *Replaces:* Wolfram Mathematica, Maple, Matlab	Students and engineers wanting cheaper symbolic maths	Premium plugins/add-ons Training/courses	• Symbolic maths courses for engineering students • Cheaper Mathematica alternative for small labs • Rust-based calculators for maths tutors	Free core; $199-499/yr commercial license *Effort:* High (language reimplementation, huge compatibility gap) ⚠ AGPL: publish server changes; Wolfram and Mathematica are trademarks
Xalen-ephemeris vedika-io/xalen-ephemeris ★ 878 · **Permissive** Apache-2.0 · Library · Fit 2/5	Pure-Rust astronomical ephemeris library for astrology across many traditions. *Replaces:* Swiss Ephemeris, Astro.com	Astrology app and horoscope site developers	Consulting/implementation Premium plugins/add-ons	• Vedic chart engines for Indian horoscope apps • Western natal charts for astrology newsletters • Multi-tradition calendars for wellness apps	Free library; $1-3k per chart API integration *Effort:* Medium (ephemeris maths, many tradition rules) ⚠ Apache-2.0; avoid implying predictive or medical claims; tradition rules vary
Astroquery astropy/astroquery ★ 801 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python tools for querying online astronomy archives and data services.	Astronomy researchers pulling archive data	Consulting/implementation Training/courses	• Archive pulls for astronomy grad theses • Catalogue queries for observatory startups • Survey data tools for citizen-science apps	Free library; $3-8k per data pipeline build *Effort:* Medium (wraps many external services, shifting APIs) ⚠ BSD-3-Clause: permissive; upstream archive terms and citation rules apply
Jwst spacetelescope/jwst ★ 667 · **Check** NOASSERTION · Tool · Fit 2/5	Official processing pipeline for turning James Webb Space Telescope data into science images and spectra.	Astronomy researchers reducing JWST data	Training/courses Consulting/implementation	• JWST reduction workshops for astronomy grad students • Spectra pipelines for exoplanet research groups • Image processing courses for science outreach teams	Free pipeline; $5-15k per data reduction project *Effort:* High (NASA-linked pipeline, science-specific expertise) ⚠ NOASSERTION: read license first; NASA and STScI names are restricted
Asdf asdf-format/asdf ★ 568 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Interchange format and Python library for storing scientific data with metadata. *Replaces:* HDF5, FITS	Research labs exchanging instrument data	Consulting/implementation Training/courses	• Data formats for observatory spectrographs • Instrument archives for lab startups • Metadata standards for materials-lab teams	Free format; $5-15k per data pipeline migration *Effort:* Medium (format spec, needs domain schemas) ⚠ BSD-3-Clause: permissive; schema changes can break archived data
Yt yt-project/yt ★ 560 · **Check** NOASSERTION · Library · Fit 2/5	Python toolkit for analysing and visualising volumetric simulation data, mainly astrophysics. *Replaces:* Tecplot, Ensight	Computational astrophysicists and simulation labs	Training/courses Consulting/implementation	• Simulation visuals for university astrophysics courses • Turbulence plots for aerospace CFD teams • Volume analysis for climate modelling labs	Free toolkit; $5-15k per simulation analysis project *Effort:* Medium (large Python toolkit, niche domain) ⚠ NOASSERTION: read license first; simulation datasets carry their own terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Termtrack trehn/termtrack ★ 552 · GPL GPL-3.0 · Tool · Fit 2/5	Terminal app that tracks satellites and shows their live positions. *Replaces:* Heavens-Above, N2YO	Amateur satellite watchers and ham radio operators	Premium plugins/add-ons Content/membership	• Satellite passes for ham radio clubs • ISS alerts for school STEM programmes • Pass planners for amateur observatories	Free tool; $5-15 one-time alert add-on *Effort:* Low (small terminal app, easy to fork) ⚠ GPL-3.0: distributed builds ship source; orbit data sources have own terms

Bioinformatics & Genomics · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Scientific-agent-skills K-Dense-AI/scientific-agent-skills ★ 56.4k · Permissive MIT · Starter · Fit 3/5	Library of 177 agent skills and 100+ scientific databases for AI research agents. *Replaces:* Elicit, Consensus	Pharma and biotech teams piloting AI research agents	Premium plugins/add-ons Training/courses	• Literature-review skills for biotech analysts • Drug-discovery lookups for small pharma startups • Lab-notebook agents for university research groups	Free skills; $49-199/mo team library bundle *Effort:* Low (skill files, large but modular) ⚠ MIT; medical and drug claims need expert review; database terms vary
Biopython biopython/biopython ★ 5.3k · Check NOASSERTION · Library · Fit 3/5	Python library for computational molecular biology, sequences and file formats. *Replaces:* Geneious, CLC Genomics Workbench	Bioinformatics teams and university labs	Training/courses Consulting/implementation	• Sequence tools for university genomics labs • Bioinformatics bootcamps for biology grads • Pipeline code for small diagnostics startups	Free library; $5-15k per analysis pipeline *Effort:* Medium (library, needs domain-specific workflow) ⚠ NOASSERTION: read license first; Biopython name is a community brand
Deepvariant google/deepvariant ★ 3.8k · Permissive BSD-3-Clause · Tool · Fit 3/5	Deep neural network pipeline that calls genetic variants from sequencing reads. *Replaces:* Illumina DRAGEN, Sentieon	Clinical genomics labs and sequencing service firms	Managed hosting Consulting/implementation	• Variant calling for rare-disease clinics • Germline calls for plant-breeding genomics • Cloud pipelines for sequencing start-ups	Free software; $0.20-1 per genome via managed pipeline *Effort:* High (clinical-grade pipeline, validation required) ⚠ BSD-3-Clause: permissive; clinical use needs lab validation and patient-data rules
Nextflow nextflow-io/nextflow ★ 3.5k · Permissive Apache-2.0 · Framework · Fit 3/5	Workflow language and runner for data-driven computational pipelines. *Replaces:* Seqera Platform, Terra	Bioinformatics platforms and core facilities	Managed hosting Consulting/implementation	• Pipelines for sequencing core facilities • Cloud workflows for agri-genomics firms • Batch runs for pharma data teams	Free language; $10-30k per pipeline platform setup *Effort:* Medium (workflow framework, needs ops and training) ⚠ Apache-2.0; Seqera sells the commercial platform; cloud compute costs fall on user
ColabFold sokrypton/ColabFold ★ 3.0k · Permissive MIT · Tool · Fit 3/5	Accessible protein structure prediction tool built on AlphaFold-style models. *Replaces:* Schrödinger BioLuminate	Structural biology labs and biotech R&D teams	Managed hosting Consulting/implementation	• Protein models for enzyme startups • Antibody folding for small biologics firms • Structure predictions for university teaching labs	Free tool; $200-800/mo managed GPU folding service *Effort:* Medium (GPU infra, model weight licences vary) ⚠ MIT wrapper; AlphaFold weights have own terms; predictions are not lab-validated
Scanpy scverse/scanpy ★ 2.6k · Permissive BSD-3-Clause · Library · Fit 3/5	Python toolkit for single-cell genomics analysis, scaling to over 100M cells. *Replaces:* Seurat, Partek Flow, Loupe Browser	Single-cell biology labs and biotech analytics teams	Training/courses Consulting/implementation	• Cell-atlas analysis for cancer-biology labs • Single-cell workshops for biology PhD programmes • Atlas pipelines for drug-discovery startups	Free library; $8-25k per single-cell analysis project *Effort:* Medium (library, needs pipeline and visual layers) ⚠ BSD-3-Clause: permissive; scverse brand; research use, clinical use needs validation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Minimap2 lh3/minimap2 ★ 2.3k · Check NOASSERTION · Tool · Fit 3/5	Versatile pairwise aligner for genomic and spliced nucleotide sequences. *Replaces:* Illumina aligners, NextGENe	Sequencing labs and long-read genomics teams	Consulting/implementation Training/courses	• Alignment services for long-read sequencing firms • Viral genome mapping for public-health labs • Splice-aware alignment for plant research	Free tool; $3-10k per alignment pipeline *Effort:* Medium (C tool, pipeline integration needed) ⚠ NOASSERTION: read license first; research-grade aligner, validate before clinical use
MMseqs2 soedinglab/MMseqs2 ★ 2.2k · Permissive MIT · Tool · Fit 3/5	Ultra-fast sequence search and clustering suite for large biological sequence datasets. *Replaces:* CLC Genomics, Geneious	Metagenomics labs and protein-database teams	Consulting/implementation Training/courses	• Protein clustering for enzyme discovery labs • Metagenomic search for environmental monitors • Sequence dedup for biotech data teams	Free tool; $5-12k per search pipeline *Effort:* Medium (C++ suite, many search modes) ⚠ MIT; search results need biological validation; cloud compute costs apply
Gatk broadinstitute/gatk ★ 2.0k · Check NOASSERTION · Tool · Fit 3/5	Official code for GATK 4 and later, a variant-discovery toolkit for sequencing data. *Replaces:* Illumina DRAGEN, Sentieon	Sequencing labs and clinical genomics teams	Consulting/implementation Training/courses	• Germline variant calls for rare-disease labs • Joint genotyping for cattle breeding firms • GATK workshops for genomics bootcamps	Free toolkit; $10-30k per variant-calling pipeline *Effort:* High (large Java toolkit, clinical validation burden) ⚠ NOASSERTION: read license first; Broad Institute brand; clinical use needs validation
Scispacy allenai/scispacy ★ 2.0k · Permissive Apache-2.0 · Library · Fit 3/5	spaCy pipelines and models for processing biomedical and scientific text. *Replaces:* Amazon Comprehend Medical, John Snow Labs	Health-data teams extracting entities from papers	Consulting/implementation Setup + support retainer	• Entity tagging for pharma literature teams • Clinical-note cleanup for hospital data teams • Paper search tools for research librarians	Free library; $10-30k per NLP pipeline project *Effort:* Medium (NLP library, needs domain tuning and data) ⚠ Apache-2.0; biomedical models need domain validation; check patient-data rules
Galaxy galaxyproject/galaxy ★ 1.9k · Check NOASSERTION · Platform · Fit 3/5	Open web platform for running and sharing data-intensive analysis workflows. *Replaces:* Terra, Seven Bridges, DNAnexus	University core facilities and research labs	Managed hosting Setup + support retainer	• Galaxy servers for university genomics cores • Analysis portals for agri-research stations • Shared workflows for public-health labs	Free platform; $5-20k/yr hosted Galaxy instance *Effort:* Medium (mature platform, admin and tool install work) ⚠ NOASSERTION: read license first; Galaxy brand; user data privacy and grant terms
Bwa lh3/bwa ★ 1.8k · GPL GPL-3.0 · Tool · Fit 3/5	Burrows-Wheeler Aligner for mapping short DNA sequencing reads to a reference. *Replaces:* Illumina DRAGEN, Sentieon	Sequencing labs and clinical genomics teams	Consulting/implementation Training/courses	• Read alignment for exome sequencing cores • Alignment steps for cancer-panel labs • Mapping workshops for genomics bootcamps	Free aligner; $3-8k per alignment pipeline *Effort:* Medium (C tool, mature, needs pipeline wrapping) ⚠ GPL-3.0: distributed builds ship source; clinical use needs lab validation
Seqkit shenwei356/seqkit ★ 1.6k · Permissive MIT · Tool · Fit 3/5	Fast cross-platform toolkit for manipulating FASTA and FASTQ sequence files. *Replaces:* Geneious, CLC Genomics Workbench	Sequencing labs and bioinformatics core teams	Consulting/implementation Training/courses	• FASTQ cleanup for small sequencing cores • Read QC for microbiome startups • Sequence prep courses for biology grad students	Free tool; $1-3k per sequence-prep script *Effort:* Low (single static binary, easy to package) ⚠ MIT; file formats are simple; sequencing data may be patient data

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Medical-research-skills aipoch/medical-research-skills ★ 2.0k · Permissive MIT · Starter · Fit 2/5	Agent skill pack for medical research tasks: protocol design, data analysis and academic writing. *Replaces:* Elicit, Rayyan	Clinical researchers and medical writers	Premium plugins/add-ons Content/membership	• Protocol drafts for small clinical research firms • Writing aids for nursing PhD candidates • Data-analysis skills for hospital audit teams	Free skills; $29-99/mo research-writing bundle *Effort:* Low (skill files, depends on host AI tools) ⚠ MIT; medical advice and research-integrity rules apply; verify all outputs
Bioconda-recipes bioconda/bioconda-recipes ★ 1.9k · Permissive MIT · Tool · Fit 2/5	Conda recipe collection that packages bioinformatics software for the bioconda channel.	Bioinformatics engineers packaging lab software	Consulting/implementation Training/courses	• Conda packages for genomics core facilities • Software setup for university HPC teams • Tool installs for biotech pipeline teams	Free recipes; $2-6k per HPC software setup *Effort:* Low (recipe files, community-maintained) ⚠ MIT; packages inherit upstream licences; community-run channel, no SLA

CAD & Mechanical Design · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Solvespace solvespace/solvespace ★ 4.2k · GPL GPL-3.0 · App · Fit 4/5	Free parametric 2D and 3D CAD application for designing mechanical parts. *Replaces:* SolidWorks, Fusion 360	Makers and small mechanical engineering shops	Premium plugins/add-ons Training/courses	• Parametric brackets for CNC shops • Laser-cut enclosures for makerspaces • CAD courses for mechanical engineering students	Free app; $30-80 one-time premium support plugins *Effort:* Medium (mature desktop CAD, GPL codebase) ⚠ GPL-3.0: distributed builds must ship source; CAD format and export rules vary
Solidcraft tangency-labs/solidcraft ★ 14.7k · Permissive Apache-2.0 · App · Fit 3/5	Open-source parametric 3D CAD app written in Rust, with desktop, web and MCP automation. *Replaces:* Onshape, Fusion 360, SolidWorks	Small product teams and makers needing parametric CAD	Managed hosting Premium plugins/add-ons	• Parametric parts for 3D-print shops • Enclosure design for IoT hardware startups • CAD automation for AI-agent makers	Free app; $10-25/mo hosted web workspace *Effort:* High (CAD kernel, geometry bugs, large feature set) ⚠ Apache-2.0; CAD kernel bugs are costly; watch file-format compatibility
Atopile atopile/atopile ★ 4.0k · Permissive MIT · Tool · Fit 3/5	Design electronics circuit boards in code, with validation, version control and reuse. *Replaces:* Altium Designer, Cadence OrCAD	Hardware startups and embedded engineering teams	Consulting/implementation Training/courses	• PCB reuse for IoT sensor startups • Code-based boards for robotics teams • Validated designs for university maker labs	Free tool; $3-8k per board design engagement *Effort:* Medium (DSL-based, electronics domain knowledge needed) ⚠ MIT; PCB designs need human engineering review; safety certification is separate
OpenCADStudio HakanSeven12/OpenCADStudio ★ 3.9k · GPL GPL-3.0 · App · Fit 3/5	Rust CAD application for 2D and 3D drawing with DWG and DXF file support. *Replaces:* AutoCAD, BricsCAD	Architects and drafting firms wanting cheaper CAD	Premium plugins/add-ons Consulting/implementation	• Drafting tools for small architecture firms • DXF viewers for contractors • DWG conversion for sign-making shops	Free app; $100-300/yr support or plugin license *Effort:* Medium (DWG format handling, GPU rendering complexity) ⚠ GPL-3.0: distributed builds ship source; DWG format is Autodesk-owned, legal risk
Tscircuit tscircuit/tscircuit ★ 3.0k · Permissive MIT · Framework · Fit 3/5	Create real electronics designs using TypeScript and React code. *Replaces:* Altium Designer, EasyEDA	Web developers and hardware startups designing boards	Managed hosting Consulting/implementation	• PCB design for web-developer IoT kits • Board templates for hardware bootcamps • Hosted PCB previews for maker shops	Free tool; $29-99/mo hosted design workspace *Effort:* Medium (React-based DSL, hardware domain expertise) ⚠ MIT; board designs need electrical review; manufacturing rules vary

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mayo fougue/mayo ★ 2.3k · **Permissive** BSD-2-Clause · App · Fit 3/5	3D CAD viewer and file converter built on Qt and OpenCascade. *Replaces:* Autodesk Viewer, CAD Exchanger	Engineering teams converting CAD files for suppliers	Premium plugins/add-ons Consulting/implementation	• STEP converters for machine shops • CAD viewers for sales engineers • File conversion for mould makers	Free app; $30-80 one-time commercial license *Effort:* Medium (Qt and OpenCascade, desktop build work) ⚠ BSD-2-Clause: permissive; OpenCascade is LGPL; CAD file format rights vary
Pythonocc-core tpaviot/pythonocc-core ★ 2.0k · **Weak copyleft** LGPL-3.0 · Library · Fit 3/5	Python package for 3D geometry in CAD, BIM and CAM work. *Replaces:* Autodesk Forge, CATIA scripting	Engineering software teams building CAD tools	Consulting/implementation Training/courses	• Geometry tools for CNC shops • BIM scripting for small architecture firms • Toolpath code for woodworking shops	Free library; $5-15k per CAD automation project *Effort:* High (library-level, heavy geometry expertise) ⚠ LGPL-3.0: linking rules apply; OpenCascade licence terms also apply
Qcad qcad/qcad ★ 1.9k · **Check** NOASSERTION · App · Fit 3/5	Cross-platform open-source 2D CAD app with DXF support. *Replaces:* AutoCAD LT, DraftSight	Drafting shops and small contractors	Premium plugins/add-ons Consulting/implementation	• 2D floor plans for small contractors • Sign and panel layouts for fabrication shops • DXF drawings for CNC cutting services	Free app; $50-150 one-time pro plugin *Effort:* Medium (mature 2D CAD, plugin model) ⚠ NOASSERTION: read license first; DWG support needs a proprietary plugin
Leocad leozide/leocad ★ 2.9k · **Check** NONE · App · Fit 2/5	Desktop CAD app for building virtual LEGO models. *Replaces:* Stud.io, BrickLink Studio	LEGO builders and fan designers	Premium plugins/add-ons Content/membership	• Instruction booklets for LEGO fan clubs • Virtual models for brick-build event teams • Set design tools for toy-store display teams	Free app; $5-15 one-time parts pack *Effort:* Medium (LEGO-specific parts library, brand issues) ⚠ NONE license: read first; LEGO is a trademark; parts library licences unclear
StanfordDoggoProject Nate711/StanfordDoggoProject ★ 2.6k · **Permissive** MIT · Hardware · Fit 2/5	Open-source quadruped robot design that jumps, flips and trots. *Replaces:* Unitree Go2, Boston Dynamics Spot	Robotics students and maker labs	Hardware kits/assembly Training/courses	• Quadruped kits for university robotics clubs • Education robots for STEM camps • Research platforms for small robotics labs	$1-2k per kit; free design files *Effort:* High (mechanical and electronics build, safety testing) ⚠ MIT; robot safety and battery rules apply; Stanford name is restricted
Solidworks-automation-skill wzyn20051216/solidworks-automation-skill ★ 1.8k · **Permissive** MIT · Starter · Fit 2/5	AI skill and MCP toolkit that lets agents automate desktop CAD tasks. *Replaces:* SolidWorks macros, Fusion 360 API scripts	Mechanical engineers automating repetitive CAD work	Consulting/implementation Premium plugins/add-ons	• Drawing automation for job shops • Model-variant generators for product engineers • CAD batch edits for furniture makers	Free skill; $1-3k per CAD automation setup *Effort:* Medium (depends on SolidWorks licence and COM API) ⚠ MIT; SolidWorks is a Dassault trademark; automation needs a valid CAD licence
Jsketcher xibyte/jsketcher ★ 1.8k · **Check** NOASSERTION · App · Fit 2/5	Parametric 2D and 3D modeller written in pure JavaScript. *Replaces:* Onshape, Shapr3D	Web developers wanting in-browser CAD	Consulting/implementation Premium plugins/add-ons	• Browser CAD for makerspace booking sites • In-browser sketching for furniture configurators • Parametric parts for online print shops	Free app; $3-8k per embedded CAD integration *Effort:* Medium (web CAD, needs kernel and UI polish) ⚠ NOASSERTION: read license first; CAD kernel accuracy needs testing before manufacturing use
Truck ricosjp/truck ★ 1.7k · **Permissive** Apache-2.0 · Library · Fit 2/5	Rust CAD kernel library for building 3D geometry. *Replaces:* Parasolid, ACIS, OpenCascade	CAD software teams building geometry engines	Consulting/implementation Training/courses	• Geometry kernel for CAD startups • Rust geometry for robotics path planning • Kernel modules for CNC toolpath firms	Free library; $20-60k per kernel integration *Effort:* High (geometry kernel, deep expertise needed) ⚠ Apache-2.0; kernel bugs cause wrong parts; test heavily before manufacturing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Libfive libfive/libfive ★ 1.7k · Check NONE · Library · Fit 2/5	Infrastructure for solid modelling.	CAD tool developers and maker-software teams	Consulting/implementation Training/courses	• Modelling engines for maker CAD apps • Solid kernels for research teams • Solid-modelling courses for graphics students	Free library; $15-40k per modelling engine build *Effort:* High (research-grade kernel, unclear maintenance) ⚠ NONE license: read first; solid kernel correctness needs heavy testing

Chemistry & Materials · 17

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rdkit rdkit/rdkit ★ 3.7k · Permissive BSD-3-Clause · Library · Fit 3/5	Open-source cheminformatics toolkit for molecule handling, descriptors and reactions. *Replaces:* ChemAxon, Schrödinger Canvas, Dotmatics	Drug-discovery teams and chemistry software vendors	Consulting/implementation Training/courses	• Molecule filters for small drug-discovery startups • Descriptor pipelines for materials labs • Chemistry courses for pharmacy students	Free toolkit; $10-30k per chemistry data pipeline *Effort:* Medium (library, big API, domain-specific code) ⚠ BSD-3-Clause: permissive; RDKit brand; chemistry safety and export controls apply
Lammps lammps/lammps ★ 3.1k · GPL GPL-2.0 · App · Fit 3/5	Molecular dynamics software package for simulating atomic and molecular systems at scale. *Replaces:* Commercial MD suites, Schrodinger Desmond, Materials Studio	Materials scientists and pharma modelers	Consulting/implementation Training/courses	• Polymer simulation for materials startups • drug-binding MD for pharma teams • LAMMPS training for grad students	Training $500-1500 per workshop *Effort:* High (large C++ code, HPC skills needed) ⚠ GPL-2.0: distributed apps must ship source; LAMMPS is a Sandia-led brand
Openmm openmm/openmm ★ 2.0k · Check NONE · Library · Fit 3/5	GPU-accelerated toolkit for molecular simulation used in drug discovery and biophysics. *Replaces:* Schrodinger molecular dynamics tools, commercial MD suites	Pharma computational chemists and biophysics labs	Consulting/implementation Training/courses	• Binding simulations for drug discovery teams • MD training for chemistry grad students • GPU MD pipelines for biotech startups	Training $600-1500 per course *Effort:* High (C++ core with Python API, expert users) ⚠ NONE license: read the license file; OpenMM is a Stanford-linked project brand
Openbabel openbabel/openbabel ★ 1.4k · GPL GPL-2.0 · Tool · Fit 3/5	Chemical toolbox that converts between many chemical data formats. *Replaces:* ChemDraw, MarvinSketch	Chemistry labs and computational chemists	Consulting/implementation Training/courses	• File conversion for materials labs • Format bridges for drug-discovery pipelines • Chemistry data tools for teaching labs	Free toolbox; $3-8k per data conversion pipeline *Effort:* Medium (C++ toolbox, many formats to test) ⚠ GPL-2.0: distributed builds must ship source; Open Babel is a project brand
Gnina gnina/gnina ★ 1.0k · Permissive Apache-2.0 · Tool · Fit 3/5	Deep learning framework for molecular docking in drug discovery. *Replaces:* Schrödinger Glide, OpenEye FRED	Drug-discovery chemists and small biotech teams	Consulting/implementation Setup + support retainer	• Docking screens for early-stage biotechs • Virtual screens for antibiotics research labs • Pose scoring for academic chemistry groups	Free framework; $15-40k per virtual screening project *Effort:* Medium (docking pipeline, GPU needs, expert setup) ⚠ Apache-2.0; drug-discovery results need wet-lab validation; export rules may apply
Ketcher epam/ketcher ★ 930 · Permissive Apache-2.0 · Library · Fit 3/5	Web-based molecule sketcher for drawing chemical structures in the browser. *Replaces:* ChemDraw, MarvinJS	Chemistry software vendors and lab informatics teams	Consulting/implementation Premium plugins/add-ons	• Structure drawing for electronic lab notebooks • Molecule editors for patent-search firms • Browser sketchers for chemistry courses	Free editor; $5-15k per lab-software integration *Effort:* Medium (embeddable editor, chemistry-specific UI) ⚠ Apache-2.0; EPAM brand; molecule data may be confidential, keep it local

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Aizynthfinder MolecularAI/aizynthfinder ★ 913 · **Permissive** MIT · Tool · Fit 3/5	Tool for retrosynthetic planning, suggesting synthesis routes for target molecules. *Replaces:* Reaxys, CAS SciFinder retrosynthesis	Medicinal chemists and synthesis planning teams	Consulting/implementation Training/courses	• Route planning for small pharma labs • Synthesis checks for contract chemists • Retrosynthesis teaching for chemistry courses	Free tool; $10-25k per synthesis planning project *Effort:* Medium (domain tool, needs curated reaction data) ⚠ MIT; reaction data licences vary; chemical safety and export rules apply
REINVENT4 MolecularAI/REINVENT4 ★ 898 · **Permissive** Apache-2.0 · Tool · Fit 3/5	AI tool for designing new molecules, including scaffold hopping and linker design. *Replaces:* Schrödinger, Chemistry42	Drug-discovery teams running early-stage design	Consulting/implementation Setup + support retainer	• Lead optimisation for small biotech startups • Scaffold hopping for generic-drug firms • Linker design for antibody-drug conjugate labs	Free tool; $25-80k per design campaign *Effort:* Medium (ML model, needs chemistry review) ⚠ Apache-2.0; molecule design may raise dual-use and export-control concerns
Indigo epam/Indigo ★ 415 · **Permissive** Apache-2.0 · Library · Fit 3/5	Universal cheminformatics toolkit with utilities and chemical database search tools. *Replaces:* ChemAxon Marvin, Dotmatics	Chemical database teams and patent-search firms	Consulting/implementation Setup + support retainer	• Structure search for patent-search firms • Chemical database tools for CRO labs • Reaction search for materials R&D teams	Free toolkit; $10-30k per database search deployment *Effort:* Medium (C++ core, many bindings, niche domain) ⚠ Apache-2.0; EPAM brand; chemistry database data may be confidential
Thermo CalebBell/thermo ★ 796 · **Permissive** MIT · Library · Fit 2/5	Python thermodynamics and phase-equilibrium library for chemical engineering design. *Replaces:* Aspen Properties, PRO/II	Chemical engineers doing process design calcs	Consulting/implementation Training/courses	• Phase calcs for small process-design firms • Property data for biofuel startups • Thermo courses for chemical engineering students	Free library; $5-15k per process calc project *Effort:* Medium (library, needs process-simulation context) ⚠ MIT; property calculations must be validated against lab data before design use
Datamol datamol-io/datamol ★ 557 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python toolkit that simplifies molecular processing on top of RDKit.	Cheminformatics engineers at pharma and AI-chem startups	Consulting/implementation Training/courses	• Molecule cleaning for AI-chem startups • Featurisation for materials ML teams • Molecule prep for chemistry course labs	Free library; $8-20k per cheminformatics pipeline *Effort:* Medium (Python wrapper, depends on RDKit) ⚠ Apache-2.0; depends on RDKit and its licences; chemistry data rules apply
ProLIF chemosim-lab/ProLIF ★ 554 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python library that computes interaction fingerprints for protein-ligand complexes. *Replaces:* Schrödinger Maestro, MOE	Structural biology teams and drug-design groups	Consulting/implementation Training/courses	• Binding-pose analysis for kinase drug projects • Interaction data for antibody teams • ML features for docking-score models	Free library; $8-20k per binding-analysis project *Effort:* Medium (Python library, analysis-heavy, needs domain input) ⚠ Apache-2.0; interaction results need structural biology review before decisions
PubChemPy mcs07/PubChemPy ★ 518 · **Permissive** MIT · Library · Fit 2/5	Python wrapper for querying the PubChem chemical database through its REST API.	Chemistry app developers needing compound lookups	API/usage-based Consulting/implementation	• Compound lookups for chemistry tutoring apps • Name-to-structure tools for lab inventory software • PubChem data feeds for science newsletters	Free wrapper; $99-299/mo for hosted lookup API *Effort:* Low (thin wrapper around a public API) ⚠ MIT; PubChem usage policies apply; rate limits and attribution required

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Oddt oddt/oddt ★ 476 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Open drug discovery toolkit for docking, scoring and molecular modelling in Python. *Replaces:* Schrödinger Maestro, OpenEye	Computational chemists in small drug discovery teams	Consulting/implementation Training/courses	• Scoring tools for hit-finding startups • Docking workflows for academic drug labs • Pharmacology teaching modules for med-chem courses	Free toolkit; $6-15k per screening study *Effort:* Medium (library, needs docking expertise) ⚠ BSD-3-Clause: permissive; docking scores are not proof of activity
Chembl_webresource_client chembl/chembl_webresource_client ★ 453 · **Check** NOASSERTION · Library · Fit 2/5	Official Python client for querying the ChEMBL bioactivity database API.	Medicinal chemistry teams pulling bioactivity data	API/usage-based Consulting/implementation	• Bioactivity lookups for drug-repurposing startups • ChEMBL pulls for pharma data teams • Target data feeds for academic drug labs	Free client; $5-12k per data integration *Effort:* Low (thin API client, data licence matters) ⚠ NOASSERTION: read license first; ChEMBL data terms may require attribution
Bofire experimental-design/bofire ★ 424 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python library for experimental design and multi-objective Bayesian optimisation. *Replaces:* Minitab DOE, JMP DOE, Synthace	Process chemists and R&D teams designing experiments	Consulting/implementation Training/courses	• DOE for formulation labs • Bayesian optimisation for coatings startups • Experiment plans for food-science teams	Free library; $10-30k per experiment-design project *Effort:* Medium (library needs lab-workflow integration) ⚠ BSD-3-Clause: permissive; experimental results need lab checks; safety rules apply
Bgolearn Bin-Cao/Bgolearn ★ 160 · **Permissive** MIT · Library · Fit 2/5	Official Python implementation of Bayesian global optimization for materials design. *Replaces:* Commercial materials-design optimizers, Citrine Informatics	Materials scientists and alloy R&D teams	Consulting/implementation Training/courses	• Alloy design optimization for metals startups • process tuning for coatings labs • materials ML workshops for grad students	Consulting $5-15k per project *Effort:* Medium (research library, needs domain tuning) ⚠ MIT fine; NPJ paper citation expected; domain validation needed

Climate, Weather & Environment · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Tuya-local make-all/tuya-local ★ 3.7k · **Permissive** MIT · Tool · Fit 3/5	Home Assistant integration that controls Tuya devices locally, without the cloud. *Replaces:* Tuya Cloud apps, SmartLife app	Smart-home hobbyists using Tuya devices	Setup + support retainer Consulting/implementation	• Local Tuya control for rental flats • Offline smart plugs for care homes • Local device setup for small smart-home installers	Free integration; $150-400 per home setup *Effort:* Medium (device-by-device protocol work, many models) ⚠ MIT; Tuya is a brand; device protocol changes can break local control
Cloud-carbon-footprint cloud-carbon-footprint/cloud-carbon-footprint ★ 1.1k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Tool that estimates energy use and CO2e emissions from public cloud usage. *Replaces:* Watershed, Persefoni	Finance and sustainability teams reporting cloud emissions	Managed hosting Vertical SaaS	• Cloud carbon reports for Dutch SaaS firms • Emissions dashboards for agency clients • Scope 3 cloud data for UK retailers	$99-499/mo hosted dashboard, free self-host *Effort:* Medium (cloud-provider data pipelines, emission factors) ⚠ Apache-2.0; emission factors are estimates; sustainability reporting rules vary
Iris SciTools/iris ★ 729 · **Permissive** BSD-3-Clause · Library · Fit 3/5	Python package for analysing and visualising Earth science data such as climate and ocean model outputs. *Replaces:* Commercial geoscience analysis tools, IDL, MATLAB climate toolboxes	Climate scientists and weather agencies	Consulting/implementation Training/courses	• Climate data analysis for weather agencies • ocean model processing for port authorities • Iris training for climate PhD students	Training $600-1500 per course *Effort:* Medium (Python package, needs domain tooling) ⚠ BSD-3-Clause fine; UK Met Office-linked project, avoid implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Oceananigans.jl CliMA/Oceananigans.jl ★ 1.4k · **Permissive** MIT · Library · Fit 2/5	Julia software for fast fluid-dynamics simulations, ocean-focused, on CPUs and GPUs. *Replaces:* ANSYS Fluent, COMSOL Multiphysics	Ocean scientists and climate modelling groups	Training/courses Consulting/implementation	• Ocean models for coastal engineering firms • Turbulence labs for university fluid courses • Simulation services for offshore wind surveys	Free software; $10-40k per simulation project *Effort:* High (scientific Julia code, specialist expertise) ⚠ MIT; scientific results need domain validation; GPU hardware costs apply
CESM ESCOMP/CESM ★ 496 · **Check** NOASSERTION · Model · Fit 2/5	Community Earth System Model: a coupled climate model for simulating Earth's climate. *Replaces:* Met Office Unified Model	Climate scientists and national labs	Consulting/implementation Training/courses	• Regional climate runs for insurers • Model teaching for climate courses • Downscaling studies for water utilities	Free model; $20-60k per climate study *Effort:* High (huge Fortran model, supercomputer needs) ⚠ NOASSERTION: read license first; NCAR and UCAR names are restricted
Veros team-ocean/veros ★ 401 · **GPL** GPL-3.0 · Library · Fit 2/5	Versatile ocean simulator written in pure Python, powered by JAX. *Replaces:* MOM6, ROMS	Oceanographers and coastal modelling teams	Consulting/implementation Training/courses	• Coastal flow models for port authorities • Ocean courses for marine science students • Lake-circulation studies for water boards	Free simulator; $15-40k per ocean modelling study *Effort:* High (scientific model, JAX stack, expert users) ⚠ GPL-3.0: distributed builds ship source; scientific results need validation
HAIR DAB-LABS/HAIR ★ 350 · **Permissive** MIT · App · Fit 2/5	Home Assistant panel for learning infrared signals and assigning them to devices. *Replaces:* Logitech Harmony, SwitchBot Hub	Home Assistant users controlling IR devices	Premium plugins/add-ons Consulting/implementation	• IR control for hotel room TVs • Air conditioning control for small offices • Universal remotes for care-home residents	Free panel; $80-200 per home IR setup *Effort:* Low (single panel, HA-specific UI) ⚠ MIT; depends on Home Assistant platform changes; IR brand codes vary
Rnoaa ropensci/rnoaa ★ 342 · **Check** NOASSERTION · Library · Fit 2/5	R package for accessing many NOAA weather and climate data APIs.	R analysts pulling weather and climate data	Consulting/implementation Training/courses	• Weather data for crop insurers • Climate data pulls for agricultural consultancies • NOAA data labs for environmental courses	Free package; $3-8k per climate data project *Effort:* Medium (R package, many shifting APIs) ⚠ NOASSERTION: read license first; NOAA data is public; API limits apply
VIC UW-Hydro/VIC ★ 307 · **Permissive** MIT · Model · Fit 2/5	Macroscale hydrologic model for simulating river-basin water and energy balance.	Hydrology consultants and water agencies	Consulting/implementation Training/courses	• Basin flood models for water boards • Drought studies for irrigation districts • Climate-impact river models for insurers	Free model; $15-40k per basin study *Effort:* High (scientific model, calibration per basin) ⚠ MIT; model outputs need calibration; flood-risk decisions need professional sign-off
Oggm OGGM/oggm ★ 270 · **Permissive** BSD-3-Clause · Model · Fit 2/5	Open global model that simulates glacier change under climate scenarios.	Glaciologists and climate-risk consultancies	Consulting/implementation Training/courses	• Glacier-melt risk for hydropower firms • Water-supply studies for alpine towns • Climate-risk checks for tourism boards	Free model; $20-50k per glacier risk study *Effort:* High (research model, specialist calibration) ⚠ BSD-3-Clause: permissive; projections are scenario-based, not forecasts
Geos-chem geoschem/geos-chem ★ 242 · **Check** NOASSERTION · Model · Fit 2/5	Atmospheric chemistry science codebase used inside GEOS-Chem model wrappers.	Atmospheric chemists and air-quality agencies	Consulting/implementation Training/courses	• Air-quality studies for city councils • Emissions models for energy consultancies • Atmospheric teaching runs for university courses	Free code; $25-60k per air-quality study *Effort:* High (large Fortran science model, expert setup) ⚠ NOASSERTION: read license first; GEOS-Chem name is a community brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Claude-carbon gwittebolle/claude-carbon ★ 237 · Permissive MIT · Tool · Fit 2/5	Tracks the carbon footprint of your Claude Code sessions in the terminal and desktop app. *Replaces:* Watershed, Greenly	Developers and teams tracking AI-tool emissions	Premium plugins/add-ons Content/membership	• AI-use carbon logs for consulting firms • Session footprints for ESG-minded dev teams • Carbon tracking for AI-heavy agencies	Free app; $5-15/seat/mo team dashboard *Effort:* Low (single tool, estimation logic simple) ⚠ MIT; carbon numbers are estimates; Claude is an Anthropic trademark
NCDatasets.jl JuliaGeo/NCDatasets.jl ★ 195 · Permissive MIT · Library · Fit 2/5	Julia package for loading and creating NetCDF files used in climate and ocean data. *Replaces:* MATLAB NetCDF toolboxes, commercial scientific data tools	Julia scientists handling climate and ocean data	Consulting/implementation Training/courses	• NetCDF pipelines for climate research labs • ocean model I/O for research groups • Julia data training for geoscience students	Training $400-1000 per course *Effort:* Low (Julia package, niche language) ⚠ MIT fine; no trademark issue, easy to embed
Oce dankelley/oce ★ 162 · GPL GPL-3.0 · Library · Fit 2/5	R package for oceanographic data processing, from CTD profiles to plots and maps. *Replaces:* Commercial oceanographic software, MATLAB seawater toolboxes	Oceanographers working in R	Consulting/implementation Training/courses	• CTD data processing for marine survey firms • R oceanography training for grad students • processing services for coastal monitoring	Training $300-800 per course *Effort:* Low (R package, specialist users, strong docs) ⚠ GPL-3.0: distributed apps must ship source; oceanographic claims need care
Gribberish mpiannucci/gribberish ★ 76 · Permissive MIT · Library · Fit 2/5	Rust library for reading GRIB weather and forecast files, with Python bindings. *Replaces:* ecCodes-based pipelines, commercial weather data SDKs	Weather data engineers and forecasting firms	Consulting/implementation API/usage-based	• GRIB ingestion for energy-trading desks • forecast feeds for drone operators • weather pipelines for agriculture apps	Usage-based $0.01-0.05 per file *Effort:* Low (Rust library, focused and fast) ⚠ MIT fine; WMO GRIB format is standard, no trademark issue

Clinical Research & Trials · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LibreClinica reliatec-gmbh/LibreClinica ★ 83 · Weak copyleft LGPL-3.0 · App · Fit 4/5	Open-source clinical trial EDC and data management system, successor to OpenClinica. *Replaces:* Medidata Rave, Oracle InForm, OpenClinica Enterprise	Academic trial units and mid-size biotech sponsors	Managed hosting Setup + support retainer	• Hosted EDC for academic investigator sites • validated LibreClinica for device trials • study build service for rare-disease sponsors	Hosting $800-3000/mo per study *Effort:* Medium (multi-study, role-based, needs GxP validation) ⚠ LGPL-3.0 ok; LibreClinica and OpenClinica are trademarks, rename carefully
Clinical_quality_language cqframework/clinical_quality_language ★ 338 · Permissive Apache-2.0 · Library · Fit 3/5	Reference tooling for HL7 CQL, a language for clinical decision support and quality measures. *Replaces:* Proprietary clinical rule engines, eCQM authoring tools	Health IT vendors building eCQM and CDS features	Consulting/implementation Setup + support retainer	• CQL measure authoring for ACO quality teams • CQL rule testing for EHR vendors • CDS hooks for rural clinics	Support contracts $10k-50k/yr per organization *Effort:* High (spec-heavy, needs clinical domain expertise) ⚠ Apache-2.0 fine; HL7 specs and terminology licensing need checking
Admiral pharmaverse/admiral ★ 324 · Permissive Apache-2.0 · Library · Fit 3/5	R package for building ADaM analysis datasets used in clinical trial submissions. *Replaces:* SAS-based ADaM macro libraries	Biostatistics teams at pharma sponsors and CROs	Consulting/implementation Training/courses	• ADaM programming training for SAS-to-R migrations • ADaM validation for small biotechs • oncology dataset pipelines in R	Training $1-3k per seat; implementation $20-60k *Effort:* Medium (R-only, needs validated CDISC knowledge) ⚠ Apache-2.0 fine; GxP validation still required for regulated submissions
Edc-ce sovity/edc-ce ★ 95 · Check NOASSERTION · Platform · Fit 3/5	Community edition of an electronic data capture system for clinical studies. *Replaces:* Medidata Rave, Oracle Clinical One, Viedoc	Small clinical sites and academic trial groups	Managed hosting Setup + support retainer	• EDC setup for academic oncology trials • low-cost EDC for rare-disease registries • EDC for Latin American investigator sites	$500-2000/mo hosted per study *Effort:* High (needs validation and hosting work) ⚠ NOASSERTION: read license; GxP validation needed; sovity name is a brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cohort360-FrontEnd aphp/Cohort360-FrontEnd ★ 56 · Permissive Apache-2.0 · App · Fit 3/5	Web app for building patient cohorts and visualizing health records from a hospital data warehouse. *Replaces:* i2b2 web clients, commercial cohort-discovery tools	Hospital research departments and data warehouses	Setup + support retainer Consulting/implementation	• Cohort building for university hospital research units • i2b2 migration for French hospitals • rare-disease cohort dashboards	Setup $30-80k plus $5k/yr support *Effort:* High (needs Cohort360 backend and hospital data) ⚠ Apache-2.0 fine; health data hosting rules (GDPR, HDS) apply
PyCap redcap-tools/PyCap ★ 217 · Permissive MIT · Library · Fit 2/5	Python client wrapper for the REDCap research database API. *Replaces:* Manual REDCap API scripting	Clinical research data managers using Python	Consulting/implementation Setup + support retainer	• REDCap-to-Python pipelines for oncology registries • automated REDCap exports for CROs • REDCap QA scripts for neurology	Setup projects $2-8k each *Effort:* Low (thin API wrapper, easy to embed) ⚠ MIT fine; REDCap is a Vanderbilt-licensed product, institutional access needed
REDCapR OuhscBbmc/REDCapR ★ 137 · Check NOASSERTION · Library · Fit 2/5	R package for reading and writing REDCap projects through its API. *Replaces:* Manual REDCap API scripts	Research data analysts working in R	Consulting/implementation Setup + support retainer	• REDCap-to-R dashboards for academic medical centers • public health survey pipelines • R-based REDCap audits for pharma	Support retainers $1-4k/mo per institution *Effort:* Low (simple R wrapper, widely used) ⚠ NOASSERTION: read license; REDCap is a Vanderbilt-licensed product
Biostats sebasquirarte/biostats ★ 89 · Check NOASSERTION · Library · Fit 2/5	R toolbox for biostatistics and clinical data analysis from a Mexican pharma team. *Replaces:* SAS biostatistics macros, commercial stats add-ons	Biostatisticians at Latin American CROs	Consulting/implementation Training/courses	• R biostats training for Spanish-speaking CRO staff • sample-size tools for Mexican trial sites • QA templates for generics makers	Training $300-800 per course *Effort:* Medium (R package, needs docs and validation work) ⚠ NOASSERTION: read license; code from a pharma company team
Redcap-docker-compose 123andy/redcap-docker-compose ★ 82 · Check NONE · Tool · Fit 2/5	Docker Compose setup for running REDCap locally for development and testing.	REDCap developers at research institutions	Setup + support retainer	• REDCap sandbox setup for hospital IT teams • dev environments for CRO integrators • containerized REDCap for university data cores	$200-1000 per setup engagement *Effort:* Low (compose files, but REDCap licensing dominates) ⚠ NONE license; REDCap needs your own Vanderbilt license, no redistribution
Ctrdata rfhb/ctrdata ★ 62 · Check NOASSERTION · Library · Fit 2/5	R package that aggregates and analyses clinical trial data from public registers. *Replaces:* Commercial trial intelligence, Citeline Trialtrove	Regulatory consultants and pharma analysts	Consulting/implementation Setup + support retainer	• Trial registry monitoring for generic drug makers • EU trial benchmarking for HTA consultants • registry pipelines for patient groups	Retainers $1-3k/mo per client *Effort:* Low (R package, well-documented data sources) ⚠ NOASSERTION: check license; register terms of use apply to retrieved data
Cards pharmaverse/cards ★ 61 · Check NOASSERTION · Library · Fit 2/5	R package creating CDISC analysis results data for clinical trial outputs. *Replaces:* SAS-based analysis results tooling	Clinical programmers at pharma sponsors	Consulting/implementation Training/courses	• Analysis results data for oncology submissions • SAS-to-R migration for medium biotechs • ARD training for programmers	Training $1-2k per seat *Effort:* Medium (R-only, requires CDISC ARD domain knowledge) ⚠ NOASSERTION: read license; pharmaverse packages need validation for submissions
Sdtm_mapper stomioka/sdtm_mapper ★ 59 · GPL GPL-3.0 · Tool · Fit 2/5	AI-assisted mapping of clinical source data to CDISC SDTM domains. *Replaces:* Manual SDTM mapping, commercial mapping tools	CRO data management teams	Consulting/implementation Setup + support retainer	• SDTM mapping for oncology CROs • AI mapping for legacy trial archives • SDTM automation for small biotechs	Per-study mapping fees $3-10k *Effort:* Medium (ML pipeline, needs validation and data work) ⚠ GPL-3.0: distributed apps must ship source; FDA submission validation burden

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
CDISC_pilot_replication atorus-research/CDISC_pilot_replication ★ 55 · Permissive MIT · Starter · Fit 2/5	R replication of CDISC pilot study tables using PHUSE test data.	Clinical programming trainers and R learners	Training/courses Content/membership	• R clinical reporting course for SAS programmers • CDISC pilot exercises for biostats students • table-shell templates	Course $200-600 per learner *Effort:* Low (reference code, mostly a teaching example) ⚠ MIT fine; PHUSE test data has separate terms, check them

EDA & Circuit Design · 10

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Kicad-jlcpcb-tools Bouni/kicad-jlcpcb-tools ★ 2.1k · Permissive MIT · Tool · Fit 3/5	KiCad plugin generating JLCPCB BOM and placement files with LCSC part lookup. *Replaces:* Manual BOM preparation, Octopart-style BOM tools	Hobbyist and small-batch PCB makers	Premium plugins/add-ons Setup + support retainer	• Assembly-ready files for maker shops • JLCPCB onboarding for hardware startups • LCSC sourcing for robotics teams	Premium support $15-40/mo per seat *Effort:* Low (KiCad plugin, narrow but polished) ⚠ MIT fine; JLCPCB and LCSC are trademarks, do not imply partnership
Skidl devbisme/skidl ★ 1.7k · Permissive MIT · Library · Fit 3/5	Python library for describing and generating electronic circuit netlists in code. *Replaces:* Manual schematic capture, netlist scripting in commercial tools	Embedded engineers building circuit-as-code workflows	Consulting/implementation Training/courses	• Circuit-as-code training for embedded teams • netlist generators for robotics startups • test-fixture netlists for hardware QA	Training $500-1500 per seat *Effort:* Medium (Python library, needs wrappers and docs) ⚠ MIT fine; offer services, not a rebranded clone of the library
Klayout KLayout/klayout ★ 1.3k · GPL GPL-3.0 · App · Fit 3/5	Desktop layout viewer and editor for chip GDS and OASIS design files. *Replaces:* Cadence Virtuoso layout viewer, Calibre RVE	Chip design teams and tapeout reviewers	Consulting/implementation Training/courses	• GDS review service for MPW tapeouts • KLayout scripting training for layout engineers • layout automation for analog shops	Training $400-900 per course *Effort:* Medium (desktop app, Ruby and Python scripting hooks) ⚠ GPL-3.0: distributed builds must ship source; KLayout is a project brand
Siliconcompiler siliconcompiler/siliconcompiler ★ 1.2k · Permissive Apache-2.0 · Framework · Fit 3/5	Python framework that orchestrates hardware build and verification flows across tools. *Replaces:* Manual EDA flow scripts, commercial flow managers	Chip design teams running multi-tool flows	Consulting/implementation Setup + support retainer	• Flow automation for open-silicon tapeout teams • verification CI for robotics chip work • flow setup for university groups	Support $2-6k/mo per team *Effort:* High (flow plumbing across many tools, complex) ⚠ Apache-2.0 fine; commercial EDA tools still need their own licenses
Skywater-pdk google/skywater-pdk ★ 3.8k · Permissive Apache-2.0 · Library · Fit 2/5	Open 130nm process design kit files for chip design tools. *Replaces:* Commercial foundry PDKs, licensed 130nm libraries	Open-hardware chip startups and university tapeout teams	Consulting/implementation Training/courses	• MPW tapeout consulting for university labs • 130nm chip design courses • open-silicon IP validation for startups	Consulting $5-20k per tapeout project *Effort:* High (foundry-specific, needs process expertise) ⚠ Apache-2.0; actual fabrication needs separate SkyWater foundry agreements
OpenROAD The-OpenROAD-Project/OpenROAD ★ 3.3k · Permissive BSD-3-Clause · Tool · Fit 2/5	Open-source RTL-to-GDS physical design flow for digital chip implementation. *Replaces:* Cadence Innovus, Synopsys IC Compiler, Siemens Aprisa	Chip design teams and university tapeout groups	Consulting/implementation Training/courses	• OpenROAD flow training for chip design students • flow setup for open-silicon startups • physical design consulting for 130nm tapeouts	Consulting $10-40k per tapeout *Effort:* High (C++/Tcl heavy, complex install and tuning) ⚠ BSD-3-Clause: keep notices; OpenROAD is a project brand, avoid implied endorsement
Kicad-happy aklofas/kicad-happy ★ 1.6k · Permissive MIT · Tool · Fit 2/5	AI agent skills that analyze KiCad schematics, PCB layouts and BOMs for review. *Replaces:* Manual schematic review, commercial design-review services	Hardware startups and electronics design teams	Setup + support retainer Agency service	• Automated schematic review for medical device startups • EMC pre-scan checks for IoT makers • BOM audits for contract manufacturers	Retainer $300-1500/mo per team *Effort:* Medium (agent skills, needs packaging and support) ⚠ MIT fine; AI output needs engineer sign-off, liability stays with you

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Fusesoc olofk/fusesoc ★ 1.5k · **Permissive** BSD-2-Clause · Tool · Fit 2/5	Build and package manager tool for FPGA and ASIC hardware projects. *Replaces:* Vendor IP build flows, manual Makefile setups	FPGA teams managing reusable IP cores	Consulting/implementation Training/courses	• FPGA IP reuse setup for embedded startups • core library management for research labs • FuseSoC workshops for FPGA courses	Training $800-2000 per workshop *Effort:* Medium (CLI tool, needs integration into flows) ⚠ BSD-2-Clause fine; low trademark risk, mainly tooling integration
Edalize olofk/edalize ★ 805 · **Permissive** BSD-2-Clause · Library · Fit 2/5	Python abstraction library that drives many EDA tools from one interface. *Replaces:* Manual per-tool build scripts	FPGA and ASIC tool-flow engineers	Consulting/implementation Setup + support retainer	• Multi-vendor FPGA CI for embedded firms • tool-flow abstraction for research labs • simulator switching for verification teams	Setup $3-10k per integration *Effort:* Medium (Python library, needs wrappers and support) ⚠ BSD-2-Clause fine; vendor tool licenses still apply
OpenROAD-flow-scripts The-OpenROAD-Project/OpenROAD-flow-scripts ★ 798 · **Check** NOASSERTION · Tool · Fit 2/5	Scripts and configs that run the OpenROAD RTL-to-GDS flow on example designs. *Replaces:* Commercial place-and-route script kits	Chip design teams starting physical design	Consulting/implementation Training/courses	• Flow setup for 130nm student tapeouts • OpenROAD onboarding for analog design teams • flow tuning for RISC-V cores	Setup $5-15k per project *Effort:* Medium (scripts depend on OpenROAD and platforms) ⚠ License NOASSERTION: read it; OpenROAD brand, avoid implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rebass rebassjs/rebass ★ 7.9k · **Permissive** MIT · Library · Fit 2/5	React primitive UI components built on styled-system theming. *Replaces:* Material UI, Chakra UI	React teams wanting a themed component kit	Consulting/implementation White-label reseller	• Themed component kits for design agencies • white-label UI kits for fintech apps • theme packs for small SaaS	Theme kits $99-299 one-time *Effort:* Medium (theme system, needs full component set) ⚠ MIT fine; check maintenance status before adopting
ICS-Security-Tools ITI/ICS-Security-Tools ★ 2.1k · **Permissive** CC-BY-4.0 · Tool · Fit 2/5	Curated collection of tools and tips for exploring industrial control system security. *Replaces:* Commercial ICS security scanners, OT consulting playbooks	OT security engineers at utilities	Training/courses Content/membership	• ICS security training for utility staff • OT assessment playbooks for plant operators • ICS labs for engineering schools	Membership $30-100/mo per seat *Effort:* Low (curated list, not a product) ⚠ CC-BY-4.0 needs attribution; listed tools carry their own licenses

GIS & Mapping Platforms · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
GeoLibre opengeos/GeoLibre ★ 8.4k · **Permissive** MIT · App · Fit 3/5	Browser, desktop and notebook GIS platform for visualizing and analyzing geospatial data. *Replaces:* ArcGIS Online, QGIS Cloud, Felt	GIS teams and planners needing web GIS	Managed hosting Setup + support retainer	• Web GIS portals for county planning offices • mapping workspaces for field survey teams • notebook GIS for climate researchers	Hosted $99-499/mo per workspace *Effort:* Medium (multi-platform, needs auth and hosting work) ⚠ MIT fine; check each dataset's own license before redistributing
Mapshaper mbloch/mapshaper ★ 4.2k · **Check** NOASSERTION · Tool · Fit 3/5	Browser and command-line tool for editing and simplifying shapefiles, GeoJSON and TopoJSON. *Replaces:* ArcGIS Pro simple edits, commercial shapefile editors	GIS analysts and cartographers preparing map data	Premium plugins/add-ons Consulting/implementation	• Map simplification for atlas publishers • boundary cleanup for election offices • GeoJSON prep for web map teams	Premium plugin $49-149 one-time *Effort:* Low (CLI and web tool, mostly ready to use) ⚠ NOASSERTION: read license; terms unclear, check before shipping
Maputnik maplibre/maputnik ★ 2.7k · **Permissive** MIT · App · Fit 3/5	Open-source visual editor for designing MapLibre map styles. *Replaces:* Mapbox Studio, commercial map style editors	Cartographers and web GIS developers	Managed hosting Setup + support retainer	• Hosted style editor for tourism boards • branded basemaps for city governments • map themes for real-estate portals	Hosted $29-149/mo per team *Effort:* Medium (web app, needs auth, multi-user and hosting) ⚠ MIT fine; MapLibre is a project brand, avoid implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Shadowbroker BigBodyCobain/Shadowbroker ★ 11.5k · AGPL AGPL-3.0 · App · Fit 2/5	Open-source OSINT dashboard combining flight, satellite and seismic feeds on one map. *Replaces:* Commercial OSINT platforms, Palantir-style fusion tools	Journalists, risk analysts, geopolitical research desks	Managed hosting Consulting/implementation	• Geopolitical risk briefings for insurers • flight-tracking for airport ops • seismic alert dashboards for shipping	Hosted $200-800/mo per analyst seat *Effort:* High (many external feeds, heavy integration work) ⚠ AGPL-3.0: publish server changes; tracking individuals raises privacy risk
Turf Turfjs/turf ★ 10.5k · Permissive MIT · Library · Fit 2/5	Modular JavaScript geospatial analysis library for distances, areas and buffers. *Replaces:* ArcGIS JavaScript analysis, commercial geospatial APIs	Web GIS developers building location features	Consulting/implementation Premium plugins/add-ons	• Delivery zone checks for food-delivery apps • buffer analysis for utility field crews • coverage maps for telecom sales	Support contracts $3-10k per year *Effort:* Medium (library, needs a product layer built around it) ⚠ MIT fine; easy to embed, no trademark issue
Jiangshan-map DeanChensj/jiangshan-map ★ 4.5k · GPL GPL-3.0 · App · Fit 2/5	Interactive timeline map of Chinese history across dynasties with territory snapshots and place genealogy. *Replaces:* Commercial historical atlases, history education apps	History teachers and Chinese-language publishers	Content/membership Mobile app on top	• Chinese history atlas for secondary schools • dynasty map app for travel sites • poetry-route tours for cultural tourism	Membership $3-8/mo per subscriber *Effort:* Medium (Chinese-language content, heavy data curation) ⚠ GPL-3.0 fine for hosting; historical map sources have own licenses
maptalks.js maptalks/maptalks.js ★ 4.5k · Check NONE · Library · Fit 2/5	Lightweight JavaScript library for building integrated 2D and 3D web maps. *Replaces:* Mapbox GL JS, ArcGIS Maps SDK for JavaScript	Web developers building custom map views	Consulting/implementation Premium plugins/add-ons	• Custom store-locator maps for retailers • 3D building viewers for property sites • asset maps for utility operators	Premium plugins $99-499 one-time *Effort:* Medium (library, 3D plugins need extra work) ⚠ License NONE: no grant to use; read carefully before commercial use
Rasterio rasterio/rasterio ★ 2.6k · Check NOASSERTION · Library · Fit 2/5	Python library for reading and writing geospatial raster datasets with GDAL bindings. *Replaces:* ArcGIS raster tools, commercial remote-sensing SDKs	Remote-sensing analysts and earth-observation teams	Consulting/implementation Training/courses	• Satellite imagery pipelines for agriculture consultancies • raster QA for mapping agencies • GDAL training for students	Training $600-1500 per course *Effort:* Medium (Python library, needs a product layer) ⚠ NOASSERTION: read license; wraps GDAL, check its terms too
3DTilesRendererJS NASA-AMMOS/3DTilesRendererJS ★ 2.5k · Permissive Apache-2.0 · Library · Fit 2/5	JavaScript renderer for streaming 3D Tiles into three.js, Babylon.js and react-three-fiber. *Replaces:* Cesium ion viewers, commercial 3D map viewers	Web developers building 3D geospatial viewers	Consulting/implementation Premium plugins/add-ons	• 3D city viewers for planning offices • BIM model viewers for construction firms • drone-survey viewers for surveyors	Premium viewer templates $99-299 one-time *Effort:* Medium (library, needs viewer UI and data pipeline) ⚠ Apache-2.0 fine; NASA is a government brand, avoid implied endorsement
RustGIS opengeos/RustGIS ★ 2.4k · Permissive Apache-2.0 · Library · Fit 2/5	Early pure-Rust GIS engine aiming for fast, free geospatial processing. *Replaces:* GDAL-based batch tools, commercial GIS servers	Data engineers running large geospatial batch jobs	Consulting/implementation Setup + support retainer	• Rust geoprocessing for satellite data firms • fast vector ops for logistics routing • embedded GIS for drone ground stations	Support contracts $5-15k per year *Effort:* High (early-stage engine, feature gaps likely) ⚠ Apache-2.0 fine; young project, verify features before promising
Postgis postgis/postgis ★ 2.3k · GPL GPL-2.0 · Library · Fit 2/5	Spatial database extension adding geometry, geography and raster types to PostgreSQL. *Replaces:* Oracle Spatial, SQL Server spatial, ESRI SDE	Teams storing location data in PostgreSQL	Managed hosting Consulting/implementation	• Managed PostGIS for municipal GIS offices • spatial tuning for fleet telematics • PostGIS hosting for real-estate platforms	Managed DB $150-900/mo per instance *Effort:* Medium (infrastructure, not an app to rebrand) ⚠ GPL-2.0: hosting fine; distributed modified binaries must ship source
Jts locationtech/jts ★ 2.2k · Check NOASSERTION · Library · Fit 2/5	Java library for creating and manipulating vector geometry with topology operations. *Replaces:* Esri Geometry API, commercial Java geometry SDKs	Java developers building GIS backends	Consulting/implementation Setup + support retainer	• Geometry engines for logistics routing backends • parcel-processing tools for county offices • spatial QA for utilities	Support $3-8k per year *Effort:* Medium (Java library, needs integration work) ⚠ NOASSERTION: check license; dual EPL/BSD terms, verify before use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Proj4js proj4js/proj4js ★ 2.2k · Check NOASSERTION · Library · Fit 2/5	JavaScript library for converting coordinates between map projections and datums. *Replaces:* Commercial coordinate transformation SDKs	Web GIS developers handling mixed projections	Consulting/implementation Setup + support retainer	• Coordinate conversion for surveying web apps • projection fixes for planning portals • datum handling for utility mapping	Support $1-3k per year *Effort:* Low (small, focused library, easy integration) ⚠ NOASSERTION: check license; PROJ grid data has separate terms
Sf r-spatial/sf ★ 1.5k · Check NOASSERTION · Library · Fit 2/5	R package for reading, writing and analysing simple-features vector spatial data. *Replaces:* ArcGIS vector tools, commercial GIS analysis SDKs	R analysts working with spatial data	Consulting/implementation Training/courses	• Spatial analysis for public health teams • boundary processing for election analysts • GIS R training for planners	Training $400-900 per course *Effort:* Low (mature R package, widely used) ⚠ NOASSERTION: read license; GDAL and PROJ dependencies carry their own terms

Geocoding & Routing APIs · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Chronoframe HoshinoSuzumi/chronoframe ★ 2.0k · AGPL AGPL-3.0 · App · Fit 3/5	Self-hosted personal photo gallery with albums, Live Photo support, EXIF parsing and a map. *Replaces:* Google Photos, Apple Photos, Immich-style galleries	Families and photographers wanting self-hosted galleries	Managed hosting Premium plugins/add-ons	• Self-hosted galleries for photo studios • family photo vaults for privacy-minded households • event photo sharing for planners	Hosted $5-12/mo per household *Effort:* Medium (self-hosted, needs multi-tenant and onboarding) ⚠ AGPL-3.0: publish server changes; Google Photos and Apple are brands
Geocoder alexreisner/geocoder ★ 6.4k · Permissive MIT · Library · Fit 2/5	Ruby gem that geocodes addresses and IPs across many providers. *Replaces:* Commercial geocoding APIs, address lookup SaaS	Ruby on Rails developers adding location features	Consulting/implementation Setup + support retainer	• Address validation for Rails e-commerce • geocoding for field-service apps • IP location for ad-tech Rails stacks	Support $500-2000 per year *Effort:* Low (Ruby gem, small surface, easy to embed) ⚠ MIT fine; provider terms (Google, Mapbox) govern cached results
Geopy geopy/geopy ★ 4.9k · Permissive MIT · Library · Fit 2/5	Python library that locates addresses and coordinates through many geocoding services. *Replaces:* Commercial geocoding APIs, address validation SaaS	Python data teams cleaning address datasets	Consulting/implementation Training/courses	• Address cleanup for insurance data teams • batch geocoding for public-health surveys • geocoding workshops for analytics bootcamps	Consulting $2-6k per dataset *Effort:* Low (Python library, easy to wrap) ⚠ MIT fine; provider terms (Google, Bing) restrict storing results
Use-places-autocomplete wellyshen/use-places-autocomplete ★ 1.3k · Permissive MIT · Library · Fit 2/5	React hook wrapping Google Maps Places autocomplete for address inputs. *Replaces:* Commercial address autocomplete widgets, Google Places wrappers	React developers building address forms	Consulting/implementation	• Address forms for food-delivery checkout • autocomplete for property listing sites • location pickers for ride-share onboarding	Consulting $1-3k per form *Effort:* Low (small React hook, mostly a thin wrapper) ⚠ MIT fine; Google Maps Platform terms and billing apply
Leaflet-geosearch smeijer/leaflet-geosearch ★ 1.1k · Permissive MIT · Library · Fit 2/5	Leaflet plugin adding address search that works across multiple geocoding providers. *Replaces:* Esri geocoding widgets, commercial map search tools	Web GIS developers using Leaflet maps	Consulting/implementation Premium plugins/add-ons	• Location search for store finders • property search on municipal maps • search bars for tourism map apps	Premium provider adapters $49-149 one-time *Effort:* Low (Leaflet plugin, provider config needed) ⚠ MIT fine; geocoder provider terms limit caching and display
Normalize-japanese-addresses geolonia/normalize-japanese-addresses ★ 965 · Permissive MIT · Library · Fit 2/5	Japanese address normalization library that standardizes messy address text. *Replaces:* Commercial address cleansing services for Japan	Japanese e-commerce and logistics teams	Consulting/implementation API/usage-based	• Address cleanup for Japanese e-commerce returns • delivery-address QA for courier firms • form normalization for Japanese fintech	Usage API ¥0.5-2 per address *Effort:* Low (Japanese-specific, works well as-is) ⚠ MIT fine; uses public Japanese address data, check its terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
GeocoderLaravel geocoder-php/GeocoderLaravel ★ 754 · **Permissive** MIT · Library · Fit 2/5	Laravel service provider that adds geocoding to Laravel apps across many providers. *Replaces:* Commercial geocoding APIs, paid location SaaS	Laravel developers adding location features	Consulting/implementation Setup + support retainer	• Address lookup for Laravel delivery apps • location fields for real-estate CRMs • geocoding setup for PHP agencies	Support $300-1000 per year *Effort:* Low (Laravel package, simple to configure) ⚠ MIT fine; provider API terms still apply to results
GoogleApi vivet/GoogleApi ★ 588 · **Permissive** MIT · Library · Fit 2/5	C# .NET client wrapper for many Google Maps, Places, Roads and Translate endpoints. *Replaces:* Google's official .NET client libraries, commercial mapping SDKs	.NET developers integrating Google location APIs	Consulting/implementation	• Maps integration for .NET logistics portals • places lookups for hospitality booking • translation forms for public sector	Consulting $2-6k per integration *Effort:* Low (thin wrapper around Google's own APIs) ⚠ MIT fine; Google API terms and billing apply; unofficial client
Mcp-google-map cablate/mcp-google-map ★ 489 · **Permissive** MIT · Tool · Fit 2/5	MCP server with Google Maps tools for place search, routes and travel planning via agents. *Replaces:* Google Maps Platform direct use, travel-planning APIs	AI agent builders needing location tools	API/usage-based Consulting/implementation	• Travel-planning agents for boutique tour operators • local-SEO audits for agencies • route tools for field-service bots	Usage-based $0.01-0.05 per request *Effort:* Low (MCP server, easy to package) ⚠ MIT fine; Google Maps Platform terms and API billing apply
Mapbox-java mapbox/mapbox-java ★ 438 · **Permissive** MIT · Library · Fit 2/5	Java SDK wrapping Mapbox APIs for geocoding, directions and map services. *Replaces:* Google Maps Java client, commercial routing SDKs	Java backend teams using Mapbox services	Consulting/implementation Setup + support retainer	• Routing services for Java logistics backends • geocoding for insurance claim systems • tile proxies for Android fleet apps	Support $2-6k per year *Effort:* Low (official SDK, thin wrapper on paid APIs) ⚠ MIT fine; Mapbox is a trademark; API terms and usage fees apply
Laravel-geographical-calculator karam-mustafa/laravel-geographical-calculator ★ 427 · **Permissive** MIT · Library · Fit 2/5	Laravel package calculating distances and coordinate operations with several algorithms. *Replaces:* Commercial geo-calculation libraries	Laravel developers adding distance features	Consulting/implementation	• Distance pricing for Laravel delivery apps • radius search for event-booking sites • coordinate tools for PHP field-service apps	Free; integration help $300-800 each *Effort:* Low (small utility package, easy to replace) ⚠ MIT fine; trivially replicated, very low moat
Gisgraphy gisgraphy/gisgraphy ★ 391 · **Weak copyleft** LGPL-3.0 · App · Fit 2/5	Geocoding and geolocation web services built on Geonames, OpenStreetMap and TIGER data. *Replaces:* Google Geocoding API, commercial geocoding services	Mapping teams needing self-hosted geocoding	Managed hosting Setup + support retainer	• Self-hosted geocoding for government GIS offices • address search for logistics dashboards • geolocation APIs for travel apps	Hosted $150-600/mo per region *Effort:* High (Java backend, large data imports needed) ⚠ LGPL-3.0 fine; OSM data is ODbL, attribution and share-alike apply
Mapbox-gl-geocoder mapbox/mapbox-gl-geocoder ★ 389 · **Permissive** ISC · Library · Fit 2/5	Geocoder search control for Mapbox GL JS using the Mapbox Geocoding API. *Replaces:* Commercial map search widgets, Google Places UI	Web map developers adding address search	Consulting/implementation Premium plugins/add-ons	• Store finder search for retail chains • property search bars for real-estate sites • start-point inputs for delivery apps	Premium themes $29-99 one-time *Effort:* Low (small control, depends on Mapbox API) ⚠ ISC fine; Mapbox API terms, billing and branding rules apply
Svelte-mapbox beyonk/svelte-mapbox ★ 367 · **Permissive** MIT · Library · Fit 2/5	Svelte components for Mapbox maps and autocomplete search, also usable in vanilla JS. *Replaces:* Commercial map components, Google Maps Svelte wrappers	Svelte developers building map features	Consulting/implementation	• Map embeds for Svelte real-estate sites • autocomplete for local-business directories • map components for event-ticket pages	Consulting $1-3k per component *Effort:* Low (small wrapper, Svelte-specific) ⚠ MIT fine; Mapbox trademark and API terms apply

Lab Automation & Instruments · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Synnax synnaxlabs/synnax ★ 128 · **Check** NOASSERTION · Platform · Fit 3/5	Data and operations platform for hardware systems, streaming telemetry and control. *Replaces:* NI DIAdem, SCADA suites, OSIsoft PI	Hardware test and controls teams	Managed hosting Setup + support retainer	• Telemetry for battery test labs • controls dashboards for hardware startups • data historian for test benches	Hosted $300-1500/mo per site *Effort:* High (data platform, needs deployment and tuning) ⚠ NOASSERTION: read license; check terms before hosting it for others

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Libplctag libplctag/libplctag ★ 905 · **Weak copyleft** MPL-2.0 · Library · Fit 2/5	C library giving a portable API for reading and writing Allen-Bradley and Modbus PLC data over Ethernet. *Replaces:* Kepware KEPServerEX, commercial PLC gateway SDKs	Industrial automation integrators and OEM machine builders	Consulting/implementation Setup + support retainer	• PLC data bridges for packaging-line OEMs • Modbus gateways for water utilities • Allen-Bradley telemetry for food plants	Support $3-10k per year per site *Effort:* Medium (C library, must be embedded and tested on hardware) ⚠ MPL-2.0: file-level copyleft, modified files must be shared
DynamixelSDK ROBOTIS-GIT/DynamixelSDK ★ 617 · **Permissive** Apache-2.0 · Library · Fit 2/5	SDK for ROBOTIS Dynamixel servo motors using Protocol 1.0 and 2.0 communication. *Replaces:* Vendor-specific servo SDKs, commercial motion-control libraries	Robotics builders and research labs using Dynamixel servos	Consulting/implementation Training/courses	• Servo integration training for university robotics clubs • custom arm controllers for research labs • actuator setup for educational kits	Training $400-1200 per workshop *Effort:* Low (official SDK, multi-language wrappers exist) ⚠ Apache-2.0 fine; ROBOTIS and Dynamixel are trademarks
Echomods kelu124/echomods ★ 463 · **Check** NOASSERTION · Library · Fit 2/5	Open-source ultrasound signal processing modules and building blocks for custom devices. *Replaces:* Commercial ultrasound signal processing SDKs	Hardware startups building low-cost ultrasound devices	Hardware kits/assembly Consulting/implementation	• Low-cost ultrasound for vet clinics • prototyping kits for medical device startups • sensor modules for industrial inspection	Dev kits $150-400 each *Effort:* High (regulated medical use, hardware and DSP work) ⚠ NOASSERTION: read license; medical device regulation applies to clinical use
NpTDMS adamreeve/npTDMS ★ 275 · **Weak copyleft** LGPL-3.0 · Library · Fit 2/5	NumPy-based Python reader for TDMS files produced by LabVIEW. *Replaces:* National Instruments TDMS tools	Test engineers reading LabVIEW data files	Consulting/implementation	• TDMS import for test-bench analytics • LabVIEW data conversion for aerospace labs • batch readers for automotive test teams	Consulting $1-3k per integration *Effort:* Low (small reader library, easy to embed) ⚠ LGPL-3.0 fine; TDMS is an NI format, trademark caution
Pylabview mefistotelis/pylabview ★ 177 · **Permissive** MIT · Tool · Fit 2/5	Python reader for LabVIEW RSRC files covering VI, control and library formats. *Replaces:* Commercial LabVIEW reverse-engineering tools	Engineers recovering old LabVIEW code	Consulting/implementation	• LabVIEW legacy code recovery for plant engineers • VI file auditing for test labs • migration reports for LabVIEW upgrades	Consulting $2-5k per project *Effort:* High (reverse-engineered formats, incomplete coverage) ⚠ MIT fine; LabVIEW is an NI trademark; decoding legality varies
Smuview knarfS/smuview ★ 164 · **GPL** GPL-3.0 · App · Fit 2/5	Desktop GUI for sigrok-supported power supplies, electronic loads and measurement instruments. *Replaces:* Keysight BenchVue, vendor instrument control software	Electronics labs and hardware test benches	Setup + support retainer Consulting/implementation	• Instrument control for university EE labs • power-supply test benches for battery startups • bench logging for repair shops	Support $500-2000 per year per lab *Effort:* Medium (desktop app, device-driver coverage varies) ⚠ GPL-3.0: distributed apps must ship source; sigrok brand
Kotori daq-tools/kotori ★ 128 · **AGPL** AGPL-3.0 · App · Fit 2/5	Data historian combining InfluxDB, Grafana and MQTT for IoT and sensor data. *Replaces:* OSIsoft PI, Losant, commercial IoT historians	IoT integrators and environmental monitoring firms	Managed hosting Setup + support retainer	• Sensor monitoring for farms and vineyards • weather-station data for municipalities • lab sensor logging for universities	Hosted $80-300/mo per site *Effort:* Medium (multi-component stack, needs ops work) ⚠ AGPL-3.0: publish server changes; InfluxDB and Grafana have own licenses
Grpc-labview ni/grpc-labview ★ 125 · **Permissive** MIT · Library · Fit 2/5	gRPC client and server support for LabVIEW, enabling remote calls from other languages. *Replaces:* NI DataSocket, custom LabVIEW networking	LabVIEW developers integrating external services	Consulting/implementation	• LabVIEW gRPC integration for test benches • service bridges for aerospace labs • remote control for automotive rigs	Consulting $2-6k per integration *Effort:* Low (small LabVIEW package, specialist niche) ⚠ MIT fine; LabVIEW is an NI trademark; NI-maintained
LabJackPython labjack/LabJackPython ★ 124 · **Permissive** MIT · Library · Fit 2/5	Official Python modules for LabJack U3, U6, UE9 and U12 data acquisition devices. *Replaces:* National Instruments DAQ Python APIs, commercial DAQ SDKs	Lab engineers using LabJack hardware	Hardware kits/assembly Consulting/implementation	• Sensor logging for university labs • test rigs for appliance makers • LabJack setup services for small manufacturers	Setup $300-1000 per rig *Effort:* Low (official SDK, hardware-tied) ⚠ MIT fine; LabJack is a company brand, avoid implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OEE-Designer point85/OEE-Designer ★ 121 · Permissive MIT · Tool · Fit 2/5	Build-time designer for defining OEE applications and production efficiency metrics. *Replaces:* Commercial OEE software, MES dashboards	Manufacturing plants tracking OEE	Vertical SaaS Setup + support retainer	• OEE dashboards for packaging plants • line-efficiency tracking for food processors • OEE rollouts for auto parts suppliers	Setup $5-15k per plant *Effort:* High (design-time tool, needs runtime and plant integration) ⚠ MIT fine; OEE is a standard metric, no IP barrier
Labview-mcp Zuehlke/labview-mcp ★ 119 · Permissive MIT · Tool · Fit 2/5	MCP server letting AI assistants connect to and control LabVIEW applications. *Replaces:* Manual LabVIEW scripting, NI automation tools	Test engineers using AI with LabVIEW	Setup + support retainer Consulting/implementation	• AI-assisted test scripting for aerospace labs • LabVIEW automation for ATE teams • MCP setup for automotive validation	Setup $2-6k per engagement *Effort:* Medium (MCP server, LabVIEW licensing required) ⚠ MIT fine; LabVIEW is an NI trademark; NI license needed to run
Uldaq mccdaq/uldaq ★ 116 · Permissive MIT · Library · Fit 2/5	Universal library for Measurement Computing DAQ devices on Linux. *Replaces:* Vendor DAQ drivers, commercial DAQ SDKs	Embedded Linux engineers using MCC DAQ hardware	Setup + support retainer Consulting/implementation	• Linux DAQ for test-bench OEMs • logging systems for research labs • driver integration for industrial controllers	Support $1-4k per year *Effort:* Low (C library with Python bindings, hardware-specific) ⚠ MIT fine; Measurement Computing is a brand; hardware-tied
NDAS nasa/NDAS ★ 110 · Check NOASSERTION · App · Fit 2/5	NASA data acquisition suite covering acquisition, processing, calibration, display and recording. *Replaces:* LabVIEW DAQ suites, commercial test data systems	Test facilities and aerospace labs	Consulting/implementation Setup + support retainer	• Data acquisition for wind-tunnel test teams • calibration systems for sensor makers • recording for propulsion test labs	Setup $10-40k per facility *Effort:* High (large government codebase, complex deployment) ⚠ NOASSERTION: read license; NASA marks restricted, no implied endorsement

Learning Analytics & Assessment Science · 12

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Education-agent-skills GarethManning/education-agent-skills ★ 960 · Check NOASSERTION · Tool · Fit 3/5	165 AI agent skills for teachers and school leaders covering pedagogy, curriculum and assessment. *Replaces:* Teacher planning tools, EdTech lesson-planning SaaS	Teachers, school leaders and EdTech builders	Content/membership Premium plugins/add-ons	• Lesson-planning skills for primary teachers • assessment-design skills for school boards • curriculum skills for EdTech startups	Membership $12-25/mo per teacher *Effort:* Low (agent skill packs, mainly content) ⚠ NOASSERTION: read license; curriculum content may carry separate rights
Adapt_framework adaptlearning/adapt_framework ★ 632 · GPL GPL-3.0 · Framework · Fit 3/5	Toolkit for building responsive, accessible, multilanguage HTML5 e-learning courses. *Replaces:* Articulate Storyline, Adobe Captivate	Instructional designers and e-learning agencies	Agency service Premium plugins/add-ons	• Accessible compliance courses for healthcare staff • multilingual onboarding for logistics firms • e-learning for school districts	Plugin packs $49-199 one-time *Effort:* Medium (mature framework, plugin ecosystem exists) ⚠ GPL-3.0: distributed custom plugins must ship source; Adapt is a brand
Learninglocker LearningLocker/learninglocker ★ 584 · GPL GPL-3.0 · App · Fit 3/5	Open-source learning record store that collects and analyzes xAPI learning data. *Replaces:* Watershed LRS, Yet Analytics hosted LRS	Corporate L&D teams tracking training data	Managed hosting Setup + support retainer	• xAPI analytics for corporate compliance training • LRS hosting for universities • learning dashboards for nonprofit programs	Hosted $200-800/mo per org *Effort:* Medium (needs hosting, multi-tenant polish) ⚠ GPL-3.0 fine for hosting; Learning Locker is a brand, rename carefully
Bloom Li-Evan/Bloom ★ 302 · Permissive MIT · App · Fit 3/5	AI tutor that adapts lessons to how you learn, with a Claude Code skill and self-hostable web app. *Replaces:* Khanmigo, Chegg tutoring	Self-study learners and tutoring centers	Managed hosting Content/membership	• Mandarin Socratic tutoring for overseas students • exam prep tutor for law students • language tutor for adult learners	$10-20/mo per learner, free self-hosted tier *Effort:* Medium (web app needs branding and LLM keys) ⚠ MIT fine; users pay LLM provider costs and must follow provider terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
30-Days-Of-Python Asabeneh/30-Days-Of-Python ★ 78.3k · Check NONE · Starter · Fit 2/5	Free 30-day step-by-step Python tutorial with exercises for beginner programmers. *Replaces:* Paid Python beginner courses, Codecademy Python track	Beginner programmers and career switchers	Training/courses Content/membership	• Python bootcamp prep for career switchers • Python basics for high-school teachers • Python course for finance analysts	Free core; course bundles $49-149 one-time *Effort:* Medium (tutorial content, needs course packaging) ⚠ NONE license: no reuse grant; ask permission before rebranding
Wluma max-baz/wluma ★ 957 · Permissive ISC · App · Fit 2/5	Linux daemon that adjusts screen brightness from on-screen content and an ambient light sensor. *Replaces:* Commercial auto-brightness utilities	Linux laptop users wanting auto brightness	Consulting/implementation	• Auto-brightness for kiosks • power-saving setups for laptop fleets • display tuning for signage installers	Free; setup help $50-150 per device *Effort:* Low (niche Linux daemon, hardware-dependent) ⚠ ISC fine; sensor support varies; niche user base
XAPI-Spec adlnet/xAPI-Spec ★ 955 · Permissive Apache-2.0 · Framework · Fit 2/5	Specification describing how learning systems exchange records of learner activity. *Replaces:* Proprietary LMS tracking formats, SCORM tracking	EdTech vendors and LMS integrators	Consulting/implementation Training/courses	• xAPI integration for corporate training teams • xAPI reporting for K-12 districts • xAPI for military training systems	Integration projects $8-30k per LMS *Effort:* Medium (spec only, needs implementation work) ⚠ Apache-2.0 fine; ADL and xAPI names are trademarks, check
ADL_LRS adlnet/ADL_LRS ★ 334 · Permissive Apache-2.0 · App · Fit 2/5	ADL's open-source Learning Record Store for storing Experience API learning data. *Replaces:* Watershed LRS, Rustici LRS	Training teams storing xAPI statements	Managed hosting Setup + support retainer	• xAPI storage for military training programs • LRS hosting for corporate learning vendors • statement storage for research pilots	Hosted $150-500/mo per instance *Effort:* Medium (government-maintained, basic admin UI) ⚠ Apache-2.0 fine; ADL is a government brand, no endorsement
TinCanJS RusticiSoftware/TinCanJS ★ 208 · Permissive Apache-2.0 · Library · Fit 2/5	JavaScript library for sending and reading Experience API (Tin Can) learning statements. *Replaces:* Commercial xAPI SDKs, custom LRS clients	EdTech developers adding xAPI tracking	Consulting/implementation	• xAPI tracking for web courses • learning-statement hooks for corporate LMS plugins • xAPI reporting for nonprofit training	Consulting $2-6k per integration *Effort:* Low (small client library, easy to embed) ⚠ Apache-2.0 fine; Rustici is a company brand; xAPI naming
OpenTutor zijinz456/OpenTutor ★ 168 · Permissive MIT · App · Fit 2/5	Local-first adaptive learning workspace that turns uploaded materials into notes, quizzes and tutoring. *Replaces:* Quizlet, Anki, Chegg study tools	Students and corporate trainees studying from documents	Managed hosting Mobile app on top	• Study workspaces for medical students • compliance-training quizzes for clinics • exam prep for trade certifications	Hosted $8-15/mo per student *Effort:* Medium (multi-provider LLM setup, needs polish) ⚠ MIT fine; LLM provider terms apply; student data privacy rules
Lrsql yetanalytics/lrsql ★ 144 · Permissive Apache-2.0 · App · Fit 2/5	SQL-based Learning Record Store for storing Experience API statements in a relational database. *Replaces:* Watershed LRS, Learning Locker, Rustici LRS	L&D teams wanting SQL-backed xAPI storage	Managed hosting Setup + support retainer	• xAPI storage for hospital training records • SQL-backed LRS for university course analytics • LRS hosting for compliance vendors	Hosted $100-400/mo per instance *Effort:* Medium (SQL-backed, smaller feature set) ⚠ Apache-2.0 fine; Yet Analytics brand; xAPI naming
Tutor-mcp ArnaudGuiovanna/tutor-mcp ★ 97 · Permissive MIT · Tool · Fit 2/5	MCP server that turns any LLM into an intelligent tutoring system using cognitive science methods. *Replaces:* Commercial AI tutoring platforms, Khanmigo	Schools and EdTech builders adding AI tutoring	API/usage-based Setup + support retainer	• AI tutoring agent for language schools • MCP tutor for coding bootcamps • adaptive math practice for tutoring centers	Usage-based $0.02-0.10 per session *Effort:* Medium (MCP server, needs learner model and UI) ⚠ MIT fine; AI tutoring claims need evidence; student privacy rules

Mathematics & Computer Algebra · 6

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Sympy sympy/sympy ★ 15.1k · Check NOASSERTION · Library · Fit 3/5	Pure-Python computer algebra system for symbolic mathematics, equations and calculus. *Replaces:* Mathematica, Maple, MATLAB Symbolic Math Toolbox	Engineers and researchers needing symbolic math	Consulting/implementation Training/courses	• Symbolic modelling for control engineers • SymPy training for physics students • equation tools for fintech quants	Training $300-800 per learner *Effort:* Medium (Python library, needs UI and domain focus) ⚠ NOASSERTION: read license; BSD-style terms, verify before redistributing
Penrose penrose/penrose ★ 8.0k · Permissive MIT · App · Fit 3/5	Tool that draws diagrams from plain-text mathematical notation using declarative layout rules. *Replaces:* Commercial diagram tools, Mathematica plotting, TikZ workflows	Researchers and educators making math diagrams	Managed hosting Premium plugins/add-ons	• Diagrams for math textbook publishers • visual proofs for university courses • diagram-as-code for technical writers	Premium templates $19-59 one-time *Effort:* Medium (browser app and library, needs packaging) ⚠ MIT fine; Penrose is a project brand, no implied endorsement
Root root-project/root ★ 3.3k · Check NOASSERTION · Framework · Fit 3/5	CERN's C++ framework for storing, analyzing and visualizing very large scientific datasets. *Replaces:* Commercial physics analysis suites, MATLAB big-data tools	Physics labs and high-energy experiments	Consulting/implementation Training/courses	• ROOT analysis training for physics grad students • data pipelines for detector groups • ROOT deployment for imaging labs	Training $500-1500 per seat *Effort:* High (large C++ codebase, specialist users only) ⚠ NOASSERTION: read license; CERN brand, avoid implied endorsement
Stdlib stdlib-js/stdlib ★ 6.0k · Permissive Apache-2.0 · Library · Fit 2/5	Fundamental numerical library for JavaScript and TypeScript covering math and statistics. *Replaces:* Commercial numerical JS libraries, SciPy-style JS ports	JavaScript teams needing numerical computing	Consulting/implementation Setup + support retainer	• Numeric kernels for fintech pricing engines • stats modules for web analytics • math services for scientific web apps	Support $3-8k per year *Effort:* Medium (large modular library, needs curated subset) ⚠ Apache-2.0 fine; keep NOTICE attribution; star banner is cosmetic
Texme susam/texme ★ 2.4k · Permissive MIT · Tool · Fit 2/5	Self-rendering Markdown documents with embedded LaTeX math in a single file. *Replaces:* Pandoc workflows, commercial Markdown-to-PDF tools	Academics writing math-heavy notes	Premium plugins/add-ons Setup + support retainer	• Math-heavy lecture notes for teachers • technical reports for consultants • self-rendering handouts for tutoring centers	Free; theme packs $15-40 one-time *Effort:* Low (single-file tool, mostly works as-is) ⚠ MIT fine; no trademark issue, easy to fork
Geogebra geogebra/geogebra ★ 2.4k · Check NONE · App · Fit 2/5	GeoGebra apps mirror: interactive math software combining geometry, algebra and calculus. *Replaces:* GeoGebra's paid classroom tiers, Desmos, Cabri	Math teachers and schools	Agency service Content/membership	• Interactive geometry activities for middle-school teachers • calculus kits for community colleges • exam-prep apps for test-prep firms	Content packs $5-20/mo per teacher *Effort:* Medium (mirror of existing app, large codebase) ⚠ License NONE: no reuse grant; GeoGebra is a trademark, avoid it

Medical Imaging & Health AI · 7

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Viewers OHIF/Viewers ★ 4.4k · Permissive MIT · App · Fit 4/5	OHIF zero-footprint DICOM viewer with oncology lesion tracking and shared extension packages. *Replaces:* Commercial DICOM viewers, Sectra PACS viewers	Radiology research groups and imaging CROs	Managed hosting Setup + support retainer	• Lesion tracking for oncology trial imaging • research PACS viewers for university hospitals • viewers for CRO readers	Hosted $300-1200/mo per site *Effort:* High (clinical deployment needs validation and PACS work) ⚠ MIT fine; not a medical device as shipped; regulation applies if clinical
Dwv ivmartel/dwv ★ 1.9k · GPL GPL-3.0 · Library · Fit 3/5	Zero-footprint DICOM web viewer library for displaying and annotating medical images in browsers. *Replaces:* Commercial web DICOM viewers, Sectra web viewer	Imaging software vendors adding web viewing	Consulting/implementation White-label reseller	• Embedded DICOM viewers for telehealth vendors • web viewers for dental imaging clinics • viewer add-ons for PACS vendors	Licensing $2-8k per year per product *Effort:* Medium (library needs UI and DICOM edge-case work) ⚠ GPL-3.0: distributed apps must ship source; DICOM is an NEMA standard

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
MedicalZooPytorch black0017/MedicalZooPytorch ★ 1.9k · **Permissive** MIT · Library · Fit 2/5	PyTorch framework for multi-modal 2D and 3D medical image segmentation models. *Replaces:* Commercial medical segmentation SDKs, NVIDIA Clara workflows	Medical AI researchers and imaging startups	Consulting/implementation Training/courses	• 3D segmentation pipelines for imaging startups • MRI model training for research hospitals • PyTorch medical AI courses	Consulting $8-25k per model *Effort:* High (research framework, needs clinical validation) ⚠ MIT fine; clinical use triggers medical device regulation
Nitrain nitrain/nitrain ★ 1.9k · **AGPL** AGPL-3.0 · Platform · Fit 2/5	Platform for training AI models on medical images using any ML framework. *Replaces:* Commercial medical AI platforms, NVIDIA Clara	Imaging AI startups and research labs	Managed hosting Setup + support retainer	• Training platform for hospital imaging AI teams • hosted model training for radiology startups • GPU training for academic labs	Hosted $500-2000/mo per team *Effort:* High (early stage, GPU infrastructure needed) ⚠ AGPL-3.0: publish server changes; medical data rules (HIPAA, GDPR) apply
ITK InsightSoftwareConsortium/ITK ★ 1.7k · **Permissive** Apache-2.0 · Library · Fit 2/5	Insight Toolkit: C++ library for image processing, segmentation and registration in 2D and 3D. *Replaces:* Commercial medical image analysis SDKs, MATLAB image toolbox	Medical imaging researchers and device developers	Consulting/implementation Training/courses	• Registration tooling for radiotherapy startups • image pipelines for research imaging labs • ITK training for biomedical engineers	Training $800-2000 per course *Effort:* High (large C++ library, expert integration needed) ⚠ Apache-2.0 fine; ITK is a consortium brand; keep notices
Pyradiomics AIM-Harvard/pyradiomics ★ 1.5k · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python package extracting radiomics features from 2D and 3D medical images and masks. *Replaces:* Commercial radiomics platforms, Qmenta, HealthMyne	Oncology imaging researchers and biomarker teams	Consulting/implementation Setup + support retainer	• Radiomics feature extraction for oncology trials • biomarker pipelines for imaging CROs • radiomics QA for hospital units	Consulting $5-15k per study *Effort:* Low (Python package, well-documented, research-grade) ⚠ BSD-3-Clause fine; clinical radiomics claims need validation
Medicaldetectiontoolkit MIC-DKFZ/medicaldetectiontoolkit ★ 1.4k · **Permissive** Apache-2.0 · Library · Fit 2/5	2D and 3D object detection toolkit for medical images, built around Mask R-CNN and RetinaNet. *Replaces:* Commercial medical detection SDKs, NVIDIA Clara detection	Medical imaging ML teams running detection models	Consulting/implementation Setup + support retainer	• Lung nodule detection pipelines for screening programs • lesion detection for oncology research • detector setup for imaging startups	Setup $10-30k per project *Effort:* High (research code, clinical validation needed) ⚠ Apache-2.0 fine; DKFZ brand, avoid implied endorsement

Neuroscience & Brain-Computer Interfaces · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mne-python mne-tools/mne-python ★ 3.6k · **Permissive** BSD-3-Clause · Library · Fit 3/5	Python package for analyzing MEG and EEG brain signals, from preprocessing to source estimation. *Replaces:* MATLAB EEGLAB, Brainstorm, commercial EEG analysis suites	Neuroscience labs and EEG research groups	Consulting/implementation Training/courses	• EEG analysis training for neuroscience grad students • MEG pipelines for clinical research groups • EEG QA for sleep labs	Training $500-1500 per seat *Effort:* Medium (Python library, needs pipelines and UI) ⚠ BSD-3-Clause fine; clinical EEG use needs regulatory review
Course-content NeuromatchAcademy/course-content ★ 3.2k · **Permissive** CC-BY-4.0 · Content · Fit 2/5	Course materials for Neuromatch Academy's computational neuroscience program. *Replaces:* Paid neuroscience bootcamps, university courses	Neuroscience students and self-learners	Training/courses Content/membership	• Computational neuroscience bootcamp for grad students • online neuro courses for career switchers • teaching materials for instructors	Course $200-600 per learner *Effort:* Low (course content, mostly ready to teach) ⚠ CC-BY-4.0 needs attribution; Neuromatch is a brand, keep credits
Snntorch jeshraghian/snntorch ★ 2.1k · **Permissive** MIT · Library · Fit 2/5	PyTorch library for training spiking neural networks with deep and online learning. *Replaces:* Commercial neuromorphic SDKs, Intel Lava	Neuromorphic researchers and edge-AI startups	Consulting/implementation Training/courses	• Spiking network training for neuromorphic startups • SNN courses for EE students • edge-AI prototyping for sensor firms	Training $600-1500 per course *Effort:* Medium (PyTorch library, research-focused tooling) ⚠ MIT fine; no trademark issue, easy to embed
Braindecode braindecode/braindecode ★ 1.3k · **Permissive** BSD-3-Clause · Library · Fit 2/5	Deep learning library for decoding EEG, ECG and MEG signals in PyTorch. *Replaces:* Commercial EEG analytics platforms, Emotiv software	Neurotech startups and biomedical signal teams	Consulting/implementation Setup + support retainer	• EEG decoding models for BCI startups • ECG classifiers for wearable firms • MEG analysis for clinical research	Support $3-10k per year *Effort:* Medium (research library, needs product layer) ⚠ BSD-3-Clause fine; clinical signal claims need regulatory review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Brian2 brian-team/brian2 ★ 1.3k · Check NOASSERTION · Library · Fit 2/5	Free open-source simulator for spiking neural networks written in Python. *Replaces:* NEURON-based simulation workflows, commercial neural simulators	Computational neuroscience labs	Training/courses Consulting/implementation	• Spiking model courses for neuroscience grad students • custom network simulation for research labs • simulation support for modelling groups	Training $500-1200 per course *Effort:* Medium (Python simulator, needs teaching materials) ⚠ NOASSERTION: read license; Brian is a project brand, check terms
Moabb NeuroTechX/moabb ★ 1.1k · Permissive BSD-3-Clause · Library · Fit 2/5	Benchmark library for brain-computer interface algorithms across many public EEG datasets. *Replaces:* Commercial BCI benchmarking services, custom EEG benchmarks	BCI researchers and neurotech startups	Consulting/implementation Training/courses	• BCI algorithm benchmarks for neurotech startups • EEG decoding courses for engineering students • model comparisons for device teams	Consulting $4-12k per benchmark *Effort:* Low (Python benchmark library, research use) ⚠ BSD-3-Clause fine; underlying datasets have separate licenses
Fieldtrip fieldtrip/fieldtrip ★ 992 · GPL GPL-3.0 · Library · Fit 2/5	MATLAB toolbox for analyzing MEG, EEG and intracranial EEG recordings. *Replaces:* MATLAB EEGLAB add-ons, Brainstorm, commercial EEG suites	Neuroscience labs with MATLAB workflows	Training/courses Consulting/implementation	• MEG analysis courses for neuroscience students • iEEG pipelines for epilepsy research groups • EEG consulting for trials	Training $400-1000 per course *Effort:* Medium (MATLAB-based, needs MATLAB license) ⚠ GPL-3.0: distributed apps must ship source; MATLAB license still needed
Nengo nengo/nengo ★ 957 · Check NOASSERTION · Library · Fit 2/5	Python library for building and simulating large-scale brain models and neuromorphic systems. *Replaces:* Commercial neuromorphic modelling tools, Brian2	Computational neuroscience labs and neuromorphic teams	Consulting/implementation Training/courses	• Brain model simulations for research labs • neuromorphic robotics prototypes for hardware startups • Nengo training for grad students	Training $500-1200 per course *Effort:* High (complex modelling stack, niche users) ⚠ NOASSERTION: read license; Nengo is a project brand, check terms
Spikeinterface SpikeInterface/spikeinterface ★ 871 · Permissive MIT · Library · Fit 2/5	Python module for building flexible, robust spike sorting pipelines across recording formats. *Replaces:* Commercial spike sorting services, Plexon Offline Sorter	Electrophysiology labs and neural recording teams	Consulting/implementation Setup + support retainer	• Spike sorting pipelines for electrophysiology labs • sorting services for CRO neuro groups • pipeline setup for probe makers	Setup $5-12k per pipeline *Effort:* Medium (Python pipeline library, needs compute setup) ⚠ MIT fine; no trademark issue, easy to embed
Brainrender brainglobe/brainrender ★ 682 · Permissive BSD-3-Clause · Library · Fit 2/5	Python package that visualizes neuroanatomical data inside brain atlas space. *Replaces:* Commercial brain atlas viewers, Imaris visualization	Neuroscience labs mapping brain data	Consulting/implementation Training/courses	• Atlas visualizations for neuroscience publications • probe-track figures for electrophysiology labs • atlas training for grad students	Training $300-800 per workshop *Effort:* Medium (Python package, needs data pipeline) ⚠ BSD-3-Clause fine; atlas data licenses vary by atlas, check
Kilosort MouseLand/Kilosort ★ 636 · GPL GPL-3.0 · Tool · Fit 2/5	Fast spike sorting software with drift correction for high-density neural probe recordings. *Replaces:* Commercial spike sorters, Plexon Offline Sorter	Electrophysiology labs with high-density probes	Consulting/implementation Setup + support retainer	• Spike sorting for neuroprobe labs • sorting services for neural device startups • pipeline support for systems neuroscience labs	Setup $4-10k per project *Effort:* High (GPU-heavy, needs expert setup) ⚠ GPL-3.0: distributed apps must ship source; Kilosort brand, cite the authors
Nrn neuronsimulator/nrn ★ 567 · Check NOASSERTION · Tool · Fit 2/5	NEURON simulator for modelling individual neurons and networks of neurons. *Replaces:* Commercial neural simulation suites, GENESIS	Neuroscience labs running cell and network models	Training/courses Consulting/implementation	• NEURON training for neuroscience grad students • model-building services for pharma neuro groups • network model support for labs	Training $500-1500 per course *Effort:* High (mature but complex stack, needs expert support) ⚠ NOASSERTION: read license; NEURON is a long-running academic project brand
BciPy CAMBI-tech/BciPy ★ 158 · Permissive BSD-3-Clause · Library · Fit 2/5	Python brain-computer interface software for running BCI experiments and speller tasks. *Replaces:* Commercial BCI experiment suites, Psychtoolbox-based setups	Neuroscience labs running BCI experiments	Training/courses Consulting/implementation	• BCI experiment setup for cognitive labs • speller training for assistive-tech clinics • EEG study design courses	Setup $3-8k per lab *Effort:* High (research software, hardware integration needed) ⚠ BSD-3-Clause fine; medical claims need regulatory review

Oceanography & Hydrology · 9

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
VIAME VIAME/VIAME ★ 345 · **Check** NOASSERTION · App · Fit 2/5	Video and image analytics platform for detecting and annotating objects in marine and environmental imagery. *Replaces:* Commercial video analytics, manual annotation services	Marine biologists and fisheries monitoring teams	Consulting/implementation Setup + support retainer	• Fish counting for hatchery monitoring • underwater survey analytics for offshore wind firms • reef monitoring for conservation NGOs	Setup $8-25k per deployment *Effort:* Medium (multi-tool platform, needs domain tuning) ⚠ NOASSERTION: read license; check any government-funding credit terms
Argopy euroargodev/argopy ★ 232 · **Weak copyleft** EUPL-1.2 · Library · Fit 2/5	Python library for accessing and analysing Argo ocean float profile data. *Replaces:* Commercial ocean data platforms, manual Argo data processing	Oceanographers and marine data teams	Consulting/implementation Training/courses	• Argo data pipelines for shipping research firms • ocean-float QA for climate consultancies • Argo training for marine students	Training $400-900 per course *Effort:* Low (Python library, data-centric, well documented) ⚠ EUPL-1.2: copyleft, modified distributed code stays EUPL; check Argo data terms
PyTMD pyTMD/pyTMD ★ 213 · **Permissive** MIT · Library · Fit 2/5	Python tide prediction software using tidal models for coastal and ocean water levels. *Replaces:* Commercial tide prediction services, tide table software	Port operators and coastal engineers	Consulting/implementation Setup + support retainer	• Tide forecasts for port scheduling • flood-risk inputs for coastal councils • tide data for marine survey firms	Support $2-6k per year *Effort:* Medium (Python package, needs tidal model data setup) ⚠ MIT fine; tidal model data sources have their own terms
Oceanspy hainegroup/oceanspy ★ 119 · **Permissive** MIT · Library · Fit 2/5	Python package for analysing and visualising ocean model outputs from many datasets. *Replaces:* Commercial ocean data analysis tools, MATLAB ocean toolboxes	Ocean modelling groups and coastal agencies	Consulting/implementation Training/courses	• Ocean model analysis for coastal agencies • visualization training for physical oceanography grad students • model QA for shipping consultancies	Training $500-1200 per course *Effort:* Low (Python package, needs domain users) ⚠ MIT fine; no trademark issue, easy to embed
Wavespectra wavespectra/wavespectra ★ 114 · **Permissive** MIT · Library · Fit 2/5	Python library for handling and analysing ocean wave spectra from models and measurements. *Replaces:* Commercial wave analysis software, MATLAB wave toolboxes	Coastal engineers and wave modelling teams	Consulting/implementation Setup + support retainer	• Wave climate studies for offshore wind developers • wave-data QA for port engineers • spectra processing for survey firms	Support $3-8k per year *Effort:* Low (Python library, specialist domain) ⚠ MIT fine; no trademark issue, easy to embed
Eo-tides GeoscienceAustralia/eo-tides ★ 111 · **Permissive** Apache-2.0 · Library · Fit 2/5	Tide modelling tools for large-scale satellite Earth observation analysis. *Replaces:* Commercial tide modelling services, manual tide corrections	Remote-sensing analysts doing coastal mapping	Consulting/implementation Setup + support retainer	• Tidal correction for coastline mapping firms • satellite shoreline monitoring for councils • intertidal mapping for conservation groups	Support $2-5k per year *Effort:* Low (Python tools, tied to satellite workflows) ⚠ Apache-2.0 fine; Geoscience Australia data terms (CC-BY) apply
CWatM iiasa/CWatM ★ 101 · **GPL** GPL-3.0 · Model · Fit 2/5	Community Water Model simulating daily global and local water cycles, historically and into the future. *Replaces:* Commercial hydrology models, national water balance tools	Water agencies and climate-risk consultancies	Consulting/implementation Training/courses	• Water-balance studies for river basin agencies • climate-risk scenarios for insurers • hydrology training for water engineers	Consulting $10-40k per basin study *Effort:* High (large research model, heavy data needs) ⚠ GPL-3.0: distributed apps must ship source; IIASA brand, no endorsement
DIVAnd.jl gher-uliege/DIVAnd.jl ★ 89 · **GPL** GPL-2.0 · Library · Fit 2/5	Julia package for n-dimensional variational analysis of observations placed at arbitrary locations. *Replaces:* Commercial objective-analysis tools, kriging software	Ocean data analysts and marine survey teams	Consulting/implementation Training/courses	• Ocean observation mapping for survey firms • gridded fields for fisheries agencies • Julia analysis training for oceanographers	Consulting $3-8k per study *Effort:* Medium (Julia package, specialist expertise) ⚠ GPL-2.0: distributed apps must ship source; research credit expected
OceanBioME.jl OceanBioME/OceanBioME.jl ★ 81 · **Permissive** MIT · Library · Fit 2/5	Julia modelling environment for coupled ocean biogeochemistry, carbonate chemistry and physics. *Replaces:* Commercial ocean biogeochemistry models, custom research codes	Marine biogeochemistry research groups	Consulting/implementation Training/courses	• Biogeochemistry model setup for research institutes • carbon-cycle studies for climate consultancies • Julia ocean modelling courses	Consulting $5-20k per model study *Effort:* High (research modelling stack, HPC needs) ⚠ MIT fine; no trademark issue; model validation needed

Quantum Computing · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Qiskit Qiskit/qiskit ★ 8.0k · Permissive Apache-2.0 · Framework · Fit 3/5	Open-source SDK for building quantum circuits, operators and primitives for quantum hardware. *Replaces:* Amazon Braket SDK, commercial quantum SDKs	Quantum research labs and university courses	Training/courses Consulting/implementation	• Qiskit training for physics undergrads • quantum algorithm consulting for banks • Qiskit workshops for corporate R&D teams	Training $800-2000 per workshop *Effort:* Medium (SDK, needs teaching and integration) ⚠ Apache-2.0 fine; IBM hardware access and service terms apply
Cirq quantumlib/Cirq ★ 5.1k · Permissive Apache-2.0 · Library · Fit 3/5	Python framework for creating, editing and running noisy intermediate-scale quantum circuits. *Replaces:* Qiskit, Amazon Braket SDK, commercial quantum SDKs	Quantum researchers and hardware teams	Training/courses Consulting/implementation	• Cirq training for physics students • circuit simulation for quantum hardware teams • NISQ algorithm consulting for pharma R&D	Training $600-1500 per workshop *Effort:* Medium (Python SDK, needs hardware access and training) ⚠ Apache-2.0 fine; Google Quantum AI brand, avoid implied endorsement
Pennylane PennyLaneAI/pennylane ★ 3.5k · Permissive Apache-2.0 · Framework · Fit 3/5	Open-source platform for quantum machine learning, quantum chemistry and hybrid quantum-classical algorithms. *Replaces:* Commercial quantum ML platforms, Qiskit-based training stacks	Quantum ML researchers and pharma chemists	Consulting/implementation Training/courses	• Hybrid quantum ML prototypes for pharma R&D • quantum chemistry workshops for chemistry grad students • QML training for fintech teams	Training $800-2500 per workshop *Effort:* High (large framework, many hardware backends) ⚠ Apache-2.0 fine; Xanadu brand, avoid implied endorsement
Xquad QuipNetwork/xquad ★ 5.6k · AGPL AGPL-3.0 · Framework · Fit 2/5	SDK for defining optimization problems once and lowering them to quantum or classical solvers. *Replaces:* Commercial optimization solvers, D-Wave Ocean SDK	Operations-research teams testing quantum options	Consulting/implementation	• Scheduling pilots for logistics firms • portfolio optimization trials for banks • routing experiments for fleet operators	Pilot projects $15-40k each *Effort:* High (early project, solver backends limited) ⚠ AGPL-3.0: publish server changes; young project, verify solver support
Quantum tensorflow/quantum ★ 2.2k · Permissive Apache-2.0 · Library · Fit 2/5	Python framework for hybrid quantum-classical machine learning models using TensorFlow. *Replaces:* Commercial quantum ML toolkits, PennyLane for TensorFlow users	TensorFlow developers exploring quantum ML	Consulting/implementation Training/courses	• Quantum ML prototypes for research labs • hybrid model courses for ML grad students • quantum classifiers for finance R&D	Training $600-1500 per course *Effort:* High (TensorFlow-dependent, smaller active ecosystem) ⚠ Apache-2.0 fine; TensorFlow and Google brands, avoid implied endorsement
Qutip qutip/qutip ★ 2.1k · Permissive BSD-3-Clause · Library · Fit 2/5	Python quantum toolbox for simulating open and closed quantum systems and dynamics. *Replaces:* MATLAB quantum toolboxes, commercial quantum simulators	Quantum optics and physics research groups	Consulting/implementation Training/courses	• Open-system simulation for quantum optics labs • QuTiP training for physics grad students • dynamics modelling for quantum hardware startups	Training $500-1200 per course *Effort:* Low (mature Python toolbox, needs domain users) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Torchquantum mit-han-lab/torchquantum ★ 1.7k · Permissive MIT · Library · Fit 2/5	PyTorch framework for quantum-classical simulation, quantum machine learning and parameterized circuits. *Replaces:* PennyLane, commercial quantum ML toolkits	PyTorch researchers exploring quantum neural nets	Consulting/implementation Training/courses	• Quantum neural net prototypes for research labs • PyTorch quantum courses for ML grad students • circuit simulation for hardware teams	Training $500-1500 per course *Effort:* Medium (research framework, needs cleanup for production) ⚠ MIT fine; MIT Han Lab is a university brand, avoid implied endorsement
Pyquil rigetti/pyquil ★ 1.5k · Permissive Apache-2.0 · Library · Fit 2/5	Python library for quantum programming using the Quil instruction language on Rigetti hardware. *Replaces:* Qiskit for hardware runs, commercial quantum SDKs	Quantum developers targeting Rigetti hardware	Consulting/implementation Training/courses	• Quil programming training for physics students • hardware-specific algorithm prototyping for research labs • pyQuil integration for quantum startups	Training $600-1500 per course *Effort:* Medium (hardware-tied, Rigetti-specific) ⚠ Apache-2.0 fine; Rigetti is a company brand, cloud access terms apply
QPanda-2 OriginQ/QPanda-2 ★ 1.2k · Permissive Apache-2.0 · Framework · Fit 2/5	Quantum computing framework for building, running and optimizing quantum algorithms, from OriginQ. *Replaces:* Qiskit, Cirq, commercial quantum SDKs	Chinese quantum researchers and labs	Consulting/implementation Training/courses	• Quantum algorithm training for Chinese universities • QPanda integration for finance R&D • simulation services for research labs	Training ¥3000-8000 per course *Effort:* High (Chinese-language docs, hardware-specific) ⚠ Apache-2.0 fine; export controls on quantum technology may apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cuda-quantum NVIDIA/cuda-quantum ★ 1.2k · Permissive Apache-2.0 · Framework · Fit 2/5	C++ and Python programming model for heterogeneous quantum-classical workflows on GPUs. *Replaces:* Commercial quantum SDKs, Qiskit runtime	HPC centers and quantum-GPU research teams	Consulting/implementation Setup + support retainer	• Quantum-GPU workflows for HPC centers • hybrid algorithm prototypes for research labs • GPU simulator setup for quantum startups	Support $10-40k per year *Effort:* High (GPU stack, complex hybrid runtime) ⚠ Apache-2.0 fine; NVIDIA brand, avoid implied endorsement
Quirk Strilanc/Quirk ★ 1.1k · Permissive Apache-2.0 · App · Fit 2/5	Browser drag-and-drop quantum circuit simulator for exploring small quantum circuits. *Replaces:* IBM Quantum Composer, educational quantum simulators	Physics teachers and students learning quantum	Training/courses Content/membership	• Quantum circuit lessons for high-school teachers • interactive quantum labs for intro courses • circuit puzzles for science museums	Course $30-120 per classroom *Effort:* Low (browser app, teaching-focused, ready to use) ⚠ Apache-2.0 fine; no trademark issue, easy to self-host
Qiskit-machine-learning stfc/qiskit-machine-learning ★ 1.1k · Permissive Apache-2.0 · Library · Fit 2/5	Library built on Qiskit for quantum machine learning on hardware and classical simulators. *Replaces:* Commercial QML platforms, PennyLane	Quantum ML researchers using Qiskit	Consulting/implementation Training/courses	• QML prototypes for energy-trading firms • quantum classifier workshops for research labs • QML training for data scientists	Training $500-1500 per course *Effort:* Medium (Qiskit-dependent, research-focused) ⚠ Apache-2.0 fine; STFC is a UK government brand, no endorsement
Yao.jl QuantumBFS/Yao.jl ★ 1.1k · Check NOASSERTION · Library · Fit 2/5	Extensible Julia framework for designing and simulating quantum algorithms. *Replaces:* Qiskit, commercial quantum simulators	Julia quantum researchers	Consulting/implementation Training/courses	• Quantum algorithm prototypes for Julia-based research labs • simulation support for quantum startups • Julia quantum courses	Training $400-1000 per course *Effort:* Medium (Julia-only, smaller community) ⚠ NOASSERTION: read license; check package terms before reuse
Qdk microsoft/qdk ★ 1.0k · Permissive MIT · Framework · Fit 2/5	Microsoft Quantum Development Kit with Q#, resource estimator and quantum katas. *Replaces:* Commercial quantum resource estimators, Qiskit tools	Quantum developers and algorithm teams	Training/courses Consulting/implementation	• Q# training for quantum computing students • resource estimates for crypto-agility consultants • katas workshops for dev teams	Training $500-1500 per workshop *Effort:* Medium (Q# language, Microsoft-led project) ⚠ MIT fine; Microsoft brand, avoid implied endorsement

Reference & Citation Management · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Zotero-better-bibtex retorquere/zotero-better-bibtex ★ 7.3k · Permissive MIT · Tool · Fit 3/5	Zotero plugin for stable citation keys and BibTeX/BibLaTeX export for LaTeX writers. *Replaces:* Manual BibTeX editing, commercial reference manager exports	LaTeX academics and science writers	Premium plugins/add-ons Training/courses	• BibTeX setup for journal authors • citation workflow training for PhD students • export cleanup for thesis offices	Training $100-300 per learner *Effort:* Low (Zotero plugin, works well as-is) ⚠ MIT fine; Zotero is a trademark of its foundation, avoid implied endorsement
Zotero-gpt MuiseDestiny/zotero-gpt ★ 7.5k · AGPL AGPL-3.0 · Tool · Fit 2/5	Zotero plugin that connects GPT models to your library for summarizing and querying papers. *Replaces:* Paid Zotero AI add-ons, Elicit, Scite	Researchers using Zotero for literature review	Premium plugins/add-ons Setup + support retainer	• AI summaries for PhD students • literature-review add-ons for consultancies • GPT paper Q&A for lab teams	Premium plugin $10-30 one-time *Effort:* Low (Zotero plugin, depends on model APIs) ⚠ AGPL-3.0: publish server changes; Zotero and OpenAI are brands; API terms apply
Jasminum l0o0/jasminum ★ 7.4k · AGPL AGPL-3.0 · Tool · Fit 2/5	Zotero add-on that retrieves Chinese CNKI metadata for accurate citation records. *Replaces:* Manual citation entry, commercial CNKI metadata services	Chinese academics and thesis writers	Premium plugins/add-ons Training/courses	• CNKI metadata for thesis writers • Chinese citation training for grad students • library support for research offices	Premium support ¥30-100/mo per seat *Effort:* Low (Chinese-only plugin, narrow niche) ⚠ AGPL-3.0: publish server changes; CNKI data use terms may restrict scraping

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Claude-scholar Galaxy-Dawn/claude-scholar ★ 6.0k · **Permissive** MIT · Tool · Fit 2/5	Semi-automated research assistant skills for ideation, coding, experiments, writing and publication. *Replaces:* Manual research workflows, commercial AI research assistants	Academic researchers and PhD students	Content/membership Consulting/implementation	• Research assistant skills for PhD students • experiment-tracking setups for ML labs • writing workflows for journal authors	Membership $10-25/mo per researcher *Effort:* Medium (agent skill suite, needs curation and onboarding) ⚠ MIT fine; AI-assisted writing needs integrity and journal policy checks
Zotero-mcp 54yyyu/zotero-mcp ★ 5.8k · **Permissive** MIT · Tool · Fit 2/5	MCP server connecting your Zotero library to AI assistants for paper discussion and citation analysis. *Replaces:* Elicit, Scite, Zotero-plus-AI add-ons	Researchers using AI assistants with Zotero	Setup + support retainer Consulting/implementation	• AI literature assistants for lab groups • citation analysis for grant writers • MCP setup for research offices	Setup $300-1000 per user *Effort:* Low (MCP server, easy to package) ⚠ MIT fine; Zotero trademark; paper copyrights still apply
Zotero-style MuiseDestiny/zotero-style ★ 5.3k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Ethereal style theme for Zotero that changes the reference manager interface look. *Replaces:* Paid Zotero themes, custom reference-manager skins	Zotero users wanting a custom look	Premium plugins/add-ons	• Themes for academic bloggers • style packs for research labs • themes for Zotero power-user courses	Theme packs $5-15 one-time *Effort:* Low (theme-only, small scope) ⚠ AGPL-3.0: publish server changes if hosted; Zotero is a trademark
Translators_CN l0o0/translators_CN ★ 4.8k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Zotero translators for scraping metadata from Chinese academic and news websites. *Replaces:* Manual citation entry, commercial Chinese reference services	Chinese researchers and librarians	Premium plugins/add-ons Consulting/implementation	• Translator packs for Chinese university libraries • citation setup for graduate students • site-maintenance retainers for research offices	Retainer ¥200-800/mo per office *Effort:* Medium (translator maintenance tied to site changes) ⚠ AGPL-3.0: publish server changes; scraped sites have their own terms
Llm-for-zotero yilewang/llm-for-zotero ★ 3.5k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Open-source research agent system for querying and summarizing your Zotero library with LLMs. *Replaces:* Elicit, Scite, Zotero AI add-ons	Researchers and lab teams using Zotero	Premium plugins/add-ons Managed hosting	• Zotero AI assistant for PhD students • paper-QA tools for lab teams • literature summaries for policy analysts	Premium plugin $15-40 one-time *Effort:* Medium (agent system, LLM provider setup needed) ⚠ AGPL-3.0: publish server changes; Zotero trademark; LLM API terms apply
Notero dvanoni/notero ★ 3.3k · **Permissive** MIT · Tool · Fit 2/5	Zotero plugin that syncs library items and notes into Notion databases. *Replaces:* Manual Notion import, commercial reference sync tools	Researchers keeping notes in Notion	Premium plugins/add-ons Setup + support retainer	• Zotero-to-Notion sync for research teams • literature databases for grad students • reading-list sync for consultants	Premium plugin $10-25 one-time *Effort:* Low (single-purpose sync, Notion API dependent) ⚠ MIT fine; Notion and Zotero are trademarks; API limits apply
Zotero-actions-tags windingwind/zotero-actions-tags ★ 2.9k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Zotero plugin customizing workflows with actions and tags. *Replaces:* Manual tagging workflows, commercial reference-workflow tools	Researchers and librarians managing Zotero libraries	Premium plugins/add-ons Setup + support retainer	• Tagging workflows for systematic reviewers • action macros for journal editors • Zotero setup for research librarians	Plugin packs $10-25 one-time *Effort:* Low (Zotero plugin, narrow scope) ⚠ AGPL-3.0: publish server changes; Zotero is a trademark
Zotero-AI-Butler steven-jianhao-li/zotero-AI-Butler ★ 1.9k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Zotero plugin that calls LLMs to summarize papers in your library into Zotero notes. *Replaces:* Elicit, Scite, paid AI reading tools	Chinese-speaking researchers using Zotero	Premium plugins/add-ons Setup + support retainer	• AI paper summaries for PhD students • Chinese-language notes for research teams • literature digests for policy analysts	Premium plugin $10-30 one-time *Effort:* Low (Chinese-first plugin, LLM setup required) ⚠ AGPL-3.0: publish server changes; LLM provider and paper terms apply
Zotero-addons syt2/zotero-addons ★ 1.8k · **AGPL** AGPL-3.0 · Platform · Fit 2/5	Market for browsing and installing Zotero plugins, in English and Chinese. *Replaces:* Official Zotero plugin directory, paid add-on marketplaces	Zotero power users and plugin developers	Marketplace Premium plugins/add-ons	• Chinese Zotero plugin marketplace for universities • curated add-on bundles for research labs • vetting service for IT departments	Listing fees $50-200/mo per developer *Effort:* Medium (marketplace needs trust, payments, moderation) ⚠ AGPL-3.0: publish server changes; Zotero trademark; add-on licenses vary

Papis papis/papis ★ 1.8k · GPL GPL-3.0 · Tool · Fit 2/5	Command-line document and bibliography manager, extensible via Python plugins. *Replaces:* Commercial reference managers, manual BibTeX management	Developers and scientists who work in the terminal	Consulting/implementation Training/courses	• Command-line library setup for research labs • scripted bibliography workflows for grad students • papis training for scientists	Training $300-800 per course *Effort:* Low (CLI tool, technical users only) ⚠ GPL-3.0: distributed apps must ship source; papis is a project brand

Robotics Simulation & Autonomy · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Prometheus amov-lab/Prometheus ★ 3.3k · Permissive Apache-2.0 · Framework · Fit 3/5	Open-source software stack for autonomous drone development, simulation and flight control. *Replaces:* Commercial drone autopilot SDKs, DJI SDK	Drone startups and university UAV labs	Consulting/implementation Training/courses	• Autonomy training for university drone teams • custom flight stacks for inspection drone startups • simulation setup for research labs	Training $800-2000 per workshop *Effort:* High (flight-safety critical, needs hardware testing) ⚠ Apache-2.0 fine; drone flight regulation applies to deployed systems
Linorobot2 linorobot/linorobot2 ★ 1.1k · Permissive Apache-2.0 · Framework · Fit 3/5	ROS 2 stack for building autonomous mobile robots with 2WD, 4WD and Mecanum drives. *Replaces:* Commercial AMR platforms, ROS vendor kits	Robotics startups and university robot teams	Hardware kits/assembly Consulting/implementation	• Mobile robot kits for education labs • AMR prototypes for warehouse startups • Mecanum robot builds for hobby clubs	Kit sales $400-1200 per robot *Effort:* Medium (ROS 2 stack, hardware-specific tuning) ⚠ Apache-2.0 fine; hardware kit safety and CE rules apply
Phobos dfki-ric/phobos ★ 911 · Permissive BSD-3-Clause · Tool · Fit 3/5	Blender add-on for creating URDF, SDF and SMURF robot models through a visual editor. *Replaces:* Commercial robot modelling tools, manual URDF editing	Robotics engineers building robot models	Premium plugins/add-ons Consulting/implementation	• URDF modelling for robot startups • SDF exports for simulation labs • model cleanup for research groups	Premium plugin $49-149 one-time *Effort:* Low (Blender add-on, narrow but polished) ⚠ BSD-3-Clause fine; Blender is a trademark, no implied endorsement
Open_manipulator ROBOTIS-GIT/open_manipulator ★ 678 · Permissive Apache-2.0 · Hardware · Fit 3/5	Open-source AI manipulator robot arm with ROS software and hardware designs. *Replaces:* Commercial robot arms, education arms from UR and Franka	Robotics education labs and research groups	Hardware kits/assembly Training/courses	• Robot arm kits for university labs • manipulation courses for robotics students • AI arm demos for STEM outreach	Kit sales $800-2000 each *Effort:* High (hardware plus ROS stack, manufacturing needed) ⚠ Apache-2.0 fine; ROBOTIS brand and hardware designs; check licenses
Ros_gz gazebosim/ros_gz ★ 552 · Permissive Apache-2.0 · Library · Fit 3/5	Integration packages connecting ROS 1 and ROS 2 with the Gazebo simulator. *Replaces:* Commercial simulator bridges, custom sim middleware	Robotics teams running Gazebo simulations	Consulting/implementation Training/courses	• Gazebo-ROS setup for AV startups • simulator training for robotics grad students • sim integration for AMR firms	Training $600-1500 per course *Effort:* Medium (integration glue, needs robot models) ⚠ Apache-2.0 fine; Gazebo and ROS are trademarks, avoid implied endorsement
RoboticsAcademy JdeRobot/RoboticsAcademy ★ 511 · GPL GPL-3.0 · App · Fit 3/5	Browser-based platform for learning robotics through interactive exercises and simulators. *Replaces:* Commercial robotics learning platforms, ROS courses	Robotics educators and university students	Managed hosting Training/courses	• Hosted robotics labs for universities • autonomous driving exercises for bootcamps • robotics classes for STEM programs	Hosted $200-800/mo per class *Effort:* Medium (multi-exercise web app, needs hosting) ⚠ GPL-3.0: distributed apps must ship source; JdeRobot brand
XTDrone robin-shaun/XTDrone ★ 1.7k · Permissive MIT · Tool · Fit 2/5	UAV simulation platform built on PX4, ROS and Gazebo for testing drone algorithms. *Replaces:* Commercial drone simulators, AirSim-style tools	Drone research labs and UAV training schools	Training/courses Setup + support retainer	• Drone simulation courses for university labs • PX4 sim setup for drone startups • algorithm testing for survey drone firms	Training $500-1500 per course *Effort:* Medium (ROS and Gazebo stack, setup-heavy) ⚠ MIT fine; PX4 and ROS have their own licenses and trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Quadruped_ros2_control legubiao/quadruped_ros2_control ★ 587 · **Permissive** Apache-2.0 · Framework · Fit 2/5	ROS 2 control implementations for quadruped robots, including sim-to-real transfer. *Replaces:* Commercial legged robot SDKs, vendor locomotion tools	Legged-robot startups and research labs	Consulting/implementation Training/courses	• Quadruped controller setup for robotics labs • sim-to-real support for legged startups • ROS 2 control courses	Consulting $6-20k per robot *Effort:* High (robot-specific, needs hardware tuning) ⚠ Apache-2.0 fine; robot vendor SDK terms may apply
Turtlebot3_simulations ROBOTIS-GIT/turtlebot3_simulations ★ 538 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Gazebo simulation worlds and models for the TurtleBot3 robot platform. *Replaces:* Commercial robot simulation worlds, custom sim setups	Robotics students learning on TurtleBot3	Training/courses Hardware kits/assembly	• TurtleBot3 course labs for universities • sim worlds for education kits • onboarding for robotics bootcamps	Course $300-900 per learner *Effort:* Low (sim assets for an existing robot) ⚠ Apache-2.0 fine; TurtleBot and ROBOTIS are brands
PX4-SITL_gazebo-classic PX4/PX4-SITL_gazebo-classic ★ 467 · **Check** NONE · Library · Fit 2/5	Gazebo plugins, models and worlds for PX4 software-in-the-loop and hardware-in-the-loop testing. *Replaces:* Commercial drone simulators, custom SITL setups	Drone developers doing flight-control tests	Setup + support retainer Training/courses	• SITL setup for drone startups • HIL test rigs for UAV makers • PX4 simulation courses for universities	Setup $3-10k per rig *Effort:* Medium (Gazebo Classic end-of-life, migration needed) ⚠ NONE license: no reuse grant; PX4 is a Dronecode project brand
Mvsim MRPT/mvsim ★ 421 · **Permissive** BSD-3-Clause · Tool · Fit 2/5	Vehicle and mobile robotics simulator with C++ and Python APIs, runnable standalone or via ROS. *Replaces:* Commercial robot simulators, Gazebo setups	Mobile robotics labs and AMR developers	Consulting/implementation Setup + support retainer	• Multi-robot sim for warehouse AMR firms • fleet-test simulation for delivery robot startups • sim setup for research labs	Setup $4-12k per project *Effort:* Medium (C++ core, ROS integration needed) ⚠ BSD-3-Clause fine; MRPT is an academic project brand
Fusioncore manankharwar/fusioncore ★ 383 · **Permissive** Apache-2.0 · Library · Fit 2/5	ROS 2 localization library fusing IMU, wheel encoders and GPS in a 23-state UKF. *Replaces:* Commercial localization modules, robot_localization package	Outdoor robot and AMR developers	Consulting/implementation Setup + support retainer	• Localization tuning for outdoor delivery robots • GPS-IMU fusion for agricultural robots • localization QA for mining AMRs	Support $3-10k per year *Effort:* Medium (new project, needs field validation) ⚠ Apache-2.0 fine; young project, verify on your own sensors first
Diffbot ros-mobile-robots/diffbot ★ 380 · **Permissive** BSD-3-Clause · Hardware · Fit 2/5	Differential-drive robot platform running ROS Noetic on Raspberry Pi 4 with SLAM lidar navigation. *Replaces:* Commercial educational robot kits, TurtleBot-style platforms	Robotics educators and hobby builders	Hardware kits/assembly Training/courses	• Diffbot kits for university robotics labs • ROS navigation courses for STEM teachers • hobby kit sales for maker clubs	Kit sales $350-700 each *Effort:* High (ROS Noetic end-of-life, hardware sourcing needed) ⚠ BSD-3-Clause fine; ROS Noetic EOL; Raspberry Pi and SLAMTEC trademarks
Linkforge arounamounchili/linkforge ★ 283 · **GPL** GPL-3.0 · Tool · Fit 2/5	Compiler-style engine that composes and validates robot description files from Python or Blender. *Replaces:* Manual URDF editing, commercial robot modelling tools	Robotics engineers writing robot descriptions	Consulting/implementation Premium plugins/add-ons	• URDF pipelines for robot startups • model validation for simulation labs • Blender-to-URDF export for product designers	Premium plugin $49-149 one-time *Effort:* Medium (young project, needs validation tooling) ⚠ GPL-3.0: distributed apps must ship source; check ROS description format specs
Rosclaw ros-claw/rosclaw ★ 239 · **Permissive** MIT · Framework · Fit 2/5	Runtime for physical AI agents with governed actions, verified experience and skill evolution for robots. *Replaces:* ROS 2 control stacks, commercial robot-agent runtimes	Robotics teams building AI-driven robots	Consulting/implementation Setup + support retainer	• Governed robot agents for warehouse AMRs • safety-verified skill runtimes for lab robots • agent runtime integration for robotics startups	Support $8-25k per year *Effort:* High (early concept, safety claims need proof) ⚠ MIT fine; robot safety claims need testing and liability review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rath Kanaries/Rath ★ 4.7k · **AGPL** AGPL-3.0 · App · Fit 4/5	Automated exploratory data analysis and visualization platform for datasets. *Replaces:* Tableau, Power BI, Microsoft Fabric	Data teams wanting self-serve EDA dashboards	Managed hosting Premium plugins/add-ons	• Automated EDA for retail analytics teams • self-serve charts for logistics firms • EDA for university survey researchers	Hosted $49-299/mo per workspace *Effort:* Medium (product is ready, auth and tenancy need work) ⚠ AGPL-3.0: publish server-side changes; Kanaries is a brand, rename needed
Matplotlib matplotlib/matplotlib ★ 23.4k · **Check** NONE · Library · Fit 3/5	Python plotting library for creating static, animated and interactive figures. *Replaces:* Origin, MATLAB plotting, commercial charting SDKs	Scientists and analysts producing figures	Consulting/implementation Training/courses	• Publication-figure services for journal authors • plotting training for analysts • figure templates for research offices	Training $300-900 per course *Effort:* Low (mature, widely used, no product layer) ⚠ License field NONE: check the LICENSE file; PSF-style terms expected
Pygwalker Kanaries/pygwalker ★ 16.0k · **Permissive** Apache-2.0 · Library · Fit 3/5	Python library turning dataframes into interactive visual analysis UIs inside notebooks. *Replaces:* Tableau, Power BI, Jupyter-based dashboards	Data analysts working in Jupyter notebooks	Premium plugins/add-ons Managed hosting	• Notebook dashboards for analytics teams • self-serve exploration for ops analysts • visual EDA for research labs	Hosted $29-99/mo per workspace *Effort:* Medium (library plus hosted tier, needs packaging) ⚠ Apache-2.0 fine; Kanaries brand, avoid implied endorsement
Dockview dockview/dockview ★ 3.5k · **Check** NOASSERTION · Library · Fit 3/5	Zero-dependency docking layout manager with tabs, groups, grids and splitviews. *Replaces:* Golden Layout, commercial IDE panel frameworks	Developers building IDE-style multi-panel web apps	Consulting/implementation Premium plugins/add-ons	• Panel layouts for trading terminals • IDE-style editors for lab software • multi-panel analytics workspaces	Premium themes $99-299 one-time *Effort:* Medium (framework-agnostic, needs app-specific panels) ⚠ NOASSERTION: read license; check terms before reselling
PythonDataScienceHandbook jakevdp/PythonDataScienceHandbook ★ 50.4k · **Permissive** MIT · Content · Fit 2/5	Full text of the Python Data Science Handbook in Jupyter notebooks, covering NumPy, pandas and matplotlib. *Replaces:* Paid data science books, bootcamp curricula	Data analysts learning the Python stack	Training/courses Content/membership	• Python data course for analysts • pandas training for finance teams • notebook workshops for research labs	Course $200-500 per learner *Effort:* Low (book content, rights belong to the author) ⚠ MIT code; book text has a separate licence, check before commercial use
Table TanStack/table ★ 28.6k · **Permissive** MIT · Library · Fit 2/5	Headless JavaScript table library for building custom data grids and tables. *Replaces:* Handsontable, AG Grid, Syncfusion grids	Frontend teams building admin and data-heavy UIs	Consulting/implementation Premium plugins/add-ons	• Admin table templates for SaaS dashboards • data grid kits for logistics portals • back-office tables for fintech	Premium component packs $49-199 one-time *Effort:* Medium (headless, you build the UI theme) ⚠ MIT fine; TanStack is a brand, do not claim affiliation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
React-grid-layout react-grid-layout/react-grid-layout ★ 22.5k · **Permissive** MIT · Library · Fit 2/5	React component for draggable, resizable grid layouts with responsive breakpoints. *Replaces:* Commercial dashboard layout widgets, custom grid code	React teams building dashboard and widget layouts	Consulting/implementation Premium plugins/add-ons	• Widget dashboards for analytics SaaS • kiosk layouts for retail signage • patient dashboard layouts for clinics	Premium themes $30-120 one-time *Effort:* Low (mature React component, easy to embed) ⚠ MIT fine; plain open component, no trademark issue
Ag-grid ag-grid/ag-grid ★ 15.7k · **Check** NOASSERTION · Library · Fit 2/5	JavaScript data grid component with enterprise features under a commercial license. *Replaces:* Handsontable, Syncfusion, DevExtreme grids	Enterprise app teams needing feature-rich grids	Consulting/implementation Premium plugins/add-ons	• Grid kits for ERP front ends • trading blotters for fintech desks • claims review grids for insurers	Enterprise license $1-3k per dev per year *Effort:* Medium (community core is good, enterprise paywalled) ⚠ NOASSERTION: enterprise modules are paid; AG Grid is a trademark
Seaborn mwaskom/seaborn ★ 14.1k · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python statistical data visualization library built on matplotlib. *Replaces:* Tableau statistical charts, commercial charting libraries	Analysts and researchers making statistical charts	Training/courses Consulting/implementation	• Statistical plot training for analysts • chart templates for research reports • plotting services for market research teams	Training $300-800 per course *Effort:* Low (mature Python library, widely used) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Muuri haltu/muuri ★ 10.9k · **Permissive** MIT · Library · Fit 2/5	JavaScript library for sortable, filterable, draggable responsive layouts. *Replaces:* Masonry layouts, commercial drag-grid widgets	Web developers building card and gallery layouts	Consulting/implementation Premium plugins/add-ons	• Product gallery layouts for e-commerce • kanban-style boards for project tools • card layouts for news sites	Premium plugin packs $29-99 one-time *Effort:* Low (vanilla JS, drops into any stack) ⚠ MIT fine; plain open component, no trademark issue
React-sortable-hoc clauderic/react-sortable-hoc ★ 10.9k · **Permissive** MIT · Library · Fit 2/5	React higher-order components making lists sortable with drag and touch support. *Replaces:* Commercial drag-sort widgets	React developers building sortable lists	Consulting/implementation	• Sortable settings lists for form builders • reorderable menus for CMS admin • sortable playlists for media apps	Consulting $2-5k per feature *Effort:* Low (small HOC library, largely unmaintained upstream) ⚠ MIT fine; upstream largely unmaintained, check before depending on it
gridstack.js gridstack/gridstack.js ★ 9.2k · **Permissive** MIT · Library · Fit 2/5	JavaScript library for drag-and-drop dashboard grids with resizable widgets. *Replaces:* Commercial dashboard builders, custom grid code	Product teams building dashboard widget UIs	Consulting/implementation Premium plugins/add-ons	• Dashboard builders for clinic operations • widget boards for IoT monitoring • reporting layouts for hedge-fund ops	Premium themes $40-150 one-time *Effort:* Low (vanilla JS, dashboard-focused, widely used) ⚠ MIT fine; plain open component, no trademark issue
Tabulator tabulator-tables/tabulator ★ 7.8k · **Permissive** MIT · Library · Fit 2/5	JavaScript library for interactive tables with sorting, filtering, editing and export. *Replaces:* Handsontable, AG Grid, SpreadJS	Web teams needing editable data tables	White-label reseller Premium plugins/add-ons	• Editable tables for hospital admin portals • order-entry grids for wholesalers • report tables for school districts	Premium plugin packs $49-199 one-time *Effort:* Low (mature library, many built-in features) ⚠ MIT fine; plain open component, no trademark issue
Vue-grid-layout jbaysolutions/vue-grid-layout ★ 7.4k · **Permissive** MIT · Library · Fit 2/5	Vue.js component for draggable and resizable grid layouts. *Replaces:* Commercial Vue dashboard grids	Vue teams building dashboard and widget UIs	Consulting/implementation Premium plugins/add-ons	• Vue dashboard builders for logistics ops • widget layouts for ad-tech reporting • grid editors for CMS admin	Premium themes $30-120 one-time *Effort:* Low (Vue-specific port, smaller ecosystem) ⚠ MIT fine; plain open component, no trademark issue
Glide-data-grid glideapps/glide-data-grid ★ 5.4k · **Permissive** MIT · Library · Fit 2/5	High-performance React data grid with canvas rendering and full TypeScript support. *Replaces:* Handsontable, AG Grid, Airtable grid views	Frontend teams needing fast large-data grids	Consulting/implementation Premium plugins/add-ons	• Large-table views for trading desks • spreadsheet-style editors for finance tools • inventory grids for warehouses	Premium cell editors $99-399 one-time *Effort:* Medium (canvas rendering, accessibility work needed) ⚠ MIT fine; Glide is a company brand, avoid implying affiliation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Gridjs grid-js/gridjs ★ 4.7k · **Permissive** MIT · Library · Fit 2/5	Lightweight JavaScript table plugin with search, sorting, pagination and plugins. *Replaces:* Handsontable, DataTables Pro	Web developers adding tables to admin pages	White-label reseller Premium plugins/add-ons	• Admin table kits for hospital intranets • sortable price tables for e-commerce • log viewers for DevOps tools	Premium plugin packs $29-99 one-time *Effort:* Low (small, plugin-based, easy to restyle) ⚠ MIT fine; plain open component, no trademark issue
Ngx-datatable swimlane/ngx-datatable ★ 4.7k · **Permissive** MIT · Library · Fit 2/5	Angular data table component with sorting, paging, selection and virtual scroll. *Replaces:* Angular Material tables, Syncfusion grids	Angular teams building admin data views	Consulting/implementation Premium plugins/add-ons	• Admin consoles for telecom billing • inventory tables for Angular ERP add-ons • case tables for legal-tech	Consulting $2-6k per feature *Effort:* Low (Angular-only, mature, theming needs work) ⚠ MIT fine; check maintenance status before adopting
Mplfinance matplotlib/mplfinance ★ 4.5k · **Check** NOASSERTION · Library · Fit 2/5	Matplotlib-based library for plotting financial market data such as candlestick charts. *Replaces:* Commercial financial charting tools, TradingView charts	Financial analysts and quant researchers	Consulting/implementation Premium plugins/add-ons	• Candlestick reports for trading desks • chart templates for fintech dashboards • backtest visuals for quant teams	Premium chart styles $29-99 one-time *Effort:* Low (Python library, focused on OHLC charts) ⚠ NOASSERTION: read license; matplotlib brand, no implied endorsement
Lost peterramsing/lost ★ 4.4k · **Permissive** MIT · Library · Fit 2/5	PostCSS plugin for grid layouts that works with vanilla CSS and preprocessors. *Replaces:* Bootstrap grid, CSS framework grids	CSS developers building grid layouts	Consulting/implementation	• PostCSS grid setup for static-site agencies • layout tooling for design-system teams • grid utilities for marketing microsites	Free; consulting $500-1500 per site *Effort:* Low (CSS-only build plugin, minimal surface) ⚠ MIT fine; overlaps native CSS Grid, weak moat
Pyqtgraph pyqtgraph/pyqtgraph ★ 4.4k · **Check** NOASSERTION · Library · Fit 2/5	Fast Qt-based plotting and GUI tools for scientific and engineering data. *Replaces:* LabVIEW graphs, commercial scientific plotting SDKs	Lab engineers building instrument GUIs	Consulting/implementation Setup + support retainer	• Live plots for lab instrument GUIs • test-bench dashboards for hardware startups • signal viewers for medical device R&D	Support $2-6k per year *Effort:* Medium (Qt-based, needs a GUI app around it) ⚠ NOASSERTION: read license; Qt licensing may apply to commercial apps
Yellowbrick DistrictDataLabs/yellowbrick ★ 4.4k · **Permissive** Apache-2.0 · Library · Fit 2/5	Visual diagnostic tools for machine learning model selection and evaluation with scikit-learn. *Replaces:* Commercial ML model diagnostics, custom evaluation dashboards	Data scientists tuning ML models	Training/courses Consulting/implementation	• Model diagnostics training for data science bootcamps • ML evaluation reports for consultancies • model-selection audits for fintech teams	Training $400-1000 per course *Effort:* Low (Python library, scikit-learn tied) ⚠ Apache-2.0 fine; District Data Labs brand, avoid implied endorsement
Vue-easytable Happy-Coding-Clans/vue-easytable ★ 3.8k · **Permissive** MIT · Library · Fit 2/5	Vue.js data table with virtual scroll, cell editing and spreadsheet-style interaction. *Replaces:* Handsontable, AG Grid	Vue teams needing editable data grids	Consulting/implementation Premium plugins/add-ons	• Editable order grids for Vue ERP tools • spreadsheet-style pricing editors • virtual-scroll logs for IoT dashboards	Premium editor packs $49-199 one-time *Effort:* Medium (Vue library, editing features need polish) ⚠ MIT fine; plain open component, no trademark issue
Magic-Grid e-oj/Magic-Grid ★ 3.1k · **Permissive** MIT · Library · Fit 2/5	Lightweight JavaScript library for dynamic masonry-style grid layouts. *Replaces:* Masonry.js, commercial layout widgets	Front-end developers building card grids	Consulting/implementation	• Card layouts for real estate listings • photo grids for portfolio sites • masonry widgets for recipe blogs	Free; custom layout work $300-800 each *Effort:* Low (tiny library, little beyond basic layout) ⚠ MIT fine; easily replicated, little defensible value
JqGrid tonytomov/jqGrid ★ 2.8k · **Check** NONE · Library · Fit 2/5	jQuery grid plugin for tables with sorting, paging, editing and tree grids. *Replaces:* Commercial jQuery grids, Telerik Kendo Grid	Legacy enterprise teams maintaining jQuery apps	Setup + support retainer Consulting/implementation	• Maintenance retainers for legacy ERP screens • jQuery grid modernization for insurers • grid rebuilds for portals	Retainers $1-3k/mo per client *Effort:* Medium (aging jQuery stack, dated styling) ⚠ NONE license: no grant to reuse; read carefully before any use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Tikzplotlib nschloe/tikzplotlib ★ 2.6k · Permissive MIT · Library · Fit 2/5	Converts matplotlib figures into TikZ/PGFplots code for LaTeX documents. *Replaces:* Manual TikZ figure redrawing, commercial figure export tools	Academics writing LaTeX papers with plots	Consulting/implementation Premium plugins/add-ons	• Figure export for journal authors • TikZ conversions for thesis writers • figure pipelines for research groups	Premium support $200-600 per year *Effort:* Low (small converter, output needs manual fixes) ⚠ MIT fine; check current maintenance status before adopting
Paperbanana llmsresearch/paperbanana ★ 2.5k · Permissive MIT · Tool · Fit 2/5	Open-source implementation for automated academic figures, diagrams and slide visuals. *Replaces:* Manual figure design, commercial scientific illustration services	Researchers making paper figures and slides	Setup + support retainer Consulting/implementation	• Figure generation for thesis writers • diagram services for lab groups • slide visuals for conference presenters	Setup $200-800 per lab *Effort:* Medium (LLM-driven, needs quality control) ⚠ MIT fine; implements Google Research work; attribution, no implied endorsement
Shuffle glen-cheney/Shuffle ★ 2.4k · Permissive MIT · Library · Fit 2/5	JavaScript library that filters, sorts and animates responsive grids of items. *Replaces:* Isotope, commercial portfolio filter widgets	Designers building portfolio and catalog grids	White-label reseller Premium plugins/add-ons	• Filterable catalogs for furniture stores • portfolio grids for photographers • filter UIs for property listings	Premium theme packs $29-79 one-time *Effort:* Low (vanilla JS, small and stable) ⚠ MIT fine; plain open component, no trademark issue
Egjs-infinitegrid naver/egjs-infinitegrid ★ 2.4k · Permissive MIT · Library · Fit 2/5	JavaScript module that arranges infinitely scrolling card grids with lazy content. *Replaces:* Infinite-scroll feed widgets, Masonry layouts	Web teams building feed and listing pages	Consulting/implementation Premium plugins/add-ons	• Infinite product feeds for marketplaces • news card feeds for media sites • image walls for event apps	Consulting $2-5k per feed *Effort:* Medium (Naver-maintained, framework integration varies) ⚠ MIT fine; Naver and EGJS are company brands, avoid implied endorsement
Scattertext JasonKessler/scattertext ★ 2.3k · Permissive Apache-2.0 · Library · Fit 2/5	Python library for interactive visualizations of how word usage differs across document groups. *Replaces:* Commercial text analytics dashboards, Quid	Market researchers and political analysts	Consulting/implementation Training/courses	• Competitor language analysis for PR agencies • messaging studies for campaigns • review-language audits for retailers	Consulting $3-10k per study *Effort:* Medium (Python library, needs hosting and UI) ⚠ Apache-2.0 fine; academic citation expected when used in papers
Pyglet pyglet/pyglet ★ 2.2k · Permissive BSD-3-Clause · Library · Fit 2/5	Cross-platform Python windowing and multimedia library for games and visual apps. *Replaces:* Pygame, commercial game engines	Indie game developers using Python	Training/courses Consulting/implementation	• Python game courses for teens • prototype builds for indie studios • Python visualization kiosk apps	Training $200-600 per course *Effort:* Medium (low-level library, not a full engine) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Force-graph vasturiano/force-graph ★ 2.2k · Permissive MIT · Library · Fit 2/5	Force-directed graph visualization rendered on HTML5 canvas, usable in JavaScript apps. *Replaces:* Commercial network visualization widgets, Gephi exports	Web developers building network visualizations	Consulting/implementation Premium plugins/add-ons	• Network maps for fraud analysts • relationship graphs for research portals • knowledge-graph viewers for SaaS	Premium plugin packs $49-149 one-time *Effort:* Low (small canvas library, easy to embed) ⚠ MIT fine; no trademark issue, easy to embed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FluidX3D ProjectPhysX/FluidX3D ★ 5.4k · Check NOASSERTION · App · Fit 3/5	Fast lattice Boltzmann CFD solver running on GPUs and CPUs via OpenCL. *Replaces:* ANSYS Fluent, Siemens STAR-CCM+, Simcenter	Aerodynamics engineers and CFD consultancies	Consulting/implementation Setup + support retainer	• Aerodynamic CFD for drone design teams • wind-load studies for architects • HVAC airflow studies for building engineers	Consulting $5-20k per study *Effort:* High (GPU/OpenCL setup, validation needed) ⚠ NOASSERTION: free for non-commercial use only; commercial use needs a licence

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ppf-contact-solver st-tech/ppf-contact-solver ★ 4.6k · Permissive Apache-2.0 · Tool · Fit 3/5	Contact solver for physics simulations of shells, solids, rods, rigid bodies and sand. *Replaces:* Commercial contact solvers, Abaqus contact modules, Houdini sims	Animation studios and simulation engineers	Consulting/implementation Premium plugins/add-ons	• Cloth and sand simulation for animation studios • contact modelling for product designers • sim plugins for Blender artists	Premium plugin $99-299 one-time *Effort:* High (solver with GPU needs, integration work) ⚠ Apache-2.0 fine; check GPU and third-party library terms
Mesa mesa/mesa ★ 3.9k · Permissive Apache-2.0 · Library · Fit 3/5	Python library for building and running agent-based models with built-in visualization. *Replaces:* AnyLogic, NetLogo, commercial simulation platforms	Researchers and consultants building agent-based models	Consulting/implementation Training/courses	• Epidemic spread models for public-health consultants • crowd sims for event planners • supply-chain agent models for logistics	Training $800-2000 per workshop *Effort:* Medium (Python library, needs UI and domain models) ⚠ Apache-2.0 fine; keep NOTICE file and attribution
Renode renode/renode ★ 3.1k · Check NOASSERTION · App · Fit 3/5	Antmicro's simulation framework for developing and testing complex embedded systems virtually. *Replaces:* Wind River Simics, QEMU-based custom sims	Embedded firmware teams and hardware startups	Managed hosting Setup + support retainer	• Virtual test benches for automotive ECU teams • firmware CI for IoT makers • virtual hardware for robot controller teams	Hosted CI $300-1200/mo per team *Effort:* Medium (embedded sim, needs board models) ⚠ NOASSERTION: read license; Antmicro brand, check commercial terms
Moose idaholab/moose ★ 2.4k · Weak copyleft LGPL-2.1 · Framework · Fit 3/5	Finite element and finite volume framework for building complex multiphysics simulations. *Replaces:* COMSOL Multiphysics, ANSYS Mechanical, Abaqus	Nuclear and energy engineers, national labs	Consulting/implementation Training/courses	• Multiphysics modelling for reactor vendors • thermal-mechanical studies for energy firms • MOOSE training for engineering grad students	Training $800-2000 per course *Effort:* High (complex framework, expert users only) ⚠ LGPL-2.1 fine; INL brand, no implied endorsement; nuclear export rules
Jsbsim JSBSim-Team/jsbsim ★ 2.3k · Weak copyleft LGPL-2.1 · Library · Fit 3/5	Open-source flight dynamics and control library for aircraft and rocket simulation. *Replaces:* Commercial flight dynamics tools, MATLAB Simulink aero models	Flight simulation developers and aerospace engineers	Consulting/implementation Training/courses	• Flight models for simulator startups • aircraft dynamics analysis for UAV firms • JSBSim training for aerospace students	Training $600-1500 per course *Effort:* High (flight-model data needs validation) ⚠ LGPL-2.1 fine; aviation certification rules apply to flight-critical use
Casadi casadi/casadi ★ 2.3k · Weak copyleft LGPL-3.0 · Library · Fit 3/5	Symbolic framework for numeric optimization with automatic differentiation and C code generation. *Replaces:* GPOPS-II, commercial optimal-control solvers, MATLAB optimization toolbox	Control engineers and robotics teams	Consulting/implementation Training/courses	• Model predictive control for robotics teams • trajectory optimization for drone startups • optimal control courses for engineering students	Training $800-2000 per course *Effort:* High (C++/Python core, specialist expertise needed) ⚠ LGPL-3.0 fine; embedded code generation terms need checking
KeymouseGo taojy123/KeymouseGo ★ 10.6k · GPL GPL-2.0 · App · Fit 2/5	Desktop tool recording and replaying mouse clicks and keyboard input for automation. *Replaces:* AutoHotkey tools, commercial macro recorders, RPA tools	Office workers automating repetitive clicks	Premium plugins/add-ons Setup + support retainer	• Form-filling automation for data-entry clerks • QA macros for internal web apps • click automation for lab software	Premium license $15-40 one-time *Effort:* Low (desktop tool, narrow automation use) ⚠ GPL-2.0: distributed apps must ship source; automation may breach service terms
Engine-sim ange-yaghi/engine-sim ★ 9.6k · Permissive MIT · App · Fit 2/5	Combustion engine simulator that generates realistic engine audio and dynamics. *Replaces:* Commercial engine simulators, GT-Power engine models	Game studios and automotive educators	Training/courses Content/membership	• Engine audio for racing game studios • engine dynamics teaching for auto-tech schools • sound design packs for film	Sound packs $29-99 one-time *Effort:* Medium (desktop sim, audio tuning needed) ⚠ MIT fine; engine models claiming real-world accuracy need care
Server-survival pshenok/server-survival ★ 6.5k · Permissive MIT · Game · Fit 2/5	Tower defense game that teaches cloud architecture and scaling through play. *Replaces:* Cloud certification courses, architecture training games	Cloud engineers and bootcamp students	Training/courses Mobile app on top	• Cloud architecture training for bootcamp students • scaling game for cloud sales teams • classroom game for CS teachers	Classroom license $99-299 per year *Effort:* Medium (game content, needs polish and curriculum) ⚠ MIT fine; cloud-provider names in game need care

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
The-Powder-Toy The-Powder-Toy/The-Powder-Toy ★ 5.4k · GPL GPL-3.0 · Game · Fit 2/5	Falling-sand physics sandbox that simulates air pressure, velocity and heat in C++ and SDL. *Replaces:* Commercial physics sandbox games, sandbox toy apps	Physics teachers and casual sandbox players	Mobile app on top Premium plugins/add-ons	• Physics demo kits for science museums • sandbox apps for STEM classrooms • custom sims for game studios	Premium classroom license $99-299 per year *Effort:* Medium (desktop game, needs packaging and assets) ⚠ GPL-3.0: distributed apps must ship source; Powder Toy is a community brand
Thrive Revolutionary-Games/Thrive ★ 3.8k · Check NOASSERTION · Game · Fit 2/5	Source repository for Thrive, a game about cell evolution and ecosystems. *Replaces:* Commercial evolution games, Spore-like titles	Players and indie game studios	Mobile app on top Premium plugins/add-ons	• Educational evolution game for biology classes • indie game studio template • mod packs for fans	Free game; cosmetic packs $3-10 each *Effort:* High (large game project, asset licensing needed) ⚠ NOASSERTION: read license; game assets may carry separate licenses
Velxio davidmonterocrespo24/velxio ★ 3.6k · Check NOASSERTION · App · Fit 2/5	Browser-based emulator for Arduino, ESP32 and Raspberry Pi boards with compile and run. *Replaces:* Wokwi, Tinkercad Circuits, commercial microcontroller simulators	Makers and electronics teachers	Managed hosting Training/courses	• Browser Arduino labs for schools • ESP32 course platform for bootcamps • hosted board emulation for makerspaces	Hosted $5-20/mo per classroom *Effort:* Medium (many board emulators, needs packaging) ⚠ NOASSERTION: read license; Arduino and Raspberry Pi are trademarks
LocationSimulator Schlaubischlump/LocationSimulator ★ 3.2k · GPL GPL-3.0 · App · Fit 2/5	macOS app that spoofs the location of iOS and iPadOS simulator devices for development testing. *Replaces:* Xcode location simulation, commercial mock-location tools	iOS developers testing location features	Premium plugins/add-ons Setup + support retainer	• Location testing tools for delivery app teams • geofence QA for retail apps • location mocks for travel app developers	Premium license $19-49 one-time *Effort:* Low (macOS app, developer-focused) ⚠ GPL-3.0: distributed apps must ship source; Apple trademarks; developer-only use
MiroFish-Offline nikmcfly/MiroFish-Offline ★ 2.7k · AGPL AGPL-3.0 · App · Fit 2/5	Offline multi-agent simulation and prediction engine using Neo4j and Ollama locally. *Replaces:* Commercial agent-based simulation platforms, scenario planning tools	Policy analysts and strategy teams	Setup + support retainer Managed hosting	• Offline scenario simulation for government policy teams • local prediction tools for risk analysts • agent planning for NGOs	Setup $5-15k per deployment *Effort:* High (multi-service stack, prediction claims need care) ⚠ AGPL-3.0: publish server changes; English fork of upstream, check its rights
Attack_range splunk/attack_range ★ 2.6k · Permissive Apache-2.0 · Tool · Fit 2/5	Tool that builds instrumented vulnerable environments to simulate attacks and collect data into Splunk. *Replaces:* Commercial breach simulation platforms, Cymulate, AttackIQ	Security teams testing detection rules	Setup + support retainer Training/courses	• Detection testing for SOC teams • Splunk lab courses for security trainees • attack simulations for MSSP onboarding	Setup $3-10k per environment *Effort:* Medium (cloud and local stacks, Splunk dependent) ⚠ Apache-2.0 fine; Splunk is a Cisco brand; attack tooling needs authorized use
Meshio nschloe/meshio ★ 2.3k · Permissive MIT · Library · Fit 2/5	Python library reading and writing many mesh file formats for simulation and CAD pipelines. *Replaces:* Commercial mesh conversion tools, Gmsh converters	Simulation engineers moving meshes between tools	Consulting/implementation Training/courses	• Mesh conversion for FEA consultancies • format bridges for CFD service firms • meshing workshops for engineering grad students	Consulting $2-6k per project *Effort:* Low (Python library, broad format coverage) ⚠ MIT fine; no trademark issue, easy to embed
PositionBasedDynamics InteractiveComputerGraphics/PositionBasedDynamics ★ 2.3k · Permissive MIT · Library · Fit 2/5	C++ library for physically based simulation of rigid bodies, deformable solids and fluids. *Replaces:* Havok physics engine, commercial physics SDKs	Game and VFX developers needing physics	Consulting/implementation Premium plugins/add-ons	• Cloth and soft-body physics for game studios • deformable sims for VFX houses • physics plugins for simulation tools	Premium plugins $99-399 one-time *Effort:* High (C++ research library, integration heavy) ⚠ MIT fine; research code, check edge-case robustness

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pathsim pathsim/pathsim ★ 513 · Permissive MIT · Library · Fit 2/5	Python-native dynamical system simulation framework using the block diagram paradigm. *Replaces:* Simulink, Modelica tools, commercial control simulators	Control engineers and mechatronics students	Training/courses Consulting/implementation	• Control-system training for mechatronics students • block-diagram models for robotics startups • simulation consulting for process engineers	Training $400-1000 per course *Effort:* Medium (Python simulation, young project) ⚠ MIT fine; young project; verify solver accuracy for critical models
Bellhopcuda A-New-BellHope/bellhopcuda ★ 136 · GPL GPL-3.0 · Library · Fit 2/5	CUDA and C++ port of the BELLHOP underwater acoustics simulator. *Replaces:* Commercial underwater acoustic modelling tools, MATLAB acoustics toolboxes	Sonar engineers and underwater acoustics researchers	Consulting/implementation Setup + support retainer	• Sonar propagation modelling for offshore survey firms • GPU acoustics for naval research labs • sound-channel studies for marine monitoring	Consulting $5-15k per study *Effort:* High (GPU port, validation against BELLHOP needed) ⚠ GPL-3.0: distributed apps must ship source; BELLHOP legacy terms, check

Statistics & Research Tools · 19

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Miller johnkerl/miller ★ 10.1k · Check NOASSERTION · Tool · Fit 3/5	Command-line tool like awk, sed and join for name-indexed CSV, TSV and JSON data. *Replaces:* awk and sed pipelines, commercial data-wrangling tools	Data engineers wrangling tabular files	Consulting/implementation Training/courses	• CSV cleanup for finance data teams • log wrangling for ops engineers • TSV processing training for analysts	Training $300-800 per course *Effort:* Low (single Go binary, well-scoped, works as-is) ⚠ NOASSERTION: read license; permissive terms likely, verify before redistributing
Pymc pymc-devs/pymc ★ 9.8k · Check NOASSERTION · Library · Fit 3/5	Python library for Bayesian modeling and probabilistic programming with MCMC and variational inference. *Replaces:* SAS Bayesian procedures, Stan consulting services, commercial Bayesian tools	Data scientists doing Bayesian inference	Consulting/implementation Training/courses	• Bayesian forecasting for retail planners • clinical trial modelling for biostat teams • PyMC training for analysts	Training $500-1500 per course *Effort:* Medium (Python library, needs domain models) ⚠ NOASSERTION: read license; PyMC project brand, avoid implied endorsement
Sweetviz fbdesignpro/sweetviz ★ 3.1k · Permissive MIT · Library · Fit 3/5	Python library generating one-line visual comparison reports of datasets and target values. *Replaces:* Profiling-style data reports, data prep tool summaries	Data scientists and analytics teams doing dataset QA	Consulting/implementation Premium plugins/add-ons	• Data QA reports for insurance pricing teams • dataset audits for ML vendors • EDA templates for healthcare analytics	Premium add-ons $29-99/mo per team *Effort:* Medium (Python library, needs UI and branding) ⚠ MIT fine; easy to fork and rebrand
Brms paul-buerkner/brms ★ 1.4k · GPL GPL-2.0 · Library · Fit 3/5	R package fitting Bayesian multilevel models through the Stan language. *Replaces:* SAS PROC MCMC, commercial Bayesian modelling services	Epidemiologists and social scientists using Bayesian models	Consulting/implementation Training/courses	• Bayesian multilevel models for public-health studies • Stan training for social science grad students • hierarchical models for market research	Training $500-1500 per course *Effort:* Low (R package, well-documented, research users) ⚠ GPL-2.0: distributed apps must ship source; Stan licensing applies
Gtsummary ddsjoberg/gtsummary ★ 1.2k · Check NOASSERTION · Library · Fit 3/5	R package producing presentation-ready summary and regression tables for clinical and research reports. *Replaces:* Commercial table-generation tools, manual Word table formatting	Biostatisticians and clinical reporting teams	Consulting/implementation Training/courses	• Clinical summary tables for pharma submissions • regression tables for epidemiology papers • table training for biostat teams	Training $400-1000 per course *Effort:* Low (R package, widely used, easy to embed) ⚠ NOASSERTION: read license; pharma use needs validation
Tablesaw jtablesaw/tablesaw ★ 3.8k · Permissive Apache-2.0 · Library · Fit 2/5	Java dataframe and visualization library for data wrangling and charts on the JVM. *Replaces:* pandas-style Java tools, commercial JVM analytics libraries	Java developers building analytics features	Consulting/implementation Setup + support retainer	• Data prep for JVM reporting services • chart modules for insurance back-office apps • analytics for Java ERP vendors	Support $3-8k per year *Effort:* Medium (Java library, smaller ecosystem) ⚠ Apache-2.0 fine; no trademark issue, easy to embed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rmarkdown rstudio/rmarkdown ★ 3.1k · Check NOASSERTION · Library · Fit 2/5	R package for dynamic documents that combine R code, output and narrative into reports. *Replaces:* Commercial reporting tools, Crystal Reports	R analysts producing recurring reports	Consulting/implementation Training/courses	• Automated reports for pharma biostat teams • R report templates for public health agencies • reporting training for analysts	Training $400-1000 per course *Effort:* Medium (R package, Posit brand dependencies) ⚠ NOASSERTION: read license; RStudio and Posit are brands, avoid implied endorsement
DataFrame hosseinmoein/DataFrame ★ 3.0k · Permissive BSD-3-Clause · Library · Fit 2/5	C++ DataFrame library for statistical, financial and machine learning analysis. *Replaces:* pandas, commercial C++ analytics libraries	C++ quant developers and trading firms	Consulting/implementation Setup + support retainer	• Fast data handling for trading desks • C++ analytics for risk engines • statistics modules for HFT research teams	Support $5-15k per year *Effort:* Medium (C++ library, expert users) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Knitr yihui/knitr ★ 2.5k · Check NONE · Library · Fit 2/5	R package for dynamic report generation that embeds R code and results in documents. *Replaces:* Commercial reporting tools, Sweave	R users producing reproducible reports	Consulting/implementation Training/courses	• Reproducible reports for pharma statistics teams • knitr training for R analysts • report automation for university units	Training $300-800 per course *Effort:* Low (mature R package, widely used) ⚠ NONE license field: read the LICENSE file before reuse
Math-php markrogoyski/math-php ★ 2.4k · Permissive MIT · Library · Fit 2/5	PHP math library with statistics, regression, probability distributions and linear algebra. *Replaces:* Commercial PHP stats libraries, MATLAB ports	PHP developers adding stats and math features	Consulting/implementation Setup + support retainer	• Regression features for PHP analytics SaaS • probability tools for PHP insurance quoting • matrix utilities for Laravel dashboards	Support $1-4k per year *Effort:* Low (PHP library, well-documented, stable) ⚠ MIT fine; no trademark issue, easy to embed
Ggstatsplot IndrajeetPatil/ggstatsplot ★ 2.2k · Check NOASSERTION · Library · Fit 2/5	R package adding statistical results and tests to ggplot2 plots for publication figures. *Replaces:* Commercial stats-plot tools, manual figure annotation	R analysts producing publication figures	Consulting/implementation Training/courses	• Publication plots for biostat teams • statistical graphics training for psychology students • figure QA for R consultancies	Training $300-800 per course *Effort:* Low (R package, focused and well-scoped) ⚠ GPL-3.0: distributed apps must ship source; ggplot2 dependency terms apply
Prospector prospector-dev/prospector ★ 2.1k · GPL GPL-2.0 · Tool · Fit 2/5	Python static analysis aggregator reporting type, location and issues across many linters. *Replaces:* Commercial Python code-quality suites, SonarQube for Python	Python teams wanting linter aggregation	Setup + support retainer Consulting/implementation	• Linter setup for Python agencies • CI quality gates for fintech teams • code-review tooling for university dev groups	Support $1-4k per year *Effort:* Low (CLI tool, plugin-based, needs CI glue) ⚠ GPL-2.0: distributed apps must ship source; overlaps with ruff and pylint
Igraph igraph/igraph ★ 2.0k · GPL GPL-2.0 · Library · Fit 2/5	Library for analyzing networks: graph algorithms, centrality, community detection and visualization. *Replaces:* Gephi, NodeXL, commercial network analysis tools	Social scientists and network analysts	Consulting/implementation Training/courses	• Social network analysis for political research firms • supply-chain graph audits for logistics consultants • network training for sociology students	Consulting $3-8k per study *Effort:* Low (mature C library with R and Python bindings) ⚠ GPL-2.0: distributed apps must ship source; igraph is a project brand
Mlr mlr-org/mlr ★ 1.7k · Check NOASSERTION · Framework · Fit 2/5	Machine learning framework for R with resampling, tuning and benchmarking workflows. *Replaces:* caret, commercial R modelling platforms	R data scientists running model benchmarks	Training/courses Consulting/implementation	• Model benchmarking for insurance pricing teams • R ML training for analysts • tuning pipelines for biostat groups	Training $500-1200 per course *Effort:* Medium (R framework, successor mlr3 now preferred) ⚠ NOASSERTION: read license; check whether mlr3 is the better base
Drake ropensci/drake ★ 1.3k · GPL GPL-3.0 · Tool · Fit 2/5	R pipeline toolkit for reproducible, high-performance computing workflows, now superseded. *Replaces:* Make-based pipelines, commercial workflow schedulers	R analysts running reproducible pipelines	Consulting/implementation Training/courses	• Reproducible pipelines for pharma stats teams • HPC workflows for climate analysts • drake-to-targets migration for consultancies	Migration projects $3-10k per team *Effort:* Low (mature R package, superseded by targets) ⚠ GPL-3.0 fine for hosting; project superseded, plan a migration path

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Bambi bambinos/bambi ★ 1.3k · Permissive MIT · Library · Fit 2/5	Python package for Bayesian model building with a formula interface on top of PyMC. *Replaces:* PyMC direct modelling, commercial Bayesian tools	Analysts who prefer formula-style models	Training/courses Consulting/implementation	• Bayesian regression training for analysts • formula-based models for clinical studies • Bayesian forecasting for retail teams	Training $400-1000 per course *Effort:* Low (Python package, formula interface, PyMC-based) ⚠ MIT fine; depends on PyMC, check its terms too
Vitae mitchelloharawild/vitae ★ 1.3k · GPL GPL-3.0 · Library · Fit 2/5	R Markdown package for building résumés and CVs from structured data. *Replaces:* Commercial CV builders, Canva résumé templates	Academics and consultants formatting CVs	Premium plugins/add-ons Content/membership	• Academic CV templates for faculty job seekers • consulting profile templates for analysts • CV templates for research offices	Template packs $19-49 one-time *Effort:* Low (R-based templates, niche audience) ⚠ GPL-3.0: distributed apps must ship source; check template licenses
Adaptive python-adaptive/adaptive ★ 1.2k · Permissive BSD-3-Clause · Library · Fit 2/5	Python library for parallel adaptive sampling that chooses where to evaluate a function next. *Replaces:* Commercial design-of-experiments tools, hyperparameter tuners	Experimentalists and simulation groups	Consulting/implementation Training/courses	• Adaptive sampling for materials labs • simulation sweeps for climate modelers • experiment design workshops for chemists	Training $500-1500 per workshop *Effort:* Low (Python library, scientific users, few hooks needed) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Paramonte cdslaborg/paramonte ★ 307 · Check NOASSERTION · Library · Fit 2/5	Parallel Monte Carlo and machine learning library usable from Python, MATLAB, Fortran, C++ and C. *Replaces:* MATLAB statistics toolboxes, commercial Monte Carlo packages	Scientists needing parallel Monte Carlo sampling	Consulting/implementation Training/courses	• Bayesian sampling for pharmacokinetic modelers • MCMC services for reliability engineers • Monte Carlo training for climate groups	Consulting $3-10k per model study *Effort:* Medium (multi-language numerics, heavy build) ⚠ NOASSERTION: read license; scientific code, check citation terms

Structural & Civil Engineering · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Darwinkit progrium/darwinkit ★ 5.4k · Permissive MIT · Library · Fit 2/5	Go bindings giving programs access to native macOS APIs. *Replaces:* Objective-C bridging tools, commercial macOS SDKs	Go developers building macOS apps	Consulting/implementation	• macOS utilities in Go for internal IT teams • native menu-bar apps for small tools • Apple API bridges for Go shops	Consulting $2-6k per project *Effort:* Low (niche bindings, narrow audience) ⚠ MIT fine; Apple API use subject to platform terms
Websockify novnc/websockify ★ 4.5k · Weak copyleft LGPL-3.0 · Tool · Fit 2/5	WebSocket-to-TCP proxy that lets a browser reach any TCP service. *Replaces:* Commercial remote-access gateways, Apache Guacamole	IT teams offering browser remote access	Setup + support retainer Managed hosting	• Browser VNC access for helpdesk teams • in-browser SSH gateways for MSPs • legacy app access in browsers for clinics	Hosted $50-300/mo per gateway *Effort:* Medium (proxy component, security hardening needed) ⚠ LGPL-3.0 fine; exposing internal services needs a security review
AirConnect philippe44/AirConnect ★ 4.2k · Check NOASSERTION · Tool · Fit 2/5	Bridge that streams AirPlay audio to UPnP, Sonos and Chromecast speakers. *Replaces:* Commercial multi-room audio bridges, manual AirPlay workarounds	Home audio enthusiasts with mixed speakers	Setup + support retainer Premium plugins/add-ons	• Multi-room audio setup for home installers • speaker bridging for small venues • AirPlay support for cafe sound systems	Setup $80-250 per home *Effort:* Low (small bridge, mostly configuration) ⚠ NOASSERTION: read license; Apple, Sonos and Google trademarks, no endorsement
React-native-share react-native-share/react-native-share ★ 3.9k · Permissive MIT · Library · Fit 2/5	React Native module sharing text, files and images to other apps via native share sheets. *Replaces:* Commercial React Native share SDKs, custom native bridges	React Native app teams	Consulting/implementation Premium plugins/add-ons	• Share features for mobile commerce apps • export buttons for field-service apps • sharing flows for consumer social apps	Consulting $1-4k per feature *Effort:* Low (mature RN module, small surface) ⚠ MIT fine; no trademark issue, easy to embed
CppSharp mono/CppSharp ★ 3.4k · Permissive MIT · Library · Fit 2/5	Tools that generate bindings between C and C++ APIs and high-level languages such as C#. *Replaces:* SWIG, commercial interop generators	Game and engine teams binding native code to C#	Consulting/implementation Setup + support retainer	• C++ to C# bindings for Unity plugins • native SDK wrappers for medical device vendors • binding generation for engine teams	Support $3-10k per year *Effort:* High (generator tool, binding quality varies) ⚠ MIT fine; Mono is a project brand, avoid implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Telegram mautrix/telegram ★ 1.8k · **AGPL** AGPL-3.0 · App · Fit 2/5	Matrix-to-Telegram puppeting bridge that relays messages between the two chat networks. *Replaces:* Commercial chat bridges, multi-chat aggregator apps	Communities and teams running Matrix servers	Managed hosting Setup + support retainer	• Hosted Matrix bridges for community servers • chat bridging for remote teams • Telegram bridges for NGO communities	Hosted $5-20/mo per bridge *Effort:* Medium (server-side bridge, Telegram terms risk) ⚠ AGPL-3.0: publish server changes; Telegram and Matrix trademarks, check ToS
Hmq fhmq/hmq ★ 1.4k · **Permissive** Apache-2.0 · App · Fit 2/5	High-performance MQTT broker for IoT messaging between devices and servers. *Replaces:* EMQX, HiveMQ, Mosquitto commercial support	IoT platform builders and device makers	Managed hosting Setup + support retainer	• MQTT broker hosting for smart-building vendors • telemetry brokers for agriculture sensors • device messaging for fleet startups	Hosted $80-400/mo per cluster *Effort:* Medium (broker needs clustering and security work) ⚠ Apache-2.0 fine; EMQX and HiveMQ are competitors, no trademark issue
WKWebViewJavascriptBridge Lision/WKWebViewJavascriptBridge ★ 1.3k · **Permissive** MIT · Library · Fit 2/5	Bridge library for sending messages between Swift and JavaScript inside WKWebView. *Replaces:* Commercial hybrid-app bridges, custom native bridges	iOS teams building hybrid apps	Consulting/implementation	• Hybrid app bridging for iOS vendors • WebView bridges for kiosk apps • in-app web content for enterprise iOS apps	Consulting $2-5k per feature *Effort:* Low (small iOS library, mature, narrow) ⚠ MIT fine; Apple WKWebView dependency, no trademark issue
Jpype jpype-project/jpype ★ 1.3k · **Permissive** Apache-2.0 · Library · Fit 2/5	Python library giving Python programs full access to Java class libraries. *Replaces:* Jython, commercial Java-Python bridges	Python teams needing Java libraries	Consulting/implementation Setup + support retainer	• Java library access for data teams • legacy Java integration for Python analytics • JVM bridges for research labs	Support $2-6k per year *Effort:* Medium (native bridge, JVM setup complexity) ⚠ Apache-2.0 fine; Java and Oracle trademarks, avoid implied endorsement
Matterbridge Luligu/matterbridge ★ 1.0k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Plugin manager that bridges non-Matter smart home devices into Matter ecosystems. *Replaces:* Commercial Matter bridges, Homebridge-style hubs	Smart home installers and DIY home users	Setup + support retainer Premium plugins/add-ons	• Matter bridging for smart-home installers • Matter plugins for appliance makers • Matter setup for property managers	Setup $100-300 per home *Effort:* Medium (plugin manager, Matter certification issues) ⚠ Apache-2.0 fine; Matter and CSA trademarks, certification claims need care
Matrix-appservice-discord matrix-org/matrix-appservice-discord ★ 909 · **Permissive** Apache-2.0 · App · Fit 2/5	Bridge between Matrix rooms and Discord channels for community chat sync. *Replaces:* Commercial chat bridges, Discord-only community tools	Open-source communities running Matrix and Discord	Managed hosting Setup + support retainer	• Hosted Discord bridges for open-source projects • community sync for esports teams • bridge setup for NGO networks	Hosted $10-40/mo per server *Effort:* Medium (bridge maintenance, Discord terms constraints) ⚠ Apache-2.0 fine; Discord and Matrix trademarks, ToS limits apply
JSPyBridge extremeheat/JSPyBridge ★ 856 · **Permissive** MIT · Library · Fit 2/5	Bridge letting Node.js and Python programs call each other's libraries directly. *Replaces:* Commercial polyglot bridges, custom IPC glue	Developers mixing Node and Python stacks	Consulting/implementation	• Node-Python glue for ML demos • cross-language tooling for internal dev teams • bridge setup for AI product prototypes	Consulting $1-4k per integration *Effort:* Low (small, niche polyglot bridge) ⚠ MIT fine; no trademark issue, easy to embed
Pynite JWock82/Pynite ★ 779 · **Permissive** MIT · Library · Fit 2/5	Python 3D structural finite element library for frames, trusses and beams. *Replaces:* SAP2000, ETABS, RISA-3D, commercial structural analysis tools	Structural engineers and small design firms	Consulting/implementation Training/courses	• Frame analysis scripts for small structural firms • truss design checks for builders • FE training for civil students	Training $300-800 per course *Effort:* High (FE library, needs validation before engineering use) ⚠ MIT fine; engineering results need professional review and code compliance

Surveying & Drone Mapping · 8

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AliceVision alicevision/AliceVision ★ 3.5k · Check NOASSERTION · Library · Fit 2/5	3D computer vision framework for photogrammetry, structure-from-motion and multi-view stereo. *Replaces:* Pix4D, Agisoft Metashape, RealityCapture	Surveying firms and drone mapping services	Consulting/implementation Setup + support retainer	• Photogrammetry pipelines for survey firms • 3D reconstruction for heritage sites • drone mapping backends for mining firms	Support $5-15k per year *Effort:* High (C++ framework, needs integration and GPU setup) ⚠ NOASSERTION: read license; MPL-2.0 file-level copyleft in parts, check
Blender-Addon-Photogrammetry-Importer SBCV/Blender-Addon-Photogrammetry-Importer ★ 1.4k · Permissive MIT · Tool · Fit 2/5	Blender add-on that imports photogrammetry output formats into Blender scenes. *Replaces:* Manual mesh import, commercial photogrammetry plugins	3D artists and surveyors using Blender	Premium plugins/add-ons Consulting/implementation	• Photogrammetry import for heritage 3D artists • survey mesh cleanup for archaeology teams • Blender prep for drone-survey visuals	Premium plugin $29-79 one-time *Effort:* Low (Blender add-on, narrow scope) ⚠ MIT fine; Blender is a trademark, no implied endorsement
3DGS-to-PC Lewis-Stuart-11/3DGS-to-PC ★ 819 · Permissive Apache-2.0 · Tool · Fit 2/5	Converts 3D Gaussian Splatting models into dense point clouds for downstream use. *Replaces:* Manual point-cloud export, commercial scan processing tools	3D capture studios and survey teams	Consulting/implementation Premium plugins/add-ons	• Point clouds for heritage digitization • scan processing for real-estate 3D tours • dense clouds for drone survey firms	Consulting $1-3k per dataset *Effort:* Medium (research paper code, needs cleanup) ⚠ Apache-2.0 fine; research method, validate outputs before survey use
TeleSculptor Kitware/TeleSculptor ★ 658 · Check NOASSERTION · App · Fit 2/5	Aerial photogrammetry application that builds 3D models from drone and aerial imagery. *Replaces:* Pix4Dmapper, Agisoft Metashape, Bentley ContextCapture	Drone survey firms and mapping agencies	Setup + support retainer Consulting/implementation	• Drone 3D models for construction survey firms • aerial mapping for county assessors • 3D site models for mining surveyors	Support $3-10k per year *Effort:* High (KWIVER dependency, desktop install complexity) ⚠ NOASSERTION: read license; Kitware brand and KWIVER component terms apply
Openreality reality-opened/openreality ★ 644 · Permissive BSD-2-Clause · App · Fit 2/5	Phone video to AI-queryable 3D scene platform with MCP tools and a self-hostable broker. *Replaces:* Matterport capture services, commercial 3D scanning apps	Real-estate agents and property managers	Managed hosting Setup + support retainer	• 3D property tours from phone video • scene capture for insurance claims • AI-searchable site scans for facility managers	Hosted $50-200/mo per property *Effort:* High (early project, capture accuracy unproven) ⚠ BSD-2-Clause fine; verify capture accuracy before selling to clients
3dgsconverter francescofugazzi/3dgsconverter ★ 604 · Permissive MIT · Tool · Fit 2/5	Python command-line tool converting 3D Gaussian Splatting models between formats such as PLY and KSplat. *Replaces:* Manual format conversion, commercial 3D asset converters	3D capture studios and web-viewer developers	Consulting/implementation Premium plugins/add-ons	• Format conversion for web 3D viewers • splat prep for real-estate tour firms • asset pipelines for game studios	Premium plugin $29-79 one-time *Effort:* Low (CLI converter, narrow but useful) ⚠ MIT fine; splat formats change quickly, check compatibility
Deep-image-matching 3DOM-FBK/deep-image-matching ★ 555 · Check NOASSERTION · Library · Fit 2/5	Multiview image matching with deep-learning and classic features for COLMAP and other SfM tools. *Replaces:* Commercial photogrammetry matching modules, manual tie-point work	Survey and photogrammetry firms	Consulting/implementation Setup + support retainer	• Tie-point matching for drone survey firms • SfM preprocessing for heritage projects • matching pipelines for mapping agencies	Setup $3-10k per pipeline *Effort:* Medium (research tool, needs QA on survey data) ⚠ NOASSERTION: read license; FBK research terms and COLMAP licence apply
Cars CNES/cars ★ 404 · Permissive Apache-2.0 · App · Fit 2/5	Open-source tool producing digital surface models from satellite images using photogrammetry. *Replaces:* Commercial DSM production services, Ames Stereo Pipeline	Satellite data firms and mapping agencies	Consulting/implementation Setup + support retainer	• DSM production for flood-risk consultancies • terrain models for defense mapping • 3D satellite products for mining firms	Consulting $8-25k per DSM project *Effort:* High (satellite-specific pipeline, expert users) ⚠ Apache-2.0 fine; CNES is a French government brand, no endorsement

Transportation Modelling & Traffic · 12

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Sumo eclipse-sumo/sumo ★ 4.3k · Weak copyleft EPL-2.0 · App · Fit 3/5	Microscopic traffic simulation package for large road and multimodal transport networks. *Replaces:* PTV Vissim, Aimsun, commercial traffic simulators	Transport planners and city traffic engineers	Consulting/implementation Setup + support retainer	• Traffic modelling for city transport agencies • signal timing studies for consultancies • multimodal sims for transit authorities	Consulting $10-50k per network study *Effort:* High (large network models, data prep heavy) ⚠ EPL-2.0: modified distributed code must stay EPL; Eclipse brand
PcapXray srixivas/PcapXray ★ 1.9k · GPL GPL-2.0 · Tool · Fit 2/5	Network forensics tool that draws offline packet captures as network diagrams with device identification. *Replaces:* Commercial network forensics tools, Wireshark-based analysis	Security analysts doing incident response	Consulting/implementation Training/courses	• Packet-capture reports for incident responders • forensic diagrams for legal teams • network forensics training for SOC analysts	Training $500-1200 per course *Effort:* Medium (offline capture tool, output needs expertise) ⚠ GPL-2.0: distributed apps must ship source; captures may hold personal data
Vnstat vergoh/vnstat ★ 1.8k · GPL GPL-2.0 · Tool · Fit 2/5	Network traffic monitor for Linux and BSD that logs bandwidth usage over time. *Replaces:* Commercial bandwidth monitors, router traffic dashboards	Sysadmins tracking bandwidth	Setup + support retainer Managed hosting	• Bandwidth reporting for ISP customers • traffic dashboards for small hosting firms • usage logs for co-working spaces	Support $300-1000 per year *Effort:* Low (mature CLI tool, simple to deploy) ⚠ GPL-2.0: distributed apps must ship source; no trademark issue
Tcpreplay appneta/tcpreplay ★ 1.4k · GPL GPL-3.0 · Tool · Fit 2/5	Suite of tools to edit and replay captured network traffic at chosen speeds on Unix and Windows. *Replaces:* Commercial traffic replay appliances, Ixia and Keysight replay tools	QA teams testing network devices	Consulting/implementation Setup + support retainer	• Traffic replay for firewall vendor QA • capacity testing for telecom labs • IDS tuning for security teams	Setup $3-8k per lab *Effort:* Medium (CLI suite, needs test-lab expertise) ⚠ GPL-3.0: distributed apps must ship source; AppNeta is a company brand
MoonBox vivo/MoonBox ★ 1.3k · Permissive Apache-2.0 · Platform · Fit 2/5	Server-side traffic capture and replay platform that records and replays requests without intrusive code changes. *Replaces:* Commercial traffic replay tools, GoReplay	Backend teams doing regression testing	Managed hosting Setup + support retainer	• Regression testing for payment API teams • replay testing for mobile backends • traffic capture for SaaS QA	Hosted $200-800/mo per service *Effort:* High (Chinese-language docs, production traffic data is sensitive) ⚠ Apache-2.0 fine; recorded production traffic may hold personal data
Godot-road-generator TheDuckCow/godot-road-generator ★ 1.3k · Permissive MIT · Tool · Fit 2/5	Godot plugin generating 3D highways and streets with lane-following traffic. *Replaces:* Commercial road generation tools for games, Unity road kits	Godot game developers and simulation builders	Premium plugins/add-ons Consulting/implementation	• Road kits for racing game studios • street scenes for simulation startups • traffic demos for driver-training apps	Premium plugin $29-79 one-time *Effort:* Low (Godot plugin, focused scope) ⚠ MIT fine; Godot is a trademark of its foundation, no implied endorsement
Flow flow-project/flow ★ 1.2k · Permissive MIT · Framework · Fit 2/5	Computational framework for applying reinforcement learning to traffic control problems. *Replaces:* Custom SUMO-based RL setups, commercial traffic signal optimizers	Traffic engineers and transport researchers	Consulting/implementation Training/courses	• RL signal control studies for city traffic agencies • RL training for transport grad students • traffic-control prototypes for mobility startups	Consulting $10-30k per study *Effort:* High (research framework, SUMO dependency) ⚠ MIT fine; uses SUMO (EPL), check transitive terms
Bigscity-LibCity LibCity/Bigscity-LibCity ★ 1.2k · Permissive Apache-2.0 · Library · Fit 2/5	Open library for spatial-temporal urban data mining, with models for traffic and mobility forecasting. *Replaces:* Commercial mobility analytics, custom traffic forecasting code	Urban analytics teams and transport researchers	Consulting/implementation Training/courses	• Traffic forecasting for city transport agencies • mobility analytics for ride-share planners • LibCity training for urban data students	Training $400-1000 per course *Effort:* High (research library, many models, data prep heavy) ⚠ Apache-2.0 fine; no trademark issue; dataset terms vary
Pirsch pirsch-analytics/pirsch ★ 1.0k · AGPL AGPL-3.0 · App · Fit 2/5	Privacy-focused, cookieless server-side web analytics library and service for Go. *Replaces:* Google Analytics, Plausible, Fathom	Privacy-minded website owners and agencies	Managed hosting Vertical SaaS	• Cookieless analytics for EU publishers • privacy analytics for health-info sites • hosted analytics for Go-based SaaS	Hosted $9-49/mo per site *Effort:* Medium (Go library plus service, needs hosting) ⚠ AGPL-3.0: publish server changes; Google Analytics and Plausible are brands

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
CityFlow cityflow-project/CityFlow ★ 1.0k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Multi-agent reinforcement learning environment for large-scale city traffic scenarios. *Replaces:* SUMO, commercial traffic simulators	Traffic-signal researchers and city planners	Consulting/implementation Training/courses	• Signal-control trials for city agencies • RL traffic research for university groups • simulation training for mobility consultants	Consulting $8-25k per study *Effort:* High (C++ simulator, research-grade tooling) ⚠ Apache-2.0 fine; no trademark issue; city data licences apply
Cloud-probe Netis/cloud-probe ★ 963 · **Permissive** BSD-3-Clause · Tool · Fit 2/5	Software probe capturing and forwarding network packets in cloud, Kubernetes and virtualized environments. *Replaces:* Commercial network packet brokers, cloud TAP services	Cloud ops and network security teams	Setup + support retainer Managed hosting	• Packet capture for Kubernetes security teams • traffic visibility for telecom cloud labs • probe setup for MSSP clients	Support $4-12k per year *Effort:* High (Kubernetes integration complexity) ⚠ BSD-3-Clause fine; packet capture may expose user data, legal limits apply
analytics.usa.gov 18F/analytics.usa.gov ★ 786 · **Check** NOASSERTION · App · Fit 2/5	US federal government website analytics dashboard showing public web traffic data. *Replaces:* Google Analytics dashboards, commercial site analytics	Government digital teams publishing dashboards	Consulting/implementation Setup + support retainer	• Analytics dashboards for state agencies • public-traffic reporting for city governments • dashboard setup for federal contractors	Setup $5-15k per agency *Effort:* Medium (government-built, Google Analytics dependency) ⚠ NOASSERTION: read license; US government work, 18F and GSA names not endorsed

Urban Planning & Digital Twins · 6

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ditto eclipse-ditto/ditto ★ 947 · **Weak copyleft** EPL-2.0 · Platform · Fit 3/5	Eclipse digital twin framework for managing device data and state in IoT systems. *Replaces:* Azure Digital Twins, AWS IoT TwinMaker, Bosch IoT Suite	IoT platform teams and industrial integrators	Managed hosting Consulting/implementation	• Digital-twin backends for factory integrators • device state services for smart-building vendors • twin APIs for energy-asset monitoring	Hosted $500-2500/mo per tenant *Effort:* High (Java stack, ops-heavy, Eclipse governance) ⚠ EPL-2.0: modified distributed code must stay EPL; Eclipse brand
WeClone xming521/WeClone ★ 18.4k · **AGPL** AGPL-3.0 · App · Fit 2/5	Builds chat-based AI clones from a person's own chat logs, with the subject's consent. *Replaces:* Character chatbot apps, AI persona services	Individuals making consented personal AI companions	Managed hosting Consulting/implementation	• Consented family legacy chatbots • personal journaling companions • coaching bots trained on a founder's own notes	Hosted $10-30/mo per persona, with consent checks *Effort:* Medium (data pipelines and model setup are heavy) ⚠ AGPL-3.0: publish server changes; impersonation and consent laws, privacy risk
Shifu Edgenesis/shifu ★ 1.4k · **Permissive** Apache-2.0 · Platform · Fit 2/5	Kubernetes-native IoT gateway connecting devices to cloud services through declarative configuration. *Replaces:* Commercial IoT gateways, AWS IoT Greengrass	Industrial IoT integrators and device makers	Managed hosting Setup + support retainer	• IoT gateway setup for factory integrators • Kubernetes device bridges for energy firms • edge gateways for building operators	Support $5-20k per year *Effort:* High (Kubernetes expertise required, device drivers) ⚠ Apache-2.0 fine; no trademark issue; device-protocol patents may apply
Itwinjs-core iTwin/itwinjs-core ★ 742 · **Permissive** MIT · Library · Fit 2/5	Monorepo for the iTwin.js library, used to build infrastructure digital-twin web apps. *Replaces:* Bentley iTwin Platform, Autodesk Forge viewers, commercial BIM viewers	Infrastructure engineers and asset owners	Consulting/implementation Premium plugins/add-ons	• Infrastructure digital twins for utilities • BIM viewers for construction firms • asset dashboards for transport agencies	Premium plugins $99-399 one-time *Effort:* High (tied to iTwin cloud services, complex stack) ⚠ MIT fine; Bentley iTwin brand and cloud service terms apply
Mago-3d-tiler Gaia3D/mago-3d-tiler ★ 368 · **Weak copyleft** MPL-2.0 · Tool · Fit 2/5	Java tool generating 3D Tiles datasets from city models and point clouds for web viewers. *Replaces:* Cesium ion tiling service, commercial 3D tiling tools	GIS teams publishing 3D city models	Consulting/implementation Setup + support retainer	• 3D Tiles production for city councils • tiling services for BIM-to-GIS firms • 3D web publishing for utilities	Consulting $6-20k per dataset *Effort:* High (Java tool, large data pipelines) ⚠ MPL-2.0: file-level copyleft; Cesium 3D Tiles spec terms apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
3dstreet 3DStreet/3dstreet ★ 335 · **Check** NOASSERTION · App · Fit 2/5	Web-based 3D visualization tool for designing and reviewing street layouts using A-Frame. *Replaces:* Commercial street design software, SketchUp street kits	Transport planners and city street designers	Managed hosting Consulting/implementation	• Street redesign visuals for city councils • public consultation tools for transport agencies • complete-streets design for consultancies	Hosted $300-1200/mo per agency *Effort:* Medium (browser app, needs planning workflows) ⚠ NOASSERTION: read license; A-Frame is a Mozilla-origin project, check terms

Security, Privacy & Compliance

334 projects in 25 categories, sorted by fit then stars.

Application Security & SAST · 24

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Semgrep semgrep/semgrep ★ 17.5k · Weak copyleft LGPL-2.1 · Tool · Fit 4/5	Lightweight static analysis engine that finds bug variants using code-like patterns across languages. *Replaces:* Snyk Code, Checkmarx, Veracode SAST	Security teams and AppSec engineers	Vertical SaaS Managed hosting	• SAST for fintech AppSec teams • custom rule packs for healthcare dev teams • secure-code training for bootcamp grads	Team plan $30-60 per dev per month *Effort:* Medium (mature product, rules and hosted service) ⚠ LGPL-2.1 engine; registry rule terms differ; Semgrep brand
ImHex WerWolv/ImHex ★ 55.8k · GPL GPL-2.0 · App · Fit 3/5	Hex editor for reverse engineers and programmers with a pattern language and data inspection. *Replaces:* 010 Editor, HxD, commercial hex editors	Reverse engineers and firmware analysts	Premium plugins/add-ons Consulting/implementation	• Firmware analysis tooling for embedded teams • file-format analysis for forensics labs • pattern-language training for RE students	Premium plugins $29-99 one-time *Effort:* Low (desktop app, polished, plugin ecosystem) ⚠ GPL-2.0: distributed apps must ship source; 010 Editor brand not used
Ruff astral-sh/ruff ★ 50.9k · Permissive MIT · Tool · Fit 3/5	Extremely fast Python linter and code formatter written in Rust. *Replaces:* pylint, flake8, black, commercial code-quality tools	Python teams running code-quality checks	Setup + support retainer Consulting/implementation	• CI linting setup for fintech Python teams • formatter rollouts for data-science groups • code-quality audits for agencies	Support $1-5k per year *Effort:* Low (CLI tool, drop-in, works as-is) ⚠ MIT fine; Astral brand, avoid implied endorsement
Infer meta/infer ★ 15.7k · Permissive MIT · Tool · Fit 3/5	Static analyzer for Java, C, C++ and Objective-C that finds crashes and resource bugs. *Replaces:* Coverity, Klocwork, commercial static analyzers	Mobile and C++ teams running static analysis	Consulting/implementation Setup + support retainer	• Crash-bug scanning for mobile app teams • memory-safety audits for embedded C teams • CI analysis for game studios	Support $5-15k per year *Effort:* High (large analyzer, expert setup and build integration) ⚠ MIT fine; Meta brand, avoid implied endorsement
Phpstan phpstan/phpstan ★ 14.2k · Permissive MIT · Tool · Fit 3/5	PHP static analysis tool that finds bugs in code without running it. *Replaces:* Psalm, commercial PHP code-quality services	PHP teams running static analysis	Setup + support retainer Consulting/implementation	• PHPStan rollouts for Laravel agencies • CI quality gates for e-commerce teams • legacy PHP audits for hosting firms	Support $1-4k per year *Effort:* Low (mature CLI, extensions ecosystem) ⚠ MIT fine; no trademark issue, easy to embed
Sonarqube SonarSource/sonarqube ★ 11.2k · Weak copyleft LGPL-3.0 · Platform · Fit 3/5	Continuous code inspection platform that finds bugs, vulnerabilities and code smells across languages. *Replaces:* SonarCloud, Veracode, Checkmarx, Codacy	Engineering teams running code quality gates	Managed hosting Setup + support retainer	• Hosted SonarQube for regulated fintech teams • code-quality rollouts for government IT • SonarQube admin support for agencies	Hosted $300-2000/mo per instance *Effort:* High (large Java platform, admin overhead) ⚠ LGPL-3.0 community edition; commercial editions are paid; SonarSource brand
Brakeman presidentbeef/brakeman ★ 7.3k · Check NOASSERTION · Tool · Fit 3/5	Static security scanner for Ruby on Rails applications that finds common vulnerabilities. *Replaces:* Commercial Rails security scanners, Veracode, Checkmarx	Rails agencies and SaaS security teams	Setup + support retainer Consulting/implementation	• Rails security audits for SaaS startups • CI scanning for agency fleets • pentest-prep scans for fintech apps	Support $1-5k per year *Effort:* Low (CLI scanner, Rails-specific rules) ⚠ NOASSERTION: read license; Rails and Brakeman brand, check terms
Zizmor zizmorcore/zizmor ★ 6.9k · Permissive MIT · Tool · Fit 3/5	Static analysis for GitHub Actions workflows that finds insecure CI configuration. *Replaces:* Commercial CI security scanners, manual workflow review	DevOps and security teams using GitHub Actions	Setup + support retainer Vertical SaaS	• GitHub Actions audits for fintech repos • CI hardening for open-source maintainers • workflow scanning for agencies	Support $500-3000 per year *Effort:* Low (CLI tool, focused on Actions) ⚠ MIT fine; GitHub Actions is a GitHub trademark, no implied endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Shellcheck koalaman/shellcheck ★ 40.3k · GPL GPL-3.0 · Tool · Fit 2/5	Static analysis tool that finds bugs and style issues in shell scripts. *Replaces:* Commercial shell linters, manual script review	DevOps teams maintaining shell scripts	Setup + support retainer Consulting/implementation	• Shell-script audits for ops teams • CI integration for infrastructure firms • script QA for sysadmin consultancies	Support $500-2000 per year *Effort:* Low (CLI linter, widely used) ⚠ GPL-3.0: distributed apps must ship source; keep attribution
SwiftLint realm/SwiftLint ★ 19.8k · Permissive MIT · Tool · Fit 2/5	Tool that enforces Swift style and conventions with configurable lint rules. *Replaces:* Commercial Swift linting services, manual code review	iOS teams enforcing code standards	Setup + support retainer Consulting/implementation	• Swift lint rollouts for iOS agencies • style governance for banking app teams • CI linting for mobile startups	Support $1-3k per year *Effort:* Low (CLI linter, mature rule set) ⚠ MIT fine; Realm is a MongoDB-owned brand, avoid implied endorsement
PHP-Parser nikic/PHP-Parser ★ 17.5k · Permissive BSD-3-Clause · Library · Fit 2/5	PHP parser library that builds and manipulates PHP syntax trees for code tools. *Replaces:* Commercial PHP code analysis SDKs, custom AST tools	PHP tool builders and linters	Consulting/implementation Setup + support retainer	• Refactoring tools for PHP agencies • custom linters for Laravel teams • code-migration services for PHP shops	Consulting $3-10k per migration *Effort:* Low (mature PHP library, widely embedded) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed
Bytecode-viewer Konloch/bytecode-viewer ★ 15.7k · GPL GPL-3.0 · App · Fit 2/5	Java and Android reverse-engineering suite with decompiler, editor and debugger. *Replaces:* JD-GUI, JADX-style tools, commercial decompilers	Security researchers and app auditors	Consulting/implementation Training/courses	• Android app audits for security firms • decompiler training for reverse-engineering students • malware triage support for incident teams	Training $500-1200 per course *Effort:* Medium (desktop tool, bundles many decompilers) ⚠ GPL-3.0: distributed apps must ship source; bundled tools have separate licences
PHP-CS-Fixer PHP-CS-Fixer/PHP-CS-Fixer ★ 13.6k · Permissive MIT · Tool · Fit 2/5	Tool that automatically fixes PHP code to match coding standards. *Replaces:* PHP_CodeSniffer fixers, commercial code-style tools	PHP teams standardizing code style	Setup + support retainer	• Style rollouts for PHP agencies • formatting setup for legacy codebase migrations • CI formatting for Laravel teams	Support $500-1500 per year *Effort:* Low (CLI fixer, mature rule sets) ⚠ MIT fine; no trademark issue, easy to embed
Mastg OWASP/mastg ★ 13.3k · Weak copyleft CC-BY-SA-4.0 · Content · Fit 2/5	OWASP Mobile Application Security Testing Guide, a comprehensive manual for mobile app security testing. *Replaces:* Paid mobile pentest courses, commercial testing methodology guides	Mobile app security testers and AppSec teams	Training/courses Content/membership	• Mobile pentest training for security consultancies • MASTG-based audit checklists for fintech teams • course packs for AppSec bootcamps	Course $300-900 per learner *Effort:* Low (guide content, mostly ready to use) ⚠ CC-BY-SA-4.0 share-alike applies; OWASP brand, avoid implied endorsement
Hadolint hadolint/hadolint ★ 12.5k · GPL GPL-3.0 · Tool · Fit 2/5	Dockerfile linter that validates Dockerfile rules and inline bash in Dockerfiles. *Replaces:* Commercial container security scanners, manual Dockerfile review	DevOps teams shipping containers	Setup + support retainer Consulting/implementation	• Dockerfile lint rollouts for DevOps agencies • CI checks for container-heavy SaaS • container hygiene audits for MSPs	Support $500-2000 per year *Effort:* Low (CLI linter, focused and stable) ⚠ GPL-3.0: distributed apps must ship source; Docker is a trademark
Detect-It-Easy horsicq/Detect-It-Easy ★ 11.9k · Permissive MIT · Tool · Fit 2/5	Tool that identifies file types, packers and compilers in Windows, Linux and macOS binaries. *Replaces:* Commercial file-identification tools, manual PE analysis	Malware analysts and reverse engineers	Consulting/implementation Training/courses	• Binary triage for incident response teams • packer identification for reverse-engineering courses • file-ID setup for forensic labs	Training $300-800 per course *Effort:* Low (mature desktop tool, niche users) ⚠ MIT fine; no trademark issue, easy to embed
PHP_CodeSniffer squizlabs/PHP_CodeSniffer ★ 10.8k · Permissive BSD-3-Clause · Tool · Fit 2/5	Tokenizer that detects violations of PHP coding standards in source files. *Replaces:* PHP-CS-Fixer, commercial code-standards tools	PHP teams enforcing coding standards	Setup + support retainer Consulting/implementation	• Coding-standard enforcement for PHP agencies • CI checks for WordPress plugin teams • standards audits for legacy PHP	Support $500-1500 per year *Effort:* Low (mature CLI, standards plugin ecosystem) ⚠ BSD-3-Clause fine; no trademark issue, easy to embed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Reviewdog reviewdog/reviewdog ★ 9.7k · **Permissive** MIT · Tool · Fit 2/5	Automated code review tool that posts linter output as inline pull request comments. *Replaces:* Commercial PR review bots, Danger-style automation	Engineering teams running linters in CI	Setup + support retainer Managed hosting	• PR comment bots for agency teams • linter feedback for open-source maintainers • CI review setup for fintech groups	Setup $500-2000 per repo *Effort:* Medium (Go CLI, GitHub-centric setup) ⚠ MIT fine; GitHub API terms apply; no trademark issue
Checkstyle checkstyle/checkstyle ★ 9.6k · **Weak copyleft** LGPL-2.1 · Tool · Fit 2/5	Java development tool that checks code against a coding standard, defaulting to Google's style. *Replaces:* Commercial Java code-quality tools, SonarQube rules	Java teams enforcing style rules	Setup + support retainer Consulting/implementation	• Java style rollouts for bank dev teams • CI checks for enterprise Java shops • standards audits for legacy Java apps	Support $800-2500 per year *Effort:* Low (mature Java tool, config-heavy) ⚠ LGPL-2.1: check linking terms; Google style name is a brand
Gosec securego/gosec ★ 9.0k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Go security checker that scans Go source code for common security issues. *Replaces:* Commercial Go security scanners, Snyk Code	Go teams running security checks	Setup + support retainer Consulting/implementation	• Go security reviews for fintech backends • CI scanning for API startups • secure-coding audits for Go agencies	Support $1-4k per year *Effort:* Low (CLI scanner, focused on Go) ⚠ Apache-2.0 fine; no trademark issue, easy to embed
Recaf Col-E/Recaf ★ 7.5k · **Permissive** MIT · App · Fit 2/5	Modern Java bytecode editor for viewing, editing and patching compiled Java classes. *Replaces:* JByteMod, commercial Java decompilers	Java reverse engineers and security testers	Consulting/implementation Training/courses	• Bytecode patching for legacy Java support teams • Java RE training for security students • app audit support for security firms	Training $400-900 per course *Effort:* Low (desktop editor, focused on bytecode) ⚠ MIT fine; reverse-engineering use may breach licensed software terms
Dependency-cruiser sverweij/dependency-cruiser ★ 7.4k · **Permissive** MIT · Tool · Fit 2/5	Validates and visualizes JavaScript and TypeScript dependencies against custom rules. *Replaces:* Commercial architecture-governance tools, Madge	Frontend teams enforcing architecture rules	Setup + support retainer Consulting/implementation	• Architecture rules for large frontend teams • dependency audits for agencies • visualization for onboarding developers	Support $1-4k per year *Effort:* Low (CLI tool, rule config needed) ⚠ MIT fine; no trademark issue, easy to embed
Error-prone google/error-prone ★ 7.3k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Java compiler plugin that catches common Java mistakes as compile-time errors. *Replaces:* Commercial Java bug finders, SpotBugs-style tools	Java teams wanting compile-time checks	Setup + support retainer Consulting/implementation	• Error-Prone rollouts for Java banks • compile checks for Android teams • CI setup for enterprise Java shops	Support $1-4k per year *Effort:* Low (compiler plugin, easy to add) ⚠ Apache-2.0 fine; Google brand, avoid implied endorsement
Detekt detekt/detekt ★ 7.1k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Static code analysis tool for Kotlin that enforces style and finds code smells. *Replaces:* Commercial Kotlin linters, SonarQube Kotlin rules	Android and Kotlin teams enforcing standards	Setup + support retainer Consulting/implementation	• Kotlin lint rollouts for Android agencies • code-quality setup for mobile startups • standards audits for fintech Kotlin code	Support $1-3k per year *Effort:* Low (Gradle plugin, rule config needed) ⚠ Apache-2.0 fine; no trademark issue, easy to embed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Owlyshield SitinCloud/Owlyshield ★ 436 · **Weak copyleft** EUPL-1.2 · Tool · Fit 3/5	Ransomware-focused EDR engine that monitors process behavior to detect and stop attacks *Replaces:* CrowdStrike Falcon, SentinelOne, Microsoft Defender for Endpoint	Small MSPs protecting Windows endpoints	Setup + support retainer Agency service	• Ransomware monitoring for law firms • Endpoint guard for dental practices • Anti-ransomware retainer for accounting firms	$8-15 per endpoint/mo, 30-day trial *Effort:* High (Kernel-level Windows driver, heavy QA) ⚠ EUPL-1.2 copyleft; EDR false positives create liability; code signing needed
Hblock hectorm/hblock ★ 2.0k · **Permissive** MIT · Tool · Fit 2/5	Tool that blocks ads, tracking and malware domains by generating hosts-file blocklists. *Replaces:* Commercial DNS filtering services, NextDNS, Pi-hole support	Households and small offices wanting DNS blocking	Premium plugins/add-ons Managed hosting	• Hosted blocklists for small ISPs • family DNS filters for parents • blocklist setup for small offices	Hosted $3-8/mo per household *Effort:* Low (shell-script blocklist generator, simple) ⚠ MIT fine; blocklist sources have separate terms; Pi-hole is a trademark

Bug Bounty & Pentest Management · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Strix usestrix/strix ★ 74.2k · Permissive Apache-2.0 · Tool · Fit 4/5	AI agent that runs penetration tests against your app and suggests fixes *Replaces:* Pentera, Horizon3 NodeZero, HackerOne pentest service	SaaS startups needing continuous pentest coverage	Managed hosting Agency service	• AI pentests for Shopify agencies • Continuous app testing for fintech startups • Pre-launch security checks for indie SaaS	$500-2,000/mo per app, usage-based LLM costs *Effort:* Medium (Agentic, needs LLM keys and sandbox) ⚠ Apache-2.0 ok; trademark on Strix name; test only authorised targets
Rengine yogeshojha/rengine ★ 8.9k · GPL GPL-3.0 · Platform · Fit 4/5	Self-hosted web recon platform with configurable scan engines, correlation and continuous monitoring *Replaces:* Detectify, Intruder, Assetnote	Bug bounty hunters and small pentest firms	Managed hosting Setup + support retainer	• Attack-surface monitoring for SaaS startups • Recon-as-a-service for bug bounty teams • External asset audits for MSPs	$49-199/mo per team, self-hosted option *Effort:* Medium (Multi-tool stack, limited built-in tenancy) ⚠ GPL-3.0 fine for hosting; distributed apps ship source; scanning needs authorised targets
Dirsearch maurosoria/dirsearch ★ 15.1k · Check NONE · Tool · Fit 3/5	Command-line web path brute-forcer for finding hidden directories and files *Replaces:* Burp Suite Pro scanner, Acunetix, Invicti	Pentesters and bug bounty hunters	Setup + support retainer Training/courses	• Path scanning for WordPress agencies • Surface checks for bug bounty teams • Hidden-file audits for e-commerce	Free CLI; scanning service $99/mo *Effort:* Low (CLI tool, a service wraps it easily) ⚠ NONE license; cannot redistribute without permission; get written license first
Reconftw six2dez/reconftw ★ 8.3k · Permissive MIT · Tool · Fit 3/5	Shell-script wrapper that chains many recon tools for scanning a target domain *Replaces:* Intruder, Detectify, Intrigue	Bug bounty hunters and pentest firms	Setup + support retainer Training/courses	• Recon runs for bug bounty solo hunters • Automated domain sweeps for MSP audits • Subdomain takeover checks for SaaS teams	Free MIT; hosted runs $30-150/mo *Effort:* Medium (Bash glue around many tools, fragile dependencies) ⚠ MIT fine; bundled third-party tools carry own licenses; scope authorised targets
Axiom pry0cc/axiom ★ 4.4k · Permissive MIT · Tool · Fit 3/5	Spins up cloud instances to distribute scanning tool workloads across many servers *Replaces:* Intruder, Qualys VMDR	Pentest firms running large recon jobs	Setup + support retainer Consulting/implementation	• Distributed scans for bug bounty teams • Large-scope recon for pentest firms • Cloud scanning burst for MSPs	Free MIT; managed cloud setup $500-1,500 per engagement *Effort:* Medium (Cloud-specific setup, multi-tool plumbing) ⚠ MIT fine; spins cloud accounts, abuse and billing risk; scan authorised only
CyberStrike CyberStrikeus/CyberStrike ★ 3.4k · AGPL AGPL-3.0 · Tool · Fit 3/5	AI-driven harness that automates penetration testing workflows end to end *Replaces:* Pentera, Horizon3 NodeZero	Boutique pentest firms and red teams	Managed hosting Setup + support retainer	• AI pentest runs for boutique firms • Automated red-team scans for fintech • Pentest triage for bug bounty teams	$300-1,000/mo per team, LLM costs extra *Effort:* Medium (Agentic stack, LLM keys, sandbox setup) ⚠ AGPL: publish server-side changes; offensive tool misuse liability; authorisation required
Redamon samugit83/redamon ★ 3.3k · Permissive MIT · Platform · Fit 3/5	Self-hosted AI pentest framework that maps attack surfaces and proposes fixes via PRs *Replaces:* Pentera, Horizon3 NodeZero	DevSecOps teams at mid-size SaaS companies	Managed hosting Setup + support retainer	• Attack-graph audits for SaaS engineering teams • Auto-fix pentest PRs for agencies • Pentest-as-a-service for regional MSPs	$400-1,500/mo per workspace, LLM costs extra *Effort:* High (Kali sandbox, graph DB, many services) ⚠ MIT ok; autonomous exploitation needs strict scope, approval gates and logging

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pentest-Swarm-AI Armur-Ai/Pentest-Swarm-AI ★ 3.1k · AGPL AGPL-3.0 · Tool · Fit 3/5	Multi-agent AI pentest orchestrator with recon, exploitation and reporting specialists *Replaces:* Pentera, Horizon3 NodeZero	Bug bounty hunters and small pentest shops	Setup + support retainer Training/courses	• Swarm pentests for bug bounty hunters • Continuous monitoring for small web agencies • CTF training labs for universities	$99-400/mo per seat, LLM costs extra *Effort:* High (Go core, 7+ native tools, agent orchestration) ⚠ AGPL: publish server-side changes; Armur name is a brand; authorised targets only
Sn0int kpcyrd/sn0int ★ 2.6k · GPL GPL-3.0 · Tool · Fit 3/5	Semi-automatic OSINT framework with a module package manager *Replaces:* Maltego, SpiderFoot HX	OSINT analysts and security researchers	Training/courses Consulting/implementation	• OSINT modules for fraud investigators • Domain recon for brand-protection firms • Subdomain intel for pentest consultants	Free GPL; training $800-2,000 per course *Effort:* Medium (CLI-first, no web UI, module ecosystem) ⚠ GPL-3.0 ok for services; modules may hit sites that prohibit scraping
ScopeSentry Autumn-27/ScopeSentry ★ 2.3k · Check NONE · Platform · Fit 3/5	Attack-surface scanner with subdomain discovery, port scans and distributed worker nodes *Replaces:* Censys ASM, Detectify, CyCognito	MSSPs and bug bounty teams	Managed hosting Setup + support retainer	• External ASM for regional banks • Subdomain audits for SaaS companies • Attack-surface reports for MSSPs	$150-600/mo per 100 assets *Effort:* Medium (Distributed nodes, multi-service deployment) ⚠ NONE license; cannot redistribute without permission; scanning needs authorisation
Subjack haccer/subjack ★ 2.1k · Permissive MIT · Tool · Fit 3/5	Go command-line tool that checks domains for subdomain takeover vulnerabilities *Replaces:* Detectify, Intruder subdomain checks	SaaS companies with large DNS estates	Setup + support retainer Agency service	• Dangling DNS audits for SaaS teams • Takeover checks for agency client portfolios • Subdomain hygiene for marketing agencies	$200-800/mo per domain portfolio *Effort:* Low (Single CLI, easy to wrap) ⚠ MIT fine; scan only domains you own or are authorised to test
HackTools LasCC/HackTools ★ 7.1k · Check NONE · App · Fit 2/5	Browser extension bundling offensive-security utilities and reference tools	Pentesters and bug bounty hunters	Premium plugins/add-ons Training/courses	• Quick-reference toolkit for junior pentesters • Browser checks for bug bounty teams • Payload cheat-sheet for CTF teams	Free extension; $5-10/mo pro features *Effort:* Low (Browser extension, rebrand is manifest and icon work) ⚠ No license: rebranding not permitted; browser store may reject hacking tools
DefaultCreds-cheat-sheet ihebski/DefaultCreds-cheat-sheet ★ 6.8k · Permissive MIT · Content · Fit 2/5	Reference list of vendor default usernames and passwords for finding exposed devices	Pentesters and asset-audit teams	Content/membership Training/courses	• Default-credential audits for MSP clients • Router checks for ISP helpdesks • Device hygiene training for IT staff	Free list; audit services $1-3k per site *Effort:* Low (Reference list, rewrite as checklist) ⚠ MIT fine; default-credential lists aid abuse; use only for audits
Black-hat-rust skerkour/black-hat-rust ★ 4.5k · Permissive MIT · Content · Fit 2/5	Book-style Rust code examples for applied offensive security techniques	Rust developers learning security	Training/courses Content/membership	• Rust security course for backend engineers • Rust tooling workshops for red teams • Secure-coding labs for Rust shops	Free MIT; paid course $99-299 per seat *Effort:* Low (Code samples, rewrite as course) ⚠ MIT fine; offensive techniques; author's book and text may carry separate copyright
Pentest-ai-agents 0xSteph/pentest-ai-agents ★ 2.4k · Permissive MIT · Starter · Fit 2/5	Claude Code subagent pack for authorised pentest planning, recon analysis and report writing	Pentest consultants using Claude Code	Training/courses Premium plugins/add-ons	• Report-writing agents for pentest freelancers • STIG audit agents for defense contractors • Recon triage for bug bounty teams	Free MIT; premium agent packs $29-99 one-time *Effort:* Low (Prompt and config files, quick to re-skin) ⚠ MIT fine; depends on Claude Code terms; pentest use needs written scope

Certificate & Key Management · 7

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
ThClaws thClaws/thClaws ★ 1.3k · **Permissive** Apache-2.0 · App · Fit 3/5	Single-binary Rust AI agent harness with GUI, CLI and web app, multi-provider *Replaces:* Cursor, Devin, Claude Code	Developers wanting self-hosted coding agents	Premium plugins/add-ons Managed hosting	• Self-hosted coding agents for defense contractors • Private AI assistant for law firms • On-prem agent harness for regulated banks	Free Apache-2.0; enterprise support $200-500/seat/yr *Effort:* Medium (Rust core, GUI and plugins to package) ⚠ Apache-2.0 ok; provider API terms apply; agent tool calls need guardrails
Kms Cosmian/kms ★ 371 · **Check** NOASSERTION · Platform · Fit 3/5	Scalable key management system for storing and managing cryptographic keys *Replaces:* HashiCorp Vault, AWS KMS, Thales CipherTrust	Regulated enterprises needing self-hosted keys	Managed hosting Setup + support retainer	• Self-hosted key vault for EU health providers • Key custody for fintech startups • KMS for on-prem government agencies	$500-3,000/mo managed, support tiers *Effort:* High (Crypto-critical, needs audits, certifications) ⚠ NOASSERTION license; read first; key management errors cause data loss and liability
Denial denialwm/denial ★ 1.4k · **Check** NOASSERTION · App · Fit 2/5	Customisable Wayland desktop compositor with glass effects and three window layouts	Linux power users and desktop distributors	White-label reseller Premium plugins/add-ons	• Branded Linux kiosks for retail displays • Wayland desktops for school labs • Custom compositor for thin-client vendors	Free core; support $30-100/seat/yr *Effort:* Medium (Theming built in, deep compositor code) ⚠ NOASSERTION license; read it first; desktop compositor bugs affect whole session
Veramo decentralized-identity/veramo ★ 544 · **Permissive** Apache-2.0 · Framework · Fit 2/5	JavaScript framework for issuing and verifying decentralised identity credentials *Replaces:* Microsoft Entra Verified ID, Trinsic	Fintechs and edtech issuing digital credentials	Setup + support retainer Consulting/implementation	• Digital diplomas for online universities • Verifiable employee badges for staffing firms • Credential wallets for healthcare clinics	Free Apache-2.0; integration projects $10-40k *Effort:* High (SDK, no UI, plugin architecture) ⚠ Apache-2.0 ok; identity regulation (eIDAS, GDPR) applies to issued credentials
Starling starling-build/starling ★ 415 · **Permissive** Apache-2.0 · App · Fit 2/5	New Linux desktop environment with Swift shell, own compositor and first-party apps *Replaces:* GNOME, KDE Plasma, Windows desktop	Linux desktop enthusiasts and kiosk vendors	White-label reseller Premium plugins/add-ons	• Branded kiosk desktops for clinics • Locked-down desktops for school labs • Linux desktops for law offices	Free Apache-2.0; enterprise support $25-60/seat/yr *Effort:* High (New stack, Swift plus Flutter, immature) ⚠ Apache-2.0 ok; young project; Starling name clashes with Starling Bank brand
Confidential-computing-zoo intel/confidential-computing-zoo ★ 367 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Sample confidential computing solutions built on Intel SGX and TDX enclaves *Replaces:* Azure Confidential Computing, Anjuna	Enterprises running sensitive ML on TEEs	Consulting/implementation Training/courses	• Enclave ML inference for healthcare AI • Confidential analytics for bank data teams • Secure model hosting for insurers	Free Apache-2.0; enclave integration $20-80k per project *Effort:* High (Intel-specific TEE code, rare skills) ⚠ Apache-2.0 ok; Intel hardware required; sample code needs hardening
PyKMIP OpenKMIP/PyKMIP ★ 299 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python library implementing the KMIP key management protocol for clients and servers	Enterprise security tooling developers	Consulting/implementation Setup + support retainer	• KMIP integration for storage vendors • Key-server bridges for Python shops • KMIP testing for HSM integrators	Free Apache-2.0; integration work $150-200/hr *Effort:* High (Library only, product built around it) ⚠ Apache-2.0 ok; KMIP compliance claims need interop testing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Paralus paralus/paralus ★ 1.2k · **Permissive** Apache-2.0 · Platform · Fit 4/5	Kubernetes access manager issuing user credentials with RBAC, SSO and audit logs *Replaces:* Teleport, StrongDM, Rafay	Platform teams running multi-cluster Kubernetes	Managed hosting Setup + support retainer	• K8s access control for fintech platform teams • Audit-ready cluster access for healthcare SaaS • Multi-cluster SSO for agencies	Free Apache-2.0; managed hosting $300-1,000/mo *Effort:* Medium (SSO integrations, multi-cluster setup, RBAC) ⚠ Apache-2.0 ok; access bugs expose whole clusters; needs security audit
Kubernetes-goat madhuakula/kubernetes-goat ★ 5.9k · **Permissive** MIT · Starter · Fit 3/5	Intentionally vulnerable Kubernetes cluster for hands-on security training and labs *Replaces:* Hack The Box, TryHackMe, Pluralsight labs	DevSecOps trainers and K8s platform teams	Training/courses Consulting/implementation	• K8s security bootcamps for bank engineers • Cluster hardening workshops for SaaS teams • CKS exam prep for DevOps teams	Free MIT; corporate workshops $2-5k per day *Effort:* Low (Lab content, rebrand and host easily) ⚠ MIT fine; intentionally vulnerable, keep isolated from production networks
Cloudfox BishopFox/cloudfox ★ 2.6k · **Permissive** MIT · Tool · Fit 3/5	CLI that automates situational awareness checks during cloud penetration tests *Replaces:* Prowler Pro, Wiz, Orca	Cloud pentest firms and red teams	Setup + support retainer Training/courses	• Cloud recon for pentest boutiques • Cloud access reviews for insurers • AWS exposure checks for agencies	Free MIT; reporting services $1.5-4k per test *Effort:* Low (CLI, report templates needed) ⚠ MIT fine; cloud credentials and scope need written authorisation
Stratus-red-team DataDog/stratus-red-team ★ 2.4k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Emulates cloud attack techniques on demand so teams can test their detections *Replaces:* AttackIQ, SafeBreach, Picus Security	Cloud SOC and detection engineering teams	Training/courses Consulting/implementation	• Detection testing for AWS-heavy SaaS teams • Attack emulation for MSSP SOCs • Cloud purple-team drills for insurers	Free Apache-2.0; purple-team sprints $5-15k each *Effort:* Low (CLI and scripts, little UI) ⚠ Apache-2.0 ok; executes real cloud API calls, run only in sandbox accounts
Cloudsplaining salesforce/cloudsplaining ★ 2.3k · **Permissive** BSD-3-Clause · Tool · Fit 3/5	Finds overly broad AWS IAM policies and generates a risk-ranked least-privilege report *Replaces:* AWS IAM Access Analyzer, Sonrai, Ermetic	AWS-heavy companies preparing for audits	Setup + support retainer Consulting/implementation	• IAM reviews for SOC 2 startups • Least-privilege audits for fintech • AWS access reviews for agencies	Free BSD-3; IAM audits $3-8k per account *Effort:* Low (CLI report tool, wrap as service) ⚠ BSD-3-Clause fine; reads AWS IAM data; needs customer-granted read access
Veinmind-tools chaitin/veinmind-tools ★ 1.7k · **Permissive** MIT · Tool · Fit 3/5	Container security toolset for scanning images and containers for risks *Replaces:* Aqua Security, Sysdig Secure, Prisma Cloud	Container platform teams in Asia-Pacific	Setup + support retainer Consulting/implementation	• Image scanning for Asian SaaS teams • Container audits for e-commerce • Registry checks for MSPs	Free MIT; support plans $200-600/mo *Effort:* Medium (Chinese docs, tied to veinmind-sdk) ⚠ MIT ok; Chaitin and veinmind are brands; check China data rules
Cain-agent cdxiaodong/cain-agent ★ 946 · **Permissive** Apache-2.0 · Tool · Fit 3/5	AI pentest agent with cloud modules for AWS, Azure, GCP and three Chinese clouds *Replaces:* Pentera, Horizon3 NodeZero	Cloud security consultancies in Asia-Pacific	Setup + support retainer Consulting/implementation	• Cloud pentest runs for APAC consultancies • Multi-cloud audits for Chinese exporters • Agent-driven assessments for MSSPs	Free Apache-2.0; managed runs $500-1,500/mo *Effort:* Medium (Agent SDK, many cloud integrations) ⚠ Apache-2.0 ok; depends on Claude Agent SDK terms; authorised assessments only

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SkyArk cyberark/SkyArk ★ 913 · **Permissive** MIT · Tool · Fit 3/5	Finds and assesses the most privileged accounts and roles in Azure and AWS *Replaces:* Microsoft Entra Permissions Management, Ermetic, Sonrai Security	Cloud security teams at mid-size enterprises	Setup + support retainer Consulting/implementation	• Privileged-role audits for Azure-heavy firms • Admin-access reviews for SOC 2 startups • Entra privilege checks for MSPs	Free MIT; privileged access audits $4-10k *Effort:* Low (Script-based, little UI to rebrand) ⚠ MIT fine; CyberArk-owned repo, avoid implying vendor endorsement; needs customer consent
ARES Mafifrizi/ARES ★ 913 · **Permissive** MIT · Platform · Fit 3/5	Red-team engagement platform with campaign scoping, module orchestration, vault and reports *Replaces:* Cobalt Strike, Scythe, AttackIQ	Boutique red-team firms	Managed hosting Setup + support retainer	• Red-team campaign hosting for pentest boutiques • Engagement reporting for consultancies • Scoped attack simulations for banks	$200-500/mo per team, hosting included *Effort:* Medium (Dashboard plus modules, security hardening needed) ⚠ MIT fine; C2-style red-team tooling, misuse risk; hosting needs strict access control
Iam-policy-autopilot awslabs/iam-policy-autopilot ★ 503 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Static analysis tool that generates baseline AWS IAM policies from application code *Replaces:* AWS IAM Access Analyzer policy generation, Ermetic	AWS application teams	Setup + support retainer Consulting/implementation	• IAM baselines for Lambda-based startups • Policy generation for agency AWS builds • IAM hygiene for ecommerce platforms	Free Apache-2.0; policy reviews $1-3k per app *Effort:* Low (CLI and MCP, AWS-specific, little UI) ⚠ Apache-2.0 ok; AWS trademarks; generated policies still need human review
hackingthe.cloud Hacking-the-Cloud/hackingthe.cloud ★ 2.8k · **Check** NOASSERTION · Content · Fit 2/5	Encyclopedia of offensive and defensive cloud-native security techniques and attacks *Replaces:* Wiz Academy, Orca training content	Cloud security engineers and trainers	Content/membership Training/courses	• Cloud attack-path training for banks • AWS hardening guides for startups • K8s threat-model workshops for agencies	Free site; paid cohort course $499-1,200 *Effort:* Medium (Content-heavy, needs editorial rewrite) ⚠ NOASSERTION license; check reuse terms before republishing content
Recon-skills uphiago/recon-skills ★ 1.3k · **Permissive** MIT · Starter · Fit 2/5	Recon and pentest skill pack covering CORS, XSS, SQLi, SSRF and cloud checks	Pentesters using AI coding agents	Training/courses Premium plugins/add-ons	• Web checklists for agency QA teams • SSRF test packs for fintech AppSec • Subdomain takeover runbooks for SaaS teams	Free MIT; paid playbook bundles $49-149 *Effort:* Low (Text skill files, quick to brand) ⚠ MIT fine; offensive techniques, use only on authorised targets
Offensive-Resources Zeyad-Azima/Offensive-Resources ★ 1.2k · **Check** NONE · Content · Fit 2/5	Large collection of offensive security learning resources and practice labs *Replaces:* TryHackMe, Hack The Box, PentesterLab	Students and junior pentesters	Training/courses Content/membership	• Junior pentester bootcamp for career changers • CTF prep for university clubs • Offensive labs for MSP technicians	Free link list; paid cohort $299-799 *Effort:* Low (Curated links, easy to restyle) ⚠ NONE license; compiled third-party content; check each linked resource's terms
Cloud-security-remediation-guides aquasecurity/cloud-security-remediation-guides ★ 745 · **Check** NONE · Content · Fit 2/5	Written remediation guides for common cloud security misconfigurations, from Aqua	Cloud platform teams fixing findings	Content/membership Consulting/implementation	• Remediation playbooks for SOC 2 cloud teams • CIS fix guides for agencies • Misconfiguration runbooks for startups	Free guides; remediation sprints $3-8k *Effort:* Low (Docs only, rewrite for brand) ⚠ NONE license; cannot republish Aqua's guides without permission; rewrite them

Compliance Automation & GRC · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Core theopenlane/core ★ 337 · Permissive Apache-2.0 · Platform · Fit 4/5	Open-source compliance platform for tracking SOC 2, GDPR, ISO 27001 and NIST controls *Replaces:* Vanta, Drata, Secureframe	Startups and mid-size SaaS needing SOC 2	Managed hosting Setup + support retainer	• SOC 2 readiness for seed-stage SaaS • GDPR tracking for EU agencies • ISO 27001 prep for MSPs	Free Apache-2.0; managed hosting $400-1,200/mo *Effort:* Medium (Multi-framework, tuning and integrations needed) ⚠ Apache-2.0 ok; compliance tool is not certification; auditor acceptance varies
Pingcastle netwrix/pingcastle ★ 3.0k · Check NOASSERTION · Tool · Fit 3/5	Active Directory security health check that scores risks and produces audit reports *Replaces:* Tenable Identity Exposure, Semperis, Microsoft Defender for Identity	MSPs and IT audit teams	Setup + support retainer Consulting/implementation	• AD health audits for regional law firms • Annual AD reviews for MSPs • Insurance-ready AD checks for SMBs	$1-3k per AD audit, free tool *Effort:* Medium (Windows tool, reports need rebranding) ⚠ NOASSERTION license; Netwrix-owned; check commercial reselling terms first
Debian-cis ovh/debian-cis ★ 1.1k · Check NOASSERTION · Tool · Fit 3/5	Hardening scripts for Debian 12 and 13 aligned with PCI-DSS controls *Replaces:* Tenable Nessus compliance audits, CIS-CAT Pro, Qualys	Payment processors and hosting providers	Setup + support retainer Managed hosting	• PCI hardening for small e-commerce hosts • Debian baselines for payment ISVs • Compliance images for MSP fleets	Free scripts; PCI hardening service $800-2,500 per host *Effort:* Low (Scripts, Debian-specific, easy to package) ⚠ NOASSERTION license; read first; PCI-DSS compliance claims need a QSA
Cli cloudgraphdev/cli ★ 889 · Weak copyleft MPL-2.0 · Tool · Fit 3/5	GraphQL-queryable cloud posture tool that inventories AWS, Azure, GCP and Kubernetes *Replaces:* Wiz, Prisma Cloud, Orca Security	Cloud security teams wanting custom queries	Setup + support retainer Managed hosting	• CSPM queries for fintech cloud teams • Multi-cloud inventory for MSPs • Kubernetes posture checks for agencies	Free MPL-2.0; managed CSPM $500-2,000/mo *Effort:* Medium (Many cloud integrations to maintain) ⚠ MPL-2.0 file-level copyleft; cloud credentials handling needs strict security review
Metriport metriport/metriport ★ 798 · Check NOASSERTION · Platform · Fit 3/5	Healthcare data infrastructure for connecting and exchanging patient records *Replaces:* Redox, Health Gorilla, 1up Health	Digital health startups and clinics	Managed hosting API/usage-based	• Records APIs for telehealth startups • FHIR exchange for rural clinics • Patient data sync for care-management firms	Free self-host; hosted API per-patient-record fees *Effort:* High (HIPAA, EHR integrations, heavy compliance) ⚠ NOASSERTION license; HIPAA and HITECH obligations apply; BAA needed for hosting
CVE_Prioritizer TURROKS/CVE_Prioritizer ★ 711 · Permissive BSD-3-Clause · Tool · Fit 3/5	Ranks vulnerabilities by CVSS, EPSS and CISA KEV so teams patch what matters first *Replaces:* Tenable VPR, Vulcan Cyber, Brinqa	MSPs and IT teams with patch backlogs	Setup + support retainer Managed hosting	• Patch triage for dental practice IT • KEV tracking for municipal IT • Risk ranking for MSP patch services	Free BSD-3; hosted triage $99-299/mo *Effort:* Low (Data pipeline plus dashboard, moderate work) ⚠ BSD-3-Clause fine; relies on FIRST EPSS and CISA data, check their terms
Admyral Hey-Telo/admyral ★ 338 · Permissive Apache-2.0 · Platform · Fit 3/5	Continuous control monitoring platform for custom security controls *Replaces:* Vanta, Drata, Secureframe	Startups preparing for SOC 2 with custom controls	Managed hosting Setup + support retainer	• Control monitoring for SOC 2 fintechs • Custom controls for ISO 27001 SaaS • Continuous checks for healthcare startups	Free Apache-2.0; managed hosting $299-799/mo *Effort:* Medium (Workflow engine, many integrations to build) ⚠ Apache-2.0 ok; compliance outcomes need auditor sign-off, not a tool guarantee

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
The-practical-linux-hardening-guide trimstray/the-practical-linux-hardening-guide ★ 10.9k · Permissive MIT · Content · Fit 2/5	Long-form guide to hardening Linux production servers with OpenSCAP, CIS and STIG *Replaces:* Qualys Policy Compliance, Tenable Nessus, Trend Micro Deep Security	Sysadmins at small hosting firms	Training/courses Setup + support retainer	• Linux hardening courses for hosting providers • CIS baseline audits for clinics • STIG setup for small defense subs	Free guide; hardening engagements $1-4k per server *Effort:* Low (Guide content, rewrite and brand) ⚠ MIT fine; long guide, verify commands for current distros before reuse
Best-practices-badge ossf/best-practices-badge ★ 1.4k · Permissive MIT · Platform · Fit 2/5	Web service where open-source projects self-assess against security best practices for a badge	Open-source maintainers and foundations	Setup + support retainer Consulting/implementation	• Secure-development self-assessments for open-source foundations • OSS readiness reviews for fintech vendors • Secure SDLC checklists for SaaS startups	Free public service; readiness reviews $2-6k *Effort:* Medium (Criteria fixed by OpenSSF, custom build hard) ⚠ MIT fine; OpenSSF badge and criteria are project-owned; do not imply endorsement
Cve-maker msd0pe-1/cve-maker ★ 486 · GPL GPL-3.0 · Tool · Fit 2/5	Tool that searches for CVEs and related public exploits *Replaces:* Vulners, Tenable Vulnerability Intelligence	Pentesters and patch teams	Setup + support retainer Training/courses	• CVE lookups for small MSP patch desks • Exploit checks for pentest interns • Vulnerability briefings for IT managers	Free GPL; hosted lookups $29-79/mo *Effort:* Medium (Unclear scope, needs product design) ⚠ GPL-3.0 fine for hosting; exploit-finding features need misuse safeguards
ISO27001 PeterGeelen/ISO27001 ★ 243 · Check NONE · Content · Fit 2/5	Document templates and working files for building an ISO 27001 information security system *Replaces:* Vanta templates, Drata templates, IT Governance toolkits	Consultants implementing ISO 27001	Content/membership Consulting/implementation	• ISO 27001 starter kits for dental groups • ISMS templates for Irish SaaS firms • Policy packs for logistics firms	Free templates; paid policy pack $149-399 *Effort:* Low (Documents, easy to rebrand) ⚠ NONE license; ISO standards text is copyrighted, avoid copying clauses
Dojo-101 Aif4thah/Dojo-101 ★ 229 · GPL GPL-3.0 · Content · Fit 2/5	Offline-first French cybersecurity and DevSecOps knowledge base with 250+ cheat sheets *Replaces:* Pluralsight security courses, Udemy cyber courses	French-speaking students and junior DevSecOps staff	Content/membership Training/courses	• French DevSecOps bootcamp for career changers • Offline cheat sheets for field technicians • French security primers for universities	Free GPL; paid courses EUR 99-299 *Effort:* Low (French content, large catalog to curate) ⚠ GPL-3.0 fine for hosting; reuse of linked resources needs their terms
Laravel-nist-password-rules langleyfoxall/laravel-nist-password-rules ★ 211 · Weak copyleft LGPL-3.0 · Library · Fit 2/5	Laravel validation rules enforcing NIST SP 800-63B password recommendations	Laravel agencies building login systems	Premium plugins/add-ons Agency service	• NIST password rules for Laravel fintech apps • Auth hardening for Laravel clinic portals • Password policy add-on for Laravel agencies	Free LGPL; paid support plans $49-199/yr *Effort:* Low (Small package, drop-in, low effort) ⚠ LGPL-3.0: linking ok; modifications to the library must be shared

Niubi_guard Albert-Weasker/niubi_guard ★ 1.3k · Check NOASSERTION · Tool · Fit 3/5	Detects abuse in GitHub repositories and triggers response actions *Replaces:* GitHub Advanced Security, Sonatype Repo Health	Open-source foundations and platform teams	Setup + support retainer Managed hosting	• Abuse monitoring for OSS foundations • Repo spam defence for game modders • Repo abuse watch for dev-tools startups	Free to self-host; monitoring $99-400/mo per org *Effort:* Medium (GitHub API integration, detection rules tuning) ⚠ NOASSERTION license; GitHub API terms apply; false takedowns create liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Vortex jagrosh/Vortex ★ 596 · Permissive Apache-2.0 · App · Fit 3/5	Discord moderation bot for automated server moderation tasks *Replaces:* Dyno, MEE6, Carl-bot	Discord community owners	Premium plugins/add-ons Managed hosting	• Moderation bot for esports Discords • Moderation for hobby craft servers • Moderation for creator fan servers	Free self-host; premium hosting $5-15/mo per server *Effort:* Low (Bot, rebrand via name and avatar) ⚠ Apache-2.0 ok; Discord developer terms apply; bots must follow platform rules
Ozone bluesky-social/ozone ★ 546 · Check NOASSERTION · App · Fit 3/5	Web moderation console for labelling content on the AT Protocol and Bluesky *Replaces:* Hive Moderation, ActiveFence	Bluesky-based communities and labelers	Managed hosting Setup + support retainer	• Labeling service for Bluesky feed operators • Moderation console for atproto communities • Label curation for kids' social apps	Free self-host; managed labeler $200-800/mo *Effort:* Medium (AT Protocol plumbing, moderation policy setup) ⚠ NOASSERTION license; Bluesky trademark; labeller services carry moderation liability
Osprey roostorg/osprey ★ 500 · Permissive Apache-2.0 · Platform · Fit 3/5	Rules engine for real-time safety decisions on high-volume event streams *Replaces:* Sift, Ravelin, Hive Moderation	Marketplaces and fintechs with fraud or abuse volume	Managed hosting Setup + support retainer	• Fraud rules engine for marketplace startups • Abuse triage for gaming platforms • Real-time safety rules for dating apps	Free Apache-2.0; managed rules $800-3,000/mo *Effort:* High (Streaming infra, rules UI, heavy ops) ⚠ Apache-2.0 ok; rules decide user bans; needs appeals process and audit trail
Mjolnir matrix-org/mjolnir ★ 448 · Permissive Apache-2.0 · Tool · Fit 3/5	Moderation bot for Matrix that applies shared ban lists across rooms *Replaces:* Discord moderation tools, Slack admin controls	Matrix room admins and public-sector Matrix operators	Managed hosting Setup + support retainer	• Ban-list sync for Matrix open-source projects • Room moderation for public-sector Matrix servers • Moderation for Matrix community co-ops	Free Apache-2.0; managed bot $99-299/mo per server *Effort:* Medium (Matrix ops, ban-list maintenance) ⚠ Apache-2.0 ok; Matrix is a trademark; ban lists can hit innocent users
Skyra skyra-project/skyra ★ 309 · Permissive Apache-2.0 · App · Fit 3/5	Multipurpose Discord bot for moderation and general server management *Replaces:* MEE6, Dyno, Carl-bot	Owners of large Discord communities	Premium plugins/add-ons Managed hosting	• Community bot for language-learning Discords • Server admin bot for university clubs • Moderation suite for streamer communities	Free self-host; hosted bot $4-12/mo per server *Effort:* Low (Bot, rename and restyle commands) ⚠ Apache-2.0 ok; Discord developer terms apply; Skyra name is a project brand
Yuudachi iCrawl/yuudachi ★ 281 · AGPL AGPL-3.0 · App · Fit 3/5	Discord moderation bot; description minimal, features need checking *Replaces:* Dyno, Carl-bot, MEE6	Small Discord communities	Premium plugins/add-ons Managed hosting	• Moderation for anime fan Discords • Moderation for small coding communities • Moderation for school Discord servers	Free AGPL self-host; hosted $3-9/mo per server *Effort:* Low (Bot, name and avatar to rebrand) ⚠ AGPL: publish server-side changes; Discord developer terms apply to hosted bots
Draupnir the-draupnir-project/Draupnir ★ 252 · Check NONE · Tool · Fit 3/5	Moderation bot for Matrix rooms and communities *Replaces:* Discord moderation tools, Slack admin controls	Matrix server operators and open communities	Managed hosting Setup + support retainer	• Matrix moderation for open-source project rooms • Community safety for Matrix-based healthcare groups • Room management for government Matrix servers	Free self-host; managed bot $99-299/mo per server *Effort:* Medium (Matrix ops know-how, policy setup) ⚠ NONE license; Matrix is a trademark; check reuse terms before rebranding

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Coop roostorg/coop ★ 145 · **Permissive** Apache-2.0 · Platform · Fit 3/5	Trust and safety review dashboard with queues, routing and automated enforcement rules *Replaces:* Hive Moderation, ActiveFence, Two Hat	Trust and safety teams at marketplaces and forums	Managed hosting Setup + support retainer	• Review queues for marketplace trust teams • Moderation dashboard for online forums • Safety routing for kids' gaming platforms	Free Apache-2.0; managed hosting $500-2,000/mo *Effort:* Medium (Dashboard, rules and integrations to configure) ⚠ Apache-2.0 ok; moderation decisions carry legal duties under DSA and similar laws
Localmod KOKOSde/localmod ★ 116 · **Permissive** MIT · Platform · Fit 3/5	Self-hosted text and image moderation API that runs fully offline *Replaces:* Amazon Comprehend, Google Cloud Vision SafeSearch, Hive Moderation	Apps with user-generated content needing private moderation	API/usage-based Managed hosting	• Private moderation for kids' chat apps • Image screening for e-commerce reviews • Offline text checks for internal forums	Free MIT; managed API $0.001-0.01 per request *Effort:* Medium (Accuracy testing, model choice, API hardening) ⚠ MIT fine; outperforms claims need independent testing; moderation decisions carry legal duties
GPT-Discord-Bot iTzArshia/GPT-Discord-Bot ★ 236 · **Permissive** MIT · Starter · Fit 2/5	JavaScript Discord bot wrapping OpenAI models for chat, images and auto-moderation	Discord community owners wanting AI chat	Premium plugins/add-ons API/usage-based	• AI helper bot for language-exchange servers • Image bot for art Discords • Support-chat bot for gaming communities	Free MIT; hosted bot $5-15/mo plus API costs *Effort:* Low (Example code, small, easy to rebrand) ⚠ MIT fine; OpenAI and Discord terms apply; you carry API costs
Iris KillovSky/Iris ★ 213 · **Permissive** MIT · App · Fit 2/5	WhatsApp bot built on the unofficial Baileys library, Portuguese-language project *Replaces:* ManyChat, Chatfuel, WATI	Brazilian small businesses on WhatsApp	Setup + support retainer Agency service	• WhatsApp order bots for Brazilian bakeries • Appointment reminders for Brazilian dental clinics • Support bot for local pet shops	Free MIT; setup $300-800 plus monthly hosting *Effort:* Medium (Portuguese-first, unofficial API dependency) ⚠ MIT fine; unofficial WhatsApp API risks account bans; Meta terms restrict it
DraconianBot ckt1031/DraconianBot ★ 160 · **Permissive** MIT · App · Fit 2/5	Unclear project: generic Discord bot marketed as all-in-one, features not described	Discord server owners	Premium plugins/add-ons Managed hosting	• Multipurpose Discord bot for gaming clans • Server utility bot for study groups • Community bot for hobby forums	Free MIT; hosted bot $3-8/mo per server *Effort:* Low (Bot, rename and restyle) ⚠ MIT fine; Discord developer terms apply; verify features before promising them
Multipurpose-Discord-Bot BestGamersH/Multipurpose-Discord-Bot ★ 152 · **Permissive** MIT · App · Fit 2/5	All-in-one Discord bot with leveling, music, moderation, tickets and reaction roles *Replaces:* MEE6, Dyno, Ticket Tool	Hobby Discord server admins	Premium plugins/add-ons Managed hosting	• Ticket bot for indie game servers • Leveling bot for anime fan servers • Application-intake bot for esports teams	Free MIT; hosted premium $4-10/mo per server *Effort:* Low (Many features, mostly name changes) ⚠ MIT fine; NSFW and music features carry Discord and copyright risk
Discord-anti-spam Michael-J-Scofield/discord-anti-spam ★ 149 · **Permissive** MIT · Library · Fit 2/5	Node.js module that detects and blocks spam messages in a Discord server *Replaces:* Dyno, Discord AutoMod	Discord bot developers	Setup + support retainer Premium plugins/add-ons	• Anti-spam add-on for Discord bot developers • Spam shield for music Discord servers • Spam filter for school Discord servers	Free MIT; custom integration $200-600 per server *Effort:* Low (Small module, drops into existing bots) ⚠ MIT fine; Discord developer terms apply; spam detection causes false bans
Safe-content-ai steelcityamir/safe-content-ai ★ 109 · **Permissive** MIT · Tool · Fit 2/5	Small API that detects NSFW images for upload screening *Replaces:* Sightengine, AWS Rekognition moderation	Small apps with image uploads	API/usage-based Setup + support retainer	• Upload screening for classified-ad sites • Profile-photo checks for community apps • Image filters for school forums	Free MIT; hosted API $20-80/mo *Effort:* Low (Small API, rename and host) ⚠ MIT fine; NSFW classifiers err; image moderation needs human review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nsfw helloxz/nsfw ★ 108 · AGPL AGPL-3.0 · Tool · Fit 2/5	Lightweight self-hosted NSFW image recognition with an HTTP API *Replaces:* Sightengine, AWS Rekognition moderation	Chinese-speaking dev teams with image uploads	API/usage-based Setup + support retainer	• Photo screening for Chinese forums • Upload checks for small e-commerce sites • NSFW API for school-app developers	Free AGPL self-host; support $200-500/yr *Effort:* Low (API service, rename and host) ⚠ AGPL: publish server-side changes; NSFW classifiers err; human review needed
Nsfwjs-docker andresribeiro/nsfwjs-docker ★ 99 · Permissive MIT · Tool · Fit 2/5	Docker-packaged self-hosted API that detects NSFW images using NSFWJS *Replaces:* Sightengine, AWS Rekognition moderation	Teams wanting private NSFW screening	Setup + support retainer API/usage-based	• Private image screening for forums • Docker NSFW checks for SaaS uploads • Photo screening for school portals	Free MIT; deployment and support $300-900 *Effort:* Low (Docker wrapper, rename and document) ⚠ MIT fine; NSFWJS model terms apply; classifier errors need human review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pipelock pipelab-org/pipelock ★ 987 · Permissive Apache-2.0 · Tool · Fit 4/5	Firewall that scans agent HTTP, MCP and WebSocket traffic for exfiltration and injection *Replaces:* Lakera Guard, Prisma AIRS, Protect AI	Enterprises deploying AI agents with tool access	Managed hosting Setup + support retainer	• Agent egress control for fintech AI teams • MCP security gateway for SaaS vendors • Audit receipts for regulated AI pilots	Free Apache-2.0; managed gateway $500-2,500/mo *Effort:* Medium (Policy tuning, many protocol integrations) ⚠ Apache-2.0 ok; security claims need independent testing; false blocks break agents
Chat-archive-guard MaxHu-xuan/chat-archive-guard ★ 987 · Permissive Apache-2.0 · Tool · Fit 3/5	Local auditor for AI chat exports that flags secrets and personal data before sharing *Replaces:* Nightfall AI, GitGuardian	Teams migrating AI chat history	Setup + support retainer Consulting/implementation	• Chat-export audits for law firms • Secret checks for AI-tool migrations • Data-cleaning for HR investigations	Free Apache-2.0; audit service $500-1,500 per export *Effort:* Low (CLI audit tool, rules to tune) ⚠ Apache-2.0 ok; pattern scans miss context; chat exports hold sensitive personal data
Pasteguard sgasser/pasteguard ★ 811 · Permissive Apache-2.0 · Tool · Fit 3/5	Local privacy proxy that masks private data before browser chats and AI APIs see it *Replaces:* Nightfall AI, Lakera Guard	Teams sending data to AI tools	Setup + support retainer Premium plugins/add-ons	• Prompt masking for law firm staff • Chat privacy for clinic admin teams • API data masking for fintech AI pilots	Free Apache-2.0; team policy plans $15-35/seat/mo *Effort:* Low (Proxy and browser parts to package) ⚠ Apache-2.0 ok; masking misses are possible; AI vendors' terms still apply
Agent-security solongate/agent-security ★ 424 · Permissive Apache-2.0 · Tool · Fit 3/5	Local gateway that enforces tool-call policies and detects secrets for AI coding agents *Replaces:* Lakera Guard, Prisma AIRS	Engineering teams using AI coding tools	Setup + support retainer Premium plugins/add-ons	• Agent guardrails for banking dev teams • Secret scanning for agency AI coding • Policy packs for defence contractors	Free Apache-2.0; team policy packs $25-60/seat/mo *Effort:* Low (Local CLI, policy packs to author) ⚠ Apache-2.0 ok; rules only catch known patterns; vendor terms still apply
Brain0 Brain0-ai/brain0 ★ 294 · Permissive Apache-2.0 · Tool · Fit 3/5	Links each commit to the AI agent prompts behind it, with drift and provenance checks *Replaces:* Snyk Code, GitGuardian	Engineering leads governing AI-written code	Setup + support retainer Premium plugins/add-ons	• AI code provenance for defence software teams • Commit audits for fintech AI projects • Agent-prompt traceability for agencies	Free Apache-2.0; enterprise audits $200-500/seat/yr *Effort:* Medium (Git hooks, agent integrations, attestations) ⚠ Apache-2.0 ok; logs may capture sensitive prompts; check data retention rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Node9-proxy node9-ai/node9-proxy ★ 225 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Proxy that sets which actions AI coding agents and MCP servers may run, with review *Replaces:* Lakera Guard, Prisma AIRS	Engineering teams using multiple coding agents	Setup + support retainer Premium plugins/add-ons	• Agent action controls for banking dev teams • MCP access policy for agencies • Review gates for defence software teams	Free Apache-2.0; team controls $20-50/seat/mo *Effort:* Low (Proxy with policy config, moderate setup) ⚠ Apache-2.0 ok; trademarks on Claude, Codex, Gemini, Cursor; vendor tool terms apply
Gitlab-watchman PaperMtn/gitlab-watchman ★ 207 · **GPL** GPL-3.0 · Tool · Fit 3/5	Scans GitLab groups and projects for exposed secrets and personal data *Replaces:* GitGuardian, TruffleHog Enterprise	DevSecOps teams on GitLab	Setup + support retainer Agency service	• Secret scanning for GitLab-based agencies • Credential audits for fintech GitLab groups • PII leak checks for healthcare dev teams	Free GPL; managed scans $300-900/mo *Effort:* Low (CLI scanner, report formatting) ⚠ GPL-3.0 fine for hosting; scanning other orgs needs written consent
Gonymizer smithoss/gonymizer ★ 160 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Go tool that anonymises sensitive PostgreSQL tables for safe QA and test datasets *Replaces:* Delphix, Tonic.ai, Redgate Data Masker	Dev teams in regulated SaaS	Setup + support retainer Consulting/implementation	• Test data masking for healthcare SaaS teams • PostgreSQL anonymisation for fintech QA • GDPR-safe staging for agencies	Free Apache-2.0; masking setup $2-6k per DB *Effort:* Low (Single CLI, PostgreSQL-only, simple) ⚠ Apache-2.0 ok; anonymisation may still leak data; test before claiming GDPR compliance
Shellward jnMetaCode/shellward ★ 138 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Scanner and runtime gateway that checks AI projects for leaked keys and personal data *Replaces:* Snyk, GitGuardian, Lakera Guard	Chinese-market AI product teams	Setup + support retainer Consulting/implementation	• PIPL compliance checks for Chinese SaaS teams • AI project audits for Shenzhen fintech • Data-export reviews for cross-border e-commerce	Free Apache-2.0; compliance audits $2-6k per project *Effort:* Medium (Chinese regulatory rules, localisation to maintain) ⚠ Apache-2.0 ok; Chinese regulation (PIPL, CSL) applies; legal review needed
Veil lemonadesaltbagel/veil ★ 134 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Local proxy that pseudonymises PII and secrets before they reach hosted AI models *Replaces:* Nightfall AI, Private AI, Lakera Guard	Developers in regulated firms using LLM tools	Setup + support retainer Premium plugins/add-ons	• PII masking for clinic developers using LLMs • Secret masking for fintech AI pilots • Pseudonymised AI coding for legal tech	Free Apache-2.0; team support $15-40/seat/mo *Effort:* Low (Local tool, config and docs to adapt) ⚠ Apache-2.0 ok; pseudonymisation is not anonymisation; GDPR rules still apply
Airlock lemonadesaltbagel/airlock ★ 130 · **Permissive** Apache-2.0 · App · Fit 3/5	Local coding agent that asks frontier AI models for help without sending raw source *Replaces:* Cursor, GitHub Copilot, Claude Code	Privacy-focused developers at regulated firms	Premium plugins/add-ons Setup + support retainer	• Private coding help for defence contractors • Source-safe AI for legal tech teams • Local-first AI coding for fintech devs	Free Apache-2.0; team license $20-40/seat/mo *Effort:* Medium (Agent logic, model routing, IDE integration) ⚠ Apache-2.0 ok; frontier model providers' terms apply; code-leak claims need testing
Decisionbox-platform decisionbox-io/decisionbox-platform ★ 122 · **AGPL** AGPL-3.0 · Platform · Fit 3/5	Connects to a data warehouse and runs AI agents that write SQL and surface insights *Replaces:* ThoughtSpot, Hex, Tableau Pulse	Analytics teams at mid-size companies	Managed hosting Setup + support retainer	• Autonomous SQL insights for ecommerce analysts • Warehouse monitoring for SaaS finance teams • Automated KPI briefings for retail chains	Free AGPL self-host; managed $500-2,000/mo *Effort:* High (Warehouse connectors, agent safety, UI) ⚠ AGPL: publish server-side changes; agent-written SQL needs read-only access controls

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Privacy-firewall privacyshield-ai/privacy-firewall ★ 246 · **Permissive** MIT · Tool · Fit 2/5	Local AI-powered data loss prevention tool for filtering sensitive data *Replaces:* Microsoft Purview DLP, Forcepoint, Nightfall AI	Small firms sending data to LLMs	Setup + support retainer Premium plugins/add-ons	• Prompt redaction for law firms • PII filter for clinic chatbots • DLP for accounting teams using AI	Free MIT; managed DLP $30-80/seat/mo *Effort:* Medium (Model tuning, detection accuracy work) ⚠ MIT fine; DLP misses create compliance exposure; regulated data needs legal review
Lazyfs dsrhaslab/lazyfs ★ 244 · **Check** NOASSERTION · Tool · Fit 2/5	FUSE filesystem that simulates data loss from unsynced writes, for crash testing	Database and storage engineers	Consulting/implementation Training/courses	• Crash testing for database startups • Durability audits for storage vendors • Fault-injection training for infra teams	Free research tool; durability audits $10-25k *Effort:* High (Research code, needs hardening and docs) ⚠ NOASSERTION license; academic origin; verify license before commercial use
Df-ml-anomaly-detection GoogleCloudPlatform/df-ml-anomaly-detection ★ 192 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Google Cloud reference pipeline for streaming anomaly detection with DLP checks *Replaces:* Datadog anomaly detection, Splunk ML Toolkit	Data teams on Google Cloud	Consulting/implementation Setup + support retainer	• Anomaly alerts for payments startups on GCP • Streaming fraud checks for retail data teams • Event monitoring for IoT fleet operators	Free Apache-2.0; GCP build-out $15-40k per project *Effort:* High (GCP-specific, needs Dataflow expertise) ⚠ Apache-2.0 ok; Google Cloud trademarks; GCP usage bills fall on customer

Digital Forensics & Incident Response · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Timesketch google/timesketch ★ 3.4k · **Permissive** Apache-2.0 · Platform · Fit 4/5	Collaborative web platform for analysing forensic timelines with shared sketches *Replaces:* Magnet AXIOM, Splunk, Autopsy	DFIR teams in consultancies and police labs	Managed hosting Setup + support retainer	• Timeline analysis for DFIR consultancies • Shared case review for law firms • Forensic timelines for university security labs	Free Apache-2.0; managed hosting $400-1,200/mo *Effort:* Medium (Search backend ops, multi-service stack) ⚠ Apache-2.0 ok; evidence handling needs chain-of-custody and access controls
IPED sepinf-inc/IPED ★ 3.1k · **Check** NOASSERTION · App · Fit 4/5	Open-source digital forensics suite that processes and analyses seized digital evidence *Replaces:* Magnet AXIOM, Cellebrite, Exterro FTK	Police labs, corporate investigators, private examiners	Consulting/implementation Training/courses	• Forensic lab tooling for mid-size police units • Evidence review for corporate fraud teams • Training for private forensic examiners	Free core; training and setup $2-8k per course *Effort:* High (Forensic validation and certification needed) ⚠ NOASSERTION license; evidence admissibility rules vary; forensic claims need validation
Iris-web dfir-iris/iris-web ★ 1.6k · **Weak copyleft** LGPL-3.0 · Platform · Fit 4/5	Collaborative platform for tracking incident response cases, evidence and IOCs *Replaces:* TheHive, Atlassian Jira Service Management, ServiceNow SecOps	IR teams in MSPs and consultancies	Managed hosting Setup + support retainer	• Incident case tracking for MSP SOCs • IR workspace for regional hospitals • Breach case management for accounting firms	Free LGPL; managed hosting $250-900/mo *Effort:* Medium (Case model, auth, integrations to tune) ⚠ LGPL-3.0: linking ok; modifications to library shared; IR data needs access control

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Loki Neo23x0/Loki ★ 3.8k · GPL GPL-3.0 · Tool · Fit 3/5	Simple scanner that checks files and systems against IOCs and YARA rules *Replaces:* Velociraptor, Tanium	IR teams and small SOCs	Setup + support retainer Consulting/implementation	• Compromise checks for MSP incident response • YARA sweeps for law firms after breach • IOC sweeps for clinic IT	Free GPL; IR sweep service $1.5-4k per host *Effort:* Low (CLI scanner, simple to wrap) ⚠ GPL-3.0 fine for hosting; scanning customer systems needs authorisation and consent
Chainsaw WithSecureOpenSource/chainsaw ★ 3.7k · GPL GPL-3.0 · Tool · Fit 3/5	Fast command-line tool for hunting through Windows event logs and forensic artefacts *Replaces:* Splunk, Elastic Security, Velociraptor	DFIR consultants and SOC analysts	Consulting/implementation Training/courses	• Windows log hunts for MSP incident teams • Log triage for ransomware responders • Hunting training for SOC analysts	Free GPL; IR hunt engagements $3-8k each *Effort:* Low (CLI tool, rules and reports to package) ⚠ GPL-3.0 fine; WithSecure name is a brand; forensic outputs need chain-of-custody
LogonTracer JPCERTCC/LogonTracer ★ 3.3k · Check NOASSERTION · Tool · Fit 3/5	Visualises Windows event logs to investigate suspicious logon activity *Replaces:* Microsoft Sentinel, Splunk Enterprise Security	IR teams at mid-size firms	Consulting/implementation Setup + support retainer	• Logon analysis for school districts after breach • Windows IR for regional accounting firms • Logon review for MSP incident desks	Free tool; IR logon reviews $2-5k per case *Effort:* Medium (Windows-log focus, dashboards need polish) ⚠ NOASSERTION license; JPCERT/CC is a national CERT brand; check terms before reuse
Yeti yeti-platform/yeti ★ 2.0k · Permissive Apache-2.0 · Platform · Fit 3/5	Threat intelligence platform for tracking indicators and linking them to investigations *Replaces:* Recorded Future, Anomali ThreatStream	SOC and threat intel teams in mid-size firms	Managed hosting Setup + support retainer	• Indicator tracking for regional banks • Threat intel desks for MSSPs • Investigation linking for university SOCs	Free Apache-2.0; managed hosting $300-900/mo *Effort:* Medium (Data model, integrations, multi-user setup) ⚠ Apache-2.0 ok; threat-intel sharing may breach TLP and customer data rules
Cortex TheHive-Project/Cortex ★ 1.6k · AGPL AGPL-3.0 · Platform · Fit 3/5	Engine that runs analysers on observables and triggers active responses for SOC cases *Replaces:* Splunk SOAR, Tines, Swimlane	SOC teams using TheHive	Setup + support retainer Consulting/implementation	• Observable enrichment for MSP SOCs • Automated responses for regional banks • Case automation for university SOCs	Free AGPL; integration services $2-6k per SOC *Effort:* Medium (Analyser ecosystem, integrations to maintain) ⚠ AGPL: publish server-side changes; TheHive Project is a brand; keep names distinct
Hindsight RyanDFIR/hindsight ★ 1.6k · Permissive Apache-2.0 · Tool · Fit 3/5	Forensic tool that parses Chrome, Chromium and Firefox browser artefacts *Replaces:* Magnet AXIOM, Cellebrite, Belkasoft	DFIR consultants and HR investigators	Consulting/implementation Training/courses	• Browser evidence for employment disputes • Chrome artefact reviews for insurers • Browser forensics training for police trainees	Free Apache-2.0; browser forensics reviews $800-2,500 *Effort:* Low (CLI and reports, little UI) ⚠ Apache-2.0 ok; browser artefacts can be wrong; expert testimony needs validation
Digler ostafen/digler ★ 1.5k · Permissive MIT · Tool · Fit 3/5	Forensic disk analysis and file recovery tool for disk images and raw devices *Replaces:* Recuva, EaseUS Data Recovery, Magnet AXIOM	Data recovery shops and IT repair services	Setup + support retainer Consulting/implementation	• Deleted-file recovery for small law firms • Disk recovery for repair shops • Forensic recovery for insurance claims	Free MIT; recovery jobs $150-600 per drive *Effort:* Low (CLI-first, service-led, few UI needs) ⚠ MIT fine; recovered data may be personal; follow privacy and evidence rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LOLBAS LOLBAS-Project/LOLBAS ★ 8.9k · GPL GPL-3.0 · Content · Fit 2/5	Catalogue of Windows binaries and scripts attackers abuse, used for detection tuning	SOC detection engineers and EDR vendors	Content/membership Training/courses	• LOLBin detection rules for MSP SOCs • Windows hunt training for IR teams • Detection content for EDR startups	Free GPL; detection content subscription $99-299/mo *Effort:* Low (Reference catalogue, little to rebrand) ⚠ GPL-3.0 fine for hosting; catalogue content is public, but attribution expected
Sysmon-modular olafhartong/sysmon-modular ★ 3.2k · Permissive MIT · Starter · Fit 2/5	Modular Sysmon configuration rules for detecting suspicious Windows activity	SOC engineers deploying Sysmon	Consulting/implementation Training/courses	• Sysmon rollouts for MSP endpoints • Detection baselines for K-12 IT • Endpoint logging audits for insurers	Free MIT; Sysmon rollout service $1.5-4k *Effort:* Low (Config files, easy to repackage) ⚠ MIT fine; Sysmon is Microsoft's tool; configs need log-volume tuning
Tcpflow simsong/tcpflow ★ 1.8k · GPL GPL-3.0 · Tool · Fit 2/5	Command-line tool that reassembles TCP flows from packet captures into separate files *Replaces:* Wireshark, NetworkMiner	Forensic analysts and network engineers	Training/courses Consulting/implementation	• Packet forensics for IR consultancies • Network traffic reviews for MSP support • Pcap training for SOC analysts	Free GPL; packet analysis reviews $800-2,500 each *Effort:* Low (CLI tool, little UI to rebrand) ⚠ GPL-3.0 fine for hosting; captured traffic may contain personal data, handle carefully
Hunting-Queries-Detection-Rules Bert-JanP/Hunting-Queries-Detection-Rules ★ 1.8k · Permissive BSD-3-Clause · Content · Fit 2/5	Ready-made KQL hunting and detection queries for Microsoft Defender and Sentinel *Replaces:* Splunk Security Content, Sumo Logic Cloud SIEM	Microsoft-stack SOC teams	Content/membership Setup + support retainer	• Sentinel rules for Microsoft 365 law firms • Defender hunts for MSP SOCs • Detection content for healthcare Azure tenants	Free BSD-3; rule tuning $1.5-4k per tenant *Effort:* Low (Query files, easy to package) ⚠ BSD-3-Clause fine; Microsoft product names are trademarks; queries need per-tenant tuning

Opensnitch evilsocket/opensnitch ★ 14.3k · **GPL** GPL-3.0 · App · Fit 4/5	Interactive per-application firewall for Linux that prompts on new outbound connections *Replaces:* Little Snitch, Lulu, Norton Firewall	Privacy-minded Linux users and small firms	Premium plugins/add-ons Setup + support retainer	• Egress control for Linux dev laptops • Outbound filtering for law firm workstations • Telemetry blocking for kiosk PCs	Free GPL; managed fleet policy $3-6/endpoint/mo *Effort:* Medium (Daemon and UI, distro packaging) ⚠ GPL-3.0; distributed builds must ship source; firewall bugs break connectivity

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Portmaster safing/portmaster ★ 14.0k · GPL GPL-3.0 · App · Fit 4/5	Desktop privacy firewall that monitors and blocks app connections to trackers *Replaces:* Little Snitch, GlassWire, Lulu	Privacy-focused individuals and small businesses	Premium plugins/add-ons Setup + support retainer	• Tracker blocking for journalists' laptops • Outbound filtering for small law firms • Privacy baseline for NGO staff devices	Free GPL; team policy support $3-6/endpoint/mo *Effort:* Medium (Cross-platform daemon, UI and packaging) ⚠ GPL-3.0; distributed builds must ship source; firewall bugs can break network access
Simplewall henrypp/simplewall ★ 9.3k · GPL GPL-3.0 · App · Fit 4/5	Lightweight Windows app that configures outbound and inbound rules via Windows Filtering Platform *Replaces:* GlassWire, Windows Defender Firewall with Advanced Security	Windows power users and small offices	Premium plugins/add-ons Setup + support retainer	• Egress rules for accounting office PCs • Locked-down workstations for clinics • Firewall policy for school library PCs	Free GPL; fleet rule packs $2-4/endpoint/mo *Effort:* Low (Single app, branding is simple) ⚠ GPL-3.0; distributed builds must ship source; WFP rule errors can cut connectivity
Rethink-app celzero/rethink-app ★ 5.9k · Permissive Apache-2.0 · App · Fit 4/5	Android app that blocks app connections and filters DNS, with per-app firewall rules *Replaces:* NetGuard, AdGuard, Blokada	Privacy-focused Android users and privacy-brand apps	Premium plugins/add-ons White-label reseller	• Branded privacy app for telecom customers • Android tracker-blocker for family devices • Per-app firewall for enterprise BYOD	Free Apache-2.0; branded build license $5-15k *Effort:* Medium (Android build, rebrand via assets) ⚠ Apache-2.0 ok; Google Play VPN policies apply; Rethink name is a brand
Pfsense pfsense/pfsense ★ 5.8k · Permissive Apache-2.0 · App · Fit 4/5	FreeBSD-based firewall and router distribution with web UI, VPN and packages *Replaces:* Fortinet FortiGate, Sophos XG, Cisco ASA	SMB offices and MSPs building firewall appliances	Hardware kits/assembly Setup + support retainer	• Firewall appliances for dental offices • Managed edge for MSP branch sites • pfSense rollouts for school districts	Free core; appliance hardware plus setup $800-2,000 *Effort:* Medium (Appliance packaging, branding, update channel) ⚠ Apache-2.0 ok; pfSense and Netgate are trademarks; must rename for rebranding
PCAPdroid emanuele-f/PCAPdroid ★ 5.1k · GPL GPL-3.0 · App · Fit 4/5	Rootless Android app that monitors network traffic, enforces firewall rules and saves PCAPs *Replaces:* Charles Proxy, HTTP Toolkit	Security testers and privacy-conscious Android users	Premium plugins/add-ons Mobile app on top	• App traffic audits for fintech QA • Privacy reviews for kids' app developers • Mobile pentest traffic capture for agencies	Free GPL; paid pro features $4-9 one-time *Effort:* Medium (Android app, Play store listing work) ⚠ GPL-3.0: distributed apps must ship source; PCAPs may contain personal data
Firehol firehol/firehol ★ 1.6k · GPL GPL-2.0 · Tool · Fit 4/5	Human-readable iptables firewall configuration tool for Linux servers *Replaces:* Shorewall, UFW	Linux sysadmins at small hosts	Setup + support retainer Managed hosting	• Firewall config for small hosting companies • Server hardening for dental-clinic VPS hosts • Edge rules for home-lab MSP clients	Free GPL; managed firewall $40-120/server/mo *Effort:* Low (Shell tool, easy to package and support) ⚠ GPL-2.0 fine; bad rules can lock out SSH; FireHOL is a brand
Dns-blocklists hagezi/dns-blocklists ★ 28.4k · GPL GPL-3.0 · Content · Fit 3/5	Curated DNS blocklists for blocking ads, trackers, malware and phishing domains *Replaces:* NextDNS, Cisco Umbrella, NordVPN Threat Protection	Privacy-minded households and small MSPs	Setup + support retainer Managed hosting	• DNS filtering for small MSP clients • Ad and tracker blocking for family routers • Malware DNS filtering for dental offices	Free GPL lists; managed DNS filter $3-6/seat/mo *Effort:* Low (List files, brand the resolver service) ⚠ GPL-3.0 fine for hosting; false positives block legitimate sites; check list license

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ufw-docker chaifeng/ufw-docker ★ 6.9k · GPL GPL-3.0 · Tool · Fit 3/5	Stops Docker from bypassing UFW firewall rules, without disabling iptables	Linux sysadmins running Docker hosts	Setup + support retainer Agency service	• Docker hardening for small hosting firms • UFW fixes for agency WordPress hosts • Container firewall audits for SaaS startups	Free GPL; host hardening service $300-800 per server *Effort:* Low (Shell tool, easy to package) ⚠ GPL-3.0 fine; firewall changes can lock out SSH; test before deploying
WindowsSpyBlocker crazy-max/WindowsSpyBlocker ★ 5.2k · Permissive MIT · Tool · Fit 3/5	Blocks Windows telemetry and tracking domains and IPs through hosts and firewall rules *Replaces:* O&O ShutUp10, Privatezilla	Privacy-minded Windows users and IT admins	Setup + support retainer Premium plugins/add-ons	• Telemetry blocking for school Windows labs • Privacy hardening for law firm PCs • Tracker control for clinic workstations	Free MIT; fleet policy setup $200-500 per site *Effort:* Low (Lists and scripts, easy to package) ⚠ MIT fine; blocking Windows services can break updates and features; test first
Fort tnodir/fort ★ 3.7k · GPL GPL-3.0 · App · Fit 3/5	Windows application firewall with per-app rules and traffic logging *Replaces:* GlassWire, Norton Firewall	Privacy users and small offices on Windows	Premium plugins/add-ons Setup + support retainer	• Per-app rules for accounting PCs • Traffic logging for small clinics • Firewall baselines for school Windows labs	Free GPL; fleet rule packs $2-4/endpoint/mo *Effort:* Low (Single Windows app, simple branding) ⚠ GPL-3.0; distributed builds must ship source; driver-level bugs can break connectivity
Afwall ukanth/afwall ★ 3.5k · GPL GPL-3.0 · App · Fit 3/5	Android firewall app that blocks per-app network access using iptables, needs root *Replaces:* NetGuard, Blokada, AdGuard	Rooted Android power users	Premium plugins/add-ons Mobile app on top	• Per-app blocking for rooted kiosk tablets • App network control for parental setups • Offline-app blocks for field tablets	Free GPL; paid add-ons $3-6 one-time *Effort:* Low (Android app, rebrand and store listing) ⚠ GPL-3.0; distributed apps must ship source; root requirement limits reach
Blackweb maravento/blackweb ★ 400 · GPL GPL-3.0 · Tool · Fit 3/5	Domain blacklist file for Squid proxy filtering of unwanted sites *Replaces:* Cisco Umbrella, Zscaler Internet Access, Barracuda web filter	Small ISPs and schools running Squid proxies	Managed hosting Setup + support retainer	• Squid filtering for K-12 schools • Content filter for small ISPs • Family-safe proxy for cafes	$2-5/seat/mo managed filtering *Effort:* Low (Flat list file, needs packaging and updates) ⚠ GPL-3.0 fine for hosting; blocklist accuracy and false positives are your liability
Wifiphisher wifiphisher/wifiphisher ★ 14.9k · GPL GPL-3.0 · Tool · Fit 2/5	Rogue access point framework used for wireless phishing and security testing	Wireless pentesters and awareness trainers	Consulting/implementation Training/courses	• Wi-Fi phishing tests for hotel chains • Rogue AP audits for retail stores • Wireless security training for office managers	Free GPL; wireless audits $1-3k per site *Effort:* High (Offensive attack tool, misuse-prone) ⚠ GPL-3.0 fine for hosting; unauthorised rogue APs are illegal; written consent needed
Esp_wifi_repeater martin-ger/esp_wifi_repeater ★ 5.3k · Permissive MIT · Hardware · Fit 2/5	ESP8266 firmware that turns the chip into a WiFi NAT router or repeater *Replaces:* GL.iNet travel routers, TP-Link extenders	IoT hobbyists and small makers	Hardware kits/assembly Consulting/implementation	• Portable WiFi for construction site cabins • Guest WiFi kits for Airbnb hosts • Repeaters for caravan parks	Free MIT; kits $25-45 each *Effort:* High (Hobby firmware, hardware, RF certification) ⚠ MIT fine; WiFi radio products need FCC/CE certification; Espressif trademarks apply
NextDNS-Config yokoffing/NextDNS-Config ★ 3.2k · GPL GPL-3.0 · Content · Fit 2/5	Setup guide and config notes for NextDNS, a DNS filtering service	Privacy-minded households and small offices	Content/membership Setup + support retainer	• NextDNS setup for family routers • DNS filtering for small dental offices • Home-office DNS setup for remote workers	Free guide; setup service $60-150 per site *Effort:* Low (Guide content, rewrite and brand) ⚠ GPL-3.0 fine; NextDNS is a brand; guide may go stale

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Oryx pythops/oryx ★ 2.6k · GPL GPL-3.0 · Tool · Fit 2/5	Terminal app that sniffs Linux network traffic using eBPF *Replaces:* Wireshark, iftop, nethogs	Linux admins and network engineers	Training/courses Consulting/implementation	• Live traffic checks for Linux hosting teams • eBPF visibility for DevOps trainers • Host troubleshooting for MSP field engineers	Free GPL; training $500-1,200 per course *Effort:* Low (Terminal tool, little brand surface) ⚠ GPL-3.0 fine for hosting; sniffing needs root and sensitive traffic handling rules
Blocker lihenggui/blocker ★ 2.5k · Permissive Apache-2.0 · App · Fit 2/5	Android app that blocks selected app components using a built-in firewall	Android power users and MDM admins	Premium plugins/add-ons Mobile app on top	• Tracker-component blocking for family phones • Bloatware control for enterprise Android • App hardening for field-device kiosks	Free Apache-2.0; enterprise build $1-3 per device *Effort:* Low (Android app, rebrand via build) ⚠ Apache-2.0 ok; component blocking can break apps; rebrand must avoid Blocker name
Gsocket hackerschoice/gsocket ★ 1.9k · Permissive BSD-2-Clause · Tool · Fit 2/5	Connects to hosts behind firewalls via relay; often abused for remote access *Replaces:* TeamViewer, ngrok, Tailscale	Remote-support admins with consent	Consulting/implementation Setup + support retainer	• Remote support for field technicians • Secure access audits for SMB networks • Firewall-bypass detection training for SOC teams	Free BSD-2; support plans $20-60/mo *Effort:* High (Relay access tool, abuse-prone, needs vetting) ⚠ BSD-2-Clause fine; often abused for covert access; relay hosting needs abuse controls

privacyguides.org privacyguides/privacyguides.org ★ 4.3k · **Weak copyleft** CC-BY-SA-4.0 · Content · Fit 2/5	Privacy guide website recommending tools and settings to reduce surveillance	Privacy-minded consumers and journalists	Content/membership Training/courses	• Privacy guides for journalist newsrooms • Digital privacy workshops for NGO staff • Phone privacy setup for families	Free site; paid workshops $150-400 each *Effort:* Low (Site content, rewrite and brand) ⚠ CC-BY-SA-4.0 share-alike applies to derived guides; tool recommendations go stale
ProxyBroker constverum/ProxyBroker ★ 4.2k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Python tool that finds, checks and serves HTTP and SOCKS proxies *Replaces:* Bright Data proxy, Oxylabs	Scraping and SEO teams	API/usage-based Setup + support retainer	• Proxy checks for SEO agencies • Proxy health checks for scraping firms • Proxy lists for market researchers	Free Apache-2.0; proxy-health service $100-300/mo *Effort:* Low (CLI tool, service wrapper simple) ⚠ Apache-2.0 ok; open proxy lists get abused; many proxies are compromised
Winscript flick9000/winscript ★ 3.0k · **GPL** GPL-3.0 · Tool · Fit 2/5	Builder for Windows setup scripts that debloat, tune privacy and install apps *Replaces:* O&O AppBuster, Windows debloat tools	Windows power users and IT admins	Setup + support retainer Consulting/implementation	• Debloat scripts for school Windows labs • Clean installs for small-office PCs • Standard Windows builds for MSP clients	Free GPL; build-and-deploy service $200-500 per image *Effort:* Low (Script builder, rename and document) ⚠ GPL-3.0; debloat scripts can remove security tools; Windows updates may break builds
i2p.i2p i2p/i2p.i2p ★ 2.8k · **Check** NOASSERTION · Platform · Fit 2/5	Anonymising overlay network that routes encrypted traffic between peers for private services *Replaces:* Tor hidden services, commercial VPN services	Privacy communities and censorship-resistant app builders	Consulting/implementation Setup + support retainer	• Hidden services for NGO communications • Private file drops for journalists • Censorship-resistant publishing for small media	Free software; deployment services $3-8k *Effort:* High (Network software, uncommon ops skills) ⚠ NOASSERTION license; read first; anonymity networks need abuse policies
Nipe htrgouvea/nipe ★ 2.4k · **Check** NOASSERTION · Tool · Fit 2/5	Script that routes a Linux machine's default traffic through the Tor network	Privacy-conscious Linux users	Setup + support retainer Training/courses	• Tor gateway setup for journalist laptops • Private traffic routing for NGO Linux machines • Privacy-lab training for students	Free; setup services $150-400 per machine *Effort:* Low (Script, rename and document) ⚠ NOASSERTION license; misconfigured Tor routing can break apps or leak DNS
Whoami-project owerdogan/whoami-project ★ 2.3k · **GPL** GPL-3.0 · Starter · Fit 2/5	Privacy-hardening configuration for Debian and Arch Linux installs *Replaces:* Tails OS, Qubes OS	Privacy-minded Linux users	Training/courses Consulting/implementation	• Privacy Linux setups for journalists • Hardened laptops for legal clinics • Privacy workstation training for NGO staff	Free GPL; hardened setup service $200-500 *Effort:* Medium (Distro scripts, support, per-distro testing) ⚠ GPL-3.0 fine; anonymity claims need testing; Arch and Debian trademarks apply
GTweak Greedeks/GTweak ★ 1.8k · **Permissive** BSD-3-Clause · Tool · Fit 2/5	Portable Windows tweaking tool for applying system and privacy settings *Replaces:* O&O ShutUp10, WinUtil	Windows power users and IT techs	Setup + support retainer Consulting/implementation	• Clean Windows builds for repair shops • Standard PC setup for small offices • Privacy tuning for school Windows labs	Free BSD-3; setup service $100-250 per PC *Effort:* Low (Portable tool, rename and restyle) ⚠ BSD-3-Clause fine; tweaks can break Windows updates; test before fleet use

SIEM, SOC & Threat Detection · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AiSOC beenuar/AiSOC ★ 6.7k · Permissive MIT · Platform · Fit 3/5	Self-hosted AI SOC platform fusing alerts, triaging with LLM agents and mapping MITRE ATT&CK *Replaces:* Splunk SOAR, Torq, Exabeam	MSSPs and small SOC teams	Managed hosting Setup + support retainer	• AI alert triage for MSP SOCs • ATT&CK mapping for regional banks • Agent triage for university SOCs	Free MIT; managed SOC triage $1-3k/mo per client *Effort:* Medium (Agent workflows and SIEM integrations) ⚠ MIT fine; LLM triage can miss or invent findings; human review required
RedELK outflanknl/RedELK ★ 2.7k · Permissive BSD-3-Clause · Platform · Fit 3/5	Red-team logging platform that tracks operations and alerts on blue-team activity *Replaces:* Cobalt Strike reporting, Splunk	Red-team firms and pentest consultancies	Setup + support retainer Consulting/implementation	• Red-team log pipelines for boutique firms • Engagement telemetry for pentest consultancies • Blue-team detection reviews for banks' red teams	Free BSD-3; setup services $800-2,000 per engagement *Effort:* Medium (ELK stack and red-team workflows to adapt) ⚠ BSD-3-Clause fine; offensive use needs authorisation; logs may hold sensitive engagement data
Elastdocker sherifabdlnaby/elastdocker ★ 2.1k · Permissive MIT · Starter · Fit 3/5	Docker Compose bundle of the Elastic Stack pre-configured for logs, metrics and SIEM *Replaces:* Splunk Enterprise, Datadog, Sumo Logic	Small SOC and DevOps teams	Setup + support retainer Managed hosting	• ELK SIEM for dental MSP fleets • Log stacks for small SaaS startups • Central logs for school district IT	Free MIT; managed stack $300-900/mo *Effort:* Low (Compose bundle, rename and document) ⚠ MIT fine; Elastic licensing for ML and SIEM features may apply
Pfelk pfelk/pfelk ★ 1.2k · Check NOASSERTION · Starter · Fit 3/5	Elastic Stack setup that ingests pfSense and OPNsense firewall logs for analysis *Replaces:* Splunk, Graylog Enterprise	MSPs and SMB network admins	Setup + support retainer Consulting/implementation	• Firewall log dashboards for dental offices • Edge log analytics for MSP branch sites • pfSense log reviews for school districts	Free core; firewall-log setup $400-1,000 per site *Effort:* Low (Log pipeline and dashboards to rename) ⚠ NOASSERTION license; pfSense and Elastic are trademarks; Elastic licensing tiers apply
Sentinel-attack edoardogerosa/sentinel-attack ★ 1.1k · Permissive MIT · Starter · Fit 3/5	Tools to deploy Azure Sentinel threat hunting using Sysmon and MITRE ATT&CK mappings *Replaces:* Splunk Enterprise Security, Sumo Logic	Azure-based SOC teams	Consulting/implementation Setup + support retainer	• Sentinel hunting for Azure law firms • MITRE-mapped hunts for MSP SOCs • Sysmon-based detection for healthcare Azure tenants	Free MIT; Sentinel deployment $2-6k per tenant *Effort:* Low (Scripts and templates to rename) ⚠ MIT fine; Microsoft trademarks apply; Sentinel ingestion costs fall on you
Laurel threathunters-io/laurel ★ 876 · GPL GPL-3.0 · Tool · Fit 3/5	Converts Linux audit logs into a structured format that SIEM tools can ingest *Replaces:* Splunk Universal Forwarder, Elastic Agent	Linux SOC teams	Setup + support retainer Consulting/implementation	• Linux audit ingestion for MSP SOCs • Audit-log pipelines for hosting firms • Linux logging setup for school IT	Free GPL; log pipeline setup $800-2,000 *Effort:* Low (Log converter, rename and document) ⚠ GPL-3.0 fine for hosting; audit logs may hold sensitive user activity data
VexRiscv SpinalHDL/VexRiscv ★ 3.3k · Permissive MIT · Hardware · Fit 2/5	FPGA-friendly 32-bit RISC-V CPU core for hardware designers *Replaces:* ARM Cortex-M cores, Andes RISC-V cores	Chip startups and FPGA teams	Consulting/implementation Hardware kits/assembly	• RISC-V cores for FPGA education kits • Soft-core CPUs for drone controllers • Custom IP for IoT chip startups	Free MIT; custom core integration $20-60k *Effort:* High (Hardware IP, verification and tooling heavy) ⚠ MIT fine; not security software; FPGA toolchain licenses may apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Neorv32 stnolting/neorv32 ★ 2.3k · **Permissive** BSD-3-Clause · Hardware · Fit 2/5	Small customisable 32-bit RISC-V soft-core CPU and microcontroller SoC in VHDL *Replaces:* ARM Cortex-M, Andes RISC-V cores	FPGA and chip startups	Consulting/implementation Hardware kits/assembly	• RISC-V MCU for FPGA classrooms • Soft-core controllers for motor-drive makers • Custom SoC for IoT prototypes	Free BSD-3; integration services $15-40k *Effort:* High (Hardware IP, verification and toolchains) ⚠ BSD-3-Clause fine; hardware security claims need silicon-level review
E203_hbirdv2 riscv-mcu/e203_hbirdv2 ★ 2.0k · **Permissive** Apache-2.0 · Hardware · Fit 2/5	Ultra-low-power 32-bit RISC-V CPU core for embedded chip designs *Replaces:* ARM Cortex-M0+, Andes cores	Chip startups and MCU designers	Consulting/implementation Hardware kits/assembly	• Low-power cores for wearable chip startups • RISC-V teaching cores for universities • IoT sensor SoC prototypes	Free Apache-2.0; core integration $25-70k *Effort:* High (Hardware IP, verification, tooling heavy) ⚠ Apache-2.0 ok; not security software; silicon and tooling licenses may apply
Sooty TheresAFewConors/Sooty ★ 1.5k · **GPL** GPL-3.0 · Tool · Fit 2/5	All-in-one CLI that automates routine SOC analyst workflow steps	Junior SOC analysts	Training/courses Setup + support retainer	• Analyst workflow tooling for MSP SOCs • CLI triage for university SOC students • Workflow scripts for regional bank SOCs	Free GPL; workflow setup $800-2,000 *Effort:* Low (CLI tool, rename and document) ⚠ GPL-3.0 fine for hosting; check integrations' API terms; unclear tool scope
Agentic-soc-platform FunnyWolf/agentic-soc-platform ★ 1.2k · **Check** NONE · Platform · Fit 2/5	Agent-centric AI SOC platform that automates security operations workflows *Replaces:* Splunk SOAR, Tines, Torq	MSSPs and small SOC teams	Managed hosting Setup + support retainer	• Agent triage for MSP SOCs • Automated alert handling for clinic networks • SOC automation for school districts	Free core; managed SOC $1.5-3k/mo *Effort:* High (Agent logic and integrations, young project) ⚠ NONE license; read first; autonomous SOC actions need approval gates
Argus-Agentic-SOC-Platform Sec-Link/Argus-Agentic-SOC-Platform ★ 1.2k · **Permissive** Apache-2.0 · Platform · Fit 2/5	AI-native agentic SOC platform for automating security operations *Replaces:* Splunk SOAR, Torq	MSSPs and mid-size SOC teams	Managed hosting Setup + support retainer	• Agentic triage for MSSP SOCs • AI alert handling for hospital IT • Autonomous SOC tasks for fintech security teams	Free Apache-2.0; managed SOC $1-3k/mo *Effort:* High (Agent logic, integrations, young project) ⚠ Apache-2.0 ok; autonomous security actions need approval gates; verify maturity first
KianRiscV splinedrive/kianRiscV ★ 1.1k · **Permissive** ISC · Hardware · Fit 2/5	RISC-V system-on-chip design that runs xv6 and Linux, for hardware experiments	CPU design students and researchers	Training/courses Hardware kits/assembly	• RISC-V teaching SoCs for universities • FPGA dev boards for OS courses • Linux-capable soft cores for research labs	Free ISC; teaching kits $150-300 each *Effort:* High (Hardware design, verification and boards) ⚠ ISC fine; not security software; FPGA toolchain and board vendor licenses apply
Xboot xboot/xboot ★ 923 · **Permissive** MIT · Library · Fit 2/5	Extensible bootloader framework for embedded systems with an application engine *Replaces:* U-Boot, RedBoot	Embedded device makers	Consulting/implementation Setup + support retainer	• Bootloaders for industrial sensor boards • Boot setup for kiosk hardware • Custom boot firmware for education boards	Free MIT; porting services $8-25k per board *Effort:* High (Board porting, boot security review) ⚠ MIT fine; bootloader bugs brick devices; secure boot claims need separate review

Secure File Sharing & Encryption · 20

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
CyberChef gchq/CyberChef ★ 36.3k · **Permissive** Apache-2.0 · App · Fit 4/5	Browser-based tool for encoding, decoding, encrypting and analysing data *Replaces:* Cryptii, online base64 and encryption tools	Analysts, developers and IR teams	Premium plugins/add-ons White-label reseller	• Data decoding tool for SOC analysts • Encoding helper for dev teams • Browser toolkit for CTF clubs	Free Apache-2.0; branded build and support $3-8k *Effort:* Low (Static web app, rebrand and host) ⚠ Apache-2.0 ok; GCHQ name implies government link; avoid implying endorsement
VeraCrypt veracrypt/VeraCrypt ★ 12.1k · **Check** NOASSERTION · App · Fit 4/5	Cross-platform disk and volume encryption tool for protecting stored data *Replaces:* BitLocker, FileVault, Cryptomator	Small firms and individuals protecting laptops	Setup + support retainer Premium plugins/add-ons	• Encrypted laptops for accounting firms • Encrypted USB drives for clinics • Portable encrypted volumes for field journalists	Free core; managed encryption rollout $3-8/device *Effort:* Medium (Installers, docs and key recovery) ⚠ NOASSERTION license; read first; TrueCrypt-derived; lost passwords mean lost data
Tutanota tutao/tutanota ★ 8.1k · **GPL** GPL-3.0 · App · Fit 4/5	End-to-end encrypted email, calendar and contacts service with apps on all devices *Replaces:* Proton Mail, Microsoft 365 Outlook, Google Workspace Gmail	Privacy-focused individuals and small firms	Managed hosting White-label reseller	• Encrypted mail for law firms • Private email for clinics • Secure mail for NGO staff	Hosted business plans $4-8/user/mo *Effort:* High (Mail infrastructure, deliverability, mobile apps) ⚠ GPL-3.0 fine for hosting; Tuta is a brand; email abuse rules apply
PeaZip peazip/PeaZip ★ 8.1k · **Weak copyleft** LGPL-3.0 · App · Fit 4/5	Cross-platform archive manager with encrypted archives and many format extractors *Replaces:* WinRAR, WinZip	Small offices and individuals	Premium plugins/add-ons White-label reseller	• Encrypted archive tool for accounting firms • Secure file packing for clinic staff • Archive suite for school IT	Free LGPL; branded enterprise build $2-6k *Effort:* Medium (Installers and branding per OS) ⚠ LGPL-3.0: modifications to library shared; PeaZip is a brand; check installer licenses
Staticrypt robinmoisson/staticrypt ★ 8.1k · **Permissive** MIT · Tool · Fit 3/5	Encrypts a static HTML page so it opens only after the correct password is entered *Replaces:* Netlify password protection, Cloudflare Access	Small agencies sharing client pages	Setup + support retainer Agency service	• Password-protected client proposals for agencies • Private event pages for wedding planners • Shareable draft pages for consultants	Free MIT; hosted protected pages $10-30/mo *Effort:* Low (CLI tool, template and branding) ⚠ MIT fine; client-side encryption only protects against casual access; weak passwords fail
GmSSL guanzhi/GmSSL ★ 6.2k · **Permissive** Apache-2.0 · Library · Fit 3/5	Crypto toolkit supporting China's national SM2, SM3, SM4 and SM9 standards, plus SSL *Replaces:* OpenSSL (non-SM builds), commercial Chinese crypto SDKs	Chinese bank and government IT suppliers	Consulting/implementation Setup + support retainer	• SM-crypto upgrades for Chinese banks • Gov-compliant TLS for provincial IT • SM2 signing for Chinese e-invoice vendors	Free Apache-2.0; SM-compliance projects $10-40k *Effort:* High (Crypto audits and certification required) ⚠ Apache-2.0 ok; China crypto certification rules apply; export controls may too
Gocryptfs rfjakob/gocryptfs ★ 4.8k · **Permissive** MIT · Tool · Fit 3/5	Encrypted overlay filesystem in Go that keeps files encrypted at rest on disk *Replaces:* Cryptomator, VeraCrypt, BitLocker folders	Small firms and developers storing sensitive files	Setup + support retainer Consulting/implementation	• Encrypted client folders for accountants • Encrypted cloud sync for legal firms • Encrypted notes for clinic staff	Free MIT; encryption rollout $300-800 per team *Effort:* Low (CLI tool, rename and document) ⚠ MIT fine; lost keys mean lost data; cryptographic claims need independent review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rage str4d/rage ★ 3.7k · Permissive Apache-2.0 · Tool · Fit 3/5	Simple modern file encryption tool and Rust library using the age format *Replaces:* GPG, password-protected 7-Zip archives	Developers and sysadmins encrypting files	Setup + support retainer Consulting/implementation	• Backup encryption for small accounting firms • Secret-file encryption for dev teams • Encrypted exports for clinic data sharing	Free Apache-2.0; setup and training $500-1,500 *Effort:* Low (CLI tool, rename and document) ⚠ Apache-2.0 ok; key loss means data loss; not a compliance standard
ChatSecure-iOS ChatSecure/ChatSecure-iOS ★ 3.2k · Check NOASSERTION · App · Fit 3/5	Open-source iOS chat client with OTR and OMEMO encryption over XMPP *Replaces:* Signal, Threema	Privacy-focused teams and NGOs needing XMPP chat	Mobile app on top White-label reseller	• Private chat for NGO field teams • Encrypted staff chat for legal clinics • XMPP messaging for small co-ops	Free to use; branded build $5-12k one-time *Effort:* High (iOS app, store review, crypto review) ⚠ NOASSERTION license; ChatSecure is a brand; App Store and XMPP add complexity
Wolfssl wolfSSL/wolfssl ★ 3.0k · GPL GPL-3.0 · Library · Fit 3/5	Small portable TLS and DTLS library for embedded devices through to cloud servers *Replaces:* OpenSSL, mbedTLS, BoringSSL	Embedded device makers	Consulting/implementation Setup + support retainer	• TLS for smart-meter fleets • DTLS for industrial sensors • TLS porting for medical wearables	Free GPL; porting and support $10-40k per project *Effort:* High (Crypto porting, per-platform testing) ⚠ GPL-3.0; commercial use may need wolfSSL's own license; TLS bugs are high-impact
Openssl openssl/openssl ★ 31.4k · Permissive Apache-2.0 · Library · Fit 2/5	General-purpose TLS and cryptography library used across servers and devices *Replaces:* BoringSSL, LibreSSL	Software vendors needing TLS	Consulting/implementation Setup + support retainer	• TLS hardening for medical device vendors • OpenSSL upgrades for legacy SaaS • FIPS-build support for government suppliers	Free Apache-2.0; upgrade and audit services $5-20k *Effort:* High (Crypto library, audits and patching) ⚠ Apache-2.0 ok; security patches must be tracked; OpenSSL is a trademark
S2n-tls aws/s2n-tls ★ 4.8k · Permissive Apache-2.0 · Library · Fit 2/5	AWS's C implementation of the TLS and SSL protocols for servers and clients *Replaces:* OpenSSL, BoringSSL, wolfSSL	C and C++ teams needing TLS	Consulting/implementation Setup + support retainer	• TLS upgrades for legacy C appliances • Embedded TLS for industrial gateways • Server TLS for AWS-hosted SaaS	Free Apache-2.0; TLS integration $10-30k *Effort:* High (C library, crypto audit, integration) ⚠ Apache-2.0 ok; AWS trademarks; TLS bugs are high-impact; keep patched
Hive isar/hive ★ 4.4k · Permissive Apache-2.0 · Library · Fit 2/5	Pure-Dart key-value database for Flutter and Dart apps, storing data locally *Replaces:* SQLite, Realm	Flutter app developers	Mobile app on top Agency service	• Offline storage for field-service apps • Local cache for clinic Flutter apps • Offline notes for retail staff apps	Free Apache-2.0; app integration $3-8k *Effort:* Low (Library, app-level work to brand) ⚠ Apache-2.0 ok; local data encryption needs care; wrong sector for security
SEAL microsoft/SEAL ★ 4.1k · Permissive MIT · Library · Fit 2/5	Homomorphic encryption library for computing on encrypted data in C++	Privacy-tech and health-data teams	Consulting/implementation Training/courses	• Private analytics for health data pilots • Encrypted scoring for insurers • Homomorphic workshops for fintech researchers	Free MIT; research prototype $20-60k *Effort:* High (Crypto expertise and performance tuning) ⚠ MIT fine; Microsoft trademarks apply; homomorphic schemes need expert parameter choices

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Git-secret sobolevn/git-secret ★ 4.1k · **Permissive** MIT · Tool · Fit 2/5	Bash tool that encrypts secrets so they can be stored in a git repository *Replaces:* git-crypt, SOPS, HashiCorp Vault	Small dev teams keeping config secrets in git	Setup + support retainer Consulting/implementation	• Secrets-in-git setup for small agency teams • Config encryption for dental practice IT repos • Shared secrets for school dev clubs	Free MIT; secrets setup and training $500-1,500 *Effort:* Low (Bash scripts, rename and document) ⚠ MIT fine; secrets in git persist in history; you own key rotation
Hawk orhanobut/hawk ★ 4.0k · **Permissive** Apache-2.0 · Library · Fit 2/5	Android library for simple encrypted key-value storage *Replaces:* SharedPreferences, EncryptedSharedPreferences	Android developers storing tokens	Mobile app on top Agency service	• Token storage for clinic Android apps • Encrypted settings for field-service apps • Secure cache for fintech Android apps	Free Apache-2.0; security review $2-5k per app *Effort:* Low (Library, drop-in for Android apps) ⚠ Apache-2.0 ok; key storage bugs leak user data; Keystore nuances need review
HElib homenc/HElib ★ 3.3k · **Check** NOASSERTION · Library · Fit 2/5	C++ library implementing homomorphic encryption schemes for private computation	Privacy researchers and health-data teams	Consulting/implementation Training/courses	• Encrypted analytics pilots for hospitals • Private model scoring for insurers • HE training for PhD labs	Free library; research projects $20-60k *Effort:* High (Crypto research code, specialist skills) ⚠ NOASSERTION license; read first; parameter choices need expert cryptographer review
Jasypt-spring-boot ulisesbocchio/jasypt-spring-boot ★ 3.1k · **Permissive** MIT · Library · Fit 2/5	Spring Boot integration that encrypts configuration property values *Replaces:* HashiCorp Vault, Spring Cloud Config encryption	Java teams with Spring configs	Setup + support retainer Consulting/implementation	• Config encryption for Spring clinic apps • Property secrets for Java fintech services • Secret setup for Spring agency projects	Free MIT; secrets setup $800-2,000 per service *Effort:* Low (Library, drop into Spring projects) ⚠ MIT fine; weak master passwords leak secrets; key management is the risk
Agenix ryantm/agenix ★ 2.5k · **Permissive** CC0-1.0 · Tool · Fit 2/5	Nix tool that stores secrets age-encrypted in git for NixOS configurations *Replaces:* sops-nix, HashiCorp Vault	NixOS server operators	Consulting/implementation Setup + support retainer	• NixOS secrets for small SaaS infra teams • Declarative server secrets for dev agencies • Secret setup for NixOS home-lab clients	Free CC0; NixOS setup services $1-3k *Effort:* Low (Nix module, rename and document) ⚠ CC0 allows any use; you own key rotation and access control
OpenSSL-for-iPhone x2on/OpenSSL-for-iPhone ★ 2.5k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Build script that compiles OpenSSL for iPhone, iPad, Watch and other Apple devices	iOS developers needing native TLS	Consulting/implementation Setup + support retainer	• Native TLS builds for iOS banking apps • OpenSSL builds for iOS health apps • Crypto builds for iOS field-service apps	Free Apache-2.0; build and patch service $1-3k *Effort:* Low (Build script, easy to adapt) ⚠ Apache-2.0 ok; OpenSSL patch tracking is essential; OpenSSL is a trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Secure-code-game skills/secure-code-game ★ 2.9k · **Permissive** MIT · Game · Fit 3/5	In-editor game that teaches secure coding through hands-on challenges *Replaces:* Secure Code Warrior, Snyk Learn, Hack The Box Academy	Developer teams and bootcamps	Training/courses Setup + support retainer	• Secure-coding game for bootcamp students • Developer training for fintech dev teams • Secure-code onboarding for agency devs	Free MIT; team onboarding $20-40/dev per year *Effort:* Low (Game content, rebrand levels and copy) ⚠ MIT fine; GitHub is the brand owner; keep attribution in courses
GZCTF GZTimeWalker/GZCTF ★ 1.6k · **AGPL** AGPL-3.0 · Platform · Fit 3/5	Open-source CTF competition platform for hosting security challenges and scoreboards *Replaces:* CTFd, Hack The Box Business	Universities, security clubs and conferences	Managed hosting Setup + support retainer	• CTF hosting for university security clubs • Hiring challenges for SOC recruiters • Training competitions for corporate security teams	Free AGPL; managed event hosting $300-1,000 per event *Effort:* Medium (Challenge infrastructure and containers) ⚠ AGPL: publish server-side changes; hosted challenges run untrusted code; isolate tenancy
Skf-flask blabla1337/skf-flask ★ 831 · **Permissive** Apache-2.0 · Platform · Fit 2/5	Flask and Angular app that serves a security knowledge base for secure development *Replaces:* OWASP SAMM tools, Secure Code Warrior	AppSec teams and dev-security trainers	Setup + support retainer Training/courses	• Secure-dev knowledge base for fintech dev teams • Secure-coding requirements for agency teams • Internal security wiki for SaaS startups	Free Apache-2.0; setup and content $2-5k *Effort:* Medium (Flask and Angular, content, auth updates) ⚠ Apache-2.0 ok; content needs regular review; OWASP-derived material has terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Websploit The-Art-of-Hacking/websploit ★ 612 · GPL GPL-3.0 · Starter · Fit 2/5	Training lab of intentionally vulnerable apps in containers for cybersecurity courses *Replaces:* Hack The Box, TryHackMe	Cybersecurity instructors	Training/courses Consulting/implementation	• Vulnerable-app labs for bootcamps • Hands-on labs for community colleges • Practice ranges for junior pentesters	Free GPL; course lab services $1-3k per cohort *Effort:* Low (Lab content, rebrand easily) ⚠ GPL-3.0 fine for hosting; vulnerable apps must stay isolated from production networks
Multi-juicer juice-shop/multi-juicer ★ 328 · Permissive Apache-2.0 · Platform · Fit 2/5	Tool that hosts many Juice Shop instances for training and CTF events	Security trainers running workshops	Managed hosting Setup + support retainer	• Juice Shop labs for university workshops • Per-student training environments for bootcamps • CTF hosting for security meetups	Free Apache-2.0; managed workshop hosting $150-400/event *Effort:* Low (Instance manager, rename and host) ⚠ Apache-2.0 ok; OWASP Juice Shop is intentionally vulnerable; isolate instances from production
GRFICSv3 Fortiphyd/GRFICSv3 ★ 292 · GPL GPL-3.0 · Starter · Fit 2/5	Free OT security lab with realistic networking and 3D process simulation for training	OT security trainers and utility staff	Training/courses Consulting/implementation	• ICS labs for water utility staff • OT training for energy-sector engineers • Plant-simulation drills for university programs	Free GPL; OT lab services $2-6k per course *Effort:* High (Heavy VM images, ICS know-how) ⚠ GPL-3.0 fine; check name and branding before rebranding
Ret2shell ret2shell/ret2shell ★ 269 · Check NOASSERTION · Platform · Fit 2/5	CTF challenge platform for running security competitions and hosted challenges *Replaces:* CTFd, Hack The Box Business	CTF organisers and security clubs	Managed hosting Setup + support retainer	• CTF hosting for university security clubs • Recruiting challenges for security firms • Internal CTFs for corporate security teams	Free core; managed event hosting $300-900 per event *Effort:* Medium (Challenge infra and themes to build) ⚠ NOASSERTION license; read first; hosted challenges run untrusted code; isolate
ForcAD pomo-mondreganto/ForcAD ★ 197 · GPL GPL-3.0 · Platform · Fit 2/5	Python attack-defence CTF platform that is simple to set up and distribute	CTF organisers and university clubs	Managed hosting Setup + support retainer	• Attack-defence events for university clubs • Team-training ranges for corporate SOCs • Hiring CTFs for security recruiters	Free GPL; managed event hosting $200-600 per event *Effort:* Low (Python app, rename and theme) ⚠ GPL-3.0 fine for hosting; attack-defence services run untrusted code; isolate networks
Cyberlivre pedrosilvaevangelista/Cyberlivre ★ 155 · Permissive MIT · Content · Fit 2/5	Free Portuguese-language cybersecurity course with lessons and materials *Replaces:* Cisco NetAcad, Coursera security courses	Portuguese-speaking students and career switchers	Training/courses Content/membership	• Portuguese cyber course for Brazilian bootcamps • Cyber basics for SMB staff in Portugal • Security primers for Lusophone universities	Free content; paid cohorts $60-180 *Effort:* Low (Course content, rewrite and brand) ⚠ MIT fine; course material may include third-party content with its own terms
RTB-CTF-Framework abs0lut3pwn4g3/RTB-CTF-Framework ★ 110 · AGPL AGPL-3.0 · Platform · Fit 2/5	Lightweight Flask-based CTF framework inspired by Hack The Box *Replaces:* Hack The Box, CTFd	CTF organisers	Managed hosting Setup + support retainer	• Mini-CTF events for school clubs • Internal CTF labs for small dev teams • Recruiting CTFs for regional firms	Free AGPL; managed event hosting $150-400 *Effort:* Low (Flask app, theme and rename) ⚠ AGPL: publish server-side changes; Hack The Box is a trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SNOWCTF TheMoonu/SNOWCTF ★ 97 · AGPL AGPL-3.0 · Platform · Fit 2/5	Django-based CTF platform with customisable competition templates *Replaces:* CTFd	Chinese CTF organisers and clubs	Managed hosting Setup + support retainer	• CTF hosting for Chinese university clubs • Competition templates for esports-themed events • Hiring CTFs for Chinese security firms	Free AGPL; event hosting $150-400 per event *Effort:* Low (Django app, theme and templates) ⚠ AGPL: publish server-side changes; hosted challenges run untrusted code; isolate tenancy

Supply Chain & SBOM · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Dependency-track DependencyTrack/dependency-track ★ 4.4k · Permissive Apache-2.0 · Platform · Fit 4/5	Platform that tracks software components and vulnerabilities via SBOMs across projects *Replaces:* Snyk, Sonatype Nexus Lifecycle, Black Duck	Software vendors and regulated enterprises	Managed hosting Setup + support retainer	• SBOM tracking for medical device makers • Component risk for fintech vendors • Supply chain audits for public-sector software	Free Apache-2.0; managed hosting $400-1,500/mo *Effort:* Medium (SBOM ingestion, feeds and UI to tune) ⚠ Apache-2.0 ok; vulnerability data sources have own terms; scan results are advisory
retire.js RetireJS/retire.js ★ 4.2k · Permissive Apache-2.0 · Tool · Fit 3/5	Scanner that finds vulnerable JavaScript libraries in web apps and can output an SBOM *Replaces:* Snyk, Sonatype, Mend	Web agencies and SaaS dev teams	Setup + support retainer Agency service	• JS dependency audits for agency client sites • Library risk scans for SaaS front-ends • Vulnerable-library checks for WordPress hosts	Free Apache-2.0; audit service $800-2,000 per site *Effort:* Low (CLI scanner, rename and report) ⚠ Apache-2.0 ok; vulnerability database coverage varies; findings need triage
Scancode-toolkit aboutcode-org/scancode-toolkit ★ 2.7k · Check NOASSERTION · Tool · Fit 3/5	Scanner that detects licenses, copyrights and open-source packages in code *Replaces:* Black Duck, FOSSA, Snyk license compliance	Software vendors doing license compliance	Consulting/implementation Setup + support retainer	• License audits for M&A due diligence • OSS compliance for medical device makers • License checks for SaaS vendors	Free core; compliance audits $3-10k per codebase *Effort:* Low (CLI scanner, report formatting) ⚠ NOASSERTION license; read first; license findings are advisory, not legal advice
Sbom-tool microsoft/sbom-tool ★ 2.1k · Permissive MIT · Tool · Fit 3/5	Enterprise SBOM generator producing SPDX 2.2 documents for build artifacts *Replaces:* Anchore Syft commercial, FOSSA, Snyk SBOM	Software vendors selling into government	Setup + support retainer Consulting/implementation	• SBOMs for defence software vendors • Build SBOMs for medical device firmware • SPDX delivery for public-sector suppliers	Free MIT; SBOM pipeline setup $2-6k *Effort:* Low (CLI tool, rename and document) ⚠ MIT fine; Microsoft trademarks apply; SBOM accuracy depends on build inputs
OpenSCA-cli XmirrorSecurity/OpenSCA-cli ★ 1.1k · Permissive Apache-2.0 · Tool · Fit 3/5	CLI that finds open-source dependencies, their vulnerabilities and license issues *Replaces:* Black Duck, Snyk Open Source	Chinese enterprise dev teams and vendors	Setup + support retainer Consulting/implementation	• Dependency audits for Chinese fintech teams • License checks for SaaS vendors • Vulnerability scans for public-sector software	Free Apache-2.0; enterprise scans $500-2,000/mo *Effort:* Low (CLI scanner, rename and report) ⚠ Apache-2.0 ok; vulnerability data sources have own terms; Chinese-market rules may apply
Cdxgen cdxgen/cdxgen ★ 1.1k · Permissive Apache-2.0 · Tool · Fit 3/5	Generates CycloneDX software bills of materials from source code and container images *Replaces:* Anchore Syft, FOSSA, Snyk SBOM	Software vendors in regulated markets	Setup + support retainer Consulting/implementation	• SBOM generation for medical device firmware teams • CycloneDX for public-sector software suppliers • SBOMs in CI for SaaS startups	Free Apache-2.0; CI SBOM setup $1.5-4k *Effort:* Low (CLI generator, rename and document) ⚠ Apache-2.0 ok; OWASP CycloneDX is a brand; SBOM completeness varies by language

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Guac guacsec/guac ★ 1.6k · **Permissive** Apache-2.0 · Platform · Fit 2/5	Graph database that aggregates software supply-chain security metadata for queries *Replaces:* Anchore Enterprise, Chainguard Enforce	Platform security teams in large enterprises	Consulting/implementation Setup + support retainer	• Supply-chain graphs for bank platform teams • SBOM graph queries for defence contractors • Provenance views for SaaS release teams	Free Apache-2.0; deployment projects $15-40k *Effort:* High (Graph infra, ingestion pipelines, queries) ⚠ Apache-2.0 ok; aggregated data quality varies; needs skilled graph and supply-chain ops
Cargo-auditable rust-secure-code/cargo-auditable ★ 875 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Cargo wrapper that embeds dependency data in Rust binaries for later security audits	Rust teams shipping binaries	Consulting/implementation Setup + support retainer	• Auditable Rust builds for fintech services • Build pipelines for defence Rust tools • Binary provenance for IoT Rust firmware	Free Apache-2.0; build pipeline setup $1-3k *Effort:* Low (Build tool, rename and document) ⚠ Apache-2.0 ok; embedded data helps only if scanners read it
Puncia ARPSyndicate/puncia ★ 664 · **Permissive** MIT · Tool · Fit 2/5	CLI that queries subdomain and exploit data sources for security reconnaissance *Replaces:* SecurityTrails, Censys	Bug bounty hunters and recon teams	API/usage-based Setup + support retainer	• Subdomain lookups for bug bounty teams • Exploit-intel checks for MSP patch desks • Recon feeds for pentest boutiques	Free MIT; API-key plans $20-60/mo *Effort:* Low (CLI wrapper, rename and document) ⚠ MIT fine; depends on third-party data APIs with their own terms
Meta-package-manager kdeldycke/meta-package-manager ★ 628 · **GPL** GPL-2.0 · Tool · Fit 2/5	CLI that snapshots installed packages across package managers and restores them later	Sysadmins rebuilding machines	Setup + support retainer Consulting/implementation	• Machine rebuild kits for repair shops • Standard software sets for school labs • Laptop restore for small law offices	Free GPL; machine rebuild service $100-250 per PC *Effort:* Low (CLI tool, rename and document) ⚠ GPL-2.0 fine; restore scripts can reinstall unvetted software; test before fleet use
Bomber devops-kung-fu/bomber ★ 628 · **Weak copyleft** MPL-2.0 · Tool · Fit 2/5	Scanner that checks SBOM files against known vulnerabilities and reports findings *Replaces:* Grype, Snyk Container	Teams with SBOMs from build pipelines	Setup + support retainer Consulting/implementation	• SBOM scans for medical device vendors • Vulnerability reports for public-sector suppliers • SBOM checks in CI for SaaS startups	Free MPL-2.0; CI setup $1-3k per pipeline *Effort:* Low (CLI scanner, rename and report) ⚠ MPL-2.0 file-level copyleft; scan quality depends on vulnerability feeds and SBOM accuracy
Specification CycloneDX/specification ★ 574 · **Permissive** Apache-2.0 · Content · Fit 2/5	Open standard for bills of materials covering software, hardware, AI and crypto *Replaces:* SPDX, SWID tags	Software vendors and procurement teams	Consulting/implementation Training/courses	• CycloneDX training for medical device makers • AI-BOM briefings for fintech teams • SBOM format audits for public-sector suppliers	Free Apache-2.0; SBOM format consulting $3-8k *Effort:* Low (Standard doc, rebrand as guide) ⚠ Apache-2.0 ok; OWASP CycloneDX is a brand; spec changes can break tools
Component-detection microsoft/component-detection ★ 558 · **Permissive** MIT · Tool · Fit 2/5	Scanner that finds the software components a project uses across many ecosystems *Replaces:* Snyk, Black Duck	DevOps teams in Azure pipelines	Setup + support retainer Consulting/implementation	• Component scans for Azure DevOps teams • Dependency inventory for fintech vendors • SBOM inputs for public-sector suppliers	Free MIT; pipeline integration $800-2,000 *Effort:* Low (Scanner, rename and report) ⚠ MIT fine; Microsoft trademarks apply; not a full security audit

Threat Intelligence · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Spiderfoot smicallef/spiderfoot ★ 24.4k · Permissive MIT · Tool · Fit 4/5	Automated OSINT tool that gathers data on a target and maps its attack surface *Replaces:* Maltego, Censys ASM, Recorded Future basic tiers	Pentest firms, threat intel teams and SOCs	Managed hosting Setup + support retainer	• Attack-surface scans for regional banks • OSINT reports for MSP security teams • Brand-exposure checks for marketing agencies	Free MIT; managed OSINT scans $300-1,000/mo *Effort:* Medium (Web UI, modules, API key setup) ⚠ MIT fine; scan only authorised targets; third-party API terms apply
Opencti OpenCTI-Platform/opencti ★ 10.3k · Check NOASSERTION · Platform · Fit 4/5	Threat intelligence platform for organising threat actors, indicators and campaigns *Replaces:* Recorded Future, Anomali ThreatStream, ThreatConnect	CTI teams in banks and government	Managed hosting Setup + support retainer	• CTI platform for regional banks • Threat-actor tracking for MSSPs • Campaign mapping for defence contractors	Free core; managed platform $800-2,500/mo *Effort:* Medium (Connectors, data model, feed setup) ⚠ NOASSERTION license; read first; threat-intel sharing needs TLP handling and data rules
Bbot blacklanternsecurity/bbot ★ 11.0k · AGPL AGPL-3.0 · Tool · Fit 3/5	Recursive internet scanner that chains recon modules to map a target's attack surface *Replaces:* Censys ASM, Intruder, Detectify	Pentest firms and bug bounty teams	Managed hosting Setup + support retainer	• Attack-surface scans for pentest boutiques • Continuous recon for bug bounty teams • External exposure reports for MSP clients	Free AGPL; managed recon $400-1,000/mo *Effort:* Medium (Module ecosystem, scan infra, reports) ⚠ AGPL: publish server-side changes; scan only authorised targets; third-party API keys needed
Capa mandiant/capa ★ 6.3k · Permissive Apache-2.0 · Tool · Fit 3/5	Tool that identifies what capabilities an executable file has *Replaces:* Cuckoo sandbox analysis, commercial reverse-engineering tools	Malware analysts and IR teams	Consulting/implementation Training/courses	• Malware triage for IR retainers • Binary review for software vendors • RE training for SOC analysts	Free Apache-2.0; malware triage $1-3k per sample *Effort:* Low (CLI tool, reports to brand) ⚠ Apache-2.0 ok; Mandiant and FLARE are brands; malware samples need safe handling
Dnstwist elceef/dnstwist ★ 5.8k · Permissive Apache-2.0 · Tool · Fit 3/5	Generates lookalike domain names and checks which are registered, to spot brand impersonation *Replaces:* Red Points, BrandShield, ZeroFox	Brand-protection and fraud teams	Setup + support retainer Agency service	• Lookalike-domain watch for regional banks • Typosquat checks for e-commerce brands • Brand protection for law-firm clients	Free Apache-2.0; monitoring service $200-800/mo *Effort:* Low (CLI engine, add scheduling and alerts) ⚠ Apache-2.0 ok; lookalike checks flag innocent names; takedowns need legal basis
IntelOwl intelowlproject/IntelOwl ★ 4.8k · AGPL AGPL-3.0 · Platform · Fit 3/5	Platform that runs many threat-intel analysers on IOCs and collects results in one place *Replaces:* Recorded Future, Anomali ThreatStream, VirusTotal Enterprise	SOC and CTI teams	Managed hosting Setup + support retainer	• IOC enrichment for MSP SOCs • Malware-hash triage for regional banks • Analyser pipelines for university CTI labs	Free AGPL; managed enrichment $300-900/mo *Effort:* Medium (Analyser integrations, API keys, queues) ⚠ AGPL: publish server-side changes; third-party analyser APIs have own terms and quotas
User-scanner kaifcodec/user-scanner ★ 5.6k · Permissive MIT · Tool · Fit 2/5	OSINT suite that checks an email or username across many websites and services *Replaces:* Epieos, Maltego, IntelTechniques	Investigators and HR-screening teams	Consulting/implementation Training/courses	• Email exposure checks for MSP clients • Username audits for brand teams • OSINT training for fraud analysts	Free MIT; investigation reports $150-400 each *Effort:* Low (CLI and MCP tool, rename and document) ⚠ MIT fine; account lookups can breach site terms and privacy law

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Signature-base Neo23x0/signature-base ★ 3.1k · Check NOASSERTION · Content · Fit 2/5	Collection of YARA rules and IOC signatures used by open-source scanners *Replaces:* Commercial YARA rule feeds, Recorded Future feeds	SOC and IR teams writing detections	Content/membership Training/courses	• YARA rule feeds for MSP SOCs • Malware signature packs for regional banks • Detection-content updates for IR retainers	Free rules; curated feed $200-600/mo *Effort:* Low (Rule files, repackage as feed) ⚠ NOASSERTION license; read first; rules carry author terms; false positives are common
Osint-brazuca osintbrazuca/osint-brazuca ★ 2.8k · Permissive MIT · Content · Fit 2/5	Curated Portuguese-language list of OSINT sources and techniques for Brazil	Brazilian investigators and journalists	Training/courses Content/membership	• OSINT training for Brazilian newsrooms • Source lists for fact-checkers • Brazil-focused OSINT course for compliance teams	Free list; paid OSINT course $80-200 *Effort:* Low (List content, rewrite as course) ⚠ MIT fine; linked sites have own terms; sources may expose personal data
Mitaka ninoseki/mitaka ★ 1.9k · Permissive MIT · App · Fit 2/5	Browser extension that runs quick OSINT lookups on selected indicators *Replaces:* VirusTotal browser extension, Maltego	SOC analysts and investigators	Premium plugins/add-ons Training/courses	• IOC lookups for SOC analysts • Quick domain checks for journalists • Indicator lookups for fraud teams	Free MIT; team setup $300-800 *Effort:* Low (Extension, rename and restyle) ⚠ MIT fine; lookups send indicators to third-party services; check their terms
OpenOSINT OpenOSINT/OpenOSINT ★ 1.9k · Permissive MIT · Starter · Fit 2/5	OSINT toolkit packaged as an AI agent skill, MCP server and CLI, passive by default *Replaces:* Maltego, SpiderFoot	Investigators using AI coding and agent tools	Premium plugins/add-ons Training/courses	• AI OSINT assistant for newsroom fact-checkers • Passive recon skill for MSP analysts • Agent-driven brand checks for marketing agencies	Free MIT; premium agent skill packs $19-49 *Effort:* Low (Skill files and MCP server, rename) ⚠ MIT fine; OSINT on people can breach privacy law; verify agent output
Phishing_catcher x0rz/phishing_catcher ★ 1.8k · GPL GPL-3.0 · Tool · Fit 2/5	Watches certificate transparency logs to flag newly registered look-alike phishing domains *Replaces:* Recorded Future domain alerts, dnstwist-based monitoring	Brand-protection and email security teams	Setup + support retainer Managed hosting	• Domain watch for regional banks • Phishing alerts for e-commerce brands • Certificate monitoring for SaaS vendors	Free GPL; managed alerts $150-500/mo *Effort:* Low (Script, rename and route alerts) ⚠ GPL-3.0 fine for hosting; verify flagged domains before any takedown
Flare-learning-hub mandiant/flare-learning-hub ★ 1.8k · Permissive Apache-2.0 · Content · Fit 2/5	Free reverse-engineering and malware-analysis course material from Mandiant's FLARE team *Replaces:* SANS FOR610, Offensive Security courses	Malware analysts and security students	Training/courses Content/membership	• RE course for SOC analysts • Malware-analysis bootcamp for career switchers • Reverse-engineering workshops for IR teams	Free content; paid bootcamp $800-1,500 per seat *Effort:* Low (Course material, rebrand and restyle) ⚠ Apache-2.0 ok; Mandiant and FLARE are brands; contains malware-analysis lab material
Cve-mcp-server mukul975/cve-mcp-server ★ 1.8k · Permissive Apache-2.0 · Tool · Fit 2/5	MCP server that gives AI assistants CVE, EPSS, KEV, ATT&CK and scanner lookups *Replaces:* Vulners, Tenable VPR lookups	Security analysts using AI assistants	API/usage-based Setup + support retainer	• CVE triage assistant for MSP patch desks • Vulnerability intel for SOC analysts • KEV checks for municipal IT	Free Apache-2.0; hosted MCP access $29-99/mo *Effort:* Low (MCP server, rename and document) ⚠ Apache-2.0 ok; upstream APIs (Shodan, VirusTotal) have their own keys and terms
Investigations AmnestyTech/investigations ★ 1.7k · Check NONE · Content · Fit 2/5	Published indicators of compromise from Amnesty International's cyber investigations *Replaces:* Recorded Future, Mandiant threat feeds	Civil-society and journalist security teams	Content/membership Training/courses	• IOC checks for newsroom IT • Spyware-risk briefings for NGO staff • Threat feeds for human-rights legal clinics	Free IOCs; paid threat briefings $100-300/mo *Effort:* Low (Static data, attribution required) ⚠ NONE license; reuse terms unclear; cite Amnesty; data is sensitive

Vulnerability Scanning & ASM · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Vuls future-architect/vuls ★ 12.3k · GPL GPL-3.0 · Tool · Fit 4/5	Agentless vulnerability scanner for Linux servers, containers, WordPress and network devices *Replaces:* Tenable Nessus, Qualys VMDR, Rapid7 InsightVM	MSPs and SMB IT teams	Managed hosting Setup + support retainer	• Vulnerability scans for MSP client servers • Patch reports for dental-practice IT • Container and WordPress scans for hosting firms	Free GPL; managed scans $150-500/mo per site *Effort:* Medium (Reports, dashboards, scan scheduling to build) ⚠ GPL-3.0 fine for hosting; scan only assets you are authorised to test
Osv-scanner google/osv-scanner ★ 11.4k · Permissive Apache-2.0 · Tool · Fit 4/5	Go vulnerability scanner that checks dependencies against the open OSV.dev database *Replaces:* Snyk Open Source, Sonatype OSS Index, Dependabot alerts	Dev teams and CI pipelines	Setup + support retainer Managed hosting	• Dependency scans for agency CI pipelines • Open-source risk checks for fintech dev teams • Vulnerability alerts for school dev clubs	Free Apache-2.0; CI setup and triage $1-3k *Effort:* Low (CLI tool, rename and report) ⚠ Apache-2.0 ok; OSV data quality varies; Google name is a brand
Xray chaitin/xray ★ 11.8k · Check NOASSERTION · Tool · Fit 3/5	Web security scanner that checks for common web flaws and runs custom proof-of-concept rules *Replaces:* Acunetix, Burp Suite Pro, Invicti	Pentest firms and bug bounty teams	Setup + support retainer Consulting/implementation	• Web scans for e-commerce agencies • Pre-launch checks for fintech apps • PoC rule packs for pentest boutiques	Tool free to use; scan audits $800-2,000 per site *Effort:* Medium (PoC rules, scanner UI and reports) ⚠ NOASSERTION license; Chaitin brand; scan only authorised targets; check terms before reuse
DeepAudit lintsinghua/DeepAudit ★ 7.3k · AGPL AGPL-3.0 · Platform · Fit 3/5	AI code-audit platform that agents use to find and sandbox-test security issues in code *Replaces:* Snyk Code, Semgrep Pro, Checkmarx	Small dev teams and security consultancies	Managed hosting Setup + support retainer	• AI code audits for Chinese fintech startups • PoC checks for agency codebases • Private Ollama audits for regulated firms	Free AGPL self-host; managed audits $300-1,000/mo *Effort:* Medium (Agent workflows, sandbox, model setup) ⚠ AGPL: publish server-side changes; sandboxed PoCs run untrusted code
Nettacker OWASP/Nettacker ★ 5.7k · Permissive Apache-2.0 · Tool · Fit 3/5	Automated pentest framework that scans networks and apps for known vulnerabilities *Replaces:* Tenable Nessus, OpenVAS commercial, Intruder	MSPs and small pentest firms	Managed hosting Setup + support retainer	• Network scans for MSP clients • Vulnerability checks for small clinics • Internal scans for school districts	Free Apache-2.0; managed scans $200-600/mo *Effort:* Low (Scanner, rename and report) ⚠ Apache-2.0 ok; scan only authorised networks; scans can disrupt devices
Afrog zan8in/afrog ★ 4.5k · Permissive MIT · Tool · Fit 3/5	Vulnerability scanner for bug bounty, pentest and red-team work *Replaces:* Nuclei Pro, Burp Suite Pro	Bug bounty hunters and pentesters	Setup + support retainer Training/courses	• Quick scans for bug bounty solo hunters • Red-team scanning for small pentest firms • Scanner labs for security bootcamps	Free MIT; pentest scan engagements $800-2,000 *Effort:* Low (CLI scanner, rename and report) ⚠ MIT fine; scanning third-party sites needs written authorisation; bounty rules apply
Emba e-m-b-a/emba ★ 3.8k · GPL GPL-3.0 · Tool · Fit 3/5	Firmware security analyser that unpacks and tests embedded device images for weaknesses *Replaces:* Binwalk Enterprise, Finite State, NetRise	IoT security labs and device makers	Consulting/implementation Managed hosting	• Firmware reviews for router vendors • IoT pre-release checks for smart-home brands • Medical device firmware analysis for makers	Free GPL; firmware audits $1.5-4k per image *Effort:* Medium (Analysis modules and reports to package) ⚠ GPL-3.0 fine for hosting; vendor firmware may be proprietary; check permission first

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nmap-vulners vulnersCom/nmap-vulners ★ 3.5k · **Check** NOASSERTION · Tool · Fit 3/5	Nmap scripts that map detected services to known CVEs, CVSS scores and exploits *Replaces:* Tenable Nessus, Qualys, Rapid7 InsightVM	Network pentesters and IT admins	Setup + support retainer Training/courses	• Service-to-CVE mapping for MSP network audits • Nmap-based checks for small clinics • Exposure reviews for school networks	Free scripts; Vulners API plans $50-200/mo *Effort:* Low (NSE scripts, rename and report) ⚠ NOASSERTION license; Vulners data has own API terms; scan authorised networks only
Open-kritt Kritt-ai/open-kritt ★ 2.4k · **AGPL** AGPL-3.0 · Platform · Fit 3/5	Self-hosted AI agent platform that hunts and validates security issues in source code *Replaces:* Snyk Code, Semgrep Pro, Checkmarx	AppSec teams and code-audit firms	Managed hosting Setup + support retainer	• AI code audits for fintech AppSec teams • Validated findings for agency code reviews • Private AI audits for regulated SaaS	Free AGPL self-host; managed audits $500-1,500/mo *Effort:* Medium (Agent orchestration, validation sandbox, LLM setup) ⚠ AGPL: publish server-side changes; code sent to LLMs needs controls
Commix commixproject/commix ★ 5.9k · **Check** NOASSERTION · Tool · Fit 2/5	Automated tool that detects and exploits OS command injection flaws in web apps *Replaces:* Burp Suite Pro, Acunetix	Pentesters and bug bounty hunters	Setup + support retainer Training/courses	• Injection checks for web agencies • Command-injection audits for SaaS startups • Pentest labs for junior testers	Free tool; web pentest engagements $1.5-4k *Effort:* Low (CLI tool, rename and report) ⚠ NOASSERTION license; exploitation tool, scope only authorised targets; check license first
Agentic-Bug-Hunter awarexone/Agentic-Bug-Hunter ★ 5.6k · **Permissive** MIT · Tool · Fit 2/5	AI-powered toolkit for bug bounty hunting, usable with or without a subscription	Bug bounty hunters	Premium plugins/add-ons Training/courses	• Bounty recon packs for solo hunters • AI triage for bug bounty teams • Bounty training for university security clubs	Free MIT; paid agent packs $19-59/mo *Effort:* Low (Toolkit, rename and document) ⚠ MIT fine; AI-generated bounty reports get rejected if unverified; LLM costs apply
Raccoon evyatarmeged/Raccoon ★ 4.1k · **Permissive** MIT · Tool · Fit 2/5	Offensive recon and vulnerability scanner for web targets, built for speed *Replaces:* Intruder, Nmap-based scanning services	Pentesters and bug bounty hunters	Setup + support retainer Training/courses	• Fast web recon for bug bounty teams • Surface checks for small pentest firms • Scanner labs for security students	Free MIT; scan engagements $600-1,500 *Effort:* Low (CLI scanner, rename and report) ⚠ MIT fine; scanning others needs written authorisation; fast scans disrupt targets
Fuxploider almandin/fuxploider ★ 3.3k · **GPL** GPL-3.0 · Tool · Fit 2/5	Tool that tests web file upload forms for vulnerabilities and exploits them *Replaces:* Burp Suite Pro, Acunetix	Web pentesters	Consulting/implementation Training/courses	• Upload checks for WordPress agencies • File-upload audits for e-commerce • Upload-flow labs for pentest bootcamps	Free GPL; web audit engagements $800-2,000 *Effort:* Low (CLI tool, rename and report) ⚠ GPL-3.0 fine for hosting; exploitation tool, scope only authorised targets
Crawlergo Qianlitp/crawlergo ★ 3.0k · **GPL** GPL-3.0 · Tool · Fit 2/5	Headless-browser crawler that discovers URLs and forms for vulnerability scanners *Replaces:* Burp Suite crawler, Screaming Frog	Scanner developers and pentesters	Consulting/implementation Setup + support retainer	• Crawl engines for scanner startups • Site mapping for agency QA • Form discovery for pentest boutiques	Free GPL; crawler integration $3-6k *Effort:* Low (Crawler library, wrap as service) ⚠ GPL-3.0 fine; aggressive crawling can breach site terms and disrupt sites

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rapidscan skavngr/rapidscan ★ 2.1k · GPL GPL-2.0 · Tool · Fit 2/5	Multi-tool web vulnerability scanner that wraps several open-source scanners *Replaces:* Acunetix, Invicti, Netsparker	Web agencies and pentest freelancers	Setup + support retainer Agency service	• Quick site scans for web agencies • Pre-launch checks for e-commerce builds • Scanner labs for bootcamps	Free GPL; site scan reports $150-400 each *Effort:* Low (CLI wrapper, rename and report) ⚠ GPL-2.0 fine for hosting; wrapping other tools means their licenses also apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Study-Mate Miaotofu01/Study-Mate ★ 1.4k · **Permissive** MIT · App · Fit 3/5	Chinese-language AI study partner that plans learning paths, explains concepts and guides projects. *Replaces:* Khanmigo, Chegg Study, Tutor.com	Chinese-speaking students and self-learners	Mobile app on top Content/membership Premium plugins/add-ons	• Gaokao exam prep for Chinese high schoolers • Coding bootcamp study plans for career switchers • Mandarin-language CPA exam study coaching	$5-15/mo subscription, free basic tier *Effort:* Medium (Chinese prompts and curriculum need rewriting) ⚠ MIT, but Chinese content and prompts tied to author's curriculum
Teacher-to-skills JuneYaooo/teacher-to-skills ★ 470 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Turns a teacher's materials into a source-backed agent skill that tutors you. *Replaces:* 1-on-1 tutoring platforms, Chegg Study	Course creators and tutors packaging their teaching	Premium plugins/add-ons Consulting/implementation Agency service	• Tutors packaging exam-prep skills for clients • Corporate trainers distilling onboarding expertise • Coaches turning curricula into AI tutors	$30-100 per skill build, plus setup fee *Effort:* Low (Single skill file, little branding surface) ⚠ Apache-2.0 fine; teaching quality depends on source materials
AILearningGuide Fazmin/AILearningGuide ★ 249 · **Permissive** MIT · App · Fit 3/5	Interactive desktop app with 58 labs on ML, transformers, RAG and agents. *Replaces:* DataCamp, Coursera ML courses, Udemy	ML engineers upskilling and bootcamp students	Training/courses Consulting/implementation Content/membership	• Applied LLM labs for internal corporate teams • RAG and agents bootcamp for analysts • Fine-tuning labs for healthcare data teams	$49-199 per seat course bundle, team licenses *Effort:* Medium (Desktop app, labs need content rewrites) ⚠ MIT; keep lab model and API references current
InterviewMentor PrepLabsAI/InterviewMentor ★ 116 · **Permissive** MIT · App · Fit 3/5	AI mock interviews to prepare candidates for tech job interviews. *Replaces:* Interviewing.io, Pramp, Exponent	Software engineers preparing for job interviews	Managed hosting Vertical SaaS API/usage-based	• Data analyst SQL interview drills • Bootcamp grad mock interviews • Engineering-manager behavioral interview prep	$19-49/mo per user, free trial *Effort:* Medium (Question bank and scoring need domain tuning) ⚠ MIT; AI feedback accuracy and hiring-fairness claims need care
Human-skill-tree 24kchengYe/human-skill-tree ★ 590 · **Check** NOASSERTION · Content · Fit 2/5	AI-driven skill tree covering 30+ lifelong skills, K-12 through career. *Replaces:* Coursera, Skillshare, LinkedIn Learning	Parents, career switchers, lifelong learners tracking skills	Content/membership Mobile app on top Training/courses	• Soft-skills tracker for new managers • Homeschool skill roadmaps for teens • Adult ESL career-skills path	$8-12/mo membership, free core skills *Effort:* Medium (Skill content and assessments must be authored) ⚠ NOASSERTION: read license first; content is bilingual Chinese-English
Cram-engine liuliu667/cram-engine ★ 178 · **Permissive** MIT · Tool · Fit 2/5	Exam-cramming agent skill using learning-science phases to teach key points fast. *Replaces:* Quizlet, Anki, Cram.com	Students cramming for exams in limited time	Premium plugins/add-ons Content/membership	• Last-week study plans for nursing licensure exams • Gaokao final-review cram sessions • Professional certification crash courses for accountants	Free skill, $9/mo for question banks *Effort:* Low (Single skill, Chinese prompts to localize) ⚠ MIT; content is Chinese-language, English version needs work
Socratic m4vic/socratic ★ 134 · **Permissive** MIT · Tool · Fit 2/5	Self-questioning skill for coding agents like Claude Code and Codex.	Developers using AI coding agents daily	Premium plugins/add-ons Training/courses	• Socratic tutoring prompts for CS bootcamps • Code-review question packs for junior devs • Interview prep drills for frontend engineers	Free open-source; sell prompt packs $10-25 *Effort:* Low (Single skill, minimal platform dependence) ⚠ MIT; Claude and Codex are third-party trademarks

Certifications & Credentials · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Win-acme win-acme/win-acme ★ 5.8k · **Permissive** Apache-2.0 · Tool · Fit 4/5	Windows client that automates Let's Encrypt SSL/TLS certificate issuance and renewal. *Replaces:* Sectigo SSL management, DigiCert CertCentral	Windows IIS hosts and small MSPs	Setup + support retainer Managed hosting Agency service	• IIS certificate automation for dental offices • Windows cert renewal for ISPs • Let's Encrypt setup for Windows-hosted e-commerce	$5-10 per server/mo managed renewals *Effort:* Medium (Windows-only; docs and UI need rebranding) ⚠ Apache-2.0; rename and drop project name in distributions
Simple-acme simple-acme/simple-acme ★ 672 · **Permissive** Apache-2.0 · Tool · Fit 4/5	Cross-platform ACME client for Let's Encrypt and other certificate authorities. *Replaces:* Sectigo SSL automation, DigiCert CertCentral	Windows sysadmins and MSPs renewing certificates	Setup + support retainer Managed hosting	• Cert renewal for Windows dental practices • Automated TLS for small hosting providers • ACME setup for Windows-based manufacturers	$3-8 per server/mo managed renewals *Effort:* Medium (Windows-only; docs and UI need rebranding) ⚠ Apache-2.0; Let's Encrypt is a trademark, state it accurately
Mkcert FiloSottile/mkcert ★ 59.8k · **Permissive** BSD-3-Clause · Tool · Fit 3/5	Zero-config CLI that creates locally trusted development TLS certificates. *Replaces:* devcert, manual OpenSSL setups	Web developers needing local HTTPS	Consulting/implementation Training/courses	• Local HTTPS setup for Shopify theme developers • Dev environment hardening for fintech teams • Team-wide dev cert rollout for agencies	Free CLI; $50-150/yr team setup service *Effort:* Low (CLI tool; rebranding adds little value) ⚠ BSD-3-Clause; mkcert name is well known, avoid confusion
Xca chris2511/xca ★ 2.0k · **Check** NOASSERTION · Tool · Fit 3/5	Desktop app for managing X.509 certificates, keys and certificate authorities. *Replaces:* Venafi TLS Protect, Keyfactor, Portecle	IT admins and security teams running private PKI	Consulting/implementation Setup + support retainer Training/courses	• Private PKI for IoT device fleets • Certificate setup for small law firms • Internal CA rollout for mid-size manufacturers	Free desktop app; $200-500 PKI setup engagements *Effort:* Medium (Qt desktop app, rebranding requires rebuilds) ⚠ NOASSERTION license; read it before shipping binaries
X509-certificate-exporter enix/x509-certificate-exporter ★ 964 · **Permissive** MIT · Tool · Fit 3/5	Prometheus exporter that tracks X.509 certificate expiry in Kubernetes and standalone. *Replaces:* Datadog SSL monitoring, Venafi, Keyfactor	Kubernetes platform teams monitoring cert expiry	Managed hosting Setup + support retainer	• Cert expiry monitoring for hospital IT • Kubernetes TLS monitoring for fintech • Certificate alerting for managed WordPress hosts	$15-40/node/mo managed monitoring, free OSS *Effort:* Medium (Go exporter, needs dashboards and packaging) ⚠ MIT; requires Prometheus and Kubernetes ops expertise to sell
Aws-workload-credentials-provider aws/aws-workload-credentials-provider ★ 707 · **Permissive** Apache-2.0 · Tool · Fit 3/5	AWS client-side agent that standardizes how workloads fetch service credentials. *Replaces:* HashiCorp Vault agent, CyberArk Conjur, Doppler	Platform teams running AWS compute workloads	Consulting/implementation Agency service Setup + support retainer	• Credential rollout for regulated healthcare AWS shops • Secrets migration for legacy .NET workloads • EKS credential standardization for SaaS teams	$5k-20k migration project, support retainer *Effort:* High (AWS-only, tied to AWS services) ⚠ Apache-2.0; AWS trademarks, cannot position as AWS product
Traefik-certs-dumper ldez/traefik-certs-dumper ★ 638 · **Check** NOASSERTION · Tool · Fit 3/5	Extracts ACME certificates stored by Traefik into standard certificate files. *Replaces:* Traefik Enterprise, custom export scripts	DevOps teams running Traefik on Docker or Kubernetes	Setup + support retainer Consulting/implementation	• Traefik cert export for legacy Windows IIS • Certificate handoff for appliance vendors • Traefik migration help for Docker-based MSPs	$10-30 per cluster/mo support, free tool *Effort:* Low (Small CLI, low branding surface) ⚠ NOASSERTION license; check before reuse; Traefik is a trademark
DCA Evalle/DCA ★ 1.4k · **Permissive** Apache-2.0 · Content · Fit 2/5	Exam preparation guide for the Docker Certified Associate certification. *Replaces:* Docker official training, Linux Academy Docker course, Udemy	DevOps engineers preparing for Docker certification	Training/courses Content/membership	• DCA exam cohorts for corporate IT teams • Docker certification prep for bootcamp grads • DCA study groups for Spanish-speaking DevOps engineers	Free guide; $99 cohort course seats *Effort:* Low (Guide content, easy to rewrite and rebrand) ⚠ Apache-2.0 fine; Docker is a trademark, cite exam source

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Devcert davewasmer/devcert ★ 1.3k · Check NONE · Library · Fit 2/5	Node library and CLI that creates locally trusted HTTPS certificates for development. *Replaces:* mkcert, manual OpenSSL setups	Node.js teams needing local HTTPS	Consulting/implementation Setup + support retainer	• Local HTTPS templates for Node bootcamps • Dev HTTPS for Electron app teams • HTTPS dev setup for agency Node teams	Free library; $75/hr setup consulting *Effort:* Medium (Library, needs wrapping into product) ⚠ NONE license; read first before forking or shipping
Ghcertified v-fidelusaleksander/ghcertified ★ 994 · GPL GPL-3.0 · Content · Fit 2/5	Study materials and practice content for GitHub certification exams. *Replaces:* Udemy, Coursera GitHub courses	Developers pursuing GitHub Foundations or Actions certifications	Training/courses Content/membership	• GitHub Foundations prep for career changers • Actions certification drills for DevOps teams • Copilot exam prep for university students	$19-39 one-time question bank *Effort:* Low (Content-heavy; rewrite questions for brand) ⚠ GPL-3.0: distributed apps must ship source; GitHub is a trademark
Acme-client kelunik/acme-client ★ 396 · Permissive MIT · Library · Fit 2/5	PHP library and CLI for Let's Encrypt ACME certificate issuance. *Replaces:* Certbot, acme.sh	PHP developers adding automatic TLS to apps	Consulting/implementation Setup + support retainer	• Automatic TLS for PHP shared hosts • ACME add-on for WordPress agencies • Cert automation for Laravel SaaS platforms	Free library; $500-2k integration projects *Effort:* Medium (Library; needs packaging into a product) ⚠ MIT; Let's Encrypt is a trademark; check maintenance activity
Getaltname franccesco/getaltname ★ 391 · Permissive MIT · Tool · Fit 2/5	Tool that extracts subdomains from SSL certificates of HTTPS sites. *Replaces:* Censys, crt.sh, SecurityTrails	Pentesters and security researchers mapping domains	Agency service Consulting/implementation Premium plugins/add-ons	• Subdomain discovery for bug bounty hunters • Attack-surface reports for SMB insurers • External asset mapping for startups' security audits	Free CLI; $99/mo for scheduled scans *Effort:* Low (Small CLI, little to rebrand) ⚠ MIT; scanning third-party domains needs authorization and ethics care
Mkchain trimstray/mkchain ★ 383 · GPL GPL-3.0 · Tool · Fit 2/5	Command-line tool for building a valid SSL certificate chain. *Replaces:* SSL Labs checks, manual OpenSSL workflows	Sysadmins fixing broken TLS chain configs	Setup + support retainer Consulting/implementation	• TLS chain repair for regional web hosts • Cert audits for accounting firms • SSL fix-it service for WordPress agencies	$50-150 per audit, free CLI *Effort:* Low (Shell tool, minimal branding surface) ⚠ GPL-3.0: distributed copies must ship source code

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Netty-socketio mrniko/netty-socketio ★ 7.0k · Permissive Apache-2.0 · Library · Fit 3/5	Java Socket.IO server built on Netty for realtime applications. *Replaces:* Pusher, Ably, PubNub	Java teams building realtime features	Consulting/implementation Setup + support retainer	• Realtime game lobbies for Java studios • Live dashboards for logistics firms • Chat backend for Java-based edtech	Free library; $150/hr integration support *Effort:* High (Library, requires building full product) ⚠ Apache-2.0; verify Socket.IO client protocol compatibility claims
TelegramBots rubenlagus/TelegramBots ★ 5.5k · Permissive MIT · Library · Fit 3/5	Java library for building Telegram bots on the Telegram Bot API. *Replaces:* ManyBots, Chatfuel	Java developers building Telegram chatbots for clients	Agency service Consulting/implementation Setup + support retainer	• Telegram order bots for local restaurants • Support bots for Spanish-speaking SaaS firms • Telegram community moderation bots for esports clubs	$300-1,500 per bot build, hosting extra *Effort:* Medium (Library; needs a product layer on top) ⚠ MIT; Telegram name is a trademark; bot API terms apply
Appium-device-farm AppiumTestDistribution/appium-device-farm ★ 659 · Permissive Apache-2.0 · Platform · Fit 3/5	Appium 2.0 plugin that manages and creates driver sessions across available devices. *Replaces:* BrowserStack App Automate, Sauce Labs, AWS Device Farm	QA teams running mobile test automation at scale	Managed hosting Setup + support retainer Consulting/implementation	• Mobile test farms for fintech QA teams • Device lab hosting for game studios • Appium grid service for telecom testers	$500-3,000/mo managed device farm *Effort:* Medium (Plugin needs infra and ops tooling) ⚠ Apache-2.0; Appium and device-vendor names need trademark care

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Frametell sitor-ai/frametell ★ 482 · AGPL AGPL-3.0 · App · Fit 3/5	AI director agent that turns ideas and source material into explainer videos, local-first. *Replaces:* Synthesia, Pictory, Loom	Educators and product teams making explainer videos	Premium plugins/add-ons Vertical SaaS Agency service	• Explainer videos for university lab courses • Product-tour videos for B2B SaaS teams • Training clips for regional clinics	$29-99/mo per seat, free local tier *Effort:* Medium (Branding and templates need rework) ⚠ AGPL-3.0: hosted modifications must publish source; model licenses vary
Tsugi tsugiproject/tsugi ★ 377 · Permissive Apache-2.0 · Platform · Fit 3/5	Admin and developer console for the Tsugi LTI learning-tool framework. *Replaces:* Moodle LTI hosting, Canvas LTI tools, Blackboard Learn integrations	LMS integrators and edtech tool developers	Managed hosting Setup + support retainer Consulting/implementation	• LTI tool hosting for community colleges • Moodle plugin support for K-12 districts • Canvas integrations for coding bootcamps	$200-800/mo managed hosting per institution *Effort:* Medium (LTI-centric; needs LMS setup and branding) ⚠ Apache-2.0 fine; LTI certification and LMS vendor terms apply
Bitpoll fsinfuhh/Bitpoll ★ 319 · GPL GPL-3.0 · App · Fit 3/5	Web app for scheduling meetings and running general polls. *Replaces:* Doodle, When2meet, Rallly	Clubs, student groups and teams scheduling meetings	Managed hosting Vertical SaaS White-label reseller	• Scheduling for university student unions • Team availability polls for small law firms • Shift-polling for volunteer fire departments	$3-8/mo per team, free tier *Effort:* Low (Polling app, branding is straightforward) ⚠ GPL-3.0: hosting is fine, distributed copies must ship source
Pytogether SJRiz/pytogether ★ 262 · Permissive MIT · Platform · Fit 3/5	Browser-based collaborative Python IDE with real-time editing, live drawing and voice chat. *Replaces:* Replit, CoderPad, Google Colab	Coding teachers and remote pair-programming teams	Managed hosting Vertical SaaS Training/courses	• Pair-programming labs for coding bootcamps • Live Python tutoring rooms for K-12 schools • Remote interview coding rooms for recruiters	$8-20/seat/mo, free for 2 users *Effort:* High (Realtime infra, code sandboxing, voice chat) ⚠ MIT; running user code needs strong sandboxing and abuse controls
Knowledge-graph learning-commons-org/knowledge-graph ★ 168 · Check NOASSERTION · Platform · Fit 3/5	Data layer of trusted instructional content and research for educational AI tools. *Replaces:* Pearson, McGraw Hill content APIs	Edtech companies building AI tutoring products	API/usage-based Consulting/implementation Vertical SaaS	• Standards-aligned content API for K-12 AI tutors • Research-backed lesson data for teacher-training apps • Instructional content feed for corporate LMS vendors	Usage-based API, free tier, enterprise contracts *Effort:* High (Content licensing and data integration needed) ⚠ NOASSERTION license; content licensing and attribution rules vary
Primus primus/primus ★ 4.5k · Permissive MIT · Library · Fit 2/5	Node.js abstraction layer over WebSocket libraries to avoid lock-in. *Replaces:* Pusher, Ably, PubNub	Node.js teams building realtime web features	Consulting/implementation Setup + support retainer	• Realtime dashboards for Node-based fintech • Live collaboration for document SaaS • Multiplayer features for browser game studios	Free library; $120/hr integration consulting *Effort:* High (Library; no end-user UI to rebrand) ⚠ MIT; verify current maintenance before depending on it
Blur-AutoClicker Blur009/Blur-AutoClicker ★ 2.1k · GPL GPL-3.0 · Tool · Fit 2/5	Windows auto-clicker with advanced features and claimed better performance than rivals. *Replaces:* GS Auto Clicker, Murgee, OP Auto Clicker	Gamers and QA testers on Windows	Premium plugins/add-ons Setup + support retainer	• Repetitive desktop task automation for small offices • Scripted UI testing for Windows QA teams • Click automation for accessibility-focused users	Free core, $5-10 one-time pro license *Effort:* Medium (Windows app, signing and rebrand effort) ⚠ GPL-3.0 must ship source; game ToS may ban auto-clicking
Watcher radovskyb/watcher ★ 1.5k · Permissive BSD-3-Clause · Library · Fit 2/5	Go package that watches files and directories for changes without filesystem events. *Replaces:* fsnotify-based tooling, Watchman	Go developers building file-watch tools	Consulting/implementation Setup + support retainer	• Build-watch tooling for Go agencies • Config-reload daemons for industrial IoT • Log-watch agents for small Linux hosts	Free library; $100-300 integration help *Effort:* High (Library; you must build the product) ⚠ BSD-3-Clause; polling-based, not for high-frequency workloads

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AutoClicker oriash93/AutoClicker ★ 526 · **Permissive** MIT · Tool · Fit 2/5	Simple mouse auto-clicker tool for repetitive click automation. *Replaces:* GS Auto Clicker, Murgee	Casual users needing repetitive click automation	Premium plugins/add-ons Mobile app on top	• Click automation for seniors with repetitive tasks • Data-entry click macros for small offices • Test-click scripts for kiosk QA teams	Free; $5 one-time pro version *Effort:* Low (Simple tool, low rebrand effort) ⚠ MIT; auto-clickers may breach game and app terms
Telegram bot4s/telegram ★ 432 · **Permissive** Apache-2.0 · Library · Fit 2/5	Scala wrapper for the Telegram Bot API for building bots in Scala. *Replaces:* ManyBots, Chatfuel	Scala developers building Telegram bots	Consulting/implementation Agency service	• Telegram ops bots for Scala-based fintech • Order bots for Polish restaurant chains • Support bots for Scala SaaS vendors	Free library; $150/hr bot integration *Effort:* High (Library; Scala niche, product layer needed) ⚠ Apache-2.0; Telegram name is a trademark; API terms apply

ClassIsland ClassIsland/ClassIsland ★ 2.9k · GPL GPL-3.0 · App · Fit 3/5	Customizable cross-platform app showing timetables on classroom multimedia screens. *Replaces:* Smart-board timetable widgets, Classting display, Samsung Smart Signage tools	Chinese schools and class teachers with classroom screens	Vertical SaaS Premium plugins/add-ons Setup + support retainer	• Timetable displays for Chinese primary schools • Class-schedule screens for after-school centers • Digital signage plugins for university teaching rooms	Free app; ¥30-80/yr per school support *Effort:* Medium (Display app; Chinese UI and setup) ⚠ GPL-3.0; distributed builds must ship source; school data rules apply
Greenlight bigbluebutton/greenlight ★ 850 · Weak copyleft LGPL-3.0 · App · Fit 3/5	Simple end-user web interface for running a BigBlueButton video conferencing server. *Replaces:* Zoom, Google Meet, Microsoft Teams	Schools and organizations hosting BigBlueButton	Managed hosting Setup + support retainer Vertical SaaS	• Hosted virtual classrooms for K-12 districts • Member webinars for nonprofit associations • Online tutoring rooms for language schools	$80-250/mo managed server, per-room tiers *Effort:* Medium (UI on BBB server; branding and auth) ⚠ LGPL-3.0; BigBlueButton is a trademark; hosting data privacy rules apply
Bbb-install bigbluebutton/bbb-install ★ 663 · Weak copyleft LGPL-3.0 · Tool · Fit 3/5	Bash script that installs a BigBlueButton video conferencing server in about 30 minutes. *Replaces:* Manual BBB installs, managed BBB hosting	Sysadmins and edtech teams hosting BBB	Setup + support retainer Managed hosting Consulting/implementation	• BBB installs for regional colleges • Video-room setup for corporate training teams • Quick virtual-classroom servers for nonprofit tutoring networks	Free script; $300-800 per server setup *Effort:* Low (Install script; little branding surface) ⚠ LGPL-3.0; BigBlueButton is a trademark; server ops need security care
Classroom50 foundation50/classroom50 ★ 231 · GPL GPL-3.0 · App · Fit 3/5	Free open-source GitHub Classroom alternative for managing student code assignments. *Replaces:* GitHub Classroom, GradeScope code grading	CS instructors running coding assignments	Managed hosting Vertical SaaS Setup + support retainer	• Code assignment hosting for coding bootcamps • Git-based grading for university CS departments • Assignment repos for high-school CS teachers	$3-8/student/yr managed hosting *Effort:* Medium (GitHub ties; auth and grading work) ⚠ GPL-3.0; GitHub is a trademark; school data and student code privacy apply
Popcode popcodeorg/popcode ★ 190 · Permissive MIT · App · Fit 3/5	Browser-based HTML, CSS and JavaScript code editor built for classrooms. *Replaces:* Replit, CodePen Classroom	Teachers running web-development lessons	Vertical SaaS Training/courses Setup + support retainer	• Web-dev lessons for middle-school teachers • HTML and CSS intro for vocational schools • JavaScript practice for coding clubs	Free editor; $3-8/student/yr classroom tier *Effort:* Medium (Classroom editor; accounts and branding) ⚠ MIT; Code.org-origin project; drop its branding before reuse
Ansible-role-bigbluebutton ebbba-org/ansible-role-bigbluebutton ★ 142 · Permissive MIT · Tool · Fit 3/5	Ansible role for automating BigBlueButton server deployment and configuration. *Replaces:* Manual BBB installs, managed BBB hosting	DevOps teams deploying BBB with Ansible	Setup + support retainer Consulting/implementation Managed hosting	• Ansible-built BBB for university IT • Repeatable BBB servers for training companies • BBB fleet deployments for regional school districts	Free role; $200-600 per deployment setup *Effort:* Low (Ansible role; little branding surface) ⚠ MIT; BigBlueButton is a trademark; server security needs ongoing care
Classmoji classmoji/classmoji ★ 87 · AGPL AGPL-3.0 · Platform · Fit 3/5	Open-source Git-native toolkit for CS education, built by educators and students. *Replaces:* GitHub Classroom, Replit Classrooms	CS educators running Git-based courses	Managed hosting Setup + support retainer Vertical SaaS	• Git-based assignment platform for CS professors • Coding-course infrastructure for coding bootcamps • Student repo management for high-school CS programs	Free OSS; $2-5/student/yr managed hosting *Effort:* Medium (Course platform; GitHub integration, auth) ⚠ AGPL-3.0 publishes hosted changes; GitHub is a trademark; student data rules
Miniob oceanbase/miniob ★ 4.4k · Check MulanPSL-2.0 · Platform · Fit 2/5	Compact teaching database that shows how core database internals work.	Database course instructors and student developers	Training/courses Consulting/implementation	• Database internals course for CS seniors • Storage-engine workshop for junior DB engineers • Teaching project for distributed-systems courses	Free database; $80-150 course seats *Effort:* Medium (Teaching database; course build needed) ⚠ MulanPSL-2.0 license: read terms; OceanBase is a trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Bigbluebutton-api-php bigbluebutton/bigbluebutton-api-php ★ 192 · **Weak copyleft** LGPL-3.0 · Library · Fit 2/5	Official PHP API client for BigBlueButton servers.	PHP developers adding BigBlueButton rooms	Consulting/implementation Setup + support retainer	• Video-room booking for PHP event platforms • Webinar integration for WordPress membership sites • Tutoring-room hooks for Laravel edtech apps	Free library; $150-300/hr integration help *Effort:* Medium (API client; product layer needed) ⚠ LGPL-3.0; BigBlueButton is a trademark; keep API version in sync
Bigbluebutton-exporter greenstatic/bigbluebutton-exporter ★ 171 · **Permissive** MIT · Tool · Fit 2/5	Prometheus exporter that monitors BigBlueButton servers. *Replaces:* Datadog BBB checks, Grafana custom dashboards	Ops teams running BigBlueButton at scale	Setup + support retainer Managed hosting	• BBB monitoring for managed video hosts • Uptime dashboards for district IT • Alerting for corporate training video rooms	Free exporter; $100-250/mo monitoring setup *Effort:* Low (Small exporter; little branding surface) ⚠ MIT; BigBlueButton is a trademark; monitors need server access
Bigbluebutton joisarjignesh/bigbluebutton ★ 161 · **Permissive** MIT · Library · Fit 2/5	Laravel package connecting a BigBlueButton server to Laravel applications.	Laravel developers adding video rooms	Consulting/implementation Setup + support retainer	• Video rooms for Laravel tutoring platforms • BBB sessions for Laravel membership sites • Webinars for Laravel HR training tools	Free package; $200-500 per Laravel integration *Effort:* Medium (Package; BBB server and app work) ⚠ MIT; BigBlueButton is a trademark; keep BBB API version compatible
Bbb-video-download tilmanmoser/bbb-video-download ★ 128 · **Permissive** MIT · Tool · Fit 2/5	Postscript that adds video downloads to BigBlueButton recordings. *Replaces:* BigBlueButton built-in recordings, Panopto exports	Schools and universities keeping class recordings	Setup + support retainer Premium plugins/add-ons	• Lecture archive downloads for university IT • Recording export for online tutoring firms • Training-video retention for corporate L&D teams	Free tool; $150-400 per archive setup *Effort:* Low (Small postscript; little branding surface) ⚠ MIT; BigBlueButton is a trademark; recording privacy and consent rules apply
Kelaskita zuramai/kelaskita ★ 107 · **Permissive** MIT · App · Fit 2/5	Classroom-management website built with Laravel 9. *Replaces:* Google Classroom, ClassDojo, Canvas	Teachers and schools running class admin	Vertical SaaS Managed hosting Setup + support retainer	• Class admin for small private schools • Attendance and grades for tutoring centers • Homework portals for after-school programs	$3-8/mo per class, free tier *Effort:* Medium (Laravel app; features and theming work) ⚠ MIT; Laravel is a trademark; student data privacy rules apply
ClassCue lu0973-cb02d/ClassCue ★ 102 · **Permissive** MIT · App · Fit 2/5	Local-first Android class assistant with timetable reminders, offline lecture transcription and replay search. *Replaces:* Otter.ai, Notta, Notability	University students recording lectures	Mobile app on top Premium plugins/add-ons Content/membership	• Offline lecture notes for medical students • Replay search for language-class students • Attendance-aware reminders for vocational students	Free app; ¥15-30/mo for cloud sync *Effort:* Medium (Android app; transcription model tuning) ⚠ MIT; recording lectures may breach school or instructor consent rules

Typing, Memory & Brain Training · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mypy python/mypy ★ 20.7k · **Check** NOASSERTION · Tool · Fit 4/5	Optional static type checker for Python code. *Replaces:* SonarQube Python rules, PyCharm inspections	Python teams enforcing typed codebases	Consulting/implementation Training/courses Setup + support retainer	• Type-checking audits for fintech Python teams • Typed-Python training for data science groups • Migration help for legacy Django codebases	Free tool; $150-300/hr migration help *Effort:* Low (Open-source dev tool; little product surface) ⚠ NOASSERTION; read license; mypy is a project name, avoid confusion
Pyrefly meta/pyrefly ★ 7.2k · **Permissive** MIT · Tool · Fit 4/5	Fast type checker and language server for Python. *Replaces:* PyCharm inspections, SonarQube Python rules	Python teams running IDE type checking and CI	Consulting/implementation Training/courses Setup + support retainer	• Type-checking CI for fintech API teams • Editor typing for data-science notebook teams • Typed-Python migration for legacy Flask codebases	Free tool; $150-300/hr migration help *Effort:* Low (Dev tool; little to rebrand) ⚠ MIT; Meta is a trademark; avoid implying Meta endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
keybr.com aradzie/keybr.com ★ 4.8k · AGPL AGPL-3.0 · App · Fit 4/5	Web app that teaches touch typing and tracks typing speed. *Replaces:* TypingClub, Typing.com, 10fastfingers	Students and office workers learning to type	Vertical SaaS Premium plugins/add-ons Mobile app on top	• Typing training for school districts' computer classes • Data-entry speed training for medical billing staff • Touch-typing courses for Chinese office workers	Free core; $4-8/mo premium lessons *Effort:* Medium (Web app; accounts and branding work) ⚠ AGPL-3.0 publishes hosted changes; keybr is a brand; keep attribution
Basedpyright DetachHead/basedpyright ★ 3.6k · Check NOASSERTION · Tool · Fit 3/5	Pyright fork with extra type-checking rules and improved VS Code support. *Replaces:* PyCharm type inspections, SonarQube Python rules	Python teams wanting stricter type checks	Consulting/implementation Training/courses Setup + support retainer	• Strict-mode rollouts for regulated banking codebases • Type-check CI for ML platform engineers • Typed-Python onboarding for junior dev teams	Free tool; $150-300/hr rollout help *Effort:* Low (Dev tool; little product surface) ⚠ NOASSERTION; read license; Pyright and Pylance are Microsoft-origin names
Typed-ffmpeg lucemia/typed-ffmpeg ★ 1.2k · Permissive MIT · Library · Fit 3/5	Type-safe FFmpeg bindings for Python and TypeScript covering filters and docs. *Replaces:* fluent-ffmpeg, ffmpeg-python	Developers building video pipelines in Python or TypeScript	Consulting/implementation Setup + support retainer API/usage-based	• Video filter pipelines for podcast hosting • Typed transcoding jobs for e-learning platforms • FFmpeg graphs for social-video SaaS tools	Free library; $150-300/hr pipeline integration *Effort:* High (Library; product layer needed) ⚠ MIT; FFmpeg is LGPL/GPL with codec patent risks; check build options
Deal life4/deal ★ 920 · Permissive MIT · Library · Fit 3/5	Python design-by-contract library with decorators, static analysis and tests. *Replaces:* SonarQube, CodeScene	Python teams wanting contracts in code	Consulting/implementation Training/courses	• Contract checks for payment-processing Python code • Input validation layers for insurance quoting APIs • Contract-tested data pipelines for research labs	Free library; $120-250/hr code audit *Effort:* High (Library; no end-user product) ⚠ MIT; keep copyright notice; niche tool, adoption may be limited
Readme-typing-svg DenverCoder1/readme-typing-svg ★ 9.5k · Permissive MIT · Tool · Fit 2/5	Generates customizable animated typing-effect SVG banners for profiles and READMEs. *Replaces:* Shields.io dynamic badges, Capsule Render banners	Developers and creators styling GitHub profiles	Premium plugins/add-ons Agency service Setup + support retainer	• Animated banners for indie-hacker portfolios • Typing headers for bootcamp student profiles • Animated bios for freelance designer sites	Free public service; $5/mo custom branding *Effort:* Low (Hosted SVG service; simple to rebrand) ⚠ MIT; GitHub is a trademark; hosted service needs uptime and abuse controls
Smassh kraanzu/smassh ★ 2.1k · GPL GPL-3.0 · App · Fit 2/5	Terminal-based typing trainer for measuring and improving keyboard speed. *Replaces:* Monkeytype, Typing.com	Developers and terminal users practicing typing	Premium plugins/add-ons Content/membership	• Typing drills for terminal-first developers • Keyboard speed tests for esports players • Typing practice for remote call-center hires	Free app; $3-5 one-time theme pack *Effort:* Low (TUI app; minimal branding surface) ⚠ GPL-3.0; distributed binaries must ship source; little commercial moat
Jaxtyping patrick-kidger/jaxtyping ★ 1.9k · Check NOASSERTION · Library · Fit 2/5	Python library that checks array shapes and dtypes at runtime using type annotations.	ML engineers writing typed array code	Consulting/implementation Training/courses	• Shape checks for ML model teams • Array-contract testing for scientific computing labs • Typed tensor interfaces for robotics perception code	Free library; $150-300/hr ML code review *Effort:* High (Library; no end-user product) ⚠ NOASSERTION; read license; depends on JAX, NumPy and PyTorch licenses
Ttyper max-niederman/ttyper ★ 1.6k · Permissive MIT · App · Fit 2/5	Terminal-based typing test for measuring typing speed. *Replaces:* Monkeytype, Typing.com	Terminal users practicing typing speed	Premium plugins/add-ons Content/membership	• Typing tests for terminal-first engineers • Keyboard practice for competitive typists • Typing warm-ups for coding bootcamp students	Free app; $3 one-time theme pack *Effort:* Low (Small TUI app; little branding) ⚠ MIT; small terminal app, verify maintenance before depending on it

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Torchtyping patrick-kidger/torchtyping ★ 1.5k · **Permissive** Apache-2.0 · Library · Fit 2/5	Type annotations and runtime checks for tensor shape, dtype and named dimensions.	PyTorch engineers documenting tensor shapes	Consulting/implementation Training/courses	• Tensor shape audits for speech-AI teams • Named-dimension checks for medical-imaging labs • Shape contracts for PyTorch tutorial courses	Free library; $120-250/hr ML code review *Effort:* High (Library; no product surface) ⚠ Apache-2.0; check current maintenance and alternatives like jaxtyping
Typioca bloznelis/typioca ★ 948 · **Permissive** MIT · App · Fit 2/5	Terminal typing speed tester with a relaxed interface. *Replaces:* Monkeytype, Typing.com	Terminal users practicing typing speed	Premium plugins/add-ons Content/membership	• Typing warm-ups for remote developers • Typing practice for transcription students • Keyboard drills for legal typists	Free app; $2-4 one-time theme pack *Effort:* Low (Small TUI app; little branding) ⚠ MIT; small terminal project, no commercial moat, keep attribution
Tt lemnos/tt ★ 927 · **Permissive** MIT · App · Fit 2/5	Terminal-based typing test app. *Replaces:* Typing.com, Keybr	Developers who type in the terminal	Premium plugins/add-ons Content/membership	• Terminal typing tests for junior developers • Typing drills for shell-script trainers • Keyboard practice for accessibility trainers	Free app; $2-4 one-time pro lessons *Effort:* Low (Small TUI app; minimal product) ⚠ MIT; tiny terminal project; verify it still builds on current systems

University & Campus Systems · 4

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Opendraft federicodeponte/opendraft ★ 527 · **Permissive** MIT · App · Fit 3/5	Open-source agent system that writes research papers with citations checked against Crossref, OpenAlex and Semantic Scholar. *Replaces:* Elicit, Consensus, Writefull	Researchers and grad students drafting papers	Vertical SaaS API/usage-based Premium plugins/add-ons	• Citation-checked literature reviews for nursing researchers • Grant-proposal drafts for small biotech labs • Verified background sections for policy think tanks	$20-60/mo per researcher, usage-based API *Effort:* Medium (Agent pipeline; model and API setup) ⚠ MIT; LLM outputs need human review; academic integrity policies apply
OpenEducationAnalytics OpenEducationAnalytics/OpenEducationAnalytics ★ 274 · **Permissive** CC-BY-4.0 · Platform · Fit 3/5	Open-source education analytics solutions built on Azure. *Replaces:* Power BI education templates, Tableau education dashboards, Illuminate Education	School districts and education data teams	Consulting/implementation Managed hosting Setup + support retainer	• Attendance analytics for rural school districts • Early-warning dashboards for community colleges • Benchmark reporting for charter school networks	Free solution; $10k-40k Azure deployment setup *Effort:* Medium (Azure-specific; district data integration) ⚠ CC-BY-4.0 requires attribution; student data privacy rules (FERPA) apply
Kaobook fmarotta/kaobook ★ 1.1k · **Check** LPPL-1.3c · Library · Fit 2/5	LaTeX class for books, reports and theses with Tufte-style layouts. *Replaces:* Word thesis templates, Overleaf paid templates	Authors and grad students typesetting LaTeX books	Consulting/implementation Setup + support retainer	• Book templates for self-publishing academics • Thesis layouts for art-school graduates • Report templates for consultancies	Free class; $100-300 custom template *Effort:* Medium (LaTeX class; template and font work) ⚠ LPPL-1.3c; base projects carry their own licenses; check upstream terms
SUSTechapplication SUSTech-Application/SUSTechapplication ★ 399 · **Permissive** MIT · Content · Fit 2/5	Mirror repository for SUSTech's Leap student handbook. *Replaces:* Paid university guide books	Incoming SUSTech students and parents	Content/membership Training/courses	• Orientation guides for incoming Chinese freshmen • Campus handbook for transfer students • Study-abroad guides for SUSTech applicants	Free handbook; ¥30-60 printed guide *Effort:* High (University-owned content; official branding) ⚠ MIT; SUSTech is a university name; content is institution-owned

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Deepagents langchain-ai/deepagents ★ 31.1k · **Permissive** MIT · Framework · Fit 4/5	Batteries-included agent harness for building LLM-based agents. *Replaces:* Custom agent scaffolding, agent platform SaaS	Engineering teams building production AI agents	Consulting/implementation Training/courses Setup + support retainer	• Agent harness setup for insurance claims teams • Support-agent builds for SaaS help desks • Research-agent tooling for consulting firms	Free framework; $5k-25k agent build projects *Effort:* Medium (Framework; needs product and model work) ⚠ MIT; LangChain is a trademark; model provider API terms apply
PocketFlow The-Pocket/PocketFlow ★ 11.3k · **Permissive** MIT · Framework · Fit 4/5	Minimal 100-line LLM framework for building agent workflows. *Replaces:* LangGraph, CrewAI	Python developers wanting a small agent framework	Consulting/implementation Training/courses Setup + support retainer	• Agent workflows for small accounting firms • Lightweight LLM pipelines for indie SaaS • Teaching agent design for university AI courses	Free framework; $3-8k custom agent builds *Effort:* Medium (Small framework; product layer needed) ⚠ MIT; 100-line claims are marketing; verify production readiness
Llama-cookbook meta-llama/llama-cookbook ★ 18.6k · **Permissive** MIT · Content · Fit 3/5	Recipes and guides for building with Llama models: inference, fine-tuning, RAG and cloud providers. *Replaces:* Paid Llama bootcamps, vendor onboarding courses	Developers adopting Llama models	Training/courses Consulting/implementation Agency service	• Llama fine-tuning workshops for legal-tech teams • RAG setup for regional bank knowledge bases • Llama deployment training for hospital IT teams	Free cookbook; $2-5k per fine-tune project *Effort:* Medium (Recipes; product and model terms) ⚠ MIT for code; Llama model licenses are separate, check acceptable use
Openui thesysdev/openui ★ 14.9k · **Permissive** MIT · Framework · Fit 3/5	Open standard for generative UI that lets AI produce interface components. *Replaces:* v0 by Vercel, Bolt generation tools	Frontend teams building AI-driven interfaces	Consulting/implementation Setup + support retainer Agency service	• Generative dashboards for B2B analytics startups • AI form builders for insurance intake teams • Chat-driven UI for customer support tools	Free standard; $8-15k integration projects *Effort:* High (Standard and SDK; product built on top) ⚠ MIT; standard still young; check spec stability before committing
Eino cloudwego/eino ★ 13.6k · **Permissive** Apache-2.0 · Framework · Fit 3/5	Go framework for developing LLM and AI applications. *Replaces:* LangChain for Python teams, custom Go LLM glue code	Go backend teams adding LLM features	Consulting/implementation Training/courses Setup + support retainer	• LLM features for Go fintech backends • AI chat backends for Go e-commerce platforms • Agent services for Go logistics teams	Free framework; $150-250/hr Go AI integration *Effort:* High (Framework; Go-only; product built on top) ⚠ Apache-2.0; CloudWeGo and ByteDance names; check trademark use
Langchaingo tmc/langchaingo ★ 9.8k · **Permissive** MIT · Library · Fit 3/5	LangChain-style Go library for writing LLM-based programs. *Replaces:* LangChain for Python and JS teams, custom LLM glue code	Go developers building LLM-based programs	Consulting/implementation Training/courses Setup + support retainer	• LLM document Q&A for Go-based legal tools • Chatbot backends for Go e-commerce shops • LLM report generation for Go analytics teams	Free library; $150-250/hr Go AI integration *Effort:* High (Library; Go-only; product layer needed) ⚠ MIT; LangChain is a trademark; keep attribution to LangChain project
GPTCache zilliztech/GPTCache ★ 8.2k · **Permissive** MIT · Library · Fit 3/5	Semantic cache for LLM apps, integrated with LangChain and llama_index. *Replaces:* Helicone caching, Portkey cache, Redis LLM caching	LLM app teams cutting API costs	API/usage-based Consulting/implementation Setup + support retainer	• Cache layer for customer-support chatbots • FAQ answer caching for healthcare portals • Cost control for legal-research assistants	Free library; $1-5k per cost-optimization project *Effort:* High (Infra library; no end-user product) ⚠ MIT; cached LLM answers may leak private data; design privacy controls

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Swarms kyegomez/swarms ★ 7.4k · **Permissive** Apache-2.0 · Framework · Fit 3/5	Multi-agent orchestration framework for running teams of AI agents. *Replaces:* CrewAI Enterprise, Microsoft AutoGen Studio	Enterprises building multi-agent workflows	Consulting/implementation Setup + support retainer Training/courses	• Claims-processing agent teams for insurers • Multi-agent QA teams for software consultancies • Agent workflows for logistics dispatch teams	Free framework; $10-30k enterprise agent setup *Effort:* High (Framework; enterprise setup is heavy) ⚠ Apache-2.0; enterprise claims need verification; LLM provider terms apply
Agentops AgentOps-AI/agentops ★ 5.9k · **Permissive** MIT · Library · Fit 3/5	Python SDK for monitoring AI agents, tracking LLM costs and benchmarking agent runs. *Replaces:* LangSmith, Helicone, Arize Phoenix	AI teams running agents in production	Vertical SaaS Managed hosting API/usage-based	• Agent cost tracking for customer-support bot vendors • Monitoring for legal-research agent firms • Benchmarks for AI consultancies' client projects	$49-499/mo per team, free tier *Effort:* High (Observability backend; hosting and integrations) ⚠ MIT; integrations with third-party LLM and agent frameworks have own terms
TaskingAI TaskingAI/TaskingAI ★ 5.4k · **Permissive** Apache-2.0 · Platform · Fit 3/5	Open-source platform for developing AI-native applications. *Replaces:* Dify, Flowise, Azure AI Studio	Product teams building AI-native apps	Managed hosting Vertical SaaS API/usage-based	• Support-chatbot builders for regional telecoms • Document-review apps for accounting firms • Internal knowledge assistants for HR teams	Free self-host; $99-499/mo managed cloud *Effort:* High (Platform; infra and model integrations) ⚠ Apache-2.0; Azure and Vertex are trademarks; model-provider terms apply
Llm-graph-builder neo4j-labs/llm-graph-builder ★ 5.3k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Converts unstructured documents into Neo4j knowledge graphs using LLM extraction. *Replaces:* Diffbot knowledge graph, Ontotext GraphDB pipelines	Enterprises turning documents into graph databases	Consulting/implementation Setup + support retainer Managed hosting	• Contract knowledge graphs for law firms • Regulatory document graphs for pharma compliance • Policy graphs for municipal governments	Free tool; $8-20k per graph build project *Effort:* Medium (Neo4j-tied; LLM pipeline and costs) ⚠ Apache-2.0; Neo4j is a trademark; document data privacy and LLM costs
All-agentic-architectures FareedKhan-dev/all-agentic-architectures ★ 4.7k · **Permissive** MIT · Library · Fit 3/5	35 agentic AI architectures in a Python library and runnable textbook. *Replaces:* Agent framework courses, LangGraph starter kits	AI engineers comparing agent designs	Training/courses Consulting/implementation Content/membership	• Agent-design workshops for enterprise AI teams • Agent architecture courses for ML bootcamps • Benchmark reviews for AI vendor evaluations	Free library; $2-5k architecture workshop *Effort:* Medium (Library and textbook; product layer needed) ⚠ MIT; benchmark claims need independent verification
Switch sandbox-quantum/switch ★ 4.2k · **Check** NOASSERTION · Platform · Fit 3/5	Self-hosted open-source AI teammates for Slack, Teams, Discord, Telegram and Mattermost. *Replaces:* Slack AI, Microsoft Copilot in Teams, Intercom Fin	Teams wanting AI helpers in chat tools	Vertical SaaS Managed hosting Setup + support retainer	• Slack AI helpdesk for mid-size IT teams • Chat-based sales assistants for regional SaaS vendors • Discord community helpers for esports organizations	$15-40/seat/mo managed, free self-host *Effort:* Medium (Multi-platform chat bots; model and key setup) ⚠ NOASSERTION; read license; Slack, Discord and Teams are trademarks
LazyLLM LazyAGI/LazyLLM ★ 3.9k · **Permissive** Apache-2.0 · Framework · Fit 3/5	Framework for building multi-agent LLM applications with minimal code. *Replaces:* LangChain agent modules, CrewAI	Python developers building multi-agent LLM apps	Consulting/implementation Training/courses Setup + support retainer	• Multi-agent helpdesks for telecom operators • Agent workflows for legal intake teams • LLM pipelines for Chinese e-commerce ops teams	Free framework; $5-15k agent build projects *Effort:* High (Framework; product built on top) ⚠ Apache-2.0; marketing claims need proof; LLM provider terms apply
FireRed-OpenStoryline FireRedTeam/FireRed-OpenStoryline ★ 3.6k · **Permissive** Apache-2.0 · App · Fit 3/5	AI video-editing agent that turns natural-language direction into edited video. *Replaces:* Descript, Runway, CapCut	Marketing teams and creators editing video	Vertical SaaS Premium plugins/add-ons Agency service	• Product-demo videos for B2B SaaS teams • Course video edits for online instructors • Event recap videos for local event agencies	$19-59/mo per seat, free local tier *Effort:* Medium (Video pipeline; model keys and branding) ⚠ Apache-2.0; footage and music rights are user's; model and tool API costs

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mobile-use minitap-ai/mobile-use ★ 3.4k · **Permissive** Apache-2.0 · Tool · Fit 3/5	AI agents that operate real Android and iOS apps on a device. *Replaces:* Appium-based QA bots, UiPath mobile automation	QA teams and mobile automation vendors	Consulting/implementation Setup + support retainer Managed hosting	• Mobile QA agents for banking app teams • Automated app testing for retail app vendors • Mobile RPA for field-service firms	$500-2,500/mo per test-device pool *Effort:* High (Device control; mobile QA infra work) ⚠ Apache-2.0; app-store terms restrict automation; Android and iOS are trademarks
Rag-web-ui rag-web-ui/rag-web-ui ★ 3.3k · **Permissive** Apache-2.0 · App · Fit 3/5	Dialogue system answering questions over your own documents using RAG. *Replaces:* ChatPDF, Mem, NotebookLM	Teams wanting chat over company documents	Vertical SaaS Managed hosting Setup + support retainer	• Chat over law-firm contracts • Chat over clinic policy manuals • Chat over HOA and property documents	$10-30/mo per team, free self-host *Effort:* Medium (Web UI; multi-tenant, auth and branding) ⚠ Apache-2.0; document confidentiality and LLM provider data terms apply
Pezzo pezzolabs/pezzo ★ 3.3k · **Permissive** Apache-2.0 · Platform · Fit 3/5	Open-source LLMOps platform for prompt design, versioning, delivery and observability. *Replaces:* PromptLayer, Humanloop, LangSmith	AI product teams managing prompts in production	Managed hosting Vertical SaaS API/usage-based	• Prompt versioning for insurance chatbot teams • Prompt delivery for multilingual support bots • Observability for regulated fintech AI features	$29-199/mo per team, free self-host *Effort:* High (Multi-service LLMOps stack; heavier ops) ⚠ Apache-2.0; check name conflicts; LLM provider terms apply
Agents-course huggingface/agents-course ★ 34.6k · **Permissive** Apache-2.0 · Content · Fit 2/5	Free course on building AI agents, hosted by Hugging Face. *Replaces:* DeepLearning.AI short courses, Udemy AI agent courses	Developers learning to build AI agents	Training/courses Content/membership Consulting/implementation	• Agent course for Spanish-speaking ML engineers • AI agent bootcamp for software teams • Agent workshops for enterprise support teams	Free course; $200-600 per team workshop *Effort:* Medium (Brand-tied course content; rewrite needed) ⚠ Apache-2.0; Hugging Face is a trademark; course content rights differ
LangChain-Chinese-Getting-Started-Guide liaokongVFX/LangChain-Chinese-Getting-Started-Guide ★ 9.1k · **Check** NONE · Content · Fit 2/5	Chinese-language beginner tutorial for the LangChain framework. *Replaces:* LangChain paid courses, Udemy LangChain courses	Chinese developers learning LangChain	Training/courses Content/membership Consulting/implementation	• LangChain course for Chinese backend engineers • RAG workshop for Chinese enterprise IT teams • LLM app training for Chinese bootcamp grads	Free tutorial; ¥99-299 cohort course *Effort:* Medium (Tutorial tied to LangChain versions) ⚠ NONE license: read first; LangChain is a trademark; tutorial may be outdated
Decepticon BitterSecurity/Decepticon ★ 6.6k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Autonomous hacking agent for red-team security testing. *Replaces:* Pentera, Horizon3.ai NodeZero, Cobalt	Red teams with authorized penetration-testing contracts	Managed hosting Setup + support retainer Consulting/implementation	• Authorized red-team agents for regional banks • Autonomous pen tests for SaaS startups' audits • Attack-path testing for hospital IT teams	$500-3,000/mo per team, authorized use only *Effort:* High (Security tool; safeguards and auth checks) ⚠ Apache-2.0; dual-use: unauthorized testing is illegal; need usage controls
Agentic-rag-for-dummies GiovanniPasq/agentic-rag-for-dummies ★ 4.3k · **Permissive** MIT · Starter · Fit 2/5	Modular agentic RAG starter built on LangGraph for learning. *Replaces:* LangChain RAG courses, LlamaIndex tutorials	Developers learning RAG agents	Training/courses Consulting/implementation Content/membership	• Document-search agents for accounting firms • RAG training for junior ML engineers • Internal help-desk bots for mid-size HR teams	Free starter; $1-3k per RAG bot build *Effort:* Medium (Starter code; product and data work) ⚠ MIT; LangGraph and LangChain are trademarks; LLM API costs apply
Codeinterpreter-api shroominic/codeinterpreter-api ★ 3.8k · **Permissive** MIT · Library · Fit 2/5	Open-source implementation of the ChatGPT Code Interpreter feature. *Replaces:* ChatGPT Code Interpreter, Julius AI, E2B sandboxes	Teams building data-analysis chatbots	Consulting/implementation Setup + support retainer API/usage-based	• Spreadsheet analysis bots for small accounting firms • Data chat tools for regional retailers • Chart-generating assistants for university research labs	Free library; $3-8k per analytics bot build *Effort:* High (Library; sandboxing and product layer) ⚠ MIT; ChatGPT and OpenAI are trademarks; sandboxed code execution is risky

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ask-Anything OpenGVLab/Ask-Anything ★ 3.4k · **Permissive** MIT · Tool · Fit 2/5	Chat tool adding video understanding to several language models. *Replaces:* Twelve Labs video Q&A, Google Gemini video mode	Researchers testing video-chat models	Consulting/implementation Training/courses API/usage-based	• Video Q&A for lecture archives at universities • Surveillance-clip summaries for security integrators • Product-video search for e-commerce catalogs	Free tool; $2-5k integration projects *Effort:* High (Research demo; model-specific; GPU needs) ⚠ MIT; check each underlying model license before commercial use
LangChain-ChatGLM-Webui X-D-Lab/LangChain-ChatGLM-Webui ★ 3.3k · **Permissive** Apache-2.0 · App · Fit 2/5	Chinese-language web app answering questions over local knowledge bases with ChatGLM and LangChain. *Replaces:* Dify knowledge bases, Azure AI Search Q&A	Chinese enterprises with internal document stores	Setup + support retainer Consulting/implementation Managed hosting	• Internal policy Q&A for Chinese SMEs • Local knowledge bot for Chinese hospital admin • Manual Q&A for Chinese property management firms	Free self-host; ¥10-30k per private deployment *Effort:* Medium (Local model deployment; Chinese UI work) ⚠ Apache-2.0; ChatGLM model licenses have commercial-use conditions; check

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Fastapi fastapi/fastapi ★ 104.5k · **Permissive** MIT · Framework · Fit 4/5	Python web framework for building APIs with type hints and auto docs. *Replaces:* Apigee developer tooling, Kong Gateway	Python teams building production APIs	Consulting/implementation Training/courses Agency service	• API backends for Python fintech startups • Internal APIs for regional logistics firms • FastAPI training for Python bootcamps	Free framework; $150-250/hr API build help *Effort:* High (Framework; product built on top) ⚠ MIT; FastAPI name is used widely; avoid implying endorsement
Api-platform api-platform/api-platform ★ 9.2k · **Permissive** MIT · Framework · Fit 4/5	Framework for creating REST and GraphQL APIs, plus Jamstack web app scaffolds. *Replaces:* Apigee, Hasura, Strapi	PHP and API teams shipping headless backends	Managed hosting Consulting/implementation Setup + support retainer	• Headless CMS backends for agency clients • GraphQL APIs for Symfony-based SaaS • REST APIs for regional retail chains	Free framework; $3-8k API platform setup *Effort:* Medium (Symfony-based; needs product work) ⚠ MIT; Symfony and PHP names carry trademark terms; check component licenses
Hey-api hey-api/hey-api ★ 5.6k · **Permissive** MIT · Tool · Fit 4/5	Turns API specifications into SDKs, validators and mocks through 20+ plugins. *Replaces:* Speakeasy, Stainless, APIMatic	TypeScript teams generating SDKs from OpenAPI	Consulting/implementation Setup + support retainer Training/courses	• SDK generation for payments platform partners • Typed mocks for healthcare app teams • Validator layers for logistics API vendors	Free tool; $5-15k SDK pipeline setup *Effort:* Low (CLI and plugins; low branding surface) ⚠ MIT; marketing usage claims unverified; OpenAPI is a Linux Foundation spec
Grpc-gateway grpc-ecosystem/grpc-gateway ★ 20.0k · **Permissive** BSD-3-Clause · Tool · Fit 3/5	Generator that builds a gRPC-to-JSON proxy following the gRPC HTTP spec. *Replaces:* Envoy gRPC-JSON transcoding, Kong gRPC gateway	Go and gRPC teams exposing JSON APIs	Consulting/implementation Setup + support retainer Training/courses	• JSON gateways for Go payment services • gRPC-to-REST bridges for logistics APIs • Public APIs for Go-based telecom platforms	Free tool; $5-15k API gateway setup *Effort:* Medium (Generator; gateway product and docs) ⚠ BSD-3-Clause; gRPC and Envoy names are project trademarks
Swagger-codegen swagger-api/swagger-codegen ★ 17.8k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Template-driven generator that builds API docs, clients and server stubs from OpenAPI. *Replaces:* Stoplight code generation, APIMatic SDK generator	API teams generating SDKs and server stubs	Consulting/implementation Setup + support retainer Agency service	• SDK generation for payments API vendors • Server stubs for healthcare integration teams • API client kits for logistics platform integrators	Free tool; $5-15k SDK generation projects *Effort:* Medium (Generator templates; output branding work) ⚠ Apache-2.0; Swagger is a SmartBear trademark; check naming

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Swag swaggo/swag ★ 13.0k · **Permissive** MIT · Tool · Fit 3/5	Generates Swagger 2.0 API documentation for Go web services from code comments. *Replaces:* Stoplight docs, Readme.io API docs	Go backend teams documenting REST APIs	Consulting/implementation Setup + support retainer Training/courses	• API docs for Go payment processors • Swagger docs for Go school-admin APIs • Documentation for Go fintech partner APIs	Free tool; $2-5k docs setup per API *Effort:* Low (CLI; annotations; minimal product surface) ⚠ MIT; Swagger is a SmartBear trademark; keep annotation docs in sync
Django-ninja vitalik/django-ninja ★ 9.2k · **Permissive** MIT · Framework · Fit 3/5	Async-ready Python framework for building APIs with type hints and OpenAPI docs. *Replaces:* Django REST Framework, Apigee developer tooling	Django teams building async JSON APIs	Consulting/implementation Training/courses Agency service	• API backends for Django SaaS startups • Async APIs for Django telehealth platforms • Django API rebuilds for regional banks	Free framework; $150-250/hr Django API work *Effort:* High (Framework; product built on top) ⚠ MIT; Django is a trademark of the Django Software Foundation
Oapi-codegen oapi-codegen/oapi-codegen ★ 8.7k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Generates Go client and server code from OpenAPI 3 specifications. *Replaces:* OpenAPI Generator paid tooling, Speakeasy SDK generation	Go teams generating API clients and servers	Consulting/implementation Setup + support retainer Training/courses	• Typed Go clients for payments partners • Go server stubs for healthcare integrations • API scaffolds for logistics platform teams	Free tool; $3-8k per API codegen setup *Effort:* Medium (Generator; needs packaging and docs) ⚠ Apache-2.0; OpenAPI is a Linux Foundation specification; check naming
RuoYi yangzongzhuan/RuoYi ★ 8.6k · **Permissive** MIT · App · Fit 3/5	Spring Boot permission-management admin system with a clean UI and few dependencies. *Replaces:* Ant Design Pro admin kits, Vben Admin, Jeecg-Boot	Chinese developers building internal admin systems	Setup + support retainer Consulting/implementation Premium plugins/add-ons	• Admin backends for Chinese SME ERP projects • Permission portals for Chinese schools • Internal tools for Chinese property management firms	Free core; ¥5-20k per custom admin build *Effort:* Low (Admin template; easy to rebrand) ⚠ MIT; RuoYi is a project name; Shiro and Spring licenses apply
Litestar litestar-org/litestar ★ 8.5k · **Permissive** MIT · Framework · Fit 3/5	Light, flexible ASGI web framework for building APIs in Python. *Replaces:* Django REST Framework, Flask-RESTX	Python teams building async APIs	Consulting/implementation Training/courses Agency service	• Async APIs for Python fintech startups • Backend APIs for IoT telemetry vendors • Python API rebuilds for regional logistics firms	Free framework; $150-250/hr API build help *Effort:* High (Framework; product built on top) ⚠ MIT; Litestar is a project name; check trademark and naming
Openapi-typescript openapi-ts/openapi-typescript ★ 8.4k · **Permissive** MIT · Tool · Fit 3/5	Generates TypeScript types from OpenAPI 3 specifications. *Replaces:* Swagger Codegen TS templates, Speakeasy TypeScript SDKs	TypeScript teams consuming REST APIs	Consulting/implementation Setup + support retainer Training/courses	• Typed API clients for fintech web apps • Type-safe SDKs for logistics partner APIs • Frontend type sync for healthcare portals	Free tool; $2-5k frontend API typing setup *Effort:* Low (CLI and types; little branding surface) ⚠ MIT; OpenAPI is a Linux Foundation specification; check naming
NSwag RicoSuter/NSwag ★ 7.4k · **Permissive** MIT · Tool · Fit 3/5	OpenAPI and Swagger toolchain for .NET, ASP.NET Core and TypeScript. *Replaces:* Telerik API tooling, Stoplight Studio	.NET teams generating clients and docs	Consulting/implementation Setup + support retainer Training/courses	• Typed clients for .NET healthcare APIs • Swagger docs for ASP.NET insurance platforms • TypeScript clients for .NET logistics portals	Free toolchain; $3-8k .NET API setup *Effort:* Medium (Dev toolchain; little branding surface) ⚠ MIT; Swagger and OpenAPI names are trademarks; .NET branding applies
Orval orval-labs/orval ★ 6.6k · **Permissive** MIT · Tool · Fit 3/5	Generates TypeScript API clients and type signatures from OpenAPI v3 and Swagger v2 specs. *Replaces:* Swagger Codegen TS, Speakeasy TypeScript SDK	Frontend teams consuming OpenAPI services	Consulting/implementation Setup + support retainer Training/courses	• Typed clients for React e-commerce apps • Generated API hooks for Vue healthcare portals • TypeScript SDKs for logistics APIs	Free tool; $2-6k frontend API setup *Effort:* Low (Dev tool; little branding surface) ⚠ MIT; OpenAPI and Swagger names are trademarks; check generator output terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Goa goadesign/goa ★ 6.1k · **Permissive** MIT · Framework · Fit 3/5	Design-first Go framework that generates API code, docs and clients from one DSL. *Replaces:* Stoplight API design tools, Apigee API design	Go teams building HTTP and gRPC services	Consulting/implementation Training/courses Setup + support retainer	• Design-first APIs for Go fintech startups • gRPC services for Go logistics platforms • Go API scaffolds for enterprise IT teams	Free framework; $5-15k API design setup *Effort:* High (Framework; product built on top) ⚠ MIT; Goa is a project name; check trademark and naming before use
Autorest Azure/autorest ★ 4.8k · **Permissive** MIT · Tool · Fit 3/5	Code generator that builds OpenAPI client SDKs for seven languages. *Replaces:* Speakeasy, Stainless SDK generators	Azure and enterprise SDK teams	Consulting/implementation Setup + support retainer Training/courses	• Multi-language SDKs for payments platforms • Azure-style client libraries for telecom APIs • SDK generation for healthcare data vendors	Free tool; $5-15k SDK generation projects *Effort:* Medium (Generator; output packaging and docs) ⚠ MIT; Azure is a Microsoft trademark; OpenAPI is a Linux Foundation spec
Connexion spec-first/connexion ★ 4.6k · **Permissive** Apache-2.0 · Framework · Fit 3/5	Python web framework for spec-first APIs built from OpenAPI definitions. *Replaces:* Stoplight-led API design workflows, Apigee design-first tooling	Python teams doing design-first APIs	Consulting/implementation Training/courses Agency service	• Spec-first APIs for Python insurance platforms • OpenAPI backends for regional hospital networks • Design-first APIs for logistics startups	Free framework; $5-12k design-first API builds *Effort:* High (Framework; product built on top) ⚠ Apache-2.0; OpenAPI is a Linux Foundation specification; check naming
Knife4j xiaoymin/knife4j ★ 4.6k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Enhanced Swagger and OpenAPI documentation UI for Java Spring projects. *Replaces:* Swagger UI stock, Apifox docs, ReDoc hosted	Chinese Java teams documenting Spring APIs	Setup + support retainer Consulting/implementation Premium plugins/add-ons	• API doc portals for Java SaaS vendors • Swagger UI upgrades for Java hospital systems • Doc portals for Chinese school ERP APIs	Free library; ¥3-10k per docs portal setup *Effort:* Medium (Java UI add-on; Chinese docs, branding) ⚠ Apache-2.0; Swagger and OpenAPI names are trademarks; check UI branding
MagicOnion Cysharp/MagicOnion ★ 4.5k · **Permissive** MIT · Framework · Fit 3/5	Unified realtime and API framework for .NET and Unity. *Replaces:* SignalR, Photon Realtime, Mirror Networking	Unity and .NET game studios needing realtime APIs	Consulting/implementation Setup + support retainer Managed hosting	• Multiplayer lobbies for Unity indie studios • Realtime training sims for .NET industrial teams • Live scoreboards for mobile esports apps	Free framework; $5-15k multiplayer backend setup *Effort:* High (Framework; game backend infra needed) ⚠ MIT; Unity is a trademark of Unity Technologies; Unity licensing applies
Mitmproxy2swagger alufers/mitmproxy2swagger ★ 9.7k · **Check** NONE · Tool · Fit 2/5	Tool that generates OpenAPI specs from mitmproxy captured traffic. *Replaces:* Postman capture, Akita, Optic API recorder	API testers documenting undocumented services	Consulting/implementation Setup + support retainer	• Spec recovery for legacy banking APIs • API docs for mobile-app vendors • Vendor API audits for procurement teams	Free tool; $2-5k per API reverse-engineering job *Effort:* Low (Small CLI; little branding surface) ⚠ NONE license: read first; reverse-engineering APIs may breach terms
Swagger-editor swagger-api/swagger-editor ★ 9.5k · **Check** NONE · Tool · Fit 2/5	Browser editor for writing and previewing Swagger and OpenAPI specs. *Replaces:* Stoplight Studio, Postman API builder	API designers writing OpenAPI specs	Premium plugins/add-ons Setup + support retainer Consulting/implementation	• Spec editing for fintech partner APIs • Design tool for healthcare API vendors • OpenAPI editing for logistics platform teams	Free editor; $30-80/seat/mo hosted version *Effort:* Medium (Web editor; branding and hosting work) ⚠ NONE license: read first; Swagger is a SmartBear trademark
Swagger-core swagger-api/swagger-core ★ 7.5k · **Permissive** Apache-2.0 · Library · Fit 2/5	Server integrations and examples for generating Swagger API specifications. *Replaces:* SmartBear Swagger Hub, manual API spec writing	Java and JVM teams documenting REST APIs	Consulting/implementation Setup + support retainer	• Spec generation for Java banking APIs • OpenAPI docs for Spring-based SaaS • Swagger integration for JVM logistics platforms	Free library; $2-5k per API doc setup *Effort:* High (Library; server integration focus) ⚠ Apache-2.0; Swagger is a SmartBear trademark; examples may be outdated

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Springfox springfox/springfox ★ 5.9k · **Permissive** Apache-2.0 · Library · Fit 2/5	Java library that auto-generates JSON API documentation for Spring-built APIs. *Replaces:* SmartBear API documentation, Stoplight Docs	Spring teams documenting REST APIs	Consulting/implementation Setup + support retainer	• API docs for Spring insurance backends • Swagger UI setup for Spring hospital systems • Doc generation for Spring-based logistics APIs	Free library; $1-3k per documentation setup *Effort:* High (Library; product built on top) ⚠ Apache-2.0; verify maintenance and Spring Boot 3 compatibility first
Blog.Core anjoy8/Blog.Core ★ 5.3k · **Permissive** Apache-2.0 · App · Fit 2/5	ASP.NET Core 8 tutorial project with a backend API for Vue front-ends. *Replaces:* Udemy .NET courses, Pluralsight ASP.NET	Chinese .NET developers learning backend APIs	Training/courses Content/membership Consulting/implementation	• ASP.NET Core course for Chinese bootcamp grads • Backend API workshop for Vue teams • .NET 8 upskilling for Chinese enterprise IT	Free tutorial; ¥199-499 course bundles *Effort:* Medium (Tutorial code; Chinese content rewrite) ⚠ Apache-2.0; .NET and Vue are trademarks; tutorial text may be copyrighted
Loopback-next loopbackio/loopback-next ★ 5.1k · **Check** NOASSERTION · Framework · Fit 2/5	Node.js and TypeScript framework for building API apps with complex integrations. *Replaces:* MuleSoft, Strongloop Arc, Apigee	Node.js teams integrating enterprise data sources	Consulting/implementation Setup + support retainer Training/courses	• API layers for Node insurance back offices • Connector APIs for logistics ERPs • Data gateway services for regional hospital systems	Free framework; $5-15k integration projects *Effort:* High (Framework; product built on top) ⚠ NOASSERTION; read license; LoopBack is a project name, check trademarks
Openapi-directory APIs-guru/openapi-directory ★ 4.6k · **Permissive** CC0-1.0 · Content · Fit 2/5	Community directory of OpenAPI definitions for public REST APIs. *Replaces:* RapidAPI directory, ProgrammableWeb	API integrators and developers researching APIs	Content/membership Consulting/implementation Premium plugins/add-ons	• Curated API catalogs for fintech integration teams • API spec packs for consultancies • Public-API catalog for government data teams	Free directory; $500-2k/yr curated catalog feed *Effort:* Low (Data directory; licenses vary per API) ⚠ CC0-1.0 fine for directory; each listed API's own terms apply

Analytics & Event Tracking SDKs · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AlphaPose MVIG-SJTU/AlphaPose ★ 8.6k · **Check** NOASSERTION · Tool · Fit 3/5	Real-time multi-person full-body pose estimation and tracking system. *Replaces:* Azure Kinect Body Tracking, Vicon motion capture, Move.ai	Sports labs and motion-analysis startups	Consulting/implementation Setup + support retainer API/usage-based	• Gait analysis for physiotherapy clinics • Athlete form tracking for coaching academies • Motion capture for animation indie studios	Free system; $5-15k motion analysis integration *Effort:* High (Research system; GPU and model work) ⚠ NOASSERTION; read license; body-tracking data raises biometric privacy issues
Speedtest-tracker alexjustesen/speedtest-tracker ★ 6.1k · **Permissive** MIT · App · Fit 3/5	Self-hosted app that monitors internet connection speed and uptime. *Replaces:* Ookla Speedtest Intelligence, ThousandEyes, Pingdom	IT admins and home-lab users tracking connections	Managed hosting Setup + support retainer Vertical SaaS	• Connection monitoring for remote-work teams • Uptime tracking for rural clinics • Speed-SLA reports for small ISPs' business customers	$5-15/mo per site, free self-host *Effort:* Medium (App; multi-site features and branding) ⚠ MIT; Speedtest is an Ookla trademark; check Ookla's terms for automation
Mmtracking open-mmlab/mmtracking ★ 3.9k · **Permissive** Apache-2.0 · Library · Fit 3/5	OpenMMLab toolbox for video object detection, multi-object tracking and segmentation. *Replaces:* Roboflow video pipelines, Amazon Rekognition video	Video analytics teams and computer-vision labs	Consulting/implementation Training/courses Setup + support retainer	• Traffic counting for city transport agencies • Livestock tracking for dairy farms • Player-tracking analytics for amateur sports leagues	Free toolbox; $8-20k video analytics projects *Effort:* High (Toolbox; model training and product) ⚠ Apache-2.0; OpenMMLab model weights may carry dataset licenses; check each

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Privacybadger EFForg/privacybadger ★ 3.9k · Check NOASSERTION · App · Fit 3/5	Browser extension that automatically learns and blocks hidden third-party trackers. *Replaces:* Ghostery, DuckDuckGo Privacy Essentials	Privacy-conscious browser users and NGOs	Premium plugins/add-ons Consulting/implementation	• Tracker blocking for small law firms' browsers • Privacy setup for nonprofit staff laptops • Privacy hardening for regional newsroom teams	Free extension; $5-10 per seat for managed policies *Effort:* Medium (Extension; EFF brand and store review) ⚠ NOASSERTION; read license; Privacy Badger is an EFF brand
Block EnergizedProtection/block ★ 2.8k · Permissive MIT · Tool · Fit 3/5	Community DNS blocklists that block ads, trackers and malware domains. *Replaces:* NextDNS, AdGuard DNS, Pi-hole paid support	Home users and small offices filtering DNS	Managed hosting Vertical SaaS Setup + support retainer	• DNS filtering for small dental offices • Ad-free DNS for family ISPs • Tracker blocking for small nonprofit offices	Free lists; $3-6/mo managed DNS filtering *Effort:* Medium (Blocklist brand; DNS hosting infra) ⚠ MIT; upstream blocklist sources have own licenses; verify each
Betterfox yokoffing/Betterfox ★ 11.0k · Permissive MIT · Tool · Fit 2/5	Firefox user.js configuration for better privacy and security defaults. *Replaces:* Brave browser privacy mode, paid VPN privacy suites	Privacy-minded Firefox users and IT admins	Premium plugins/add-ons Consulting/implementation Setup + support retainer	• Hardened browser setups for journalists • Firefox baselines for small law firms' staff • Browser privacy configs for nonprofit IT teams	Free config; $30-80 managed browser setup *Effort:* Low (Config file; little product surface) ⚠ MIT; Firefox and Mozilla are trademarks; some settings break site features
Pysot STVIR/pysot ★ 4.6k · Permissive Apache-2.0 · Library · Fit 2/5	Research platform for single-object visual tracking with SiamRPN and SiamMask algorithms. *Replaces:* Roboflow tracking tools, vision AI SaaS trackers	Computer vision researchers and video analytics teams	Consulting/implementation Training/courses Setup + support retainer	• Drone-footage tracking for construction firms • Sports player tracking for coaching academies • Retail shopper tracking for store analytics	Free research code; $5-15k tracking integration *Effort:* High (Research code; GPU and model work) ⚠ Apache-2.0; SenseTime and tracking models may carry dataset license limits
Pytracking visionml/pytracking ★ 3.5k · GPL GPL-3.0 · Library · Fit 2/5	Visual tracking library built on PyTorch for research use.	Vision researchers building tracking models	Consulting/implementation Training/courses	• Tracker prototypes for drone-inspection startups • Tracking benchmarks for university vision labs • Object-follow demos for robotics teams	Free library; $5-12k tracker prototype *Effort:* High (Research library; model-specific work) ⚠ GPL-3.0; distributed products must ship source; model weights need checks
Public_activity public-activity/public_activity ★ 3.0k · Permissive MIT · Library · Fit 2/5	Ruby on Rails gem that records model activity feeds, similar to GitHub's activity. *Replaces:* Stream Activity Feeds, Activity Stream services	Rails developers adding activity feeds	Consulting/implementation Setup + support retainer	• Activity feeds for Rails community platforms • Audit trails for Rails clinic booking apps • Change feeds for Rails project-management tools	Free gem; $1-3k per feed integration *Effort:* Medium (Gem; app integration and UI) ⚠ MIT; GitHub is a trademark; gem maintenance activity should be checked
1Hosts badmojr/1Hosts ★ 2.3k · Weak copyleft MPL-2.0 · Tool · Fit 2/5	Advanced DNS blocklists for privacy, security and clean browsing. *Replaces:* NextDNS, Cloudflare for Families	Privacy-focused DNS users and small businesses	Managed hosting Premium plugins/add-ons Setup + support retainer	• Managed DNS blocklists for family-safety ISPs • Malware-blocking lists for small dental offices • Privacy DNS for nonprofit staff networks	Free lists; $4-8/mo managed filtering *Effort:* Medium (DNS list service; hosting and branding) ⚠ MPL-2.0 file-level copyleft; upstream blocklist sources have own licenses
React-tracking nytimes/react-tracking ★ 1.9k · Check NOASSERTION · Library · Fit 2/5	React library for declaring analytics tracking events in components. *Replaces:* Segment React SDK, Google Tag Manager React wrappers	React teams adding product analytics	Consulting/implementation Setup + support retainer	• Event tracking for React fintech apps • Analytics wiring for React media sites • Tracking setup for React e-commerce storefronts	Free library; $1-3k analytics wiring *Effort:* Medium (Library; analytics vendor wiring needed) ⚠ NOASSERTION; read license; NYTimes is a brand, avoid implying affiliation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AB3DMOT xinshuoweng/AB3DMOT ★ 1.9k · Check NOASSERTION · Library · Fit 2/5	Python baseline for 3D multi-object tracking with new evaluation metrics.	Autonomous-driving perception researchers	Consulting/implementation Training/courses	• 3D tracking for autonomous shuttle pilots • Lidar tracking for port logistics yards • Pedestrian tracking for smart-city sensors	Free code; $8-15k perception integration *Effort:* High (Research baseline; lidar pipeline needed) ⚠ NOASSERTION; read license; benchmark datasets have separate terms
HyperLandmark szad670401/HyperLandmark ★ 1.7k · Permissive Apache-2.0 · Library · Fit 2/5	Real-time face landmark detector for mobile devices using deep learning. *Replaces:* Google ML Kit face mesh, Banuba face AR SDK	Mobile developers building face-based features	Consulting/implementation Setup + support retainer Premium plugins/add-ons	• Face filters for beauty apps • Face-landmark checks for mobile KYC onboarding • Eye-tracking UI prototypes for accessibility apps	Free SDK; $5-15k per mobile integration *Effort:* High (Model SDK; mobile ports; face privacy) ⚠ Apache-2.0; face data is biometric; GDPR and BIPA-style consent rules apply

Auth & User Management SDKs · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Next-auth nextauthjs/next-auth ★ 28.4k · Permissive ISC · Library · Fit 4/5	Authentication library for Next.js apps with OAuth and session support. *Replaces:* Auth0, Clerk, Firebase Auth	Next.js teams adding login and OAuth	Consulting/implementation Setup + support retainer Training/courses	• Login setup for Next.js SaaS startups • OAuth integration for Next.js clinic portals • Member logins for Next.js membership sites	Free library; $2-6k auth integration projects *Effort:* Medium (Library; login UX and security review) ⚠ ISC license is permissive; auth is security-critical, audit before shipping
Lucia lucia-auth/lucia ★ 10.4k · Permissive MIT · Library · Fit 3/5	Simple, clean authentication library for managing sessions and users. *Replaces:* Auth0, Supabase Auth	Web developers building custom login systems	Consulting/implementation Setup + support retainer Training/courses	• Custom login for small SaaS founders • Session handling for bootcamp capstone apps • Auth rebuilds for legacy PHP-to-TypeScript shops	Free library; $2-5k auth build projects *Effort:* Medium (Library; security review and UX needed) ⚠ MIT; auth is security-critical; verify current maintenance status first
Jwt golang-jwt/jwt ★ 9.3k · Permissive MIT · Library · Fit 3/5	Go library for creating, parsing and verifying JSON Web Tokens. *Replaces:* Auth0 token tooling, Okta token SDK	Go backend teams issuing and checking tokens	Consulting/implementation Setup + support retainer Training/courses	• Token auth for Go fintech APIs • Session tokens for Go school-portal backends • Signed links for Go e-commerce download services	Free library; $2-5k auth module integration *Effort:* High (Library; key management and reviews) ⚠ MIT; JWT security pitfalls are common; security audit before production
Jetstream laravel/jetstream ★ 4.1k · Permissive MIT · Starter · Fit 3/5	Tailwind CSS scaffolding for Laravel applications with auth screens. *Replaces:* Laravel paid starter kits, Bootstrap admin templates	Laravel teams starting SaaS apps	Consulting/implementation Agency service Premium plugins/add-ons	• SaaS starter kits for Laravel agencies • Login scaffolds for Laravel clinic booking apps • Team-login setup for Laravel HR tools	Free starter; $1-3k per SaaS scaffold build *Effort:* Low (Starter scaffold; Tailwind theming easy) ⚠ MIT; Laravel and Tailwind are trademarks; keep license notices
Bouncer JosephSilber/bouncer ★ 3.6k · Permissive MIT · Library · Fit 3/5	Laravel package for Eloquent-based roles and permission abilities. *Replaces:* Auth0 RBAC, Okta role management	Laravel developers adding role-based access	Consulting/implementation Setup + support retainer Premium plugins/add-ons	• Role permissions for Laravel school portals • Access rules for Laravel clinic staff apps • Permission layers for Laravel legal-case tools	Free package; $1-3k permission-model setup *Effort:* Low (Package; easy to embed in apps) ⚠ MIT; similar permission packages exist; verify maintenance before choosing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Authkit workos/authkit ★ 3.4k · **Permissive** MIT · Library · Fit 3/5	Prebuilt login box UI component powered by WorkOS and Radix. *Replaces:* Auth0 Universal Login, Clerk prebuilt components	React and Next.js teams needing a login UI	Consulting/implementation Setup + support retainer Agency service	• Login screens for SaaS startups using WorkOS • Enterprise SSO login for B2B HR tools • Login UI for Next.js membership sites	Free UI kit; $1-3k login integration setup *Effort:* Medium (WorkOS-dependent; theme and branding) ⚠ MIT; WorkOS and Radix are third-party brands; service fees apply
Breeze laravel/breeze ★ 3.1k · **Permissive** MIT · Starter · Fit 3/5	Minimal Laravel authentication starter kit with Blade, Vue or React and Tailwind. *Replaces:* Laravel Spark, paid Laravel starter kits	Laravel developers starting apps quickly	Consulting/implementation Agency service Setup + support retainer	• Login starter for Laravel agency client apps • Auth base for Laravel tutoring platforms • Simple login for Laravel nonprofit portals	Free starter; $800-2k per app kickoff *Effort:* Low (Starter kit; easy to restyle) ⚠ MIT; Laravel and Tailwind are trademarks; keep license notices
Sanctum laravel/sanctum ★ 3.0k · **Permissive** MIT · Library · Fit 3/5	Lightweight Laravel authentication for SPAs and simple API tokens. *Replaces:* Auth0 SPA auth, Okta API access management	Laravel teams building SPAs and mobile APIs	Consulting/implementation Setup + support retainer Agency service	• API tokens for Laravel mobile apps • SPA logins for Laravel SaaS dashboards • Token auth for Laravel clinic booking APIs	Free package; $1-3k API auth setup *Effort:* Low (Package; embeds in Laravel apps) ⚠ MIT; Laravel is a trademark; token security needs review before launch
Auth supabase/auth ★ 2.6k · **Permissive** MIT · Platform · Fit 3/5	JWT-based user auth API server for signup, login and token issuing. *Replaces:* Auth0, Firebase Auth, Clerk	SaaS teams wanting self-hosted user login	Managed hosting Setup + support retainer	• Self-hosted logins for Brazilian co-ops • auth server for school LMS vendors • managed login for Nigerian fintech apps	$29-149/mo per managed instance *Effort:* Medium (needs Postgres ops and email config) ⚠ MIT; Supabase trademark; GoTrue lineage, verify branding
Foal FoalTS/foal ★ 1.9k · **Permissive** MIT · Framework · Fit 3/5	Full-featured TypeScript Node.js framework with auth, ORM and CLI. *Replaces:* NestJS, Ruby on Rails, Django	Node teams starting internal business backends	Consulting/implementation Training/courses	• TypeScript backends for Latin American agencies • internal tools for accounting firms • API starters for indie game studios	$2k-8k per backend project *Effort:* Medium (framework needs a product built on it) ⚠ MIT permissive; Foal name is not a brand issue
Fosite ory/fosite ★ 2.6k · **Permissive** Apache-2.0 · Library · Fit 2/5	Go library for building OAuth 2.0 and OpenID Connect servers. *Replaces:* Auth0, Okta, Clerk	Go teams building custom identity servers	Consulting/implementation Setup + support retainer	• OAuth server for fintech APIs • OIDC login for Go SaaS • token service for IoT fleets	$5k-15k per integration project *Effort:* Medium (library needs wrapping into an auth server) ⚠ Apache-2.0 permissive; Ory is a known brand, avoid it
Supabase-py supabase/supabase-py ★ 2.6k · **Permissive** MIT · Library · Fit 2/5	Python client for Supabase Postgres, auth, storage and realtime. *Replaces:* Firebase Python SDK, Pusher	Python developers building apps on Postgres backends	Consulting/implementation Agency service	• Supabase setup for Django agencies • Flask backends for clinic queues • FastAPI realtime dashboards for logistics	$1k-4k per integration project *Effort:* Medium (client only, needs a backend around it) ⚠ MIT client; Supabase is a trademark, do not rebrand name
Aws-iam-authenticator kubernetes-sigs/aws-iam-authenticator ★ 2.3k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Authenticates AWS IAM identities to Kubernetes clusters via token exchange. *Replaces:* AWS EKS native auth plugin, Okta K8s login	Platform teams running EKS clusters	Setup + support retainer Consulting/implementation	• EKS access setup for mid-size agencies • IAM mapping for university IT • kubeconfig bootstrap for startups	$300-1200 per cluster setup *Effort:* Low (single-purpose CLI, little to brand) ⚠ Apache-2.0; AWS and Kubernetes trademarks; upstream is archived-prone
Remix-auth sergiodxa/remix-auth ★ 2.2k · **Permissive** MIT · Library · Fit 2/5	Authentication framework for Remix apps with pluggable strategies. *Replaces:* Auth0 Remix SDK, Clerk Remix	Remix developers adding login to web apps	Consulting/implementation Training/courses	• Remix login for Spanish-speaking clinic portals • OAuth wiring for Shopify app shops • passwordless login for gyms	$800-2500 per auth integration *Effort:* Low (library, small surface to package) ⚠ MIT permissive; Remix framework has its own license changes

Background Jobs & Workflow Engines · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Sidekiq sidekiq/sidekiq ★ 13.6k · Check NOASSERTION · Library · Fit 3/5	Ruby background job processor backed by Redis, with a web dashboard. *Replaces:* Delayed Job, Resque, AWS SQS	Rails shops with heavy async workloads	Setup + support retainer Premium plugins/add-ons	• Rails job tuning for Brazilian e-commerce • Sidekiq monitoring for podcast hosts • background jobs for property managers	$99-499/mo support plan *Effort:* Medium (Pro and Enterprise tiers are commercial) ⚠ LGPL core with commercial Pro/Enterprise; read licence and trademark
Hangfire HangfireIO/Hangfire ★ 10.2k · Check NOASSERTION · Library · Fit 3/5	.NET background job library with scheduling and a built-in dashboard. *Replaces:* Quartz.NET, Azure WebJobs, AWS Batch	.NET teams running recurring server jobs	Setup + support retainer Premium plugins/add-ons	• Hangfire dashboards for Polish ERP vendors • nightly jobs for pharmacy chains • job queues for property SaaS	$149-799/mo support or Pro license *Effort:* Medium (commercial Pro tier and dashboard branding) ⚠ LGPL core with paid Pro; "Hangfire" is a trademark
Bullmq taskforcesh/bullmq ★ 9.6k · Permissive MIT · Library · Fit 3/5	Redis or Postgres message queue for Node, Python, .NET and more. *Replaces:* AWS SQS, Temporal, Inngest	Node teams building job pipelines and batch work	Managed hosting Setup + support retainer	• Managed queues for Indonesian marketplaces • batch invoices for accounting SaaS • image pipelines for photo studios	$49-299/mo managed queue plan *Effort:* Medium (needs Redis or Postgres hosting and monitoring) ⚠ MIT permissive; Taskforce is commercial behind Pro dashboards
River riverqueue/river ★ 5.9k · Weak copyleft MPL-2.0 · Library · Fit 3/5	Fast Postgres-backed job queue with clients in several languages. *Replaces:* Sidekiq Pro, AWS SQS, Temporal	Go and Ruby teams already running Postgres	Consulting/implementation Setup + support retainer	• Postgres job queues for Go fintech APIs • background jobs for Rails SaaS • webhook retry pipelines for ecommerce	$1k-4k per setup project *Effort:* Medium (multi-language clients need separate testing) ⚠ MPL-2.0 is file-level copyleft; modifications to River files must be shared
Openworkflow openworkflowdev/openworkflow ★ 1.3k · Permissive Apache-2.0 · Framework · Fit 3/5	TypeScript framework for durable, resumable workflows on Node and Bun. *Replaces:* Temporal, Inngest, AWS Step Functions	TypeScript teams with multi-step business processes	Managed hosting Consulting/implementation	• Durable order workflows for Vietnamese ecommerce • onboarding flows for insurance brokers • invoice chasers for agencies	$99-400/mo managed workers *Effort:* Medium (young project, needs durability testing) ⚠ Apache-2.0 permissive; very new, check maturity before betting
Tork runabol/tork ★ 824 · Permissive MIT · Platform · Fit 3/5	Lightweight distributed workflow engine running tasks as Docker container scripts. *Replaces:* Airflow, GitHub Actions, Argo Workflows	DevOps teams running containerised batch pipelines	Managed hosting Setup + support retainer	• CI-style task runners for Indian data agencies • batch video encoding for studios • compliance scans for SMBs	$150-600/mo managed cluster *Effort:* Medium (needs Docker and cluster ops) ⚠ MIT permissive; young project, verify production readiness
Xstate statelyai/xstate ★ 30.4k · Permissive MIT · Library · Fit 2/5	State machine and statechart library for JavaScript workflows and actors. *Replaces:* Redux Toolkit state, Temporal workflows	Frontend teams with complex UI flows	Consulting/implementation Training/courses	• Booking flow state for dental clinics • checkout state machines for ticketing • onboarding flows for SaaS apps	$1.5k-6k per flow engagement *Effort:* Low (library, no product surface to brand) ⚠ MIT permissive; Stately visual tools are separate commercial products
Asynq hibiken/asynq ★ 13.8k · Permissive MIT · Library · Fit 2/5	Go library for distributed task queues on Redis with scheduling. *Replaces:* AWS SQS, Sidekiq Pro, Celery	Go backends needing reliable async jobs	Consulting/implementation Setup + support retainer	• Job queues for Indian logistics startups • email send pipelines for newsletters • report generation for accounting SaaS	$1k-5k per setup project *Effort:* Medium (needs Redis ops and a monitoring UI) ⚠ MIT permissive; no major trademark concerns
Rq rq/rq ★ 10.7k · Check NOASSERTION · Library · Fit 2/5	Simple Python job queue library built on Redis workers. *Replaces:* Celery, AWS SQS	Python developers running small async workloads	Consulting/implementation Setup + support retainer	• Redis job queues for Python data shops • email queues for Kenyan SaaS • scraping pipelines for market researchers	$800-3000 per queue setup *Effort:* Low (library, little product surface) ⚠ License shows NOASSERTION; check LICENSE file before reuse

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Coravel jamesmh/coravel ★ 4.3k · Permissive MIT · Library · Fit 2/5	.NET library bundling scheduling, queues, caching and event broadcasting. *Replaces:* Hangfire, Quartz.NET	.NET developers adding scheduled tasks to apps	Consulting/implementation Training/courses	• Scheduled tasks for Filipino clinic apps • email digests for .NET SaaS • cache layers for ASP.NET shops	$600-2000 per integration *Effort:* Low (library, easy to drop into apps) ⚠ MIT permissive; no trademark concerns
Django-rq rq/django-rq ★ 2.0k · Permissive MIT · Library · Fit 2/5	Django integration app that connects RQ queues to Django projects. *Replaces:* Celery, Django-Q	Django teams needing simple background jobs	Consulting/implementation Setup + support retainer	• RQ setup for Django clinic portals • job queues for Mexican ecommerce • scheduled reports for property firms	$500-1800 per setup *Effort:* Low (thin Django glue over RQ) ⚠ MIT permissive; RQ upstream is separate project
Resque-scheduler resque/resque-scheduler ★ 1.7k · Permissive MIT · Library · Fit 2/5	Ruby scheduler extension that runs delayed and recurring Resque jobs. *Replaces:* Sidekiq Enterprise cron, Clockwork	Rails teams with legacy Resque setups	Consulting/implementation Setup + support retainer	• Legacy Resque upkeep for Ruby agencies • cron jobs for Australian payroll firms • scheduled emails for gyms	$400-1500 per maintenance engagement *Effort:* Low (small Ruby gem, needs Resque context) ⚠ MIT permissive; Resque stack is aging, plan migration
Pgqueuer janbjorge/pgqueuer ★ 1.5k · Permissive MIT · Library · Fit 2/5	PostgreSQL-backed Python job queue using row locking and notifications. *Replaces:* Celery with RabbitMQ, AWS SQS	Python teams wanting queues without extra brokers	Consulting/implementation Setup + support retainer	• Postgres queues for Python data pipelines • background jobs for Django SaaS • scrapers for research labs	$900-3000 per setup project *Effort:* Low (library, fits existing Postgres stacks) ⚠ MIT permissive; no major brand issues
Node-resque actionhero/node-resque ★ 1.4k · Permissive Apache-2.0 · Library · Fit 2/5	Node.js background job library with Redis-backed workers and scheduler. *Replaces:* Bull, Agenda, AWS Step Functions	Node developers running Redis job workers	Consulting/implementation Setup + support retainer	• Redis workers for Turkish ecommerce backends • image jobs for photo studios • scheduled syncs for SaaS integrators	$700-2500 per setup project *Effort:* Low (library with small API surface) ⚠ Apache-2.0 permissive; Redis ops needed for production
Flutter_workmanager fluttercommunity/flutter_workmanager ★ 1.0k · Check NONE · Library · Fit 2/5	Flutter plugin that runs Dart code in the background on Android and iOS. *Replaces:* Native background services SDKs, OneSignal background tasks	Flutter app developers needing scheduled background work	Consulting/implementation Mobile app on top	• Background sync for Kenyan field-agent apps • upload retries for clinic apps • price alerts for retail apps	$1.2k-4k per app integration *Effort:* Low (plugin with platform-specific caveats) ⚠ No licence declared; read before reuse; iOS limits background time

Browser Extensions & Toolkits · 25

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
UBlock gorhill/uBlock ★ 69.1k · GPL GPL-3.0 · App · Fit 4/5	Ad and tracker blocker extension for Chromium and Firefox browsers. *Replaces:* AdGuard, 1Blocker, Ghostery	Privacy-minded browser users and IT teams	Premium plugins/add-ons White-label reseller	• Filter lists for Dutch clinics • family-safe browser kits for Brazilian schools • ad-free browsers for news readers	Free core; $5-15/yr managed filter list *Effort:* High (extension store policies and filter list licensing) ⚠ GPL-3.0: distributed builds ship source; uBlock Origin is a brand
Daily dailydotdev/daily ★ 20.1k · AGPL AGPL-3.0 · App · Fit 4/5	Personalised developer news feed and community for browsers and mobile. *Replaces:* Feedly, Hacker News apps, Pocket	Developers wanting a curated tech feed	Managed hosting White-label reseller	• Tech news feed for Indian dev bootcamps • industry feed for fintech teams • community feed for game dev studios	$4-9/mo per team feed *Effort:* High (full social stack, heavy backend, brand assets) ⚠ AGPL-3.0: server changes must be published; daily.dev is a brand
Refined-github refined-github/refined-github ★ 32.5k · Permissive MIT · App · Fit 3/5	Browser extension that adds usability features to the GitHub interface. *Replaces:* Octotree, Sourcegraph browser extension	Developers and engineering teams on GitHub	Setup + support retainer Premium plugins/add-ons	• GitHub tweaks for Indian outsourcing teams • repo workflows for Spanish open source maintainers • review helpers for fintech dev shops	$4-8/user/mo team plan *Effort:* Low (theming is light; mostly feature toggles) ⚠ MIT permissive; GitHub is a trademark, avoid the name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nextai-translator nextai-translator/nextai-translator ★ 25.0k · AGPL AGPL-3.0 · App · Fit 3/5	Browser extension and desktop app for ChatGPT-powered selection translation. *Replaces:* DeepL browser extension, Google Translate extension	Multilingual readers and language learners	Premium plugins/add-ons Mobile app on top	• Translation tool for Korean law firms • reading helper for Brazilian students • translator for Polish expat communities	$3-6/mo with API key bundled *Effort:* Medium (depends on OpenAI API keys and quotas) ⚠ AGPL-3.0: server-side changes must be published; ChatGPT name is OpenAI trademark
Automa AutomaApp/automa ★ 21.7k · Check NOASSERTION · App · Fit 3/5	Browser extension for automating web tasks by chaining visual blocks. *Replaces:* UiPath, Zapier browser tasks, Bardeen	Ops staff automating repetitive web forms	Setup + support retainer Premium plugins/add-ons	• Form-filling flows for Indian insurance agents • scraper flows for real estate lists • reporting bots for accounting teams	$19-49/mo per team plan *Effort:* Medium (block library needs domain-specific templates) ⚠ License shows NOASSERTION; check repo before reuse
Voyager voyager-crew/voyager ★ 20.6k · GPL GPL-3.0 · App · Fit 3/5	Browser extension suite enhancing Gemini, Claude, ChatGPT and other AI chats. *Replaces:* PromptPerfect, AIPRM, Chrome prompt managers	Power users of multiple AI chat tools	Premium plugins/add-ons Training/courses	• Prompt libraries for Spanish legal teams • AI prompt packs for copywriters • prompt tooling for dev agencies	$5-12/mo premium prompt packs *Effort:* Medium (depends on AI vendors changing their UIs) ⚠ GPL-3.0; several AI vendor names are trademarks
Clients bitwarden/clients ★ 14.2k · Check NOASSERTION · App · Fit 3/5	Bitwarden web, browser, desktop and CLI password manager clients. *Replaces:* 1Password, LastPass, Dashlane	Companies needing a self-hosted password vault	Managed hosting White-label reseller	• Password vaults for Mexican law firms • team vaults for IT MSPs • secrets for Nigerian fintech teams	$3-8/user/mo managed hosting *Effort:* High (clients need Bitwarden server and brand removal) ⚠ NOASSERTION; Bitwarden is a trademark; some parts are commercially licensed
ChatGPTBox ChatGPTBox-dev/chatGPTBox ★ 10.8k · Permissive MIT · App · Fit 3/5	Browser extension embedding ChatGPT into pages with sidebar and summaries. *Replaces:* Monica, Merlin, Sider	Browser users wanting AI summaries and chat	Premium plugins/add-ons API/usage-based	• Page summarizers for Korean academics • sidebar chat for Italian SEO writers • reading aides for paralegals	$4-8/mo with bundled API credits *Effort:* Medium (relies on OpenAI API and terms) ⚠ MIT permissive; ChatGPT is an OpenAI trademark
Xdm subhra74/xdm ★ 8.3k · GPL GPL-3.0 · App · Fit 3/5	Cross-platform download manager that accelerates and captures video downloads. *Replaces:* IDM, Free Download Manager, JDownloader	Windows and Linux users downloading large files	Premium plugins/add-ons White-label reseller	• Download manager for Nigerian students • media grabber for film archives • sync tool for Brazilian ISPs	$10-20 one-time desktop license *Effort:* Medium (desktop builds per OS and browser extension) ⚠ GPL-3.0: distributed builds must ship source; media download legality varies
Mcp BrowserMCP/mcp ★ 7.3k · Permissive Apache-2.0 · Tool · Fit 3/5	MCP server letting AI apps control the user's own browser tabs. *Replaces:* Browserbase, Playwright MCP hosted services	AI tool builders automating browser tasks	API/usage-based Consulting/implementation	• Browser agents for Argentine accountants • QA automation for fintech teams • scraping helpers for market analysts	$20-80/mo per seat *Effort:* Medium (depends on browser extension and AI host support) ⚠ Apache-2.0 permissive; browser automation can violate site terms
Obsidian-clipper obsidianmd/obsidian-clipper ★ 5.5k · Permissive MIT · App · Fit 3/5	Official Obsidian browser extension that saves web pages into vaults. *Replaces:* Pocket, Readwise Reader, Evernote Web Clipper	Obsidian users capturing web research	Premium plugins/add-ons Training/courses	• Research capture for Swedish law students • clipper setup for knowledge managers • note templates for grant writers	Free; $8-15/mo for sync bundle *Effort:* Medium (tied to Obsidian vault format and app) ⚠ MIT permissive; Obsidian is a trademark, avoid the name
I-Still-Dont-Care-About-Cookies OhMyGuus/I-Still-Dont-Care-About-Cookies ★ 4.3k · GPL GPL-3.0 · App · Fit 3/5	Debloated browser extension that auto-dismisses cookie consent banners. *Replaces:* Consent-O-Matic, Cookie Hub blockers	Privacy-minded browser users	Premium plugins/add-ons White-label reseller	• Cookie banners blocked for German news readers • GDPR helpers for small ecommerce • consent cleanup for Dutch agencies	Free; $3-5/yr per seat for teams *Effort:* Low (theme and rules mostly reusable) ⚠ GPL-3.0: shipped builds must ship source; fork of a known extension

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
JinaClip AhmadHassan-BTed/JinaClip ★ 4.2k · Permissive MIT · App · Fit 3/5	Browser extension converting any webpage into clean Markdown for LLM use. *Replaces:* Jina Reader, Firecrawl, Readability clippers	AI builders preparing web content for models	Premium plugins/add-ons API/usage-based	• Markdown capture for Brazilian legal researchers • content prep for RAG teams • clean notes for PM teams	$5-12/mo per user *Effort:* Low (local-only tool, small UI to rebrand) ⚠ MIT permissive; single-author project, check maintenance
Quasar quasarframework/quasar ★ 27.2k · Permissive MIT · Framework · Fit 2/5	Vue.js UI framework with components, layouts and build tooling. *Replaces:* Vuetify, PrimeVue, Ionic	Vue teams building admin and mobile UIs	Consulting/implementation Training/courses	• Admin panels for Turkish logistics firms • PWA kiosks for restaurants • dashboards for Vietnamese clinics	$2k-8k per UI build *Effort:* Medium (framework, theming needed for white-label) ⚠ MIT permissive; Quasar is a trademark of its maintainers
Plasmo PlasmoHQ/plasmo ★ 13.2k · Permissive MIT · Framework · Fit 2/5	Framework for building browser extensions with React and modern tooling. *Replaces:* WXT, CRXJS, Chrome extension boilerplates	Front-end teams building browser extensions	Consulting/implementation Training/courses	• Extension builds for Thai ecommerce tools • Chrome helpers for recruiters • sidebar tools for SEO agencies	$1.5k-5k per extension build *Effort:* Low (framework, no end-user product) ⚠ MIT permissive; Plasmo is a brand name to avoid
Chatgpt-google-extension wong2/chatgpt-google-extension ★ 13.0k · GPL GPL-3.0 · App · Fit 2/5	Deprecated Chrome extension that shows ChatGPT answers beside Google search. *Replaces:* Perplexity sidebar, Bing Chat sidebar	Researchers wanting AI answers in search	Premium plugins/add-ons Setup + support retainer	• Search helpers for Chilean journalists • AI sidebars for SEO agencies • research aides for patent firms	$3-5/mo per user *Effort:* Medium (deprecated by author, ChatGPT API churn) ⚠ GPL-3.0; project marked deprecated, author moved on
Chathub chathub-dev/chathub ★ 10.7k · GPL GPL-3.0 · App · Fit 2/5	Chrome extension for chatting with several AI models in one place. *Replaces:* Poe, TypingMind, Monica	Users comparing multiple LLM answers	Premium plugins/add-ons API/usage-based	• Multi-model chat for Polish analysts • model comparison for marketing agencies • chat tool for translators	$5-10/mo per user *Effort:* Medium (description empty; purpose inferred from repo name) ⚠ GPL-3.0; empty description, unclear project; trademark concerns
Buster dessant/buster ★ 9.4k · GPL GPL-3.0 · App · Fit 2/5	Browser extension that solves reCAPTCHA audio challenges using speech recognition. *Replaces:* 2Captcha, Anti-Captcha	Accessibility users and QA testers	Premium plugins/add-ons Setup + support retainer	• Accessibility aid for Spanish-speaking blind users • captcha handling tests for QA labs • accessibility toolkit for libraries	Free; $3-5 per donation tier *Effort:* Low (single-purpose extension, small surface) ⚠ GPL-3.0; bypassing captchas can break site terms of service
RSSHub-Radar DIYgod/RSSHub-Radar ★ 7.4k · AGPL AGPL-3.0 · App · Fit 2/5	Browser extension that detects RSS feeds and subscribes via RSSHub. *Replaces:* Feedly, Inoreader browser features	RSS readers and news researchers	Premium plugins/add-ons White-label reseller	• Feed detection for Indian news desks • newsletter feeds for SEO agencies • podcast feeds for media monitors	$2-4/mo per user *Effort:* Low (small extension, relies on RSSHub backend) ⚠ AGPL-3.0: server changes must be published; RSSHub is a separate project
Undiscord victornpb/undiscord ★ 6.7k · Check NOASSERTION · Tool · Fit 2/5	Script to bulk-delete your own Discord messages in servers and DMs. *Replaces:* Discord data cleanup services	Users cleaning old Discord history	Local service business Premium plugins/add-ons	• Message cleanup for Chilean moderators • account tidy-up for privacy teams • history clean-up for community managers	$10-25 per cleanup job *Effort:* Low (small script, single purpose) ⚠ NOASSERTION; violates Discord terms of service for self-botting
Chatgpt-advanced interstellard/chatgpt-advanced ★ 6.4k · Permissive MIT · App · Fit 2/5	Browser extension that adds web search results to ChatGPT prompts. *Replaces:* Perplexity, WebChatGPT-style plugins	Users wanting web-augmented ChatGPT answers	Premium plugins/add-ons API/usage-based	• Web-augmented prompts for Turkish journalists • research aides for consultants • search summaries for teachers	$3-6/mo per user *Effort:* Medium (depends on ChatGPT interface and search APIs) ⚠ MIT permissive; ChatGPT is an OpenAI trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BilibiliSponsorBlock hanydd/BilibiliSponsorBlock ★ 6.3k · GPL GPL-3.0 · App · Fit 2/5	Browser extension that skips sponsored segments in Bilibili videos. *Replaces:* SponsorBlock paid tiers, ad-skip browser tools	Chinese-language video watchers and creators	Premium plugins/add-ons Training/courses	• Ad-skipping for Mandarin language learners • cleaner lectures for Taiwanese schools • creator review tools	Free; $2-4/mo supporter tier *Effort:* Low (single-purpose extension tied to Bilibili) ⚠ GPL-3.0 means shipped builds need source; Bilibili platform terms apply
OctoLinker OctoLinker/OctoLinker ★ 5.4k · Permissive MIT · App · Fit 2/5	Browser extension that links code imports to their files on GitHub. *Replaces:* Sourcegraph browser extension, Octotree	Developers browsing code on GitHub	Premium plugins/add-ons Setup + support retainer	• Import navigation for Polish web agencies • code review helpers for Indian bootcamps • linking for embedded engineers	$2-5/mo per developer *Effort:* Low (small extension, mostly GitHub-specific) ⚠ MIT permissive; GitHub trademark, do not reuse name
extension.js extension-js/extension.js ★ 5.2k · Permissive MIT · Framework · Fit 2/5	Cross-browser extension framework for building Chromium and Firefox add-ons. *Replaces:* Plasmo, WXT, CRXJS	Teams shipping extensions to several browsers	Consulting/implementation Training/courses	• Extension builds for Mexican fintech tools • cross-browser kits for ad agencies • Firefox ports for media publishers	$2k-6k per extension port *Effort:* Low (framework, little end-user branding) ⚠ MIT permissive; check store policies per browser
Darkument AhmadHassan-BTed/Darkument ★ 4.0k · Permissive MIT · App · Fit 2/5	Browser extension applying a dark mode to online documents and pages. *Replaces:* Dark Reader, Midnight Lizard	Readers wanting eye-friendly document views	Premium plugins/add-ons Agency service	• Dark mode for Korean academic readers • reading mode for paralegals • eye-care tool for call-centre staff	$2-4/mo per user *Effort:* Low (single feature, easy to restyle) ⚠ MIT permissive; Dark Reader already dominates this niche

CLI & Terminal Tools · 24

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ohmyzsh ohmyzsh/ohmyzsh ★ 190.3k · Permissive MIT · Tool · Fit 4/5	Community framework managing zsh config with hundreds of plugins and themes. *Replaces:* Oh My Posh, Starship, Warp shell themes	Developers and dev teams standardising shell setups	Setup + support retainer Training/courses	• Shell setups for Indian dev bootcamps • standard terminals for agencies • zsh onboarding for data teams	$100-300 per team setup *Effort:* Low (config framework, little product to rebrand) ⚠ MIT permissive; the name is a community brand
Cli cli/cli ★ 46.9k · Permissive MIT · Tool · Fit 4/5	GitHub's official command-line tool for pull requests, issues and releases. *Replaces:* GitHub web UI workflows, Graphite CLI	Developers and DevOps teams using GitHub	Training/courses Setup + support retainer	• gh training for Indian outsourcing teams • PR workflow setup for fintech dev shops • release scripts for game studios	$150-400 per team workshop *Effort:* Low (official GitHub brand, do not rebrand) ⚠ MIT permissive; GitHub trademark, cannot be rebranded as official
Textual Textualize/textual ★ 37.6k · Permissive MIT · Framework · Fit 4/5	Python framework for building terminal and browser-based user interfaces. *Replaces:* Urwid, PyQt desktop apps, Streamlit internal tools	Python teams building internal admin tools	Consulting/implementation Training/courses	• Internal admin tools for Indian logistics firms • monitoring consoles for ops teams • forms for field clinics	$3k-10k per internal app *Effort:* Medium (framework, needs packaging and support) ⚠ MIT permissive; Textualize brand used for paid Textual Cloud
Nx nrwl/nx ★ 29.5k · Permissive MIT · Framework · Fit 4/5	Monorepo build platform with caching, task graphs and CI speed-ups. *Replaces:* Turborepo, Bazel, Lerna	Frontend and full-stack teams running monorepos	Setup + support retainer Managed hosting	• Monorepo setup for Polish fintech teams • CI speed-up for React agencies • build cache hosting for game studios	$500-3000/mo managed cache *Effort:* Medium (mature platform, enterprise features are paid) ⚠ MIT core; Nx and Nrwl are trademarks; cloud features are paid
Fzf junegunn/fzf ★ 84.1k · Permissive MIT · Tool · Fit 3/5	Command-line fuzzy finder for files, history, and any list input. *Replaces:* Ctrl-R history tools, Telescope pickers	Terminal-heavy developers and sysadmins	Setup + support retainer Training/courses	• fzf setups for DevOps teams in Vietnam • shell onboarding for data analysts • file search for media archives	$200-500 per team setup *Effort:* Low (CLI tool, little to rebrand) ⚠ MIT permissive; fzf is a widely used name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Lazygit jesseduffield/lazygit ★ 83.7k · Permissive MIT · Tool · Fit 3/5	Terminal UI for common git operations, staging, branching and rebasing. *Replaces:* GitKraken, Tower, Sourcetree	Developers preferring keyboard-driven git	Training/courses Setup + support retainer	• Git training for Argentine bootcamps • git workflow setup for agencies • terminal git for sysadmin teams	$100-300 per team setup *Effort:* Low (terminal app, mostly config to brand) ⚠ MIT permissive; no trademark issue beyond project name
Pake tw93/Pake ★ 62.9k · GPL GPL-3.0 · Tool · Fit 3/5	Turns any website into a lightweight desktop app with one command. *Replaces:* Electron app wrappers, Nativefier, Fluid	Small teams wrapping web apps for desktop	Consulting/implementation Setup + support retainer	• Desktop wrappers for Spanish restaurant booking sites • kiosk apps for clinics • web-to-app for SaaS trials	$300-1200 per wrapped app *Effort:* Medium (needs signing, store policies and updates) ⚠ GPL-3.0: distributed apps must ship source; wrapping sites may breach terms
Win11Debloat Raphire/Win11Debloat ★ 62.0k · Permissive MIT · Tool · Fit 3/5	PowerShell script removing Windows bloatware, telemetry and clutter settings. *Replaces:* O&O ShutUp10, Ashampoo WinOptimizer	Windows admins and home users wanting a clean install	Local service business Setup + support retainer	• Clean PC setup for Canadian repair shops • tuning for school computer labs • debloat service for small offices	$40-90 per PC tune-up *Effort:* Low (scripts already configurable; little brand work) ⚠ MIT permissive; system changes can break updates; support risk
Dive wagoodman/dive ★ 54.7k · Permissive MIT · Tool · Fit 3/5	Explorer for inspecting each layer of a Docker image and wasted space. *Replaces:* Docker Desktop image inspection, Snyk Container views	DevOps teams optimising container images	Consulting/implementation Setup + support retainer	• Image size audits for Kenyan SaaS teams • container cleanup for game studios • CI image checks for fintech startups	$800-2500 per container audit *Effort:* Low (CLI, consulting carries the value) ⚠ MIT permissive; Docker is a trademark, avoid implying affiliation
Codewhale codewhale-hq/Codewhale ★ 41.2k · Permissive MIT · Tool · Fit 3/5	Open-source Rust terminal coding agent that works with any model provider. *Replaces:* Claude Code, Cursor CLI, Aider	Developers wanting a model-agnostic coding agent	Premium plugins/add-ons API/usage-based	• Coding agent for Ukrainian dev shops • internal code helpers for legal tech teams • terminal agent for devops	$15-30/mo per seat *Effort:* Medium (agent behaviour needs safety and provider testing) ⚠ MIT permissive; check name clash with existing Whale brands
Zoxide ajeetdsouza/zoxide ★ 40.5k · Permissive MIT · Tool · Fit 3/5	Smarter cd command that learns frequently used directories. *Replaces:* autojump, fasd, z	Developers switching between many project folders	Setup + support retainer Training/courses	• Shell setup for Indian dev teams • project navigation for agency staff • terminal setup kits for bootcamps	$100-200 per team setup *Effort:* Low (small Rust tool, little to brand) ⚠ MIT permissive; no trademark concerns
Maigret soxoj/maigret ★ 39.8k · Permissive MIT · Tool · Fit 3/5	Username OSINT tool that builds person profiles from thousands of sites. *Replaces:* Maltego, Social Links, Skopenow	OSINT investigators and HR screening teams	Consulting/implementation Local service business	• Background checks for Colombian recruiters • OSINT for insurance fraud teams • brand watch for PR agencies	$400-1500 per investigation *Effort:* Medium (personal data use raises legal and GDPR issues) ⚠ MIT permissive; GDPR and stalking laws limit use; high misuse risk
Cli googleworkspace/cli ★ 32.2k · Permissive Apache-2.0 · Tool · Fit 3/5	Command-line tool for Google Workspace services, built from Google's API discovery. *Replaces:* Zapier Google connectors, GAM admin scripts	IT admins and Workspace power users	Consulting/implementation Setup + support retainer	• Workspace admin scripts for Peruvian schools • automation for accounting firms • Drive audits for MSPs	$500-2000 per admin setup *Effort:* Low (CLI, consulting carries most of the value) ⚠ Apache-2.0 permissive; Google trademarks, avoid implying endorsement
Rea morluto/rea ★ 440.0k · Permissive MIT · Tool · Fit 2/5	Agent-driven reverse engineering tool for app behaviour and native binaries. *Replaces:* IDA Pro, Ghidra commercial services, Binary Ninja	Security researchers and malware analysts	Consulting/implementation Setup + support retainer	• Binary triage for Israeli security firms • app audits for fintech teams • firmware analysis for IoT vendors	$500-2000 per audit engagement *Effort:* Medium (agent workflows vary, needs expert review) ⚠ MIT permissive; reverse engineering may breach app licences

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Sherlock sherlock-project/sherlock ★ 99.8k · **Permissive** MIT · Tool · Fit 2/5	CLI that searches for a username across many social networks. *Replaces:* Maltego, Social Searcher, Pipl	OSINT investigators and fraud teams	Consulting/implementation Local service business	• Account checks for Nigerian fraud teams • OSINT for journalists • brand impersonation scans for marketing agencies	$300-1500 per investigation *Effort:* Low (CLI, but legal and ethics review needed) ⚠ MIT permissive; stalking and privacy laws limit use cases
Bat sharkdp/bat ★ 61.2k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Cat clone with syntax highlighting and Git integration for the terminal. *Replaces:* Less pager, GNU cat	Terminal users reading code	Setup + support retainer Training/courses	• Shell setups for Japanese developers • code viewing for technical writers • terminal tooling for sysadmin teams	$100-250 per team setup *Effort:* Low (single utility, nothing to brand) ⚠ Apache-2.0 permissive; utility is widely packaged, no rebrand gain
Obsidian-skills kepano/obsidian-skills ★ 51.0k · **Permissive** MIT · Content · Fit 2/5	Agent skill files teaching AI tools to use Obsidian formats and CLI. *Replaces:* Notion AI skills packs, prompt libraries	Obsidian users building AI workflows	Premium plugins/add-ons Training/courses	• Agent skills for Obsidian consultants • note automation for research teams • canvas tools for course designers	$15-40 per skills pack *Effort:* Low (skill files, easy to repackage) ⚠ MIT permissive; Obsidian is a trademark, rebrand carefully
Zx google/zx ★ 45.8k · **Permissive** Apache-2.0 · Library · Fit 2/5	JavaScript tool for writing shell scripts with Node-based helpers. *Replaces:* Bash scripting, Taskfile, Makefile wrappers	JavaScript developers writing build scripts	Consulting/implementation Training/courses	• Build scripts for Vietnamese agencies • deploy helpers for SaaS startups • script training for QA teams	$600-2000 per scripting project *Effort:* Low (library, consulting carries the value) ⚠ Apache-2.0 permissive; Google name is a trademark
Bubbletea charmbracelet/bubbletea ★ 45.6k · **Permissive** MIT · Framework · Fit 2/5	Go framework for building terminal user interfaces with an Elm-style model. *Replaces:* Ncurses wrappers, Textual	Go developers building terminal tools	Consulting/implementation Training/courses	• Terminal dashboards for Nairobi logistics teams • TUI kiosks for clinics • ops consoles for data centres	$2k-6k per TUI build *Effort:* Low (framework, mostly code to brand) ⚠ MIT permissive; Charm is a brand, avoid implying affiliation
Cobra spf13/cobra ★ 44.8k · **Permissive** Apache-2.0 · Library · Fit 2/5	Go library for building command-line apps with subcommands and flags. *Replaces:* urfave/cli, Kingpin	Go developers building CLI products	Consulting/implementation Setup + support retainer	• Internal CLIs for Brazilian fintechs • ops tools for hosting firms • deploy CLIs for game backends	$1k-4k per CLI project *Effort:* Low (library, used inside products) ⚠ Apache-2.0 permissive; no trademark concern for code use
Ink vadimdemedes/ink ★ 40.2k · **Permissive** MIT · Library · Fit 2/5	React renderer for building interactive command-line apps. *Replaces:* Blessed, Textual, Oclif UIs	React developers building CLI tools	Consulting/implementation Training/courses	• CLI dashboards for German logistics firms • React terminal forms for installers • team CLIs for SaaS ops	$1.5k-5k per CLI build *Effort:* Low (library, used inside products) ⚠ MIT permissive; no trademark issue for library use
Oh-my-pi can1357/oh-my-pi ★ 38.1k · **Permissive** MIT · App · Fit 2/5	Coding agent terminal app with IDE-style tooling wired in. *Replaces:* Cursor, Claude Code, Windsurf	Developers wanting an IDE-like coding agent	Premium plugins/add-ons API/usage-based	• Agent coding for Turkish agencies • code review bots for SaaS teams • refactor helpers for embedded firms	$20-40/mo per seat *Effort:* Medium (agent quality depends on model provider) ⚠ MIT permissive; Stencil Labs brand is attached to the name
MoneyPrinterV2 FujiwaraChoki/MoneyPrinterV2 ★ 32.3k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Script that automates content creation for making money online. *Replaces:* Faceless video services, Canva bulk content tools	Side-hustle creators producing short videos	Premium plugins/add-ons Training/courses	• Faceless video setup for Filipino creators • shorts pipelines for YouTube agencies • course kits for side-hustle coaches	$29-99 per template pack *Effort:* Medium (automation may breach platform and AI terms) ⚠ AGPL-3.0: server changes must be published; get-rich claims risky
Hyperfine sharkdp/hyperfine ★ 29.2k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Command-line benchmarking tool for comparing shell command runtimes. *Replaces:* Manual timing scripts, benchmarking SaaS dashboards	Developers benchmarking command performance	Consulting/implementation Setup + support retainer	• Performance audits for Indonesian ecommerce • CI benchmarks for database vendors • tuning for embedded firms	$500-2000 per benchmark audit *Effort:* Low (CLI tool, consulting-led business) ⚠ Apache-2.0 permissive; no trademark concern

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Django django/django ★ 91.7k · **Permissive** BSD-3-Clause · Framework · Fit 5/5	Python web framework with ORM, admin, auth and templates for complex sites. *Replaces:* Ruby on Rails, Laravel, ASP.NET MVC	Python teams building data-heavy web apps	Consulting/implementation Training/courses	• Admin apps for Kenyan NGOs • SaaS backends for Brazilian agencies • clinic portals for Indian hospitals	$3k-15k per web app build *Effort:* Medium (mature framework, but needs product layer) ⚠ BSD-3-Clause permissive; Django is a trademark of the Django Software Foundation
Mongoose Automattic/mongoose ★ 27.4k · **Permissive** MIT · Library · Fit 4/5	MongoDB object modelling for Node.js with schemas, validation and middleware. *Replaces:* Prisma with Mongo, Realm, Firebase Firestore SDK	Node teams building MongoDB apps	Consulting/implementation Training/courses	• Mongo backends for Indian ecommerce • data models for Argentine SaaS • schema training for agencies	$1.5k-5k per data model project *Effort:* Low (library, consulting value dominates) ⚠ MIT permissive; Automattic and MongoDB trademarks in play
Efcore dotnet/efcore ★ 14.8k · **Permissive** MIT · Library · Fit 4/5	Microsoft's .NET object-relational mapper with LINQ queries, migrations and change tracking. *Replaces:* NHibernate, Dapper, Entity Framework 6	.NET teams building data-heavy apps	Consulting/implementation Training/courses	• EF Core upgrades for Polish banks • data layers for Filipino ERP vendors • migrations for SaaS startups	$2k-8k per data layer project *Effort:* Low (mature library, large existing market) ⚠ MIT permissive; Microsoft and .NET trademarks, do not rebrand
Orm prisma/orm ★ 47.7k · **Permissive** Apache-2.0 · Library · Fit 3/5	TypeScript ORM with type-safe queries, migrations and a schema file. *Replaces:* TypeORM, Drizzle, Sequelize	TypeScript teams building data layers	Managed hosting Consulting/implementation	• Managed Postgres for Mexican ecommerce • data layers for Indian SaaS • typed APIs for logistics firms	$99-400/mo managed data hosting *Effort:* Medium (app integration; hosting ties to Prisma cloud) ⚠ Apache-2.0 permissive; Prisma is a trademark, cloud products are separate
Gorm go-gorm/gorm ★ 40.0k · **Permissive** MIT · Library · Fit 3/5	Developer-friendly Go ORM supporting several SQL databases. *Replaces:* sqlx, Ent, raw SQL query layers	Go backend teams needing an ORM	Consulting/implementation Training/courses	• ORM setup for Nigerian fintech APIs • Go data layers for SaaS startups • training for bootcamp graduates	$1k-4k per backend build *Effort:* Low (library used inside products) ⚠ MIT permissive; no trademark concern
Typeorm typeorm/typeorm ★ 36.7k · **Permissive** MIT · Library · Fit 3/5	TypeScript and JavaScript ORM with decorators and multi-database support. *Replaces:* Prisma, Sequelize, Doctrine	Node teams building TypeScript backends	Consulting/implementation Training/courses	• ORM migrations for Spanish hospital apps • data layers for Vietnamese SaaS • NestJS backend setup for agencies	$1.5k-5k per backend build *Effort:* Low (library, consulting-led) ⚠ MIT permissive; no trademark concern
Drizzle-orm drizzle-team/drizzle-orm ★ 36.2k · **Permissive** Apache-2.0 · Library · Fit 3/5	Lightweight TypeScript SQL ORM focused on typed queries and migrations. *Replaces:* Prisma, Kysely, Sequelize	TypeScript teams wanting SQL-close typing	Consulting/implementation Training/courses	• Typed SQL layers for Korean fintech apps • edge backends for Brazilian SaaS • serverless data for game teams	$1.5k-5k per data layer build *Effort:* Low (library, consulting-led value) ⚠ Apache-2.0 permissive; description is a single word, check docs
Sequelize sequelize/sequelize ★ 30.3k · **Permissive** MIT · Library · Fit 3/5	Node.js ORM supporting PostgreSQL, MySQL, SQLite, MSSQL and more. *Replaces:* TypeORM, Prisma, Knex	Node teams running relational backends	Consulting/implementation Setup + support retainer	• Legacy Node migrations for Indian banks • ORM upkeep for Polish agencies • database setup for SaaS startups	$1k-4k per migration project *Effort:* Low (library, legacy upkeep is common) ⚠ MIT permissive; no trademark concern for library use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Hutool chinabugotech/hutool ★ 30.2k · Check MulanPSL-2.0 · Library · Fit 3/5	Chinese Java utility toolkit covering files, HTTP, crypto and JSON. *Replaces:* Apache Commons, Guava, Lombok utilities	Chinese Java developers building backends	Consulting/implementation Training/courses	• Java utilities for Chinese fintech teams • backend helpers for Vietnamese agencies • Chinese-language training for devs	$800-3000 per backend project *Effort:* Low (library, Chinese docs need translation) ⚠ MulanPSL-2.0 licence; Chinese-language docs; read licence terms
Sqlc sqlc-dev/sqlc ★ 18.4k · Permissive MIT · Tool · Fit 3/5	Generates type-safe Go code from SQL queries and schemas. *Replaces:* Ent, GORM, hand-written query layers	Go teams who prefer plain SQL	Consulting/implementation Training/courses	• SQL-first Go backends for Mexican fintech • query layers for Indian logistics • codegen training for Go teams	$1k-4k per backend project *Effort:* Low (codegen tool, consulting-based value) ⚠ MIT permissive; no trademark concern
Mybatis-plus baomidou/mybatis-plus ★ 17.5k · Permissive Apache-2.0 · Library · Fit 3/5	Enhanced MyBatis toolkit adding CRUD, pagination and code generation for Java. *Replaces:* MyBatis-Flex, JPA Spring Data, Hibernate	Java teams building MyBatis backends	Consulting/implementation Training/courses	• CRUD layers for Chinese ERP vendors • Java backends for Vietnamese SMEs • training for Java bootcamps	$1k-4k per backend project *Effort:* Low (library, Chinese-language docs) ⚠ Apache-2.0 permissive; Chinese-language docs need translation for rebrand
Ent ent/ent ★ 17.2k · Permissive Apache-2.0 · Framework · Fit 3/5	Go entity framework that generates typed schemas, queries and migrations. *Replaces:* GORM, Bun ORM, Prisma	Go teams modelling complex graphs	Consulting/implementation Training/courses	• Entity models for Indian marketplace APIs • graph data for Brazilian social apps • training for Go teams	$1.5k-5k per data model project *Effort:* Low (framework with code generation, consulting-led) ⚠ Apache-2.0 permissive; no trademark concern
Laravel-mongodb mongodb/laravel-mongodb ★ 7.1k · Permissive MIT · Library · Fit 3/5	Eloquent model and query builder driver letting Laravel apps use MongoDB. *Replaces:* Native Mongo PHP drivers, Firebase Firestore PHP	Laravel teams adopting MongoDB	Consulting/implementation Setup + support retainer	• Laravel Mongo backends for Mexican ecommerce • data layers for Chilean SaaS • migration help for PHP agencies	$1k-3k per migration project *Effort:* Low (driver package, consulting-led) ⚠ MIT permissive; MongoDB is a trademark, avoid implying endorsement
JOOQ jOOQ/jOOQ ★ 6.8k · Check NOASSERTION · Library · Fit 3/5	Java library generating type-safe SQL from a database schema. *Replaces:* Hibernate, Spring Data JDBC, MyBatis	Java teams writing SQL-heavy backends	Consulting/implementation Training/courses	• SQL-heavy reporting for Brazilian banks • data layers for Indian insurance APIs • jOOQ training for Java teams	$2k-8k per data layer project *Effort:* Medium (commercial editions for many databases) ⚠ NOASSERTION; open source edition is limited, commercial licence needed
Hibernate-orm hibernate/hibernate-orm ★ 6.5k · Permissive Apache-2.0 · Library · Fit 3/5	Java object-relational mapping framework, the standard JPA implementation. *Replaces:* Spring Data JPA, EclipseLink, MyBatis	Java enterprise teams with relational data	Consulting/implementation Training/courses	• Legacy JPA upgrades for Indian banks • data layers for Mexican ERP vendors • training for Java teams	$3k-12k per migration project *Effort:* Low (mature library, enterprise consulting market) ⚠ LGPL-2.1 licence; Hibernate is a Red Hat trademark
Diesel diesel-rs/diesel ★ 14.2k · Permissive Apache-2.0 · Library · Fit 2/5	Rust ORM and query builder with compile-time checked SQL queries. *Replaces:* SQLx, Hibernate for Rust teams, raw SQL layers	Rust backend teams building database apps	Consulting/implementation Training/courses	• Rust backends for Brazilian fintech APIs • data layers for embedded firms • training for Rust bootcamps	$2k-6k per backend project *Effort:* Low (library used inside products) ⚠ Apache-2.0 permissive; no trademark concern for library use
Sea-orm SeaQL/sea-orm ★ 10.0k · Permissive Apache-2.0 · Library · Fit 2/5	Async Rust ORM for building relational data layers on Tokio stacks. *Replaces:* Diesel, SQLx, Prisma for Rust teams	Async Rust teams building web services	Consulting/implementation Training/courses	• Async Rust APIs for Indian payments startups • data layers for game backends • Rust migrations for legacy PHP shops	$2k-6k per backend project *Effort:* Low (library, consulting-led value) ⚠ Apache-2.0 permissive; SeaQL is a company brand, avoid name use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Exposed JetBrains/Exposed ★ 9.3k · **Permissive** Apache-2.0 · Library · Fit 2/5	Kotlin SQL framework offering typed DSL and DAO styles for JVM apps. *Replaces:* jOOQ, Room database, Spring Data JPA	Kotlin backend teams using SQL directly	Consulting/implementation Training/courses	• Kotlin backends for Finnish insurers • Android sync layers for field apps • JVM data layers for SaaS	$2k-7k per backend project *Effort:* Low (library, JetBrains-branded) ⚠ Apache-2.0 permissive; JetBrains trademark, do not imply endorsement
Mikro-orm mikro-orm/mikro-orm ★ 9.3k · **Permissive** MIT · Library · Fit 2/5	TypeScript data mapper ORM with unit of work and identity map. *Replaces:* TypeORM, Prisma, MongoDB drivers	TypeScript teams with complex domain models	Consulting/implementation Training/courses	• Domain models for Spanish logistics SaaS • ORM setup for Turkish agencies • typed backends for insurance tech	$1.5k-5k per backend project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; no trademark concern
Records kennethreitz/records ★ 7.2k · **Permissive** ISC · Library · Fit 2/5	Small Python library that makes raw SQL queries simple to run and read. *Replaces:* SQLAlchemy Core, Databases package	Python scripters running ad hoc SQL	Consulting/implementation Training/courses	• SQL helpers for Kenyan data analysts • reporting scripts for accounting firms • query tools for ops teams	$500-1500 per script project *Effort:* Low (small library, little product surface) ⚠ ISC permissive; project is dated, few recent updates
Sqlboiler aarondl/sqlboiler ★ 7.0k · **Check** NOASSERTION · Tool · Fit 2/5	Go tool generating an ORM tailored to a database schema. *Replaces:* GORM, Ent, sqlc	Go teams with stable database schemas	Consulting/implementation Training/courses	• Schema-first Go data layers for Vietnamese banks • codegen for SaaS backends • training for Go bootcamps	$1k-4k per backend project *Effort:* Low (codegen tool, consulting-based value) ⚠ NOASSERTION licence; check LICENSE before reuse
Bookshelf bookshelf/bookshelf ★ 6.3k · **Permissive** MIT · Library · Fit 2/5	Node.js ORM built on Knex for PostgreSQL, MySQL and SQLite. *Replaces:* Sequelize, Objection.js, TypeORM	Node teams running Knex-based backends	Setup + support retainer Consulting/implementation	• Legacy Knex migrations for Argentine agencies • backend upkeep for Polish SaaS • ORM help for small clinics	$800-2500 per maintenance project *Effort:* Low (small library, older codebase) ⚠ MIT permissive; check maintenance activity before adopting
SqlSugar DotNetNext/SqlSugar ★ 5.8k · **Permissive** MIT · Library · Fit 2/5	Chinese-origin .NET ORM supporting many SQL and NoSQL databases. *Replaces:* Entity Framework Core, Dapper, FreeSql	.NET teams with Chinese database targets	Consulting/implementation Training/courses	• Data layers for Chinese ERP vendors • DM and Kingbase migrations for government IT • training for .NET teams	$1.5k-5k per data project *Effort:* Low (library, Chinese-language docs) ⚠ MIT permissive; many database brand names in description, check trademarks
Pg go-pg/pg ★ 5.8k · **Permissive** BSD-2-Clause · Library · Fit 2/5	Go ORM focused on PostgreSQL features and query performance. *Replaces:* GORM, Bun, sqlx	Go teams running PostgreSQL heavy workloads	Consulting/implementation Setup + support retainer	• Postgres performance tuning for Indian marketplaces • Go data layers for SaaS analytics • legacy upkeep for logistics firms	$1k-3k per tuning project *Effort:* Low (library, maintenance has slowed) ⚠ BSD-2-Clause permissive; upstream activity has slowed, check first

Design Systems & UI Kits · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Daisyui saadeghi/daisyui ★ 42.8k · **Permissive** MIT · Library · Fit 3/5	Tailwind CSS component library adding themed UI building blocks. *Replaces:* Flowbite, Tailwind UI, Bootstrap themes	Frontend teams building Tailwind sites	Premium plugins/add-ons Consulting/implementation	• Theme packs for Brazilian restaurant sites • landing kits for SaaS startups • Tailwind themes for real estate agencies	$29-99 per theme pack *Effort:* Low (CSS library with easy theming) ⚠ MIT permissive; no trademark concern beyond the name
Vuetify vuetifyjs/vuetify ★ 41.0k · **Check** NOASSERTION · Library · Fit 3/5	Vue component framework implementing Material Design components. *Replaces:* Quasar, PrimeVue, Element Plus	Vue teams building material-style apps	Consulting/implementation Training/courses	• Admin panels for Turkish logistics • internal tools for clinic networks • SaaS dashboards for agencies	$2k-8k per UI build *Effort:* Medium (theming needed; large component set) ⚠ MIT licence per project; NOASSERTION in metadata, verify before reuse

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Layui layui/layui ★ 30.6k · **Permissive** MIT · Library · Fit 3/5	Chinese-language web UI kit following native browser development patterns. *Replaces:* Element UI, Bootstrap admin templates	Chinese developers building admin pages	Consulting/implementation Setup + support retainer	• Admin pages for Chinese SMEs • back offices for Vietnamese schools • reporting pages for local clinics	$800-3000 per admin build *Effort:* Low (classic UI kit, docs mostly in Chinese) ⚠ MIT permissive; Chinese-language docs need translation
Vant youzan/vant ★ 24.4k · **Permissive** MIT · Library · Fit 3/5	Lightweight customisable Vue UI library for mobile web apps. *Replaces:* Vant Weapp, Onsen UI, Framework7	Mobile web teams in Asia	Consulting/implementation Mobile app on top	• Mobile web shops for Malaysian retailers • booking pages for Taiwanese salons • loyalty apps for Filipino cafes	$1.5k-5k per mobile web build *Effort:* Low (theming easy, mobile-first components) ⚠ MIT permissive; Youzan is a company brand, avoid implying endorsement
React-native-paper callstack/react-native-paper ★ 14.5k · **Permissive** MIT · Library · Fit 3/5	Material Design component library for React Native on iOS and Android. *Replaces:* React Native Elements, NativeBase, Tamagui	React Native app teams needing Material UI	Mobile app on top Consulting/implementation	• Mobile forms for Kenyan health workers • Android ops apps for logistics • retail POS screens for cafes	$3k-10k per mobile app build *Effort:* Low (theming built in, mobile-only scope) ⚠ MIT permissive; Material Design is a Google brand, check usage
React-native-ui-kitten akveo/react-native-ui-kitten ★ 10.7k · **Permissive** MIT · Library · Fit 3/5	React Native UI library built on the Eva Design System with theming. *Replaces:* React Native Paper, NativeBase, UI Kitten rivals	React Native teams building themed mobile apps	Mobile app on top Consulting/implementation	• Themed apps for Brazilian beauty salons • booking screens for dental clinics • retail apps for regional brands	$3k-9k per mobile app build *Effort:* Low (themeable from the start, Eva design tokens) ⚠ MIT permissive; Eva Design System name is an Akveo brand
Material-design-for-bootstrap mdbootstrap/material-design-for-bootstrap ★ 9.2k · **Permissive** MIT · Library · Fit 3/5	Material Design UI kit and components for Bootstrap 5 websites. *Replaces:* Bootstrap themes, Tailwind UI, Material Kit templates	Bootstrap web designers building sites	Premium plugins/add-ons Agency service	• Landing kits for Spanish real estate agencies • restaurant sites for Italian cafes • SaaS pages for startups	$49-99 per template licence *Effort:* Low (styling kit, easy to rebrand) ⚠ MIT for free version; upsell to paid MDB Pro, verify licence
Rsuite rsuite/rsuite ★ 8.7k · **Permissive** MIT · Library · Fit 3/5	React suite of components for building web business applications. *Replaces:* Ant Design, Mantine, Chakra UI	React teams building business web apps	Consulting/implementation Training/courses	• Internal tools for Egyptian logistics • operator dashboards for telecoms • booking forms for hotel chains	$2k-7k per business app build *Effort:* Medium (component library, theming needed) ⚠ MIT permissive; rsuite is an independent project, no major concern
Nebular akveo/nebular ★ 8.1k · **Permissive** MIT · Library · Fit 3/5	Angular UI library built on Eva Design with dark mode support. *Replaces:* Angular Material, PrimeNG, Clarity	Angular teams building admin dashboards	Consulting/implementation Training/courses	• Angular admin panels for Greek shipping firms • dashboards for Czech utilities • portals for regional banks	$3k-9k per admin app *Effort:* Medium (Angular version lag; theming work needed) ⚠ MIT permissive; Eva and Akveo brands, rename visual identity
Material-kit creativetimofficial/material-kit ★ 5.9k · **Permissive** MIT · Starter · Fit 3/5	Free Bootstrap 5, React and Vue UI kit based on Material Design. *Replaces:* Creative Tim premium kits, Themewagon templates, Bootstrap themes	Developers starting marketing sites quickly	White-label reseller Agency service	• Landing pages for Mexican bakeries • startup sites for SaaS founders • portfolios for local photographers	$39-79 per branded template *Effort:* Low (template files, easy to rebrand) ⚠ MIT permissive; Creative Tim is a company brand, remove credits carefully
React-print-pdf OnedocLabs/react-print-pdf ★ 2.6k · **Permissive** Apache-2.0 · Library · Fit 3/5	React components and templates for generating printable PDFs like invoices. *Replaces:* Puppeteer PDF generators, DocRaptor, PDFMonkey	React teams generating invoices and reports	API/usage-based Consulting/implementation	• Invoice templates for Indian freelancers • report PDFs for Brazilian clinics • brochure builders for estate agents	$500-2000 per template set *Effort:* Medium (PDF output needs rendering service) ⚠ Apache-2.0 permissive; Onedoc is a company brand, avoid implying endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Lobe-ui lobehub/lobe-ui ★ 2.3k · **Permissive** MIT · Library · Fit 3/5	React UI component library built for AI chat and generative content apps. *Replaces:* Vercel AI UI kits, Chatbot UI kits	React teams building AI chat products	Consulting/implementation Premium plugins/add-ons	• Chat UIs for Korean legal bots • AI assistant front ends for SaaS • chat kits for language tutors	$2k-6k per chat UI build *Effort:* Low (component library, AI-chat focus) ⚠ MIT permissive; Lobe name is a company brand
Uni-ui dcloudio/uni-ui ★ 2.1k · **Permissive** MIT · Library · Fit 3/5	Cross-platform UI component framework for uni-app mobile and mini-programs. *Replaces:* Vant Weapp, Taro UI, native app kits	uni-app developers shipping mobile apps	Mobile app on top Consulting/implementation	• Mini-program shops for Chinese grocers • booking apps for Thai salons • delivery apps for Vietnamese cafes	$2k-6k per mini-app build *Effort:* Low (uni-app ecosystem, Chinese docs) ⚠ MIT permissive; DCloud brand, avoid implying endorsement
Ant-design ant-design/ant-design ★ 100.1k · **Permissive** MIT · Library · Fit 2/5	Enterprise React component library with a design language and theming. *Replaces:* Material UI, Chakra UI, Mantine	React teams building enterprise admin apps	Consulting/implementation Training/courses	• Admin panels for Chinese logistics firms • ERP front ends for Indonesian SMEs • dashboards for Vietnamese clinics	$3k-12k per admin app build *Effort:* Medium (library, theming work needed for white-label) ⚠ MIT permissive; Ant Design and Alibaba brands, rename visual identity
Element ElemeFE/element ★ 54.0k · **Permissive** MIT · Library · Fit 2/5	Vue 2 component library for building admin and web interfaces. *Replaces:* Element Plus, Vuetify, Ant Design Vue	Vue 2 teams maintaining legacy admin apps	Consulting/implementation Setup + support retainer	• Vue 2 admin upkeep for Chinese SaaS • migration to Vue 3 for Mexican agencies • Element admin repairs for Turkish retailers	$2k-6k per migration project *Effort:* Medium (Vue 2 is end of life, migration needed) ⚠ MIT permissive; Element is an Ele.me brand, avoid the name
Iview iview/iview ★ 23.7k · **Check** NOASSERTION · Library · Fit 2/5	Vue 2 UI toolkit for building web admin and business interfaces. *Replaces:* Element UI, Ant Design Vue	Vue 2 teams with legacy admin apps	Consulting/implementation Setup + support retainer	• Vue 2 admin upkeep for Chinese agencies • migration to Vue 3 for Indonesian SaaS • admin repairs for Brazilian retailers	$2k-6k per migration project *Effort:* Medium (Vue 2 based, migration needed) ⚠ NOASSERTION licence; check repo; iView is a brand, rename before use
Shadcn-vue unovue/shadcn-vue ★ 10.8k · **Permissive** MIT · Library · Fit 2/5	Vue port of shadcn UI components built on Tailwind and Radix Vue. *Replaces:* PrimeVue, Vuetify, Nuxt UI	Vue teams wanting copy-in Tailwind components	Consulting/implementation Premium plugins/add-ons	• Component kits for Portuguese SaaS startups • Nuxt dashboards for agencies • Vue UI kits for fintech apps	$49-149 per component kit *Effort:* Low (copy-in components, easy to restyle) ⚠ MIT permissive; shadcn trademark and original design attribution
React95 react95-io/React95 ★ 7.3k · **Permissive** MIT · Library · Fit 2/5	Windows 95 styled React component library for retro-themed interfaces. *Replaces:* Material UI, Chakra UI, retro UI kits	Retro-themed web projects and nostalgia sites	Premium plugins/add-ons Agency service	• Retro sites for Japanese game cafes • nostalgia portfolios for indie artists • kiosk UIs for museums	$500-2000 per themed site *Effort:* Low (single look, niche aesthetic) ⚠ MIT permissive; Microsoft Windows look may raise trade dress concerns
Varlet varletjs/varlet ★ 5.3k · **Permissive** MIT · Library · Fit 2/5	Vue 3 component library based on Material Design for mobile and desktop. *Replaces:* Vant, Vuetify, Element Plus	Vue teams building mobile-first web apps	Consulting/implementation Mobile app on top	• Mobile web forms for Thai delivery apps • booking flows for beauty clinics • Vue kits for Korean startups	$1.5k-5k per mobile web build *Effort:* Low (component library, theming needed) ⚠ MIT permissive; Material Design is a Google brand, check usage
Taro-ui jd-opensource/taro-ui ★ 4.7k · **Permissive** MIT · Library · Fit 2/5	Chinese multi-platform UI component library for the Taro framework. *Replaces:* Vant Weapp, uni-ui, native mini-program UI	Chinese mini-program developers	Consulting/implementation Mobile app on top	• WeChat mini-shops for Chinese local retailers • booking mini-apps for salons • loyalty mini-apps for cafes	$1k-4k per mini-program *Effort:* Low (Taro-dependent, Chinese docs) ⚠ MIT permissive; JD.com is a company brand, avoid implying endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nui tombenner/nui ★ 3.7k · **Permissive** MIT · Library · Fit 2/5	Small library to style iOS apps using a CSS-like stylesheet. *Replaces:* Native iOS theming, Interface Builder styling	iOS developers wanting stylesheet theming	Consulting/implementation Training/courses	• Stylesheet theming for iOS hobby apps • quick style kits for freelance designers • theming for indie iOS games	$300-900 per styling project *Effort:* Medium (small project, iOS-only, dated code) ⚠ MIT permissive; check maintenance status before adopting
ViewUI view-design/ViewUI ★ 2.6k · **Check** NOASSERTION · Library · Fit 2/5	Vue 2 UI toolkit, the successor branch of iView for business web apps. *Replaces:* Element UI, Ant Design Vue	Vue 2 teams with legacy admin apps	Consulting/implementation Setup + support retainer	• Legacy Vue 2 admin for Chinese SaaS • upgrade work for Brazilian agencies • admin repairs for Turkish retailers	$1.5k-5k per upgrade project *Effort:* Medium (Vue 2 based, migration needed) ⚠ NOASSERTION licence; View Design is a brand, rename before use
Vue-beauty FE-Driver/vue-beauty ★ 2.1k · **Permissive** MIT · Library · Fit 2/5	Vue component set built with Ant Design styling for web projects. *Replaces:* Element UI, Ant Design Vue	Vue developers wanting Ant-style components	Consulting/implementation Agency service	• Vue admin pieces for Peruvian startups • component kits for small agencies • dashboards for local stores	$500-1500 per UI build *Effort:* Low (small component set, Ant-like look) ⚠ MIT permissive; Ant Design look-alike, check trade dress

Desktop App Frameworks & Templates · 25

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Electerm electerm/electerm ★ 15.6k · **Permissive** MIT · App · Fit 4/5	Cross-platform terminal and file client for SSH, SFTP, Telnet, RDP and VNC. *Replaces:* Termius, SecureCRT, MobaXterm	IT admins and sysadmins managing servers	Premium plugins/add-ons Setup + support retainer	• SSH client licences for MSP teams • server access tools for Brazilian hosts • RDP desk tools for call centers	$5-15 one-time per seat *Effort:* Medium (many protocols, large support surface) ⚠ MIT permissive; Termius and SecureCRT are brands to avoid
Electron-builder electron-userland/electron-builder ★ 14.7k · **Permissive** MIT · Tool · Fit 4/5	Packaging and auto-update tool that builds distributable Electron apps for all OSes. *Replaces:* Electron Forge, Squirrel installers, Tauri bundler	Electron teams shipping desktop apps	Setup + support retainer Consulting/implementation	• Installers for Vietnamese POS vendors • update pipelines for SaaS desktop clients • signed builds for clinic software	$800-3000 per release pipeline *Effort:* Low (build tooling, consulting-led value) ⚠ MIT permissive; code signing certs are paid and separate
Vscode microsoft/vscode ★ 195.1k · **Permissive** MIT · App · Fit 3/5	Visual Studio Code editor base used to build branded code editors. *Replaces:* JetBrains IDEs, Sublime Text, Cursor	Teams building specialised code editors	White-label reseller Consulting/implementation	• Industrial code editors for PLC engineers • data notebooks for research labs • school coding IDEs for Brazilian teachers	$20-60/seat per editor licence *Effort:* High (forks need rebrand, marketplace rules) ⚠ MIT core; Microsoft trademarks and Marketplace terms restrict forks
Marktext marktext/marktext ★ 63.7k · **Permissive** MIT · App · Fit 3/5	Cross-platform markdown editor with live preview for Linux, macOS and Windows. *Replaces:* Typora, Obsidian desktop, iA Writer	Writers and documentation teams	Premium plugins/add-ons White-label reseller	• Markdown editor for Japanese legal writers • docs tools for SaaS teams • note apps for academics	$10-25 one-time licence *Effort:* Medium (desktop builds per OS, signing needed) ⚠ MIT permissive; Mark Text is an existing brand, rename before sale
Motrix agalwood/Motrix ★ 57.9k · **Check** NOASSERTION · App · Fit 3/5	Full-featured desktop download manager for HTTP, BitTorrent and magnet links. *Replaces:* Internet Download Manager, Free Download Manager	Desktop users downloading large files	White-label reseller Premium plugins/add-ons	• Download manager for Russian software shops • torrent client for Nigerian students • file grabber for film archives	$8-15 one-time desktop licence *Effort:* Medium (desktop builds per OS, rebrand needed) ⚠ NOASSERTION licence; check repo; downloads may infringe copyright
Next-ai-draw-io DayuanJiang/next-ai-draw-io ★ 36.8k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Web app, desktop app and MCP server for editing draw.io diagrams by chat. *Replaces:* Lucidchart AI, Miro AI, Whimsical AI	Teams wanting AI diagrams from text	Setup + support retainer Premium plugins/add-ons	• Architecture diagrams for SaaS consultants • process maps for Brazilian ops teams • flowcharts for training firms	$15-40/mo per team seat *Effort:* Medium (depends on draw.io file format and AI keys) ⚠ Apache-2.0 permissive; draw.io and diagrams.net are trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SwitchHosts oldj/SwitchHosts ★ 27.4k · Permissive Apache-2.0 · App · Fit 3/5	Desktop app that switches between multiple hosts-file profiles quickly. *Replaces:* Hosts file managers, ProxyMan, Charles DNS overrides	Developers and IT staff juggling host overrides	Premium plugins/add-ons Setup + support retainer	• Hosts profiles for Indian QA teams • staging switches for agencies • DNS test setups for MSP techs	$10-25 one-time licence *Effort:* Low (simple desktop app, small brand footprint) ⚠ Apache-2.0 permissive; editing hosts can break networks, support load
Clash-party mihomo-party-org/clash-party ★ 27.2k · GPL GPL-3.0 · App · Fit 3/5	Desktop GUI for the Mihomo proxy core with rule and node management. *Replaces:* Clash for Windows, Surge, Shadowrocket	Power users managing proxy rules	Premium plugins/add-ons White-label reseller	• Proxy clients for Hong Kong expats • rule packs for Russian remote workers • VPN-style setups for travel agencies	$5-12 one-time licence *Effort:* Medium (proxy rules and node sources need legal review) ⚠ GPL-3.0: shipped builds must ship source; circumvention laws vary by country
Responsively-app responsively-org/responsively-app ★ 25.5k · AGPL AGPL-3.0 · App · Fit 3/5	Modified browser that previews a website across many screen sizes at once. *Replaces:* BrowserStack responsive mode, Polypane, Sizzy	Front-end developers testing responsive layouts	Premium plugins/add-ons Setup + support retainer	• Responsive QA for Spanish web agencies • design reviews for ecommerce teams • device previews for app studios	$12-25/dev/mo team licence *Effort:* Medium (Electron-based, needs maintenance and signing) ⚠ AGPL-3.0: modified server-side code must be published; Responsively is a brand
Electron-react-boilerplate electron-react-boilerplate/electron-react-boilerplate ★ 24.3k · Permissive MIT · Starter · Fit 3/5	Boilerplate for building cross-platform Electron apps with React and TypeScript. *Replaces:* Tauri starter kits, Electron Forge templates	Frontend teams starting desktop apps	Consulting/implementation Training/courses	• Desktop starters for Mexican POS vendors • kiosk apps for museums • desktop tools for Polish accountants	$2k-8k per desktop app build *Effort:* Medium (starter code needs real product logic) ⚠ MIT permissive; Electron is a trademark, no endorsement implied
Desktop desktop/desktop ★ 22.1k · Permissive MIT · App · Fit 3/5	GitHub's official desktop client for managing Git repositories visually. *Replaces:* Sourcetree, GitKraken, Tower	Developers preferring a visual Git client	Training/courses Setup + support retainer	• Git training for design agencies • workflow setup for university labs • onboarding for game teams	$100-300 per team workshop *Effort:* Low (GitHub branding, cannot be rebranded) ⚠ MIT permissive; GitHub trademark, do not rebrand as own
Fluent-reader yang991178/fluent-reader ★ 9.8k · Permissive BSD-3-Clause · App · Fit 3/5	Desktop RSS reader built with Electron, React and Fluent UI. *Replaces:* Feedly desktop, Inoreader, NetNewsWire	News readers and research teams	Premium plugins/add-ons Mobile app on top	• RSS reading for Brazilian newsrooms • market news readers for analysts • feed tools for SEO agencies	$5-10 one-time licence *Effort:* Medium (desktop builds per OS and sync gaps) ⚠ BSD-3-Clause permissive; Fluent UI is a Microsoft design brand
Mediago mediago-dev/mediago ★ 9.4k · Permissive MIT · App · Fit 3/5	Cross-platform video downloader that sniffs and saves HLS and m3u8 streams. *Replaces:* 4K Video Downloader, Downloader for Bilibili, Stream Recorder	Users saving streamed videos for offline use	Premium plugins/add-ons Local service business	• Stream capture for Indian e-learning archivists • video saving for Brazilian research labs • tutorial backups for teachers	$8-15 one-time licence *Effort:* Medium (desktop and Docker builds, DRM content blocked) ⚠ MIT permissive; copyright and platform terms limit downloading
Outline-apps OutlineFoundation/outline-apps ★ 9.3k · Permissive Apache-2.0 · App · Fit 3/5	Client and manager apps for running and sharing a Shadowsocks-based VPN server. *Replaces:* Commercial VPN services, Lantern, Psiphon	NGOs and families needing private internet access	Managed hosting White-label reseller	• VPN access for Myanmar journalists • family servers for expats • NGO access kits for field teams	$3-8/mo per managed VPN server *Effort:* Medium (server setup and client builds per platform) ⚠ Apache-2.0 permissive; Jigsaw/Outline brands, circumvention laws vary
Dev-sidecar docmirror/dev-sidecar ★ 25.0k · Weak copyleft MPL-2.0 · App · Fit 2/5	Chinese-language desktop accelerator for GitHub, Git clone and Stack Overflow access. *Replaces:* GitHub accelerator sites, VPN tools	Chinese developers hitting GitHub slowdowns	Premium plugins/add-ons Local service business	• Access helpers for Chinese bootcamps • clone speed setup for university labs • dev tooling for remote teams	$5-10 one-time licence *Effort:* Medium (network-bypass use raises legal and policy risk) ⚠ MPL-2.0 file-level copyleft; circumvention legality varies by country

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Lowdb typicode/lowdb ★ 22.6k · Permissive MIT · Library · Fit 2/5	Tiny JSON file database for Node.js and small apps. *Replaces:* SQLite, Firebase Realtime Database for prototypes	Node hobbyists building small tools	Consulting/implementation Setup + support retainer	• JSON data stores for Kenyan community groups • prototypes for indie game studios • small booking tools for salons	$300-1000 per prototype *Effort:* Low (tiny library, not for scale) ⚠ MIT permissive; no trademark concern
OpenMausBot milind-soni/OpenMausBot ★ 16.5k · Permissive Apache-2.0 · App · Fit 2/5	Open-source chatbot with a virtual machine that bots can operate. *Replaces:* Grok bot, Manus agent, hosted browser-agent services	Teams wanting sandboxed AI computer agents	API/usage-based Managed hosting	• Sandboxed agents for Indian BPO teams • VM bots for research labs • automation for QA shops	$200-800/mo hosted VM capacity *Effort:* High (VM sandboxing and security work needed) ⚠ Apache-2.0 permissive; Grok is an xAI trademark, avoid the name
Cc-haha NanmiCoder/cc-haha ★ 15.3k · Check NOASSERTION · App · Fit 2/5	Chinese-language local desktop workbench for running multiple Claude Code agents. *Replaces:* Claude Code desktop apps, Cursor agent panes	Chinese developers running AI coding agents	Premium plugins/add-ons Setup + support retainer	• Agent workbenches for Chinese dev studios • coding tools for Taiwanese bootcamps • agent setups for freelancers	$10-25/mo per desktop licence *Effort:* High (depends on Anthropic terms and Chinese-language UI) ⚠ NOASSERTION licence; Claude is an Anthropic trademark, read terms
Medis luin/medis ★ 11.7k · Permissive MIT · App · Fit 2/5	Mac desktop GUI for browsing and managing Redis databases. *Replaces:* RedisInsight, Another Redis Desktop Manager, Medis Pro	Mac developers using Redis	Premium plugins/add-ons Consulting/implementation	• Redis GUI licences for Argentine dev shops • admin tools for SaaS ops • cache browsers for game studios	$10-20 one-time licence *Effort:* Medium (Mac-only, small market, dated) ⚠ MIT permissive; Medis name is an existing product, check trademark
HolaOS holaboss-ai/holaOS ★ 11.4k · Check NOASSERTION · Platform · Fit 2/5	Open-source agentic workspace linking business systems to any AI agent with shared memory. *Replaces:* Zapier AI, Glean, Microsoft Copilot Studio	Enterprises wanting private agent workspaces	Managed hosting Setup + support retainer	• Agent workspaces for Indian law firms • internal copilots for Brazilian insurers • ops agents for logistics teams	$300-1500/mo per workspace *Effort:* High (integrations and security reviews are heavy) ⚠ NOASSERTION licence; read the licence and integration terms first
React-native-debugger jhen0409/react-native-debugger ★ 10.4k · Permissive MIT · App · Fit 2/5	Standalone debugger app bundling React Native inspector and Redux DevTools. *Replaces:* Flipper, Reactotron, Chrome DevTools for RN	React Native developers debugging apps	Setup + support retainer Training/courses	• Debug setups for Kenyan mobile agencies • RN training for bootcamps • tooling for fintech app teams	$100-300 per team setup *Effort:* Low (debugging app, little product surface) ⚠ MIT permissive; React Native trademark belongs to Meta
Photon connors/photon ★ 10.1k · Permissive MIT · Framework · Fit 2/5	Toolkit for building Electron apps with simple HTML and CSS UI. *Replaces:* Electron UI kits, Tauri front-end templates	Developers writing small desktop apps	Consulting/implementation Training/courses	• Simple desktop tools for Greek accountants • kiosk UIs for event venues • small utilities for Peruvian SMEs	$800-2500 per desktop UI *Effort:* Low (dated framework, lightweight UI kit) ⚠ MIT permissive; project appears inactive, check maintenance
Cindy makecindy/cindy ★ 9.5k · Permissive Apache-2.0 · App · Fit 2/5	Open-source AI agent app that runs tasks out of the box on a laptop. *Replaces:* Manus, Devin, OpenAI Operator	Individuals wanting a local AI agent	API/usage-based Premium plugins/add-ons	• Local agents for Indian freelance writers • task bots for Nigerian ops teams • desktop agents for consultants	$15-30/mo per desktop user *Effort:* High (agent safety and model costs need controls) ⚠ Apache-2.0 permissive; bilingual branding, check trademark
Munder-difflin HarnessMD/munder-difflin ★ 9.4k · Permissive MIT · App · Fit 2/5	Local app that runs an office of coding-agent personas on your laptop or sandboxes. *Replaces:* Multi-agent orchestrators, Devin team plans	Developers running several coding agents	Premium plugins/add-ons Setup + support retainer	• Agent teams for Portuguese dev shops • agent offices for solo consultants • review crews for SaaS teams	$20-40/mo per seat *Effort:* Medium (depends on user subscriptions and agent CLIs) ⚠ MIT permissive; "Dunder Mifflin" name from The Office, trademark risk
Zyfun Hiram-Wong/zyfun ★ 9.1k · AGPL AGPL-3.0 · App · Fit 2/5	Cross-platform desktop player for online video resources with a polished UI. *Replaces:* Plex desktop, Kodi, PotPlayer	Video fans watching online libraries	Premium plugins/add-ons White-label reseller	• Video players for Chinese drama fans • catalogue viewers for film clubs • media kiosks for cafes	$5-12 one-time licence *Effort:* Medium (content sourcing raises copyright risk) ⚠ AGPL-3.0: server changes must be published; copyright risk for sources

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Formzero BohdanPetryshyn/formzero ★ 89 · **Permissive** MIT · Tool · Fit 3/5	Form backend deployed to the user's own free Cloudflare account with no paid tiers. *Replaces:* Formspree, Netlify Forms, Getform	Static site owners wanting free form handling	Setup + support retainer Premium plugins/add-ons	• Form backends for Brazilian bakery sites • contact forms for Indian freelance designers • RSVP forms for event planners	$30-80 one-time setup *Effort:* Low (one-click deploy, low support load) ⚠ MIT permissive; relies on Cloudflare free tier limits and terms
Formsnap svecosystem/formsnap ★ 806 · **Permissive** MIT · Library · Fit 2/5	Accessible Svelte form components with validation built in. *Replaces:* Superforms, Felte, Svelte form libraries	Svelte teams building forms	Consulting/implementation Training/courses	• Form flows for Spanish SaaS onboarding • checkout forms for Thai shops • intake forms for dental clinics	$1k-3k per form build *Effort:* Low (component library, styling needed per product) ⚠ MIT permissive; Svelte ecosystem APIs change often
Contact-form craftcms/contact-form ★ 295 · **Permissive** MIT · Library · Fit 2/5	Craft CMS plugin adding a simple configurable contact form to sites. *Replaces:* Freeform, Formie, Typeform embeds	Craft CMS agencies building brochure sites	Setup + support retainer Premium plugins/add-ons	• Enquiry forms for Canadian law firms • lead forms for UK estate agents • contact forms for German clinics	$200-600 per site setup *Effort:* Low (simple plugin, little product surface) ⚠ MIT permissive; Craft CMS is a Pixel & Tonic trademark
Remix-blocks AlexandroMtzG/remix-blocks ★ 184 · **Permissive** MIT · Starter · Fit 2/5	Ready-made Remix routes and Tailwind components for quick web app builds. *Replaces:* Tailwind UI, Flowbite blocks	Remix developers building landing pages	Premium plugins/add-ons Agency service	• Remix landing pages for Mexican agencies • dashboards for Chilean startups • component kits for freelancers	$49-99 per block pack *Effort:* Low (component blocks, easy to restyle) ⚠ MIT permissive; no trademark concern beyond the Remix name
Gitforms Luigigreco/gitforms ★ 165 · **Check** NOASSERTION · App · Fit 2/5	Landing-page contact forms that store submissions as GitHub Issues. *Replaces:* Typeform, Tally, Formspree	Solo founders wanting free landing page forms	Setup + support retainer Managed hosting	• Lead forms for Italian freelancers • waitlists for indie game launches • contact forms for small shops	$5-15/mo per managed form *Effort:* Low (small Next.js app with GitHub-backed storage) ⚠ NOASSERTION licence; GitHub ToS and spam risk for stored data
Django-contact-form ubernostrum/django-contact-form ★ 131 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Configurable contact-form app for Django sites with email delivery. *Replaces:* Formspree, Google Forms embeds	Django teams adding contact forms	Setup + support retainer Consulting/implementation	• Contact forms for Spanish NGOs • enquiry pages for Kenyan clinics • feedback forms for local councils	$300-900 per form setup *Effort:* Low (small Django app, dated) ⚠ BSD-3-Clause permissive; maintenance has slowed, check first
Osprey-delight kdevo/osprey-delight ★ 127 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Single-page portfolio theme for artists, minimal and fast to load. *Replaces:* Squarespace portfolio templates, Wix portfolio themes	Artists and freelancers needing portfolios	Premium plugins/add-ons Agency service	• Portfolio sites for Italian illustrators • photo sites for wedding photographers • artist pages for Korean musicians	$150-400 per portfolio build *Effort:* Low (single-page theme, easy to restyle) ⚠ Apache-2.0 permissive; small theme with few recent updates
Hugo-initio miguelsimoni/hugo-initio ★ 90 · **Permissive** MIT · Starter · Fit 2/5	Hugo theme ported from the Initio Bootstrap template for business sites. *Replaces:* WordPress business themes, Wix templates	Hugo users building business sites	Agency service Premium plugins/add-ons	• Hugo sites for Portuguese consultants • business sites for local trades • portfolio sites for coaches	$200-500 per site build *Effort:* Low (theme port, original template terms apply) ⚠ MIT for the port; Initio template belongs to GetTemplate, check licence

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Hugo-apero-docs hugo-apero/hugo-apero-docs ★ 89 · **Permissive** CC-BY-4.0 · Content · Fit 2/5	Documentation site for Apéro, a Hugo theme for personal websites. *Replaces:* Personal website builders, Squarespace	Hugo users building personal sites	Content/membership Training/courses	• Hugo course for Dutch bloggers • theme guides for academics • site setup docs for freelancers	$20-50 per course bundle *Effort:* Low (docs site, the theme is the real product) ⚠ CC-BY-4.0 requires attribution; theme licence is separate, check
Formspree-js formspree/formspree-js ★ 79 · **Permissive** MIT · Library · Fit 2/5	JavaScript client for sending form submissions to the Formspree service. *Replaces:* Netlify Forms, Getform, Formspree dashboards	React and JavaScript sites needing form posts	API/usage-based Consulting/implementation	• Form hookups for Mexican real estate sites • lead forms for Indian SaaS sites • enquiry forms for dental clinics	$500-1200 per integration *Effort:* Low (thin client over a paid API) ⚠ MIT permissive; Formspree is a company brand and the API is paid
Html-form-examples-templates FormBold/html-form-examples-templates ★ 77 · **Permissive** MIT · Content · Fit 2/5	Free HTML form templates and coded examples for common web forms. *Replaces:* Form template marketplaces, Tally templates	Web designers building forms	Content/membership Premium plugins/add-ons	• Form template packs for Peruvian agencies • checkout forms for small shops • survey templates for NGOs	$15-30 per template pack *Effort:* Low (template examples, easy to rebrand) ⚠ MIT permissive; FormBold is a company brand, remove its branding
Grav-plugin-form getgrav/grav-plugin-form ★ 63 · **Permissive** MIT · Library · Fit 2/5	Form plugin for the Grav flat-file CMS, handling contact and data forms. *Replaces:* Gravity Forms, Formidable, Typeform embeds	Grav site builders needing forms	Setup + support retainer Premium plugins/add-ons	• Contact forms for Dutch flat-file sites • booking forms for small clinics • feedback forms for NGOs	$150-500 per site setup *Effort:* Low (plugin for a niche CMS, small market) ⚠ MIT permissive; Grav is a small CMS with a limited user base

Infra Templates (Docker, Helm, Terraform) · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
IngressMonitorController stakater/IngressMonitorController ★ 749 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Kubernetes controller that creates uptime monitors automatically for each ingress. *Replaces:* UptimeRobot, Pingdom, StatusCake	Platform teams wanting auto uptime checks	Setup + support retainer Managed hosting	• Uptime checks for Indian SaaS clusters • monitoring for retail e-commerce • alerts for hospital web apps	$300-1000/mo managed monitoring *Effort:* Low (controller ties into uptime vendors' APIs) ⚠ Apache-2.0 permissive; depends on third-party monitor vendor APIs
Crater raids-lab/crater ★ 574 · **Permissive** Apache-2.0 · Platform · Fit 3/5	Cloud-native platform for running AI model training and inference on Kubernetes GPUs. *Replaces:* Run:ai, Determined AI, Kubeflow managed services	University labs and AI teams sharing GPUs	Managed hosting Setup + support retainer	• GPU sharing for university AI labs • training clusters for Brazilian startups • inference hosting for research groups	$1k-5k/mo per managed GPU cluster *Effort:* High (GPU ops and multi-tenant setup is heavy) ⚠ Apache-2.0 permissive; GPU costs dominate; early-stage project
Argo-helm argoproj/argo-helm ★ 2.4k · **Permissive** Apache-2.0 · Starter · Fit 2/5	Official Helm charts for deploying Argo CD and Argo Workflows on Kubernetes. *Replaces:* Rancher, Harness GitOps, Octopus Deploy	Platform teams deploying Argo on Kubernetes	Consulting/implementation Setup + support retainer	• GitOps setups for Indian fintech teams • deploy pipelines for SaaS startups • Argo support for logistics firms	$2k-8k per GitOps setup *Effort:* Low (charts are ready, consulting carries value) ⚠ Apache-2.0 permissive; Argo is a CNCF project, check branding
Helm-charts grafana/helm-charts ★ 2.0k · **Permissive** Apache-2.0 · Starter · Fit 2/5	Official Helm charts for Grafana, Loki, Tempo and related observability tools. *Replaces:* Datadog, New Relic, Splunk observability stacks	Platform teams running observability stacks	Consulting/implementation Setup + support retainer	• Monitoring stacks for Brazilian fintech • log platforms for SaaS teams • dashboards for hospital IT	$3k-10k per observability setup *Effort:* Low (official charts, consulting-led value) ⚠ Apache-2.0 permissive; Grafana is a trademark of Grafana Labs
Helmsman mkubaczyk/helmsman ★ 1.5k · **Permissive** MIT · Tool · Fit 2/5	Declarative tool that deploys Helm charts to Kubernetes from a single file. *Replaces:* Helmfile, Flux HelmRelease, Argo CD apps	DevOps teams deploying many Helm charts	Consulting/implementation Setup + support retainer	• Declarative deploys for Polish SaaS teams • chart pipelines for game studios • cluster setups for telecoms	$1.5k-5k per deploy setup *Effort:* Low (CLI tool, consulting-led) ⚠ MIT permissive; project activity has slowed, verify first

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Helm-charts zopdev/helm-charts ★ 1.1k · **Permissive** Apache-2.0 · Starter · Fit 2/5	Helm charts used for deploying applications on Kubernetes clusters. *Replaces:* Bitnami charts, custom chart libraries	Teams deploying apps to Kubernetes	Consulting/implementation Setup + support retainer	• Chart setups for Indian SaaS teams • deployment kits for Nigerian fintech • app charts for agencies	$800-2500 per chart project *Effort:* Low (generic charts, needs app-specific work) ⚠ Apache-2.0 permissive; description is thin, check chart contents
Helm-mapkubeapis helm/helm-mapkubeapis ★ 1.0k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Helm plugin that maps deprecated or removed Kubernetes APIs in releases to supported ones. *Replaces:* Pluto, kubent API deprecation scanners	Platform teams upgrading Kubernetes clusters	Consulting/implementation Setup + support retainer	• Cluster upgrades for Brazilian banks • API audits for SaaS vendors • upgrade plans for retail chains	$2k-6k per cluster upgrade *Effort:* Low (CLI plugin, upgrade consulting value) ⚠ Apache-2.0 permissive; Helm is a CNCF project, check branding
Go-api-boilerplate vardius/go-api-boilerplate ★ 967 · **Permissive** MIT · Starter · Fit 2/5	Go API boilerplate using DDD, CQRS, event sourcing and gRPC patterns. *Replaces:* Go-kit templates, Encore starters	Go teams starting larger backend systems	Consulting/implementation Training/courses	• Go backends for Vietnamese fintech • event-sourced systems for logistics • training for Go teams	$3k-10k per backend build *Effort:* Medium (architecture heavy, needs domain design) ⚠ MIT permissive; heavy pattern load, many teams find it overbuilt
Charts airflow-helm/charts ★ 708 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Community Helm chart for deploying Apache Airflow on Kubernetes. *Replaces:* Astronomer, Google Cloud Composer, Amazon MWAA	Data teams running Airflow on Kubernetes	Managed hosting Consulting/implementation	• Airflow hosting for Brazilian data teams • pipeline clusters for fintech • ETL platforms for logistics	$400-1500/mo managed Airflow *Effort:* Medium (chart needs Airflow ops and secrets setup) ⚠ Apache-2.0 permissive; Apache Airflow is a trademark of the ASF
Helm-charts jenkinsci/helm-charts ★ 662 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Official Helm charts for running Jenkins controllers and agents on Kubernetes. *Replaces:* CloudBees CI, GitLab CI runners, GitHub Actions runners	Teams running Jenkins on Kubernetes	Consulting/implementation Setup + support retainer	• Jenkins clusters for German automotive suppliers • build farms for game studios • CI setups for Indian agencies	$2k-7k per CI setup *Effort:* Low (charts ready, CI consulting carries value) ⚠ Apache-2.0 permissive; Jenkins is a trademark of the Jenkins project
Helm-charts VictoriaMetrics/helm-charts ★ 571 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Helm charts for VictoriaMetrics, VictoriaLogs and their wider monitoring ecosystem. *Replaces:* Prometheus stacks, Datadog metrics, Grafana Cloud	Platform teams running metrics stacks	Consulting/implementation Setup + support retainer	• Metrics stacks for Indian telecom ops • log storage for SaaS teams • monitoring for university IT	$2k-6k per monitoring setup *Effort:* Low (official charts, consulting-led value) ⚠ Apache-2.0 permissive; VictoriaMetrics is a brand, avoid implying endorsement
K8tz k8tz/k8tz ★ 529 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Kubernetes admission controller and CLI that injects timezones into pods and cronjobs. *Replaces:* Manual TZ env settings, Kyverno mutation policies	Platform teams running scheduled jobs	Consulting/implementation Setup + support retainer	• Cron timezone fixes for Brazilian payroll systems • job scheduling for European retailers • report timing for SaaS vendors	$800-2500 per cluster fix *Effort:* Low (small controller, single purpose) ⚠ Apache-2.0 permissive; no trademark concern
Helm-charts fluent/helm-charts ★ 474 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Helm charts for Fluent Bit, Fluentd and related log shipping projects. *Replaces:* Datadog log agents, Splunk forwarders, Logstash charts	Platform teams shipping logs from Kubernetes	Consulting/implementation Setup + support retainer	• Log shipping for Mexican banks • log pipelines for SaaS startups • audit logging for hospital groups	$2k-6k per logging setup *Effort:* Low (official charts, consulting-led) ⚠ Apache-2.0 permissive; Fluent is a CNCF project, check branding
Slurm-operator SlinkyProject/slurm-operator ★ 383 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Kubernetes operator for running Slurm HPC job scheduling on clusters. *Replaces:* Slurm on bare metal, Run:ai schedulers, cloud HPC services	HPC teams moving Slurm to Kubernetes	Consulting/implementation Managed hosting	• HPC clusters for Brazilian university labs • render farms for film studios • research compute for pharma labs	$5k-15k per HPC setup *Effort:* High (HPC expertise and Slurm config needed) ⚠ Apache-2.0 permissive; Slurm is an SchedMD trademark

lingo.dev lingodotdev/lingo.dev ★ 5.4k · Permissive Apache-2.0 · Tool · Fit 3/5	Open-source localisation tooling that connects code to a hosted translation platform. *Replaces:* Lokalise, Phrase, Crowdin	Product teams localising software	API/usage-based Managed hosting	• Localisation pipelines for Mexican SaaS • app translations for Indian retailers • multilingual docs for devtool firms	$200-1000/mo per localisation pipeline *Effort:* Medium (tied to paid Lingo.dev platform) ⚠ Apache-2.0 permissive; hosted features use Lingo.dev paid platform
Sakurairo mirai-mamori/Sakurairo ★ 4.1k · GPL GPL-2.0 · Starter · Fit 3/5	WordPress theme with AI-assisted reading features, colourful layouts and multi-language support. *Replaces:* ThemeForest premium blog themes, Divi blog layouts	Bloggers and magazine publishers on WordPress	Premium plugins/add-ons White-label reseller	• Anime blog themes for Japanese fans • photo blog themes for Chinese creators • review magazine themes for Korean cafes	$29-79 per theme licence *Effort:* Medium (WordPress theme, needs brand and layout work) ⚠ GPL-2.0: derivative themes must stay GPL; WordPress is a trademark
Cool-admin-vue cool-team-official/cool-admin-vue ★ 2.4k · Check NOASSERTION · Starter · Fit 3/5	Chinese Vue 3 admin framework with modular permissions and fast CRUD generation. *Replaces:* RuoYi, JeecgBoot, Vben Admin	Chinese SMEs building internal admin systems	Vertical SaaS Consulting/implementation	• Admin systems for Chinese restaurant chains • back offices for Taiwanese clinics • CRUD tools for Malaysian SMEs	$1k-5k per admin build *Effort:* Medium (Chinese-language docs, plugin system to learn) ⚠ NOASSERTION licence; check repo; Chinese docs need translation
React-i18next i18next/react-i18next ★ 10.1k · Permissive MIT · Library · Fit 2/5	React bindings for the i18next internationalisation ecosystem. *Replaces:* react-intl, Lingui, Phrase SDKs	React teams localising apps	Consulting/implementation Training/courses	• Localised React apps for Japanese retailers • multilingual portals for Swiss clinics • i18n setups for agencies	$1k-4k per localisation project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; i18next is a community project, no major concern
I18next i18next/i18next ★ 8.7k · Permissive MIT · Library · Fit 2/5	Core internationalisation library for JavaScript apps with plural and format rules. *Replaces:* Lingui, Transifex SDKs, FormatJS	JavaScript teams localising products	Consulting/implementation Training/courses	• Multilingual apps for Brazilian edtech • localised SaaS UIs for Turkish startups • i18n training for agencies	$1k-4k per localisation project *Effort:* Low (library used inside products) ⚠ MIT permissive; no trademark concern for library use
I18n-ally lokalise/i18n-ally ★ 4.9k · Permissive MIT · Tool · Fit 2/5	VS Code extension for finding, editing and managing translation keys. *Replaces:* Lokalise editor, POEditor VS Code tools	Developers managing translation files	Premium plugins/add-ons Training/courses	• Translation tooling for Spanish agencies • i18n training for frontend teams • key audits for SaaS firms	$5-10/dev/mo team tools *Effort:* Low (VS Code extension, Lokalise-branded) ⚠ MIT permissive; Lokalise is a company brand, avoid implying endorsement
Globalize globalizejs/globalize ★ 4.8k · Permissive MIT · Library · Fit 2/5	JavaScript internationalisation library built on Unicode CLDR locale data. *Replaces:* Intl API wrappers, FormatJS, Moment locales	JavaScript teams formatting numbers and dates across locales	Consulting/implementation Training/courses	• Locale formatting for Indian ecommerce • date handling for Brazilian booking sites • number formats for European fintech	$800-2500 per localisation fix *Effort:* Low (library used inside products) ⚠ MIT permissive; project activity is modest, check maintenance
Core ngx-translate/core ★ 4.7k · Permissive MIT · Library · Fit 2/5	Translation library for Angular apps with runtime language switching. *Replaces:* Angular i18n built-in, Transloco	Angular teams localising web apps	Consulting/implementation Training/courses	• Angular localisation for Spanish retailers • translated portals for Greek clinics • multilingual admin apps for SaaS	$1.5k-5k per localisation project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; Angular is a Google-maintained trademark
Next-intl amannn/next-intl ★ 4.4k · Permissive MIT · Library · Fit 2/5	Internationalisation library for Next.js with routing and message formatting. *Replaces:* next-i18next, Lingui, Phrase SDKs	Next.js teams building multilingual sites	Consulting/implementation Training/courses	• Multilingual Next.js sites for Turkish travel firms • localised SaaS for Brazilian startups • bilingual portals for Canadian NGOs	$2k-7k per localisation project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; Next.js is a Vercel trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Icu unicode-org/icu ★ 3.6k · Check NOASSERTION · Library · Fit 2/5	Core Unicode and internationalisation library for C, C++ and Java. *Replaces:* Oracle locale libraries, Java Locale APIs	Engineers building multilingual software	Consulting/implementation Training/courses	• Unicode support for Thai banks • text handling for Arabic news sites • collation for Korean ecommerce	$3k-10k per localisation engine *Effort:* Medium (large C++ library, deep specialist work) ⚠ NOASSERTION licence; ICU licence is permissive but read the file
Go-i18n nicksnyder/go-i18n ★ 3.6k · Permissive MIT · Library · Fit 2/5	Go library for translating programs into multiple languages with plural rules. *Replaces:* Go-kit i18n packages, Lokalise Go SDK	Go teams localising services	Consulting/implementation Training/courses	• Localised Go APIs for Kenyan fintech • translated admin tools for Indonesian SaaS • multilingual CLI tools for agencies	$1k-3k per localisation project *Effort:* Low (library used inside products) ⚠ MIT permissive; project is in maintenance mode, check activity
Artex-global jiwoochris/artex-global ★ 2.9k · AGPL AGPL-3.0 · Tool · Fit 2/5	Multi-agent LLM framework for penetration testing, with multiple UI languages and authorised-use framing. *Replaces:* Pentera, Horizon3 NodeZero, Burp Suite Pro	Security consultancies running authorised tests	Consulting/implementation Managed hosting	• Pentests for Korean fintech teams • SaaS security audits for Spanish agencies • red-team support for security consultancies	$1k-5k per assessment *Effort:* High (offensive security tool needs legal and safety controls) ⚠ AGPL-3.0: server changes must be published; needs written authorisation to test
Vue-i18n intlify/vue-i18n ★ 2.7k · Permissive MIT · Library · Fit 2/5	Internationalisation plugin for Vue 3 with message formatting and locales. *Replaces:* Vue Intl, Lingui for Vue, Phrase SDKs	Vue teams localising apps	Consulting/implementation Training/courses	• Vue localisation for Brazilian marketplaces • multilingual dashboards for Indian SaaS • Vue training for agencies	$1.5k-5k per localisation project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; Vue and Intlify brands, no endorsement implied
Kiwi alibaba/kiwi ★ 2.6k · Check NONE · Tool · Fit 2/5	Chinese translation workflow solution covering extraction, translation and delivery of UI text. *Replaces:* Lokalise, Phrase, Crowdin translation platforms	Chinese product teams localising apps	Consulting/implementation Setup + support retainer	• Translation workflows for Chinese app studios • localisation pipelines for Vietnamese SaaS • UI text tooling for game teams	$2k-8k per workflow setup *Effort:* High (workflow tool with Alibaba-specific setup) ⚠ NONE licence means no reuse rights; Alibaba brand, read before use
Heyui heyui/heyui ★ 2.5k · Permissive MIT · Library · Fit 2/5	Vue 3 UI toolkit of web components for admin and business pages. *Replaces:* Element Plus, Vuetify, Ant Design Vue	Vue 3 teams building business pages	Consulting/implementation Setup + support retainer	• Admin pages for Chinese SMEs • business forms for Vietnamese clinics • back offices for Indonesian agencies	$1k-4k per UI build *Effort:* Low (component library, theming needed) ⚠ MIT permissive; check docs language and maintenance
Laravel-translatable spatie/laravel-translatable ★ 2.5k · Permissive MIT · Library · Fit 2/5	Laravel package that makes Eloquent model attributes translatable per locale. *Replaces:* Astrotomic translatable, manual translation tables	Laravel teams with multilingual content	Consulting/implementation Setup + support retainer	• Multilingual product catalogues for Mexican ecommerce • localised blogs for Spanish agencies • translated FAQs for Indian SaaS	$800-2500 per content model *Effort:* Low (Laravel package, small surface) ⚠ MIT permissive; Spatie is a company brand, no endorsement implied
React-native-localize zoontek/react-native-localize ★ 2.4k · Permissive MIT · Library · Fit 2/5	React Native toolbox for detecting device locale, currency and calendar settings. *Replaces:* Expo Localization, native locale APIs	React Native teams localising mobile apps	Mobile app on top Consulting/implementation	• Locale detection for Nigerian super-apps • currency display for travel apps • date formats for Filipino delivery apps	$1k-3k per app integration *Effort:* Low (small library, used inside apps) ⚠ MIT permissive; no trademark concern for library use
Transloco jsverse/transloco ★ 2.3k · Permissive MIT · Library · Fit 2/5	Angular internationalisation library with lazy-loaded translations and tooling. *Replaces:* ngx-translate, Angular built-in i18n	Angular teams with large multilingual apps	Consulting/implementation Training/courses	• Angular translations for Polish banks • multilingual HR portals for Indian firms • translated admin apps for Greek agencies	$2k-6k per localisation project *Effort:* Low (library, consulting-led value) ⚠ MIT permissive; Angular is a Google trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Angular-seed-advanced NathanWalker/angular-seed-advanced ★ 2.2k · Permissive MIT · Starter · Fit 2/5	Advanced Angular seed project with state management, i18n and native and desktop targets. *Replaces:* Angular CLI starters, Nx Angular templates	Angular teams starting larger apps	Consulting/implementation Training/courses	• Angular starters for Spanish fintech teams • mobile and desktop shells for logistics firms • training for Angular bootcamps	$2k-6k per app starter build *Effort:* High (dated stack spanning mobile and desktop) ⚠ MIT permissive; dated dependencies, check before using
I18n nuxt-modules/i18n ★ 2.1k · Permissive MIT · Library · Fit 2/5	Nuxt module adding internationalisation, routing and translation loading. *Replaces:* nuxt-i18n competitors, Vue I18n manual setups	Nuxt teams building multilingual sites	Consulting/implementation Setup + support retainer	• Multilingual Nuxt sites for Italian tourism firms • localised shops for Brazilian retailers • bilingual portals for Swiss clinics	$1.5k-4k per localisation project *Effort:* Low (Nuxt module, consulting-led value) ⚠ MIT permissive; Nuxt is a company brand, no endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Reitti dedicatedcode/reitti ★ 2.7k · AGPL AGPL-3.0 · App · Fit 3/5	Self-hosted app that records and analyses personal location history into significant places. *Replaces:* Google Timeline, Life360, Arc Timeline	Privacy-minded individuals and families	Managed hosting Setup + support retainer	• Private location diaries for Nordic families • visit logs for home-care nurses • trip records for consultants	$4-8/mo per managed account *Effort:* Medium (sensitive location data; GDPR duties apply) ⚠ AGPL-3.0: server changes must be published; GDPR location consent needed
Asn nitefood/asn ★ 1.9k · Permissive MIT · Tool · Fit 3/5	Lookup API server for ASN, BGP, RPKI, prefix and IP reputation data. *Replaces:* IPinfo, Team Cymru IP intel, BGP.tools	Network engineers and security teams	API/usage-based Setup + support retainer	• BGP lookups for Indian ISPs • IP reputation APIs for hosting firms • network recon for SOC teams	$0.001-0.01 per lookup *Effort:* Medium (data sources and rate limits need care) ⚠ MIT permissive; upstream data sources carry their own licences
Mr.Holmes Lucksi/Mr.Holmes ★ 4.4k · GPL GPL-3.0 · Tool · Fit 2/5	OSINT tool that gathers public information about people, emails and usernames. *Replaces:* Maltego, Social Links, SpiderFoot	OSINT investigators and fraud teams	Consulting/implementation Local service business	• Background checks for Colombian recruiters • OSINT for insurance fraud teams • due diligence for property buyers	$300-1200 per investigation *Effort:* Medium (personal data use raises GDPR and legal risks) ⚠ GPL-3.0: distributed builds must ship source; GDPR and privacy law limits use
Geoip2-golang oschwald/geoip2-golang ★ 2.3k · Permissive ISC · Library · Fit 2/5	Unofficial Go reader for MaxMind GeoIP2 database files. *Replaces:* MaxMind official Go SDK, ip2location Go libraries	Go teams adding IP geolocation	Consulting/implementation Setup + support retainer	• Geo lookups for Indian ecommerce APIs • IP enrichment for SaaS logs • country checks for fintech onboarding	$800-2500 per integration *Effort:* Low (library, needs MaxMind database licence) ⚠ ISC permissive; MaxMind databases need their own licence to use
Qqzeng-ip zengzhan/qqzeng-ip ★ 1.9k · Permissive MIT · Library · Fit 2/5	High-speed IPv4 and IPv6 lookup engine with SDKs in many languages. *Replaces:* MaxMind GeoIP2, ip2region, IPinfo APIs	Ad tech and CDN teams doing IP lookups	API/usage-based Consulting/implementation	• IP geo for Chinese ad networks • geo-routing for game servers • fraud checks for ecommerce	$500-2000 per integration *Effort:* Low (library with data files, check licence) ⚠ MIT permissive; IP data sources may carry licence limits
React-native-geolocation-service Agontuk/react-native-geolocation-service ★ 1.7k · Permissive MIT · Library · Fit 2/5	React Native library providing geolocation for iOS and Android apps. *Replaces:* Expo Location, native location SDKs	React Native teams needing device location	Mobile app on top Consulting/implementation	• Delivery tracking for Kenyan riders • field check-ins for cleaning firms • visit logs for pest control teams	$2k-6k per app feature *Effort:* Low (library, mobile location permissions to handle) ⚠ MIT permissive; location permissions need App Store privacy review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Tapmap olalie/tapmap ★ 1.6k · **Permissive** MIT · App · Fit 2/5	Real-time map showing your machine's network connections to places across the internet. *Replaces:* Little Snitch network view, Wireshark GeoIP maps	Developers and sysadmins watching network traffic	Premium plugins/add-ons Training/courses	• Traffic maps for Indian network teams • live views for SOC demos • visual training for security bootcamps	$5-15 one-time licence *Effort:* Low (visual tool, small niche) ⚠ MIT permissive; uses IP geolocation data with its own licence
Ttl lance0/ttl ★ 1.5k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Terminal traceroute with live TUI, per-hop stats and ASN and geo lookups. *Replaces:* mtr, PingPlotter, ThousandEyes network tests	Network engineers diagnosing routes	Consulting/implementation Training/courses	• Route diagnostics for Indian ISPs • network training for telecom bootcamps • troubleshooting for hosting firms	$150-400 per training session *Effort:* Low (CLI tool, consulting-led value) ⚠ Apache-2.0 permissive; no trademark concern

Monorepo, Build & Dev Productivity · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Turborepo vercel/turborepo ★ 31.3k · **Permissive** MIT · Platform · Fit 3/5	Monorepo build system with task caching, pipelines and remote build caching. *Replaces:* Nx Cloud, Bazel remote cache, Buildkite caching	Teams running JavaScript monorepos	Managed hosting Setup + support retainer	• Remote build caches for Polish fintech monorepos • CI speed-ups for game studios • monorepo setups for SaaS agencies	$300-1500/mo managed cache *Effort:* Medium (remote cache is a Vercel-hosted paid service) ⚠ MIT permissive; Vercel brand and remote cache terms apply
DependencyCheck dependency-check/DependencyCheck ★ 7.8k · **Permissive** Apache-2.0 · Tool · Fit 3/5	OWASP tool that scans application dependencies for publicly disclosed vulnerabilities. *Replaces:* Snyk, Sonatype Nexus Lifecycle, Black Duck	Software teams needing dependency security scans	Consulting/implementation Setup + support retainer	• Dependency audits for Indian fintech teams • SCA scans for SaaS startups • compliance scans for insurance vendors	$1.5k-6k per audit *Effort:* Medium (needs NVD API key and report tuning) ⚠ Apache-2.0 permissive; OWASP is a trademark, avoid implying endorsement
modern.js web-infra-dev/modern.js ★ 5.0k · **Permissive** MIT · Framework · Fit 3/5	Progressive web framework built on React and Rsbuild for full-stack web apps. *Replaces:* Next.js, Remix, Umi enterprise apps	React teams building full-stack web apps	Consulting/implementation Training/courses	• React portals for Chinese agencies • enterprise apps for regional banks • SSR storefronts for ecommerce	$5k-15k per app build *Effort:* Medium (framework needs app-specific architecture work) ⚠ MIT permissive; ByteDance-linked project, no trademark issue for use
Style-dictionary style-dictionary/style-dictionary ★ 4.9k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Build system that turns design tokens into styles for many platforms. *Replaces:* Theo, Specify, Figma token plugins	Design system teams shipping tokens	Consulting/implementation Training/courses	• Token pipelines for Brazilian banks • multi-brand tokens for retail chains • theming for SaaS startups	$3k-12k per token setup *Effort:* Medium (token pipelines need design-team buy-in) ⚠ Apache-2.0 permissive; no trademark concern for tool use
Vite vitejs/vite ★ 83.9k · **Permissive** MIT · Framework · Fit 2/5	Fast frontend build tool and dev server for modern JavaScript and Vue projects. *Replaces:* Create React App, webpack setups, Parcel	Frontend teams building web apps	Consulting/implementation Training/courses	• Vite migrations for Brazilian agencies • build setups for SaaS startups • dev tooling training for bootcamps	$1k-4k per migration project *Effort:* Low (tooling, consulting-led value) ⚠ MIT permissive; Vite is a trademark of the Vite team
Webpack webpack/webpack ★ 66.0k · **Permissive** MIT · Library · Fit 2/5	JavaScript module bundler that packs modules and assets with code splitting. *Replaces:* Parcel, Rollup, esbuild	Teams maintaining webpack-based frontends	Consulting/implementation Setup + support retainer	• Legacy webpack upkeep for Chinese ecommerce • build fixes for Indian banks' web apps • bundle tuning for media sites	$1k-4k per build project *Effort:* Low (mature bundler, legacy upkeep market) ⚠ MIT permissive; webpack is an OpenJS project, no endorsement
Parcel parcel-bundler/parcel ★ 44.0k · **Permissive** MIT · Tool · Fit 2/5	Zero-config web build tool that bundles apps without manual setup. *Replaces:* webpack, Vite, Rollup	Small teams wanting easy bundling	Consulting/implementation Setup + support retainer	• Zero-config builds for Kenyan web studios • prototype bundling for indie devs • build setups for small agencies	$500-1500 per setup *Effort:* Low (tooling, consulting-led value) ⚠ MIT permissive; Parcel is a project brand, no endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Gradle gradle/gradle ★ 18.9k · Permissive Apache-2.0 · Tool · Fit 2/5	Build automation tool for JVM, Android and multi-language projects. *Replaces:* Maven, Bazel, Ant build scripts	Java and Android teams managing builds	Consulting/implementation Training/courses	• Gradle upkeep for Indian banks • build speed-ups for Android studios • CI builds for Brazilian fintechs	$2k-8k per build engagement *Effort:* Low (build tool, consulting-led value) ⚠ Apache-2.0 permissive; Gradle Enterprise and Develocity are paid products
Task go-task/task ★ 16.3k · Permissive MIT · Tool · Fit 2/5	Cross-platform task runner, a modern alternative to Make for project scripts. *Replaces:* GNU Make, Just command runner, npm scripts	Developers standardising project tasks	Consulting/implementation Training/courses	• Task setups for Nigerian dev teams • build scripts for agencies • training for DevOps bootcamps	$300-1000 per team setup *Effort:* Low (task runner, little product value) ⚠ MIT permissive; no trademark concern
Rspack web-infra-dev/rspack ★ 13.0k · Permissive MIT · Library · Fit 2/5	Rust-based web bundler with a webpack-compatible API for faster builds. *Replaces:* webpack, esbuild, Vite	Teams wanting faster webpack builds	Consulting/implementation Setup + support retainer	• Build speed-ups for Chinese ecommerce frontends • migrations for SaaS teams • CI tuning for media sites	$2k-6k per migration project *Effort:* Medium (migration from webpack needs testing) ⚠ MIT permissive; ByteDance-linked project, no trademark issue for use
Wxt wxt-dev/wxt ★ 10.7k · Permissive MIT · Framework · Fit 2/5	Next-generation framework for building browser extensions with cross-browser support. *Replaces:* Plasmo, CRXJS, extension boilerplates	Extension developers shipping to multiple browsers	Consulting/implementation Training/courses	• Extension builds for Mexican fintech tools • cross-browser ports for ad agencies • extension training for bootcamps	$2k-6k per extension build *Effort:* Low (framework, consulting-led value) ⚠ MIT permissive; WXT is a project brand, check naming
Lightningcss parcel-bundler/lightningcss ★ 7.7k · Weak copyleft MPL-2.0 · Library · Fit 2/5	Rust CSS parser, transformer and minifier for very fast stylesheet builds. *Replaces:* PostCSS, cssnano, esbuild CSS	Frontend teams optimising CSS build pipelines	Consulting/implementation Setup + support retainer	• CSS build speed-ups for Turkish ecommerce • asset pipelines for media sites • minification for SaaS dashboards	$800-2500 per pipeline fix *Effort:* Low (library used inside build tools) ⚠ MPL-2.0 file-level copyleft; changes to its files must be shared
Bear rizsotto/Bear ★ 6.5k · GPL GPL-3.0 · Tool · Fit 2/5	Generates compile_commands.json from any C or C++ build for editor tooling. *Replaces:* CMake export options, compiledb, Build-tool wrappers	C and C++ teams using language servers	Consulting/implementation Training/courses	• Editor setup for embedded firms • build tooling for game engine teams • C++ tooling for Brazilian university labs	$500-1500 per tooling setup *Effort:* Low (small CLI, consulting-led value) ⚠ GPL-3.0: distributed builds must ship source; no trademark issue
Farm farm-fe/farm ★ 5.6k · Permissive MIT · Framework · Fit 2/5	Rust-based build tool compatible with Vite plugins for fast web builds. *Replaces:* Vite, Rspack, esbuild	Frontend teams wanting faster builds	Consulting/implementation Training/courses	• Build speed-ups for Vietnamese web agencies • migrations for SaaS frontends • dev tooling for bootcamps	$1.5k-5k per migration project *Effort:* Medium (younger project, plugin compatibility needs testing) ⚠ MIT permissive; check plugin compatibility before adopting
Sbt sbt/sbt ★ 5.0k · Permissive Apache-2.0 · Tool · Fit 2/5	Interactive build tool for Scala and Java projects with incremental compilation. *Replaces:* Maven for Scala, Mill, Gradle	Scala teams running builds	Consulting/implementation Setup + support retainer	• Scala build upkeep for Brazilian fintech • sbt training for data engineering teams • sbt migrations for Scala agencies	$1k-4k per build project *Effort:* Low (build tool, consulting-led value) ⚠ Apache-2.0 permissive; no trademark concern
Wmr preactjs/wmr ★ 4.9k · Permissive MIT · Tool · Fit 2/5	Small all-in-one development server and build tool for Preact web apps. *Replaces:* Vite, Parcel, Preact CLI	Preact developers building small web apps	Consulting/implementation Training/courses	• Preact prototypes for indie studios • small web apps for Spanish cafes • dev setups for hobby teams	$500-1500 per prototype *Effort:* Low (small dev tool, niche audience) ⚠ MIT permissive; Preact is an open project, check activity

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Trunk trunk-rs/trunk ★ 4.4k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Build tool that bundles and ships Rust WebAssembly apps to the web. *Replaces:* wasm-pack, Yew CLI tooling, Dioxus CLI	Rust teams shipping WASM web apps	Consulting/implementation Training/courses	• WASM web builds for Israeli trading desks • Rust front ends for Polish fintech • game web builds for indie studios	$2k-6k per WASM build *Effort:* Medium (niche toolchain, needs Rust skills) ⚠ Apache-2.0 permissive; no trademark concern
Cake cake-build/cake ★ 4.2k · **Permissive** MIT · Tool · Fit 2/5	Cross-platform C# build automation system for .NET projects. *Replaces:* MSBuild scripts, Nuke build, Azure DevOps pipelines	.NET teams automating builds	Consulting/implementation Setup + support retainer	• C# build scripts for Filipino ERP vendors • CI setups for .NET agencies • build pipelines for Dutch healthcare apps	$1k-3k per build setup *Effort:* Low (build tool, consulting-led value) ⚠ MIT permissive; small community, check activity
Pants pantsbuild/pants ★ 3.9k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Scalable build system for Python, Go and other monorepos with caching. *Replaces:* Bazel, Buck2, Nx for Python monorepos	Python teams running large monorepos	Consulting/implementation Training/courses	• Monorepo builds for Indian data platforms • build setups for ML teams • Python training for bootcamps	$3k-10k per monorepo migration *Effort:* High (steep learning curve, monorepo migration heavy) ⚠ Apache-2.0 permissive; Pants is a project brand, no endorsement
Proguard Guardsquare/proguard ★ 3.7k · **GPL** GPL-2.0 · Tool · Fit 2/5	Java and Android code shrinker, optimiser and obfuscator. *Replaces:* DexGuard, R8 shrinker, commercial obfuscators	Android app teams protecting code	Consulting/implementation Setup + support retainer	• Android hardening for Nigerian fintech apps • code shrinking for Indian retail apps • obfuscation for game studios	$2k-6k per app hardening *Effort:* Medium (Android build config work, Guardsquare sells DexGuard) ⚠ GPL-2.0 with classpath exception; ProGuard and Guardsquare are trademarks
Rsbuild web-infra-dev/rsbuild ★ 3.4k · **Permissive** MIT · Tool · Fit 2/5	Rspack-based build tool for modern web apps with simple configuration. *Replaces:* Vite, webpack CLI setups, Create React App	Frontend teams wanting fast builds	Consulting/implementation Setup + support retainer	• Build setups for Korean agencies • migration help for SaaS frontends • build tuning for ecommerce	$1.5k-4k per build setup *Effort:* Low (build tool, consulting-led value) ⚠ MIT permissive; ByteDance-linked project, check maintenance
Cargo-make sagiegurari/cargo-make ★ 3.0k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Rust task runner and build tool for cross-platform project automation. *Replaces:* Make, Just, cargo scripts	Rust teams automating builds and tests	Consulting/implementation Training/courses	• Build automation for Dutch Rust shops • test scripts for embedded teams • training for Rust bootcamps	$500-1500 per setup *Effort:* Low (task runner, consulting-led value) ⚠ Apache-2.0 permissive; no trademark concern
Mill com-lihaoyi/mill ★ 2.8k · **Permissive** MIT · Tool · Fit 2/5	Build tool for Java, Scala and Kotlin projects, simpler than Maven and Gradle. *Replaces:* Maven, Gradle, sbt	JVM teams wanting simpler builds	Consulting/implementation Training/courses	• Mill migrations for Indian SaaS teams • JVM build setups for insurers • training for Scala teams	$1.5k-5k per migration *Effort:* Medium (smaller ecosystem than Gradle or Maven) ⚠ MIT permissive; no trademark concern

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
UniGetUI Devolutions/UniGetUI ★ 26.9k · Permissive MIT · App · Fit 3/5	Graphical front end for several Windows package managers in one app. *Replaces:* Ninite, Patch My PC, Chocolatey GUI	Windows IT admins and power users managing software	Setup + support retainer Premium plugins/add-ons	• Software deployment GUI for MSPs • Managed app updates for dental clinics • Package management for school IT departments	Per-device MSP license $3/mo, free personal *Effort:* Medium (Windows app needs signing, installer and branding) ⚠ MIT; Devolutions is a brand, drop its name when rebranding
Xmake xmake-io/xmake ★ 12.3k · Permissive Apache-2.0 · Tool · Fit 3/5	Cross-platform build utility configured in Lua for C and C++ projects.	C and C++ teams wanting simpler cross-platform builds	Consulting/implementation Training/courses	• Lua-based build migration for game studios • Embedded firmware build setup for IoT • Cross-compile pipelines for mobile teams	Migration $4-8k, support $400/mo *Effort:* Medium (Lua config, decent docs, small community) ⚠ Apache-2.0; license clean; xmake is a project brand
Choco chocolatey/choco ★ 11.6k · Check NOASSERTION · Tool · Fit 3/5	Windows package manager CLI for installing and managing software. *Replaces:* Ninite, Patch My PC, Intune app deployment	Windows IT admins and MSPs automating app installs	Managed hosting Setup + support retainer	• Private Chocolatey feeds for MSPs • App deployment for dental clinics • Software provisioning for school IT	$3-5/device/mo, free community tier *Effort:* Medium (Windows-only, mixed licensing, company product) ⚠ License NOASSERTION; Chocolatey is a trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pkgx pkgxdev/pkgx ★ 9.9k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Runs commands with their dependencies provisioned automatically, per its "Run Anything" pitch. *Replaces:* Docker Desktop, asdf	Developers wanting zero-setup tool environments	Setup + support retainer Consulting/implementation	• Zero-setup toolchains for bootcamps • CI tool provisioning for agencies • Dev environment kits for game studios	Team support $200/mo, free for individuals *Effort:* Medium (Apache-2.0 tool, scope unclear from description) ⚠ Apache-2.0; thin description, verify behavior first
Platformio-core platformio/platformio-core ★ 9.6k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Embedded development ecosystem: CLI and build system for IoT and microcontroller boards. *Replaces:* Keil MDK, IAR Embedded Workbench	Embedded hardware teams building IoT firmware	Training/courses Consulting/implementation	• PlatformIO courses for hardware bootcamps • Firmware build pipelines for IoT startups • Embedded CI setup for automotive suppliers	Enterprise support $500/mo, free core *Effort:* Medium (Apache-2.0; board packages carry varied licenses) ⚠ Apache-2.0; PlatformIO is a brand; board SDK licenses vary
AppManager MuntashirAkon/AppManager ★ 9.5k · **Check** NOASSERTION · App · Fit 3/5	Android app to inspect, manage and modify installed apps and their components. *Replaces:* Titanium Backup, Android device management suites	Android power users and IT admins	Setup + support retainer Consulting/implementation	• App audit tool for corporate Android fleets • Device cleanup service for repair shops • Parental app control for family IT	Support contract $99/yr per fleet *Effort:* Medium (root-dependent features, NOASSERTION license) ⚠ License NOASSERTION; read LICENSE; root features raise store-policy issues
Brew Homebrew/brew ★ 50.3k · **Permissive** BSD-2-Clause · Tool · Fit 2/5	The Homebrew package manager for macOS and Linux command-line software.	Mac developer teams standardizing tool installs	Setup + support retainer Consulting/implementation	• Private Homebrew taps for enterprise IT • Dev environment setup for agencies • Tool provisioning for design studios	Support retainer around $300/mo per team *Effort:* High (huge codebase, Ruby tooling, community governance) ⚠ BSD-2-Clause; Homebrew is a known brand, avoid using it
Yarn yarnpkg/yarn ★ 41.5k · **Check** NOASSERTION · Tool · Fit 2/5	Legacy 1.x JavaScript package manager; the line is now frozen.	Legacy JavaScript teams still on Yarn 1	Setup + support retainer Consulting/implementation	• Yarn 1 migration services for legacy monorepos • Private registry hosting for fintech teams • Dependency audits for agencies	Migration project $2-5k, support $199/mo *Effort:* High (frozen codebase, NOASSERTION license, Yarn brand) ⚠ License NOASSERTION; read first; Yarn is a trademark
Pnpm pnpm/pnpm ★ 37.0k · **Permissive** MIT · Tool · Fit 2/5	Fast, disk-efficient JavaScript package manager for Node projects.	JavaScript monorepo teams wanting faster installs	Consulting/implementation Setup + support retainer	• pnpm monorepo setup for agencies • Enterprise install caching for CI pipelines • Frontend tooling audits for fintech startups	Support contracts from $500/mo per team *Effort:* High (open-source tool, rebranding adds little value) ⚠ MIT; pnpm is a known brand, avoid rebranding
Poetry python-poetry/poetry ★ 34.4k · **Permissive** MIT · Tool · Fit 2/5	Python dependency manager and packaging tool built around pyproject.toml.	Python teams managing dependencies and private packages	Setup + support retainer Training/courses	• Poetry setup for data science teams • Private index publishing for fintech Python • Python packaging course for bootcamps	Training $299 per seat, support $199/mo *Effort:* Medium (tool needs wrapping into internal workflow) ⚠ MIT; Poetry is a known brand; avoid using its name
Composer composer/composer ★ 29.6k · **Permissive** MIT · Tool · Fit 2/5	Dependency manager for PHP projects using Packagist packages.	PHP agencies managing client dependencies	Setup + support retainer Consulting/implementation	• Private Packagist mirror for PHP agencies • Dependency audits for Laravel shops • Composer upgrades for legacy WordPress sites	$150/mo per team support contract *Effort:* Medium (mature tool, private registry is the product) ⚠ MIT; Composer and Packagist names are trademark-sensitive

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Vcpkg microsoft/vcpkg ★ 27.6k · Permissive MIT · Tool · Fit 2/5	C++ library manager for Windows, Linux and macOS builds. *Replaces:* JFrog Artifactory, Cloudsmith	C++ game and embedded teams managing native dependencies	Consulting/implementation Setup + support retainer	• vcpkg setup for automotive embedded teams • Binary cache hosting for game studios • C++ dependency audits for medtech	Setup project $5k, support $800/mo *Effort:* High (Microsoft-maintained, complex C++ build integration) ⚠ MIT; Microsoft-maintained; avoid Microsoft branding
Winget-cli microsoft/winget-cli ★ 26.6k · Permissive MIT · Tool · Fit 2/5	Windows Package Manager CLI with PowerShell modules and a COM API. *Replaces:* Ninite Pro, Chocolatey Business	Windows enterprise IT teams automating app installs	Setup + support retainer Consulting/implementation	• Private winget repositories for MSPs • App deployment for dental offices • Windows dev kit setup for game studios	Managed private repo $4/device/mo *Effort:* Medium (Microsoft-owned, COM API, Windows-only) ⚠ MIT; Microsoft and Windows names are trademarks
lazy.nvim folke/lazy.nvim ★ 21.7k · Permissive Apache-2.0 · Tool · Fit 2/5	Modern Neovim plugin manager that lazy-loads plugins for speed.	Neovim power users and developer teams	Training/courses Premium plugins/add-ons	• Neovim setup course for backend developers • Preconfigured editor kits for bootcamps • Neovim onboarding for agency dev teams	Course $49 one-time, configs $19 *Effort:* Low (Lua plugin, small core, easy to package) ⚠ Apache-2.0; plugin ecosystem licenses vary widely
Nix NixOS/nix ★ 18.0k · Weak copyleft LGPL-2.1 · Tool · Fit 2/5	Purely functional package manager and build system for reproducible environments. *Replaces:* Chef, Puppet, Ansible Tower	DevOps teams needing reproducible builds and deployments	Consulting/implementation Training/courses	• Nix-based CI for fintech build farms • Reproducible dev environments for game studios • NixOS training for platform engineers	Training $1,500 per cohort, support $1k/mo *Effort:* High (steep learning curve, LGPL, large ecosystem) ⚠ LGPL-2.1; Nix name may carry trademark constraints
Cargo rust-lang/cargo ★ 15.7k · Permissive Apache-2.0 · Tool · Fit 2/5	The Rust package manager and build tool for Rust crates.	Rust teams needing private crate registries	Consulting/implementation Setup + support retainer	• Private crate registry setup for fintech • Rust build caching for embedded teams • Cargo training for enterprise backend teams	Support retainer $1,200/mo per team *Effort:* High (governance, trademark and deep toolchain ties) ⚠ Apache-2.0; Rust and Cargo names are trademarks
Carthage Carthage/Carthage ★ 15.1k · Check NOASSERTION · Tool · Fit 2/5	Decentralized dependency manager for Cocoa frameworks on Apple platforms.	iOS teams still building with Carthage	Consulting/implementation Setup + support retainer	• Carthage-to-SPM migration for iOS agencies • Legacy Xcode build maintenance for banks • iOS dependency audits for startups	Fixed migration fee $3k per app *Effort:* High (dated tooling, Apple-platform specific) ⚠ License NOASSERTION; read LICENSE before reuse
CocoaPods CocoaPods/CocoaPods ★ 14.8k · Check NOASSERTION · Tool · Fit 2/5	Dependency manager for Cocoa Xcode projects in Swift and Objective-C.	iOS agencies managing Xcode dependencies	Setup + support retainer Consulting/implementation	• CocoaPods to SPM migration for iOS agencies • Private pod spec hosting for banks • iOS build maintenance for fintech apps	Support $600/mo per team, migration $4k *Effort:* Medium (mature Ruby-based tool, Apple-focused) ⚠ License metadata NOASSERTION; read LICENSE before reuse
Volta volta-cli/volta ★ 13.1k · Check NOASSERTION · Tool · Fit 2/5	Toolchain manager that pins Node, npm and Yarn versions per project.	JavaScript teams standardizing Node versions	Setup + support retainer Consulting/implementation	• Pinned Node toolchains for agency teams • Node version control for bank dev shops • Frontend onboarding kits for bootcamps	Support $300/mo per team, free core *Effort:* Medium (Rust CLI, shell integration, install scripts) ⚠ License NOASSERTION; read LICENSE; Volta is a project brand
Patch-package ds300/patch-package ★ 11.2k · Permissive MIT · Tool · Fit 2/5	Applies patch files to fix broken npm node_modules dependencies.	React Native teams patching third-party packages	Setup + support retainer Consulting/implementation	• Patch maintenance for React Native agencies • Fork-free dependency fixes for fintech apps • Node dependency audits for legal tech	Support $250/mo per team, free OSS *Effort:* Low (small focused tool, MIT, easy to wrap) ⚠ MIT; patches may conflict with upstream package licenses

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
mason.nvim mason-org/mason.nvim ★ 10.5k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Neovim plugin installing and managing LSP servers, linters and formatters.	Neovim users and developer teams standardizing tooling	Training/courses Premium plugins/add-ons	• Neovim IDE setup for data teams • Editor standards for agency developers • LSP setup course for bootcamps	Course $79 one-time, team config $29/mo *Effort:* Low (Lua plugin with registry, quick to fork) ⚠ Apache-2.0; installs third-party tools under their own licenses
Cli npm/cli ★ 10.2k · **Check** NOASSERTION · Tool · Fit 2/5	Official command-line client for the npm JavaScript package registry. *Replaces:* JFrog Artifactory, GitHub Packages	JavaScript teams hosting private packages	Managed hosting Setup + support retainer	• Private npm registry hosting for fintech • npm dependency security for agencies • Internal package feeds for game studios	Private registry $5/user/mo, free small tier *Effort:* High (tied to the npm registry service) ⚠ License NOASSERTION; npm is a trademark; read license first
Conan conan-io/conan ★ 9.6k · **Permissive** MIT · Tool · Fit 2/5	Open-source C and C++ package manager for dependencies and builds. *Replaces:* JFrog Artifactory, Cloudsmith	C++ teams running private package servers	Managed hosting Consulting/implementation	• Private Conan server hosting for defense firms • C++ dependency upgrades for automotive suppliers • Package registry for game engines	Managed registry $400/mo per org *Effort:* High (Python-based, complex C++ build integration) ⚠ MIT; Conan is a company brand, trademark-sensitive
Pdm pdm-project/pdm ★ 8.7k · **Permissive** MIT · Tool · Fit 2/5	Modern Python package and dependency manager following current PEP standards.	Python teams adopting PEP-standard packaging	Setup + support retainer Training/courses	• PDM rollout for scientific computing labs • Standards-based packaging for Python fintech teams • Private index hosting for ML startups	Training $199 per seat, support $200/mo *Effort:* Medium (MIT Python CLI, needs internal workflow) ⚠ MIT; PDM is a project brand; keep names separate

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rxdb pubkey/rxdb ★ 23.4k · **Permissive** Apache-2.0 · Library · Fit 3/5	Local-first JavaScript database that replicates to your existing backend. *Replaces:* Firebase Realtime Database, Realm Sync, Couchbase Mobile	Offline-first app teams with existing backends	Consulting/implementation Setup + support retainer	• Offline sync for field service apps • Offline inventory counting for warehouses • Offline patient notes for mobile clinics	Integration $8k, premium support $800/mo *Effort:* Medium (good plugin system, still needs backend sync) ⚠ Apache-2.0; verify any premium plugin licensing terms
Electric electric-sql/electric ★ 10.4k · **Permissive** Apache-2.0 · Platform · Fit 3/5	Postgres sync engine streaming shape-based data to local apps and agents. *Replaces:* PowerSync, Replicache, Ably	Teams building real-time apps on Postgres	Managed hosting Consulting/implementation	• Live dashboards for logistics dispatch teams • Offline sync for field inspection apps • Real-time agent state for support tools	Managed sync $99/mo per app, free dev *Effort:* High (infra-level, Postgres ops, needs hosting) ⚠ Apache-2.0; infra complexity, Postgres replication setup needed
Realtime supabase/realtime ★ 7.7k · **Permissive** Apache-2.0 · Platform · Fit 3/5	Elixir server providing WebSocket broadcast, presence and Postgres change feeds. *Replaces:* Pusher, Ably, PubNub	Teams wanting self-hosted realtime for Postgres apps	Managed hosting Consulting/implementation	• Live order tracking for restaurant chains • Presence for remote claims adjusters • Live dashboards for trading desks	Managed $49/mo per project, self-host free *Effort:* High (Elixir ops, Supabase brand, Postgres dependency) ⚠ Apache-2.0; Supabase trademark; needs Postgres know-how
Blocksuite toeverything/blocksuite ★ 6.1k · **Weak copyleft** MPL-2.0 · Framework · Fit 3/5	Web toolkit for building block-based collaborative editors and apps. *Replaces:* Notion API embeds, Coda, Confluence editor	Product teams building Notion-style docs features	Consulting/implementation Premium plugins/add-ons	• Block editor for legal drafting tools • Collaborative SOP editor for clinics • Embedded docs editor for project tools	Integration $10k project, $500/mo support *Effort:* High (framework-level, complex collaboration, MPL) ⚠ MPL-2.0; file-level copyleft; AFFiNE brand stays separate
FluidFramework microsoft/FluidFramework ★ 4.9k · **Permissive** MIT · Framework · Fit 3/5	Library for building distributed, real-time collaborative web applications. *Replaces:* Liveblocks, Velt, Firebase	Enterprise teams building live collaborative apps	Consulting/implementation Setup + support retainer	• Co-editing for architecture diagram tools • Live whiteboard for remote classrooms • Collaborative forms for insurance adjusters	Project $12k, support $800/mo *Effort:* High (Microsoft-backed, complex, service needs hosting) ⚠ MIT; Microsoft-owned project, avoid implying endorsement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Hocuspocus ueberdosis/hocuspocus ★ 2.6k · **Permissive** MIT · Tool · Fit 3/5	Yjs WebSocket server backend for conflict-free real-time collaboration. *Replaces:* Liveblocks, PartyKit	Apps adding real-time co-editing with Yjs	Managed hosting Setup + support retainer	• Co-editing backend for legal drafting tools • Live collaborative notes for classrooms • Shared whiteboards for design agencies	Managed $79/mo per app, self-host free *Effort:* Medium (Node server, needs auth layer) ⚠ MIT; Tiptap is a separate brand; keep names distinct
OctoBase toeverything/OctoBase ★ 2.1k · **AGPL** AGPL-3.0 · Platform · Fit 3/5	Rust local-first collaborative database engine that powers the AFFiNE workspace. *Replaces:* Firebase, Supabase, hosted PouchDB sync	Teams building local-first collaborative productivity apps	Consulting/implementation Managed hosting	• Offline-first notes for field engineers • Local-first CRM for small sales teams • Collaborative logs for research labs	Managed sync $99/mo per workspace *Effort:* High (Rust engine, AGPL, young project) ⚠ AGPL-3.0; server modifications must be published; AFFiNE trademark
Yaos kavinsood/yaos ★ 1.1k · **Permissive** 0BSD · App · Fit 3/5	Real-time sync engine that runs on your own Cloudflare Worker, no terminal needed. *Replaces:* Obsidian Sync, Dropbox	Note-taking app users wanting private sync	Setup + support retainer Premium plugins/add-ons	• Private vault sync for solo consultants • Obsidian sync setup for study groups • Self-hosted sync for small research teams	Setup $150 per vault, free self-host *Effort:* Low (Cloudflare Worker, zero-terminal setup) ⚠ 0BSD; very permissive; Obsidian trademark applies
Orbitdb orbitdb/orbitdb ★ 8.8k · **Permissive** MIT · Library · Fit 2/5	Peer-to-peer database library for decentralized web applications. *Replaces:* Firebase, Supabase Realtime	Web3 app developers needing decentralized data	Consulting/implementation Setup + support retainer	• Decentralized notes app for privacy groups • P2P data sharing for research labs • Serverless shared state for web3 games	Project $6k, support $300/mo *Effort:* High (P2P complexity, small adoption, niche use) ⚠ MIT; decentralized apps raise data and regulatory questions
Tinybase tinyplex/tinybase ★ 5.2k · **Permissive** MIT · Library · Fit 2/5	Reactive JavaScript data store with sync and persistence for apps.	React developers building local-first apps	Consulting/implementation Setup + support retainer	• Offline state for mobile inspection apps • Local-first kanban for small agencies • Reactive store for trading dashboards	Project $4k, retainer $250/mo *Effort:* Medium (library, needs product and sync backend) ⚠ MIT; sync backend choice creates vendor dependencies
Cr-sqlite vlcn-io/cr-sqlite ★ 3.8k · **Permissive** MIT · Library · Fit 2/5	SQLite extension adding multi-writer convergent replication with CRDTs.	Mobile developers syncing SQLite data across devices	Consulting/implementation Setup + support retainer	• Multi-device sync for field technicians • Offline note sync for nurses • Sync layer for point-of-sale tablets	Integration $7k, support $400/mo *Effort:* High (C extension, needs sync server and tests) ⚠ MIT; check compiled extension distribution across platforms
Y-crdt y-crdt/y-crdt ★ 2.2k · **Check** NOASSERTION · Library · Fit 2/5	Rust port of the Yjs CRDT library for shared editing data.	Rust and Python teams building collaborative editors	Consulting/implementation Setup + support retainer	• Collaborative editing core for Rust tools • Shared state engine for Python notebook apps • CRDT sync for mobile field forms	Integration $6k, support $300/mo *Effort:* High (low-level library, needs a whole editor product) ⚠ License NOASSERTION; read LICENSE; Yjs ecosystem overlap
Teamtype teamtype/teamtype ★ 2.0k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Peer-to-peer, editor-agnostic collaborative editing of local text files. *Replaces:* Google Docs, Notion	Developers co-editing text files across editors	Consulting/implementation Setup + support retainer	• Pair-editing setup for remote dev teams • Shared config editing for sysadmins • Collaborative runbook editing for SRE teams	Support $200/mo per team, self-host free *Effort:* Medium (AGPL, P2P networking, small project) ⚠ AGPL-3.0; server-side modifications must be published
IceFireDB IceFireDB/IceFireDB ★ 1.2k · **Permissive** MIT · Platform · Fit 2/5	Web3-oriented database project aiming to bridge Web2 and Web3 data storage. *Replaces:* Firebase, Supabase	Web3 app teams needing decentralized storage	Consulting/implementation Managed hosting	• Decentralized storage backend for dApps • Web2 to Web3 data migration for startups • Hybrid database for NFT marketplaces	Managed hosting $150/mo per node *Effort:* High (vague description, complex distributed system) ⚠ MIT; description unclear; verify maturity and features

Scheduling & Calendar APIs · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Planify alainm23/planify ★ 5.8k · GPL GPL-3.0 · App · Fit 3/5	GNOME task manager syncing with Todoist, Nextcloud and CalDAV. *Replaces:* Todoist, Things, TickTick	Linux desktop users managing tasks and calendars	Premium plugins/add-ons Setup + support retainer	• Task sync for GNOME-based school labs • Linux task manager for developer teams • Todo sync for Nextcloud hosting providers	Pro sync $3/mo, free core *Effort:* Medium (GTK/Vala app, Flatpak packaging, needs branding) ⚠ GPL-3.0; distributed apps must ship source code
Davx5-ose bitfireAT/davx5-ose ★ 3.0k · GPL GPL-3.0 · App · Fit 3/5	Android CalDAV and CardDAV sync app that also accesses WebDAV files. *Replaces:* Google Calendar sync, Fruux	Android users syncing self-hosted calendars and contacts	Setup + support retainer Mobile app on top	• Calendar sync for Nextcloud hosting companies • CalDAV setup for privacy-focused families • Contact sync for small law offices	Setup $99 per org, support $50/mo *Effort:* High (Android app, store listings, GPL, trademark) ⚠ GPL-3.0; distributed apps must ship source; DAVx5 is a brand
Docker-radicale tomsquest/docker-radicale ★ 1.1k · GPL GPL-3.0 · Tool · Fit 3/5	Docker image packaging the Radicale calendar and contact server with security add-ons. *Replaces:* Google Calendar sync, Fruux, hosted Nextcloud	Families and small offices self-hosting calendars	Managed hosting Setup + support retainer	• Self-hosted calendars for dental clinics • Family calendar server for homeschool co-ops • Private contacts sync for small law firms	Managed $5/user/mo, setup $99 *Effort:* Low (Docker image, config-level changes only) ⚠ GPL-3.0; hosting fine; distributed modified images ship source
Agendav agendav/agendav ★ 834 · GPL GPL-3.0 · App · Fit 3/5	Self-hosted web calendar client for CalDAV servers, similar to Google Calendar. *Replaces:* Google Calendar, Outlook Web	Organizations self-hosting shared calendars	Setup + support retainer Managed hosting	• Shared calendars for university departments • Booking calendar for church volunteers • Team calendar for small clinics	Hosted $29/mo per org, setup $300 *Effort:* Medium (PHP app, dated UI, needs branding work) ⚠ GPL-3.0; hosted modifications fine, shipped builds need source
Davis tchapi/davis ★ 764 · Permissive MIT · App · Fit 3/5	Admin web interface for sabre/dav managing CalDAV and CardDAV users and calendars. *Replaces:* Google Workspace admin, Nextcloud Calendar admin	IT admins running self-hosted calendar servers	Managed hosting Setup + support retainer	• Calendar admin for coworking spaces • CalDAV user management for schools • Shared calendars for church congregations	Managed $3/user/mo, setup $250 *Effort:* Medium (Symfony app, translations ready, needs theming) ⚠ MIT; depends on sabre/dav; verify its license terms
Tasks nextcloud/tasks ★ 709 · AGPL AGPL-3.0 · App · Fit 3/5	Nextcloud app for managing tasks and to-do lists in a self-hosted cloud. *Replaces:* Microsoft To Do, Todoist, Asana	Nextcloud hosts and teams wanting shared to-dos	Setup + support retainer Premium plugins/add-ons	• Task boards for Nextcloud-based law firms • Team to-dos for co-op housing boards • Volunteer task lists for nonprofits	Hosted Nextcloud $6/user/mo with tasks *Effort:* Low (AGPL app inside Nextcloud, plugin model) ⚠ AGPL-3.0; server-side changes must be published; Nextcloud brand
Manage-my-damn-life-nextjs intri-in/manage-my-damn-life-nextjs ★ 646 · GPL GPL-3.0 · App · Fit 3/5	Self-hosted Next.js frontend for managing CalDAV tasks and calendars. *Replaces:* Todoist, Akiflow	Solo professionals self-hosting task and calendar tools	Setup + support retainer Managed hosting	• Self-hosted task hub for solo consultants • CalDAV task board for freelance designers • Private to-do app for family offices	Hosted $12/mo per user, setup $150 *Effort:* Medium (Next.js frontend, CalDAV dependency, small base) ⚠ GPL-3.0; distributed apps must ship source code
ical.js kewisch/ical.js ★ 1.2k · Weak copyleft MPL-2.0 · Library · Fit 2/5	JavaScript parser for iCalendar (RFC 5545) and vCard (RFC 6350) data.	Web developers handling calendar and contact data	Consulting/implementation Setup + support retainer	• iCal import for booking software vendors • vCard parsing for CRM migration tools • Calendar feeds for event ticketing sites	Integration $3k, support $200/mo *Effort:* Low (library, MPL, drop-in parser) ⚠ MPL-2.0; file-level copyleft; modified files must be shared
React-native-calendar-events wmcmahan/react-native-calendar-events ★ 930 · Permissive MIT · Library · Fit 2/5	React Native module reading and writing iOS and Android calendar events.	React Native teams adding calendar booking features	Consulting/implementation Mobile app on top	• Calendar sync for salon booking apps • Event reminders for clinic patient apps • Shift scheduling for restaurant staff apps	Integration $4k, support $150/mo *Effort:* Low (small module, native permissions to handle) ⚠ MIT; calendar permissions need careful store disclosure

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
TbSync jobisoft/TbSync ★ 929 · Weak copyleft MPL-2.0 · App · Fit 2/5	Thunderbird add-on syncing cloud accounts' contacts, tasks and calendars. *Replaces:* Outlook desktop sync, Mozilla Thunderbird Pro	Thunderbird users and IT teams syncing cloud accounts	Premium plugins/add-ons Setup + support retainer	• Sync setup for nonprofit IT volunteers • Thunderbird rollout for law offices • Contact sync for school district staff	Setup $80 per seat, support $5/user/mo *Effort:* Medium (add-on depends on Thunderbird add-on rules) ⚠ MPL-2.0; file-level copyleft; Thunderbird is a brand
Ics adamgibbons/ics ★ 788 · Permissive ISC · Library · Fit 2/5	Node.js library generating iCalendar (.ics) files for events.	Node developers sending calendar invites	Consulting/implementation Setup + support retainer	• Calendar invites for appointment booking apps • ICS export for event ticketing platforms • Calendar files for course scheduling tools	Integration $2k, support $100/mo *Effort:* Low (small library, ISC, drop-in) ⚠ ISC; permissive; no real gotchas beyond attribution
Ics-py ics-py/ics-py ★ 722 · Check NOASSERTION · Library · Fit 2/5	Pythonic iCalendar library for reading and writing RFC 5545 events.	Python developers building calendar integrations	Consulting/implementation Setup + support retainer	• Event feeds for Python conference sites • Timetable export for university tools • Calendar sync scripts for HR teams	Integration $2.5k, support $150/mo *Effort:* Low (small library, needs product built around) ⚠ NOASSERTION license; read LICENSE before reuse
Php-rrule rlanvin/php-rrule ★ 711 · Check NOASSERTION · Library · Fit 2/5	PHP library parsing and generating recurring date rules per RFC 5545.	PHP developers building scheduling and booking features	Consulting/implementation Setup + support retainer	• Recurring class schedules for gyms • Repeating appointments for PHP clinics • Shift patterns for staffing agencies	Integration $2k, support $120/mo *Effort:* Low (small library, date math, edge cases) ⚠ NOASSERTION license; read LICENSE; RFC edge cases matter
Icalendar-generator spatie/icalendar-generator ★ 696 · Permissive MIT · Library · Fit 2/5	PHP package generating iCalendar files from event objects.	Laravel developers generating calendar downloads	Consulting/implementation Setup + support retainer	• Calendar downloads for Laravel event sites • ICS export for PHP wedding planners • Calendar files for PHP coaching bookings	Integration $1.5k, support $100/mo *Effort:* Low (small package, MIT, drop-in) ⚠ MIT; permissive; check spec compliance before shipping
Syncall bergercookie/syncall ★ 626 · Permissive MIT · Tool · Fit 2/5	Bi-directional sync between Taskwarrior, Google Calendar, Notion, Asana and more. *Replaces:* Zapier, Unito, Make	Power users syncing tasks across many services	Setup + support retainer Consulting/implementation	• Task sync for productivity coaches • Calendar-task sync for project managers • Notion-calendar bridge for ops teams	Setup $200 per team, support $75/mo *Effort:* High (many integrations, each API needs upkeep) ⚠ MIT; each connected service has its own API terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Wanderer open-wanderer/wanderer ★ 4.1k · AGPL AGPL-3.0 · App · Fit 4/5	Self-hosted trail database where you save and share your adventures. *Replaces:* AllTrails, Komoot, Strava routes	Hiking clubs and outdoor tour operators	Managed hosting White-label reseller	• Trail database for regional hiking clubs • Private trail guides for mountain lodges • Route archive for trail-running teams	Hosted $19/mo per club, free tier *Effort:* Medium (self-hosted app, branding and map data licensing) ⚠ AGPL-3.0; server modifications must be published; map data licensing
Search2ai fatwang2/search2ai ★ 1.3k · Permissive MIT · Tool · Fit 3/5	Self-hosted gateway unifying search, news and page extraction for AI agents. *Replaces:* SerpAPI, Tavily, Bing Search API	AI agent developers needing search with provider fallback	API/usage-based Managed hosting	• Search backend for legal research agents • News monitoring agent for investor teams • Page extraction for competitor-intel bots	Managed $49/mo, usage costs passed through *Effort:* Medium (provider keys needed, several services to run) ⚠ MIT; search provider terms restrict scraping and resale

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Typesense-dashboard bfritscher/typesense-dashboard ★ 658 · GPL GPL-3.0 · Tool · Fit 3/5	Web dashboard to manage and browse Typesense search collections. *Replaces:* Typesense Cloud console	Teams running self-hosted Typesense search	Setup + support retainer Managed hosting	• Typesense admin panel for news publishers • Search index browser for catalog teams • Index management for recipe sites	Managed dashboard $29/mo per cluster *Effort:* Medium (GPL-3.0 admin UI, needs auth and theming) ⚠ GPL-3.0; distributed builds must ship source; Typesense brand
Pagy ddnexus/pagy ★ 5.0k · Permissive MIT · Library · Fit 2/5	Fast, agnostic pagination library for plain Ruby and Rails apps.	Rails teams building paginated lists	Consulting/implementation Setup + support retainer	• Pagination for Rails admin dashboards • Fast result paging for ecommerce catalogs • Pagination upgrades for legacy Rails apps	Upgrade project $2k, support $100/mo *Effort:* Low (small focused library, drop-in use) ⚠ MIT; permissive; few gotchas beyond pagination edge cases
Scout laravel/scout ★ 1.7k · Permissive MIT · Library · Fit 2/5	Laravel driver-based package adding full-text search to Eloquent models. *Replaces:* Algolia, Elastic Cloud	Laravel teams adding search to apps	Consulting/implementation Setup + support retainer	• Product search for Laravel shops • Client portal search for PHP law firms • Article search for Laravel media sites	Search setup $3k, support $200/mo *Effort:* Low (Laravel package, MIT, driver setup needed) ⚠ MIT; Laravel is a trademark; search backend costs apply
Meilisearch-js meilisearch/meilisearch-js ★ 870 · Permissive MIT · Library · Fit 2/5	JavaScript and TypeScript client for the Meilisearch search API.	JavaScript teams adding search to web apps	Consulting/implementation Setup + support retainer	• Search for e-learning course catalogs • Product search for online furniture stores • Document search for HR portals	Search integration $4k, support $200/mo *Effort:* Low (SDK only, pair with Meilisearch server) ⚠ MIT; Meilisearch is a trademark; check server licence
Meilisearch-php meilisearch/meilisearch-php ★ 762 · Permissive MIT · Library · Fit 2/5	PHP client library for the Meilisearch search API.	PHP agencies adding search to client sites	Consulting/implementation Setup + support retainer	• Search for WordPress directory sites • Catalog search for PHP wholesalers • Search for Laravel job boards	Search integration $2.5k, $150/mo support *Effort:* Low (PHP SDK, thin wrapper over server) ⚠ MIT; Meilisearch trademark; server licence separate
Meilisearch-go meilisearch/meilisearch-go ★ 679 · Permissive MIT · Library · Fit 2/5	Go client library wrapping the Meilisearch API.	Go backend teams building search features	Consulting/implementation Setup + support retainer	• Search for Go-based logistics portals • Document search for legal case files • Product search for Go e-commerce services	Integration $3k, support $150/mo *Effort:* Low (thin Go SDK, needs backend product) ⚠ MIT; Meilisearch trademark; check server licence
Meilisearch-python meilisearch/meilisearch-python ★ 607 · Permissive MIT · Library · Fit 2/5	Python client library for the Meilisearch search API.	Python data teams adding search to apps	Consulting/implementation Setup + support retainer	• Search for research paper archives • Search for municipal document portals • Search for Python-based job boards	Integration $2.5k, support $150/mo *Effort:* Low (small SDK, needs server and UI) ⚠ MIT; Meilisearch trademark; verify server licence
Typesense-js typesense/typesense-js ★ 573 · Permissive Apache-2.0 · Library · Fit 2/5	JavaScript and TypeScript client library for the Typesense search engine. *Replaces:* Algolia, Elastic Cloud	Frontend teams integrating Typesense search	Consulting/implementation Setup + support retainer	• Search for online furniture stores • Search for regional news archives • Search widget for church sermon libraries	Integration $3k, support $200/mo *Effort:* Low (SDK only, pair with Typesense server) ⚠ Apache-2.0; Typesense trademark; server licence separate
Meilisearch-js-plugins meilisearch/meilisearch-js-plugins ★ 533 · Permissive MIT · Library · Fit 2/5	Plugin set connecting Meilisearch with InstantSearch.js search interfaces. *Replaces:* Algolia InstantSearch	Frontend developers building instant search interfaces	Consulting/implementation Setup + support retainer	• Instant search for furniture e-commerce • Instant search for public library catalogs • Instant search for recipe blogs	Search UI project $3.5k, $150/mo support *Effort:* Low (plugin layer, needs InstantSearch skills) ⚠ MIT; Algolia InstantSearch is a separate brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Typesense-instantsearch-adapter typesense/typesense-instantsearch-adapter ★ 531 · **Permissive** MIT · Library · Fit 2/5	JS adapter linking Typesense with InstantSearch.js for rich search interfaces. *Replaces:* Algolia InstantSearch	Frontend teams migrating from Algolia to Typesense	Consulting/implementation Setup + support retainer	• Algolia-to-Typesense migration for retailers • Faceted search for boutique hotels • Search UI for B2B product catalogs	Migration project $5k, support $200/mo *Effort:* Low (adapter library, migration-focused scope) ⚠ MIT; Algolia and InstantSearch names are trademarks
Showcase-recipe-search typesense/showcase-recipe-search ★ 519 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Demo recipe search over two million recipes, built on Typesense. *Replaces:* Hosted Algolia demos, Elasticsearch Cloud	Developers building Typesense search demos	Consulting/implementation Setup + support retainer	• Recipe search for food blogs • Search demo for culinary school sites • Recipe search for meal kit startups	Setup $3k for custom recipe catalog *Effort:* Medium (demo dataset, needs real content and license) ⚠ Apache-2.0; recipe dataset licensing may restrict reuse
Wallstreetlocal leftmove/wallstreetlocal ★ 480 · **Permissive** MIT · App · Fit 2/5	Free open-source site tracking holdings of major US investment managers. *Replaces:* WhaleWisdom, Fintel, Koyfin	Retail investors following large fund managers	Content/membership Premium plugins/add-ons	• 13F tracking for newsletter investors • Holdings alerts for financial bloggers • Fund tracker for wealth advisors	Premium alerts $9/mo, core free *Effort:* Medium (financial data sources, licensing and accuracy) ⚠ MIT; investment content may trigger financial advice rules
Search PHP-CMSIG/search ★ 445 · **Permissive** MIT · Library · Fit 2/5	PHP abstraction over multiple search engines including Elasticsearch, Algolia and Meilisearch.	PHP teams swapping search engines without rewrites	Consulting/implementation Setup + support retainer	• Engine-agnostic search for PHP CMS sites • Search migration for Symfony e-commerce • Search layer for PHP membership portals	Migration project $4k, support $200/mo *Effort:* Medium (PHP abstraction, several engines to test) ⚠ MIT; each search engine has its own licence

Testing & QA Platforms · 19

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Appium appium/appium ★ 22.2k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Cross-platform automation framework for all kinds of apps via WebDriver. *Replaces:* Sauce Labs, BrowserStack App Automate, Kobiton	QA teams automating mobile app test suites	Setup + support retainer Consulting/implementation	• Mobile test automation for banking apps • Regression suites for retail app teams • Device farm setup for telehealth apps	Setup $6k, support $800/mo per team *Effort:* High (device farms, complex drivers, Appium trademark) ⚠ Apache-2.0; Appium name is a project brand
Artemis google/artemis ★ 16.9k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Turns natural-language instructions into Android test automation and logs. *Replaces:* Testim, Mabl, Katalon	Android QA teams wanting plain-English test scripts	Setup + support retainer Consulting/implementation	• Plain-English test scripts for fintech apps • Android regression for food delivery apps • Natural-language QA for Android retailers	Setup $5k, support $1k/mo per team *Effort:* Medium (AI agent setup, device dependent, maturity unclear) ⚠ Apache-2.0; Google-associated; success-rate claims unverified
Detox wix/Detox ★ 12.1k · **Permissive** MIT · Tool · Fit 3/5	Gray-box end-to-end testing and automation framework for mobile apps. *Replaces:* Sauce Labs, Kobiton, Waldo	Mobile teams running React Native E2E tests	Setup + support retainer Consulting/implementation	• React Native test setup for fintech apps • E2E suites for food delivery startups • Mobile test automation for telehealth apps	Setup $5k, CI support $600/mo *Effort:* Medium (mobile-only, Wix-maintained, CI setup needed) ⚠ MIT; Wix brand; device CI costs and flakiness
Airtest AirtestProject/Airtest ★ 9.6k · **Permissive** Apache-2.0 · Tool · Fit 3/5	Image-based UI automation framework for testing games and apps. *Replaces:* Perfecto, Katalon	Game studios and mobile QA teams	Setup + support retainer Training/courses	• Game QA automation for mobile studios • Regression tests for casual game teams • Automated app testing for kiosk vendors	Setup $4k, support $700/mo per studio *Effort:* Medium (image-matching scripts, Python, game-specific tuning) ⚠ Apache-2.0; image-matching scripts break with UI changes

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SoloPi alipay/SoloPi ★ 6.4k · Permissive Apache-2.0 · Tool · Fit 3/5	Automated testing tool for mobile apps, from Alipay's SoloPi project. *Replaces:* Testim, Katalon	Chinese-speaking QA teams automating mobile tests	Setup + support retainer Consulting/implementation	• Mobile test automation for Chinese retailers • Android QA for Mandarin-speaking app teams • Automated flow testing for super-app clients	Setup $3k, support $400/mo per team *Effort:* Medium (Chinese docs, Alipay-origin, Android-focused) ⚠ Apache-2.0; Alipay is a brand; avoid implying endorsement
Shortest antiwork/shortest ★ 5.7k · Permissive MIT · Tool · Fit 3/5	Writes QA tests in natural language and runs them with AI. *Replaces:* Mabl, Testim, Momentic	Startups wanting AI-driven end-to-end tests	Setup + support retainer Consulting/implementation	• AI QA tests for SaaS onboarding flows • Natural-language checkout tests for shops • QA automation for early-stage fintech apps	Setup $3k, support $500/mo per product *Effort:* Medium (AI model costs, Antiwork brand, needs tuning) ⚠ MIT; AI model API costs and key handling need care
Qodo-cover qodo-ai/qodo-cover ★ 5.7k · AGPL AGPL-3.0 · Tool · Fit 3/5	AI tool generating unit tests and improving code coverage automatically. *Replaces:* Diffblue Cover, Parasoft Jtest	Engineering teams raising unit test coverage	Setup + support retainer Consulting/implementation	• Coverage uplift for fintech Java services • Test generation for legacy Python codebases • Coverage reports for regulated medtech teams	Setup $4k, $600/mo per repo support *Effort:* Medium (AI calls, language-specific, Qodo brand) ⚠ AGPL-3.0; server changes must be published; Qodo brand
Mountebank mountebank-testing/mountebank ★ 2.1k · Permissive MIT · Tool · Fit 3/5	Over-the-wire test doubles server that stubs HTTP, HTTPS and TCP services. *Replaces:* WireMock Cloud, Mockoon Pro	QA and API teams needing stubbed services	Setup + support retainer Consulting/implementation	• Stubbed payment gateways for fintech QA • Mock partner APIs for insurance tests • Service stubs for hospital integration tests	Setup $3k, support $300/mo per team *Effort:* Medium (Node server, needs UI and hosting) ⚠ MIT; mountebank name is a project brand; permissive
Mockito mockito/mockito ★ 15.4k · Permissive MIT · Library · Fit 2/5	Java mocking framework for writing unit tests with test doubles.	Java teams standardizing unit test tooling	Training/courses Consulting/implementation	• Java testing course for bank developers • Unit test audits for legacy Java banks • Mock-based testing for insurance backends	Course $299 per seat, audit $8k *Effort:* Low (library, testing courses are the product) ⚠ MIT; Mockito is a project name; permissive
Testcontainers-java testcontainers/testcontainers-java ★ 8.8k · Permissive MIT · Library · Fit 2/5	Java library spinning up throwaway Docker containers for integration tests. *Replaces:* LocalStack Pro, hosted test database services	Java teams running database integration tests	Consulting/implementation Training/courses	• Integration test setup for Java banks • Docker test labs for insurance backends • Test environment training for Java teams	Training $350 per seat, setup $5k *Effort:* Low (library, Docker dependent, widely used) ⚠ MIT; Docker and database images carry separate licences
Rest-assured rest-assured/rest-assured ★ 7.1k · Permissive Apache-2.0 · Library · Fit 2/5	Java DSL for writing easy automated tests against REST services. *Replaces:* SoapUI Pro, Postman Enterprise	Java teams testing internal REST APIs	Training/courses Consulting/implementation	• REST API testing course for Java bootcamps • API test audits for healthcare integrations • Contract tests for fintech payment APIs	Course $249 per seat, audit $6k *Effort:* Low (Java library, courses and audits are the product) ⚠ Apache-2.0; project name branding, permissive otherwise
Entr eradman/entr ★ 5.7k · Check NOASSERTION · Tool · Fit 2/5	Small Unix tool that runs a command whenever listed files change.	Developers wanting simple file-watch automation	Consulting/implementation Setup + support retainer	• Build watchers for embedded firmware teams • Hot-reload setup for web agencies • Test watchers for SRE automation teams	Setup $500, support $99/mo per team *Effort:* Low (tiny C tool, rebranding value minimal) ⚠ NOASSERTION license; read LICENSE before reuse
Testsprite-cli TestSprite/testsprite-cli ★ 5.2k · Permissive Apache-2.0 · Tool · Fit 2/5	Terminal CLI for AI-powered automated testing of your apps. *Replaces:* Functionize, Mabl	Developers wanting AI tests from the terminal	API/usage-based Setup + support retainer	• Terminal-first QA for indie SaaS teams • AI test runs for agency client sites • CI test generation for fintech startups	Usage-based per run, free tier 100 runs *Effort:* Medium (wraps hosted service, backend dependency) ⚠ Apache-2.0; CLI calls hosted service; check data terms
