Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Opencv-mobile nihui/opencv-mobile ★ 3.4k · Permissive Apache-2.0 · Library · Fit 3/5	Minimal OpenCV build for Android, iOS, ARM Linux, Windows, macOS, HarmonyOS and WebAssembly. *Replaces:* Full OpenCV builds, OpenCV.js	Mobile and embedded developers needing computer vision	Consulting/implementation Training/courses	• Edge vision for mobile inspection apps • Camera pipelines for embedded robotics • Vision tuning for kiosk makers	Free Apache; $3k vision pipeline integration *Effort:* Medium (Platform builds per target, testing across OSes) ⚠ Apache-2.0; OpenCV is a trademark; some algorithms may be patented
AnExplorer 1hakr/AnExplorer ★ 2.0k · Permissive Apache-2.0 · App · Fit 3/5	Open-source Android file manager with cloud access, for phones, tablets, TV and Chromebooks. *Replaces:* Solid Explorer, ES File Explorer, Files by Google	Android users managing local and cloud files	Mobile app on top Premium plugins/add-ons	• File managers for Android TV boxes • Cloud file access for field teams • Lightweight explorers for budget phones	Free Apache; $2.99 one-time pro features *Effort:* Medium (Large Android app, storage permission rules) ⚠ Apache-2.0; Play Store storage rules; Android is a Google trademark
CodenameOne codenameone/CodenameOne ★ 1.9k · Check NOASSERTION · Framework · Fit 3/5	Java framework for native-looking apps on iOS, Android, desktop, web and watches from one codebase. *Replaces:* Xamarin, React Native, Kotlin Multiplatform	Java teams building cross-platform mobile apps	Consulting/implementation Training/courses	• Java mobile apps for enterprise field teams • Cross-platform apps for university IT • Watch companion apps for fitness startups	Free core; $5k cross-platform Java app build *Effort:* High (Own UI toolkit, Java lock-in, smaller community) ⚠ NOASSERTION: read license; Codename One is a brand; store rules apply
SDWebImage SDWebImage/SDWebImage ★ 25.6k · Permissive MIT · Library · Fit 2/5	Asynchronous image downloader with caching for iOS and macOS image views. *Replaces:* Kingfisher, Nuke, AlamofireImage	iOS developers loading remote images	Consulting/implementation Premium plugins/add-ons	• Image loading for news iOS apps • Gallery loading for retail catalog apps • Avatar caching for social iOS apps	Free MIT; $1500 iOS image-loading integration *Effort:* Low (Swift library, nothing to brand) ⚠ MIT; keep notice; image decoders need regular security updates
MMKV Tencent/MMKV ★ 18.8k · Check NOASSERTION · Library · Fit 2/5	Fast mobile key-value storage library from WeChat, working across Android, iOS and desktop. *Replaces:* SQLite wrappers, Realm key-value, UserDefaults	Mobile developers needing fast local storage	Consulting/implementation Training/courses	• Local settings for offline field apps • Cache layers for Android retail apps • Storage for embedded HMI apps	Free BSD-3; $2k storage integration *Effort:* Low (Library, integrate and test on each platform) ⚠ NOASSERTION: read license; Tencent and WeChat are brands; test each OS
R.swift mac-cain13/R.swift ★ 9.5k · Permissive MIT · Tool · Fit 2/5	Swift code generator producing typed accessors for images, fonts, strings and segues. *Replaces:* SwiftGen, string-typed resource APIs	iOS teams wanting typed resource access	Consulting/implementation Training/courses	• Resource typing for large iOS teams • Asset audits for design systems • Build tooling workshops for Swift teams	Free MIT; $1200 iOS build tooling setup *Effort:* Low (Build tool, not a product, no rebrand) ⚠ MIT; keep notice; generated code tied to Xcode project setup
Perry PerryTS/perry ★ 5.1k · Permissive MIT · Framework · Fit 2/5	Native TypeScript and JavaScript compiler written in Rust that emits executables through LLVM. *Replaces:* Deno compile, Bun build, pkg packaging tools	Developers shipping TypeScript as native binaries	Consulting/implementation Training/courses	• Native CLI builds for DevOps teams • Desktop tools from TypeScript for startups • Binary packaging for edge firmware teams	Free MIT; $5k native build pipeline setup *Effort:* High (Compiler project, language coverage gaps, maturity risk) ⚠ MIT; compiler maturity and JS coverage gaps; test before production

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Valet square/Valet ★ 4.2k · Permissive Apache-2.0 · Library · Fit 2/5	Swift library storing data securely in the iOS, watchOS, tvOS and macOS Keychain. *Replaces:* KeychainAccess, SwiftKeychainWrapper, raw Keychain APIs	iOS developers storing secrets securely	Consulting/implementation Premium plugins/add-ons	• Secure token storage for banking apps • Keychain wrappers for health apps • Login persistence for enterprise iOS tools	Free Apache; $1200 secure storage integration *Effort:* Low (Library; security review needed before shipping) ⚠ Apache-2.0; Square is a trademark; keychain security needs review
Macios dotnet/macios ★ 2.9k · Check NOASSERTION · Framework · Fit 2/5	Open-source .NET bindings for iOS, macOS, Mac Catalyst and tvOS Apple SDKs. *Replaces:* Swift native development, Xamarin.iOS	.NET developers shipping Apple apps	Consulting/implementation Training/courses	• Apple apps for .NET enterprise teams • Mac tools for Windows-shop developers • .NET training for iOS migrations	Free to use; $6k .NET Apple migration project *Effort:* High (Platform bindings, Apple tooling and license rules) ⚠ NOASSERTION: read license; Apple and Xamarin are trademarks
OpenCombine OpenCombine/OpenCombine ★ 2.8k · Permissive MIT · Library · Fit 2/5	Open-source implementation of Apple's Combine framework for processing values over time. *Replaces:* RxSwift, ReactiveSwift	Swift teams needing Combine on older platforms	Consulting/implementation Training/courses	• Combine backports for legacy iOS apps • Reactive Swift training for dev teams • Combine migration for Linux server teams	Free MIT; $3k reactive Swift migration *Effort:* Low (Library, compatibility testing across platforms) ⚠ MIT; Apple Combine name is a trademark; check API parity
SDWebImageSwiftUI SDWebImage/SDWebImageSwiftUI ★ 2.6k · Permissive MIT · Library · Fit 2/5	SwiftUI image loading and animation framework powered by SDWebImage. *Replaces:* AsyncImage, Nuke SwiftUI, Kingfisher SwiftUI	SwiftUI developers loading remote images	Consulting/implementation Premium plugins/add-ons	• Image feeds for SwiftUI news apps • Avatar grids for SwiftUI social apps • Product image lists for SwiftUI retail apps	Free MIT; $1200 SwiftUI image integration *Effort:* Low (SwiftUI library, mostly config and theming) ⚠ MIT; keep notice; image decoders need security updates
Ios-cmake leetal/ios-cmake ★ 2.2k · Permissive BSD-3-Clause · Tool · Fit 2/5	CMake toolchain file for building C and C++ code for iOS, macOS, watchOS and tvOS. *Replaces:* Manual Xcode builds, commercial cross-compile kits	C++ teams cross-compiling for Apple devices	Consulting/implementation Training/courses	• Cross-compile setup for game engines • Build pipelines for audio firms • CMake training for Apple C++ teams	Free BSD-3; $2k build pipeline setup *Effort:* Low (Build toolchain file, not a product) ⚠ BSD-3-Clause: keep notice; CMake and Apple SDK rules apply

Weather · 22

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Open-Meteo open-meteo/open-meteo ★ 6.6k · AGPL AGPL-3.0 · Platform · Fit 4/5	Open weather forecast API using public weather model data *Replaces:* OpenWeatherMap, Tomorrow.io, Weather API	App developers	API/usage-based Managed hosting Consulting/implementation	• Commercial weather API for agtech apps • Hosted weather feed for event planners • Solar forecast API for installers *Angle:* Weather API reseller for apps	$29-299/mo *Effort:* Medium (Self-host needs large data) ⚠ AGPL-3.0; API free for non-commercial use only
Trail-Sense kylecorry31/Trail-Sense ★ 3.0k · Permissive MIT · App · Fit 4/5	Offline Android multi-tool for hiking, camping, survival, foraging and hunting. *Replaces:* Gaia GPS, AllTrails, Garmin Explore	Hikers and campers wanting offline tools	Mobile app on top Premium plugins/add-ons	• Offline navigation for scout troops • Survival tools for outdoor schools • Field tools for wilderness guides	Free MIT; $4.99 one-time premium tools *Effort:* Medium (Android app, offline maps, store listing and branding) ⚠ MIT; outdoor safety disclaimers needed; foraging advice carries liability
WeeWX weewx/weewx ★ 1.2k · GPL GPL-3.0 · Tool · Fit 4/5	Weather station data logger and report generator with web pages *Replaces:* Weather Underground station tools, Davis WeatherLink	Weather station owners	Hardware kits/assembly Setup + support retainer Managed hosting	• Weather station installs for farms • School weather station kit • Marina wind station dashboards *Angle:* Weather station dashboards for farms	$300-900 per station *Effort:* Medium (Python app, extensive drivers) ⚠ GPL-3.0; sensor hardware calibration

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pirate Weather Pirate-Weather/pirateweather ★ 912 · **Permissive** Apache-2.0 · Platform · Fit 4/5	Weather API compatible with the Dark Sky format built on public data *Replaces:* Dark Sky, OpenWeatherMap, Tomorrow.io	App developers	API/usage-based Managed hosting Consulting/implementation	• Dark Sky replacement for legacy apps • Hosted weather API for outdoor brands • Historical weather for insurers *Angle:* Hosted weather API subscriptions	$2-20/mo plus usage *Effort:* Medium (AWS-based, self-host heavy) ⚠ Apache-2.0; data source terms apply
wttr.in chubin/wttr.in ★ 30.7k · **Permissive** Apache-2.0 · App · Fit 3/5	Command-line weather service that renders forecasts in terminals with ASCII graphics. *Replaces:* AccuWeather, Weather.com, Dark Sky-style apps	Terminal users and sysadmins wanting weather	Premium plugins/add-ons API/usage-based	• Weather for home-automation hobbyists • Terminal weather for dev-team dashboards • Forecast widgets for Linux distros	Free service; $15/mo for higher API limits *Effort:* Medium (Service infrastructure, branding and API limits) ⚠ Apache-2.0; forecast data source terms apply; wttr.in is a brand
MagicMirror MagicMirrorOrg/MagicMirror ★ 24.2k · **Permissive** MIT · Platform · Fit 3/5	Modular smart mirror platform with weather, calendar and news modules *Replaces:* Smart displays like Google Nest Hub	Makers, hospitality venues	Hardware kits/assembly Setup + support retainer Premium plugins/add-ons	• Smart mirror kits for hotels • Salon mirrors with appointments • Gym schedule mirrors *Angle:* Smart mirror weather displays for hotels	$399 per mirror kit *Effort:* Medium (Node/Electron, hardware assembly) ⚠ MIT; module licences vary
Breezy Weather breezy-weather/breezy-weather ★ 11.9k · **Weak copyleft** LGPL-3.0 · App · Fit 3/5	Android weather app with many sources and visualizations *Replaces:* AccuWeather, Weather Underground, Dark Sky	Android users	Mobile app on top White-label reseller Premium plugins/add-ons	• Branded weather app for local TV • Farm weather app • Marina forecast app *Angle:* Branded weather app for media outlets	$2 pro *Effort:* Medium (Android app, API keys needed) ⚠ LGPL-3.0; weather source API terms
Geometric Weather WangDaYeeeeee/GeometricWeather ★ 2.5k · **Weak copyleft** LGPL-3.0 · App · Fit 3/5	Material Design Android weather application *Replaces:* AccuWeather, Weather Channel	Android users	Mobile app on top White-label reseller Premium plugins/add-ons	• Regional weather app for radio stations • Outdoor sports forecast app • School weather alerts *Angle:* Customizable weather app white-label	$2 pro *Effort:* Medium (Android app, mature) ⚠ LGPL-3.0; data source terms
MinimalistWeather ByronNote/MinimalistWeather ★ 2.4k · **Check** NONE · App · Fit 3/5	Android weather app built with Compose, offering global city search, air quality and 7-day forecasts. *Replaces:* Carrot Weather, Windy, Google Weather	Android users wanting a clean weather app	Mobile app on top Premium plugins/add-ons	• Weather for outdoor event planners • Forecasts for farm workers • Air quality alerts for asthma patients	Free core; $2.99 one-time pro widgets *Effort:* Low (Compose app, branding and store listing) ⚠ NONE license: read first; Open-Meteo has its own terms
Satpy pytroll/satpy ★ 1.2k · **Permissive** Apache-2.0 · Library · Fit 3/5	Python package for processing earth-observing satellite data into imagery and products. *Replaces:* ENVI, ERDAS Imagine, commercial remote sensing suites	Remote sensing analysts processing satellite imagery	Consulting/implementation Training/courses	• Satellite products for agriculture consultancies • Fire monitoring for regional agencies • Remote sensing courses for geography students	Free Apache; $8k satellite processing project *Effort:* Medium (Python library, sensor-specific readers need work) ⚠ Apache-2.0; satellite data licenses vary by sensor and provider
Stratux cyoung/stratux ★ 1.1k · **Permissive** BSD-3-Clause · Hardware · Fit 3/5	Aviation weather and traffic receiver built on RTL-SDR for ADS-B and weather data. *Replaces:* Garmin GDL 39, Stratus, ForeFlight receivers	General aviation pilots wanting cheap traffic and weather	Hardware kits/assembly Setup + support retainer	• Traffic receivers for flight schools • Weather receivers for small charter operators • Cheap ADS-B kits for pilot clubs	$149 kit, $60 install per aircraft *Effort:* High (Aviation hardware, avionics safety and regulation) ⚠ BSD-3-Clause; aviation safety disclaimers; aviation rules apply
Helios ReikanYsora/Helios ★ 1.1k · **GPL** GPL-3.0 · App · Fit 3/5	Home Assistant Lovelace card showing energy usage in 2.5D visuals. *Replaces:* Sense energy dashboards, Lovelace energy cards	Home Assistant users wanting energy dashboards	Premium plugins/add-ons Setup + support retainer	• Energy cards for solar installers • Energy visuals for rental landlords • Dashboard cards for smart-home showrooms	Free GPL; $12 one-time premium card pack *Effort:* Low (Lovelace card, theming and configuration) ⚠ GPL-3.0; Home Assistant is a trademark; card source must ship

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Wego schachmat/wego ★ 8.6k · **Permissive** ISC · App · Fit 2/5	Terminal weather app showing forecasts with ASCII art. *Replaces:* wttr.in, terminal weather CLIs	Terminal users wanting forecasts	Premium plugins/add-ons Marketplace	• Weather for shell-based sysadmins • Terminal forecasts for dev-team dashboards • Weather for Linux distro users	Free ISC; $5 one-time theme pack *Effort:* Low (Small terminal app, branding only) ⚠ ISC is permissive; forecast API key and terms apply
Weathernext google-deepmind/weathernext ★ 7.7k · **Permissive** Apache-2.0 · Model · Fit 2/5	Unclear project: DeepMind weather forecasting repository with an empty description. *Replaces:* ECMWF forecast products, commercial weather APIs	Meteorology researchers and weather tech teams	Consulting/implementation Training/courses	• Forecast pilots for energy traders • Weather-model training for climate labs • Forecast data for agriculture startups	Free code; $20k forecast model integration *Effort:* High (Research model, data and compute heavy) ⚠ Apache-2.0; Google DeepMind is a trademark; weights may have other terms
WeatherMaster PranshulGG/WeatherMaster ★ 3.2k · **GPL** GPL-3.0 · App · Fit 2/5	Android weather app using multiple sources *Replaces:* AccuWeather, Weather Channel	Android users	Mobile app on top White-label reseller Premium plugins/add-ons	• Boating forecast app • Skiing weather app • Gardening weather alerts app *Angle:* Premium weather app reskin	$2 pro *Effort:* Low (Flutter app, small) ⚠ GPL-3.0; API key rules
Weathr Veirt/weathr ★ 3.1k · **GPL** GPL-3.0 · App · Fit 2/5	Terminal weather app with ASCII animations for current conditions. *Replaces:* wttr.in, Weather Channel app	Terminal users wanting animated weather	Premium plugins/add-ons Marketplace	• Animated weather for kiosks • Terminal weather for hacker cafes • Weather displays for Linux desktop users	Free GPL; $3 one-time theme pack *Effort:* Low (Small terminal app, theming and branding) ⚠ GPL-3.0; distributed binaries ship source; data API terms apply
WRF wrf-model/WRF ★ 1.8k · **Check** NOASSERTION · Framework · Fit 2/5	Weather Research and Forecasting model, the official numerical weather prediction code. *Replaces:* Commercial numerical forecasting models, MM5	Meteorology services and research labs	Consulting/implementation Training/courses	• Regional forecasts for wind farms • Air-quality modelling for city councils • WRF training for atmospheric science students	Free public-domain code; $12k forecast setup *Effort:* High (Scientific model, deep expertise, compute heavy) ⚠ NOASSERTION: read license; NCAR naming and trademark rules apply
Meteocons basmilius/meteocons ★ 1.7k · **Permissive** MIT · Content · Fit 2/5	Animated weather icon set, hand-crafted to feel alive in apps and dashboards. *Replaces:* Weather icon packs, Lottie weather sets	App developers needing weather icons	Premium plugins/add-ons Marketplace	• Weather icons for smart-home dashboards • Animated icons for news apps • Weather widgets for car dashboards	Free MIT; $19 premium animated icon pack *Effort:* Low (Icon set, rebrand and style adjustments) ⚠ MIT; keep notice; do not imply endorsement by the icon author
Home-Assistant-Mobile-First Clooos/Home-Assistant-Mobile-First ★ 1.4k · **Permissive** MIT · Starter · Fit 2/5	Mobile-first theme for Home Assistant dashboards with a minimalist design. *Replaces:* Default Lovelace UI, Mushroom cards	Home Assistant users wanting a mobile dashboard	Premium plugins/add-ons Setup + support retainer	• Mobile dashboards for smart-home installers • Wall-panel themes for rental managers • Home dashboards for senior living	Free MIT; $150 HA dashboard setup per home *Effort:* Low (HA theme, config and screenshots) ⚠ MIT; keep notice; Home Assistant is a trademark
Earth2studio NVIDIA/earth2studio ★ 1.2k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Open deep-learning framework for building and deploying AI weather and climate workflows. *Replaces:* Commercial AI weather APIs, ECMWF tooling	Climate scientists and AI weather teams	Consulting/implementation Training/courses	• AI forecasts for insurance risk teams • Climate model pilots for utilities • Weather AI training for meteorology students	Free Apache; $25k AI forecast pipeline project *Effort:* High (Research framework, GPU and data heavy) ⚠ Apache-2.0; NVIDIA is a trademark; model weights have separate terms
Rain darkmoonight/Rain ★ 1.1k · **Permissive** MIT · App · Fit 2/5	Flutter weather application *Replaces:* AccuWeather, Weather Channel	Casual phone users	Mobile app on top White-label reseller Premium plugins/add-ons	• Rain alert app for cyclists • Beach weather app • Allotment gardener weather app *Angle:* Material weather app with premium	$2 pro *Effort:* Low (Small Flutter app) ⚠ MIT; small project

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Overmorrow bmaroti9/Overmorrow ★ 818 · GPL GPL-3.0 · App · Fit 2/5	Material design weather app with a modern interface and clean layout. *Replaces:* Carrot Weather, Yr, Overdrop	Users wanting a material-design weather app	Mobile app on top Premium plugins/add-ons	• Weather apps for regional broadcasters • Forecast widgets for travel firms • Weather cards for hotel kiosks	Free GPL; $2.99 one-time pro features *Effort:* Low (App theming and store listing) ⚠ GPL-3.0; shipped builds must ship source; weather API terms apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Splitflap scottbez1/splitflap ★ 4.2k · Check NOASSERTION · Hardware · Fit 4/5	DIY split-flap display hardware and firmware design, a mechanical display kit. *Replaces:* Vestaboard, Solari split-flap boards, commercial flap displays	Bars, museums and makers wanting retro displays	Hardware kits/assembly Consulting/implementation	• Retro flap displays for restaurants • Departure boards for museums • Art installations for event venues	$350 kit, $1500 custom display installation *Effort:* Medium (Hardware design, kit assembly and supply chain) ⚠ NOASSERTION: read license; check non-commercial hardware terms; Solari is a trademark
OpenSCAD openscad/openscad ★ 10.6k · Check NOASSERTION · Tool · Fit 3/5	Script-based programmer's solid 3D CAD modeller *Replaces:* Fusion 360, SolidWorks, Tinkercad	Makers, 3D-printing designers	Content/membership Agency service Training/courses	• Parametric box generator for packaging shops • Custom bracket designer for repair cafes • Personalized sign shop for Etsy sellers *Angle:* Sell personalized printed products via online customizer storefront	$5-20 per custom print *Effort:* Low (Desktop tool, scripts are the product) ⚠ GPL-2.0 for tool; your models stay yours
CadQuery CadQuery/cadquery ★ 6.1k · Check NOASSERTION · Library · Fit 3/5	Python parametric CAD scripting framework on OpenCascade *Replaces:* Fusion 360, SolidWorks	Engineers, product designers	Consulting/implementation Agency service API/usage-based	• Parametric part API for custom machine builders • Online configurator for fixture makers • Cable bracket generator for integrators *Angle:* Sell parametric configurable products made to customer dimensions	$50-200 per custom part *Effort:* Medium (Python library, scripted parts) ⚠ License NOASSERTION (Apache upstream); OCCT LGPL
CADAM Adam-CAD/CADAM ★ 5.4k · GPL GPL-3.0 · App · Fit 3/5	Open-source text-to-CAD web app that generates editable CAD models from text prompts. *Replaces:* Zoo text-to-CAD, Onshape, Tinkercad	Makers and product designers needing fast CAD	Managed hosting Premium plugins/add-ons	• Prompt-to-CAD for makers • Spare-part generators for repair shops • Custom enclosures for hardware startups	$15/mo per seat hosted, free self-host *Effort:* Medium (Web app, AI costs, model hosting) ⚠ GPL-3.0; AI model API costs and terms apply; output IP unclear
BOSL2 BelfrySCAD/BOSL2 ★ 2.5k · Permissive BSD-2-Clause · Library · Fit 3/5	OpenSCAD library of shapes, masks and helpers for parametric design *Replaces:* Fusion 360 add-ins	OpenSCAD designers	Premium plugins/add-ons Agency service Content/membership	• Print-ready pipe fitting designs • Custom jewelry-box designs • Parametric hinge kit *Angle:* Offer parametric replacement-part printing service	$8 per design *Effort:* Low (OpenSCAD library, drop-in) ⚠ BSD-2-Clause; models need own IP care
Gridfinity Rebuilt kennetek/gridfinity-rebuilt-openscad ★ 2.3k · Check NOASSERTION · Content · Fit 3/5	OpenSCAD rebuild of Gridfinity storage bins and baseplates *Replaces:* Systainer inserts, Kaizen foam	Workshop owners, makers	Agency service Local service business Content/membership	• Custom Gridfinity toolbox inserts for mechanics • Printed bins for electronics labs • Craft supply organizer kits *Angle:* Sell printed custom Gridfinity storage bins and drawer inserts	$3-8 per printed bin *Effort:* Low (Parametric designs, print-ready) ⚠ License flagged NOASSERTION (MIT-like); Gridfinity is Zack Freedman design
Gridfinity Extended ostat/gridfinity_extended_openscad ★ 939 · GPL GPL-3.0 · Content · Fit 3/5	Extended Gridfinity OpenSCAD models with more bin options *Replaces:* Systainer inserts	Makers, tradespeople	Local service business Content/membership Agency service	• Tradesperson bit-holder inserts • Camera gear bins for photographers • Tackle box organizers for anglers *Angle:* Print-on-demand workshop organizer sets for tradespeople	$4-10 per printed bin *Effort:* Low (Parametric design, print-ready) ⚠ GPL-3.0; Gridfinity design credit

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Partcad partcad/partcad ★ 527 · **Permissive** Apache-2.0 · Tool · Fit 3/5	Package manager for hardware designs with tools for product information and manufacturing docs. *Replaces:* Arena PLM, Fusion 360 Manage, Onshape PDM	Hardware startups managing product data and designs	Managed hosting Setup + support retainer	• Design package sharing for robotics startups • Manufacturing data packs for contract assemblers • Product docs for open-hardware makers	Free Apache; $99/mo team registry plan *Effort:* High (Package system and PLM-style data workflows) ⚠ Apache-2.0; hardware design IP and export control considerations
Dometyl-keyboard geoffder/dometyl-keyboard ★ 303 · **AGPL** AGPL-3.0 · Tool · Fit 3/5	Parametric generator for split, concave and ergonomic keyboard designs written in OCaml. *Replaces:* Ergodox design services, custom keyboard design tools	Keyboard enthusiasts designing custom boards	Hardware kits/assembly Premium plugins/add-ons	• Custom keyboard kits for enthusiasts • Ergonomic boards for RSI clinics • Keyboard design files for keycap sellers	$120 kit, $40 custom design file *Effort:* Medium (Generator tool, design knowledge needed to adapt) ⚠ AGPL-3.0: publish server changes; layout names may be trademarks
Openflexure_microscope rwb27/openflexure_microscope ★ 279 · **Check** NOASSERTION · Hardware · Fit 3/5	Open-source 3D-printable microscope with a motorized stage and Raspberry Pi control. *Replaces:* Commercial lab microscopes, motorized stage kits	Schools and labs needing low-cost microscopes	Hardware kits/assembly Training/courses	• Classroom microscopes for science teachers • Low-cost imaging for field clinics • Microscope kits for makerspaces	$450 kit, $60 training workshop *Effort:* Medium (Hardware kit, assembly docs and calibration) ⚠ NOASSERTION: read license; repo moved to GitLab, check current terms
Openscad-studio zacharyfmarion/openscad-studio ★ 250 · **GPL** GPL-2.0 · App · Fit 3/5	AI-assisted desktop app for creating 2D and 3D designs in OpenSCAD. *Replaces:* Onshape, Tinkercad, Fusion 360	Hobby designers making printable parts	Premium plugins/add-ons Marketplace	• Prompt-to-OpenSCAD for makers • Design aids for maker-space classes • Parametric part generators for print shops	Free GPL; $12/mo AI credits *Effort:* Medium (Desktop app, AI usage costs, OpenSCAD dependency) ⚠ GPL-2.0; OpenSCAD and Onshape are trademarks; AI costs apply
Kiln codeofaxel/Kiln ★ 242 · **AGPL** AGPL-3.0 · Tool · Fit 3/5	Open-source MCP server letting AI agents design, slice and print on several 3D printer brands. *Replaces:* OctoPrint cloud, Obico, Printables print services	Print farms and makers wiring AI agents to printers	Managed hosting Setup + support retainer	• Print-farm automation for makerspaces • AI print queues for engineering teams • Remote print management for schools	$29/mo per printer farm, free self-host *Effort:* Medium (Multi-brand printer integrations, safety-sensitive) ⚠ AGPL-3.0: publish server changes; Bambu, Prusa and Creality are brands
build123d gumyr/build123d ★ 3.6k · **Permissive** Apache-2.0 · Library · Fit 2/5	Python CAD programming library for parametric 3D models *Replaces:* Fusion 360, CadQuery	Engineers, makers	Consulting/implementation Training/courses Agency service	• Parametric enclosure designer for electronics firms • Custom jig service for machine shops • CAD scripting course *Angle:* Run a custom part design-and-print bureau	$100/hr *Effort:* Medium (Library, designs are separate) ⚠ Apache-2.0; OCCT dependency
NopSCADlib nophead/NopSCADlib ★ 1.7k · **GPL** GPL-3.0 · Library · Fit 2/5	OpenSCAD library of parts for building 3D-printed projects *Replaces:* Fusion 360 libraries	3D-printer designers	Content/membership Agency service Training/courses	• Small-firm electronics enclosures • Custom 3D-printer frame design • Documented BOM generator for kits *Angle:* Design and print custom electronics enclosures for small firms	$150 per enclosure *Effort:* Medium (Library, needs designs) ⚠ GPL-3.0; derived designs must stay open
DotSCAD JustinSDK/dotSCAD ★ 937 · **Weak copyleft** LGPL-3.0 · Library · Fit 2/5	Helper library for OpenSCAD that reduces the math needed for parametric models. *Replaces:* Raw OpenSCAD scripts, CadQuery	OpenSCAD users writing parametric models	Training/courses Consulting/implementation	• OpenSCAD training for makers • Parametric parts for small manufacturers • Helper packs for CAD course instructors	Free LGPL; $800 parametric design service *Effort:* Low (Library, documentation and examples) ⚠ LGPL-3.0; OpenSCAD is an open-source project, check name use
Round-Anything Irev-Dev/Round-Anything ★ 683 · **Permissive** MIT · Library · Fit 2/5	OpenSCAD utilities for adding radii and fillets to parts with a robust approach. *Replaces:* BOSL2 fillet functions, manual fillet code	OpenSCAD designers making rounded parts	Training/courses Consulting/implementation	• Fillet libraries for enclosure designers • Parametric parts for product prototypers • OpenSCAD courses for maker spaces	Free MIT; $500 OpenSCAD fillet library work *Effort:* Low (Library, documentation and examples) ⚠ MIT; keep notice; OpenSCAD and BOSL2 have their own terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Threadlib adrianschlatter/threadlib ★ 486 · **Permissive** BSD-3-Clause · Library · Fit 2/5	OpenSCAD thread library for generating screw threads in 3D-printable parts. *Replaces:* BOSL2 threads, manual thread modeling	3D printing designers needing threaded parts	Training/courses Premium plugins/add-ons	• Threaded enclosures for hobby product makers • Bottle-cap parts for packaging prototypes • Thread modules for OpenSCAD teaching	Free BSD-3; $300 custom thread library work *Effort:* Low (Library, documentation for thread specs) ⚠ BSD-3-Clause: keep notice; check thread specs before real parts
threads-scad rcolyer/threads-scad ★ 305 · **Permissive** CC0-1.0 · Library · Fit 2/5	OpenSCAD library for generating threads and screw features *Replaces:* Fusion 360 thread tools	3D-print designers	Agency service Local service business Content/membership	• Custom bottle thread adapters • Replacement hose fittings • Threaded storage jars for cosmetics makers *Angle:* Print custom threaded caps and fittings on demand	$5-15 per printed part *Effort:* Low (Small library, simple) ⚠ CC0-1.0; no restrictions
Mendel90 nophead/Mendel90 ★ 273 · **Check** NONE · Hardware · Fit 2/5	RepRap Mendel 3D printer variant using sheet frames instead of rods. *Replaces:* Prusa i3 kits, Ender 3 kits	Makers building their own 3D printers	Hardware kits/assembly Consulting/implementation	• Build kits for makerspaces • Printer builds for school STEM labs • Frame kits for small print farms	$400 kit, $60 build guide *Effort:* High (Printer design, sourcing and safety compliance) ⚠ NONE license: read first; RepRap designs often have mixed licenses
Hob3l moehriegitt/hob3l ★ 266 · **GPL** GPL-3.0 · Tool · Fit 2/5	Fast slicer for OpenSCAD files that produces 3D printing output directly. *Replaces:* Slic3r, PrusaSlicer, Cura for SCAD files	OpenSCAD users slicing models directly	Premium plugins/add-ons Consulting/implementation	• SCAD slicing for hobby print shops • Fast slicing for batch part printing • Slicing services for OpenSCAD designers	Free GPL; $50 slicing profile pack *Effort:* Medium (Slicer tool, niche audience, printer profiles needed) ⚠ GPL-3.0; distributed binaries must ship source; OpenSCAD is a brand
RetroWiFiModem mecparts/RetroWiFiModem ★ 259 · **GPL** GPL-3.0 · Hardware · Fit 2/5	ESP8266 RS232 to WiFi modem with Hayes AT commands and LED indicators. *Replaces:* Commercial serial-to-WiFi modems, Lantronix devices	Retro computing hobbyists needing WiFi modems	Hardware kits/assembly Content/membership	• Retro BBS modems for vintage computing clubs • Serial-to-WiFi gateways for legacy gear • Modem kits for retro game archives	$39 kit, $10 firmware support *Effort:* Medium (Hardware and firmware, RS232 level translation) ⚠ GPL-3.0; distributed kits must ship source; RS232 safety basics
cq-gridfinity michaelgale/cq-gridfinity ★ 205 · **Permissive** MIT · Library · Fit 2/5	Python library to build parametric Gridfinity baseplates and boxes *Replaces:* Systainer inserts	Makers	Agency service API/usage-based Local service business	• Online Gridfinity bin generator for shops • Custom tool drawer layouts for garages • Bulk bin printing for hardware stores *Angle:* Generate custom-fit toolbox inserts as a paid service	$5-12 per bin *Effort:* Medium (Python script, needs web UI) ⚠ MIT; Gridfinity design credit
Shimonbox ubitux/shimonbox ★ 200 · **Check** NONE · Hardware · Fit 2/5	Semi-automatically generated 3D printable cases for development boards using OpenSCAD. *Replaces:* Commercial dev-board cases, Adafruit enclosures	Developers prototyping with dev boards	Hardware kits/assembly Premium plugins/add-ons	• Cases for prototype dev boards at hackathons • Enclosures for classroom microcontroller kits • Board cases for IoT makers	$12 per case design pack *Effort:* Low (Design files, per-board parameters) ⚠ NONE license: read first; board names and logos may be trademarked

OrcaSlicer OrcaSlicer/OrcaSlicer ★ 16.4k · **AGPL** AGPL-3.0 · App · Fit 4/5	Open-source G-code slicer for Bambu Lab, Prusa, Voron and other 3D printers. *Replaces:* Bambu Studio, PrusaSlicer, Simplify3D	Print farms and 3D printer owners slicing parts	Managed hosting Premium plugins/add-ons	• Slicer presets for school print labs • Profile packs for print-farm operators • Slicer support for dental model printing	Free AGPL; $49/yr support for print farms *Effort:* High (Large C++ slicer, printer profile maintenance heavy) ⚠ AGPL-3.0: publish server changes; Bambu, Prusa and Voron are brands

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cura Ultimaker/Cura ★ 7.1k · Weak copyleft LGPL-3.0 · App · Fit 4/5	Open-source 3D printer slicing GUI built on the Uranium framework. *Replaces:* Simplify3D, PrusaSlicer, Bambu Studio	Makers and print farms slicing STL files	Premium plugins/add-ons Marketplace	• Plugin marketplace for print farms • Slicer profiles for education labs • Branded slicers for printer resellers	Free LGPL; $199 branded slicer build *Effort:* Medium (Plugin system, Ultimaker brand and profiles) ⚠ LGPL-3.0; Ultimaker and Cura are trademarks; rename before branding
Bambuddy maziggy/bambuddy ★ 3.3k · AGPL AGPL-3.0 · Platform · Fit 4/5	Self-hosted command center for Bambu Lab printers, from one printer to a full print farm. *Replaces:* Bambu Cloud, Obico, print-farm management software	Print farms and makerspaces running Bambu Lab printers	Managed hosting Setup + support retainer	• Print-farm dashboards for makerspaces • Job queues for school 3D-print labs • Fleet monitoring for production print shops	$25/mo per print farm, free self-host *Effort:* Medium (Printer integrations, Bambu Lab API changes) ⚠ AGPL-3.0: publish server changes; Bambu Lab is a trademark; API changes
Mainsail mainsail-crew/mainsail ★ 2.2k · GPL GPL-3.0 · App · Fit 4/5	Web interface for Klipper 3D printers *Replaces:* Bambu Handy, OctoPrint, Prusa Connect	Klipper users	Hardware kits/assembly Managed hosting Setup + support retainer	• Touchscreen printer controller bundles • Remote monitoring subscriptions for print shops • Print farm dashboards *Angle:* Bundle touchscreen control units with Mainsail for printer retrofits	$15/mo hosted farm view *Effort:* Low (Web UI theming simple) ⚠ GPL-3.0; needs Klipper stack
Fluidd fluidd-core/fluidd ★ 1.8k · GPL GPL-3.0 · App · Fit 4/5	Web UI for Klipper 3D printer firmware for controlling and monitoring prints. *Replaces:* Mainsail, OctoPrint web UI, Duet web control	Klipper owners and print farm operators	Managed hosting Premium plugins/add-ons	• Print-farm dashboards for makerspaces • Printer UIs for school 3D labs • Klipper control UIs for kit makers	Free GPL; $30 per printer UI themes *Effort:* Low (Web UI, theming and branding) ⚠ GPL-3.0; Klipper and Mainsail are third-party projects; hosted use fine
Marlin MarlinFirmware/Marlin ★ 17.7k · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware for RepRap 3D printers on 8-bit and 32-bit boards *Replaces:* Proprietary printer firmware	Printer makers, repair shops	Local service business Hardware kits/assembly Consulting/implementation	• Flash and tune service for printer owners • Custom firmware for small printer makers • Printer upgrade kits for schools *Angle:* Local printer repair shop flashing and upgrading Marlin machines	$50-150 per service *Effort:* Medium (Firmware, hardware customisation) ⚠ GPL-3.0; Marlin name; printer safety
Klipper Klipper3d/klipper ★ 12.0k · GPL GPL-3.0 · Hardware · Fit 3/5	3D printer firmware using a host computer for fast motion control *Replaces:* Marlin, proprietary firmware	Printer enthusiasts, print farms	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Klipper retrofit for Ender owners • Print farm setup for small shops • Preconfigured Klipper boards *Angle:* Retrofit customer printers with Klipper boards for speed upgrades	$99-250 per retrofit *Effort:* Medium (Config-driven, hardware dependent) ⚠ GPL-3.0; Klipper name
OctoPrint OctoPrint/OctoPrint ★ 9.2k · AGPL AGPL-3.0 · App · Fit 3/5	Web interface for monitoring and controlling 3D printers *Replaces:* Bambu Handy, Prusa Connect, AstroPrint	3D printer owners	Hardware kits/assembly Managed hosting Setup + support retainer	• Plug-and-play Pi print servers with cameras • Remote print management for print farms • Classroom printer queue *Angle:* Sell plug-and-play Pi print servers with cameras preinstalled	$129 kit, $10/mo hosted *Effort:* Medium (Python app, plugin ecosystem) ⚠ AGPL-3.0; OctoPrint name and logo trademarked
Voron 2.4 VoronDesign/Voron-2 ★ 4.6k · GPL GPL-3.0 · Hardware · Fit 3/5	Open CoreXY 3D printer design Voron 2.4 with CAD and BOM *Replaces:* Prusa Core One, Bambu X1	Advanced printer builders	Hardware kits/assembly Setup + support retainer Training/courses	• Sourced Voron 2.4 kit with build help • Printed-parts packs for builders • Print farm turnkey builds *Angle:* Sell sourced Voron 2.4 kits plus paid build-and-tune service	$1,200-1,800 per kit *Effort:* Medium (Complex sourcing and tuning) ⚠ GPL-3.0 design; Voron name trademark; printed parts policy
Kiauh dw-0/kiauh ★ 4.6k · GPL GPL-3.0 · Tool · Fit 3/5	Installer and update helper for Klipper 3D printer firmware setups. *Replaces:* Manual Klipper setup, OctoPrint plugins	Klipper printer owners and print farm admins	Setup + support retainer Consulting/implementation	• Klipper setup for print farms • Printer maintenance for makerspaces • Firmware updates for school 3D printers	Free GPL; $75 per printer setup service *Effort:* Low (Installer script, mostly branding and docs) ⚠ GPL-3.0; Klipper and Moonraker are third-party projects

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Slic3r slic3r/Slic3r ★ 3.7k · AGPL AGPL-3.0 · App · Fit 3/5	Open-source toolpath generator for 3D printers, one of the original slicers. *Replaces:* PrusaSlicer, Cura, Simplify3D	3D printer owners generating toolpaths	Premium plugins/add-ons Consulting/implementation	• Print profiles for school labs • Toolpath tuning for print-farm operators • Slicer workshops for makerspaces	Free AGPL; $40/hr print-profile tuning *Effort:* High (Mature slicer, forks dominate, profile upkeep) ⚠ AGPL-3.0: publish server changes; Slic3r name is a brand; forks exist
Spoolman Donkie/Spoolman ★ 3.0k · Permissive MIT · Platform · Fit 3/5	Self-hosted inventory tracker for 3D-printer filament spools. *Replaces:* Filaman, filament inventory apps, spreadsheet trackers	Print farms tracking filament stock	Managed hosting Setup + support retainer	• Filament inventory for print shops • Spool tracking for school 3D labs • Material stock for prototype studios	$8/mo managed per shop, free self-host *Effort:* Low (Self-hosted app, branding and hosting only) ⚠ MIT; keep notice; filament brand names may be trademarked
Enraged Rabbit Carrot Feeder EtteGit/EnragedRabbitProject ★ 2.6k · GPL GPL-3.0 · Hardware · Fit 3/5	Multi-material filament changer ERCF for Voron-style printers *Replaces:* Bambu AMS, Prusa MMU	Multi-color printer builders	Hardware kits/assembly Setup + support retainer Local service business	• ERCF kits for Voron owners • ERCF install service • Preassembled ERCF units for print farms *Angle:* Sell multi-material ERCF kits and install them on Vorons	$150-250 per kit *Effort:* Medium (Mechanical build, many parts) ⚠ GPL-3.0; project superseded by newer MMU designs
Ha-bambulab greghesp/ha-bambulab ★ 2.4k · Permissive MIT · Tool · Fit 3/5	Home Assistant integration for Bambu Lab 3D printers showing status and controls. *Replaces:* Bambu Cloud app, Obico Home Assistant plugin	Home Assistant users with Bambu printers	Setup + support retainer Premium plugins/add-ons	• Printer status for home makers • Print alerts for makerspaces • Printer dashboards for print-farm hobbyists	Free MIT; $120 HA setup per printer *Effort:* Low (HA integration, config and docs) ⚠ MIT; Bambu Lab is a trademark; API may change without notice
ESP3D luc-github/ESP3D ★ 2.0k · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware for ESP8266 and ESP32 boards that adds web control to 3D printers. *Replaces:* OctoPrint WiFi modules, Duet WiFi	Printer builders adding WiFi control	Hardware kits/assembly Setup + support retainer	• WiFi modules for printer kit makers • Remote control for school 3D printers • Web control for CNC hobby builds	$35 ESP32 WiFi kit, $25 setup *Effort:* Medium (Firmware for many boards, support burden) ⚠ GPL-3.0; distributed firmware must ship source; ESP is a brand
Voron 0 VoronDesign/Voron-0 ★ 1.7k · GPL GPL-3.0 · Hardware · Fit 3/5	Compact CoreXY 3D printer design Voron 0 with CAD and BOM *Replaces:* Bambu A1 mini, Creality	Small printer builders	Hardware kits/assembly Setup + support retainer Training/courses	• Compact V0 kits for hobbyists • Printed-parts packs for students • V0 build course *Angle:* Sell compact V0 kits and printed-parts packs to hobbyists	$450-700 per kit *Effort:* Medium (Sourcing and tuning heavy) ⚠ GPL-3.0; Voron trademark; commercial use limits on printed parts
Voron Stealthburner VoronDesign/Voron-Stealthburner ★ 1.3k · GPL GPL-3.0 · Hardware · Fit 3/5	Voron Stealthburner toolhead design files *Replaces:* Bambu toolheads	Voron builders	Hardware kits/assembly Local service business Content/membership	• Printed Stealthburner kits with LEDs • Toolhead wiring harnesses • Build service for Voron owners *Angle:* Sell printed toolhead kits with LEDs and wiring harnesses	$60-100 per kit *Effort:* Medium (Mechanical, many parts) ⚠ GPL-3.0; Voron trademark; printed-parts rules
Box Turtle ArmoredTurtle/BoxTurtle ★ 1.2k · GPL GPL-3.0 · Hardware · Fit 3/5	Modular multi-filament changer for Klipper 3D printers *Replaces:* Bambu AMS, Prusa MMU	Klipper printer owners	Hardware kits/assembly Setup + support retainer Local service business	• Assembled BoxTurtle units • Turtle install and tuning service • Multi-material upgrade for print farms *Angle:* Sell assembled multi-filament changers for Klipper printers	$250-450 per unit *Effort:* Medium (Mechanical, needs Klipper config) ⚠ GPL-3.0; derivative sale rules
Voron Trident VoronDesign/Voron-Trident ★ 1.1k · Check NONE · Hardware · Fit 3/5	Voron Trident CoreXY printer design files *Replaces:* Bambu X1, Prusa XL	Print farm builders	Hardware kits/assembly Setup + support retainer Local service business	• Turnkey Trident for print farms • Printed parts and sourcing packs • Build and tune service *Angle:* Build turnkey Trident printers for small print farms with warranty	$1,500-2,500 per printer *Effort:* Medium (Complex build, sourcing) ⚠ License NONE here, GPL upstream; Voron trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Happy Hare moggieuk/Happy-Hare ★ 1.1k · GPL GPL-3.0 · Tool · Fit 3/5	Klipper driver software for multi-material units like ERCF and BoxTurtle *Replaces:* Bambu AMS software	Multi-filament printer owners	Setup + support retainer Consulting/implementation Hardware kits/assembly	• MMU setup and calibration service • Print farm multi-filament installs • Preflashed MMU boards *Angle:* Offer MMU setup and calibration service for print farms	$80-180 per install *Effort:* Medium (Klipper plugin, config-heavy) ⚠ GPL-3.0; hardware-dependent support burden
RatOS Rat-OS/RatOS ★ 235 · GPL GPL-3.0 · Tool · Fit 3/5	Preconfigured Raspberry Pi image running Klipper, Moonraker and Mainsail *Replaces:* Prusa Connect, OctoPrint	Rat Rig printer owners	Hardware kits/assembly Setup + support retainer Managed hosting	• Preflashed Pi cards with RatOS • Print farm controller boxes • Remote support subscription for printer shops *Angle:* Sell preconfigured control boards for Rat Rig style printers	$49 per card, $20/mo support *Effort:* Low (Prebuilt image, minimal brand) ⚠ GPL-3.0; Rat Rig trademark
Oomwoo makerspet/oomwoo ★ 13.0k · Permissive Apache-2.0 · Hardware · Fit 2/5	Open-source vacuum robot cleaner design released under Apache-2.0. *Replaces:* Roomba, Eufy, Dreame	Robot hobbyists building home vacuums	Hardware kits/assembly Consulting/implementation	• Robot vacuum kits for makerspaces • Vacuum prototypes for university robotics • Cleaning bots for small property firms	$600 DIY kit, $200 setup *Effort:* High (Robot hardware, safety and certification needed) ⚠ Apache-2.0; appliance safety certification required; Roomba is a brand
Keychron-Keyboards-Hardware-Design Keychron/Keychron-Keyboards-Hardware-Design ★ 3.8k · Check NOASSERTION · Content · Fit 2/5	Industrial design files for Keychron keyboards and mice in STEP, DXF, DWG and PDF.	Accessory makers designing compatible keyboard parts	Premium plugins/add-ons Hardware kits/assembly	• Compatible keycap sets for keyboard shops • Mounting plates for custom keyboard builders • Replacement cases for Keychron owners	Free files; license fee for commercial accessory sales *Effort:* Medium (Brand-specific designs, license terms govern use) ⚠ NOASSERTION: read license; Keychron is a trademark; commercial limits apply
KLP-Lame-Keycaps braindefender/KLP-Lame-Keycaps ★ 2.3k · Weak copyleft CC-BY-SA-4.0 · Hardware · Fit 2/5	Sculpted, curved keycap designs for Kailh Choc and MX switches. *Replaces:* Commercial sculpted keycap sets, GMK keycaps	Keyboard enthusiasts wanting custom keycaps	Hardware kits/assembly Marketplace	• Keycap sets for keyboard vendors • Custom caps for group buys • Print files for keycap printing shops	$25 print file pack, $60 printed set *Effort:* Low (Design files, print or sell caps) ⚠ CC-BY-SA-4.0: share-alike applies; Kailh and Cherry are trademarks
Configurations MarlinFirmware/Configurations ★ 2.3k · GPL GPL-3.0 · Tool · Fit 2/5	Example configuration files for Marlin 3D printer firmware. *Replaces:* Commercial printer firmware, Klipper profiles	Printer makers and firmware integrators	Consulting/implementation Setup + support retainer	• Firmware configs for kit makers • Printer setup for school 3D labs • Config tuning for print-farm operators	Free GPL; $150 per printer firmware setup *Effort:* Low (Config files, mostly per-printer tuning) ⚠ GPL-3.0; Marlin is an open-source project, keep notices
Sdf fogleman/sdf ★ 2.0k · Permissive MIT · Library · Fit 2/5	Python library generating signed-distance-field meshes for 3D printable shapes. *Replaces:* Blender geometry nodes, generative design software	Designers making organic 3D-printable shapes	Consulting/implementation Training/courses	• Organic lamp shades for product designers • Lattice parts for furniture makers • SDF training for CAD instructors	Free MIT; $1200 custom mesh design *Effort:* Low (Python library, design tooling) ⚠ MIT; keep notice; mesh output needs printability checks
Original Prusa i3 prusa3d/Original-Prusa-i3 ★ 1.7k · GPL GPL-2.0 · Hardware · Fit 2/5	Printed parts and design files for the Original Prusa i3 MK2 *Replaces:* Bambu A1, Creality	Hobbyists	Hardware kits/assembly Local service business Setup + support retainer	• Assembled i3-style printers for schools • Spare printed parts kits • MK2 refurbishment for hobbyists *Angle:* Sell assembled i3-style printers and spare parts kits to schools and makers	$300-600 assembled *Effort:* Medium (Obsolete design, mechanical build) ⚠ GPL-2.0 design; Prusa trademark
Prusa Firmware Buddy prusa3d/Prusa-Firmware-Buddy ★ 1.6k · Check NOASSERTION · Hardware · Fit 2/5	Firmware for Original Prusa MINI, MK4, XL and CORE One printers *Replaces:* Bambu firmware	Prusa printer owners	Local service business Setup + support retainer Consulting/implementation	• Prusa refurbishment and upgrade service • Firmware tuning for print farms • Prusa repair shop *Angle:* Offer printer refurbishment and firmware upgrade service for MK4/XL fleets; NC terms in repo, license before selling	$75-200 per service *Effort:* High (Tied to Prusa hardware) ⚠ NOASSERTION licence; Prusa trademark and hardware rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Bear Upgrade gregsaun/prusa_i3_bear_upgrade ★ 1.0k · GPL GPL-3.0 · Hardware · Fit 2/5	Stronger aluminum frame upgrade design for Prusa i3 MK2/MK3 *Replaces:* Prusa original frame	Prusa MK3 owners	Hardware kits/assembly Local service business Content/membership	• Aluminum Bear frame kits for MK3 • Install service for print shops • Upgrade parts bundle *Angle:* Sell aluminum Bear frame kits for Prusa MK3 owners	$120-220 per kit *Effort:* Medium (Mechanical kit, sourcing) ⚠ GPL-3.0; Prusa trademark; aging printer base
Voron Switchwire VoronDesign/Voron-Switchwire ★ 572 · GPL GPL-3.0 · Hardware · Fit 2/5	Voron Switchwire CoreXY conversion for Ender-style printers *Replaces:* Creality upgrades	Ender owners	Hardware kits/assembly Local service business Setup + support retainer	• Ender to Switchwire kits • Install service for school labs • Printed parts packs *Angle:* Offer Ender-to-Switchwire conversion kits and installation	$250-500 per kit *Effort:* Medium (Mechanical conversion) ⚠ GPL-3.0; Voron trademark

Agriculture Machinery · 19

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AgOpenGPS AgOpenGPS-Official/AgOpenGPS ★ 980 · Permissive Apache-2.0 · App · Fit 4/5	Precision agriculture mapping, section control and autosteer guidance software *Replaces:* John Deere AutoTrac, Trimble Ag, Raven	Farmers, ag retrofitters	Hardware kits/assembly Setup + support retainer Local service business	• Low-cost tractor autosteer kits • Seeder section control retrofits • Vineyard row guidance installs *Angle:* Install low-cost tractor autosteer kits for farmers	$1,500-3,500 per kit *Effort:* High (Windows app, hardware integration) ⚠ Apache-2.0; machine safety liability
SIP Irrigation Dan-in-CA/SIP ★ 421 · Check NONE · Tool · Fit 3/5	Raspberry Pi sprinkler irrigation controller with web UI *Replaces:* Rachio, Hunter Hydrawise, Orbit B-hyve	Homeowners, small growers	Hardware kits/assembly Local service business Setup + support retainer	• Smart sprinkler controller for orchards • Greenhouse irrigation boxes • Lawn care route controller *Angle:* Install smart irrigation controllers for orchards	$149-299 per controller *Effort:* Medium (Python on Pi, relay hardware) ⚠ License NONE listed; get permission; electrical work safety
Shengji rbtying/shengji ★ 102 · Permissive MIT · Game · Fit 3/5	Online multiplayer web version of Shengji and Zhaopengyou card games. *Replaces:* Online card-game portals, Tabletop Simulator	Chinese card-game players and online game communities	Premium plugins/add-ons Mobile app on top	• Shengji tournaments for diaspora clubs • Private card rooms for family reunions • Team-building card nights for remote companies	Free core; $3-5/mo for private rooms *Effort:* Medium (multiplayer web app needs hosting and moderation) ⚠ MIT permits reuse; multiplayer hosting needs abuse and moderation tools
AgOpenGPS Hardware GormR/HW_for_AgOpenGPS ★ 74 · Check NOASSERTION · Hardware · Fit 3/5	Hardware designs for autosteer and RTK-GNSS units for AgOpenGPS *Replaces:* Trimble, John Deere AutoTrac	Farm tech tinkerers	Hardware kits/assembly Local service business Setup + support retainer	• Assembled RTK autosteer boxes • Tractor guidance install • GNSS base station kits *Angle:* Assemble and sell RTK autosteer boxes to farms; NC terms in repo, license before selling	$600-1,200 per box *Effort:* High (PCB assembly, calibration) ⚠ NOASSERTION; likely non-commercial terms, read before selling
AOG GPS ESP32 mtz8302/AOG_GPS_ESP32 ★ 47 · GPL GPL-3.0 · Hardware · Fit 3/5	ESP32 dual GPS bridge that calculates heading for AgOpenGPS *Replaces:* Trimble dual antenna	Tractor guidance builders	Hardware kits/assembly Local service business Setup + support retainer	• Dual-GNSS heading boards for tractors • Install service for retrofit kits • Preassembled ESP32 GPS modules *Angle:* Sell dual-GNSS heading receivers for tractors	$120-220 per board *Effort:* Medium (Firmware plus PCB) ⚠ GPL-3.0; ublox hardware dependency
AG_NTRIP_ESP Coffeetrac/AG_NTRIP_ESP ★ 43 · GPL GPL-3.0 · Hardware · Fit 3/5	ESP32 rooftop GPS controller using an NTRIP client and an IMU. *Replaces:* Trimble RTK guidance, Raven autosteer controllers	Small farms and contractors needing RTK guidance	Hardware kits/assembly Consulting/implementation	• RTK autosteer retrofits for orchards • Low-cost GPS guidance for vineyards • Survey rigs for small grading contractors	Kit $250-400 per unit plus setup *Effort:* Medium (ESP32 firmware, needs field and safety testing) ⚠ GPL-3.0: distributed firmware must ship source; agricultural safety liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Autosteer_ESP Coffeetrac/Autosteer_ESP ★ 38 · GPL GPL-3.0 · Hardware · Fit 3/5	ESP32 Wi-Fi autosteer firmware sketch for steering tractors. *Replaces:* John Deere StarFire autosteer, Trimble autosteer	Small-acreage farmers retrofitting older tractors	Hardware kits/assembly Consulting/implementation	• Autosteer retrofits for hobby farms • Steering kits for smallholder farmers • Autosteer for lawn-mower fleets	$300-600 kit; install service $150 per vehicle *Effort:* High (safety-critical steering, extensive field testing) ⚠ GPL-3.0 source rule applies; vehicle safety and regulatory liability
Framework-reproducibility NVIDIA/framework-reproducibility ★ 431 · Permissive Apache-2.0 · Library · Fit 2/5	Helps deep learning framework runs produce reproducible, deterministic results.	ML researchers needing repeatable training results	Consulting/implementation Training/courses	• Reproducibility audits for academic ML labs • Deterministic training setup for medical imaging teams • Repro checks for ML model vendors	Consulting $150-250/hr per engagement *Effort:* Medium (framework-specific, needs ML expertise) ⚠ Apache-2.0 permits reuse; NVIDIA is a trademark, avoid implied endorsement
TinyORM silverqx/TinyORM ★ 353 · Permissive MIT · Library · Fit 2/5	C++ object-relational mapping library for modern database access. *Replaces:* Qt SQL, ODB, SOCI	C++ developers building database-backed desktop or server apps	Consulting/implementation Setup + support retainer	• ORM migrations for legacy C++ desktop apps • Persistence layers for embedded Qt tools • Database access for C++ trading back-ends	Support retainer $1-3k per year per company *Effort:* Medium (C++ library, niche ecosystem, needs packaging) ⚠ MIT permits reuse; C++ build complexity; small maintainer base
Typeorm-extension tada5hi/typeorm-extension ★ 269 · Permissive MIT · Library · Fit 2/5	TypeORM utilities to create, drop and seed databases, plus URL query support.	Node.js backend teams using TypeORM with SQL databases	Consulting/implementation Premium plugins/add-ons	• TypeORM seeding for NestJS test suites • URL query filtering for REST APIs • Database fixtures for Express startups	Free MIT; paid support $200/mo per team *Effort:* Low (small focused utility, easy to wrap) ⚠ MIT permits all commercial use; thin library value, maintenance unclear
Laravel-seeder-generator tyghaykal/laravel-seeder-generator ★ 83 · Permissive MIT · Library · Fit 2/5	Laravel package that generates seeders from data in your existing database.	Laravel developers building test or staging databases	Premium plugins/add-ons Consulting/implementation	• Seeder generation for Laravel agencies • Staging data snapshots for SaaS QA • Anonymized seed exports for demo sites	Free MIT; $49 one-time for anonymization add-on *Effort:* Low (small MIT package, easy to fork) ⚠ MIT permits reuse; generated seeds risk leaking personal data
Laravel-json-seeder TimoKoerber/laravel-json-seeder ★ 48 · Permissive MIT · Library · Fit 2/5	Laravel package that seeds database tables from JSON files.	Laravel teams keeping fixtures as JSON files	Consulting/implementation Premium plugins/add-ons	• JSON fixtures for Laravel QA teams • Demo data loading for Laravel agencies • Structured content imports for CMS builds	Free MIT; paid support $100/mo per team *Effort:* Low (small MIT package, single purpose) ⚠ MIT permits reuse; tiny package with likely few maintainers
Goseeder kristijorgji/goseeder ★ 48 · Permissive MIT · Library · Fit 2/5	Go database seeder modelled on Laravel and Lumen seeding conventions.	Go backend teams seeding test databases	Consulting/implementation Training/courses	• Test data seeding for Go fintech teams • Seeder tooling for Go bootcamp students • Dev environment setup for Go agencies	Free MIT; $75 per-team setup package *Effort:* Low (Go library, minimal branding needed) ⚠ MIT permits reuse; verify which databases it supports
AOG Rate Control SK21/AOG_RC ★ 45 · GPL GPL-3.0 · Hardware · Fit 2/5	Rate control hardware and firmware for AgOpenGPS sprayers *Replaces:* Raven Viper, Trimble Field-IQ	Farmers, retrofitters	Hardware kits/assembly Local service business Setup + support retainer	• Variable-rate sprayer retrofit kits • Fertilizer spreader controller installs • Calibration service for contractors *Angle:* Install variable-rate fertilizer control on sprayers	$400-900 per kit *Effort:* High (Electronics and flow calibration) ⚠ GPL-3.0; chemical application liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nestjs-seeder hodfords-solutions/nestjs-seeder ★ 45 · Check NONE · Library · Fit 2/5	NestJS module that generates and manages mock seed data for testing. *Replaces:* Mockaroo, hand-written test fixtures	NestJS teams needing realistic test and demo data	Consulting/implementation Setup + support retainer	• Mock API data for NestJS frontend teams • Seed data for NestJS hackathons • QA fixtures for Nest-based fintech	Free core; $99-299 one-time setup per project *Effort:* Low (npm package, standard NestJS conventions) ⚠ License NONE means no reuse rights; ask the owner first
Magento-2-seeder run-as-root/magento-2-seeder ★ 38 · Permissive MIT · Library · Fit 2/5	Magento 2 seeder generating products, orders, customers, CMS pages and reviews. *Replaces:* Magento sample data packages, Mockaroo	Magento agencies building staging and demo stores	Consulting/implementation Agency service	• Demo store seeding for Magento agencies • Load-test data for Mage-OS shops • Sandboxes for Magento developer courses	Free MIT; $200-500 per store seeding setup *Effort:* Low (Magento module, MIT, easy to rename) ⚠ MIT permits reuse; Magento and Mage-OS are trademarks
Generic-seeder team-exor/generic-seeder ★ 38 · Check NONE · Tool · Fit 2/5	Lightweight DNS seeder server for altcoins cloned from Bitcoin.	Crypto projects launching Bitcoin-derived altcoins	Setup + support retainer Consulting/implementation	• DNS seeders for new altcoin launches • Seed nodes for small Bitcoin-fork chains • Explorer-linked seed infrastructure for token projects	Setup $1-3k per chain; support $300/mo *Effort:* Medium (crypto-specific config, needs security review) ⚠ License NONE means no reuse rights; crypto network operations and key risk
Aws-cdk-dynamodb-seeder elegantdevelopment/aws-cdk-dynamodb-seeder ★ 38 · Permissive Apache-2.0 · Library · Fit 2/5	Simple AWS CDK construct for seeding DynamoDB tables.	AWS teams deploying DynamoDB-backed serverless apps	Consulting/implementation Setup + support retainer	• DynamoDB seed data for serverless startups • Config table bootstrapping for SaaS platforms • Test table setup for CDK pipelines	Free Apache; $150-400 per pipeline setup *Effort:* Low (small construct, Apache-2.0, easy to fork) ⚠ Apache-2.0 fine; AWS and DynamoDB are Amazon trademarks
Automated Garden calvinmclean/automated-garden ★ 35 · Permissive Apache-2.0 · Tool · Fit 2/5	Weather-based smart irrigation controller and backend *Replaces:* Rachio, Rain Bird	DIY gardeners	Hardware kits/assembly Local service business Setup + support retainer	• Smart irrigation for landscapers • Greenhouse watering controllers • Rooftop garden irrigation kits *Angle:* Install weather-based irrigation for landscapers	$150-350 per install *Effort:* Medium (Go backend plus microcontroller) ⚠ Apache-2.0; small project

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Vindriktning Hack Hypfer/esp8266-vindriktning-particle-sensor ★ 1.2k · Permissive Apache-2.0 · Hardware · Fit 3/5	ESP8266 mod that adds WiFi MQTT logging to IKEA VINDRIKTNING PM2.5 sensor *Replaces:* IKEA Starkvind app, Airthings	Smart home hobbyists	Hardware kits/assembly Local service business Setup + support retainer	• Pre-modified IKEA sensors for HA users • Classroom air quality mod kits • Office air logging installs *Angle:* Sell WiFi-upgraded IKEA air sensors	$35 per modded sensor *Effort:* Low (Simple mod, widely documented) ⚠ Apache-2.0; IKEA product warranty void
Halo yashmulgaonkar/halo ★ 958 · Check NOASSERTION · Hardware · Fit 3/5	ESP32 air quality monitor with RGB ring and touchscreen *Replaces:* Awair, Airthings, Netatmo	Smart home owners, office managers	Hardware kits/assembly Content/membership Local service business	• Designer air quality lamps for offices • Classroom CO2 monitors for schools • Cafe air quality displays *Angle:* Sell designer air quality lamps; NC terms in repo, license before selling	$99-179 per unit *Effort:* Medium (PCB and enclosure assembly) ⚠ NOASSERTION, likely non-commercial terms, read license first
Sensor.Community opendata-stuttgart/sensors-software ★ 612 · Check NONE · Hardware · Fit 3/5	Firmware for the Luftdaten particulate matter sensor network *Replaces:* PurpleAir, Airly	Citizens, city agencies	Hardware kits/assembly Setup + support retainer Local service business	• Preassembled particulate sensors for citizens • Neighborhood air network kits • School air quality packages *Angle:* Sell preassembled particulate sensors to citizens and councils	$45-80 per sensor *Effort:* Low (Simple firmware, kit-friendly) ⚠ License NONE here, GPL upstream; check

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenAir Firmware Open-Air-Foundation/firmware-one-openair ★ 389 · **Weak copyleft** CC-BY-SA-4.0 · Hardware · Fit 3/5	Firmware for AirGradient ONE indoor and Open Air outdoor air quality monitors *Replaces:* Awair, Airthings, PurpleAir, Kaiterra	Schools and offices tracking CO2 and PM2.5	Hardware kits/assembly Setup + support retainer Managed hosting	• Classroom CO2 monitors for schools • Outdoor PM2.5 networks for municipalities • Indoor air dashboards for coworking spaces *Angle:* Install outdoor AQ monitors for municipalities	$99-199 per unit, $5/mo dashboard *Effort:* Medium (Needs hardware sourcing and certification) ⚠ CC-BY-SA share-alike; AirGradient trademark and hardware branding
Openair openair-project/openair ★ 368 · **Check** NOASSERTION · Library · Fit 3/5	Open-source R tools for analysing air quality monitoring data. *Replaces:* Commercial air-quality analytics platforms, consultancy reporting tools	Environmental consultancies and councils analysing monitoring data	Consulting/implementation Training/courses	• Air quality reporting for city councils • Emissions analysis for industrial consultancies • R training for environmental health officers	Consulting $1-3k per monitoring report *Effort:* Medium (R package, needs wrapper app for non-R users) ⚠ NOASSERTION license: read before reuse; openair is a known R project name
Py-air-control rgerganov/py-air-control ★ 288 · **Permissive** MIT · Tool · Fit 3/5	Command-line app for controlling Philips air purifiers. *Replaces:* Vendor mobile apps for Philips purifiers	Smart-home users owning Philips air purifiers	Premium plugins/add-ons Consulting/implementation	• Purifier automation for allergy sufferers • Home Assistant purifier control for property managers • Air control for small clinic waiting rooms	Free MIT; $29 one-time for HA integration *Effort:* Medium (single-brand CLI, device-dependent) ⚠ MIT permits reuse; Philips trademark; protocol reverse-engineered, check risk
Humidity-intelligence senyo888/humidity-intelligence ★ 251 · **Permissive** MIT · Tool · Fit 3/5	Home Assistant engine stabilising humidity, dew point and comfort with explainable decisions. *Replaces:* Smart humidifier auto-modes, commercial HVAC comfort controllers	Home Assistant users with humidifiers or dehumidifiers	Premium plugins/add-ons Setup + support retainer	• Mold prevention for rental landlords • Humidity control for wine cellars • Dew-point alerts for greenhouse hobbyists	Free MIT; $30-60 one-time setup support *Effort:* Medium (HA-specific, needs onboarding and UI) ⚠ MIT permits reuse; device-control liability, test before automating HVAC
Gis4wrf GIS4WRF/gis4wrf ★ 188 · **Permissive** MIT · Tool · Fit 3/5	QGIS toolkit for preparing, visualising and running Weather Research and Forecasting simulations. *Replaces:* ArcGIS WRF add-ons, standalone meteorological model GUIs	Atmospheric modellers and environmental consultancies using WRF	Consulting/implementation Training/courses	• WRF setup for air-dispersion consultants • QGIS weather modelling workshops for universities • Wind-farm siting studies for renewables developers	Training $800-1500 per course; plugin free *Effort:* Medium (QGIS plugin, needs domain expertise to support) ⚠ MIT permits reuse; WRF belongs to NCAR, keep attribution correct
UrbanReflex minhe51805/UrbanReflex ★ 133 · **GPL** GPL-3.0 · Platform · Fit 3/5	Smart-city platform linking road segments to environmental data and citizen reports. *Replaces:* SeeClickFix-style reporting apps, city asset dashboards	Municipal public-works teams and city councils	Vertical SaaS Setup + support retainer	• Pothole reporting for mid-size towns • Air-quality alerts for school districts • Road-asset tracking for county highway departments	$500-2000/mo per city, scaled by road km *Effort:* High (multi-component platform, municipal integrations, procurement) ⚠ GPL-3.0 fine for hosting; citizen-data privacy rules apply
Ha-iaquk Limych/ha-iaquk ★ 129 · **Permissive** MIT · Tool · Fit 3/5	Home Assistant component computing indoor air quality from sensor inputs. *Replaces:* Commercial indoor air-quality monitors, smart-home comfort apps	Home Assistant users tracking indoor air quality	Premium plugins/add-ons Setup + support retainer	• IAQ dashboards for home offices • Ventilation checks for landlords • Classroom air-quality tracking for teachers	Free MIT; $20-40 one-time setup packs *Effort:* Medium (HA component, sensor-dependent, needs documentation) ⚠ MIT permits reuse; Home Assistant is a trademark; sensor compatibility varies

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Smogomierz hackerspace-silesia/Smogomierz ★ 127 · **Permissive** Apache-2.0 · Hardware · Fit 3/5	Cheap PM2.5 and PM10 sensor built on NodeMCU or ESP32 boards. *Replaces:* Commercial PM monitors, budget air-quality kits	Community groups and citizen-science air projects	Hardware kits/assembly Consulting/implementation	• Smog monitors for Polish municipalities • Citizen-science sensor kits for schools • Neighbourhood smoke watch in wood-stove areas	Kit $35-60; assembly service $20 per unit *Effort:* Medium (rename needed, kit assembly and accuracy checks) ⚠ Apache-2.0 fine; Smogly name is project brand, check accuracy claims
CO2 Gadget melkati/CO2-Gadget ★ 106 · **GPL** GPL-3.0 · Hardware · Fit 3/5	ESP32 CO2 monitor firmware with Android and iOS app, data logging and many connectivity options *Replaces:* Aranet4, Awair, Netatmo, Airthings	Schools and offices wanting cheap CO2 displays	Hardware kits/assembly White-label reseller Mobile app on top	• CO2 meters for school ventilation programs • Restaurant ventilation compliance monitors • CO2 loggers for church halls *Angle:* Sell CO2 meters to classrooms and offices	$45-90 per device *Effort:* Medium (Firmware and app exist, needs enclosure and QA) ⚠ GPL-3.0; app store apps must ship source
Smart Citizen Kit fablabbcn/smartcitizen-kit-2x ★ 62 · **GPL** GPL-3.0 · Hardware · Fit 3/5	Smart Citizen Kit 2.x environmental sensing board hardware and firmware for citizen science *Replaces:* PurpleAir, Airly, Kaiterra	Cities, universities and citizen science projects	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Urban noise and air kits for municipalities • University research sensor deployments • Community monitoring projects for neighborhoods *Angle:* Deploy environmental sensor networks for cities	$150-300 per kit *Effort:* Medium (Hardware design and platform tied to Smart Citizen) ⚠ GPL-3.0; Smart Citizen branding
AirGradient MallocArray/airgradient_esphome ★ 337 · **GPL** GPL-3.0 · Hardware · Fit 2/5	ESPHome config for DIY AirGradient monitor feeding Home Assistant and AirGradient servers *Replaces:* Awair, Airthings, Netatmo	Home Assistant hobbyists	Hardware kits/assembly Setup + support retainer Content/membership	• Preflashed monitors for Home Assistant users • Air quality kits for homeschoolers • Pre-configured sensors for smart home installers *Angle:* Sell indoor air monitors to schools; CC-BY-SA hardware allows sale	$80-150 per assembled kit *Effort:* Low (Config file only, hardware by AirGradient) ⚠ GPL-3.0; AirGradient name and server dependency
Bme680-python pimoroni/bme680-python ★ 286 · **Permissive** MIT · Library · Fit 2/5	Python driver for the BME680 gas, temperature, humidity and pressure sensor.	Makers and IoT developers using BME680 sensors	Hardware kits/assembly Consulting/implementation	• Gas sensing modules for workshop safety monitors • BME680 boards for school STEM labs • Indoor environment kits for maker spaces	Free MIT; $25-45 per sensor kit *Effort:* Low (MIT driver, single sensor, easy to bundle) ⚠ MIT permits reuse; Pimoroni is a trademark, remove branding
Esp8266aq tenderlove/esp8266aq ★ 220 · **Check** NOASSERTION · Hardware · Fit 2/5	ESP8266 firmware for reading a Plantower particulate-matter air sensor. *Replaces:* Commercial particulate monitors	DIY air-quality makers and small monitoring projects	Hardware kits/assembly Consulting/implementation	• PM2.5 monitors for school classrooms • Wildfire smoke sensors for ranch owners • Dust monitors for woodworking shops	Kit $40-70; setup support $50 per unit *Effort:* Medium (prototype firmware, needs enclosure and QA) ⚠ NOASSERTION license: read first; sensor accuracy claims need testing
Airgradient-prometheus geerlingguy/airgradient-prometheus ★ 191 · **Permissive** MIT · Tool · Fit 2/5	Prometheus exporter that reads AirGradient sensor data for monitoring dashboards. *Replaces:* Commercial IoT dashboards, hosted sensor monitoring services	Sysadmins monitoring AirGradient sensors in Grafana	Setup + support retainer Consulting/implementation	• Grafana air-quality boards for schools • Ventilation monitoring for coworking spaces • Indoor air logs for daycare operators	Free MIT; $100-300 one-time dashboard setup *Effort:* Low (small exporter, MIT, easy to fork) ⚠ MIT permits reuse; AirGradient is a brand; device-dependent
PMS fu-hsi/PMS ★ 155 · **Permissive** MIT · Library · Fit 2/5	Arduino library for reading Plantower PMS particulate sensors.	Arduino makers building particulate sensor projects	Hardware kits/assembly Consulting/implementation	• PM sensor boards for classroom makers • Dust monitors for 3D printer enclosures • Air-quality modules for makerspace operators	Free MIT; $30-50 per assembled sensor module *Effort:* Low (small Arduino library, MIT, drop-in) ⚠ MIT permits reuse; Plantower sensor models vary, test each

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Klimerko DesconBelgrade/Klimerko ★ 140 · GPL GPL-3.0 · Hardware · Fit 2/5	DIY air quality monitoring device with particulate sensing and cloud reporting *Replaces:* PurpleAir, Airthings, Kaiterra	Citizen science groups and local environmental NGOs	Hardware kits/assembly Training/courses Setup + support retainer	• Neighborhood air monitors for Balkan cities • Workshop kits for science classrooms • Citizen sensor networks for NGOs *Angle:* Sell DIY air quality kits to community groups	$60-120 per kit *Effort:* Medium (Hobby-grade design, needs productizing) ⚠ GPL-3.0; sensor calibration claims are risky
ESPHome Air Quality Monitor koenvervloesem/ESPHome-Air-Quality-Monitor ★ 122 · Permissive MIT · Hardware · Fit 2/5	ESPHome configuration for DIY indoor monitor measuring CO2, PM2.5, PM10, temperature, humidity, pressure *Replaces:* Awair, Netatmo, Airthings	Home Assistant hobbyists and makers	Hardware kits/assembly Content/membership Training/courses	• Build-your-own air monitor workshop kits • Air monitors for allergy-sensitive households • Pre-built monitors for mold-prone rentals *Angle:* Sell smart-home-ready air monitors	$70-130 per kit *Effort:* Low (YAML config, parts from third parties) ⚠ MIT; sensor accuracy limits
Qingping_cgs1 mash2k3/qingping_cgs1 ★ 122 · Permissive MIT · Tool · Fit 2/5	Home Assistant integration for Qingping environmental sensors. *Replaces:* Qingping mobile app, vendor cloud dashboards	Home Assistant users owning Qingping sensors	Premium plugins/add-ons Setup + support retainer	• Qingping sensor setups for smart-home installers • Apartment air logs for landlords • Office air monitoring for small firms	Free MIT; $25 one-time for dashboard templates *Effort:* Low (HA integration, MIT, sensor-specific) ⚠ MIT permits reuse; Qingping and Xiaomi are trademarks
Air-quality-card KadenThomp36/air-quality-card ★ 118 · Permissive MIT · Tool · Fit 2/5	Home Assistant Lovelace card showing air quality with WHO thresholds and gradients.	Home Assistant dashboard builders	Premium plugins/add-ons Marketplace	• WHO-threshold cards for school dashboards • Air-quality widgets for Airbnb hosts • Gradient graphs for indoor farm operators	Free MIT; $5-10 one-time for theme packs *Effort:* Low (single Lovelace card, MIT, easy to restyle) ⚠ MIT permits reuse; WHO threshold values need correct citation

Battery Emulator dalathegreat/Battery-Emulator ★ 3.0k · GPL GPL-3.0 · Hardware · Fit 4/5	Firmware letting reused EV battery packs talk to solar inverters for stationary storage *Replaces:* Tesla Powerwall, Sonnen, BYD Battery-Box, Victron ESS	Solar installers and DIY energy storage builders	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Second-life EV battery storage for solar installers • Preconfigured emulator boards for DIY storage • Off-grid cabin battery packs *Angle:* Repurpose used EV batteries into home storage with installation	$150-300 per board, $100/hr install *Effort:* Medium (Needs per-battery and per-inverter support) ⚠ GPL-3.0; safety and electrical code liability
DiyBMSv4 stuartpittaway/diyBMSv4 ★ 1.1k · Check NOASSERTION · Hardware · Fit 3/5	Version 4 of the diyBMS battery management system for lithium packs. *Replaces:* Batrium, Orion BMS	Home-battery builders and small solar-storage installers	Hardware kits/assembly Setup + support retainer	• BMS kits for off-grid cabins • Battery packs for solar installers • BMS retrofits for e-scooter fleets	Board kit $80-150; support $50/hr *Effort:* Medium (PCB design, safety testing, certifications needed) ⚠ NOASSERTION license: read first; battery safety liability, UL/IEC certification
DiyBMS stuartpittaway/diyBMS ★ 676 · GPL GPL-3.0 · Hardware · Fit 3/5	Do-it-yourself battery management system for lithium-ion packs and cells. *Replaces:* Batrium, commercial BMS products	DIY solar-battery builders and EV conversion hobbyists	Hardware kits/assembly Setup + support retainer	• Solar battery monitoring for off-grid homes • BMS kits for e-bike conversion shops • Cell balancing for camper-van builders	Board kit $60-120; install support $40/hr *Effort:* Medium (legacy hardware, GPL, safety testing needed) ⚠ GPL-3.0: distributed firmware must ship source; battery fire liability
dbus-serialbattery Louisvdw/dbus-serialbattery ★ 591 · Permissive MIT · Tool · Fit 3/5	Driver connecting serial BMS batteries to Victron VenusOS GX systems *Replaces:* Victron lithium batteries, Pylontech, Tesla Powerwall	Off-grid solar and RV installers	Setup + support retainer Consulting/implementation Content/membership	• LiFePO4 integration for RV conversions • Off-grid system tuning for boat owners • Victron GX battery integration service *Angle:* Integrate cheap BMS packs into Victron systems as a service	$100-300 per install setup *Effort:* Low (Driver script, installs onto Victron GX) ⚠ MIT; Victron trademark; battery safety risk
foxBMS 2 foxBMS/foxbms-2 ★ 502 · Check NOASSERTION · Platform · Fit 3/5	Open-source automotive-grade battery management system software and hardware, with documentation *Replaces:* Orion BMS, Elithion BMS, Bosch BMS	EV makers and battery pack engineers	Consulting/implementation Setup + support retainer Hardware kits/assembly	• BMS customization for e-bike makers • BMS prototyping for pack builders • BMS evaluation kits for universities *Angle:* Develop custom BMS for small EV and storage OEMs	$5k-30k per integration project *Effort:* High (Safety-critical, needs certification work) ⚠ Custom BSD-style license; functional safety liability
ENNOID-BMS EnnoidMe/ENNOID-BMS ★ 336 · GPL GPL-3.0 · Hardware · Fit 3/5	Modular battery management system for EV packs up to 400V, LTC68XX and STM32. *Replaces:* Commercial EV BMS units, Orion BMS	EV conversion shops and electric motorcycle builders	Hardware kits/assembly Setup + support retainer	• 400V BMS for electric motorcycle makers • Pack monitoring for EV conversion shops • BMS retrofits for electric boat builders	Board $200-400; integration support $80/hr *Effort:* High (high-voltage safety, homologation, certification needed) ⚠ GPL-3.0 source rule applies; high-voltage safety and EV certification liability
Bms-c1 LibreSolar/bms-c1 ★ 278 · Check NOASSERTION · Hardware · Fit 3/5	16-series, 100A battery management system board for lithium packs. *Replaces:* Commercial 16s BMS products, Orion BMS	Solar-storage integrators and e-mobility builders	Hardware kits/assembly Setup + support retainer	• 16s LiFePO4 packs for home solar • BMS boards for golf cart conversions • Storage racks for small telecom sites	Board $120-200; integration support $60/hr *Effort:* Medium (open hardware, needs enclosure and safety tests) ⚠ NOASSERTION license: read first; Libre Solar brand; battery safety liability
diyBMS v4 stuartpittaway/diyBMSv4ESP32 ★ 237 · Check NOASSERTION · Hardware · Fit 3/5	ESP32 battery management system with cell monitors for DIY lithium battery banks *Replaces:* Batrium, Victron BMS, Orion BMS	DIY solar and off-grid battery builders	Hardware kits/assembly Setup + support retainer Content/membership	• BMS kits for DIY powerwalls • Cell monitor modules for van conversions • Battery bank monitoring for off-grid homes *Angle:* Build second-life battery packs with diyBMS for home storage; CC-BY-NC: get permission for commercial sale	$200-500 per bank kit *Effort:* Medium (Needs board assembly and safety testing) ⚠ Unclear license; battery fire risk

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pack-bms Lin-Chai49/pack-bms ★ 359 · **Permissive** MIT · Library · Fit 2/5	C99 firmware core for 16-series LFP packs with cell protection and SOC. *Replaces:* Commercial BMS firmware, Orion BMS	Embedded teams building LFP battery packs	Consulting/implementation Setup + support retainer	• LFP packs for forklift makers • Pack firmware for solar inverter integrators • Protection firmware for e-bike battery builders	Licence $2-5k per product; support $500/mo *Effort:* High (safety-critical firmware, needs certification work) ⚠ MIT permits reuse; battery safety liability, certification needed
Arduino Spot Welder V3 KaeptnBalu/Arduino_Spot_Welder_V3 ★ 207 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Arduino-based spot welder controller for battery tab welding *Replaces:* Malectrics spot welders, Sunkko welders	Battery pack hobbyists	Hardware kits/assembly Content/membership Local service business	• Spot welder kits for e-bike builders • Welding controllers for battery repair shops • Pack building kits for makers *Angle:* Sell battery spot welder kits to pack builders	$60-150 per kit *Effort:* Low (Simple controller, needs enclosure and testing) ⚠ GPL-3.0; high-current electrical safety
Battery-rul-estimation MichaelBosello/battery-rul-estimation ★ 199 · **Permissive** Apache-2.0 · Model · Fit 2/5	Deep LSTM models estimating remaining useful life of lithium-ion batteries. *Replaces:* Commercial battery health analytics services	EV fleet and battery-storage analytics teams	API/usage-based Consulting/implementation	• Battery-health reports for fleet operators • RUL forecasts for home-storage installers • Warranty analytics for e-scooter lessors	Analytics $500-2k/mo per fleet *Effort:* High (research models, needs labelled battery data) ⚠ Apache-2.0 permits reuse; accuracy claims need validation on own data
DiyBMSv4Code stuartpittaway/diyBMSv4Code ★ 154 · **Check** NOASSERTION · Tool · Fit 2/5	Firmware and software for the diyBMS version 4 hardware boards. *Replaces:* Commercial BMS monitoring software, vendor battery dashboards	Builders running diyBMS v4 hardware boards	Setup + support retainer Hardware kits/assembly	• Monitoring software for solar battery installers • Firmware updates for diyBMS retrofits • Logging dashboards for off-grid cabin owners	Software free; $60-120 per installation support *Effort:* Medium (tied to v4 boards, NOASSERTION license) ⚠ NOASSERTION license: read first; battery safety liability applies
JK-BMSToPylontechCAN ArminJo/JK-BMSToPylontechCAN ★ 110 · **GPL** GPL-3.0 · Tool · Fit 2/5	Converts JK-BMS RS485 battery data to Pylontech-style CAN messages for inverters. *Replaces:* Commercial BMS gateways, Victron Cerbo GX adapters	Off-grid solar installers using JK BMS packs	Setup + support retainer Hardware kits/assembly	• Inverter integration for off-grid cabins • CAN gateways for van-life builders • BMS bridges for small solar installers	Software free; $30-80 per gateway kit *Effort:* Low (single converter, GPL, device-specific) ⚠ GPL-3.0 fine for hosting; Pylontech and JK are trademarks
MiniBMS ks-santosh/MiniBMS ★ 61 · **Permissive** MIT · Tool · Fit 2/5	Simulink model of an EV battery management system with SoC and fault detection. *Replaces:* MATLAB Simulink BMS toolboxes, commercial BMS simulators	Automotive engineering students and EV controls teams	Training/courses Consulting/implementation	• BMS simulation for university EV courses • Controls prototyping for small EV startups • Fault-logic checks for battery integrators	Model licences $500-1500 per team *Effort:* Medium (Simulink-only, needs controls expertise) ⚠ MIT permits reuse; MathWorks Simulink is a trademark; simulation-only
Battery Pack Architect LMF5000/battery-pack-architect ★ 28 · **GPL** GPL-3.0 · Tool · Fit 2/5	Desktop software for simulating arrangements of cylindrical cells in battery packs *Replaces:* Batemo, Altair Battery Designer	E-bike and powerwall pack builders	Premium plugins/add-ons Training/courses Vertical SaaS	• Pack layout design for e-bike builders • Cell sorting calculators for powerwall DIYers • Pack design tool for electric skateboard makers *Angle:* Offer custom 18650 pack building service	$10-20/mo, free basic *Effort:* Medium (Desktop app, would need web rewrite) ⚠ GPL-3.0; safety disclaimers needed

Beekeeping & Livestock · 22

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BEEP beepnl/BEEP ★ 130 · AGPL AGPL-3.0 · Platform · Fit 4/5	Bee monitoring app, API and measurement system for hive weight and sensor data *Replaces:* Arnia, Hive-Tech, BroodMinder, Apis Protect	Beekeepers and beekeeping associations	Managed hosting Hardware kits/assembly Vertical SaaS	• Hive monitoring for hobby beekeeper clubs • Apiary dashboards for honey producers • Pollination tracking for orchard growers *Angle:* Sell hive monitoring systems to commercial beekeepers	$5-15/mo per hive, $120 scale *Effort:* Medium (Full stack, needs hosting and hardware supply) ⚠ AGPL-3.0 server changes must be published; BEEP name
Ui rancher/ui ★ 624 · Permissive Apache-2.0 · App · Fit 3/5	Web interface for managing Kubernetes clusters through the Rancher platform. *Replaces:* Lens, Portainer, OpenShift console	Platform teams running Kubernetes clusters	Managed hosting Consulting/implementation	• Kubernetes consoles for regional hosting firms • Cluster dashboards for edtech platforms • Multi-cluster admin for MSP teams	Free core; $300-800/mo per managed console *Effort:* High (tied to Rancher ecosystem, Kubernetes complexity) ⚠ Apache-2.0 permits reuse; SUSE Rancher is a trademark
Sleap talmolab/sleap ★ 622 · Check BSD-3-Clause-Clear · Tool · Fit 3/5	Deep learning framework for tracking poses of multiple animals in video. *Replaces:* Commercial animal tracking software, DeepLabCut services	Behavioural neuroscience and animal research labs	Consulting/implementation Training/courses	• Pose tracking setup for neuroscience labs • Animal gait analysis for veterinary schools • Training workshops for lab technicians	Workshop $800-1500 per session; code free *Effort:* Medium (research framework, needs lab-facing packaging) ⚠ BSD-3-Clause-Clear permits reuse; no patent grant; research-grade tooling
Tanen LoRaWAN Hive hmd83/tanen ★ 17 · Permissive Apache-2.0 · Hardware · Fit 3/5	LoRaWAN beehive monitor for weight, temperature and battery on nRF54 with 10 year battery life *Replaces:* Arnia, BroodMinder, Hive-Tech	Commercial beekeepers with remote apiaries	Hardware kits/assembly Managed hosting Setup + support retainer	• Remote apiary monitoring via LoRaWAN • Hive weight loggers for honey producers • Long-life hive sensors for rural beekeepers *Angle:* Sell LoRaWAN hive scales to remote apiaries	$90-160 per unit, $2/mo data *Effort:* Medium (Needs LoRaWAN gateway coverage and hardware QA) ⚠ Apache-2.0; LoRa regional regulations
ESP32 Coop ESP32-COOP/ESP32-COOP-DOC ★ 168 · Check NONE · Hardware · Fit 2/5	ESP32 automatic chicken coop door with time and light schedules and app control *Replaces:* Omlet Autodoor, ChickenGuard, Pophole	Backyard chicken keepers	Hardware kits/assembly Mobile app on top Local service business	• Coop door kits for backyard keepers • Smart coops for urban homesteaders • Predator-proof doors for small farms *Angle:* Sell automatic chicken coop doors to homesteaders	$60-120 per door kit *Effort:* Low (Documented DIY kit, add enclosure) ⚠ No license, request permission first
MoveVis 16EAGLE/moveVis ★ 140 · GPL GPL-3.0 · Library · Fit 2/5	R package animating movement tracks alongside environmental data as video. *Replaces:* ArcGIS animation tools, commercial tracking dashboards	Wildlife ecologists and movement-data researchers	Consulting/implementation Training/courses	• Animated GPS tracks for wildlife agencies • Storm-track videos for weather-service teams • Movement visualisation workshops for ecology students	Consulting $1-2k per animation package *Effort:* Medium (R package, needs wrapper for non-R users) ⚠ GPL-3.0 fine for hosting; distributed R apps must ship source
SnakeStrike gwjensen/SnakeStrike ★ 114 · GPL GPL-3.0 · Hardware · Fit 2/5	Low-cost open-source high-speed multi-camera motion capture system. *Replaces:* Vicon and OptiTrack motion capture systems	Biomechanics labs and robotics researchers	Hardware kits/assembly Consulting/implementation	• Budget mocap for university biomechanics labs • High-speed capture for sports coaching • Motion analysis for small robotics startups	Kit $800-1500 per camera rig; setup $2k *Effort:* High (multi-camera hardware, calibration and sync are hard) ⚠ GPL-3.0: distributed builds must ship source; no camera certification covered

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ciatah bahanonu/ciatah ★ 104 · Permissive MIT · Tool · Fit 2/5	Software package for calcium imaging analysis of one- and two-photon datasets. *Replaces:* Commercial calcium imaging suites, Inscopix software	Neuroscience labs running two-photon imaging	Consulting/implementation Training/courses	• Calcium imaging analysis for neuroscience core facilities • Analysis pipelines for two-photon labs • Training workshops for graduate neuroscience students	Workshop $600-1200 per session; code free *Effort:* Medium (research-grade code, needs modernising) ⚠ MIT permits reuse; MATLAB dependency and cost; scientific validation needed
Sei-docker pengovbr/sei-docker ★ 81 · Check NONE · Platform · Fit 2/5	Docker infrastructure project for SEI, a Brazilian government document system. *Replaces:* Commercial document management, SharePoint	Brazilian public agencies running SEI	Setup + support retainer Consulting/implementation	• SEI hosting for Brazilian municipal governments • Docker deployments for state agencies • SEI upgrade services for public universities	Setup $5-15k per agency; support $1-2k/mo *Effort:* Medium (government-specific, Portuguese docs, deployment work) ⚠ NONE license: read first; SEI is a government system, procurement rules apply
Cattle Clivern/Cattle ★ 71 · Permissive Apache-2.0 · Platform · Fit 2/5	Self-hosted platform to run and share code in many programming languages. *Replaces:* Replit, Gist, CodePen	Developers and teaching staff sharing runnable code	Managed hosting Vertical SaaS	• Code runners for coding bootcamps • Shareable snippets for technical blogs • Sandbox demos for university CS courses	Free self-hosted; $15/mo per team hosted *Effort:* High (sandboxing untrusted code is hard and risky) ⚠ Apache-2.0 permits reuse; running untrusted code needs strong sandboxing
Hiveeyes Terkin hiveeyes/terkin-datalogger ★ 64 · AGPL AGPL-3.0 · Library · Fit 2/5	Datalogger software for MicroPython and CPython, used for beehive sensor monitoring *Replaces:* Arnia, BroodMinder, HiveMind	Beekeeping hobbyists and researchers	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Data loggers for apiary researchers • Custom hive sensors for honey cooperatives • Remote scale loggers for queen breeders *Angle:* Sell hive weight dataloggers to beekeeping clubs	$100-250 per logger *Effort:* Medium (Datalogger library only, needs device packaging) ⚠ AGPL-3.0; publish modifications
AniMotum ianjonsen/aniMotum ★ 50 · Check NOASSERTION · Library · Fit 2/5	R package fitting movement models to animal tracking data. *Replaces:* Commercial animal movement analysis services	Wildlife tracking researchers and conservation agencies	Consulting/implementation Training/courses	• Seabird tracking analysis for conservation NGOs • Fisheries telemetry modelling for agencies • Movement-model training for ecology students	Consulting $1-3k per analysis; training $600/day *Effort:* Medium (R package, specialist statistical audience) ⚠ NOASSERTION license: read before reuse; statistical claims need expert review
Arduino hiveeyes/arduino ★ 48 · GPL GPL-3.0 · Hardware · Fit 2/5	Arduino-compatible firmware for sensor, telemetry and gateway appliances. *Replaces:* Commercial IoT telemetry hardware, Arduino IoT Cloud	Beekeepers and citizen-science sensor builders	Hardware kits/assembly Setup + support retainer	• Hive monitoring kits for beekeepers • Telemetry boards for farm sensor networks • Gateway appliances for citizen-science groups	Kit $60-120 per sensor node; support $30/mo *Effort:* Medium (multi-appliance firmware, needs productisation) ⚠ GPL-3.0 requires source for distributed firmware; Arduino is a trademark
Fictrac rjdmoore/fictrac ★ 36 · Check NOASSERTION · Tool · Fit 2/5	Webcam-based method for tracking spherical motion and generating fictive animal paths. *Replaces:* Commercial motion-tracking systems, Noldus EthoVision	Neuroscience labs studying insect locomotion	Consulting/implementation Training/courses	• Insect locomotion tracking for neuroscience labs • Ball-treadmill setups for behaviour labs • Motion tracking workshops for insect researchers	Consulting $150/hr; software free *Effort:* Low (single-purpose tool, documented, moderate integration) ⚠ NOASSERTION license: read first; research tool, validate tracking accuracy

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
TrackR swarm-lab/trackR ★ 34 · GPL GPL-3.0 · Tool · Fit 2/5	Simple video tracking software for R. *Replaces:* Manual video scoring services, Ctrax-style trackers	Ecologists tracking animals in video	Training/courses Consulting/implementation	• Video tracking for field ecology teams • Bird flight analysis for wind-farm studies • Animal movement coding for thesis projects	Free GPL; $500-1000 per analysis project *Effort:* Low (simple R tool, easy to wrap) ⚠ GPL-3.0 fine for hosting; R package, accuracy needs validation
AMADEUS jpmyrmecol/AMADEUS ★ 33 · AGPL AGPL-3.0 · Tool · Fit 2/5	Annotation-free direction estimation for multiple animals using self-supervised learning. *Replaces:* Manual behaviour annotation services, commercial pose tools	Behavioural ecologists studying group animal movement	Consulting/implementation API/usage-based	• Ant trail direction analysis for ecology labs • Herd movement analysis for livestock researchers • Group movement coding for insect biology teams	Analysis service $0.50-2 per video minute *Effort:* High (research model, data-specific, retraining needed) ⚠ AGPL-3.0 requires publishing server-side modifications if hosted
BeeMoS Hackuarium/beemos ★ 24 · Check NONE · Hardware · Fit 2/5	Beehive monitoring system infrastructure plans for tracking colony data *Replaces:* Arnia, BroodMinder, Hive-Tech	Beekeeping groups and research labs	Hardware kits/assembly Consulting/implementation Training/courses	• Hive monitors for school apiaries • Colony tracking for urban beekeeping groups • Research-grade hive data for universities *Angle:* Offer hive health monitoring service for pollination contracts	$80-200 per hive unit *Effort:* Medium (Research prototype, limited docs) ⚠ No license; get author permission
BEEP Measurement System beepnl/measurement-system-v3 ★ 22 · Check NONE · Hardware · Fit 2/5	BEEP base v3 steel-design hive measurement system hardware *Replaces:* Arnia, BroodMinder, Hive-Tech	Beekeepers using BEEP platform	Hardware kits/assembly White-label reseller Setup + support retainer	• Hive scales for BEEP users • Steel scale bases for commercial apiaries • Weighing platforms for migratory beekeepers *Angle:* Manufacture hive scales and rent them per season	$150-300 per base *Effort:* Medium (Hardware only, depends on BEEP backend) ⚠ No license stated; BEEP trademark
Alma sollan/alma ★ 21 · GPL GPL-3.0 · Tool · Fit 2/5	Automated rodent limb motion analysis toolbox built on markerless pose estimation. *Replaces:* Commercial behavioural analysis systems, manual gait scoring	Neuroscience labs studying rodent motor behaviour	Consulting/implementation Training/courses	• Gait analysis for stroke-research labs • Limb tracking for pharmacology studies • Motion analysis workshops for neuroscience students	Analysis service $80-200 per animal study *Effort:* Medium (research toolbox, validation needed per study) ⚠ GPL-3.0 applies on distribution; scientific claims need validation
Rpi-scripts Honey-Pi/rpi-scripts ★ 17 · Check NOASSERTION · Tool · Fit 2/5	Raspberry Pi scripts logging hive scale data in measurement mode for beekeepers. *Replaces:* Commercial hive monitoring scales, BroodMinder	Beekeepers monitoring hive weight and health	Hardware kits/assembly Setup + support retainer	• Hive scale kits for commercial apiaries • Honey-flow monitoring for honey producers • Data logging for beekeeping co-ops	Kit $150-300 per hive scale; support $10/mo *Effort:* Medium (Pi scripts, needs packaging and hardware kit) ⚠ NOASSERTION license: read first; hive scale hardware needs safety testing
Hornet3000 ARCHIVED vespCV/hornet3000 ★ 16 · GPL GPL-3.0 · Tool · Fit 2/5	Guide to build a Raspberry Pi detector for Asian hornets using YOLOv10n *Replaces:* Hive-Tech, Apis Protect	Beekeepers in hornet-affected regions	Hardware kits/assembly Setup + support retainer Content/membership	• Hornet detection stations for French beekeepers • Apiary camera traps for beekeeping associations • Pest monitors for pollinator conservation groups *Angle:* Sell Asian hornet detection cameras to beekeepers	$200-400 per station *Effort:* Medium (Model and guide, needs ruggedized enclosure) ⚠ GPL-3.0; detection accuracy claims
OpenCoopControl OpenCoopControl/coop-controller ★ 15 · Check NONE · Hardware · Fit 2/5	ESP32 controller for chicken coop doors, feeding schedules and environmental monitoring *Replaces:* Omlet Autodoor, ChickenGuard, Coop Smart	Backyard poultry keepers	Hardware kits/assembly Mobile app on top Setup + support retainer	• Coop controllers for small egg farms • Feeder scheduling for hobby farms • Climate monitors for chick brooders *Angle:* Sell coop controllers with lights and feeder automation	$80-150 per controller *Effort:* Low (Simple ESP32 board, add enclosure and app) ⚠ No license, ask owner first

Bicycles & Cargo Bikes · 16

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pi Zero Bike Computer hishizuka/pizero_bikecomputer ★ 1.3k · GPL GPL-3.0 · Hardware · Fit 4/5	Raspberry Pi Zero bike computer with GPS, ANT+ sensors and live data display *Replaces:* Garmin Edge, Wahoo ELEMNT, Hammerhead Karoo	Cyclists wanting open, hackable bike computers	Hardware kits/assembly Content/membership Setup + support retainer	• Open bike computers for privacy-minded cyclists • Bikepacking navigation kits • Cyclist training head units for clubs *Angle:* Sell open GPS bike computers	$120-220 per assembled unit *Effort:* Medium (Software complete, needs case and assembly) ⚠ GPL-3.0; Garmin ANT+ module licensing
Gymnasticon ptx2/gymnasticon ★ 329 · Permissive MIT · App · Fit 3/5	Makes old and proprietary exercise bikes work with Zwift, TrainerRoad and similar apps. *Replaces:* Peloton-style bike connectors, Wahoo KICKR bridges	Home cyclists with older smart-trainer bikes	Premium plugins/add-ons Hardware kits/assembly	• Bridge kits for gym-equipment resellers • Zwift setup for retired cyclists • Trainer connection for hotel fitness rooms	Free MIT; $40-80 per hardware bridge kit *Effort:* Medium (Bluetooth bridge, device-by-device support) ⚠ MIT permits reuse; Zwift and Peloton are trademarks; device protocol risk
OpenTrailPaper RaemondBW/OpenTrailPaper ★ 282 · Permissive Apache-2.0 · Hardware · Fit 3/5	Open source e-ink bike computer for trail riding *Replaces:* Garmin Edge, Wahoo ELEMNT, Hammerhead Karoo	Mountain bikers and bikepackers	Hardware kits/assembly Content/membership Setup + support retainer	• E-ink trail navigators for mountain bikers • Long-battery bikepacking computers • Race navigation units for gravel events *Angle:* Sell e-ink bike computers	$100-180 per unit *Effort:* Medium (Early hardware, needs enclosure and testing) ⚠ Apache-2.0; mapping data licensing
Criticalmaps-ios criticalmaps/criticalmaps-ios ★ 322 · Permissive MIT · App · Fit 2/5	iOS app for cycling group rides, sharing live locations on a map. *Replaces:* Strava Beacon, Life360	Cycling advocacy groups and city bike communities	Marketplace Content/membership	• Group ride maps for bike clubs • Route tracking for charity bike rides • Live location for city cycling events	Free core; $3-5/mo for club dashboards *Effort:* High (location privacy, App Store review rules) ⚠ MIT permits reuse; live location data needs privacy compliance
Zwack paixaop/zwack ★ 130 · Permissive MIT · Hardware · Fit 2/5	BLE sensor firmware that simulates an indoor bike trainer or running sensor. *Replaces:* Commercial smart trainers, running foot pods	Indoor cyclists and fitness-app developers testing BLE	Hardware kits/assembly Consulting/implementation	• BLE test rigs for fitness app developers • Indoor trainer simulators for gyms • Running sensors for home treadmill users	Kit $25-45 per sensor; firmware support extra *Effort:* Medium (BLE firmware, needs radio certification) ⚠ MIT permits reuse; Bluetooth SIG and radio certification required
Bike Computer 32 lspr98/bike-computer-32 ★ 88 · Check NONE · Hardware · Fit 2/5	ESP32-C3 bike computer with offline OSM maps, GPX rendering and multi-constellation GNSS *Replaces:* Garmin Edge, Wahoo ELEMNT, Bryton	DIY cyclists wanting offline navigation	Hardware kits/assembly Content/membership Setup + support retainer	• Offline map bike computers for touring cyclists • GPX route displays for cycling clubs • Budget bike computers for hobbyists *Angle:* Sell ESP32 cycling computers	$60-110 per unit *Effort:* Medium (Hobby project, needs UI polish and case) ⚠ No license stated; OSM attribution needed
Seoul-bike breath103/seoul-bike ★ 85 · Check NONE · App · Fit 2/5	Finder for Seoul's public bike rental stations, in Korean. *Replaces:* Naver Maps bike layers, local transit apps	Seoul bike-share riders	Mobile app on top Marketplace	• Station finder for Seoul tourists • Bike-share route tools for Seoul cafes • Rental-station alerts for Seoul commuters	Free app; $1-2 one-time for premium alerts *Effort:* Medium (Korean-language data, public-data API terms) ⚠ NONE license: no reuse rights; relies on Seoul public data API terms
QZCompanionNordictrackTreadmill cagnulein/QZCompanionNordictrackTreadmill ★ 84 · AGPL AGPL-3.0 · App · Fit 2/5	Companion app for NordicTrack treadmills and bikes that works alongside QZ. *Replaces:* iFit, Peloton app	Owners of NordicTrack equipment who skip iFit	Mobile app on top Premium plugins/add-ons	• Subscription-free treadmill apps for home gyms • Workout tracking for gym equipment resellers • Trainer control for indoor cycling studios	Free AGPL; $4.99 one-time mobile app *Effort:* Medium (device protocol reverse-engineered, Android-focused) ⚠ AGPL-3.0 requires publishing server-side modifications; NordicTrack and iFit trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Bikedeboa bikedeboa/bikedeboa ★ 70 · **Permissive** MIT · App · Fit 2/5	Progressive web app mapping and reviewing bike parking across Brazilian cities. *Replaces:* Google Maps bike layers, city bike-parking directories	Cyclists and city planners in Brazil	Mobile app on top Marketplace	• Bike-parking maps for Brazilian city councils • Parking directories for university campuses • Parking finder for bike-share operators	Free app; $300-800/mo per city dashboard *Effort:* Medium (Portuguese app, city-by-city data entry) ⚠ MIT permits reuse; crowd-sourced data licensing and map attribution
Bike-kem awslabs/bike-kem ★ 54 · **Permissive** Apache-2.0 · Library · Fit 2/5	Additional implementation of the BIKE post-quantum key encapsulation scheme. *Replaces:* Commercial cryptographic libraries with post-quantum support	Cryptography engineers testing post-quantum schemes	Consulting/implementation Training/courses	• Post-quantum migration audits for fintech • Crypto training for security engineers • KEM integration for IoT device makers	Consulting $200-300/hr per audit *Effort:* High (cryptographic code needs expert review) ⚠ Apache-2.0 permits reuse; cryptographic code requires expert audit before use
Bike-to-game-bridge-firmware Cherubinio/bike-to-game-bridge-firmware ★ 53 · **Check** NONE · Hardware · Fit 2/5	BLE bridge firmware connecting bike trainers to immersive indoor cycling games. *Replaces:* Zwift, Rouvy, Peloton game modes	Indoor cyclists wanting game-style training	Hardware kits/assembly Premium plugins/add-ons	• Gamified trainers for gym studios • Kids' cycling game kits for schools • Trainer bridges for esports cycling teams	Kit $50-80; $5/mo premium game packs *Effort:* Medium (BLE firmware, game integration, needs QA) ⚠ NONE license: no rights granted; Bluetooth certification needed
Trainerpi kloppen/trainerpi ★ 47 · **Permissive** MIT · App · Fit 2/5	Speed and cadence display for bike trainers using Bluetooth sensors on a Raspberry Pi. *Replaces:* Commercial bike computers, Wahoo ELEMNT displays	Home cyclists building a DIY trainer display	Hardware kits/assembly Premium plugins/add-ons	• Trainer displays for home-gym builders • Pi cycling dashboards for cycling clubs • Cadence screens for indoor cycling studios	Kit $40-70; display skin $5-10 each *Effort:* Low (single-purpose Pi app, MIT, easy to bundle) ⚠ MIT permits reuse; Bluetooth sensor compatibility varies
Radforschung Lock radforschung/lock ★ 18 · **Permissive** Apache-2.0 · Hardware · Fit 2/5	ESP32 smart lock for bicycles and shared mobility devices *Replaces:* Noke, Linka, Bluetrain locks	Bike sharing startups and cargo bike libraries	Hardware kits/assembly Vertical SaaS Setup + support retainer	• Smart locks for cargo bike sharing • Lock hardware for community bike libraries • Tool-sharing locks for neighborhoods *Angle:* Sell smart locks for bike-sharing fleets	$40-90 per lock, $3/mo backend *Effort:* High (Prototype, needs security hardening and backend) ⚠ Apache-2.0; security and theft liability
Framebuild guy153/framebuild ★ 6 · **Check** NONE · Tool · Fit 2/5	2D bicycle framebuilding CAD software for designing frame geometry *Replaces:* BikeCAD, Solidworks, Rattlecad	Custom bicycle frame builders	Premium plugins/add-ons Training/courses Vertical SaaS	• Frame geometry tool for steel builders • Tube mitre templates for hobby framebuilders • Bike fit to frame design for custom shops *Angle:* Offer custom bicycle frame building	$8-15/mo per builder *Effort:* Medium (Small tool, needs UI polish) ⚠ No license, read before use
Cargo Bike Parametric pwnage101/cargo_bike ★ 4 · **Check** NOASSERTION · Hardware · Fit 2/5	Parametric upcycled long-john cargo bike design *Replaces:* Urban Arrow, Bakfiets.nl, Riese & Muller Load	Cargo bike builders and DIY makers	Hardware kits/assembly Training/courses Local service business	• Upcycled cargo bike conversions for families • Build workshops for community bike shops • Cargo bikes for local delivery *Angle:* Weld upcycled long-john cargo bikes to order	$800-2000 per built bike *Effort:* Medium (Parametric design needs welding skills) ⚠ Unclear license; structural safety liability
Tricycle Cargo Bike boucettaabdelkhalek2/Tricycle_Cargo_Bike_Original-1 ★ 2 · **Check** NOASSERTION · Hardware · Fit 2/5	Open cargo tricycle with CAD files, assembly instructions, bill of materials *Replaces:* Urban Arrow, Butchers & Bicycles, Babboe	Local delivery operators and bike shops	Hardware kits/assembly Local service business Training/courses	• Cargo trikes for market vendors • Last-mile delivery trikes for restaurants • Trike kits for African workshops *Angle:* Fabricate cargo trikes for delivery businesses	$600-1500 per trike *Effort:* Medium (Full docs, needs welding and safety testing) ⚠ Unclear license; vehicle safety regulation

Boats & Marine Electronics · 22

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenCPN OpenCPN/OpenCPN ★ 1.5k · GPL GPL-2.0 · App · Fit 4/5	Cross-platform chartplotter and navigation software with raster and vector charts, GPS input *Replaces:* Garmin Chartplotter, Navionics, Raymarine, Furuno TimeZero	Sailors and small boat owners	Setup + support retainer Hardware kits/assembly Training/courses	• Plug-and-play chartplotters for sailboats • Navigation computers for small fishing boats • Offshore navigation training for cruisers *Angle:* Sell marine navigation PCs for sailors	$600-1500 per preconfigured unit *Effort:* Medium (Mature desktop app, chart licensing and hardware needed) ⚠ GPL-2.0; chart data licensing; not for official navigation
BlueOS bluerobotics/BlueOS ★ 473 · Check NOASSERTION · Platform · Fit 4/5	Open platform for operating ROVs, USVs and other marine robots *Replaces:* Teledyne ROV software, QYSEA, Deep Trekker	ROV builders and underwater inspection firms	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Inspection ROVs for dive shops • Custom USV systems for survey firms • Aquaculture net-inspection ROVs *Angle:* Offer underwater ROV inspection services	$5k-20k per vehicle *Effort:* Medium (Needs vehicle hardware, runs on companion computer) ⚠ Custom license read first; Blue Robotics branding
Signal K Server SignalK/signalk-server ★ 448 · Permissive Apache-2.0 · Platform · Fit 4/5	Signal K server collecting boat data from NMEA instruments and sensors *Replaces:* Garmin Marine network, Raymarine, B&G, Victron VRM	Boat owners and marine electronics installers	Setup + support retainer Hardware kits/assembly Managed hosting	• Boat data hubs for sailboat owners • Marine electronics integration for yacht yards • Fleet dashboards for charter companies *Angle:* Install boat data servers with dashboards for yachts	$300-800 per install, $10/mo cloud *Effort:* Low (Node server, plugin ecosystem, easy to bundle) ⚠ Apache-2.0; marine safety disclaimers
Stonefish patrykcieslak/stonefish ★ 332 · GPL GPL-3.0 · Library · Fit 3/5	Advanced C++ simulation library for marine robotics and underwater physics. *Replaces:* Commercial underwater simulators, Unity marine kits	Underwater robotics labs and marine-robot startups	Consulting/implementation Setup + support retainer	• ROV simulators for offshore training crews • Autonomy testing for AUV startups • Underwater sensor sims for marine research labs	Support $500-1500/mo; library free *Effort:* Medium (C++ library, specialist users, needs wrappers) ⚠ GPL-3.0: distributed binaries must ship source; ROS integration complexity
pypilot pypilot/pypilot ★ 280 · Check NONE · Hardware · Fit 3/5	Open autopilot software for sailboats with Signal K support *Replaces:* Raymarine Evolution, Garmin Reactor, Simrad autopilots	Cruising sailors on small yachts	Hardware kits/assembly Setup + support retainer Consulting/implementation	• DIY autopilot kits for cruising sailors • Autopilot installs for small yacht owners • Tiller pilots for dinghy sailors *Angle:* Sell and install sailboat autopilots	$300-700 per kit *Effort:* Medium (Needs actuator, sensors and sea trials) ⚠ No license stated; safety liability at sea
Vanchor AlexAsplund/Vanchor ★ 125 · Permissive MIT · Hardware · Fit 3/5	Turns a cheap trolling motor into a GPS autopilot with virtual anchor and route modes. *Replaces:* Commercial GPS trolling motors, Minn Kota Ultrex	Anglers and small-boat owners wanting GPS anchoring	Hardware kits/assembly Premium plugins/add-ons	• Virtual anchors for fishing guides • Autopilot kits for small fishing boats • Drift control for kayak anglers	Kit $150-300 per motor; app $10 one-time *Effort:* High (marine safety, motor compatibility, certification gaps) ⚠ MIT permits reuse; marine safety liability; Minn Kota is a trademark
MSS cybergalactic/MSS ★ 772 · Permissive MIT · Library · Fit 2/5	Marine Systems Simulator library accompanying Fossen's marine control textbook. *Replaces:* Commercial marine simulators, MATLAB toolboxes	Marine control engineers and university students	Training/courses Consulting/implementation	• Autopilot simulation for ship-design consultants • Marine control courses for maritime academies • ROV controller prototyping for offshore startups	Courses $400-900 per student; library free *Effort:* Medium (MATLAB-based, textbook-tied, needs modern packaging) ⚠ MIT permits reuse; textbook-linked content; MATLAB licence dependency
Open_echo Neumi/open_echo ★ 530 · Check NONE · Hardware · Fit 2/5	Open-source echo sounder for bathymetry and research, Arduino based. *Replaces:* Commercial fishfinders, Lowrance and Garmin echo sounders	Survey hobbyists and small hydrographic consultants	Hardware kits/assembly Consulting/implementation	• Depth sounders for small survey boats • Echo sounders for river research labs • Bathymetry kits for lake management groups	Kit $300-500 per unit; survey service $800/day *Effort:* High (SONAR hardware, marine safety, certification unclear) ⚠ NONE license: no reuse rights; marine navigation safety liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Usv_sim_lsa disaster-robotics-proalertas/usv_sim_lsa ★ 463 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Gazebo simulation of an unmanned surface vehicle with currents and wind. *Replaces:* Commercial marine robotics simulators, Gazebo-based training tools	Marine robotics teams testing autonomous boats	Consulting/implementation Training/courses	• USV simulation for port authorities • Autonomy testing for marine startups • Simulation training for coast guard operators	Consulting $1-2k per simulation package *Effort:* Medium (Gazebo-based sim, needs domain-specific tuning) ⚠ Apache-2.0 permits reuse; coast guard and port security uses need review
OpenROV OpenROV/openrov-software ★ 432 · **Check** NOASSERTION · Platform · Fit 2/5	Meta project for the OpenROV underwater robot software stack *Replaces:* Deep Trekker, BlueROV2, Videoray	Hobbyist ROV builders and schools	Hardware kits/assembly Training/courses Consulting/implementation	• Student ROV kits for schools • Underwater inspection ROVs for marinas • Hull cleaning ROVs for boat owners *Angle:* Offer hull and dock inspection with ROVs	$600-1500 per kit *Effort:* High (Dated project, hardware and software need refresh) ⚠ License unclear; OpenROV brand now defunct
FinsROV IWIN-FINS/FinsROV-An-Underwater-Camera-Based-Multi-Robot-Platform ★ 326 · **Permissive** MIT · Hardware · Fit 2/5	Low-cost underwater robot platform with camera for robotics and AI research *Replaces:* BlueROV2, Deep Trekker, Videoray	University labs and robotics clubs	Hardware kits/assembly Training/courses Consulting/implementation	• Low-cost ROV kits for universities • Underwater AI research platform for labs • STEM robotics for marine science classes *Angle:* Sell low-cost underwater ROVs for aquaculture	$800-2500 per kit *Effort:* High (Research platform, needs productization and support) ⚠ MIT; waterproofing reliability risk
Marine-api ktuukkan/marine-api ★ 276 · **Weak copyleft** LGPL-3.0 · Library · Fit 2/5	Java library for parsing NMEA 0183 marine instrument data. *Replaces:* Commercial NMEA parsing SDKs	Java developers building marine navigation software	Consulting/implementation Setup + support retainer	• NMEA parsing for boatyard diagnostics apps • Marine data feeds for fleet trackers • Chart-plotter data layers for yacht software	Free LGPL; $1-3k per integration support *Effort:* Low (Java library, LGPL allows linking, small) ⚠ LGPL-3.0 allows linking; NMEA specifications may be separately licensed
My-bareboat bareboat-necessities/my-bareboat ★ 234 · **Permissive** Apache-2.0 · Hardware · Fit 2/5	Open hardware and software for sailing instruments and sailboats. *Replaces:* Commercial sailing instrument systems, Raymarine and B&G displays	Sailors building DIY instrument and autopilot systems	Hardware kits/assembly Training/courses	• DIY instrument kits for cruising sailors • Sailing instrument workshops for sailing schools • Retrofit displays for classic yacht owners	Kit $150-400; workshop $200 per attendee *Effort:* Medium (marine hardware, wiring and safety risk) ⚠ Apache-2.0 permits reuse; marine electrical safety; Raymarine and B&G trademarks
SensESP SignalK/SensESP ★ 211 · **Permissive** Apache-2.0 · Framework · Fit 2/5	ESP32 framework for building Signal K marine sensors *Replaces:* Victron sensors, Maretron sensors, Airmar sensors	Boat DIYers and marine integrators	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Tank level sensors for sailboats • Engine temperature monitors for trawlers • Bilge alarms for marina owners *Angle:* Sell marine sensors for bilge and tank monitoring	$40-100 per sensor *Effort:* Low (Library for ESP32 sensors, easy to adapt) ⚠ Apache-2.0; marine electrical safety
Badlands badlands-model/badlands ★ 196 · **Weak copyleft** LGPL-3.0 · Tool · Fit 2/5	Scientific model of basin and landscape dynamics for geology research. *Replaces:* Commercial basin modelling suites, petroleum basin simulators	Geoscience researchers and petroleum exploration teams	Consulting/implementation Training/courses	• Basin modelling for petroleum exploration consultants • Landscape evolution courses for geology students • Sediment studies for coastal engineers	Consulting $1-2k per modelling study *Effort:* High (research model, specialist geology users) ⚠ LGPL-3.0 allows linking; research model results need expert validation
AIS-catcher-for-Android jvde-github/AIS-catcher-for-Android ★ 156 · **GPL** GPL-3.0 · App · Fit 2/5	Android AIS ship-tracking receiver for RTL-SDR and Airspy dongles, forwarding decoded data over UDP or TCP. *Replaces:* Commercial AIS receivers, Digital Yacht and Vesper units	Harbour hobbyists and maritime-traffic enthusiasts	Hardware kits/assembly Mobile app on top	• AIS receivers for marina operators • Ship-tracking kits for harbour clubs • Vessel traffic displays for ferry operators	Free GPL; $60-120 per receiver kit *Effort:* Low (Android app, GPL, RF hardware sold separately) ⚠ GPL-3.0 fine for hosting; distributed apps must ship source; RTL-SDR varies

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ais.Net ais-dotnet/Ais.Net ★ 154 · AGPL AGPL-3.0 · Library · Fit 2/5	Zero-allocation .NET decoder for AIS ship-tracking messages. *Replaces:* Commercial AIS data feeds, AIS SDK vendors	.NET developers building maritime tracking systems	Consulting/implementation API/usage-based	• AIS decoding for port authority dashboards • Vessel tracking backends for logistics firms • Fishing-fleet monitoring for regional agencies	Free AGPL; $5-15k per commercial licence *Effort:* Low (clean .NET library, AGPL complicates reuse) ⚠ AGPL-3.0: hosted modifications must be published; endjin sponsorship noted
BuoyancySystem Jay2645/BuoyancySystem ★ 143 · Permissive MIT · Library · Fit 2/5	Buoyancy and boat physics system for Unreal Engine 4. *Replaces:* Commercial Unreal physics plugins	Game developers building boat or water games	Premium plugins/add-ons Consulting/implementation	• Boat physics plugins for indie studios • Water physics for naval training games • Buoyancy effects for ship-simulation tutorials	Plugin $20-60 one-time; core free under MIT *Effort:* Medium (UE4 plugin, outdated engine version) ⚠ MIT permits reuse; Unreal Engine EULA applies to shipped products
Bbn-m5stack-tough bareboat-necessities/bbn-m5stack-tough ★ 129 · Check NOASSERTION · Hardware · Fit 2/5	ESP32 sailing instrument display and autopilot controller on an M5Stack Tough. *Replaces:* Commercial sailing instrument displays, B&G Zeus screens	Sailors building budget instrument displays	Hardware kits/assembly Consulting/implementation	• Budget instrument screens for cruising sailors • Autopilot controllers for small sailboats • Instrument displays for sailing schools	Kit $200-350 per display; install $150 *Effort:* Medium (M5Stack hardware, marine wiring and safety) ⚠ NOASSERTION license: read first; M5Stack trademark; marine safety liability
Exodus-radar sailingexodus/exodus-radar ★ 124 · Check NOASSERTION · App · Fit 2/5	Raspberry Pi radar display for Raymarine Quantum with AIS and anchor watch. *Replaces:* Commercial marine chartplotters, Raymarine MFD displays	Sailors wanting cheaper radar displays	Hardware kits/assembly Setup + support retainer	• Radar displays for charter yachts • Anchor-watch screens for marina residents • Pi radar kits for sailing schools	Kit $200-400; setup support $80/hr *Effort:* Medium (Raymarine-specific, marine safety needs testing) ⚠ NOASSERTION license: read first; Raymarine trademark; navigation safety liability
ESP32 Sailboat Autopilot jeff-burright/Autopilot_ESP32_wifi ★ 22 · Check NONE · Hardware · Fit 2/5	Sailboat compass autopilot on ESP32 with WiFi, smartwatch and IR remote control *Replaces:* Raymarine tiller pilot, Garmin autopilots, Simrad	Small sailboat owners	Hardware kits/assembly Setup + support retainer Content/membership	• Tiller autopilots for small sailboats • Dinghy autopilot kits for racers • Autopilot retrofits for old wooden boats *Angle:* Sell tiller autopilot kits	$150-300 per kit *Effort:* Medium (Hobby code, needs motor drive and testing) ⚠ No license; safety liability at sea
boatCalc McNeight/boatCalc ★ 5 · GPL GPL-2.0 · Tool · Fit 2/5	Boat design calculations from the lines plan of a hull *Replaces:* Maxsurf, Rhinoceros Orca3D, Freeship	Small boat designers and builders	Premium plugins/add-ons Vertical SaaS Training/courses	• Hull calculators for canoe builders • Displacement tools for plywood boat designers • Stability checks for boat kit makers *Angle:* Offer small boat design and build service	$10-20/mo or $60 license *Effort:* Medium (Small calculator, needs UI and validation) ⚠ GPL-2.0; calculations need verification

Brewing & Distilling · 21

iSpindel universam1/iSpindel ★ 885 · Check NOASSERTION · Hardware · Fit 4/5	Floating electronic hydrometer for fermentation gravity and temperature over WiFi *Replaces:* Tilt Hydrometer, Plaato Airlock, RAPT Pill, BrewSensor	Homebrewers and craft breweries	Hardware kits/assembly Content/membership Setup + support retainer	• Preassembled iSpindel for homebrewers • Fermentation tracking for small cideries • Gravity loggers for kombucha brewers *Angle:* Sell wireless hydrometers to homebrewers	$40-80 per unit *Effort:* Low (Proven design, simple assembly kit) ⚠ Custom license read first; iSpindel name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
CraftBeerPi 4 craftbeerpi/craftbeerpi4 ★ 150 · GPL GPL-3.0 · Platform · Fit 4/5	Brewery automation software controlling heaters, pumps and fermentation via plugin system *Replaces:* BrewFather, Brewie, Ss Brewtech Mobile, Grainfather	Homebrewers and microbreweries	Hardware kits/assembly Premium plugins/add-ons Setup + support retainer	• Brewing controllers for nano breweries • Premium recipe plugins for homebrewers • Control panels for brew-on-premise shops *Angle:* Build automated brewing systems for brewpubs	$150-400 per controller kit *Effort:* Medium (Plugin architecture, needs hardware packaging) ⚠ GPL-3.0; mains wiring safety
BrewPiLess vitotai/BrewPiLess ★ 393 · Check NONE · Hardware · Fit 3/5	ESP8266 fermentation temperature controller running BrewPi without Raspberry Pi *Replaces:* Inkbird controllers, Tilt controllers, Fermentrack	Homebrewers and small breweries	Hardware kits/assembly Setup + support retainer Content/membership	• Fermentation chamber controllers for homebrewers • Temperature controllers for cheesemakers • Brew fridge kits for homebrew clubs *Angle:* Sell ESP fermentation fridge controllers	$50-100 per controller *Effort:* Low (Complete firmware, add relay box) ⚠ No license stated; mains wiring safety
Biosteam BioSTEAMDevelopmentGroup/biosteam ★ 279 · Check NOASSERTION · Library · Fit 3/5	Python biorefinery simulation and techno-economic analysis modules. *Replaces:* Commercial process simulators, Aspen Plus	Process engineers and biofuel project developers	Consulting/implementation Training/courses	• Techno-economic models for biofuel startups • Plant design studies for chemical engineering firms • Process simulation courses for universities	Consulting $3-8k per TEA study *Effort:* Medium (Python library, needs process engineering expertise) ⚠ NOASSERTION license: read first; engineering results need expert validation
Pioreactor Pioreactor/pioreactor ★ 154 · Permissive MIT · Hardware · Fit 3/5	Raspberry Pi hardware and software for accessible, scalable bioreactors. *Replaces:* Commercial benchtop bioreactors	University biology labs and small biotech startups	Hardware kits/assembly Setup + support retainer	• Pi bioreactors for university teaching labs • Low-cost fermenters for biotech startups • Yeast growth monitors for craft fermentation labs	Unit $800-1500; support $150/mo per lab *Effort:* Medium (lab hardware, needs validation and safety docs) ⚠ MIT permits reuse; lab and biosafety rules apply to bioreactors
Fermentrack thorrak/fermentrack ★ 148 · Permissive MIT · App · Fit 3/5	Web interface replacement for BrewPi to manage fermentation controllers *Replaces:* BrewFather, Plaato, Inkbird apps	Homebrewers and cider makers	Managed hosting Setup + support retainer Premium plugins/add-ons	• Hosted fermentation dashboards for homebrewers • Fermentation logs for cideries • Brewing club shared monitoring *Angle:* Install fermentation monitoring for craft breweries	$5-10/mo per user *Effort:* Low (Django web app, self-hostable) ⚠ MIT; BrewPi trademark
BreweryX BreweryTeam/BreweryX ★ 103 · GPL GPL-3.0 · App · Fit 3/5	Maintained, supported fork of the Brewery brewing app with add-ons. *Replaces:* Commercial brewing automation tools, Brewfather	Homebrewers and small breweries automating brew days	Premium plugins/add-ons Managed hosting	• Brew-day automation for nano-breweries • Add-on packs for homebrew clubs • Hosted brew dashboards for craft brewers	Free GPL; $5-10/mo for hosted dashboard *Effort:* Medium (fork with add-ons, needs packaging and docs) ⚠ GPL-3.0 fine for hosting; distributed apps must ship source
Gravitymon mp-se/gravitymon ★ 100 · Check NOASSERTION · Hardware · Fit 3/5	Replacement iSpindel firmware for monitoring beer brewing and fermentation. *Replaces:* Commercial iSpindel-style hydrometers, Tilt hydrometers	Homebrewers and craft brewers tracking fermentation	Hardware kits/assembly Setup + support retainer	• Fermentation monitors for nano-breweries • Gravity sensors for home brewing clubs • Cider fermentation monitors for orchard producers	Kit $40-70 per sensor; setup $30/hr *Effort:* Low (firmware for existing hardware, well documented) ⚠ NOASSERTION license: read first; iSpindel and Tilt are brand names
BrewPi Firmware BrewPi/firmware ★ 99 · AGPL AGPL-3.0 · Hardware · Fit 3/5	Brewing temperature control firmware for BrewPi Spark on Particle Photon *Replaces:* Inkbird, Fermentation controllers, Tilt	Homebrewers and craft brewers	Hardware kits/assembly Setup + support retainer Content/membership	• Fermentation controller boxes for homebrewers • Temperature control for mead makers • Lagering chamber controllers for brewpubs *Angle:* Sell fermentation controllers to homebrewers	$100-200 per unit *Effort:* Medium (Dated hardware platform, Particle dependency) ⚠ AGPL-3.0; publish changes; BrewPi trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
RPi Smart Still larry-athey/rpi-smart-still ★ 26 · Weak copyleft LGPL-2.1 · Hardware · Fit 3/5	Raspberry Pi and ESP32 smart still controller originally built for Still Spirits T500 *Replaces:* Still Spirits Gen controllers, Digiterm, Brewhaus controllers	Home and craft distillers	Hardware kits/assembly Setup + support retainer Content/membership	• Still automation kits for hobby distillers • Controllers for craft whiskey startups • Retrofit for Still Spirits T500 owners *Angle:* Sell still controllers to licensed craft distillers	$200-450 per controller kit *Effort:* Medium (Needs still-specific tuning and safety review) ⚠ LGPL-2.1; distilling laws and fire safety
RasPiBrew steve71/RasPiBrew ★ 192 · Permissive MIT · Tool · Fit 2/5	Raspberry Pi temperature controller for homebrewing and sous vide *Replaces:* Inkbird, Anova, Auber Instruments PID	Homebrewers and sous vide cooks	Hardware kits/assembly Content/membership Training/courses	• PID controller kits for homebrew rigs • Sous vide controllers for hobby chefs • Brew kettle controllers for nano breweries *Angle:* Sell mash temperature controllers	$60-120 per kit *Effort:* Medium (Older Python code, needs updating) ⚠ MIT; mains wiring safety
Pid-autotune hirschmann/pid-autotune ★ 171 · Permissive MIT · Tool · Fit 2/5	PID controller simulation of a brewing kettle for autotuning. *Replaces:* Commercial PID autotune tools, brewery controller products	Homebrewers and temperature-control hobbyists	Hardware kits/assembly Consulting/implementation	• PID tuning for homebrew kettle kits • Temperature control for small craft breweries • Autotune training for controls students	Free MIT; $80-150 per kettle tuning service *Effort:* Low (simulation code, MIT, small scope) ⚠ MIT permits reuse; kettle safety and tuning needs real-world testing
BrewUNO uncodead/BrewUNO ★ 103 · Check NOASSERTION · Hardware · Fit 2/5	ESP8266 homebrew automation controller with online monitoring and precise temperature control. *Replaces:* Commercial brewery controllers, iSpindel-style monitors	Homebrewers and small craft brewers	Hardware kits/assembly Setup + support retainer	• Automated brew controllers for nano-breweries • Fermentation logs for homebrew clubs • Temperature controllers for kombucha makers	Kit $60-120 per controller; setup $40/hr *Effort:* Medium (ESP8266 hardware, needs safety and UI polish) ⚠ NOASSERTION license: read first; heating elements need electrical safety
Act 20n/act ★ 92 · GPL GPL-3.0 · Tool · Fit 2/5	Computational synthetic biology tool predicting DNA edits for bioengineering. *Replaces:* Commercial synthetic biology design platforms	Bioengineering labs designing DNA constructs	Consulting/implementation API/usage-based	• Edit prediction for CRISPR design startups • DNA design services for biotech labs • Bioengineering training for synthetic-biology students	Analysis $500-2000 per design project *Effort:* High (research code, validation and biosafety needed) ⚠ GPL-3.0 fine for hosting; biosecurity and DNA-synthesis rules apply
OpenBrews BrewCenter/OpenBrews ★ 78 · GPL GPL-3.0 · App · Fit 2/5	Cross-platform open-source app that helps you brew beer. *Replaces:* BeerSmith, Brewfather	Homebrewers planning batches and recipes	Mobile app on top Premium plugins/add-ons	• Recipe apps for brewing clubs • Batch planners for nano-breweries • Brew-day guides for home-brew courses	Free GPL; $3 one-time for recipe packs *Effort:* Medium (cross-platform app, needs polish and recipe data) ⚠ GPL-3.0 fine for hosting; BeerSmith and Brewfather are trademarks
Beer deanhume/beer ★ 74 · Permissive Apache-2.0 · App · Fit 2/5	Source code for a Progressive Web App about beer. *Replaces:* Untappd, beer-finder apps	Beer enthusiasts and brewery marketing teams	Mobile app on top Marketplace	• Beer discovery app for pub chains • Tap-list app for brewery taprooms • Beer-tasting checklists for bottle shops	Free Apache; $99-299 setup per brewery *Effort:* Medium (PWA source, needs data and branding) ⚠ Apache-2.0 permits reuse; Untappd is a trademark; alcohol marketing rules
Beer-analytics scheb/beer-analytics ★ 49 · GPL GPL-3.0 · Tool · Fit 2/5	Analyses beer recipe composition and visualises results for brewers. *Replaces:* Commercial recipe calculators, BeerSmith	Homebrewers and recipe designers	Premium plugins/add-ons Consulting/implementation	• Recipe analytics for craft breweries • Ingredient-cost reports for brewing consultants • Style-compliance checks for homebrew competitions	Free GPL; $200-500 per recipe report *Effort:* Medium (analysis code, needs data and UI) ⚠ GPL-3.0 fine for hosting; alcohol marketing and licensing rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Hydrometer-Esp32-Micropython dukeduck1984/Hydrometer-Esp32-Micropython ★ 41 · Check NONE · Hardware · Fit 2/5	Wireless ESP32 hydrometer running MicroPython for fermentation tracking. *Replaces:* Commercial Tilt and iSpindel hydrometers	Homebrewers tracking fermentation gravity	Hardware kits/assembly Consulting/implementation	• Wireless hydrometers for home brewers • Fermentation logs for cider makers • Gravity sensors for homebrew clubs	Kit $35-60 per hydrometer *Effort:* Medium (MicroPython firmware, needs enclosure and QA) ⚠ NONE license: no rights granted; battery and wireless compliance needed
beer.db beerkit/beer.db ★ 39 · Permissive CC0-1.0 · Library · Fit 2/5	Open beer database with command-line tools and libraries. *Replaces:* Untappd API, commercial beer product databases	Beer app developers needing product data	API/usage-based Marketplace	• Beer catalogue API for pub apps • Product data for bottle-shop websites • Style lookups for brewery sales teams	Free CC0; API hosting $50-200/mo *Effort:* Low (CC0 data and tools, easy to rebrand) ⚠ CC0 is fully permissive; check data accuracy and brand names
Saci-temperature-controller jalexandre0/saci-temperature-controller ★ 33 · GPL GPL-3.0 · Hardware · Fit 2/5	Temperature controller for homebrewers and hobby hackers. *Replaces:* Commercial brewing temperature controllers, Inkbird controllers	Homebrewers controlling fermentation temperature	Hardware kits/assembly Consulting/implementation	• Fermentation chambers for home brewers • Temperature controllers for kombucha makers • Cold-crash setups for small cider producers	Kit $50-90; custom build $150 each *Effort:* Medium (hardware plus mains voltage safety) ⚠ GPL-3.0: distributed hardware firmware must ship source; mains electrical safety
Boilermaker larry-athey/boilermaker ★ 5 · Weak copyleft LGPL-2.1 · Hardware · Fit 2/5	WiFi ESP32 power controller and temperature regulator for brewing and distillation boilers *Replaces:* Auber Instruments, Digiterm, Brewhaus	Home brewers and distillers	Hardware kits/assembly Setup + support retainer Content/membership	• Boiler power controllers for brewers • Multi-boiler setups for craft distilleries • Electric kettle controllers for nano breweries *Angle:* Sell boiler power controllers for stills	$80-150 per unit *Effort:* Medium (High-power electronics, needs certification) ⚠ LGPL-2.1; mains electrical safety and distilling laws

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
GRBL gnea/grbl ★ 4.6k · Check NOASSERTION · Tool · Fit 4/5	Embedded G-code parser and CNC motion controller firmware for Arduino *Replaces:* Mach3, Masso controllers, Carbide Motion	CNC hobbyists and small machine builders	Hardware kits/assembly Setup + support retainer Content/membership	• Preflashed CNC controller boards • Desktop CNC kits for makerspaces • Controller upgrades for old routers *Angle:* Sell small desktop CNC routers with GRBL controllers for sign shops	$40-120 per board *Effort:* Low (Widely used firmware, easy to bundle) ⚠ GPL-3.0 per repo license metadata; grbl name common
Cncjs cncjs/cncjs ★ 2.7k · Permissive MIT · App · Fit 4/5	Web interface for controlling CNC machines running Grbl, Marlin, Smoothieware or TinyG. *Replaces:* Mach3, Estlcam, commercial CNC control software	CNC hobbyists and small job shops	Premium plugins/add-ons Setup + support retainer	• Web controllers for makerspaces • Remote CNC monitoring for job shops • CNC setup services for hobby shops	Free MIT; $50-150 per shop setup *Effort:* Low (MIT web app, well known, easy to brand) ⚠ MIT permits reuse; Grbl and Marlin trademarks; controller hardware varies
FluidNC bdring/FluidNC ★ 2.6k · Check NOASSERTION · Tool · Fit 4/5	Next-generation CNC motion control firmware for ESP32 with WiFi and config files *Replaces:* Mach3, Masso, Carbide Motion	CNC and laser machine builders	Hardware kits/assembly Setup + support retainer Premium plugins/add-ons	• ESP32 CNC controllers for laser makers • Retrofit boards for aging routers • Pen plotter controllers for educators *Angle:* Sell WiFi CNC controller boards with config support	$60-150 per board *Effort:* Low (Firmware configurable by file, no code needed) ⚠ Check license; Grbl-derived GPL code
LinuxCNC LinuxCNC/linuxcnc ★ 2.5k · GPL GPL-2.0 · Platform · Fit 4/5	Machine control software for milling machines, lathes, plasma cutters and robots *Replaces:* Mach3, Masso, Centroid Acorn, Fanuc controllers	Machine shops retrofitting old CNC machines	Consulting/implementation Hardware kits/assembly Training/courses	• Retrofit old Bridgeport mills for shops • LinuxCNC training for apprentices • Plasma table controllers for fab shops *Angle:* Retrofit legacy lathes and mills with LinuxCNC control cabinets	$3k-10k per retrofit *Effort:* High (Needs real-time kernel and machine integration) ⚠ GPL-2.0; machine safety liability; LinuxCNC name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
PrintNC ARCHIVED threedesigns/printNC ★ 278 · Permissive CC-BY-4.0 · Hardware · Fit 4/5	Open-source high-performance affordable CNC machine, with plans and BOM *Replaces:* Shapeoko, Onefinity, Carbide 3D Nomad, Axiom Precision	Small fabricators and woodworking shops	Hardware kits/assembly Training/courses Local service business	• PrintNC kits for makerspaces • Steel-table CNCs for sign shops • Build workshops for woodworking clubs *Angle:* Fabricate steel PrintNC frames to order for small machine shops	$2.5k-5k per kit *Effort:* Medium (Well documented build, needs parts sourcing) ⚠ CC-BY; PrintNC branding is community-held
Universal G-code Sender winder/Universal-G-Code-Sender ★ 2.3k · GPL GPL-3.0 · App · Fit 3/5	Cross-platform G-code sender for GRBL, Smoothieware, TinyG and G2core controllers *Replaces:* Carbide Motion, Candle, Mach3	CNC hobbyists and small shops	Premium plugins/add-ons Training/courses Setup + support retainer	• CNC sender bundled with hobby machine kits • Remote CNC monitoring add-on for makerspaces • Training for new CNC owners *Angle:* Bundle CNC machines with preconfigured control laptops and training	$10-30 one-time, pro add-ons *Effort:* Low (Java desktop app, easy to rebrand) ⚠ GPL-3.0; distributed apps must ship source
Grbl_Esp32 bdring/Grbl_Esp32 ★ 2.0k · GPL GPL-3.0 · Tool · Fit 3/5	Grbl CNC motion-control firmware ported to ESP32 boards. *Replaces:* Commercial CNC controllers, Mach3 controller boards	CNC builders and hobby machine shops	Hardware kits/assembly Consulting/implementation	• ESP32 controllers for desktop CNC kits • Wi-Fi CNC controllers for makerspaces • Controller retrofits for old milling machines	Firmware free; $60-120 per controller board *Effort:* Medium (firmware port, needs board testing and docs) ⚠ GPL-3.0: distributed firmware must ship source; machine-safety liability
LaserGRBL arkypita/LaserGRBL ★ 1.7k · Check NOASSERTION · App · Fit 3/5	Windows GUI for GRBL laser engravers with image-to-G-code tools *Replaces:* LightBurn, LaserWeb, Lightburn Bridge	Hobbyist laser engraver owners	Premium plugins/add-ons Training/courses Content/membership	• Engraving templates for etsy sellers • Laser software for school makerspaces • Image prep tools for engraving shops *Angle:* Run a custom laser engraving shop for gifts and signage	$20-60 one-time license *Effort:* Medium (Windows-only C# app, custom license) ⚠ Custom license may restrict commercial use; read it
Deepnest Jack000/Deepnest ★ 1.2k · Check NONE · Tool · Fit 3/5	Desktop nesting app that packs shapes efficiently for laser and plasma cutting *Replaces:* SigmaNEST, Lantek, Lightburn nesting, Fastcam	Small fab and laser cutting shops	Vertical SaaS Premium plugins/add-ons Local service business	• Cloud nesting service for sheet metal shops • Nesting for acrylic sign makers • Material-saving tool for wood CNC shops *Angle:* Offer nesting-optimized laser/plasma cutting job service	$15-50/mo per shop *Effort:* Medium (Electron desktop app, would need web service) ⚠ No license stated; get permission
Stmbl rene-dev/stmbl ★ 990 · GPL GPL-3.0 · Hardware · Fit 3/5	AC servo drive firmware and hardware design for STM32F4 boards. *Replaces:* Commercial servo drives, industrial motion controllers	CNC builders and robotics teams using AC servos	Hardware kits/assembly Consulting/implementation	• Servo drives for CNC router retrofits • Motion boards for small robotics startups • Drive upgrades for old industrial machines	Board $150-300; integration support $100/hr *Effort:* High (motor-drive safety, mains voltage, certification needed) ⚠ GPL-3.0: distributed firmware must ship source; motor-drive safety liability
GRBL-Plotter svenhb/GRBL-Plotter ★ 908 · GPL GPL-3.0 · App · Fit 3/5	Windows G-code sender for GRBL controllers with SVG, DXF and HPGL import. *Replaces:* Universal Gcode Sender, Carbide Motion	Laser and CNC hobbyists sending G-code	Premium plugins/add-ons Setup + support retainer	• Laser engraving setup for sign shops • G-code sending for CNC hobby shops • DXF import tools for furniture makers	Free GPL; $20-40 one-time premium plugin *Effort:* Low (Windows app, GPL, existing user base) ⚠ GPL-3.0 fine for hosting; distributed apps must ship source
LaserWeb4 LaserWeb/LaserWeb4 ★ 808 · AGPL AGPL-3.0 · App · Fit 3/5	Next-version browser app for laser and CNC job preparation, built collaboratively. *Replaces:* LightBurn, Carbide Create	Laser cutter owners and makerspaces	Premium plugins/add-ons Setup + support retainer	• Laser cutting software for sign shops • Setup support for makerspace laser labs • Job-prep tools for small furniture makers	Free AGPL; $5/mo for hosted job-prep *Effort:* Medium (beta-stage codebase, desktop and browser needs) ⚠ AGPL-3.0: hosted modifications must be published; LaserWeb name is brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
grblHAL grblHAL/core ★ 523 · Check NOASSERTION · Tool · Fit 3/5	High-performance GRBL-compatible core firmware for many 32-bit microcontrollers *Replaces:* Mach3, Masso, Centroid, Carbide Motion	CNC machine builders needing faster controllers	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Controller boards for CNC router makers • Custom firmware for machine OEMs • Retrofit boards for mills *Angle:* Retrofit old industrial mills with grblHAL controller boards	$80-200 per board *Effort:* Medium (Needs board design and per-driver support) ⚠ Check license per driver; GPL-derived parts
UCNC Paciente8159/uCNC ★ 461 · GPL GPL-3.0 · Tool · Fit 3/5	Universal CNC motion-control firmware for many microcontroller boards. *Replaces:* Commercial CNC controllers, Grbl controller boards	CNC builders running microcontroller controllers	Hardware kits/assembly Consulting/implementation	• Firmware for cheap CNC controller boards • Motion controllers for laser-cutter upgrades • Controller ports for school robotics kits	Firmware free; $80-150 per controller board *Effort:* Medium (firmware for many boards, needs board testing) ⚠ GPL-3.0: distributed firmware must ship source; machine safety liability
MeerK40t meerk40t/meerk40t ★ 445 · Permissive MIT · App · Fit 3/5	Hackable laser software for K40, GRBL and fiber lasers *Replaces:* LightBurn, K40 Whisperer, EZCAD	K40 and fiber laser owners	Training/courses Premium plugins/add-ons Setup + support retainer	• K40 laser upgrade kits • Engraving jobs for fiber marking shops • Training for laser hobbyists *Angle:* Upgrade and service cheap K40 lasers for small engraving businesses	$100-200 per upgrade kit *Effort:* Low (Python app, plugin-friendly) ⚠ MIT; laser safety requirements
Nanoels kachurovskiy/nanoels ★ 398 · Permissive MIT · Hardware · Fit 3/5	Electronic lead screw kit for metal lathes, controlling feed electronically. *Replaces:* Commercial lathe DRO kits, Chinese lathe feed retrofits	Home machinists and small metal-working shops	Hardware kits/assembly Setup + support retainer	• Lathe retrofits for model engineers • Feed kits for small machine shops • Upgrade kits for school metalwork labs	Kit $150-300 per lathe; install $60/hr *Effort:* Medium (lathe-specific mechanics, needs safety and fit testing) ⚠ MIT permits reuse; machine-tool safety liability; hardware fit varies
Gsender Sienci-Labs/gsender ★ 386 · Check NOASSERTION · App · Fit 3/5	Desktop app to connect and control grbl and grblHAL CNC machines. *Replaces:* Mach4, Universal Gcode Sender, Carbide Motion	CNC owners running grbl or grblHAL controllers	Premium plugins/add-ons Setup + support retainer	• CNC control for small furniture shops • Grbl support for school CNC labs • Sender setup for hobby CNC resellers	Free core; $25-50 one-time for pro features *Effort:* Medium (brand-tied app, needs polish and support) ⚠ NOASSERTION license: read first; Sienci Labs and grbl names are trademarks
OpenBuilds-CAM OpenBuilds/OpenBuilds-CAM ★ 373 · AGPL AGPL-3.0 · App · Fit 3/5	Online CAM system that generates CNC toolpaths in the browser. *Replaces:* Fusion 360 CAM, Easel, Carbide Create	Hobby CNC users and small job shops	Premium plugins/add-ons Managed hosting	• Browser CAM for furniture makers • Toolpath generation for sign shops • CAM hosting for CNC training schools	Free tier; $10-25/mo for pro features *Effort:* Medium (web app, needs hosting and brand separation) ⚠ AGPL-3.0: hosted modifications must be published; OpenBuilds is a brand
Maslow CNC MaslowCNC/Firmware ★ 277 · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware for the Maslow wall-mounted router-based CNC *Replaces:* Shapeoko, Onefinity, X-Carve	Hobby woodworkers with plywood sheets	Hardware kits/assembly Content/membership Setup + support retainer	• Maslow kits for van and RV builders • Cabinet panel cutting for DIY remodelers • Sign cutting for craft fairs *Angle:* Sell vertical sheet-goods CNC kits to woodworkers	$500-900 per kit *Effort:* Medium (Firmware only, kit is commercial by Maslow) ⚠ GPL-3.0; Maslow name and hardware are trademarks
MPCNC Primo V1EngineeringInc/MPCNC_Primo ★ 185 · Check NONE · Hardware · Fit 3/5	Mostly Printed CNC Primo design files for a 3D printed CNC router *Replaces:* Shapeoko, X-Carve, Genmitsu	Makers building low-cost CNC routers	Hardware kits/assembly Training/courses Content/membership	• MPCNC hardware kits for makerspaces • Printed CNC parts for schools • Plasma cutter conversions for hobbyists *Angle:* Sell MPCNC hardware kits and run local CNC build workshops; NC terms in repo, license before selling	$250-600 per hardware kit *Effort:* Low (Printable parts, simple kit packaging) ⚠ Non-commercial hardware license likely; check V1 Engineering terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
DIY-CNC-machine maxvfischer/DIY-CNC-machine ★ 2.1k · Check NOASSERTION · Content · Fit 2/5	Build guide for making your own CNC machine from scratch. *Replaces:* Commercial desktop CNC kits, Shapeoko-style kits	Hobbyists and makerspace members building CNC machines	Content/membership Training/courses	• Build courses for makerspace members • CNC kit guides for hobby shops • Workshop plans for school tech classes	Free guide; $29-79 one-time for video course *Effort:* Medium (guide content, needs rewrite and video) ⚠ NOASSERTION license: read first; build safety and machine tool liability
Fosscad-repo maduce/fosscad-repo ★ 1.9k · GPL GPL-3.0 · Library · Fit 2/5	Official repository of FOSSCAD open-source CAD design files. *Replaces:* Commercial CAD part libraries, Autodesk Fusion parts libraries	Makers and CNC designers needing design files	Marketplace Content/membership	• CAD part libraries for CNC shops • Design file packs for makerspace classes • Fixture libraries for hobby machinists	Free GPL; $10-30 per curated pack *Effort:* Low (design library, needs curation and packaging) ⚠ GPL-3.0 fine for hosting; Autodesk trademarks; CAD file licensing varies
Sparrow JeroenGar/sparrow ★ 435 · Permissive MIT · Library · Fit 2/5	State-of-the-art 2D irregular strip-packing nesting algorithm. *Replaces:* Commercial nesting software for sheet cutting	Sheet-metal and garment cutting shops	API/usage-based Consulting/implementation	• Nesting API for laser-cutting quoting tools • Sheet-metal layout for small fabricators • Fabric cutting optimisation for upholstery shops	API $0.02-0.10 per nest; integration $5k *Effort:* Low (MIT library, algorithm ready to integrate) ⚠ MIT permits reuse; nesting algorithms may carry third-party patents
Lasersaur nortd/lasersaur ★ 398 · Check NONE · Hardware · Fit 2/5	Open source laser cutter design *Replaces:* Glowforge, Epilog, Trotec	Makerspaces and small fab labs	Hardware kits/assembly Training/courses Consulting/implementation	• Laser cutter kits for makerspaces • Education lab laser builds • Custom laser cutters for small shops *Angle:* Build large-format laser cutters for makerspaces and schools	$3k-6k per kit *Effort:* High (Large machine, laser safety and certification) ⚠ No license stated; laser product regulation
LaserDuo fab-machines/LaserDuo ★ 105 · Check NOASSERTION · Hardware · Fit 2/5	Open source dual-laser cutter design *Replaces:* Glowforge, Epilog, Trotec	Makerspaces and small fab labs	Hardware kits/assembly Training/courses Consulting/implementation	• Dual laser kits for FabLabs • Education laser machines • Custom laser cutters for craft studios *Angle:* Manufacture dual laser cutters for fab labs	$2k-5k per kit *Effort:* High (Large machine, laser safety needs certification) ⚠ Custom license; laser product regulation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ha-pitboss dknowles2/ha-pitboss ★ 69 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration for Pit Boss smokers and grills. *Replaces:* Pit Boss vendor apps, commercial BBQ monitoring	BBQ hobbyists with WiFi Pit Boss grills	Premium plugins/add-ons Setup + support retainer	• Smoker monitoring for BBQ competition teams • Grill alerts for catering businesses • Temperature logs for smokehouse restaurants	Free MIT; $20 one-time for dashboards *Effort:* Low (HA integration, MIT, device-specific) ⚠ MIT permits reuse; Pit Boss and Home Assistant are trademarks
Esp32_iGrill 1mckenna/esp32_iGrill ★ 58 · **Permissive** MIT · Tool · Fit 2/5	ESP32 BLE client that reads temperature from iGrill meat thermometers. *Replaces:* Weber iGrill app, Wi-Fi meat thermometers	Grill owners wanting remote temperature alerts	Hardware kits/assembly Premium plugins/add-ons	• BLE probe bridges for restaurant smokers • Remote alerts for backyard BBQ hosts • Meat-temp logging for catering trucks	Kit $25-40 per bridge; app $3 one-time *Effort:* Low (single BLE client, MIT, small scope) ⚠ MIT permits reuse; Weber and iGrill are trademarks; BLE compatibility varies
RomTools Danda420/RomTools ★ 55 · **GPL** GPL-3.0 · Tool · Fit 2/5	Menu-based Linux CLI for unpacking, repacking and converting Android ROM partitions. *Replaces:* Commercial Android ROM toolkits, ROM tooling services	Android ROM modders and repair technicians	Consulting/implementation Training/courses	• Partition tools for phone repair shops • ROM conversion service for device resellers • Command-line training for Android technicians	Service $80-200 per device; tool free *Effort:* Medium (CLI tool for Linux, technical audience) ⚠ GPL-3.0 fine for hosting; firmware modification may void warranties
Kitchen-Inventory fuzzymannerz/Kitchen-Inventory ★ 53 · **Permissive** MIT · App · Fit 2/5	Stock and inventory system for food and supplies. *Replaces:* Commercial restaurant inventory systems, MarketMan	Small restaurants and food pantries tracking stock	Managed hosting Vertical SaaS	• Inventory tracking for food trucks • Stock control for community food pantries • Pantry tracking for home-cooking families	Free MIT self-host; $29-79/mo hosted per kitchen *Effort:* Medium (basic app, needs multi-user, reporting and polish) ⚠ MIT permits reuse; food-safety records may carry compliance rules
Pyanova-api ammarzuberi/pyanova-api ★ 40 · **Permissive** MIT · Library · Fit 2/5	Python 3 library for controlling Anova WiFi sous-vide cookers through the Anova API. *Replaces:* Vendor apps for Anova cookers	Home cooks and smart-kitchen hobbyists	Consulting/implementation Premium plugins/add-ons	• Cooker automation for meal-prep businesses • Sous-vide logging for restaurants • Smart cooker scripts for culinary schools	Free MIT; $50-150 per integration *Effort:* Low (small Python API client, MIT) ⚠ MIT permits reuse; relies on Anova's API, which may change
Sous Vide Adaptive egiust/SousVideAdaptativeArduino ★ 36 · **AGPL** AGPL-3.0 · Library · Fit 2/5	Adaptive regulation algorithm for sous-vide cookers on Arduino *Replaces:* Anova, Inkbird, Joule	Sous vide DIY makers	Hardware kits/assembly Consulting/implementation Content/membership	• Sous vide controller kits for hobbyists • Adaptive cooker controllers for chefs • Teaching kits for food science classes *Angle:* Build sous-vide baths for restaurants	$40-90 per kit *Effort:* Low (Algorithm only, hardware by integrator) ⚠ AGPL-3.0; publish modifications
Smoke-x-receiver G-Two/smoke-x-receiver ★ 32 · **Permissive** MIT · Hardware · Fit 2/5	ESP32 and LoRa bridge linking a ThermoWorks Smoke X thermometer to Home Assistant over MQTT. *Replaces:* ThermoWorks app, Wi-Fi BBQ thermometers	Smokers and BBQ fans using ThermoWorks probes	Hardware kits/assembly Setup + support retainer	• Remote smoke monitoring for BBQ competition teams • LoRa probe bridges for catering trucks • Smoker alerts for backyard pitmasters	Kit $40-70 per receiver; setup $30/hr *Effort:* Low (single bridge device, MIT, well-scoped) ⚠ MIT permits reuse; ThermoWorks trademark; LoRa radio rules vary by region
BBQer abuharsky/BBQer ★ 30 · **Permissive** MIT · Hardware · Fit 2/5	Arduino BBQ smoker controller with cloud analytics and notifications *Replaces:* Flame Boss, BBQ Guru, Weber Connect	BBQ hobbyists	Hardware kits/assembly Mobile app on top Setup + support retainer	• Smoker alerts for backyard pitmasters • Cloud grill monitoring for competition teams • Smoker retrofit for offset smokers *Angle:* Sell smart smoker retrofit kits	$80-150 per kit *Effort:* Medium (Hobby code, cloud piece needs rebuilding) ⚠ MIT; hobby grade support
Pytboss dknowles2/pytboss ★ 29 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python 3 library for interacting with Pit Boss grills and smokers. *Replaces:* Pit Boss vendor apps	BBQ smoker owners and integration developers	Consulting/implementation Premium plugins/add-ons	• Smoker APIs for BBQ restaurant software • Grill control for catering companies • Pit Boss data for competition BBQ teams	Free Apache; $50-150 per integration *Effort:* Low (small Python client, Apache-2.0) ⚠ Apache-2.0 permits reuse; Pit Boss trademark; depends on vendor API

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Smokey the Barrel willblev/SmokeyTheBarrel ★ 23 · Check NONE · Hardware · Fit 2/5	Automatic temperature controller for ugly drum smokers *Replaces:* Flame Boss, BBQ Guru, Billows	Drum smoker owners	Hardware kits/assembly Content/membership Setup + support retainer	• UDS blower kits for drum smoker builders • Smoker kits for backyard cooks • Fan controller upgrades for kamado owners *Angle:* Sell drum smoker temperature controllers	$70-130 per kit *Effort:* Low (Small hobby project, no license) ⚠ No license stated; fire safety

Cosmetics & Soap · 16

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Graphql-mesh ardatan/graphql-mesh ★ 3.5k · Permissive MIT · Framework · Fit 3/5	GraphQL gateway framework that unifies REST, SOAP and gRPC APIs. *Replaces:* Apollo Federation, Hasura, commercial API gateways	Platform teams unifying legacy APIs behind GraphQL	Consulting/implementation Managed hosting	• GraphQL gateways for legacy banking APIs • API unification for retail ERP vendors • GraphQL layers for SOAP-heavy government systems	Setup $8-20k per gateway; hosting $300-1000/mo *Effort:* Medium (framework, needs hosting and auth layers) ⚠ MIT permits reuse; GraphQL and Apollo trademarks; schema-stitching complexity
Anythingmcp HelpCode-ai/anythingmcp ★ 757 · AGPL AGPL-3.0 · Platform · Fit 3/5	MCP gateway connecting enterprise APIs, databases and file servers to AI assistants. *Replaces:* Zapier, Workato, MuleSoft	Enterprises connecting internal systems to AI assistants	Managed hosting Consulting/implementation	• MCP gateways for ERP consultancies • AI connectors for e-commerce operators • Internal-tool bridges for mid-size logistics firms	Hosted $300-1000/mo per workspace; setup $3-8k *Effort:* Medium (large connector catalogue, needs auth and tenancy work) ⚠ AGPL-3.0: hosted modifications must be published; SAP, Odoo and Etsy are brands
Xsdata tefra/xsdata ★ 453 · Permissive MIT · Tool · Fit 3/5	Python tool generating XML and JSON data bindings from schemas. *Replaces:* Commercial XML binding generators, Altova MissingLink	Python teams parsing XML or JSON schemas	Consulting/implementation Training/courses	• Schema bindings for healthcare data teams • XML integration for government e-filing • Python XSD training for data engineers	Free MIT; $2-5k per schema integration *Effort:* Low (mature Python tool, MIT, easy to package) ⚠ MIT permits reuse; XML standards licences for specific schemas may apply
Imposter imposter-project/imposter ★ 414 · Check NOASSERTION · Tool · Fit 3/5	Scriptable mock server for standalone use, tests and CI/CD pipelines. *Replaces:* WireMock, Mockoon, commercial API mock services	QA and API teams testing against mock services	Managed hosting Setup + support retainer	• Mock servers for fintech API QA • CI mock environments for SaaS teams • Partner API sandboxes for payment startups	Managed hosting $200-600/mo; setup $2-5k *Effort:* Medium (multi-protocol mocks, needs hosting and docs) ⚠ NOASSERTION license: read first; WireMock and Mockoon are competing brands
ServiceStack ServiceStack/ServiceStack ★ 5.5k · Check NOASSERTION · Framework · Fit 2/5	Fast .NET framework for building typed web services and APIs. *Replaces:* ASP.NET Web API, commercial API frameworks	.NET teams building APIs and web services	Consulting/implementation Setup + support retainer	• Fast APIs for .NET fintech backends • Typed services for mobile app teams • Migration services for legacy WCF shops	Commercial licence $1-5k per year; support retainer *Effort:* Medium (mature framework, licence tiers need reading) ⚠ NOASSERTION license: read first; licence tiers may restrict commercial use
Savon savonrb/savon ★ 2.1k · Permissive MIT · Library · Fit 2/5	Ruby SOAP client library for calling legacy web services. *Replaces:* Commercial SOAP clients, SoapUI	Ruby teams integrating legacy SOAP services	Consulting/implementation Setup + support retainer	• SOAP bridges for Ruby insurance back-offices • Legacy integrations for logistics firms • Government SOAP connectors for Ruby agencies	Free MIT; $1-3k per integration project *Effort:* Low (MIT Ruby gem, easy to wrap) ⚠ MIT permits reuse; SOAP is legacy, maintenance is slow

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Python-zeep mvantellingen/python-zeep ★ 2.0k · **Check** NOASSERTION · Library · Fit 2/5	Python SOAP client that reads WSDL files and builds calls automatically. *Replaces:* Commercial SOAP clients, SoapUI	Python teams integrating WSDL services	Consulting/implementation Setup + support retainer	• SOAP integrations for Python banking back-offices • WSDL connectors for healthcare billing • Legacy SOAP bridges for insurance apps	Free; $1-3k per integration project *Effort:* Low (mature Python library, easy to wrap) ⚠ NOASSERTION license: read first; legacy SOAP services need vendor testing
Spyne arskom/spyne ★ 1.2k · **Check** NOASSERTION · Framework · Fit 2/5	Transport-agnostic RPC framework for exposing well-defined APIs over popular protocols. *Replaces:* Commercial SOAP servers, gRPC gateways	Python teams exposing SOAP and JSON APIs	Consulting/implementation Setup + support retainer	• SOAP services for Python telecom billing • API exposure for legacy insurance platforms • RPC layers for industrial data systems	Free LGPL; $2-5k per API migration *Effort:* Medium (framework learning curve, legacy protocol focus) ⚠ NOASSERTION license: read first; framework needs careful protocol testing
SoapCore DigDes/SoapCore ★ 1.1k · **Permissive** MIT · Library · Fit 2/5	SOAP extension for ASP.NET Core services. *Replaces:* Commercial SOAP servers, WCF bridges	.NET teams keeping SOAP endpoints alive	Consulting/implementation Setup + support retainer	• WCF-to-Core migrations for banks • SOAP endpoints for healthcare .NET apps • Legacy integration for logistics ASP.NET shops	Free MIT; $3-8k per migration *Effort:* Low (small .NET library, MIT) ⚠ MIT permits reuse; WCF and ASP.NET are Microsoft trademarks
Laravel-soap notfalsedev/laravel-soap ★ 628 · **Permissive** MIT · Library · Fit 2/5	Laravel wrapper around SOAP clients for calling web services.	Laravel teams calling SOAP web services	Consulting/implementation Setup + support retainer	• SOAP connectors for Laravel ERP integrators • Legacy bank integrations for Laravel agencies • Government SOAP calls for PHP consultants	Free MIT; $500-1500 per integration *Effort:* Low (small Laravel wrapper, MIT) ⚠ MIT permits reuse; Laravel is a trademark; SOAP legacy maintenance
Gosoap tiaguinho/gosoap ★ 542 · **Permissive** MIT · Library · Fit 2/5	Go package for making SOAP calls to web services. *Replaces:* Commercial SOAP clients	Go teams integrating legacy SOAP APIs	Consulting/implementation Training/courses	• SOAP connectors for Go fintech services • Legacy bridges for government APIs • Go SOAP training for backend bootcamps	Free MIT; $80-150/hr integration support *Effort:* Low (small Go package, MIT) ⚠ MIT permits reuse; small library, maintenance uncertain
PackageGenerator WsdlToPhp/PackageGenerator ★ 434 · **Permissive** MIT · Tool · Fit 2/5	Generates PHP SDK packages from WSDL service descriptions. *Replaces:* Commercial SOAP SDK generators, manual PHP wrappers	PHP agencies integrating WSDL services	Consulting/implementation Setup + support retainer	• PHP SDKs for legacy ERP integrations • SOAP client generation for PHP agencies • WSDL-to-SDK work for government PHP shops	Free MIT; $1-2k per generated SDK *Effort:* Low (PHP generator, MIT, simple scope) ⚠ MIT permits reuse; generated SDKs may inherit WSDL service terms
Strong-soap loopbackio/strong-soap ★ 411 · **Check** NOASSERTION · Library · Fit 2/5	Node.js SOAP driver, a complete rewrite of node-soap. *Replaces:* node-soap, commercial SOAP gateways	Node.js teams calling legacy SOAP services	Consulting/implementation Setup + support retainer	• SOAP bridges for Node insurance APIs • Legacy SOAP connectors for logistics startups • Node SOAP training for backend teams	Free; $1-3k per legacy integration *Effort:* Low (npm library, needs updates for current Node) ⚠ NOASSERTION license: read first; LoopBack and StrongLoop are brands
Mestudy zengyunhua/Mestudy ★ 408 · **Permissive** Apache-2.0 · Platform · Fit 2/5	Reference backend for Chinese social-insurance and e-government services. *Replaces:* Commercial government e-service platforms	Chinese government IT vendors and integrators	Setup + support retainer Consulting/implementation	• Social-insurance backends for county governments • E-government APIs for municipal vendors • Spring MVC training for government IT teams	Implementation $30-100k per municipal project *Effort:* High (large Java stack, Oracle, government compliance) ⚠ Apache-2.0 permits reuse; China government compliance and data-security rules apply
SoapOpera okhin/SoapOpera ★ 2 · **Check** NONE · Tool · Fit 2/5	Python project to manage stock and recipes for soap making *Replaces:* Soapmaking Friend, Brambleberry tools, SoapCalc	Small soap makers	Vertical SaaS Setup + support retainer Content/membership	• Batch tracker for small soap studios • Inventory app for soap Etsy shops • Recipe logs for soap classes *Angle:* Small-batch soap maker inventory and recipe production	$8-15/mo per shop *Effort:* Medium (Small script, needs web UI) ⚠ No license stated

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Formularium lampros-polyzos/formularium ★ 0 · Permissive MIT · Tool · Fit 2/5	Tool helping home cosmetics makers formulate recipes *Replaces:* Brambleberry formulators, Skin Deep Cosmetics tools, Formulator Sample Shop	Home cosmetics makers	Vertical SaaS Content/membership Training/courses	• Formula calculators for DIY skincare sellers • Recipe tool for natural cosmetics classes • Batch scaling for indie beauty makers *Angle:* Sell home cosmetics formulation kits	$6-12/mo per user *Effort:* Medium (Early project, needs content and validation) ⚠ MIT; cosmetic safety regulation

Drones · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
WebODM WebODM/WebODM ★ 4.3k · AGPL AGPL-3.0 · App · Fit 4/5	Web app for processing drone imagery into maps and 3D models. *Replaces:* DroneDeploy, Pix4D Mapper, Pix4Dcloud	Drone service companies and land surveyors	Managed hosting Setup + support retainer	• Drone mapping SaaS for land surveyors • Hosted orthomosaic service for farms • Inspection mapping for roofing contractors	$49-199/mo per team hosted; free self-host *Effort:* Medium (good UI, needs branding, auth and billing) ⚠ AGPL-3.0: hosted modifications must be published; WebODM is a project brand
ArduPilot ArduPilot/ardupilot ★ 16.3k · GPL GPL-3.0 · Platform · Fit 3/5	Open autopilot software for planes, copters, rovers and submarines *Replaces:* DJI flight controllers, Skydio autonomy, Pixhawk-based PX4 vendors, Auterion	Drone makers and commercial drone service firms	Consulting/implementation Hardware kits/assembly Training/courses	• Custom mapping drones for surveyors • Agricultural spraying drone integration • Autopilot training for drone pilots *Angle:* Sell crop-spraying drones with setup and pilot training	$5k-30k per custom build *Effort:* High (Huge code base and certification burden) ⚠ GPL-3.0; drone aviation regulation; ArduPilot trademark
PX4 Autopilot PX4/PX4-Autopilot ★ 13.0k · Permissive BSD-3-Clause · Platform · Fit 3/5	Open autopilot software for drones with permissive license *Replaces:* DJI flight controllers, Skydio, Auterion, Freefly	Drone OEMs and enterprise UAV startups	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Custom inspection drones for utilities • Delivery drone prototypes for logistics startups • PX4 integration for university labs *Angle:* Build survey drones for agriculture mapping services	$10k-50k per integration *Effort:* High (Complex system, aviation regulatory work) ⚠ BSD-3-Clause allows closed use; aviation regulation
ODM OpenDroneMap/ODM ★ 6.6k · AGPL AGPL-3.0 · Tool · Fit 3/5	Command-line toolkit turning drone photos into maps, point clouds and 3D models. *Replaces:* Pix4D, DroneDeploy, Agisoft Metashape	Surveyors and drone firms processing aerial imagery	Managed hosting Setup + support retainer	• Orthomosaic processing for farm drone services • Site-survey maps for construction contractors • Volumetric reports for quarry operators	Hosted processing $50-200/mo; setup $2-5k *Effort:* Medium (CLI toolkit, needs UI, cloud and job queue) ⚠ AGPL-3.0: hosted modifications must be published; OpenDroneMap is a project brand
ExpressLRS ExpressLRS/ExpressLRS ★ 5.5k · GPL GPL-3.0 · Hardware · Fit 3/5	Open radio control link firmware for long range and low latency *Replaces:* FrSky ACCST, TBS Crossfire, Futaba, Spektrum	FPV pilots and RC hobbyists	Hardware kits/assembly Setup + support retainer Training/courses	• ExpressLRS receivers for FPV shops • Long-range kits for fixed wing pilots • Preflashed modules for hobby stores *Angle:* Manufacture long-range radio receivers and modules	$15-60 per receiver *Effort:* Medium (Needs RF hardware and radio regulation) ⚠ GPL-3.0; radio regulation per region
QGroundControl mavlink/qgroundcontrol ★ 5.1k · Permissive Apache-2.0 · App · Fit 3/5	Cross-platform ground control station for configuring and flying MAVLink drones *Replaces:* DJI Pilot, Auterion Suite, UgCS, Litchi	Drone operators and UAV developers	Consulting/implementation Premium plugins/add-ons Setup + support retainer	• Branded GCS for drone service companies • Mission planning for agricultural drones • Inspection workflows for utility drones *Angle:* Offer drone inspection services with rugged ground stations	$2k-10k per custom GCS *Effort:* Medium (Qt app, rebrandable, license permits) ⚠ Apache-2.0 and GPL dual licensing; QGroundControl name
INAV iNavFlight/inav ★ 4.3k · GPL GPL-3.0 · Tool · Fit 3/5	Navigation-enabled flight control software for GPS drones and fixed wing *Replaces:* DJI FPV flight controllers, Pixhawk setups	Long-range FPV pilots and RC plane owners	Hardware kits/assembly Training/courses Setup + support retainer	• Long-range FPV wing kits • Return-to-home drone builds • Fixed wing mapping setups for farmers *Angle:* Build long-range fixed-wing inspection drones	$300-900 per built drone *Effort:* Low (Firmware easy to bundle with hardware) ⚠ GPL-3.0; INAV name; aviation regulation

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenHD OpenHD/OpenHD ★ 2.7k · GPL · GPL-3.0 · Platform · Fit 3/5	Open digital HD video link system for FPV drones *Replaces:* DJI O3, Walksnail, HDZero	Long-range FPV pilots	Hardware kits/assembly Setup + support retainer Training/courses	• Long-range HD video kits • Preflashed OpenHD air units • Setup service for fixed wing FPV *Angle:* Sell long-range HD video links for drones	$300-600 per kit *Effort:* Medium (Needs board hardware and radio compliance) ⚠ GPL-3.0; radio emission regulation
EdgeTX EdgeTX/edgetx ★ 2.5k · GPL · GPL-2.0 · Tool · Fit 3/5	Firmware for R/C radio transmitters with color screens and model setups *Replaces:* FrSky OpenTX, Futaba, Spektrum, Jumper radios	RC and FPV pilots	Training/courses Setup + support retainer Hardware kits/assembly	• Radio setup service for FPV pilots • Pre-programmed models for beginners • Transmitter bundles for flying clubs *Angle:* Sell preconfigured RC transmitters for drone beginners	$20-60 per setup *Effort:* Low (Firmware, easy to bundle on radios) ⚠ GPL-2.0; EdgeTX trademark
Open-dronelog arpanghosh8453/open-dronelog ★ 1.6k · AGPL · AGPL-3.0 · App · Fit 3/5	Universal dashboard for organising and analysing DJI and Litchi drone flight logs. *Replaces:* Airdata, DroneLogbook	Drone pilots and inspection teams reviewing flight logs	Premium plugins/add-ons Managed hosting	• Flight-log reporting for inspection firms • Log analysis for drone training schools • Compliance logs for survey operators	Free AGPL self-host; $10-20/mo hosted *Effort:* Medium (dashboard app, needs hosting and auth) ⚠ AGPL-3.0: hosted modifications must be published; DJI and Litchi are trademarks
Crazyflie bitcraze/crazyflie-firmware ★ 1.6k · GPL · GPL-3.0 · Hardware · Fit 3/5	Firmware for Crazyflie nano quadcopter, Bolt and Roadrunner positioning tag *Replaces:* Parrot Mambo, DJI Tello, Skydio	Robotics researchers and drone swarm developers	Hardware kits/assembly Consulting/implementation Training/courses	• Swarm drones for universities • Indoor positioning demo kits • Drone classes for robotics students *Angle:* Sell micro-drone swarm kits to universities	$250-600 per drone kit *Effort:* Medium (Hardware by Bitcraze, firmware add-on work) ⚠ GPL-3.0; Crazyflie trademark
ESP32 DroneBridge/ESP32 ★ 1.1k · Permissive · Apache-2.0 · Tool · Fit 3/5	Secure telemetry link for ESP32 supporting WiFi and ESP-NOW with MAVLink. *Replaces:* Commercial telemetry radios, Herelink, RFD900	Drone builders needing cheap telemetry links	Hardware kits/assembly Consulting/implementation	• Telemetry kits for drone racing clubs • Long-range links for survey drones • Telemetry for rover projects in university labs	Kit $30-60 per link pair; setup $60/hr *Effort:* Medium (RF link, needs range and regulatory testing) ⚠ Apache-2.0 permits reuse; RF transmit rules vary by country
Betaflight betaflight/betaflight ★ 11.8k · GPL · GPL-3.0 · Tool · Fit 2/5	Flight controller firmware for FPV racing and freestyle quadcopters *Replaces:* DJI FPV flight controllers, Skydio	FPV pilots and drone shops	Hardware kits/assembly Training/courses Local service business	• FPV drone builds for racers • Tuning service for freestyle pilots • Betaflight flight controller boards *Angle:* Sell custom FPV racing quads and repair service	$250-600 per built drone *Effort:* Low (Firmware, easy to bundle with hardware) ⚠ GPL-3.0; Betaflight trademark; aviation rules
Gobot hybridgroup/gobot ★ 9.5k · Check · NOASSERTION · Framework · Fit 2/5	Go framework for robotics, drones and IoT device control. *Replaces:* Commercial robotics middleware, IoT device SDKs	Go developers building robots and IoT devices	Consulting/implementation Training/courses	• Go robotics training for university labs • Drone control backends for survey startups • IoT device control for agritech firms	Free core; $150/hr integration support *Effort:* Medium (framework, needs hardware drivers per device) ⚠ NOASSERTION license: read first; device drivers vary in licence
OpenMVG openMVG/openMVG ★ 6.6k · Weak copyleft · MPL-2.0 · Library · Fit 2/5	Multiple-view geometry library for 3D reconstruction and structure-from-motion. *Replaces:* Commercial photogrammetry SDKs, Agisoft Metashape SDK	Computer vision teams building 3D reconstruction	Consulting/implementation Setup + support retainer	• 3D scanning for heritage museums • Photogrammetry pipelines for surveyors • Reconstruction APIs for construction startups	Free MPL; $3-8k per reconstruction pipeline *Effort:* Medium (C++ library, needs wrapper and GPU tuning) ⚠ MPL-2.0 is file-level copyleft; C++ build complexity
Esp-drone espressif/esp-drone ★ 2.3k · GPL · GPL-3.0 · Tool · Fit 2/5	Mini quadcopter firmware for ESP32 and ESP32-S chips. *Replaces:* Commercial mini-drone firmware, Crazyflie firmware	Toy and education drone makers using ESP32	Hardware kits/assembly Consulting/implementation	• ESP32 drone kits for STEM educators • Mini drone firmware for hobby retailers • Flight-control training for university robotics labs	Firmware free; $60-120 per drone kit *Effort:* Medium (firmware needs flight testing and safety checks) ⚠ GPL-3.0: distributed firmware must ship source; drone regulation and RF rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Dronesploit dronesploit/dronesploit ★ 2.2k · GPL GPL-3.0 · Tool · Fit 2/5	Console framework for penetration testing drone systems.	Security researchers testing drone systems	Training/courses Consulting/implementation	• Drone pentest training for security teams • Security audits for drone startups • Red-team labs for defence contractors	Training $800-1500 per seat; tool free *Effort:* Medium (security tool, misuse risk, needs curation) ⚠ GPL-3.0 fine for hosting; drone hacking tools carry misuse and legal risk
GAAS generalized-intelligence/GAAS ★ 2.1k · Permissive BSD-3-Clause · Framework · Fit 2/5	Open-source autonomy software for fully autonomous VTOL aircraft and drones. *Replaces:* Commercial autopilot software, drone integrator services	Drone developers building autonomous flight stacks	Consulting/implementation Training/courses	• Autonomy integration for VTOL startups • Flight-stack training for drone engineering courses • Autopilot retrofits for survey drone firms	Consulting $150-250/hr; software free *Effort:* High (safety-critical flight code, regulation and testing) ⚠ BSD-3-Clause permits reuse; flight-safety liability and aviation regulations
DRonin dRoninFlight/dRonin ★ 1.5k · Check NOASSERTION · Tool · Fit 2/5	Flight controller software for drones and small aircraft. *Replaces:* Commercial flight controllers, Betaflight-style firmware	Drone builders and flight-controller hobbyists	Hardware kits/assembly Consulting/implementation	• Flight controllers for FPV racing shops • Autopilot retrofits for crop-spraying hobbyists • Training boards for drone schools	Firmware free; $80-150 per flight-controller board *Effort:* High (flight safety, many boards, certification unclear) ⚠ NOASSERTION license: read first; flight-safety liability and drone regulations
DRehmFlight nickrehm/dRehmFlight ★ 1.5k · GPL GPL-3.0 · Tool · Fit 2/5	Teensy and Arduino flight controller firmware with stabilisation for small VTOLs. *Replaces:* Commercial flight controllers, Pixhawk-style boards	Small VTOL hobbyists using Teensy or Arduino boards	Hardware kits/assembly Training/courses	• Teensy flight kits for maker classes • Stabilised drone kits for STEM programmes • Flight-control workshops for hobby clubs	Kit $60-120; workshop $50 per student *Effort:* High (hobby-grade firmware, flight-safety testing needed) ⚠ GPL-3.0: distributed firmware must ship source; flight-safety liability
Faster mit-acl/faster ★ 1.3k · Permissive BSD-3-Clause · Library · Fit 2/5	Research trajectory planner for drones flying through unknown environments. *Replaces:* Commercial drone path-planning SDKs	Robotics researchers and autonomy teams	Consulting/implementation Training/courses	• Path planning for warehouse inspection drones • Obstacle-avoiding flight for mine surveys • Autonomy workshops for robotics grad students	Consulting $200/hr; code free *Effort:* High (research planner, needs real-hardware validation) ⚠ BSD-3-Clause permits reuse; collision-avoidance claims need real-world testing
CarlaAir louiszengCN/CarlaAir ★ 1.1k · Check NOASSERTION · Platform · Fit 2/5	Simulator for flying drones inside the CARLA driving-simulation world. *Replaces:* Commercial drone simulators, Unreal-based drone sims	Autonomy and embodied-AI research teams	Consulting/implementation Training/courses	• Air-ground simulation for delivery-robot startups • Drone training sims for AI research labs • Sim testing for autonomous vehicle teams	Consulting $200/hr; sim setup $5-15k *Effort:* High (research simulator, depends on CARLA and Unreal) ⚠ NOASSERTION license: read first; CARLA and Unreal Engine licence terms apply
Bluejay ESC bird-sanctuary/bluejay ★ 540 · GPL GPL-3.0 · Tool · Fit 2/5	Digital ESC firmware for brushless motors in multirotors *Replaces:* T-Motor ESCs, Holybro ESCs, DJI ESCs	FPV drone builders	Hardware kits/assembly Setup + support retainer Content/membership	• Preflashed ESCs for FPV shops • ESC tuning service for racers • Bluejay-ready ESC stacks *Angle:* Sell preflashed ESCs for FPV builders	$30-80 per ESC *Effort:* Low (Firmware, easy to flash and bundle) ⚠ GPL-3.0; Bluejay name

E-Bikes & EV Conversion · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
VESC Firmware vedderb/bldc ★ 3.6k · Check NONE · Hardware · Fit 4/5	VESC firmware for brushless motor controllers used in e-bikes, skates and robots *Replaces:* Bosch eBike controllers, Kelly controllers, Sabvoton, Alltrax	Electric vehicle builders and ebike makers	Hardware kits/assembly White-label reseller Setup + support retainer	• VESC controllers for electric skateboards • Controller kits for DIY ebikes • Motor controllers for robotics teams *Angle:* Build electric skateboards and scooters with VESC controllers	$150-450 per controller *Effort:* Medium (Needs hardware design, license is restrictive) ⚠ GPL-3.0 per upstream, repo metadata says NONE; VESC trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SavvyCAN collin80/SavvyCAN ★ 1.9k · **Permissive** MIT · App · Fit 3/5	Qt cross-platform CAN bus analysis and reverse engineering tool *Replaces:* Vector CANalyzer, PCAN-View, Kvaser tools	EV converters and automotive hackers	Training/courses Setup + support retainer Consulting/implementation	• CAN reverse engineering for EV converters • Bus analysis for motorcycle shops • Training for automotive security students *Angle:* Offer CAN-bus diagnostics for EV conversion builders	$200-1000 per analysis job *Effort:* Low (Desktop app, easy to rebrand) ⚠ MIT; vehicle safety and warranty
VESC Hardware vedderb/bldc-hardware ★ 1.4k · **Check** NONE · Hardware · Fit 3/5	Brushless DC motor controller hardware designs from VESC project *Replaces:* Kelly controllers, Sabvoton, Bosch controllers	Electric vehicle builders and hobby EV makers	Hardware kits/assembly White-label reseller Consulting/implementation	• VESC boards for electric skateboard makers • High-power controllers for ebike conversions • Motor controllers for robot makers *Angle:* Manufacture motor controllers for light EVs	$120-400 per board *Effort:* Medium (Hardware manufacturing and QA needed) ⚠ Check license; VESC trademark
EVMap ev-map/EVMap ★ 283 · **Permissive** MIT · App · Fit 3/5	Android app that finds EV charging stations using community charger databases. *Replaces:* PlugShare, ChargeMap	EV drivers in Europe needing charger maps	Premium plugins/add-ons Marketplace	• Charger finder for rideshare drivers • Charging maps for campsite operators • Route planners for EV fleet managers	Free core; $2-4 one-time pro upgrade *Effort:* Low (Android app, MIT, community data already in place) ⚠ MIT permits reuse; OpenChargeMap and GoingElectric data licences apply
TSDZ2 Smart EBike OpenSourceEBike/TSDZ2-Smart-EBike ★ 279 · **GPL** GPL-3.0 · Tool · Fit 3/5	Open firmware for TongSheng TSDZ2 mid-drive e-bike motor *Replaces:* Bosch Performance Line, Shimano STEPS, Bafang mid drives	E-bike conversion shops and DIY builders	Hardware kits/assembly Setup + support retainer Local service business	• TSDZ2 upgrade kits for e-bike conversions • Flashing service for cargo bike builders • Torque sensor tune for touring cyclists *Angle:* Sell e-bike conversion kits with tuned open firmware installed	$80-200 per kit or flash *Effort:* Low (Firmware for one motor, simple service) ⚠ GPL-3.0; e-bike speed regulations
OpenInverter jsphuebner/stm32-sine ★ 209 · **GPL** GPL-3.0 · Hardware · Fit 3/5	Firmware of the Huebner inverter project for EV motor control *Replaces:* Curtis controllers, Sevcon, Tesla drive units, Zero controllers	EV conversion shops	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Inverters for EV conversion shops • Motor controllers for electric boats • Drive systems for kit cars *Angle:* Convert classic cars to electric with salvaged Tesla drive units	$800-2000 per inverter *Effort:* High (Power electronics, hardware and safety work) ⚠ GPL-3.0; high voltage safety
Hoverboard FOC EFeru/hoverboard-firmware-hack-FOC ★ 1.8k · **GPL** GPL-3.0 · Tool · Fit 2/5	Firmware hack giving hoverboard motors field oriented control for custom vehicles *Replaces:* Segway controllers, Kelly controllers, ODrive	Hobby vehicle builders	Hardware kits/assembly Content/membership Setup + support retainer	• Hoverboard motor kits for robot builders • Custom go-karts for hobbyists • Cheap AGV drive kits for makers *Angle:* Turn salvaged hoverboards into carts and mobility kits	$50-120 per kit *Effort:* Low (Firmware for reused boards) ⚠ GPL-3.0; vehicle safety liability
OpenBafangTool andrey-pr/OpenBafangTool ★ 257 · **Permissive** MIT · Tool · Fit 2/5	Open-source service tool for tuning Bafang e-bike motors, including CAN models. *Replaces:* Official Bafang service software, dealer diagnostic tools	E-bike shops and owners tuning Bafang motors	Setup + support retainer Consulting/implementation	• Tuning service for e-bike shops • Bafang diagnostics for rental fleets • Motor setup for e-bike conversion kits	Software free; $40-80 per tuning session *Effort:* Medium (device-specific protocols, legal speed-limit issues) ⚠ MIT permits reuse; tuning may breach speed laws; Bafang is a trademark
EBiCS EBiCS/EBiCS_Firmware ★ 226 · **Check** NONE · Tool · Fit 2/5	Free FOC firmware for Lishui e-bike controllers *Replaces:* Bosch eBike controllers, Kelly controllers	E-bike DIY converters	Hardware kits/assembly Setup + support retainer Content/membership	• Lishui controller reflashing for ebike makers • Custom ebike controllers for cargo trikes • Controller upgrade kits for rental ebikes *Angle:* Sell quiet FOC e-bike controllers for hub motors	$40-90 per controller *Effort:* Low (Firmware for one controller line) ⚠ No license stated; e-bike speed regulations

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Renault-api hacf-fr/renault-api ★ 205 · **Permissive** MIT · Library · Fit 2/5	Python client for Renault car data, mainly used with Home Assistant. *Replaces:* Renault MyRenault app	Home Assistant users owning Renault EVs	Premium plugins/add-ons Setup + support retainer	• Renault dashboards for EV fleet managers • Charge alerts for Renault taxi drivers • Car data for Home Assistant installers	Free MIT; $50-100 per dashboard setup *Effort:* Low (API client, MIT, depends on private API) ⚠ MIT permits reuse; Renault private API may change; car-data privacy
Ha-bosch-ebike Xunil99/ha-bosch-ebike ★ 165 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration for the Bosch eBike Smart System. *Replaces:* Bosch eBike Flow app	Bosch eBike owners using Home Assistant	Premium plugins/add-ons Setup + support retainer	• Bike data dashboards for e-bike rental fleets • Battery alerts for commuter cyclists • Smart-home bike status for bike-share hubs	Free MIT; $20 one-time for dashboard packs *Effort:* Low (HA integration, MIT, device-specific API) ⚠ MIT permits reuse; Bosch and Home Assistant trademarks; unofficial API risk
NRF24-Esk8-Remote SolidGeek/nRF24-Esk8-Remote ★ 143 · **GPL** GPL-3.0 · Hardware · Fit 2/5	nRF24-based wireless remote for controlling an electric skateboard. *Replaces:* Commercial electric skateboard remotes	Electric skateboard builders	Hardware kits/assembly Consulting/implementation	• Remote kits for electric skateboard shops • Custom remotes for e-scooter builders • Wireless controls for DIY electric longboard makers	Kit $40-70 per remote; build service $60 *Effort:* Medium (radio hardware, needs safety and range testing) ⚠ GPL-3.0: distributed firmware must ship source; RF rules and crash liability
Vwgroup-connect-ha its-me-prash/vwgroup-connect-ha ★ 139 · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Home Assistant integration for Volkswagen Group cars, including Audi, VW and Škoda models. *Replaces:* MyAudi, Car-Net apps	Home Assistant users owning VW Group cars	Premium plugins/add-ons Setup + support retainer	• Car-data dashboards for Audi fleet managers • Charge tracking for VW EV owners • Connected-car automations for smart-home installers	Free AGPL; $25 one-time for dashboard packs *Effort:* Low (HA component, relies on unofficial car-data API) ⚠ AGPL-3.0: hosted modifications must be published; VW and Audi are trademarks
RESCue thankthemaker/rESCue ★ 139 · **GPL** GPL-3.0 · Tool · Fit 2/5	Adds safety and control features to VESC-based electric vehicles. *Replaces:* Commercial VESC tuning tools, ESC firmware add-ons	Electric skateboard and e-bike builders using VESC	Premium plugins/add-ons Consulting/implementation	• Safety controllers for electric skate shops • VESC tuning for e-bike conversion shops • Remote-safety add-ons for e-scooter fleets	Free GPL; $30-80 per install service *Effort:* Medium (safety-critical vehicle code, needs field testing) ⚠ GPL-3.0: distributed firmware must ship source; vehicle safety liability
Charger-card tmjo/charger-card ★ 120 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant Lovelace card for EV home chargers and charging robots. *Replaces:* Commercial charger apps, Wallbox app	Home Assistant users with EV chargers	Premium plugins/add-ons Marketplace	• Charger dashboards for apartment complexes • EV charging cards for installer portfolios • Charging-robot status widgets for car-park operators	Free MIT; $5-10 one-time for theme packs *Effort:* Low (single Lovelace card, MIT, easy to restyle) ⚠ MIT permits reuse; charger brands are trademarks; charger APIs vary
Simscape-Vehicle-Templates mathworks/Simscape-Vehicle-Templates ★ 96 · **Check** NOASSERTION · Library · Fit 2/5	Simscape templates for building custom vehicle models in Simulink. *Replaces:* Commercial vehicle simulators, CarSim	Automotive engineers modelling vehicles in Simulink	Training/courses Consulting/implementation	• Vehicle model courses for automotive universities • Simulink templates for EV startups • Drivetrain modelling for conversion shops	Course $400-900 per seat; templates free *Effort:* Medium (MATLAB-only, needs Simulink licence and expertise) ⚠ NOASSERTION license: read first; MathWorks trademarks; Simulink licence required

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Twizy-Virtual-BMS dexterbg/Twizy-Virtual-BMS ★ 95 · Check NOASSERTION · Library · Fit 2/5	Arduino library emulating a Renault Twizy battery management system's CAN protocol.	Twizy owners and EV tinkerers testing dashboards	Consulting/implementation Premium plugins/add-ons	• Twizy dashboard testing rigs for EV shops • CAN emulation for Twizy battery swaps • Bench testing for Twizy display retrofits	Free library; $150-300 per bench test setup *Effort:* Medium (vehicle-specific CAN protocol, bench testing needed) ⚠ NOASSERTION license: read first; Renault trademark; vehicle network safety
PyVESC LiamBindle/PyVESC ★ 91 · Permissive CC-BY-4.0 · Library · Fit 2/5	Python implementation of the VESC motor-controller communication protocol. *Replaces:* VESC Tool, commercial ESC configuration software	Electric vehicle builders and robotics engineers using VESC	Consulting/implementation Premium plugins/add-ons	• Telemetry tools for electric skate shops • Python test rigs for e-scooter builders • Motor-controller dashboards for robotics labs	Free library; $100-300 per integration *Effort:* Low (clean Python library, small and documented) ⚠ CC-BY-4.0 is a content licence, unusual for code; check terms
Hass-bosch-ebike Phil-Barker/hass-bosch-ebike ★ 86 · Permissive MIT · Tool · Fit 2/5	Home Assistant integration for Bosch smart eBikes. *Replaces:* Bosch eBike Flow app	Home Assistant users with Bosch smart eBikes	Premium plugins/add-ons Setup + support retainer	• Bike-status dashboards for commuter fleets • Battery alerts for e-bike rental hubs • Smart-home bike monitors for cycling clubs	Free MIT; $20 one-time for dashboard packs *Effort:* Low (HA integration, MIT, device-specific) ⚠ MIT permits reuse; Bosch and Home Assistant trademarks; unofficial API risk
Cheap-FOCer shamansystems/Cheap-FOCer ★ 79 · Check NONE · Hardware · Fit 2/5	BLDC motor controller board based on VESC 4.12 hardware. *Replaces:* Commercial VESC boards, Flipsky ESCs	Electric vehicle builders wanting cheap motor controllers	Hardware kits/assembly Consulting/implementation	• Cheap ESCs for electric skateboard shops • Motor controllers for e-bike conversion kits • Controller boards for robotics clubs	Board $60-120; integration $50/hr *Effort:* High (high-current power electronics, certification and safety) ⚠ NONE license: no rights granted; high-current hardware safety liability
TSDZ2 860C emmebrusa/TSDZ2-Smart-EBike-860C ★ 67 · GPL GPL-3.0 · Tool · Fit 2/5	TSDZ2 open firmware adapted to the 860C display *Replaces:* Bosch Performance Line, Shimano STEPS, Bafang	E-bike DIY converters	Hardware kits/assembly Setup + support retainer Local service business	• 860C display kits for TSDZ2 riders • Flashing service for e-bike repair shops • Mid-drive upgrades for commuters *Angle:* Offer TSDZ2 display flashing and tuning at a bike shop	$60-150 per display and flash *Effort:* Low (Fork for one display, narrow demand) ⚠ GPL-3.0; e-bike speed regulations
Davega janpom/davega ★ 65 · GPL GPL-3.0 · Hardware · Fit 2/5	Display firmware showing VESC data on electric skateboards. *Replaces:* Commercial skateboard displays, Boosted apps	Electric skateboard hobbyists	Hardware kits/assembly Premium plugins/add-ons	• Display kits for electric skate shops • Dash units for DIY e-longboard builders • Telemetry screens for skate-racing clubs	Kit $30-60 per display; firmware free *Effort:* Medium (small display firmware, needs enclosure and testing) ⚠ GPL-3.0: distributed firmware must ship source; VESC is a project brand
Bafang BBS02 Firmware OpenSourceEBike/Bafang_BBS02_BBSHB ★ 27 · Check NONE · Tool · Fit 2/5	Open firmware for Bafang BBS02 and BBSHB mid-drive e-bike motors *Replaces:* Bosch Performance Line, Shimano STEPS, Bafang stock	E-bike DIY converters	Hardware kits/assembly Local service business Setup + support retainer	• BBS02 tuning for e-bike conversion shops • Torque sensing upgrades for commuters • Flashing service for cargo bike builders *Angle:* Convert customer bikes to Bafang mid-drives with custom tuning	$80-150 per motor flash *Effort:* Low (Firmware for one motor family) ⚠ No license stated; e-bike speed regulations

EV Charging · 18

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
evcc evcc-io/evcc ★ 7.5k · Permissive MIT · App · Fit 5/5	Smart EV charging controller using solar surplus, dynamic tariffs and many wallboxes and meters *Replaces:* Tesla app, Zaptec Charge, SolarEdge EV Charger, Easee	Homeowners with solar and EVs	Setup + support retainer Managed hosting Hardware kits/assembly	• Pre-installed evcc boxes for solar installers • Hosted evcc dashboard for homeowners • Charging optimization for small fleets *Angle:* Install solar-surplus EV charging systems for homeowners	$10-20/mo hosted, $300 box *Effort:* Low (Single Go binary, easy to bundle) ⚠ MIT; check sponsor token terms for some features
SmartEVSE 3 SmartEVSE/SmartEVSE-3 ★ 238 · Permissive MIT · Hardware · Fit 4/5	Smart EVSE controller with load balancing and solar charging *Replaces:* Wallbox Pulsar, Zappi, Easee Home, go-eCharger	EV owners and workplace chargers	Hardware kits/assembly White-label reseller Setup + support retainer	• Load-balanced chargers for apartment buildings • Solar charging for farms • Workplace charge stations *Angle:* Install load-balanced chargers for apartment buildings	$350-700 per charger *Effort:* Medium (Needs certification, CE and electrical approvals) ⚠ MIT; EV charger certification required
Ocpp lbbrhzn/ocpp ★ 413 · Permissive MIT · Tool · Fit 3/5	Home Assistant integration for EV chargers that speak OCPP. *Replaces:* Vendor charger apps, commercial EV energy managers	Home Assistant users with OCPP chargers	Premium plugins/add-ons Setup + support retainer	• EV charger control for apartment HOA managers • OCPP dashboards for solar installers • Charging logs for rental-property owners	Free MIT; $30-80 one-time for setup packs *Effort:* Medium (HA integration, OCPP compatibility varies by charger) ⚠ MIT permits reuse; Home Assistant trademark; charger vendor compatibility varies
Ev_smart_charging jonasbkarlsson/ev_smart_charging ★ 333 · Permissive MIT · Tool · Fit 3/5	Home Assistant smart-charging rules for EVs using tariffs or solar surplus. *Replaces:* Vendor smart-charging apps, energy-tariff charging services	Home Assistant owners with EVs and solar	Premium plugins/add-ons Setup + support retainer	• Solar-aware charging for rooftop installers • Tariff-based charging for EV fleet depots • Charging schedules for apartment-building managers	Free MIT; $30-60 one-time setup packs *Effort:* Medium (HA logic depends on charger and car integrations) ⚠ MIT permits reuse; utility tariff and charger-brand trademarks
OCPP.Core dallmann-consulting/OCPP.Core ★ 309 · GPL GPL-3.0 · Platform · Fit 3/5	OCPP server and management UI for charging networks, written in .NET Core. *Replaces:* Commercial CSMS platforms, ChargePoint management portals	.NET teams running charging networks	Managed hosting Vertical SaaS	• Charge-point management for parking operators • OCPP back-office for regional EV fleets • Charging admin for hotel car parks	Hosted $200-800/mo per network; setup $5k *Effort:* High (server plus UI, needs security, billing and tenancy) ⚠ GPL-3.0 fine for hosting; OCPP specification and charger compatibility rules
OpenEVSE WiFi OpenEVSE/openevse_esp32_firmware ★ 283 · Check NONE · Hardware · Fit 3/5	OpenEVSE v6 WiFi gateway firmware on ESP32 for EV charger control *Replaces:* ChargePoint Home, Wallbox Pulsar, Juicebox	EV owners and charging installers	Hardware kits/assembly Setup + support retainer White-label reseller	• Branded EV chargers for installers • Fleet charger gateways for small depots • Solar-aware home chargers *Angle:* Sell smart charging upgrades for existing EVSEs	$300-600 per charger *Effort:* Medium (Hardware certification and electrical safety) ⚠ No license shown; OpenEVSE trademark; electrical certification
OpenEVSE OpenEVSE/open_evse ★ 201 · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware for Open EVSE electric vehicle charging station *Replaces:* ChargePoint Home, Wallbox, Juicebox	EV owners and charger installers	Hardware kits/assembly White-label reseller Setup + support retainer	• Branded home chargers for solar installers • Chargers for small hotels • DIY EVSE kits for makers *Angle:* Assemble and install EV chargers with local electrician partnership	$250-500 per charger *Effort:* Medium (Needs electrical certification and QA) ⚠ GPL-3.0; OpenEVSE trademark; electrical certification

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ocpp mobilityhouse/ocpp ★ 1.1k · **Permissive** MIT · Library · Fit 2/5	Python implementation of the Open Charge Point Protocol for EV chargers. *Replaces:* Commercial charge-point SDKs, hosted CSMS platforms	Charging-network software teams in Python	Consulting/implementation Setup + support retainer	• OCPP backends for Python charging startups • Charger testing rigs for installers • OCPP integration for parking operators	Integration $5-15k; support $500-1500/mo *Effort:* Medium (protocol library, needs certification and testing) ⚠ MIT permits reuse; OCPP certification and charger-brand compatibility
MicroOcpp matth-x/MicroOcpp ★ 547 · **Permissive** MIT · Library · Fit 2/5	OCPP 1.6 and 2.0.1 client for microcontroller-based EV chargers. *Replaces:* Commercial charger firmware SDKs	Makers building EV charger firmware on microcontrollers	Hardware kits/assembly Consulting/implementation	• DIY wallbox kits for home-charging startups • OCPP firmware for small charger makers • Charger retrofits for apartment buildings	Integration $3-8k per charger model *Effort:* High (embedded OCPP, mains-voltage safety, certification) ⚠ MIT permits reuse; EV charger safety certification and OCPP conformance testing
Java-OCA-OCPP ChargeTimeEU/Java-OCA-OCPP ★ 380 · **Permissive** MIT · Library · Fit 2/5	Java client and server library for the OCPP charging protocol. *Replaces:* Commercial OCPP SDKs, Driivz	Java teams building charging backends	Consulting/implementation Setup + support retainer	• OCPP servers for Java fleet-charging platforms • Charger simulators for QA labs • OCPP backends for parking operators	Integration $5-12k; support $800/mo *Effort:* Medium (Java library, needs OCPP conformance testing) ⚠ MIT permits reuse; OCPP specification is maintained by the OCA
Ocpp-go lorenzodonini/ocpp-go ★ 377 · **Permissive** MIT · Library · Fit 2/5	Go implementation of the Open Charge Point Protocol. *Replaces:* Commercial OCPP SDKs	Go teams building charging-network backends	Consulting/implementation Setup + support retainer	• Go OCPP servers for charging startups • Charger testing tools for installers • Backend libraries for parking-garage operators	Integration $4-10k; support $600/mo *Effort:* Medium (Go library, needs conformance and load testing) ⚠ MIT permits reuse; charger certification and OCPP conformance testing
Easee_hass nordicopen/easee_hass ★ 286 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant custom component for Easee EV charger integration. *Replaces:* Easee app	Home Assistant owners with Easee chargers	Premium plugins/add-ons Setup + support retainer	• Easee dashboards for solar installers • Charger control for apartment HOAs • Easee automations for EV fleet managers	Free MIT; $25 one-time for dashboard packs *Effort:* Low (HA component, vendor-API dependent) ⚠ MIT permits reuse; Easee trademark; vendor API may change
Ha-myenergi CJNE/ha-myenergi ★ 219 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration for myenergi energy devices such as Zappi chargers. *Replaces:* myenergi app	Home Assistant users with myenergi solar devices	Premium plugins/add-ons Setup + support retainer	• Zappi charger dashboards for solar homes • Diverter controls for heat-pump installers • Energy logs for off-grid cabins	Free MIT; $20 one-time dashboard pack *Effort:* Low (HA integration, MIT, vendor-API dependent) ⚠ MIT permits reuse; myenergi is a trademark; vendor API may change
Ocpp-emulator monta-app/ocpp-emulator ★ 182 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Charge-point emulator for testing OCPP backends, built with Kotlin Multiplatform. *Replaces:* Commercial charger simulators, OCPP test tools	Charging-backend teams testing OCPP servers	Consulting/implementation Setup + support retainer	• OCPP test rigs for charging startups • Backend QA for parking operators • Emulator setups for charger installers	Free Apache; $3-6k per test-suite setup *Effort:* Low (emulator app, Apache-2.0, modern stack) ⚠ Apache-2.0 permits reuse; Monta is a company brand; OCPP trademarks
Open-ocpp c-jimenez/open-ocpp ★ 174 · **Weak copyleft** LGPL-2.1 · Library · Fit 2/5	C++ implementation of OCPP 1.6 and 2.0.1 for charger and backend software. *Replaces:* Commercial C++ OCPP stacks	Embedded C++ teams building chargers or backends	Consulting/implementation Setup + support retainer	• C++ OCPP stacks for industrial charger makers • Backend libraries for fleet charging firms • Protocol test code for charger certification labs	Integration $5-10k; support $700/mo *Effort:* High (C++ protocol stack, needs embedded testing and certification) ⚠ LGPL-2.1 allows linking; OCPP conformance and certification required

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ocpp-rpc mikuso/ocpp-rpc ★ 136 · Permissive MIT · Library · Fit 2/5	Node.js client and server for OCPP-J's RPC-over-WebSocket messaging.	Node.js teams building OCPP backends	Consulting/implementation Setup + support retainer	• OCPP-J messaging for Node charging startups • RPC layers for parking-app developers • OCPP test servers for charger installers	Integration $3-8k; support $500/mo *Effort:* Low (focused Node library, MIT, adaptable) ⚠ MIT permits reuse; OCPP-J specification is OCA-owned
Wattpilot-HA mk-maddin/wattpilot-HA ★ 124 · Permissive Apache-2.0 · Tool · Fit 2/5	Home Assistant custom component controlling Fronius Wattpilot wallbox chargers. *Replaces:* Fronius Solar.web app, Wattpilot app	Home Assistant users with Fronius Wattpilot chargers	Premium plugins/add-ons Setup + support retainer	• Wattpilot dashboards for solar installers • Solar-surplus charging for home-energy coaches • Charging logs for small EV-fleet owners	Free Apache; $25 one-time for dashboard packs *Effort:* Low (HA component, device-specific, Apache-2.0) ⚠ Apache-2.0 permits reuse; Fronius is a trademark; vendor API may change
Ccs32clara uhi22/ccs32clara ★ 115 · GPL GPL-3.0 · Hardware · Fit 2/5	STM32 and QCA7005 charge controller for CCS fast-charging communication. *Replaces:* Commercial CCS test equipment, vehicle-side test boxes	EV charger developers building CCS communication	Hardware kits/assembly Consulting/implementation	• CCS test boards for charger startups • Communication-stack labs for EV supplier teams • Charger validation for certification labs	Board $200-400; validation $150/hr *Effort:* High (high-voltage fast-charging, certification-critical) ⚠ GPL-3.0: distributed firmware must ship source; CCS certification required

Electronics Manufacturing · 20

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LumenPnP opulo-inc/lumenpnp ★ 3.7k · Check NOASSERTION · Hardware · Fit 4/5	Open source pick and place machine for placing SMT parts on circuit boards *Replaces:* Neoden 4, Juki, Essemtec, Manncorp	Small electronics manufacturers and makers	Hardware kits/assembly Training/courses Setup + support retainer	• PnP machines for prototyping shops • Small-run SMT assembly service • Machine training for electronics startups *Angle:* Sell desktop pick-and-place machines to hardware startups	$2k-4k per machine *Effort:* Medium (Hardware assembly, Opulo sells official kits) ⚠ Custom license; Opulo and LumenPnP trademarks
InteractiveHtmlBom openscopeproject/InteractiveHtmlBom ★ 4.6k · Permissive MIT · Tool · Fit 3/5	Plugin generating interactive HTML bill-of-materials pages for PCB assembly. *Replaces:* Altium assembly outputs, commercial BOM tools	PCB designers and small assembly houses	Premium plugins/add-ons Setup + support retainer	• Assembly guides for contract PCB shops • Interactive BOMs for hardware kickstarters • Build docs for open-hardware makers	Free MIT; $30-80 per custom template *Effort:* Low (mature plugin set, MIT, easy to package) ⚠ MIT permits reuse; KiCad, Eagle and Altium are trademarks
Kicad-source-mirror KiCad/kicad-source-mirror ★ 3.1k · GPL GPL-3.0 · App · Fit 3/5	Mirror of KiCad's development branch, an open-source electronics design suite. *Replaces:* Altium Designer, Eagle, OrCAD	Electronics engineers and hardware startups designing PCBs	Training/courses Consulting/implementation	• KiCad training for electronics bootcamps • PCB design services for hardware startups • Altium-to-KiCad migration for small OEMs	Free GPL; design services $80-150/hr *Effort:* High (development mirror, not a release, large codebase) ⚠ GPL-3.0 fine for hosting; KiCad is a project trademark; use official releases
LibrePCB LibrePCB/LibrePCB ★ 3.0k · GPL GPL-3.0 · App · Fit 3/5	Open-source EDA suite for schematics and printed circuit board layout. *Replaces:* Altium Designer, Eagle, EasyEDA Pro	Electronics designers and small hardware teams	Training/courses Consulting/implementation	• PCB design training for maker spaces • Layout services for IoT startups • EDA migration for university electronics labs	Free GPL; layout services $60-120/hr *Effort:* High (desktop app, needs support, support and library work) ⚠ GPL-3.0: distributed builds must ship source; LibrePCB is a project brand
OpenPnP openpnp/openpnp ★ 2.3k · GPL GPL-3.0 · Platform · Fit 3/5	Open source SMT pick and place hardware and software *Replaces:* Neoden 4, Juki, Essemtec, Manncorp	Small electronics manufacturers	Consulting/implementation Setup + support retainer Training/courses	• PnP machine retrofits for assembly shops • OpenPnP setup for hardware startups • Machine vision tuning for SMT shops *Angle:* Run small-batch PCB assembly service with open pick-and-place	$1k-4k per retrofit *Effort:* High (Needs machine hardware and vision tuning) ⚠ GPL-3.0; OpenPnP name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Freerouting freerouting/freerouting ★ 2.2k · GPL GPL-3.0 · Tool · Fit 3/5	Advanced automatic PCB autorouter for electronics layouts. *Replaces:* Altium autorouting, Specctra-style routers	PCB designers wanting automatic routing	Premium plugins/add-ons Setup + support retainer	• Autorouting plugins for PCB design teams • Routing services for prototype shops • Router tools for university EDA courses	Free GPL; $100-300 per routing service job *Effort:* Medium (desktop tool, needs packaging and support) ⚠ GPL-3.0 fine for hosting; distributed builds must ship source
TOTEM GEIGEIGEIST/TOTEM ★ 2.1k · Check NOASSERTION · Hardware · Fit 3/5	Open-source 38-key split keyboard for Seeed XIAO or RP2040 boards. *Replaces:* Commercial split keyboards, ZSA Moonlander	Keyboard enthusiasts building split ergonomic keyboards	Hardware kits/assembly Marketplace	• Ergonomic keyboard kits for remote workers • Split-keyboard builds for programmers • Group-buy kits for enthusiast communities	Kit $80-150 per keyboard; PCB only $25-40 *Effort:* Low (PCB and case designs, easy to kit) ⚠ NOASSERTION license: read first; Seeed and ZSA are trademarks
KiKit yaqwsx/KiKit ★ 2.1k · Permissive MIT · Tool · Fit 3/5	Automation tools for KiCad panelisation and manufacturing outputs. *Replaces:* Altium panel tools, manual panelisation services	PCB designers preparing boards for fabrication	Consulting/implementation Setup + support retainer	• Panelisation services for hardware startups • KiCad automation for contract design shops • Fab-prep training for electronics courses	Setup $200-600 per project; support $200/mo *Effort:* Low (Python tool, MIT, easy to wrap) ⚠ MIT permits reuse; KiCad is a project trademark
KLOR GEIGEIGEIST/KLOR ★ 1.2k · GPL GPL-3.0 · Hardware · Fit 3/5	Open split keyboard with per-key RGB, rotary encoders and OLED support. *Replaces:* Commercial RGB split keyboards, Keychron Q-series	Enthusiast typists wanting customisable split boards	Hardware kits/assembly Marketplace	• RGB split kits for streamers • Ergonomic keyboards for remote coders • Group-buy keyboard kits for enthusiast clubs	Kit $100-180; PCB only $30-50 *Effort:* Low (PCB and case files, easy to kit) ⚠ GPL-3.0: distributed firmware must ship source; keyboard brand trademarks
Cheapino tompi/cheapino ★ 1.2k · Permissive CC-BY-4.0 · Hardware · Fit 3/5	Low-cost 36-key split keyboard designed for DIY builders. *Replaces:* Commercial split keyboards	Budget-minded keyboard builders	Hardware kits/assembly Marketplace	• Budget split kits for schools • Entry-level ergonomic keyboards for office staff • Starter kits for keyboard workshops	Kit $60-100; assembled $150-200 *Effort:* Low (simple PCB, CC-BY licence, easy to kit) ⚠ CC-BY-4.0 requires attribution; no product warranty by default
ATmega-Soldering-Station wagiminator/ATmega-Soldering-Station ★ 1.1k · Check NOASSERTION · Hardware · Fit 3/5	Open-source T12-style soldering station with quick-heating control. *Replaces:* Hakko stations, Pinecil soldering irons	Electronics hobbyists and repair technicians	Hardware kits/assembly Setup + support retainer	• Kit builds for electronics clubs • Budget stations for phone repair shops • Soldering workshops for school STEM labs	Kit $40-70; workshop $30 per student *Effort:* Medium (mains heating, needs safety testing and docs) ⚠ NOASSERTION license: read first; mains heating safety and CE certification
T-962 Improvements UnifiedEngineering/T-962-improvements ★ 871 · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware upgrade for cheap T-962 reflow ovens using existing controller *Replaces:* LPKF reflow ovens, Controleo reflow ovens	Electronics hobbyists and prototyping labs	Setup + support retainer Hardware kits/assembly Local service business	• Upgraded T-962 ovens for makers • Reflow service for prototype shops • Reflow profiles for lead-free electronics *Angle:* Upgrade and resell reflow ovens to makers	$250-450 per modded oven *Effort:* Low (Firmware for known hardware) ⚠ GPL-3.0; oven hardware is third party
Reflow Master UnexpectedMaker/ReflowMaster ★ 346 · Check NOASSERTION · Hardware · Fit 3/5	Toaster oven reflow controller with open hardware and software *Replaces:* Controleo, LPKF ProtoFlow, T-962	Electronics hobbyists and startups	Hardware kits/assembly Setup + support retainer Content/membership	• Reflow controllers for toaster ovens • Prototype lab reflow kits • SMD soldering workshop kits *Angle:* Sell toaster-oven reflow controller kits	$100-180 per controller *Effort:* Low (Complete design, add enclosure) ⚠ Check license; Unexpected Maker branding
Controleo3 engineertype/Controleo3 ★ 142 · Permissive MIT · Hardware · Fit 3/5	Software for Controleo3 reflow oven controller *Replaces:* LPKF ProtoFlow, T-962 controllers	Electronics hobbyists and small labs	Hardware kits/assembly Setup + support retainer Content/membership	• Reflow oven retrofit kits for makers • Prototype lab ovens for startups • Training for SMT soldering *Angle:* Sell reflow oven conversion kits	$150-250 per controller *Effort:* Medium (Software for one board, hardware tied) ⚠ MIT; Controleo3 name; mains wiring safety

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Altium-library issus/altium-library ★ 2.5k · Check NONE · Library · Fit 2/5	Altium component database with over 200,000 parts and 3D models. *Replaces:* Octopart, Altium Content Vault	Altium users designing with standard parts	Marketplace Premium plugins/add-ons	• Part libraries for contract PCB shops • Altium libraries for university design courses • Component-check services for hardware startups	Free; $200-500/yr library support subscription *Effort:* Medium (data library, needs curation and licence checks) ⚠ NONE license: no reuse rights; Altium and supplier part data are trademarks
PcbDraw yaqwsx/PcbDraw ★ 1.5k · Permissive MIT · Tool · Fit 2/5	Converts KiCad boards into clean 2D pinout diagrams. *Replaces:* Manual Visio or Inkscape diagrams, Altium drawing tools	Hardware makers documenting pinouts	Premium plugins/add-ons Consulting/implementation	• Pinout diagrams for dev-board vendors • Board docs for open-hardware kits • Documentation services for hardware startups	Free MIT; $50-150 per documentation set *Effort:* Low (small MIT tool, easy to package) ⚠ MIT permits reuse; KiCad trademark; small standalone market
Easyeda-agent zhoushoujianwork/easyeda-agent ★ 957 · Check NOASSERTION · Tool · Fit 2/5	AI automation helper for EasyEDA Pro schematic and PCB layout tasks. *Replaces:* Manual EasyEDA workflows, paid EDA automation tools	EasyEDA users wanting AI-assisted design	Premium plugins/add-ons Consulting/implementation	• AI layout checks for PCB design studios • EasyEDA automation for maker spaces • Design-review tools for small hardware shops	Hosted AI credits $20/mo *Effort:* High (AI-agent code, EasyEDA dependency, unverified claims) ⚠ NOASSERTION license: read first; EasyEDA and LCSC are trademarks
Tracespace tracespace/tracespace ★ 955 · Permissive MIT · Library · Fit 2/5	Library generating SVG renders of printed circuit boards from Gerber files. *Replaces:* Commercial Gerber viewers, fab-house preview tools	PCB fabricators and makers previewing Gerber files	Consulting/implementation Premium plugins/add-ons	• Gerber previews for PCB quoting sites • SVG board art for maker merchandise • Fab-file checks for contract assembly shops	Free MIT; $5-10k per quoting integration *Effort:* Low (MIT library, Gerber-focused, easy to embed) ⚠ MIT permits reuse; Gerber is a Ucamco trademark
Svg2shenzhen badgeek/svg2shenzhen ★ 873 · GPL GPL-3.0 · Tool · Fit 2/5	Converts Inkscape SVG drawings into KiCad PCB and footprint modules. *Replaces:* Manual footprint drawing, Altium SVG-import plugins	Hardware makers turning artwork into PCBs	Consulting/implementation Premium plugins/add-ons	• Badge PCB design for event merch • Logo PCBs for hardware kickstarters • Art-to-PCB service for maker studios	Free GPL; $30-80 per custom PCB design *Effort:* Low (single converter tool, GPL, easy to package) ⚠ GPL-3.0 fine for hosting; Inkscape and KiCad are project brands
picoReflow apollo-ng/picoReflow ★ 222 · Check NONE · Tool · Fit 2/5	Turns a Raspberry Pi into a web-enabled reflow oven controller *Replaces:* Controleo, LPKF ProtoFlow	Electronics hobbyists	Hardware kits/assembly Setup + support retainer Content/membership	• Reflow controller kits for hackerspaces • Web reflow dashboards for small labs • Pi reflow upgrade for T-962 ovens *Angle:* Retrofit kilns and ovens with web controllers	$60-120 per kit *Effort:* Low (Simple Python app, no license) ⚠ No license stated; mains wiring safety

Farm Robots · 6

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FarmBot OS FarmBot/farmbot_os ★ 1.2k · Permissive MIT · Platform · Fit 4/5	Operating system and software for FarmBot Raspberry Pi garden robot *Replaces:* FarmBot Genesis, Tertill, Burpee smart gardens	Home gardeners and small farms	Hardware kits/assembly Managed hosting Setup + support retainer	• Raised bed robot kits for gardeners • Hosted FarmBot-style app for schools • Garden robots for community farms *Angle:* Install FarmBot gardens at schools with maintenance contracts	$1.5k-3k per robot, $10/mo *Effort:* High (Needs mechanical kit and web app stack) ⚠ MIT; FarmBot trademark and hardware sold by FarmBot
FarmBot Web App FarmBot/Farmbot-Web-App ★ 977 · Permissive MIT · Platform · Fit 3/5	Web app and API for controlling FarmBot robotic garden machines *Replaces:* FarmBot Cloud, Farmbot Genesis	Home growers, edu labs	Hardware kits/assembly Managed hosting Setup + support retainer	• Robot garden installs for restaurants • School STEM farm lab packages • Managed FarmBot cloud for makerspaces *Angle:* Offer managed FarmBot gardens for restaurants	$20/mo hosted, kit extra *Effort:* High (Needs hardware, complex backend) ⚠ FarmBot name trademark; hardware licensed separately

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Acorn Robot Twisted-Fields/acorn-robot-electronics ★ 81 · Check NONE · Hardware · Fit 3/5	KiCad PCB designs for Acorn precision farming rover from Twisted Fields *Replaces:* Naio Oz, FarmWise, Burro, Small Robot Company	Agri robotics developers and research farms	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Rover electronics for vegetable farm research • Robot controller boards for agtech startups • Precision weeding prototypes for universities *Angle:* Build solar farm rovers for small vegetable farms	$1k-3k per electronics set *Effort:* High (Electronics only, full robot needed) ⚠ No license stated; ask Twisted Fields
FarmBot Arduino Firmware FarmBot/farmbot-arduino-firmware ★ 450 · Permissive MIT · Hardware · Fit 2/5	Arduino firmware executing g-code-like commands to move FarmBot and operate tools *Replaces:* FarmBot Genesis, Tertill	Garden robot builders	Hardware kits/assembly Consulting/implementation Training/courses	• Gantry garden robots for schools • Automated seeding rigs for nurseries • Microgreens robot arms for hobby farms *Angle:* Sell replacement FarmBot electronics and parts	$1k-2.5k per robot *Effort:* High (Firmware only, needs full mechanical system) ⚠ MIT; FarmBot trademark
Farmbot-js FarmBot/farmbot-js ★ 121 · Permissive MIT · Library · Fit 2/5	JavaScript wrapper for FarmBot's authentication and remote procedure calls.	Developers building FarmBot web or mobile apps	Consulting/implementation Premium plugins/add-ons	• FarmBot control apps for hobby growers • Web dashboards for school garden programmes • Remote control tools for community farms	Free MIT; $500-1500 per custom app *Effort:* Low (small wrapper, MIT, depends on FarmBot API) ⚠ MIT permits reuse; FarmBot trademark; depends on FarmBot cloud API
Farmbot-genesis FarmBot-Docs/farmbot-genesis ★ 11 · Permissive MIT · Content · Fit 2/5	Hardware documentation for the FarmBot Genesis garden robot.	FarmBot Genesis owners and builders	Content/membership Training/courses	• Build guides for FarmBot resellers • Setup courses for school garden programmes • Maintenance manuals for community garden operators	Free docs; $20-40 per printed build guide *Effort:* Low (docs repo, MIT, needs rewrite for resale) ⚠ MIT permits reuse; FarmBot trademark; hardware docs may need updates

Fitness & Sports Equipment · 10

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Kepler sustainable-computing-io/kepler ★ 1.6k · Permissive Apache-2.0 · Tool · Fit 3/5	Kubernetes exporter that measures energy use per workload. *Replaces:* Commercial carbon-accounting tools, cloud energy dashboards	Platform teams tracking Kubernetes energy and cost	Managed hosting Setup + support retainer	• Energy dashboards for sustainability teams • Kepler setup for green-IT consultancies • Carbon reporting for Kubernetes SaaS vendors	Free Apache; $2-5k per cluster setup *Effort:* Medium (CNCF project, needs ops integration and support) ⚠ Apache-2.0 permits reuse; CNCF project name is a trademark
Velomate elduty/velomate ★ 44 · Check NOASSERTION · App · Fit 3/5	Self-hosted cycling analytics with Strava import and Grafana dashboards. *Replaces:* TrainingPeaks, Strava Premium analytics, Intervals.icu	Serious cyclists wanting private training analytics	Managed hosting Premium plugins/add-ons	• Private training dashboards for cycling coaches • Route analytics for bike clubs • Training logs for triathlon clubs	Free self-host; $8-15/mo managed *Effort:* Medium (self-hosted stack, needs onboarding and auth) ⚠ NOASSERTION license: read first; Strava API terms restrict data use
Amsreader-firmware UtilitechAS/amsreader-firmware ★ 469 · Check NOASSERTION · Hardware · Fit 2/5	Firmware reading smart-meter data and publishing it to MQTT on ESP boards. *Replaces:* Commercial energy monitors, Tibber Pulse	Energy hobbyists and home-automation installers	Hardware kits/assembly Setup + support retainer	• Smart-meter reader kits for energy consultants • MQTT energy monitors for solar installers • Home-energy logging for Norwegian homeowners	Kit $30-60; install support $50/hr *Effort:* Medium (meter-specific parsing, mains-adjacent wiring risk) ⚠ NOASSERTION license: read first; meter wiring is mains-adjacent, check local rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Powerapi powerapi-ng/powerapi ★ 255 · **Permissive** BSD-3-Clause · Framework · Fit 2/5	Python framework for building software-defined power meters. *Replaces:* Commercial energy-metering tools	Researchers measuring software energy use	Consulting/implementation Training/courses	• Energy-efficiency audits for software teams • Green-computing training for universities • Power metering for data-centre researchers	Consulting $150-250/hr; framework free *Effort:* Medium (research framework, needs domain expertise) ⚠ BSD-3-Clause permits reuse; research results need careful validation
ErgometerJS tijmenvangulik/ErgometerJS ★ 126 · **Check** NOASSERTION · Library · Fit 2/5	JavaScript driver for Concept2 rowing machines over Bluetooth or USB. *Replaces:* Concept2 ErgData, commercial rowing apps	Rowing-app developers and home rowers	Premium plugins/add-ons Mobile app on top	• Rowing dashboards for gyms • Browser rowing apps for club coaches • Erg data tools for indoor-rowing teams	Free NOASSERTION; $5-10 one-time for app *Effort:* Low (small JS driver, works in browsers) ⚠ NOASSERTION license: read first; Concept2 is a trademark; Bluetooth compatibility
P1ib remne/p1ib ★ 72 · **Check** NOASSERTION · Hardware · Fit 2/5	Bridge reading P1 smart-meter telegrams for energy monitoring. *Replaces:* Commercial smart-meter gateways	Energy hobbyists in Netherlands and Belgium with P1 meters	Hardware kits/assembly Setup + support retainer	• P1 bridge kits for energy coaches • Smart-meter logging for solar installers • Home-energy dashboards for Dutch housing associations	Kit $40-70; install support $40/hr *Effort:* Medium (meter interface, needs packaging and testing) ⚠ NOASSERTION license: read first; smart-meter data privacy rules apply
ESP32_TTGO_FTMS lefty01/ESP32_TTGO_FTMS ★ 66 · **Permissive** MIT · Hardware · Fit 2/5	ESP32 treadmill speed and incline sensor exposing a Bluetooth FTMS service. *Replaces:* Commercial treadmill sensor kits, smart treadmill upgrades	Home-gym owners wanting treadmill data in apps	Hardware kits/assembly Consulting/implementation	• FTMS sensors for old treadmills • Speed sensors for gym resellers • Treadmill data kits for rehab clinics	Kit $40-70 per treadmill; setup $50 *Effort:* Medium (BLE FTMS on specific board, needs packaging) ⚠ MIT permits reuse; Bluetooth FTMS compliance; TTGO is a board brand
Kws-x1-standalone-rs kralonur/kws-x1-standalone-rs ★ 48 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Rust firmware for USB-C power meters showing live power and charge totals. *Replaces:* Commercial USB-C power meters	USB-C power meter users and charger testers	Hardware kits/assembly Premium plugins/add-ons	• Charger testing for phone repair shops • USB-C test tools for electronics reviewers • Power logs for e-bike battery testers	Firmware free; $15-25 per flashed meter *Effort:* Medium (device-specific firmware, flashing and support) ⚠ Apache-2.0 permits reuse; device firmware flashing may void warranties
ESPHome-Treadmill-FTMS samsonovss/ESPHome-Treadmill-FTMS ★ 42 · **Check** NONE · Hardware · Fit 2/5	ESP32-S3 treadmill controller exposing Bluetooth FTMS for Zwift grade. *Replaces:* Commercial smart treadmills, Zwift-ready treadmill kits	Treadmill owners wanting Zwift integration	Hardware kits/assembly Premium plugins/add-ons	• Zwift controllers for old treadmills • Retrofit kits for home-gym resellers • Treadmill integrations for rehab gyms	Kit $50-90; install support $60 *Effort:* Medium (ESPHome firmware, needs treadmill-specific wiring) ⚠ NONE license: no reuse rights; Zwift and treadmill brand trademarks
Python-pyftms dudanov/python-pyftms ★ 38 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python async client library for the Bluetooth Fitness Machine Service.	Python developers building fitness-device apps	Consulting/implementation Setup + support retainer	• FTMS clients for gym-equipment vendors • Python fitness bridges for rehab clinics • Bluetooth tooling for smart-trainer startups	Free Apache; $100-300 per integration *Effort:* Low (async Python library, Apache-2.0, focused) ⚠ Apache-2.0 permits reuse; Bluetooth SIG FTMS spec and logos

Food & Beverage Recipes · 14

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rattler-build prefix-dev/rattler-build ★ 382 · **Permissive** BSD-3-Clause · Tool · Fit 3/5	Cross-platform builder for conda packages on Windows, macOS and Linux. *Replaces:* conda-build, commercial package build services	Software teams packaging conda and Python tools	Consulting/implementation Setup + support retainer	• Conda packaging for scientific software firms • Build pipelines for data-science platforms • Packaging services for research institutes	Support $1-3k/mo per team; tool free *Effort:* Medium (Rust-based builder, needs CI and docs) ⚠ BSD-3-Clause permits reuse; conda and prefix-dev are project brands

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cook YunYouJun/cook ★ 6.5k · **Permissive** MIT · Content · Fit 2/5	Chinese-language recipe website project with cooking guides. *Replaces:* Xiachufang, Meishichina recipe sites	Chinese home cooks looking for recipes	Content/membership Mobile app on top	• Chinese recipes for expat families • Home-cooking courses for students • Takeout-style recipe app for Chinese restaurants	Free site; $3-5/mo for meal plans *Effort:* Medium (recipe content needs licensing and localisation) ⚠ MIT permits reuse; recipe copyright and photo licences vary
Grayskull conda/grayskull ★ 381 · **Permissive** Apache-2.0 · Tool · Fit 2/5	Generates conda package recipes automatically from PyPI packages. *Replaces:* Manual conda recipe writing, conda-forge services	Python developers packaging for conda-forge	Consulting/implementation Training/courses	• Conda recipes for scientific Python labs • Packaging training for data-science bootcamps • Conda-forge onboarding for research software teams	Free Apache; $80-150/hr packaging support *Effort:* Low (focused tool, Apache-2.0, small scope) ⚠ Apache-2.0 permits reuse; conda and conda-forge are project names
Macos-cookbook microsoft/macos-cookbook ★ 232 · **Permissive** MIT · Tool · Fit 2/5	Chef cookbook for provisioning macOS developer machines. *Replaces:* Jamf, Kandji, manual Mac setup	IT teams provisioning Mac fleets with Chef	Setup + support retainer Consulting/implementation	• Mac provisioning for software agencies • Chef setup for design studios • Developer-laptop automation for remote teams	Setup $1.5-4k per fleet; support $500/mo *Effort:* Low (cookbook, MIT, relies on Chef and Mac tooling) ⚠ MIT permits reuse; Microsoft, Chef and Apple trademarks
Meta-debian meta-debian/meta-debian ★ 152 · **Permissive** MIT · Library · Fit 2/5	Yocto layer building embedded Linux images from Debian sources. *Replaces:* Commercial embedded Linux distributions, Wind River Linux	Embedded Linux teams using Yocto	Consulting/implementation Training/courses	• Embedded Linux builds for industrial IoT firms • Yocto training for embedded engineers • Custom Linux images for kiosk makers	Consulting $150-200/hr; layer free *Effort:* Medium (Yocto layer, needs board-specific tuning) ⚠ MIT permits reuse; Debian and Yocto trademarks; image licence compliance
TopoData feng4887/TopoData ★ 151 · **Check** NONE · App · Fit 2/5	C# app for acquiring PLC and DCS data, with storage and Python scripting. *Replaces:* Commercial SCADA data loggers, Kepware	Industrial automation engineers and plant IT teams	Setup + support retainer Consulting/implementation	• Data logging for small food plants • PLC logging for water utilities • DCS data bridges for chemical plants	Setup $3-8k per site; support $300/mo *Effort:* High (industrial control data, vendor-specific drivers) ⚠ NONE license: no reuse rights; industrial control systems need security review
Brauhaus.js homebrewing/brauhausjs ★ 134 · **Check** NONE · Library · Fit 2/5	Beer recipe calculator for homebrewing on servers and in browsers *Replaces:* BeerSmith, Brewfather, Brewer's Friend	Homebrewers and brewing app builders	Vertical SaaS API/usage-based Premium plugins/add-ons	• Recipe calculator API for brewing apps • Embedded recipe tool for homebrew shops • Calculator widget for brewing blogs *Angle:* Sell recipe-based homebrew ingredient kits	Free tier, $9/mo API access *Effort:* Medium (JavaScript library, needs UI around it) ⚠ No license stated; read it first
Server-for-symfony-flex moay/server-for-symfony-flex ★ 134 · **Permissive** MIT · Tool · Fit 2/5	Self-hosted Symfony Flex recipe server with private recipes and caching. *Replaces:* Symfony public recipe server, private package registries	PHP teams running private Symfony recipes	Managed hosting Setup + support retainer	• Private recipe hosting for PHP agencies • Symfony recipe caches for hosting firms • Internal recipe registries for enterprise PHP teams	Free MIT self-host; $80-200/mo managed *Effort:* Medium (small server, needs auth and ops hardening) ⚠ MIT permits reuse; Symfony is a trademark of SensioLabs
Hungry mrezkys/hungry ★ 128 · **Permissive** MIT · Starter · Fit 2/5	Flutter starter template for building recipe apps faster. *Replaces:* Commercial app templates, paid Flutter kits	Flutter developers building recipe apps	Mobile app on top Premium plugins/add-ons	• Recipe app templates for food bloggers • Flutter kits for restaurant-chain apps • Starter apps for cooking-course providers	Free MIT; $29-79 one-time premium template *Effort:* Low (Flutter template, MIT, easy to rebrand) ⚠ MIT permits reuse; Flutter is a Google trademark; check asset licences

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Brewcalc brewcomputer/brewcalc ★ 127 · **Permissive** MIT · Library · Fit 2/5	JavaScript ES6 library for home brewing recipe calculations *Replaces:* BeerSmith, Brewfather, Brewer's Friend	Homebrewers and developers building brewing apps	API/usage-based Vertical SaaS Premium plugins/add-ons	• Calculator embed for homebrew supply shops • Brewing recipe API for clubs • Recipe tool for cider makers *Angle:* Run brew-on-premise shop with recipe library	Free tier, $5-15/mo plans *Effort:* Medium (Library, needs app shell) ⚠ MIT; calculations need validation
OpenStove mearashadowfax/OpenStove ★ 118 · **Check** NOASSERTION · App · Fit 2/5	Ad-free community platform for sharing and discovering recipes. *Replaces:* AllRecipes, Yummly, Cookpad	Home cooks wanting an ad-free recipe community	Managed hosting Marketplace	• Recipe communities for local food clubs • Ad-free recipe boards for cooking schools • Private family recipe sites for multi-generation households	Free core; $4-8/mo for private recipe groups *Effort:* High (community features, moderation and content need building) ⚠ NOASSERTION license: read first; user content moderation and copyright takedowns
IBA Cocktails teijo/iba-cocktails ★ 108 · **Check** NONE · Content · Fit 2/5	Official International Bartenders Association cocktail recipes in machine-readable format *Replaces:* Difford's Guide, Cocktail Flow, Tipsy Bartender	Cocktail app developers and bar tech	Content/membership Mobile app on top API/usage-based	• Cocktail menu app for hotel bars • Recipe API for drink apps • Printable menus for event bartenders *Angle:* Sell premixed cocktail kits and bar menus	$3-9/mo per app user *Effort:* Low (Data file, easy to embed) ⚠ No license; IBA owns recipe set and trademarks
RecipeMD RecipeMD/RecipeMD ★ 96 · **Weak copyleft** LGPL-3.0 · Tool · Fit 2/5	Markdown recipe format with a command-line tool for storing recipes as text. *Replaces:* Paprika, Cookmate-style recipe apps	Plain-text recipe keepers and food bloggers	Premium plugins/add-ons Mobile app on top	• Plain-text recipe tools for food bloggers • Recipe exports for cooking-class teachers • Markdown recipe templates for restaurant staff	Free LGPL; $5-10 one-time for apps *Effort:* Medium (open format, needs apps and sync to matter) ⚠ LGPL-3.0 allows linking; recipe format is niche with few users
BeerXML Go **ARCHIVED** stone/beerxml ★ 12 · **Permissive** MIT · Library · Fit 2/5	Go package to read BeerXML brewing data files *Replaces:* BeerSmith, Brewfather export tools	Brewing software developers	Consulting/implementation API/usage-based Setup + support retainer	• BeerXML import for brew apps • Recipe converters for brewing clubs • Data migration for homebrew software *Angle:* Sell all-grain kits matched to shared recipes	Free, $5/mo converter service *Effort:* Low (Small Go library, easy to embed) ⚠ MIT; niche tooling

Furniture & Housing · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Diagrams mingrammer/diagrams ★ 42.8k · **Permissive** MIT · Tool · Fit 3/5	Python library that draws cloud architecture diagrams from code. *Replaces:* Lucidchart, Draw.io, Visio cloud templates	Cloud architects and DevOps teams documenting systems	Consulting/implementation Training/courses	• Architecture diagrams for cloud audit firms • Diagram-as-code training for DevOps bootcamps • Auto-generated docs for SaaS compliance teams	Free MIT; $1-3k per architecture doc package *Effort:* Low (MIT Python library, easy to package) ⚠ MIT permits reuse; cloud provider logos are trademarks
CleanArchitecture ardalis/CleanArchitecture ★ 18.5k · **Permissive** MIT · Starter · Fit 3/5	ASP.NET Core solution template built on Clean Architecture principles. *Replaces:* ABP Framework, commercial .NET starter kits	.NET teams building enterprise web apps	Consulting/implementation Training/courses	• Starter kits for .NET consultancies • Clean Architecture courses for .NET bootcamps • Enterprise app bootstraps for government IT vendors	Training $500-1200 per seat; template free *Effort:* Low (MIT template, minimal branding) ⚠ MIT permits reuse; ASP.NET and Microsoft trademarks; template needs own features

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Abp abpframework/abp ★ 14.5k · Weak copyleft LGPL-3.0 · Framework · Fit 3/5	ASP.NET Core application framework with an opinionated architecture for enterprise apps. *Replaces:* Commercial .NET app frameworks, Syncfusion-style starter kits	.NET teams building enterprise line-of-business apps	Setup + support retainer Consulting/implementation	• ABP setup for .NET enterprise consultancies • Admin portals for regional banks • Back-office apps for logistics firms	Commercial support plans $2-10k per year *Effort:* Medium (framework, commercial support tiers and module licences) ⚠ LGPL-3.0 allows linking; ABP is a trademark; commercial support tiers
Laravel-modules nWidart/laravel-modules ★ 6.2k · Permissive MIT · Library · Fit 3/5	Laravel package for splitting applications into modules. *Replaces:* Commercial Laravel modular frameworks	Laravel teams building modular SaaS apps	Consulting/implementation Setup + support retainer	• Modular Laravel SaaS builds for agencies • Module templates for plugin marketplaces • Refactoring services for large Laravel monoliths	Refactor $5-15k per project; support $500/mo *Effort:* Low (MIT Laravel package, easy to fork) ⚠ MIT permits reuse; Laravel is a trademark; module APIs change between versions
Likec4 likec4/likec4 ★ 6.0k · Permissive MIT · Tool · Fit 3/5	Tool turning architecture models into live, code-linked diagrams. *Replaces:* Structurizr, Lucidchart, Miro architecture diagrams	Software architects and platform teams documenting systems	Managed hosting Setup + support retainer	• Live architecture maps for fintech platforms • Diagrams-as-code for consultancies • Architecture docs for government digital teams	Hosted $50-200/mo per workspace; setup $3k *Effort:* Medium (polished tool, needs hosting and enterprise features) ⚠ MIT permits reuse; Structurizr and Lucidchart are competitors' brands
Hyperwood jo/hyperwood ★ 397 · Check NONE · Hardware · Fit 3/5	System for crafting furniture from simple wooden slats with plans *Replaces:* IKEA, Hay modular furniture, Vitsoe shelving	DIY makers and small furniture workshops	Hardware kits/assembly Training/courses Local service business	• Slat furniture kits for makerspaces • Custom shelving for small cafes • Hyperwood workshops for schools *Angle:* Sell flat-pack slat furniture made from standard lumber	$80-400 per furniture kit *Effort:* Low (Simple wood parts, easy kit packaging) ⚠ No license stated; ask author
Dune-weaver tuanchris/dune-weaver ★ 383 · Check NOASSERTION · Hardware · Fit 3/5	Kinetic sand art table that draws patterns with a motor-driven magnetic ball. *Replaces:* Zen garden sand tables, Oasis-style sand gardens	Home decor buyers and makers wanting sand art	Hardware kits/assembly Marketplace	• Sand art tables for hotel lobbies • Kinetic decor for restaurants • Maker kits for school STEM clubs	Kit $150-250; assembled table $400-700 *Effort:* Medium (mechanical build, needs packaging and safety QA) ⚠ NOASSERTION license: read first; consumer electronics certification needed
WikiHouse Skylark wikihouseproject/Skylark ★ 258 · Check NONE · Hardware · Fit 3/5	WikiHouse structural system using standardised insulated blocks for 1-3 storey buildings *Replaces:* Prefab timber frame suppliers, SIPs panels, Huf Haus	Self-builders and small builders	Consulting/implementation Hardware kits/assembly Training/courses	• CNC-cut house shells for self-builders • Timber frame kits for community groups • Skylark build training for contractors *Angle:* CNC-cut Skylark building kits and offer local self-build assembly	$30k-80k per shell, design fees *Effort:* High (Needs engineering sign-off and CNC supply chain) ⚠ No license stated; building codes; WikiHouse name
Panelizer pelletier197/Panelizer ★ 21 · Permissive MIT · Tool · Fit 3/5	Designs paneled furniture and produces optimized cutlists for sheet goods *Replaces:* Cutlist Optimizer, OptiCut, Cabinet Vision, SketchList	Cabinet makers and woodworkers	Vertical SaaS Premium plugins/add-ons Setup + support retainer	• Cutlist tool for cabinet shops • Furniture planner for flat-pack makers • Panel optimizer for tiny house builders *Angle:* Offer custom cabinet panel cutting service for DIY renovators	$12-29/mo per workshop *Effort:* Medium (MIT code, needs polish and hosting) ⚠ MIT; cutlist accuracy needs verification
System-design karanpratapsingh/system-design ★ 46.8k · Check NOASSERTION · Content · Fit 2/5	Study guide on designing systems at scale for interview preparation. *Replaces:* Educative system-design courses, Grokking the System Design Interview	Engineers preparing for system design interviews	Content/membership Training/courses	• Interview-prep cohorts for senior engineers • System design workshops for bootcamps • Architecture refreshers for team leads	Membership $15-29/mo; cohort $199-399 *Effort:* Medium (large content set, needs original editing) ⚠ NOASSERTION license: read first; diagrams and text may be copyrighted

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Kratos go-kratos/kratos ★ 26.0k · **Permissive** MIT · Framework · Fit 2/5	Go framework for building cloud-native microservices. *Replaces:* Go-Zero, commercial microservice platforms	Go teams building microservices on Kubernetes	Consulting/implementation Training/courses	• Go microservice training for backend bootcamps • Kratos migrations for fintech teams • Cloud-native setup for Go agencies	Training $800-1500 per seat; framework free *Effort:* Medium (framework, needs company docs and support) ⚠ MIT permits reuse; Kratos is a project brand; framework lock-in
Swift-composable-architecture pointfreeco/swift-composable-architecture ★ 15.0k · **Permissive** MIT · Library · Fit 2/5	Swift library for building apps with composable state, effects and testing. *Replaces:* Commercial iOS architecture templates, Redux-style frameworks	iOS teams building SwiftUI apps	Consulting/implementation Training/courses	• Architecture audits for SwiftUI startups • TCA training for iOS bootcamps • Migration services for legacy UIKit apps	Consulting $150-250/hr; library free *Effort:* Low (Swift library, MIT, single architecture) ⚠ MIT permits reuse; Point-Free is a brand; Swift library needs upkeep
COLA alibaba/COLA ★ 13.1k · **Weak copyleft** LGPL-2.1 · Framework · Fit 2/5	Java framework template for clean, object-oriented layered architectures. *Replaces:* Commercial Java app frameworks, Spring Boot starters	Java teams building layered enterprise services	Consulting/implementation Training/courses	• Java architecture training for enterprise teams • Layered-service reviews for fintech firms • Starter kits for e-commerce back-ends	Training $500-900 per seat; framework free *Effort:* Medium (Java framework, Alibaba brand, opinionated layering) ⚠ LGPL-2.1 allows linking; Alibaba is a trademark; Chinese-language docs
Aspnetboilerplate aspnetboilerplate/aspnetboilerplate ★ 12.0k · **Permissive** MIT · Framework · Fit 2/5	ASP.NET web application framework with boilerplate architecture for services. *Replaces:* Commercial .NET frameworks, Abp Commercial	.NET teams building enterprise web apps	Consulting/implementation Setup + support retainer	• Legacy ABP upgrades for .NET consultancies • Admin systems for mid-size manufacturers • Back-office portals for hospitals	Upgrade projects $5-15k; support $1k/yr *Effort:* Medium (older framework, superseded by ABP, upgrade needed) ⚠ MIT permits reuse; ABP and ASP.NET are trademarks; project superseded
Drawio-skill Agents365-ai/drawio-skill ★ 10.6k · **Permissive** MIT · Tool · Fit 2/5	AI agent skill converting text, code and API specs into draw.io diagrams. *Replaces:* Lucidchart, Miro diagram generators	Engineers and architects using AI assistants for diagrams	Premium plugins/add-ons API/usage-based	• Diagram generation for consultancy docs • Terraform-to-diagram tools for cloud audits • OpenAPI diagrams for API product teams	Free MIT; $10-20/mo for hosted skill packs *Effort:* Low (agent skill, MIT, small scope) ⚠ MIT permits reuse; draw.io and Lucidchart are trademarks; AI output needs review
MVPArms JessYanCoding/MVPArms ★ 10.2k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Android MVP architecture framework bundling common open-source libraries. *Replaces:* Commercial Android boilerplates, Jetpack starter kits	Android teams building MVP-style apps	Consulting/implementation Training/courses	• MVP Android training for bootcamps • Architecture reviews for Android agencies • Legacy Android modernisation for fintech apps	Training $400-800 per seat; framework free *Effort:* Medium (MVP pattern, dated libraries, needs modernising) ⚠ Apache-2.0 permits reuse; bundled third-party libraries carry own licences
RIBs uber/RIBs ★ 8.0k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Android architecture framework from Uber for structuring large apps. *Replaces:* Commercial mobile architecture consultancies	Android teams building large modular apps	Consulting/implementation Training/courses	• RIB architecture training for Android bootcamps • Architecture refactors for ride-share startups • Modular Android reviews for fintech teams	Refactor projects $10-30k; training $500/seat *Effort:* Medium (Uber-specific patterns, steep learning curve) ⚠ Apache-2.0 permits reuse; Uber is a trademark; complex pattern learning
C4-PlantUML plantuml-stdlib/C4-PlantUML ★ 7.5k · **Permissive** MIT · Library · Fit 2/5	PlantUML library for drawing C4 architecture diagrams as text. *Replaces:* Structurizr, Lucidchart C4 templates	Software architects documenting systems in C4	Consulting/implementation Training/courses	• C4 documentation for architecture consultancies • Diagram training for software teams • Architecture doc templates for government IT projects	Doc packages $2-5k per system; library free *Effort:* Low (PlantUML macros, MIT, easy to package) ⚠ MIT permits reuse; PlantUML and Structurizr are brands

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
EquinoxProject EduardoPires/EquinoxProject ★ 6.8k · **Permissive** MIT · Starter · Fit 2/5	ASP.NET starter using Clean Architecture, DDD, CQRS and event sourcing. *Replaces:* Commercial .NET starter kits, ABP templates	.NET teams starting enterprise web apps	Training/courses Consulting/implementation	• CQRS training for .NET bootcamps • Starter kits for .NET consultancies • Event-sourcing reference for fintech teams	Training $300-600 per seat; starter free *Effort:* Medium (complex patterns, needs simplification for product use) ⚠ MIT permits reuse; patterns add complexity; ASP.NET is a Microsoft trademark
Blueprint-js aalavandhaann/blueprint-js ★ 591 · **Permissive** MIT · Library · Fit 2/5	ES6 JavaScript port of blueprint3d for room floor-plan and furniture editing. *Replaces:* Commercial floor-planning SaaS, Floorplanner	Furniture retailers and interior-design app builders	Consulting/implementation Premium plugins/add-ons	• Room planners for furniture e-commerce • Floor-plan widgets for real-estate listings • 3D room tools for kitchen showrooms	Free MIT; $500-2000 per embedded planner *Effort:* Medium (old codebase, needs models and UI work) ⚠ MIT permits reuse; blueprint3d origin credit; furniture models need licences
WikiHouse Wren **ARCHIVED** wikihouseproject/Wren ★ 144 · **Check** NONE · Hardware · Fit 2/5	Early WikiHouse portal frame structural system for 1-3 storey buildings *Replaces:* Prefab timber frame suppliers, SIPs panels	Self-builders and community builders	Consulting/implementation Hardware kits/assembly Training/courses	• Portal frame sheds for allotments • Community hall frames for charities • Timber building workshops for students *Angle:* Fabricate garden studios from plywood frame kits	$10k-40k per frame kit *Effort:* High (Superseded early version, engineering needed) ⚠ No license stated; building codes; WikiHouse name
SketchChair DiatomStudio/SketchChair ★ 73 · **GPL** GPL-3.0 · App · Fit 2/5	Desktop software for designing digitally fabricated chairs and furniture *Replaces:* Fusion 360 furniture plugins, Cabinet Vision, Autodesk furniture design	Designers and CNC furniture makers	Training/courses Premium plugins/add-ons Vertical SaaS	• Chair design tool for design schools • Custom chair studio for CNC shops • Workshop tool for kids furniture classes *Angle:* Sell customer-designed CNC-cut chairs	$10-20/mo or class licenses *Effort:* Medium (Old Processing desktop app, needs web port) ⚠ GPL-3.0; old codebase
WikiHouse Plugin **ARCHIVED** tav/wikihouse-plugin ★ 56 · **Check** NOASSERTION · Tool · Fit 2/5	SketchUp extension for downloading, modifying and printing WikiHouse designs *Replaces:* Prefab timber frame software, Cadwork, SketchUp Pro plugins	Self-builders and architects	Consulting/implementation Training/courses Premium plugins/add-ons	• WikiHouse design service for self-builders • Architect training for timber frames • CNC prep service for builders *Angle:* Design-and-cut service for custom WikiHouse sheds	$500-3000 per design package *Effort:* Medium (SketchUp plugin, dependent on proprietary SketchUp) ⚠ Check license; WikiHouse name; building codes

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Input-remapper sezanzeb/input-remapper ★ 6.0k · **GPL** GPL-3.0 · Tool · Fit 3/5	Linux tool that remaps keys, buttons and gamepad inputs. *Replaces:* Commercial macro tools, Razer Synapse-style remappers	Linux gamers and accessibility users remapping inputs	Premium plugins/add-ons Setup + support retainer	• Remapping setups for accessibility centres • Controller profiles for esports cafes • Input configs for Linux gaming shops	Free GPL; $5-15 one-time for profile packs *Effort:* Low (mature Linux tool, GPL, easy to package) ⚠ GPL-3.0 fine for hosting; distributed builds must ship source
Antimicrox AntiMicroX/antimicrox ★ 4.1k · **GPL** GPL-3.0 · App · Fit 3/5	Graphical app mapping keyboard and mouse inputs to gamepad buttons. *Replaces:* JoyToKey, commercial controller mappers, Steam Input	PC gamers using controllers with non-controller games	Premium plugins/add-ons Setup + support retainer	• Controller mapping for accessibility clinics • Gamepad setups for arcade cafes • Mapping help for retro PC gamers	Free GPL; $5-10 one-time for profile packs *Effort:* Low (desktop app, GPL, mature codebase) ⚠ GPL-3.0 fine for hosting; distributed apps must ship source

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
GP2040-CE OpenStickCommunity/GP2040-CE ★ 2.6k · **Permissive** MIT · Hardware · Fit 3/5	Gamepad and arcade-stick firmware for Raspberry Pi Pico and RP2040 boards. *Replaces:* Commercial arcade-stick PCBs, Brook fightpads	Arcade-stick builders and fighting-game players	Hardware kits/assembly Marketplace	• Fight-stick kits for esports players • Arcade controller builds for cafe owners • Accessibility controllers for disabled gamers	Kit $40-80; custom-built stick $150-300 *Effort:* Low (firmware MIT, well-documented, many boards) ⚠ MIT permits reuse; Raspberry Pi and Pico are trademarks
FreeJoy FreeJoy-Team/FreeJoy ★ 1.1k · **GPL** GPL-3.0 · Hardware · Fit 3/5	STM32 firmware for configurable USB game controllers and joysticks. *Replaces:* Commercial HOTAS controllers, Thrustmaster	Flight and racing-sim builders making custom controls	Hardware kits/assembly Marketplace	• HOTAS builds for sim racing clubs • Custom joysticks for flight-training simulators • Button boxes for streamers	Kit $40-80; custom build $150-300 *Effort:* Medium (STM32 firmware, needs board and enclosure work) ⚠ GPL-3.0: distributed firmware must ship source; sim-brand trademarks
MissionControl ndeadly/MissionControl ★ 3.6k · **GPL** GPL-2.0 · Tool · Fit 2/5	Makes other consoles' controllers work natively on Nintendo Switch over Bluetooth. *Replaces:* Official Nintendo Pro Controller, Brook adapters	Switch players wanting third-party controllers	Hardware kits/assembly Premium plugins/add-ons	• Controller adapters for arcade cafes • Accessibility controller setups for Switch players • Switch controller kits for esports clubs	Software free; $20-40 per adapter kit *Effort:* High (Nintendo lock-in, console tampering, fragile updates) ⚠ GPL-2.0 fine for hosting; Nintendo trademark; console-ban and warranty risk
Xpadneo atar-axis/xpadneo ★ 2.8k · **Check** NOASSERTION · Tool · Fit 2/5	Linux driver for Xbox One wireless controllers over Bluetooth. *Replaces:* Windows Xbox drivers, Steam Input	Linux gamers using Xbox controllers	Setup + support retainer Consulting/implementation	• Linux controller setup for gaming cafes • Xbox driver support for Linux distros • Driver installs for esports PCs	Setup $40-80 per machine; driver free *Effort:* Low (single driver, Linux-specific) ⚠ NOASSERTION license: read first; Xbox and Microsoft trademarks
OpenLinkHub jurkovic-nikola/OpenLinkHub ★ 1.2k · **GPL** GPL-3.0 · Tool · Fit 2/5	Linux app controlling Corsair iCUE LINK hubs, RGB lighting and fans. *Replaces:* Corsair iCUE software, commercial RGB controllers	Linux PC builders with Corsair hardware	Setup + support retainer Premium plugins/add-ons	• Linux RGB setups for streamers • Fan-control profiles for PC builders • Hardware setup services for Linux gaming cafes	Free GPL; $30-60 per setup service *Effort:* Low (Linux tool, GPL, Corsair-specific) ⚠ GPL-3.0 fine for hosting; Corsair and iCUE are trademarks
Bluepad32 ricardoquesada/bluepad32 ★ 1.2k · **Check** NOASSERTION · Library · Fit 2/5	Bluetooth gamepad, mouse and keyboard support for ESP32 and Pico W boards. *Replaces:* Commercial Bluetooth controller SDKs, Brook firmware	Embedded makers building controller devices	Hardware kits/assembly Consulting/implementation	• Controller firmware for retro-gaming kits • Bluetooth gamepads for robotics teams • Adaptive input boards for accessibility makers	Kit $30-60; integration $80-150/hr *Effort:* Medium (embedded Bluetooth library, needs board QA) ⚠ NOASSERTION license: read first; Bluetooth SIG and gamepad brand trademarks
VJoy shauleiz/vJoy ★ 743 · **Permissive** MIT · Tool · Fit 2/5	Windows driver creating virtual joysticks for games and apps. *Replaces:* Commercial virtual-gamepad drivers	Sim racers and game developers testing controls	Setup + support retainer Consulting/implementation	• Virtual controllers for sim racing rigs • Input setups for esports cafes • Testing drivers for game studios' QA	Setup $50-100 per rig; driver free *Effort:* Low (Windows driver, signing requirements) ⚠ NOASSERTION license: read first; driver signing and Windows security checks
InputManager daemon3000/InputManager ★ 593 · **Check** NOASSERTION · Library · Fit 2/5	Custom input manager library for Unity games. *Replaces:* Unity Input System add-ons, commercial Unity input plugins	Unity developers handling gamepad and keyboard input	Consulting/implementation Premium plugins/add-ons	• Input systems for Unity indie studios • Controller support for game jams • Input plugins for mobile game studios	Free; $30-60 one-time plugin *Effort:* Low (small Unity library, easy to wrap) ⚠ NOASSERTION license: read first; Unity engine terms apply to shipped games
Unswitch vaneenige/unswitch ★ 571 · **Permissive** MIT · Library · Fit 2/5	Tiny event handler library for Nintendo Switch controllers. *Replaces:* Commercial Switch controller SDKs	Developers building Switch controller tools	Consulting/implementation Premium plugins/add-ons	• Switch controller tools for accessibility labs • Input event libraries for indie Switch studios • Controller test tools for game QA	Free MIT; $100-200 per integration *Effort:* Low (tiny event handler, MIT, easy to embed) ⚠ MIT permits reuse; Nintendo Switch is a trademark; controller protocols change

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
DualSense-Windows Ohjurot/DualSense-Windows ★ 446 · Check NOASSERTION · Library · Fit 2/5	Windows API library for reading PlayStation DualSense controllers. *Replaces:* Commercial controller SDKs, Sony HID tools	Windows developers building controller tools	Consulting/implementation Premium plugins/add-ons	• DualSense support for Windows game studios • Controller tools for accessibility apps • Input tools for controller repair shops	Free; $80-200 per integration *Effort:* Low (small Windows library, focused scope) ⚠ NOASSERTION license: read first; Sony PlayStation and DualSense are trademarks
NSGadget_Pi gdsports/NSGadget_Pi ★ 59 · Permissive MIT · Tool · Fit 2/5	Raspberry Pi acting as a Nintendo Switch controller for input automation. *Replaces:* Commercial controller adapters, Brook input converters	Accessibility builders and game-testing hobbyists	Hardware kits/assembly Premium plugins/add-ons	• Adaptive controllers for disabled gamers • Automated game-testing rigs for QA • Switch input bridges for streamers	Kit $40-60; adaptive builds $150 each *Effort:* Medium (Pi-specific, Nintendo lock-in, firmware work) ⚠ MIT permits reuse; Nintendo trademark; console-ban and tampering risk

Garden, Irrigation & Pool Controllers · 8

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Automated-irrigation-system PatrickHallek/automated-irrigation-system ★ 781 · Check NONE · Hardware · Fit 2/5	Software for an open-source automated irrigation system, with hardware detailed in its README. *Replaces:* Commercial irrigation controllers, Rachio	Home gardeners wanting automated watering	Hardware kits/assembly Setup + support retainer	• Irrigation kits for allotment gardeners • Automated watering for small farms • Watering retrofits for community gardens	Kit $80-150; install $60/hr *Effort:* Medium (hardware plus software, needs safety and docs) ⚠ NONE license: no reuse rights; valve electrics and water-damage liability
Irrigation_unlimited rgc99/irrigation_unlimited ★ 469 · Permissive MIT · Tool · Fit 2/5	Home Assistant irrigation controller for scheduling watering zones. *Replaces:* Commercial irrigation controllers, Rain Bird apps	Home Assistant users running sprinkler systems	Premium plugins/add-ons Setup + support retainer	• Sprinkler automation for landscapers • Watering schedules for vacation rentals • Irrigation logic for community gardens	Free MIT; $25 one-time for schedule packs *Effort:* Low (HA component, MIT, scheduling logic) ⚠ MIT permits reuse; Home Assistant trademark; valve control safety
Stylefy Jarzka/stylefy ★ 321 · Permissive MIT · Library · Fit 2/5	Clojure and ClojureScript library for styling user-interface components. *Replaces:* CSS-in-JS libraries like styled-components	Clojure front-end developers	Consulting/implementation Training/courses	• Clojure UI styling for fintech dashboards • Front-end training for Clojure bootcamps • Style systems for ClojureScript startups	Consulting $120-180/hr; library free *Effort:* Low (small MIT library, niche language) ⚠ MIT permits reuse; small Clojure niche limits demand
Mudpi-core mudpi/mudpi-core ★ 282 · Check NONE · Framework · Fit 2/5	Configurable automation library for Linux single-board computers such as Raspberry Pi. *Replaces:* Commercial home-automation hubs, Home Assistant add-ons	Makers automating sensors on Raspberry Pi boards	Hardware kits/assembly Consulting/implementation	• Grow-room automation for hobby growers • Sensor logging for school STEM labs • Automation kits for maker spaces	Kit $60-120; setup $60/hr *Effort:* Medium (Pi-focused automation core, needs packaging) ⚠ NONE license: no reuse rights; Raspberry Pi is a trademark
Hass-opensprinkler vinteo/hass-opensprinkler ★ 264 · Permissive MIT · Tool · Fit 2/5	Home Assistant integration for OpenSprinkler irrigation controllers. *Replaces:* OpenSprinkler app, commercial sprinkler controllers	Home Assistant users with OpenSprinkler hardware	Premium plugins/add-ons Setup + support retainer	• Sprinkler automation for landscapers • OpenSprinkler setups for property managers • Smart irrigation for small vineyards	Free MIT; $20 one-time for dashboard packs *Effort:* Low (HA integration, MIT, device-specific) ⚠ MIT permits reuse; OpenSprinkler and Home Assistant are trademarks
Pigrow Pragmatismo/Pigrow ★ 167 · GPL GPL-3.0 · Tool · Fit 2/5	Raspberry Pi software for controlling grow boxes and plant environments. *Replaces:* Commercial grow controllers, automated grow systems	Home growers running indoor plant rigs	Hardware kits/assembly Setup + support retainer	• Grow-box kits for hobby growers • Greenhouse controllers for school STEM clubs • Indoor herb setups for restaurant kitchens	Kit $150-300; setup $80/hr *Effort:* Medium (Pi software, mains-powered rigs need safety work) ⚠ GPL-3.0: distributed software must ship source; mains and grow-light safety

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
ModularHydroponicTowerGarden laszlodaniel/ModularHydroponicTowerGarden ★ 100 · GPL GPL-3.0 · Hardware · Fit 2/5	3D-printable hydroponic tower garden with an Arduino pump controller. *Replaces:* Commercial tower gardens, AeroGarden	Home growers and urban-farm makers	Hardware kits/assembly Marketplace	• Tower gardens for restaurant herb walls • Hydroponic kits for school STEM clubs • Urban-farm towers for apartment balconies	Kit $60-120; printed file pack $10-20 *Effort:* Low (printable design, small electronics) ⚠ GPL-3.0: distributed designs and firmware must ship source
Homebridge-smart-irrigation MTry/homebridge-smart-irrigation ★ 90 · Permissive MIT · Tool · Fit 2/5	Homebridge plugin making irrigation valves smart, with climate-based schedules. *Replaces:* Commercial smart-irrigation controllers, Rachio	HomeKit users with irrigation valves	Premium plugins/add-ons Setup + support retainer	• HomeKit irrigation for landscapers • Climate-based watering for vineyards • Smart pump scheduling for small farms	Free MIT; $15-30 one-time for premium scheduling *Effort:* Low (Homebridge plugin, MIT, small scope) ⚠ MIT permits reuse; Apple HomeKit and Homebridge trademarks; valve safety

HVAC & Heat Pumps · 16

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Roommind snazzybean/roommind ★ 425 · Permissive MIT · Tool · Fit 3/5	Home Assistant room climate controller with self-learning models and valve control. *Replaces:* Nest, tado and Netatmo schedule features	Home Assistant users controlling radiators and heat pumps	Premium plugins/add-ons Setup + support retainer	• Room climate tuning for heat-pump installers • Radiator control for rental-property managers • Solar-gain plans for passive-house builders	Free MIT; $30-60 one-time for setup packs *Effort:* Medium (control logic, safety checks for heating valves) ⚠ MIT permits reuse; heating control safety; Home Assistant trademark
Open-fdd bbartling/open-fdd ★ 178 · Check NOASSERTION · Tool · Fit 3/5	Fault detection and diagnostic tools for HVAC building data. *Replaces:* Commercial building analytics, FDD services	Building operators and HVAC analytics firms	Consulting/implementation Setup + support retainer	• FDD audits for commercial building owners • Energy-fault checks for school districts • HVAC analytics for facilities teams	Audit $3-8k per building; support $500/mo *Effort:* Medium (needs building data integration and validation) ⚠ NOASSERTION license: read first; building-control data privacy and liability
Pyhaystack ChristianTremblay/pyhaystack ★ 79 · Permissive Apache-2.0 · Library · Fit 3/5	Python module connecting programs to Project Haystack servers for building data. *Replaces:* Commercial building-automation integration tools, Niagara connectors	Building automation integrators and facility engineers	Consulting/implementation Setup + support retainer	• Haystack integrations for HVAC contractors • Energy dashboards for building managers • Sensor data bridges for campus facilities	Integration projects $3-10k; library free *Effort:* Medium (Haystack ecosystem, needs building-domain knowledge) ⚠ Apache-2.0 permits reuse; Niagara and SkySpark are trademarks
BSB-LAN fredlcore/BSB-LAN ★ 366 · Check NONE · Tool · Fit 2/5	Monitors and controls boilers that use Siemens-based heating controllers. *Replaces:* Commercial building automation gateways, Viessmann Vitocom	Heating engineers and boiler owners wanting local control	Hardware kits/assembly Setup + support retainer	• Boiler gateways for heating engineers • Remote heating control for holiday homes • Heating monitoring for social-housing landlords	Gateway kit $80-150; setup $60-100/hr *Effort:* Medium (boiler-specific protocols, needs safety testing) ⚠ NONE license: no rights granted; Siemens and boiler-brand trademarks
Mitsubishi-WF-RAC-Integration blues-sechseck/Mitsubishi-WF-RAC-Integration ★ 311 · Permissive MIT · Tool · Fit 2/5	Home Assistant integration for Mitsubishi air conditioners with local control. *Replaces:* Mitsubishi Smart M-Air app, cloud AC apps	Home Assistant users with Mitsubishi air conditioners	Premium plugins/add-ons Setup + support retainer	• AC control for rental-property managers • Local-control HVAC for privacy-focused homes • Mitsubishi integrations for HVAC installers	Free MIT; $20-40 one-time for setup packs *Effort:* Low (HA integration, MIT, device-specific) ⚠ MIT permits reuse; Mitsubishi trademark; unofficial protocol risk

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Psychrolib psychrometrics/psychrolib ★ 310 · **Permissive** MIT · Library · Fit 2/5	Library calculating thermodynamic properties of air in many languages. *Replaces:* Commercial psychrometric software, ASHRAE calculators	HVAC engineers and building-science software teams	Consulting/implementation Training/courses	• Psychrometric tools for HVAC design firms • Air-property APIs for building-simulation startups • Dew-point checks for building inspectors	Consulting $150-250/hr; library free *Effort:* Low (well-scoped library, MIT, many languages) ⚠ MIT permits reuse; ASHRAE standards are copyrighted; check formulas
Tado_ce hiall-fyi/tado_ce ★ 179 · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Home Assistant Tado integration with local HomeKit control and weather compensation. *Replaces:* Official tado app, Netatmo smart radiator valves	Home Assistant users with tado heating	Premium plugins/add-ons Setup + support retainer	• Tado setup for landlords with multiple flats • Heating control for Airbnb hosts • Smart-valve tuning for heating installers	Free AGPL; $25-50 one-time for setup support *Effort:* Low (HA integration, AGPL, existing user base) ⚠ AGPL-3.0: hosted modifications must be published; tado is a trademark
Gree-hvac-mqtt-bridge arthurkrupa/gree-hvac-mqtt-bridge ★ 167 · **GPL** GPL-3.0 · Tool · Fit 2/5	MQTT bridge controlling Gree smart air conditioners with home automation. *Replaces:* Gree app, commercial AC control gateways	Home automation users with Gree air conditioners	Premium plugins/add-ons Setup + support retainer	• Gree control for rental property managers • MQTT bridges for hotel HVAC retrofits • Smart AC control for small offices	Free GPL; $20-40 one-time for setup support *Effort:* Low (single bridge, GPL, device-specific) ⚠ GPL-3.0 fine for hosting; Gree and OpenHAB are trademarks
Python-hvac TomLXXVI/python-hvac ★ 147 · **Permissive** MIT · Library · Fit 2/5	Python package set for HVAC engineering calculations. *Replaces:* Commercial HVAC design software, Trane TRACE	HVAC engineers and small design firms	Consulting/implementation Training/courses	• Load calculations for small HVAC firms • Python tools for engineering students • Sizing checks for residential installers	Consulting $120-200/hr; packages free *Effort:* Medium (engineering code, needs validation against standards) ⚠ MIT permits reuse; engineering calculations need professional sign-off
Melcloudhome andrew-blake/melcloudhome ★ 143 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration for Mitsubishi MELCloud Home air conditioners. *Replaces:* MELCloud app, Mitsubishi cloud apps	Home Assistant users with MELCloud air conditioners	Premium plugins/add-ons Setup + support retainer	• Cloud AC control for holiday-let managers • MELCloud dashboards for facilities teams • Climate automations for care homes	Free MIT; $20-40 one-time for setup packs *Effort:* Low (HA integration, MIT, cloud API dependency) ⚠ MIT permits reuse; Mitsubishi and MELCloud are trademarks; cloud API risk
Climate_group_helper bjrnptrsn/climate_group_helper ★ 137 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant helper orchestrating radiator valves, AC units and heaters. *Replaces:* Zoned-heating controllers, smart thermostat hubs	Home Assistant users with multi-zone heating	Premium plugins/add-ons Setup + support retainer	• Zone control for holiday lets • Heating orchestration for small offices • Dashboard setups for heating installers	Free MIT; $15-30 one-time for dashboard packs *Effort:* Low (HA helper, MIT, easy to rebrand) ⚠ MIT permits reuse; Home Assistant trademark; heating device compatibility
Psychrochart azogue/psychrochart ★ 126 · **Permissive** MIT · Library · Fit 2/5	Python library drawing psychrometric charts with overlaid building data. *Replaces:* Commercial psychrometric chart software	HVAC engineers and building-science students	Training/courses Consulting/implementation	• Psychrometric charts for HVAC teaching labs • Comfort-analysis reports for building consultants • Chart tools for indoor-climate studies	Course $200-400 per student; library free *Effort:* Low (focused chart library, MIT) ⚠ MIT permits reuse; ASHRAE chart conventions need correct labelling
Esphome-daikin-s21 joshbenner/esphome-daikin-s21 ★ 113 · **GPL** GPL-3.0 · Tool · Fit 2/5	ESPHome component controlling Daikin mini-splits over the S21 serial port. *Replaces:* Daikin app, commercial AC gateways	ESPHome users with Daikin mini-splits	Hardware kits/assembly Setup + support retainer	• Daikin gateways for property managers • S21 bridges for HVAC installers • Mini-split controls for small offices	Kit $30-60 per gateway; install $50 *Effort:* Low (ESPHome component, GPL, device-specific) ⚠ GPL-3.0: distributed firmware must ship source; Daikin trademark

Rougamo inversionhourglass/Rougamo ★ 491 · **Permissive** MIT · Library · Fit 2/5	Compile-time AOP library for Java methods, sync or async, using aspectj-style matching. *Replaces:* AspectJ, Spring AOP	Java backend teams wanting compile-time aspects	Consulting/implementation Training/courses	• Logging aspects for fintech Java teams • Compile-time retry wrappers for backend agencies • Method tracing for Java microservice shops	Free; $150-300/hour integration help *Effort:* Medium (Java-only, needs enterprise integration testing) ⚠ MIT ok; Spring and AspectJ are trademarks; Java ecosystem only
OpenKnit g3rard/OpenKnit ★ 358 · **Check** NONE · Hardware · Fit 2/5	Open project on a digital knitting machine *Replaces:* Stoll, Shima Seiki, Brother knitting machines	Maker labs and fashion students	Hardware kits/assembly Training/courses Consulting/implementation	• Digital knitting kits for fashion schools • Custom knit samples for designers • Textile labs for maker groups *Angle:* Build digital knitting machines for on-demand knitwear	$800-2000 per machine *Effort:* High (Experimental machine, hard to source) ⚠ No license stated
Circular Knitic var-mar/circular_knitic ★ 237 · **Permissive** MIT · Hardware · Fit 2/5	Open hardware circular knitting machine *Replaces:* Addi Express, Circular sock machines, Brother knitting machines	Maker labs and sock knitters	Hardware kits/assembly Training/courses Local service business	• Circular knitting kits for makers • Sock knitting service for craft markets • Textile maker classes *Angle:* Sell circular knitting machines for scarves and hats	$500-1200 per kit *Effort:* High (Experimental machine, mechanical precision) ⚠ MIT; mechanical build is demanding
Knitic mcanet/knitic ★ 226 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Open hardware knitting machine based on electronic Brother knitting machines *Replaces:* Stoll, Shima Seiki, Brother knitting software	Fashion students and knitting hobbyists	Hardware kits/assembly Setup + support retainer Training/courses	• Brother knitting machine upgrade kits • Digital knitting classes • Custom pattern service for designers *Angle:* Retrofit electronic knitting machines for textile studios	$200-500 per retrofit kit *Effort:* Medium (Depends on old Brother machines) ⚠ GPL-3.0; Brother is third-party trademark
Weaver ByronMayne/Weaver ★ 158 · **Check** NONE · Library · Fit 2/5	Code weaving framework for Unity that works like Fody, built into the engine. *Replaces:* Fody, Unity code generators	Unity game developers wanting build-time weaving	Consulting/implementation Premium plugins/add-ons	• Build-time logging for Unity mobile studios • Weaving for Unity multiplayer teams • Code injection tools for Unity agencies	Free; $50-100 per Unity plugin license *Effort:* Medium (Unity-specific, IL weaving complexity) ⚠ NONE license: read first; Unity and Fody are trademarks
Image-stylization-threading piellardj/image-stylization-threading ★ 119 · **GPL** GPL-3.0 · Tool · Fit 2/5	Tool that converts any image into string-art threading patterns. *Replaces:* Etsy string art kits, custom string art shops	string art makers and craft shops	Hardware kits/assembly Premium plugins/add-ons	• String art kits for wedding gift shops • Threading patterns for maker workshops • Custom portrait kits for pet owners	$30-60 kit, free software *Effort:* Medium (Simple tool, needs kit and UI packaging) ⚠ GPL-3.0: distributed app must ship source; craft kit safety testing
ThunderLoom ThunderLoom/ThunderLoom ★ 107 · **Permissive** MIT · Library · Fit 2/5	Physically based shader for woven cloth, for real-time rendering. *Replaces:* Substance fabric shaders, Marvelous Designer	3D artists and game studios needing fabric shaders	Premium plugins/add-ons Consulting/implementation	• Fabric shaders for virtual fashion studios • Woven-cloth materials for game studios • Textile previews for furniture showrooms	Free; $20-60 per shader pack *Effort:* Low (Shader code, integrate per engine) ⚠ MIT ok; Substance and Marvelous Designer are trademarks
Pyknit terriko/pyknit ★ 97 · **GPL** GPL-2.0 · Library · Fit 2/5	Python tools for knitters to create charts and eventually more patterns. *Replaces:* Knit Companion, Stitch Fiddle	knitters and pattern designers wanting code tools	Content/membership Consulting/implementation	• Chart generators for knitting pattern designers • Stitch charts for Etsy knitwear shops • Pattern tools for knitting teachers	Free; $10-20 per pattern-tool add-on *Effort:* Medium (Early Python toolkit, pattern-domain logic) ⚠ GPL-2.0: distributed tools must ship source; small user base
Libembroidery Embroidermodder/libembroidery ★ 83 · **Permissive** Zlib · Library · Fit 2/5	C library for reading, writing and manipulating machine embroidery design files. *Replaces:* Wilcom Embroidery Studio, Hatch file converters	embroidery digitizers and machine shops	Premium plugins/add-ons Consulting/implementation	• File conversion for embroidery digitizing shops • PES and DST tools for machine-shop software • Format converters for craft sellers	Free library; $200-500 per integration *Effort:* Medium (C library, needs format testing per machine) ⚠ Zlib is permissive; Wilcom and Hatch are trademarks
Knotty t0mpr1c3/knotty ★ 74 · **GPL** GPL-3.0 · Tool · Fit 2/5	Domain-specific language for writing knitting patterns as code. *Replaces:* Stitch Fiddle, Knitscape	knitting designers comfortable with code	Content/membership Training/courses	• Code-based patterns for knitwear designers • Knitting DSL courses for craft schools • Machine-knitting code for small textile studios	Free; $15-30 per pattern pack *Effort:* Medium (DSL needs docs and onboarding) ⚠ GPL-3.0: distributed tools must ship source; small user base

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Neural_inverse_knitting xionluhnis/neural_inverse_knitting ★ 68 · **Permissive** MIT · Model · Fit 2/5	Research code converting images to knitting machine instructions with neural networks. *Replaces:* Knitting pattern digitizing services	researchers working on machine knitting	Consulting/implementation API/usage-based	• Image-to-knit conversion for textile startups • Pattern generation APIs for knitwear brands • Custom knit patterns for research labs	$500-2000 per research project *Effort:* High (Research code, needs training and tuning) ⚠ MIT ok; academic research code, no production guarantees
AdaCAD UnstableDesign/AdaCAD-UI ★ 65 · **Check** NONE · App · Fit 2/5	Parametric design workspace for weave drafting and algorithmic textile patterns *Replaces:* WeavePoint, ArahWeave, Fiberworks	Weavers and textile designers	Vertical SaaS Training/courses Premium plugins/add-ons	• Weave draft tool for handweavers • Pattern generator for jacquard studios • Teaching tool for textile classes *Angle:* Offer custom woven textile production with jacquard looms	$8-15/mo per weaver *Effort:* Medium (Migrated repo, check new location) ⚠ No license stated; project moved
Libpes frno7/libpes ★ 51 · **GPL** GPL-3.0 · Library · Fit 2/5	Portable C library for encoding, decoding and transcoding PES and SVG embroidery formats. *Replaces:* Wilcom, Embird file converters	embroidery software developers	Premium plugins/add-ons Consulting/implementation	• PES file conversion for digitizing shops • SVG-to-embroidery converters for web apps • Embroidery format tools for Linux sewing hobbyists	Free library; $300-600 integration *Effort:* Medium (C library, format-specific edge cases) ⚠ GPL-3.0: distributed products must ship source; verify format rights
Cockatoo fstwn/cockatoo ★ 44 · **Permissive** MIT · Tool · Fit 2/5	Grasshopper toolkit generating 3D knitting patterns from NURBS and mesh geometry. *Replaces:* Shima Seiki knitting software, Grasshopper plugins	architects and designers exploring knitted 3D forms	Consulting/implementation Training/courses	• Knitted architecture prototypes for design studios • 3D knit patterns for fashion labs • Grasshopper training for textile designers	Free; $80-150/hr consulting *Effort:* High (Grasshopper plugin, niche design audience) ⚠ MIT ok; Rhino and Grasshopper are trademarks of McNeel
Embroidery-streamlines desmondlzy/embroidery-streamlines ★ 41 · **Check** NOASSERTION · Tool · Fit 2/5	Transforms a multicolor image into embroidery patterns for sewing machines. *Replaces:* Wilcom digitizing, Hatch Embroidery	home sewists making embroidered images	Premium plugins/add-ons Consulting/implementation	• Image-to-embroidery for custom gift shops • Pet portrait stitching for Etsy sellers • Sewing-machine patterns for quilting clubs	Free; $5-10 per custom design *Effort:* Medium (Research-grade tool, needs UI polish) ⚠ NOASSERTION license: read first; sewing machine brands are trademarks
AYAB Firmware AllYarnsAreBeautiful/ayab-firmware ★ 38 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Arduino firmware for the AYAB shield controlling Brother knitting machines *Replaces:* Silver Reed software, Stitch Maker	Hobby machine knitters	Hardware kits/assembly Setup + support retainer Training/courses	• AYAB shield kits for knitting machines • Preflashed controllers for Brother KH-9xx • Digital knitting classes *Angle:* Sell AYAB interface boards for vintage Brother knitting machines	$60-120 per shield *Effort:* Low (Small firmware, hardware from community) ⚠ GPL-3.0; AYAB name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
WLED wled/WLED ★ 19.0k · **Weak copyleft** EUPL-1.2 · App · Fit 5/5	ESP32 firmware controlling WS2812B and other RGB LEDs over WiFi with web app *Replaces:* Philips Hue, Govee, Nanoleaf, LIFX	Home users and installers of LED lighting	Hardware kits/assembly Setup + support retainer White-label reseller	• Preflashed WLED controllers for holiday lights • Retail window lighting for shops • Stage lighting for bands *Angle:* Install addressable LED lighting for homes and venues	$15-60 per controller *Effort:* Low (Firmware plus web UI, easy to preflash) ⚠ EUPL-1.2 copyleft; WLED name
Hyperion hyperion-project/hyperion.ng ★ 4.0k · **Permissive** MIT · App · Fit 4/5	Ambient backlight system for TVs that matches LED strips to on-screen colours *Replaces:* Philips Hue Sync, Govee DreamView, Ambilight	Home theater owners	Hardware kits/assembly Setup + support retainer Mobile app on top	• TV bias lighting kits for home theaters • Preinstalled Ambilight kits for gamers • Gaming desk lighting installs *Angle:* Install TV ambient lighting kits	$80-180 per kit *Effort:* Low (Complete software, kit packaging simple) ⚠ MIT; Hyperion name
QLC+ mcallegari/qlcplus ★ 1.6k · **Permissive** Apache-2.0 · App · Fit 4/5	DMX and analog stage lighting control software for moving heads and fixtures *Replaces:* GrandMA, Chamsys MagicQ, Lightkey, Daslight	Small venues, churches and DJs	Setup + support retainer Training/courses Hardware kits/assembly	• Lighting control for church sanctuaries • DJ show lighting rigs • Theater lighting for school auditoriums *Angle:* Rent stage lighting with DMX control for events	$300-900 per installed controller *Effort:* Low (Desktop app, rebrandable under Apache license) ⚠ Apache-2.0; QLC+ name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
xLights xLightsSequencer/xLights ★ 762 · GPL GPL-3.0 · App · Fit 4/5	Holiday light show sequencer with USB and E1.31 drivers *Replaces:* Light-O-Rama, Vixen, Showtime, Madrix	Holiday light display hobbyists	Setup + support retainer Training/courses Local service business	• Christmas light show design for neighborhoods • Sequence packs for hobbyists • Commercial holiday display installs *Angle:* Design and install Christmas light shows for businesses	$100-400 per sequence or install *Effort:* Low (Desktop app, no hosting needed) ⚠ GPL-3.0; music licensing for shows
Falcon Player FalconChristmas/fpp ★ 745 · Check NOASSERTION · Platform · Fit 4/5	Falcon Player runs light show sequences on Raspberry Pi or BeagleBone *Replaces:* Light-O-Rama controllers, Falcon controllers, Madrix	Holiday light show builders	Hardware kits/assembly Setup + support retainer Local service business	• FPP controller kits for light show hobbyists • Holiday display installs for homeowners • Sequence programming for neighborhoods *Angle:* Sell holiday light show controllers	$100-250 per controller kit *Effort:* Low (Preinstalled image, easy to bundle) ⚠ Check license; Falcon trademark; music licensing
RPi RGB LED Matrix hzeller/rpi-rgb-led-matrix ★ 4.4k · GPL GPL-2.0 · Library · Fit 3/5	Raspberry Pi library to drive chains of RGB LED matrix panels *Replaces:* Daktronics, LED sign vendors, Pixelblaze	Sign makers and maker artists	Hardware kits/assembly Consulting/implementation Managed hosting	• Scrolling LED signs for small shops • Menu boards for cafes • Event schedule displays for churches *Angle:* Build LED scoreboards and storefront signs	$150-500 per sign *Effort:* Medium (Library plus signage CMS to build) ⚠ GPL-2.0; distributed devices must ship source
LedFx LedFx/LedFx ★ 2.1k · GPL GPL-3.0 · App · Fit 3/5	Network LED effect engine delivering real-time audio-reactive effects to LED devices *Replaces:* Philips Hue Sync Box, Govee Music Sync, Resolume	DJs, gamers and venues	Setup + support retainer Hardware kits/assembly Managed hosting	• Audio-reactive lighting for small venues • DJ booth LED kits • Gaming room music lighting *Angle:* Rent sound-reactive LED setups for parties	$30-150 per installation *Effort:* Low (Python server, many device types supported) ⚠ GPL-3.0; LedFx name
NightDriverStrip PlummersSoftwareLLC/NightDriverStrip ★ 1.6k · GPL GPL-3.0 · Tool · Fit 3/5	ESP32 client firmware driving addressable LED strips for NightDriver light shows. *Replaces:* Falcon Player, commercial LED show controllers	LED light-show hobbyists and holiday display builders	Hardware kits/assembly Premium plugins/add-ons	• Holiday light shows for neighborhood displays • LED strips for club stage hobbyists • Controller kits for pixel-art display sellers	$40-70 controller kit, free firmware *Effort:* Medium (Firmware client, needs hardware kits) ⚠ GPL-3.0: distributed firmware must ship source; NightDriver name is a brand
Blink1 todbot/blink1 ★ 974 · Check NOASSERTION · Tool · Fit 3/5	Official software for blink(1) USB RGB LED status-indicator devices. *Replaces:* Busylight, status light products	IT teams and developers wanting status lights	Hardware kits/assembly Premium plugins/add-ons	• Build-status lights for DevOps teams • Busy indicators for contact centers • Status lights for home offices	$25-40 device, software free *Effort:* Low (Mature device software, existing hardware line) ⚠ NOASSERTION license: read first; blink(1) and ThingM are trademarks
Piano-LED-Visualizer onlaj/Piano-LED-Visualizer ★ 785 · Permissive MIT · Tool · Fit 3/5	Connects an LED strip to a Raspberry Pi to visualize piano playing in light. *Replaces:* Synthesia, Lumi keyboard lighting kits	piano teachers and home music studios	Hardware kits/assembly Premium plugins/add-ons	• LED piano lessons for music schools • Light-up visualizers for piano bars • Practice lights for kids' piano teachers	$60-120 kit, software free *Effort:* Medium (Pi plus LED strip setup, MIDI compatibility) ⚠ MIT ok; Raspberry Pi and Synthesia are trademarks
ESP8266_ArtNetNode_v2 mtongnz/ESP8266_ArtNetNode_v2 ★ 662 · GPL GPL-3.0 · Hardware · Fit 3/5	ESP8266 WiFi node converting Art-Net to DMX, RDM and LED pixel outputs. *Replaces:* Enttec Art-Net nodes, DMX gateways	lighting technicians and stage rental firms	Hardware kits/assembly Setup + support retainer	• Art-Net nodes for small theatre companies • DMX bridges for church AV teams • LED pixel controllers for event rental firms	$60-120 node, support optional *Effort:* Medium (Hardware plus firmware, DMX safety testing) ⚠ GPL-3.0: distributed firmware must ship source; Art-Net name has licensing terms
WLED-wemos-shield srg74/WLED-wemos-shield ★ 564 · Permissive MIT · Hardware · Fit 3/5	Wemos D1 Mini or ESP32 shield board for running WLED firmware. *Replaces:* Govee LED controllers, Pixel shield boards	LED hobbyists building WLED light setups	Hardware kits/assembly Premium plugins/add-ons	• WLED shields for holiday-light installers • Light-controller kits for Etsy sellers • WLED boards for makerspace workshops	$12-20 board, kit bundles extra *Effort:* Low (Simple PCB shield, WLED upstream firmware) ⚠ MIT ok; WLED and Wemos are trademarks; PCB certification needed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FastLED FastLED/FastLED ★ 7.5k · **Permissive** MIT · Library · Fit 2/5	Arduino library for colored LED animation on many LED chips *Replaces:* Adafruit NeoPixel library, Philips Hue SDK	Embedded developers and makers	Consulting/implementation Training/courses Hardware kits/assembly	• LED costume kits for cosplayers • LED art installations for events • LED lighting for retail displays *Angle:* Sell custom LED art pieces	$20-60 per kit, project fees *Effort:* Low (Library, embedded in your firmware) ⚠ MIT; FastLED name
AWTRIX 3 Blueforcer/awtrix3 ★ 2.3k · **Check** NOASSERTION · Hardware · Fit 2/5	Archived firmware for Ulanzi Smart Pixel Clock, discontinued in favour of AWTRIX NG *Replaces:* Divoom Pixoo, Ulanzi stock firmware, Govee displays	Smart home hobbyists	Setup + support retainer Hardware kits/assembly Content/membership	• Preflashed pixel clocks for Home Assistant users • Notification displays for offices • Desk clock for streamers *Angle:* Sell pixel clocks for smart homes; NC terms in repo, license before selling	$50-90 per clock *Effort:* Low (Archived, successor project exists) ⚠ Custom license read first; discontinued
WS2812FX kitesurfer1404/WS2812FX ★ 1.7k · **Permissive** MIT · Library · Fit 2/5	Arduino and ESP8266 library animating WS2812 LED strips with many effects. *Replaces:* Pixelblaze, WLED effect libraries	LED-display hobbyists and Arduino product makers	Premium plugins/add-ons Consulting/implementation	• LED effects for retail signage makers • Animated lighting for costume makers • WS2812 effects for event lighting rental firms	Free library; $80-200 custom effect setup *Effort:* Low (Mature Arduino library, drop-in effects) ⚠ MIT ok; WS2812 and Arduino are trademarks; widely used
ESP32 HUB75 DMA mrcodetastic/ESP32-HUB75-MatrixPanel-DMA ★ 1.6k · **Permissive** MIT · Library · Fit 2/5	ESP32 library driving HUB75 LED matrix panels with DMA and Adafruit GFX *Replaces:* Daktronics, Pixelblaze, LED sign vendors	Makers building LED signs	Hardware kits/assembly Consulting/implementation Setup + support retainer	• WiFi LED sign kits for shops • Retro pixel displays for gamers • Departure boards for small stations *Angle:* Sell LED matrix signs for cafes	$50-150 per display kit *Effort:* Low (Library, needs enclosure and UI) ⚠ MIT; library only
SwiftyGPIO uraimo/SwiftyGPIO ★ 1.4k · **Permissive** MIT · Library · Fit 2/5	Swift library for GPIO, SPI, I2C, PWM, UART and 1-Wire on Linux boards. *Replaces:* wiringPi, Python GPIO libraries	Swift developers building Linux hardware apps	Consulting/implementation Training/courses	• Swift IoT prototypes for iOS-first startups • GPIO courses for Swift developers • Embedded Swift tools for SBC makers	Free library; $150/hr consulting *Effort:* Medium (Niche language, Linux SBC only) ⚠ MIT ok; Swift and Raspberry Pi are trademarks; low adoption
Ikea-led-obegraensad ph1p/ikea-led-obegraensad ★ 892 · **Permissive** MIT · Hardware · Fit 2/5	ESP32 and Arduino hack that drives the IKEA OBEGRANSAD LED wall lamp. *Replaces:* IKEA OBEGRANSAD lamp, pixel display kits	IKEA owners wanting custom LED displays	Hardware kits/assembly Premium plugins/add-ons	• Custom message lamps for home decor shops • Pixel-art wall displays for gift stores • Retro game displays for bar owners	$25-40 kit, firmware free *Effort:* Low (Single lamp hack, IKEA-specific hardware) ⚠ MIT ok; IKEA is a trademark; hardware mod warranty risk
Clockwise jnthas/clockwise ★ 702 · **Permissive** MIT · Hardware · Fit 2/5	DIY full-featured smart wall clock on LED matrix with ESP32 *Replaces:* Ulanzi clock, Divoom Pixoo, Awtrix displays	Home hobbyists and gift buyers	Hardware kits/assembly Content/membership Local service business	• Preflashed LED clocks for gift buyers • Retro clock faces for Etsy • Workshop clock kits for makers *Angle:* Sell LED matrix wall clocks	$40-80 per clock *Effort:* Low (Simple ESP32 build) ⚠ MIT; hobby grade
Acer-predator-turbo-and-rgb-keyboard-linux-module JafarAkhondali/acer-predator-turbo-and-rgb-keyboard-linux-module ★ 632 · **GPL** GPL-3.0 · Tool · Fit 2/5	Linux kernel module adding Turbo mode and RGB keyboard support for Acer Predator laptops. *Replaces:* Acer NitroSense, PredatorSense	Linux gamers on Acer Predator laptops	Consulting/implementation Setup + support retainer	• Linux setup for gaming cafe machines • Acer Predator fixes for indie repair shops • Kernel module support for Linux gaming builders	Free; $60-120/hr support *Effort:* High (Kernel code, hardware-model specific) ⚠ GPL-3.0: distributed modules must ship source; Acer and Predator are trademarks
luma.led_matrix rm-hull/luma.led_matrix ★ 542 · **Permissive** MIT · Library · Fit 2/5	Python module driving MAX7219 LED matrices, 7-segment displays and NeoPixel strips. *Replaces:* Adafruit LED libraries, Pimoroni tools	Python hobbyists and signage makers	Consulting/implementation Training/courses	• Python LED sign code for small shops • NeoPixel courses for Raspberry Pi teachers • Matrix displays for transit stop prototypes	Free library; $100-200/hr consulting *Effort:* Low (Python library, widely used) ⚠ MIT ok; Raspberry Pi, NeoPixel and Adafruit are trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
MD_Parola MajicDesigns/MD_Parola ★ 495 · **Weak copyleft** LGPL-2.1 · Library · Fit 2/5	Arduino library for modular scrolling text displays on LED matrices. *Replaces:* Alphasign scrolling sign products, Daktronics text boards	sign makers and Arduino display builders	Premium plugins/add-ons Consulting/implementation	• Scrolling sign code for bars and clubs • Text boards for church notice systems • Arduino scrollers for transit prototypes	Free library; $50-100 per custom display *Effort:* Low (Arduino library, mature and self-contained) ⚠ LGPL-2.1: library changes stay open; Arduino is a trademark
RGB.NET DarthAffe/RGB.NET ★ 420 · **Weak copyleft** LGPL-2.1 · Library · Fit 2/5	.NET SDK controlling RGB peripherals from many keyboard and mouse brands. *Replaces:* OpenRGB, Razer Synapse, Corsair iCUE	.NET developers building RGB software	Premium plugins/add-ons API/usage-based	• RGB control plugins for gaming cafes • Lighting sync tools for esports teams • RGB integrations for PC case builders	Free SDK; $20-50 per commercial license *Effort:* Medium (SDK across many vendor devices) ⚠ LGPL-2.1: library changes stay open; Razer and Corsair are trademarks
MD_MAX72XX MajicDesigns/MD_MAX72XX ★ 350 · **Weak copyleft** LGPL-2.1 · Library · Fit 2/5	Arduino library for driving MAX72XX LED matrix modules. *Replaces:* Parola-based display controllers, LED driver boards	Arduino developers building LED displays	Premium plugins/add-ons Consulting/implementation	• Matrix display code for small retail signs • MAX72XX drivers for vending machine makers • Matrix displays for maker classrooms	Free library; $40-80 custom driver port *Effort:* Low (Single-chip driver library, small scope) ⚠ LGPL-2.1: library changes stay open; MAX72XX is an Analog Devices part
Jled jandelgado/jled ★ 348 · **Permissive** MIT · Library · Fit 2/5	Non-blocking Arduino library for controlling LEDs with effects and timing. *Replaces:* FastLED effects, Adafruit NeoPixel libraries	embedded developers using Arduino LEDs	Consulting/implementation Training/courses	• LED effect code for embedded product startups • Non-blocking LED tutorials for Arduino teachers • Status-LED firmware for IoT device makers	Free library; $80-150/hr support *Effort:* Low (Small, focused library, easy to embed) ⚠ MIT ok; Arduino is a trademark; low monetization path
nanoFramework.IoT.Device nanoframework/nanoFramework.IoT.Device ★ 315 · **Permissive** MIT · Library · Fit 2/5	.NET nanoFramework drivers for sensors, chips, displays and HAT boards. *Replaces:* Microsoft .NET IoT libraries, MicroPython drivers	.NET embedded developers building IoT devices	Consulting/implementation Training/courses	• .NET drivers for industrial IoT integrators • nanoFramework training for C# embedded teams • Sensor drivers for smart-meter startups	Free library; $120-200/hr consulting *Effort:* Medium (Driver collection, hardware variations per device) ⚠ MIT ok; .NET and nanoFramework names carry trademark terms

UC2 Microscopy openUC2/UC2-GIT ★ 542 · **Check** NOASSERTION · Hardware · Fit 4/5	Open science modular microscope system with cube-based optics *Replaces:* Zeiss educational microscopes, Olympus, Thorlabs kits	Teaching labs and researchers	Hardware kits/assembly Training/courses Consulting/implementation	• Modular microscope kits for schools • Citizen science microscopes for universities • Fluorescence add-on kits *Angle:* Sell modular microscope kits to universities	$300-2000 per kit *Effort:* Medium (Well documented, optics sourcing needed) ⚠ Check license; openUC2 trademark
PlanktoScope fairscope/PlanktoScope ★ 93 · **Weak copyleft** CC-BY-SA-4.0 · Hardware · Fit 4/5	Open affordable quantitative imaging platform for plankton and microscopy *Replaces:* Sea-Bird FlowCam, Zeiss microscopes, Imaging FlowCytobot	Marine labs and citizen science groups	Hardware kits/assembly Training/courses Consulting/implementation	• Plankton imaging kits for ocean research • Water quality microscopes for schools • Aquaculture monitoring for fish farms *Angle:* Sell plankton imagers to marine researchers	$1k-3k per kit *Effort:* Medium (Well documented, needs optics and QA) ⚠ CC-BY-SA share-alike; PlanktoScope name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Relion 3dem/relion ★ 563 · GPL GPL-2.0 · Tool · Fit 3/5	Image-processing software for cryo-electron microscopy structure determination. *Replaces:* cryoSPARC, EMAN2 commercial workflows	structural biology labs and cryo-EM core facilities	Setup + support retainer Training/courses	• Cryo-EM processing for university core facilities • Structure-solving workshops for biotech labs • Remote support for pharma cryo-EM teams	$2-5k/yr support contracts, software free *Effort:* High (Academic-grade scientific code, heavy compute) ⚠ GPL-2.0: distributed software must ship source; cryoSPARC is a competitor
Opentrons Opentrons/opentrons ★ 532 · Permissive Apache-2.0 · Platform · Fit 3/5	Software for writing protocols and running them on Opentrons Flex and OT-2 robots *Replaces:* Hamilton, Tecan, Beckman Biomek	Biotech labs automating pipetting	Consulting/implementation Setup + support retainer Training/courses	• Protocol automation for small biotech labs • Pipetting workflow design for university labs • Assay automation for diagnostic startups *Angle:* Resell and service liquid-handling robots to small labs	$3k-15k per workflow project *Effort:* High (Tied to Opentrons hardware, lab validation) ⚠ Apache-2.0; Opentrons trademark; lab validation
Poseidon Syringe Pumps pachterlab/poseidon ★ 256 · Permissive BSD-2-Clause · Hardware · Fit 3/5	Open source syringe pump and microscope system for laboratories *Replaces:* Harvard Apparatus pumps, New Era pumps, Cole-Parmer pumps	Research labs on tight budgets	Hardware kits/assembly Consulting/implementation Training/courses	• Low-cost syringe pumps for teaching labs • Microfluidics setups for university labs • Pump kits for bioreactor builders *Angle:* Sell syringe pump systems for microfluidics labs	$150-500 per pump *Effort:* Medium (Needs lab hardware and calibration) ⚠ BSD-2-Clause; lab accuracy claims
Acconeer-python-exploration acconeer/acconeer-python-exploration ★ 219 · Check NOASSERTION · Tool · Fit 3/5	Python exploration tool for Acconeer radar sensors, with capture and plotting. *Replaces:* Keysight radar test suites, vendor GUI tools	radar sensor developers and embedded engineers	Consulting/implementation Training/courses	• Radar sensor training for IoT product teams • Presence sensing setup for smart-building integrators • Radar demo kits for trade show booths	$150/hr consulting; $300 training seat *Effort:* Medium (Vendor-specific sensor tool, needs hardware) ⚠ NOASSERTION license: read first; Acconeer is a trademark
Multi-channel Pipette Its-Triggy/multi-channel-pipette ★ 192 · Check CERN-OHL-P-2.0 · Hardware · Fit 3/5	Open source 8-channel pipette system for 96-well plates with CAD, electronics, firmware *Replaces:* Integra Viaflo, Gilson, Eppendorf Xplorer	Small labs and teaching labs	Hardware kits/assembly Consulting/implementation Training/courses	• Low-cost electronic pipettes for teaching labs • 96-well pipetting for startup labs • Pipette kits for biohackspaces *Angle:* Sell 96-well pipetting devices to biotech startups	$400-1200 per unit *Effort:* High (Precision calibration and lab use QA) ⚠ CERN-OHL-P permits commercial use; calibration liability
Tracy gear-genomics/tracy ★ 127 · Permissive BSD-3-Clause · Tool · Fit 3/5	Command-line tool for basecalling, alignment and deconvolution of Sanger trace files. *Replaces:* Geneious Sanger analysis, commercial trace viewers	sequencing labs and genomics core facilities	Setup + support retainer Consulting/implementation	• Sanger trace analysis for clinical labs • Plasmid checking for biotech startups • Core-facility sequencing support	Free; $1-3k per lab support contract *Effort:* Medium (Scientific CLI, clinical use needs validation) ⚠ BSD-3-Clause ok; clinical use may need regulatory validation
Chai Open qPCR chaibio/chaipcr ★ 97 · Check NONE · Hardware · Fit 3/5	Software for Chai's open source real-time PCR instrument *Replaces:* Bio-Rad CFX, Thermo Fisher QuantStudio, Roche LightCycler	Small labs and field testing groups	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Field qPCR for agricultural labs • Teaching thermocyclers for universities • Water testing lab kits *Angle:* Refurbish and support open qPCR instruments	$2k-5k per instrument *Effort:* High (Instrument software, needs hardware and validation) ⚠ No license stated; diagnostic regulation
TCD1304-Sensor-Device-with-Linear-Response-and-16-Bit-Differential-ADC drmcnelson/TCD1304-Sensor-Device-with-Linear-Response-and-16-Bit-Differential-ADC ★ 69 · Check NOASSERTION · Hardware · Fit 3/5	Spectrometer sensor device using a TCD1304 CCD, with gerbers, BOM, firmware and app. *Replaces:* Ocean Optics spectrometers, CCD spectrometer modules	spectroscopy labs and optics educators	Hardware kits/assembly Consulting/implementation	• Spectrometer kits for chemistry teaching labs • Photometric sensors for water testing startups • Holography setups for optics hobbyists	$120-250 kit, firmware free *Effort:* Medium (Full hardware design, needs QA and calibration) ⚠ NOASSERTION license: read first; open hardware files need full review

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ardufocus jbrazio/ardufocus ★ 58 · GPL GPL-3.0 · Hardware · Fit 3/5	Open source telescope focus controller based on Arduino *Replaces:* Pegasus Astro FocusCube, Moonlite focusers, ZWO EAF	Amateur astrophotographers	Hardware kits/assembly Setup + support retainer Content/membership	• Focus motor kits for Newtonian telescopes • Observatory automation bundles • Focuser upgrades for old refractors *Angle:* Sell motorized focusers for microscopes and telescopes; NC terms in repo, license before selling	$90-180 per kit *Effort:* Low (Mature firmware, simple hardware kit) ⚠ GPL-3.0; ASCOM/INDI driver terms
VarVAMP jonas-fuchs/varVAMP ★ 58 · GPL GPL-3.0 · Tool · Fit 3/5	Designs degenerate primers from highly variable viral alignments for sequencing or qPCR. *Replaces:* Primal Scheme, commercial primer design tools	viral genomics labs and public health teams	Consulting/implementation Setup + support retainer	• Primer design for pathogen surveillance labs • qPCR assays for diagnostics startups • Primer panels for wastewater testing programs	Free; $1-3k per assay design project *Effort:* Medium (Scientific tool, validation needed for diagnostics) ⚠ GPL-3.0: distributed software must ship source; validate before diagnostic use
Rodeostat iorodeo/potentiostat ★ 57 · Permissive CC-BY-4.0 · Hardware · Fit 3/5	Rodeostat open potentiostat design files, software and firmware for electrochemistry *Replaces:* Gamry, PalmSens, Metrohm Autolab, Admiral Instruments	Teaching labs and electrochemistry researchers	Hardware kits/assembly Training/courses Consulting/implementation	• Potentiostat kits for chemistry classrooms • Sensor development rigs for startups • Electrochemistry lab modules for universities *Angle:* Sell potentiostats to electrochemistry courses	$250-700 per unit *Effort:* Medium (Documented design, needs calibration and QA) ⚠ CC-BY-4.0 needs attribution; Rodeostat name
qPocketPCR GaudiLabs/qPocketPCR ★ 22 · GPL GPL-3.0 · Hardware · Fit 3/5	Pocket-size quantitative PCR machine detecting fluorescence using a camera *Replaces:* Bio-Rad CFX, Thermo QuantStudio, Bio-Molecular Systems Mic	Teaching labs and field testers	Hardware kits/assembly Training/courses Consulting/implementation	• qPCR kits for biohackspaces • Teaching PCR for high schools • Field DNA testing for farms *Angle:* Sell portable qPCR machines to schools and field labs	$300-800 per unit *Effort:* Medium (Small instrument, validation and calibration needed) ⚠ GPL-3.0; diagnostic use regulated
MultiPrime joybio/multiPrime ★ 449 · Permissive MIT · Tool · Fit 2/5	Web and command tool for designing mismatch-tolerant primer sets for diverse sequences. *Replaces:* Primer3 web tools, Geneious primer design	molecular biology labs designing PCR primers	Setup + support retainer Consulting/implementation	• Primer design for virus surveillance labs • PCR assay design for diagnostic startups • Primer panels for agricultural genomics labs	Free; $500-2000 per primer project *Effort:* Medium (Scientific tool, validation required for diagnostics) ⚠ MIT ok; hosted web version has its own data terms
TurboReg Laka-3DV/TurboReg ★ 341 · Permissive MIT · Model · Fit 2/5	Research code for robust point cloud registration, from an ICCV 2025 paper. *Replaces:* Cloud registration SDKs, Faro Scene	3D vision researchers and lidar mapping teams	Consulting/implementation API/usage-based	• Point cloud alignment for survey firms • Registration code for lidar robotics startups • 3D scan merging for heritage digitization	$1-3k per integration project *Effort:* High (Research code, needs engineering hardening) ⚠ MIT ok; academic code, verify any pretrained weight terms
Metacoder grunwaldlab/metacoder ★ 149 · Check NOASSERTION · Library · Fit 2/5	R package parsing, manipulating and plotting metabarcoding taxonomic data. *Replaces:* QIIME 2 plotting, commercial bioinformatics suites	microbiome researchers analyzing sequencing data	Consulting/implementation Training/courses	• Metabarcoding analysis for environmental consultancies • R workshops for microbiome labs • Taxonomy plots for biodiversity surveys	Free package; $1-2k per analysis report *Effort:* Medium (R package for specialist users) ⚠ NOASSERTION license: read first; R package, scientific audience
Eltt2 Infineon/eltt2 ★ 100 · Permissive BSD-3-Clause · Tool · Fit 2/5	Embedded Linux toolbox for managing TPM 2.0 chips on Infineon hardware. *Replaces:* TPM management suites, vendor TPM tools	embedded Linux teams using TPM 2.0 chips	Consulting/implementation Training/courses	• TPM setup for industrial IoT builders • Secure boot training for embedded teams • TPM provisioning for device makers	Free; $200/hr integration *Effort:* Medium (Vendor-specific, needs embedded Linux skills) ⚠ BSD-3-Clause ok; Infineon and TPM are trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Nanostat PeterJBurke/Nanostat ★ 96 · **Permissive** MIT · Hardware · Fit 2/5	ESP32 potentiostat firmware for electrochemistry experiments *Replaces:* Gamry potentiostats, PalmSens, Metrohm Autolab	Electrochemistry students and labs	Hardware kits/assembly Training/courses Consulting/implementation	• Low-cost potentiostat kits for teaching • Sensor testing for water monitoring startups • Electrochemistry workshops *Angle:* Sell WiFi potentiostats for sensor startups	$150-400 per kit *Effort:* Medium (Research prototype, needs calibration) ⚠ MIT; measurement accuracy claims
Open Syringe Pump manimino/OpenSyringePump ★ 90 · **Check** NONE · Hardware · Fit 2/5	Open syringe pump instructions, code and 3D files *Replaces:* Harvard Apparatus pumps, New Era pumps	Teaching labs and hobby researchers	Hardware kits/assembly Training/courses Content/membership	• Syringe pump kits for classrooms • Pump kits for 3D bioprinting • Dosing pumps for hobby chemists *Angle:* Sell low-cost syringe pumps to teaching labs	$80-200 per kit *Effort:* Low (Simple design, calibration needed) ⚠ No license stated; dosing accuracy claims
STM jherkenhoff/STM ★ 88 · **Check** NONE · Hardware · Fit 2/5	DIY scanning tunneling microscope design for hobby and research use. *Replaces:* Commercial STM systems, Nanosurf instruments	university physics labs and maker researchers	Hardware kits/assembly Training/courses	• STM kits for physics teaching labs • Surface-science courses for maker spaces • DIY microscope builds for research students	$1-3k kit, training extra *Effort:* High (Precision hardware, expert build and calibration) ⚠ No license declared: read first; hazard and calibration risks
Microscope python-microscope/microscope ★ 85 · **GPL** GPL-3.0 · Library · Fit 2/5	Python library controlling microscope devices, with hardware triggers and networked device sharing. *Replaces:* Micro-Manager, Leica LAS X scripting	microscopy labs building custom imaging rigs	Consulting/implementation Training/courses	• Microscope automation for imaging core facilities • Hardware-trigger control for neuroscience labs • Networked microscope rigs for research consortia	Free library; $150/hr integration *Effort:* High (Device drivers per microscope vendor) ⚠ GPL-3.0: distributed software must ship source; vendor trademarks apply
MFEprimer-3.0 quwubin/MFEprimer-3.0 ★ 78 · **Check** NONE · Tool · Fit 2/5	Command-line PCR primer quality checker for specificity against genomes. *Replaces:* Primer-BLAST, commercial primer design suites	PCR labs checking primer specificity	Setup + support retainer Consulting/implementation	• Primer checks for clinical diagnostics labs • Assay QC for pathogen testing startups • Primer specificity reviews for CROs	Free; $500-1500 per assay review *Effort:* Medium (Scientific CLI needs validation for diagnostics) ⚠ NONE license: read first; validate before clinical use
EzRA tedcline/ezRA ★ 69 · **GPL** GPL-3.0 · Tool · Fit 2/5	Easy radio astronomy software for capturing and analyzing radio signals. *Replaces:* Commercial radio telescope software	amateur radio astronomers and science clubs	Hardware kits/assembly Training/courses	• Radio telescope kits for school science clubs • Sky-survey courses for amateur astronomers • Radio astronomy setups for observatory outreach	$300-800 kit, software free *Effort:* Medium (Needs radio hardware and astronomy knowledge) ⚠ GPL-3.0: distributed software must ship source; niche hardware dependence
Viewts OlivierLeBozec/viewts ★ 60 · **GPL** GPL-3.0 · Tool · Fit 2/5	Viewer that displays PCR, DTS, PTS, bitrate and jitter for MPEG transport streams. *Replaces:* Tektronix MPEG analyzers, broadcast stream test tools	broadcast engineers testing video streams	Consulting/implementation Training/courses	• Stream analysis for small broadcasters • MPEG-TS training for broadcast engineers • Troubleshooting services for IPTV providers	$80-150/hr consulting *Effort:* Medium (Specialist analysis tool, broadcast knowledge needed) ⚠ GPL-3.0: distributed tools must ship source; MPEG has patent pools
OpenStage raacampbell/openstage ★ 46 · **Weak copyleft** LGPL-3.0 · Hardware · Fit 2/5	Arduino-based microscope stage controller *Replaces:* Prior Scientific stages, Marzhauser, Applied Scientific Instrumentation	Microscopy labs	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Motorized stage upgrades for teaching microscopes • Stage control for DIY light sheet rigs • Scanning stages for pathology labs *Angle:* Sell motorized microscope stage upgrades	$200-500 per kit *Effort:* Medium (Single-purpose, needs mechanical integration) ⚠ LGPL-3.0; precision claims

Laptops & Single-Board Computers · 31

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
PiKVM pikvm/pikvm ★ 10.4k · GPL GPL-3.0 · Hardware · Fit 5/5	DIY IP-KVM on Raspberry Pi for remote server console and BIOS access *Replaces:* TinyPilot, Lantronix Spider, Raritan KVM, ATEN KVM-over-IP	Sysadmins and homelab users	Hardware kits/assembly White-label reseller Setup + support retainer	• Preassembled KVM for small hosting firms • KVMs for colocation providers • Remote access boxes for MSPs *Angle:* Sell IP-KVM appliances to IT departments	$200-400 per KVM unit *Effort:* Low (Proven OS image, Pi hardware kit) ⚠ GPL-3.0; PiKVM trademark; commercial offering exists
IoT-For-Beginners microsoft/IoT-For-Beginners ★ 17.2k · Permissive MIT · Content · Fit 4/5	12-week, 24-lesson beginner IoT curriculum with hands-on projects. *Replaces:* Udemy IoT courses, Coursera IoT courses	teachers and beginners learning IoT	Training/courses Content/membership	• IoT curriculum for high school STEM teachers • Beginner IoT bootcamps for career switchers • Raspberry Pi IoT workshops for libraries	Free course; $300-800 per cohort *Effort:* Low (Curriculum content, reusable with rewrites) ⚠ MIT ok; Microsoft and Azure trademarks; course hardware varies
DietPi MichaIng/DietPi ★ 6.4k · GPL GPL-2.0 · Platform · Fit 4/5	Lightweight Debian-based OS for single-board computers with a setup menu. *Replaces:* Raspberry Pi OS, balenaOS	SBC makers and home server builders	Setup + support retainer Hardware kits/assembly	• Pi OS images for home server builders • DietPi builds for digital signage firms • Pi-based NAS kits for hobbyists	$50-150 setup, sold as preloaded SD cards *Effort:* Low (Mature OS image, board-specific tuning) ⚠ GPL-2.0: distributed images must ship source; Raspberry Pi is a trademark
Raspap-webgui RaspAP/raspap-webgui ★ 5.2k · GPL GPL-3.0 · Platform · Fit 4/5	Web GUI turning a Debian-based Pi into a configurable wireless router. *Replaces:* Ubiquiti UniFi controller, consumer router admin pages	small offices and hotspot operators	Setup + support retainer Managed hosting	• Hotspot setups for cafes and campsites • Wireless routers for small rental properties • Guest WiFi for coworking spaces	$80-200 setup per site, support $15/mo *Effort:* Low (Mature web GUI, Debian-based) ⚠ GPL-3.0: distributed builds must ship source; RaspAP is a project brand
Donkeycar autorope/donkeycar ★ 3.5k · Permissive MIT · Platform · Fit 4/5	Open-source hardware and software platform for building small self-driving cars. *Replaces:* Waveshare JetRacer kits, AWS DeepRacer	robotics educators and autonomous-car hobbyists	Hardware kits/assembly Training/courses	• Donkey Car kits for university robotics classes • Self-driving car camps for kids • Autonomous model race kits for maker events	$250-400 kit, course $200 *Effort:* Medium (Mature platform, hardware assembly and support) ⚠ MIT ok; Donkey Car name is a community brand
Tinypilot tiny-pilot/tinypilot ★ 3.5k · Permissive MIT · Platform · Fit 4/5	Browser-based KVM running on Raspberry Pi to control another computer remotely. *Replaces:* PiKVM, JetKVM, Raritan KVM switches	IT admins managing remote servers	Hardware kits/assembly Setup + support retainer	• KVM kits for remote IT support teams • Rack KVMs for small data centers • Remote server consoles for small MSP firms	$79-149 device, $10/mo support *Effort:* Medium (Mature product, hardware and browser setup) ⚠ MIT ok; TinyPilot is a brand; hardware certification not included
Kube-vip kube-vip/kube-vip ★ 3.0k · Permissive Apache-2.0 · Platform · Fit 4/5	Virtual IP and load balancer for Kubernetes control planes and services. *Replaces:* MetalLB, F5 BIG-IP, Citrix ADC	platform engineers running on-prem Kubernetes	Setup + support retainer Consulting/implementation	• On-prem Kubernetes HA for telecom edge sites • Control-plane HA for hospital IT • Load balancing for private cloud agencies	$2-5k/yr support, consulting extra *Effort:* High (Infrastructure-heavy, needs Kubernetes expertise) ⚠ Apache-2.0 ok; kube-vip and CNCF trademarks; enterprise support needed
Xonsh xonsh/xonsh ★ 9.7k · Check NOASSERTION · Tool · Fit 3/5	Python-powered cross-platform shell with full scripting and AI-friendly features. *Replaces:* Bash scripting, Fish shell, PowerShell	Python developers wanting a scripting shell	Premium plugins/add-ons Training/courses	• Shell training for Python data engineers • Plugin packs for DevOps teams • Cross-platform shell setup for developer onboarding	Free; $5-10/mo plugin bundle *Effort:* Medium (Shell tool, needs plugin ecosystem) ⚠ NOASSERTION license: read first; xonsh is a community project name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pivpn pivpn/pivpn ★ 8.1k · **Permissive** MIT · Tool · Fit 3/5	Simple WireGuard or OpenVPN installer designed for Raspberry Pi. *Replaces:* Commercial home VPN apps, Tailscale setup services	home users and small offices wanting a VPN	Setup + support retainer Consulting/implementation	• Home VPN setup for remote-work households • VPN installs for small dental offices • WireGuard boxes for rental property managers	$80-150 setup per site, support $10/mo *Effort:* Low (Installer script, Pi-focused, wide user base) ⚠ MIT ok; Raspberry Pi and WireGuard are trademarks
Deskhop hrvach/deskhop ★ 7.9k · **GPL** GPL-3.0 · Hardware · Fit 3/5	Fast device that switches one keyboard and mouse between two computers. *Replaces:* Synergy, Logitech Flow, Mouse Without Borders	remote workers using two computers	Hardware kits/assembly Premium plugins/add-ons	• KVM-style switching for dual-PC developers • Desk setup kits for home-office designers • Share kits for trading desks	$60-100 kit, firmware free *Effort:* Medium (Hardware plus firmware, PCB and case sourcing) ⚠ GPL-3.0: distributed firmware must ship source; Logitech and Synergy are trademarks
K3sup alexellis/k3sup ★ 7.5k · **Check** NOASSERTION · Tool · Fit 3/5	CLI that bootstraps K3s clusters over SSH in under a minute. *Replaces:* Rancher, managed Kubernetes setup services	homelab users and small teams running K3s	Setup + support retainer Consulting/implementation	• K3s setup for small SaaS startups • Edge cluster installs for retail chains • Homelab cluster builds for hobbyists	$150-400 per cluster setup *Effort:* Low (CLI tool, minimal UI needed) ⚠ NOASSERTION license: read first; K3s and Rancher are trademarks
Raspotify dtcooper/raspotify ★ 5.2k · **Permissive** MIT · Tool · Fit 3/5	Spotify Connect client for Raspberry Pi and Linux devices. *Replaces:* Sonos, Bluesound, Spotify Connect hardware	smart speaker builders and home audio installers	Hardware kits/assembly Setup + support retainer	• Spotify speakers for DIY home audio builders • Pi audio endpoints for bars and cafes • Music players for hotel room installers	$50-120 Pi speaker kit, setup $50 *Effort:* Low (Mature client, depends on Spotify Connect) ⚠ MIT ok; Spotify and Raspberry Pi are trademarks; Spotify terms apply
Cloudflare-ddns timothymiller/cloudflare-ddns ★ 4.5k · **GPL** GPL-3.0 · Tool · Fit 3/5	Rust dynamic DNS updater that keeps Cloudflare DNS records pointed at your IP. *Replaces:* DynDNS, No-IP paid plans	homelab owners and small businesses with dynamic IPs	Setup + support retainer Managed hosting	• DDNS for home offices with fiber ISP • Remote access for security camera installers • DDNS setup for small B&B owners	$5-10/mo managed DDNS per site *Effort:* Low (Simple single-purpose tool, Cloudflare-specific) ⚠ GPL-3.0: distributed builds must ship source; Cloudflare is a trademark
PiShrink Drewsif/PiShrink ★ 4.1k · **Permissive** MIT · Tool · Fit 3/5	Script that shrinks Raspberry Pi SD card images for smaller downloads and flashing. *Replaces:* Win32 Disk Imager, Balena Etcher image tools	Pi image builders and SD-card product makers	Setup + support retainer Consulting/implementation	• Image shrinking for school IT deployments • Pi image builds for kiosk makers • SD imaging for fleet device makers	$100-300 per imaging workflow *Effort:* Low (Simple script, runs on Linux) ⚠ MIT ok; Raspberry Pi is a trademark; small utility
Pyload pyload/pyload ★ 3.9k · **Check** NOASSERTION · App · Fit 3/5	Free and open-source download manager written in pure Python with a web interface. *Replaces:* JDownloader, Internet Download Manager	power users and small hosting firms running downloads	Managed hosting Premium plugins/add-ons	• Hosted download managers for seedbox providers • Download tools for small media archives • Plugin packs for IT admins	Free core; $3-5/mo hosted *Effort:* Medium (Mature app, needs hosting and plugin work) ⚠ NOASSERTION license: read first; downloaded content may raise copyright issues
Gokrazy gokrazy/gokrazy ★ 3.5k · **Permissive** BSD-3-Clause · Platform · Fit 3/5	Turns Go programs into appliance OS images for Raspberry Pi and x86 PCs. *Replaces:* Balena OS, Ubuntu Core appliance images	Go developers shipping appliance devices	Consulting/implementation Setup + support retainer	• Go appliance images for kiosk makers • Go-based network appliances for small MSPs • Embedded Go firmware for smart-sensor startups	Free; $200-500 per appliance setup *Effort:* Medium (Niche OS builder, Go-only) ⚠ BSD-3-Clause ok; Raspberry Pi and Go are trademarks
Skylight cpaczek/skylight ★ 3.4k · **Permissive** MIT · App · Fit 3/5	Projects overhead aircraft onto your ceiling in real time from an RTL-SDR receiver. *Replaces:* FlightAware displays, Flightradar24 hardware	aviation enthusiasts and home theater builders	Hardware kits/assembly Premium plugins/add-ons	• Aircraft ceiling displays for airport-themed bars • Flight projectors for aviation museums • Plane-tracking art for restaurant owners	$80-150 kit, software free *Effort:* Medium (Needs SDR and projector hardware) ⚠ MIT ok; FlightAware and ADS-B data terms may apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Log2ram azlux/log2ram ★ 3.1k · **Permissive** MIT · Tool · Fit 3/5	systemd tool that moves logs into RAM to protect SD cards on Linux boards. *Replaces:* Industrial SD card vendors, eMMC wear tools	Pi appliance makers protecting SD-card storage	Setup + support retainer Consulting/implementation	• SD protection for kiosk deployments • Log safety for remote sensor installs • RAM logging for digital signage fleets	$50-100 per device setup *Effort:* Low (Simple systemd script, mature) ⚠ MIT ok; logs are lost on power failure, support risk
Framework Laptop 13 FrameworkComputer/Framework-Laptop-13 ★ 2.0k · **Permissive** CC-BY-4.0 · Hardware · Fit 3/5	Documentation for Framework Laptop 13 mainboard and modules with open specs *Replaces:* Dell XPS, MacBook Air, Lenovo ThinkPad	Repair shops and module makers	Hardware kits/assembly Consulting/implementation Marketplace	• Custom expansion cards for Framework owners • Repair service for Framework laptops • Mainboard cases for homelab *Angle:* Sell custom expansion cards and repurposed mainboard cases	$15-60 per module *Effort:* Medium (Docs for modules, not the laptop itself) ⚠ CC-BY-4.0 attribution; Framework trademark
Olimex OLinuXino OLIMEX/OLINUXINO ★ 1.5k · **Check** NONE · Hardware · Fit 3/5	Open hardware low-cost industrial Linux single board computers from Olimex *Replaces:* Raspberry Pi, BeagleBone, Advantech SBCs	Industrial embedded integrators	Hardware kits/assembly White-label reseller Consulting/implementation	• Industrial Linux boards for control cabinets • Custom SBC carrier for OEMs • Kiosk controllers for retail *Angle:* Manufacture industrial Linux SBCs	$50-150 per board *Effort:* High (Board manufacturing and certification required) ⚠ No license stated; Olimex trademark
BeagleBone Black beagleboard/beaglebone-black ★ 466 · **Check** NONE · Hardware · Fit 3/5	Design and document files for BeagleBone Black single board computer *Replaces:* Raspberry Pi, Texas Instruments EVMs, Advantech boards	Embedded and industrial developers	Hardware kits/assembly Consulting/implementation White-label reseller	• Industrial controllers for lab automation • Custom BeagleBone capes for OEMs • Embedded Linux for robotics teams *Angle:* Build industrial controllers on BeagleBone designs	$40-120 per board *Effort:* High (Board manufacturing and BOM sourcing) ⚠ Check license; BeagleBone trademark
Raspberry-pi-os s-matyukevich/raspberry-pi-os ★ 14.0k · **Permissive** MIT · Content · Fit 2/5	Tutorial series for writing a basic operating system on Raspberry Pi. *Replaces:* Udemy OS courses, operating systems textbooks	OS students and embedded engineering trainees	Training/courses Content/membership	• OS development courses for university students • Bare-metal Pi workshops for bootcamps • Hobby OS tutorials for maker clubs	Free tutorial; $99-199 course access *Effort:* Low (Tutorial content, reusable with modifications) ⚠ MIT ok; Raspberry Pi is a trademark; educational use
Fprime nasa/fprime ★ 11.9k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Flight software framework for embedded spacecraft and instrument systems. *Replaces:* Wind River VxWorks flight software, commercial flight stacks	small satellite builders and university space teams	Consulting/implementation Setup + support retainer	• Flight software for CubeSat startups • Instrument software for university space labs • Embedded framework support for aerospace contractors	$150-250/hr engineering, support $10k/yr *Effort:* High (Aerospace-grade framework, heavy domain setup) ⚠ Apache-2.0 ok; NASA name and logo need approval; flight certification not implied
Qt therecipe/qt ★ 10.8k · **Weak copyleft** LGPL-3.0 · Library · Fit 2/5	Qt binding for Go, supporting desktop, mobile and embedded targets. *Replaces:* Qt commercial licenses, Fyne GUI toolkit	Go developers building cross-platform GUI apps	Consulting/implementation Training/courses	• Go desktop apps for internal tools teams • Qt bindings for Go embedded HMI builders • Cross-platform GUI courses for Go teams	Free library; $120-200/hr consulting *Effort:* High (Qt build complexity across many platforms) ⚠ LGPL-3.0: dynamic linking required; Qt is a trademark of The Qt Company
Flower flwrlabs/flower ★ 7.2k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Federated learning framework for training AI models across many devices. *Replaces:* NVIDIA FLARE, IBM federated learning platforms	AI teams running federated learning projects	Consulting/implementation Managed hosting	• Federated learning pilots for hospital networks • Federated training for mobile app teams • Privacy-preserving models for banking consortia	Free core; $3-10k per federated pilot *Effort:* High (Framework, needs ML and infrastructure skills) ⚠ Apache-2.0 ok; Flower is a project brand; check name use
Raspberry Pi Pico SDK raspberrypi/pico-sdk ★ 5.0k · **Permissive** BSD-3-Clause · Library · Fit 2/5	C and C++ SDK for Raspberry Pi Pico microcontrollers *Replaces:* Arduino Pro, STM32Cube, ESP-IDF	Embedded firmware developers	Consulting/implementation Training/courses Hardware kits/assembly	• Pico firmware development service • Pico training for engineering students • Custom Pico boards for OEMs *Angle:* Design custom RP2040 boards for clients	$80-150/hr consulting *Effort:* Low (SDK, not a product) ⚠ BSD-3-Clause; Raspberry Pi trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Blinker-js blinker-iot/blinker-js ★ 4.4k · Permissive MIT · Library · Fit 2/5	Node.js library connecting hardware devices to the Blinker IoT cloud. *Replaces:* AWS IoT SDK, Blynk cloud	IoT developers building Node-connected devices	API/usage-based Consulting/implementation	• IoT device connectors for smart-plug makers • Node-based device control for hobby robots • Hardware cloud hookups for small IoT startups	Free library; $20-50 per device/mo cloud *Effort:* Medium (Ties to Blinker cloud, vendor lock-in) ⚠ MIT ok; Blinker is a brand; cloud dependency
Blynk-library Blynk-Technologies/blynk-library ★ 4.0k · Permissive MIT · Library · Fit 2/5	Library connecting Arduino, ESP32, Raspberry Pi and other boards to the Blynk cloud. *Replaces:* Particle Cloud SDK, Arduino IoT Cloud	IoT product makers using the Blynk cloud	API/usage-based Consulting/implementation	• Blynk device firmware for smart-home startups • Mobile control apps for greenhouse owners • Blynk integrations for HVAC installers	Free library; Blynk cloud plans $5-50/mo *Effort:* Medium (Tied to Blynk cloud and vendor terms) ⚠ MIT ok; Blynk is a trademark; cloud fees apply
Starrtc-android-demo starrtc/starrtc-android-demo ★ 3.8k · Check NONE · App · Fit 2/5	Android demo for an IM and video chat SDK with group chat and live streaming. *Replaces:* Twilio Video, Agora, Zoom SDK	app developers adding chat and video features	API/usage-based Consulting/implementation	• Live-stream SDK for regional streaming apps • Group chat for school-community apps • Video chat for telehealth startups	Free demo; $0.01-0.05 per minute usage *Effort:* High (Demo code, server side needed) ⚠ NONE license: read first; backend and chat SDK terms unclear
Framework EC FrameworkComputer/EmbeddedController ★ 1.2k · Check NONE · Library · Fit 2/5	Embedded controller firmware for the Framework laptop *Replaces:* Dell XPS, ThinkPad EC firmware	Laptop repair and firmware developers	Consulting/implementation Training/courses	• EC firmware tuning for repair shops • Custom battery controls for Framework laptops • Hardware hacking classes *Angle:* Offer laptop repair and upgrade services	$100/hr consulting *Effort:* High (Laptop-specific firmware, narrow market) ⚠ Check license; Framework trademark
Live-custom-ubuntu-from-scratch mvallim/live-custom-ubuntu-from-scratch ★ 565 · GPL GPL-3.0 · Starter · Fit 2/5	Procedure for building a bootable custom Ubuntu live installer from scratch. *Replaces:* Ubuntu Pro custom images, Cubic remaster tool	IT admins building custom Linux installers	Consulting/implementation Setup + support retainer	• Custom Ubuntu images for school IT departments • Installer builds for small MSPs • Linux kiosk images for retail chains	$300-800 per custom image *Effort:* Medium (Procedure-based, needs Linux admin skills) ⚠ GPL-3.0: distributed images must ship source; Ubuntu is a Canonical trademark

LoRa & Mesh Networks · 21

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Meshtastic Firmware meshtastic/firmware ★ 8.5k · GPL GPL-3.0 · Hardware · Fit 5/5	Firmware for Meshtastic off-grid LoRa mesh communication devices *Replaces:* Garmin inReach, Motorola two-way radios, Zoleo	Hikers, events and emergency groups	Hardware kits/assembly White-label reseller Setup + support retainer	• Preflashed mesh radios for hikers • Event comms for festivals • Off-grid communication for farms *Angle:* Sell preflashed Meshtastic radios for hikers and events	$40-120 per node *Effort:* Low (Complete firmware, kit packaging simple) ⚠ GPL-3.0; Meshtastic trademark; radio regulation
ChirpStack chirpstack/chirpstack ★ 1.1k · Permissive MIT · Platform · Fit 5/5	Open source LoRaWAN network server for private sensor networks *Replaces:* Actility ThingPark, The Things Industries, Senet	IoT integrators and smart city teams	Managed hosting Setup + support retainer White-label reseller	• Hosted LoRaWAN for small utilities • Private networks for ski resorts • Sensor backend for grain silos *Angle:* Install private LoRaWAN networks for farms	$49-399/mo per tenant *Effort:* Low (Multi-tenant ready, MIT, Rust and Postgres) ⚠ MIT; ChirpStack name; LoRa regional rules
MeshCore meshcore-dev/MeshCore ★ 4.0k · Permissive MIT · Platform · Fit 4/5	Lightweight hybrid routing mesh protocol for packet radios with companion apps *Replaces:* Garmin inReach, Meshtastic, Zoleo	Community mesh groups and hikers	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Preflashed MeshCore repeaters for towns • Backcountry text radios for hunters • Event comms for volunteer groups *Angle:* Deploy community repeater networks with solar nodes	$40-130 per radio *Effort:* Low (Firmware and apps ready, easy to preflash) ⚠ MIT; radio regulation; MeshCore name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
The Things Stack TheThingsNetwork/lorawan-stack ★ 1.2k · Permissive Apache-2.0 · Platform · Fit 4/5	The Things Stack open source LoRaWAN network server *Replaces:* Actility ThingPark, Senet, Helium, Kerlink Wanesy	IoT integrators and utilities	Managed hosting Consulting/implementation Setup + support retainer	• Private LoRaWAN servers for farms • Smart building IoT backends • Campus sensor networks *Angle:* Sell LoRaWAN gateways with managed service	$99-499/mo per network *Effort:* Medium (Complex Go stack, hosted version competes) ⚠ Apache-2.0; The Things trademark
Reticulum markqvist/Reticulum ★ 7.7k · Check NOASSERTION · Platform · Fit 3/5	Cryptographic networking stack for resilient networks over LoRa, packet radio, WiFi *Replaces:* Signal, Briar, Garmin inReach, Starlink messaging	Resilient network builders and activists	Consulting/implementation Setup + support retainer Hardware kits/assembly	• Off-grid messaging for community groups • Resilient comms for disaster teams • Private campus mesh for remote sites *Angle:* Install resilient off-grid networks for NGOs	$2k-10k per network deployment *Effort:* High (Needs apps and hardware on top) ⚠ Custom license with restrictions; read it
Transformerlab-app transformerlab/transformerlab-app ★ 5.2k · AGPL AGPL-3.0 · Platform · Fit 3/5	Open research app to train, evaluate and scale AI models from laptop to GPU clusters. *Replaces:* Weights & Biases, Lambda Labs workbenches	AI researchers and small ML labs	Managed hosting Setup + support retainer	• Managed model lab for university AI groups • Local-to-cloud training for startup ML teams • Evaluation setups for AI safety consultancies	$30-100/user/mo, self-host free *Effort:* High (Complex platform, GPU infrastructure) ⚠ AGPL-3.0: hosted modifications must publish source; trademark needed
RNode Firmware markqvist/RNode_Firmware ★ 735 · GPL GPL-3.0 · Hardware · Fit 3/5	Firmware for RNode open LoRa radio interface used with Reticulum *Replaces:* Meshtastic nodes, Heltec LoRa modems	Reticulum and amateur radio users	Hardware kits/assembly Setup + support retainer Content/membership	• Preflashed RNode radios for mesh builders • LoRa modems for ham radio clubs • Reticulum starter kits *Angle:* Sell RNode radios for off-grid comms	$40-100 per radio *Effort:* Low (Firmware for common LoRa boards) ⚠ GPL-3.0; radio regulation
Airllm lyogavin/airllm ★ 41.9k · Permissive Apache-2.0 · Library · Fit 2/5	Library running very large LLMs on a single small GPU via layer-wise loading. *Replaces:* Hosted LLM APIs, Ollama-based setups	developers running LLMs on modest GPUs	API/usage-based Consulting/implementation	• LLM inference for small AI labs • Private offline models for legal firms • Local inference setup for research teams	Free library; $200-400/hr consulting *Effort:* High (Inference performance tuning, GPU-specific) ⚠ Apache-2.0 ok; check each model's own license before shipping
Self-llm datawhalechina/self-llm ★ 32.7k · Permissive Apache-2.0 · Content · Fit 2/5	Chinese-language tutorials for fine-tuning and deploying open-source LLMs on Linux. *Replaces:* DeepLearning.AI courses, Coursera deep learning courses	Chinese developers learning LLM deployment	Training/courses Content/membership	• LLM deployment courses for Chinese bootcamps • Fine-tuning tutorials for enterprise AI teams • Local model guides for Chinese SMEs	Free tutorials; $50-150 cohort course *Effort:* Low (Tutorial content, language and model-specific) ⚠ Apache-2.0 ok; model licenses vary for each model covered
Ms-swift modelscope/ms-swift ★ 16.1k · Permissive Apache-2.0 · Framework · Fit 2/5	Training framework for pretraining, fine-tuning and preference tuning of 600+ LLMs. *Replaces:* Hugging Face TRL, Together AI fine-tuning	ML teams fine-tuning open models	Managed hosting API/usage-based	• Fine-tuning service for legal document startups • Model training pipelines for Chinese-language SaaS • Private LLM tuning for healthcare analytics	$500-3k per fine-tune run *Effort:* High (Large framework, GPU infrastructure needed) ⚠ Apache-2.0 ok; model weights carry their own licenses
LoRA microsoft/LoRA ★ 13.9k · Permissive MIT · Library · Fit 2/5	Library implementing low-rank adaptation for fine-tuning large neural networks. *Replaces:* PEFT tuning services, Hugging Face fine-tuning endpoints	ML engineers fine-tuning language models	Consulting/implementation Training/courses	• LoRA fine-tuning for small AI consultancies • Parameter-efficient training courses for ML teams • Custom adapter builds for domain chatbots	Free library; $2-5k per tuning project *Effort:* Medium (Research library, needs ML engineering) ⚠ MIT ok; Microsoft is a trademark; model weights have separate licenses
ART OpenPipe/ART ★ 10.8k · Permissive Apache-2.0 · Framework · Fit 2/5	Agent reinforcement trainer that improves multi-step agents with GRPO on real tasks. *Replaces:* OpenAI fine-tuning, Predibase RL training	AI teams building LLM agents	API/usage-based Managed hosting	• Agent training runs for customer-support bots • RL tuning for coding-assistant startups • Training service for workflow automation firms	$1-5k per training run, usage-based *Effort:* High (RL training is complex, GPU infrastructure) ⚠ Apache-2.0 ok; OpenPipe is a company brand; model licenses vary

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BELLE LianjiaTech/BELLE ★ 8.3k · **Permissive** Apache-2.0 · Model · Fit 2/5	Chinese-language large language model and training engine for dialogue tasks. *Replaces:* ERNIE Bot, Tongyi Qianwen	Chinese-language app developers	Mobile app on top API/usage-based	• Chinese customer chatbots for e-commerce • Dialogue models for Mandarin tutoring apps • Local Chinese LLMs for government service desks	Free model; $0.001-0.01 per API call *Effort:* High (Model tuning, Chinese-language quality, compute) ⚠ Apache-2.0 ok; check base model licenses before commercial use
Firefly yangjianxin1/Firefly ★ 6.6k · **Check** NONE · Framework · Fit 2/5	Tool for training large language models including Qwen, Llama and Mistral families. *Replaces:* LLaMA-Factory, Axolotl	Chinese AI teams fine-tuning LLMs	Consulting/implementation Training/courses	• Fine-tuning for Chinese legal chatbots • Qwen tuning courses for AI bootcamps • Domain models for Chinese medical apps	Free tool; $1-3k per tuning project *Effort:* High (Training tool, GPU and data prep heavy) ⚠ NONE license: read first; base model licenses vary
Nunchaku nunchux-ai/nunchaku ★ 4.0k · **Permissive** Apache-2.0 · Library · Fit 2/5	Inference engine for 4-bit diffusion models using low-rank outlier absorption. *Replaces:* TensorRT diffusion, ComfyUI nodes	image generation startups optimizing GPU costs	API/usage-based Consulting/implementation	• Faster image generation for stock-photo apps • 4-bit diffusion for game asset studios • GPU cost cutting for AI art startups	Free; $1-3k per optimization project *Effort:* High (GPU-specific optimization, research-grade code) ⚠ Apache-2.0 ok; check model weights and NVIDIA GPU terms
Agentheroes agentheroes/agentheroes ★ 3.4k · **Check** NONE · App · Fit 2/5	Generates, animates and schedules AI characters for content creation. *Replaces:* HeyGen, Synthesia, Character.AI	social media creators and small marketing teams	Vertical SaaS API/usage-based	• AI character posts for real-estate brokers • Scheduled AI presenters for ecommerce brands • Animated mascots for children's education apps	$29-99/mo per workspace, usage extra *Effort:* High (Needs AI model and scheduling integrations) ⚠ NONE license: read first; avatar likeness and publicity rights risk
Adapters adapter-hub/adapters ★ 2.8k · **Permissive** Apache-2.0 · Library · Fit 2/5	Unified library for parameter-efficient and modular transfer learning in transformers. *Replaces:* Hugging Face PEFT, AdapterFusion tools	NLP researchers and ML engineers	Consulting/implementation Training/courses	• Adapter training for NLP consultancies • Transformer fine-tuning courses for data teams • Modular models for multilingual support tools	Free library; $3-8k per adapter project *Effort:* Medium (Research-oriented library, ML skills needed) ⚠ Apache-2.0 ok; Hugging Face model licenses may apply
Alpaca-CoT PhoebusSi/Alpaca-CoT ★ 2.8k · **Permissive** Apache-2.0 · Library · Fit 2/5	Unified interfaces for instruction-tuning datasets, multiple LLMs and parameter-efficient methods. *Replaces:* Alpaca fine-tuning kits, commercial instruction datasets	LLM hobbyists and data teams fine-tuning models	Content/membership Consulting/implementation	• Instruction datasets for Chinese chatbot startups • Tuning recipes for AI bootcamps • Fine-tuning consultancy for small agencies	Free; $2-5k per tuning project *Effort:* Medium (Scattered multi-model code, research-grade) ⚠ Apache-2.0 ok; dataset and base model licenses vary
ChatGLM-Finetuning liucongg/ChatGLM-Finetuning ★ 2.8k · **Check** NONE · Library · Fit 2/5	Fine-tuning code for ChatGLM models using Freeze, LoRA, P-tuning and full tuning. *Replaces:* ChatGLM API services, Baidu ERNIE fine-tuning	Chinese AI developers fine-tuning ChatGLM	Consulting/implementation Training/courses	• ChatGLM tuning for Chinese enterprise chatbots • Fine-tuning workshops for AI bootcamps • Domain model builds for Chinese healthcare apps	Free code; $1-3k per tuning project *Effort:* Medium (Model-specific scripts, needs tuning expertise) ⚠ NONE license: read first; ChatGLM weights have separate license terms
LongLoRA JIA-Lab-research/LongLoRA ★ 2.7k · **Permissive** Apache-2.0 · Model · Fit 2/5	Code and models for LongLoRA, extending long-context LLMs with efficient fine-tuning. *Replaces:* Long-context API models, long-document review services	AI researchers extending model context length	Consulting/implementation API/usage-based	• Long-document tuning for legal review startups • Context extension for research archive teams • Long-context models for financial filings analysts	Free code; $2-5k per context-tuning project *Effort:* High (Research code, model-specific retraining) ⚠ Apache-2.0 ok; Llama base model licenses apply
Makerfabs LoRa Soil Sensor Makerfabs/Lora-Soil-Moisture-Sensor ★ 63 · **Check** NONE · Hardware · Fit 2/5	LoRa soil moisture sensor board from Makerfabs *Replaces:* Dragino LSE01, Sensoterra, Teros soil sensors	Small farms and gardeners	Hardware kits/assembly Setup + support retainer Managed hosting	• Soil sensors for vineyards • Greenhouse moisture monitors • Garden irrigation alerts for nurseries *Angle:* Sell soil moisture sensor networks to orchards	$35-70 per sensor *Effort:* Low (Simple sensor board, needs gateway) ⚠ No license stated; Makerfabs sells the hardware

Medical Devices · 21

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenBCI GUI OpenBCI/OpenBCI_GUI ★ 981 · Permissive MIT · App · Fit 4/5	Cross-platform GUI for OpenBCI Cyton and Ganglion brain-computer interface boards *Replaces:* Emotiv, Muse, NeuroSky, g.tec	Neuroscience students and researchers	Training/courses Hardware kits/assembly Consulting/implementation	• EEG teaching kits for universities • Neurofeedback experiments for clinics • Brain-computer interface workshops for makers *Angle:* Sell EEG headset kits to researchers	$500-1500 per EEG kit *Effort:* Medium (Desktop GUI needs OpenBCI hardware) ⚠ MIT; OpenBCI trademark; not a medical device
Nightscout nightscout/cgm-remote-monitor ★ 2.9k · AGPL AGPL-3.0 · App · Fit 3/5	Web monitor for continuous glucose monitor data with sharing and alarms *Replaces:* Dexcom Follow, Glooko	Diabetics, parents	Managed hosting Setup + support retainer Hardware kits/assembly	• Managed Nightscout for T1D families • Wearable CGM display kits • School nurse monitoring setup *Angle:* Sell CGM display devices for caregivers	$7/mo hosted *Effort:* Medium (Node app, single user) ⚠ AGPL-3.0; not a medical device, liability and regulation
xDrip+ NightscoutFoundation/xDrip ★ 1.8k · GPL GPL-3.0 · App · Fit 3/5	Android app reading CGM data and sharing it to Nightscout *Replaces:* Dexcom Clarity, FreeStyle LibreLink	Diabetics	Mobile app on top Setup + support retainer Hardware kits/assembly	• Setup service for CGM data sharing • Watch face kit for diabetic kids • Education for DIY diabetes care *Angle:* Sell CGM watch faces and bridge hardware	$80 setup session *Effort:* High (Large Android app, medical sensitivities) ⚠ GPL-3.0; not approved as medical device
Weasis nroduit/Weasis ★ 1.4k · Check NOASSERTION · App · Fit 3/5	Web-based DICOM viewer for medical imaging with PACS integration. *Replaces:* Sectra PACS viewer, Philips IntelliSpace viewer	radiology clinics and imaging centers	Setup + support retainer Managed hosting	• DICOM viewers for small imaging centers • PACS viewers for veterinary radiology • Teleradiology viewers for remote reading firms	$50-150/mo per site, support extra *Effort:* Medium (Mature viewer, medical integration and certification) ⚠ NOASSERTION license: read first; medical device regulation applies
Eeglab sccn/eeglab ★ 810 · Check NOASSERTION · Tool · Fit 3/5	MATLAB environment for processing electrophysiological signals such as EEG. *Replaces:* BrainVision Analyzer, Neuroscan EEG software	neuroscience labs and EEG researchers	Training/courses Consulting/implementation	• EEG analysis workshops for neuroscience grad students • EEG pipelines for clinical research labs • Processing setups for consumer-EEG startups	Free software; $200-400 per workshop seat *Effort:* Medium (MATLAB-dependent, research-focused plugins) ⚠ NOASSERTION license: read first; MATLAB requires a paid license
BioAmp-EXG-Pill upsidedownlabs/BioAmp-EXG-Pill ★ 445 · Check NOASSERTION · Hardware · Fit 3/5	Small analog front-end board for acquiring biopotential signals such as EEG and ECG. *Replaces:* Backyard Brains kits, Olimex biosignal boards	biosignal hobbyists and neurotech educators	Hardware kits/assembly Training/courses	• EEG kits for neuroscience classrooms • ECG boards for wearable prototype makers • Biosignal kits for school STEM clubs	$35-60 board, support extra *Effort:* Medium (Analog front-end hardware, safety and certification) ⚠ NOASSERTION license: read first; medical use needs regulatory review
NeuroKit neuropsychology/NeuroKit ★ 2.4k · Permissive MIT · Library · Fit 2/5	Python toolbox for processing neurophysiological signals such as ECG, EEG and EDA. *Replaces:* MATLAB signal toolboxes, Biopac AcqKnowledge	neuroscience labs and wellness researchers	Consulting/implementation Training/courses	• Biosignal analysis for stress-research labs • Neurophysiology courses for psychology grad students • Wearable data analysis for sleep-tech startups	Free library; $150-300/hr consulting *Effort:* Medium (Python toolbox for signal researchers) ⚠ MIT ok; medical-device claims need regulatory review
Brainflow brainflow-dev/brainflow ★ 1.8k · Check NOASSERTION · Library · Fit 2/5	Library collecting and parsing EEG, EMG, ECG and other data from biosensor boards. *Replaces:* OpenBCI SDK, g.tec software	neurotech startups building brain-sensing products	API/usage-based Consulting/implementation	• EEG data pipelines for neurofeedback startups • Biosensor integrations for wearables makers • Sensor SDKs for sleep research labs	Free library; $100-200/hr integration *Effort:* Medium (Many device drivers, hardware dependent) ⚠ NOASSERTION license: read first; medical claims need regulatory review
Loop LoopKit/Loop ★ 1.8k · Check NOASSERTION · App · Fit 2/5	iOS automated insulin delivery app built on LoopKit *Replaces:* Medtronic 780G, Tandem Control-IQ, Omnipod 5	People with type 1 diabetes	Training/courses Consulting/implementation Content/membership	• Loop onboarding for diabetes families • Build-your-own-app coaching for T1D adults • Diabetes tech workshops for clinics *Angle:* Provide RileyLink accessories and setup help to loop community	$50-150 per coaching session *Effort:* High (Medical software, personal build model only) ⚠ Custom license; regulated medical device; no sale of builds

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Covid19_scenarios neherlab/covid19_scenarios ★ 1.4k · **Permissive** MIT · Model · Fit 2/5	Models of COVID-19 outbreak trajectories and hospital demand for planning. *Replaces:* Commercial epidemic models, planning consultancies	public health planners and hospital administrators	Consulting/implementation Setup + support retainer	• Hospital demand models for regional health boards • Outbreak scenarios for university campus planners • Surge planning for private hospital groups	$5-15k per planning study *Effort:* High (Epidemiology models, data-heavy, stale data) ⚠ MIT ok; outbreak data licensing varies; check public health rules
AndroidAPS nightscout/AndroidAPS ★ 1.2k · **AGPL** AGPL-3.0 · App · Fit 2/5	Android closed-loop automated insulin delivery app *Replaces:* Tandem Control-IQ, Omnipod 5	DIY diabetes community	Training/courses Setup + support retainer Consulting/implementation	• AAPS training for caregivers • Diabetic camps support • Clinical onboarding guide *Angle:* Sell compatible phone and accessory bundles for DIY loopers	$100 course *Effort:* High (Medical-grade risk, regulation) ⚠ AGPL-3.0; unapproved medical software, high liability
Tsfel fraunhoferportugal/tsfel ★ 1.1k · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python library extracting 60+ statistical and spectral features from time series data. *Replaces:* tsfresh, Tableau time-series analytics	data scientists analyzing sensor time series	Consulting/implementation Training/courses	• Feature extraction for predictive-maintenance consultants • Time series courses for data scientists • Sensor analytics for wearables firms	Free library; $120-250/hr consulting *Effort:* Low (Python library, widely used by analysts) ⚠ BSD-3-Clause ok; Fraunhofer name use requires permission
Wfdb-python MIT-LCP/wfdb-python ★ 859 · **Permissive** MIT · Library · Fit 2/5	Python package for reading, writing and processing WFDB physiological signal records. *Replaces:* PhysioNet tools, MATLAB WFDB toolbox	clinical research teams working with physiological signals	Consulting/implementation Training/courses	• ECG data pipelines for cardiology research • Signal file conversion for clinical trials • WFDB training for biomedical engineers	Free library; $150/hr consulting *Effort:* Low (Mature library, format-specific) ⚠ MIT ok; PhysioNet data licenses differ; clinical use needs review
MakAir Ventilator **ARCHIVED** makers-for-life/makair ★ 846 · **Check** NOASSERTION · Hardware · Fit 2/5	Open source ventilator tested on human patients, mass-producible at about 2000 euros *Replaces:* Hamilton Medical, Philips Respironics, Medtronic ventilators	Hospitals in low-resource regions	Consulting/implementation Hardware kits/assembly	• Ventilator manufacturing for humanitarian groups • Teaching ventilators for medical schools • Low-cost units for field hospitals *Angle:* Manufacture emergency ventilators for humanitarian NGOs (needs certification)	Not for sale without certification *Effort:* High (Needs medical certification and manufacturing) ⚠ Custom license; medical device regulation
OpenAPS oref0 openaps/oref0 ★ 484 · **Permissive** MIT · Library · Fit 2/5	Open reference implementation of the OpenAPS artificial pancreas design *Replaces:* Medtronic 780G, Tandem Control-IQ	People with type 1 diabetes	Training/courses Consulting/implementation Content/membership	• OpenAPS onboarding for adult T1D families • Developer training for diabetes tech startups • Diabetes data workshops *Angle:* Offer DIY loop setup support and hardware rigs (not regulated device)	$50-150 per coaching session *Effort:* High (Medical algorithm, personal use model) ⚠ MIT; unregulated medical device use
Automatic-ecg-diagnosis antonior92/automatic-ecg-diagnosis ★ 456 · **Permissive** MIT · Model · Fit 2/5	Training and test scripts for a neural network classifying 12-lead ECG recordings. *Replaces:* Cardiologist ECG reading services, AliveCor algorithms	ECG software developers and cardiology researchers	Consulting/implementation API/usage-based	• ECG classifier prototypes for telehealth startups • Arrhythmia research for cardiology labs • ECG model tuning for wearable makers	$5-15k per validation project *Effort:* High (Research code, clinical validation and regulation needed) ⚠ MIT ok; medical device regulation applies to clinical use
Eegsynth eegsynth/eegsynth ★ 413 · **GPL** GPL-3.0 · Tool · Fit 2/5	Converts real-time EEG into sound, music and visual effects. *Replaces:* Brainwave music apps, Muse-based music apps	music performers and neuroart creators	Premium plugins/add-ons Training/courses	• EEG-driven music for live performances • Brainwave visuals for art installations • EEG music workshops for festival organizers	Free; $100-300 per installation setup *Effort:* High (Needs EEG hardware and real-time tuning) ⚠ GPL-3.0: distributed software must ship source; EEG device brands are trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
NeuroKit.py neuropsychology/NeuroKit.py ★ 394 · Permissive MIT · Library · Fit 2/5	Python toolbox for statistics and processing of EEG, EDA, ECG and EMG signals. *Replaces:* MATLAB signal toolboxes, SPSS for signal statistics	psychology labs analyzing physiological data	Consulting/implementation Training/courses	• EDA analysis for psychology grad students • Statistical workshops for clinical psych labs • Signal pipelines for wellness app teams	Free library; $100-200/hr consulting *Effort:* Low (Python library, overlaps NeuroKit2 scope) ⚠ MIT ok; overlaps NeuroKit2; medical claims need review
DeepECG ismorphism/DeepECG ★ 290 · Permissive MIT · Model · Fit 2/5	Deep learning ECG classification programs based on ML and DL methods. *Replaces:* Cardiology AI platforms, heartbeat analytics services	ECG-analytics startups and research groups	Consulting/implementation API/usage-based	• ECG classification for wearable startups • Model evaluation for cardiology research groups • ECG analytics APIs for clinic software	Free code; $5-15k per model integration *Effort:* High (Research code, regulatory and data work) ⚠ MIT ok; medical device rules apply to diagnostic claims
Torch_ecg DeepPSP/torch_ecg ★ 274 · Permissive MIT · Library · Fit 2/5	PyTorch implementations of deep learning ECG models for research and benchmarking. *Replaces:* Cardiologist AI services, commercial ECG AI platforms	researchers building ECG deep learning models	Consulting/implementation Training/courses	• PyTorch ECG models for cardiology research labs • ECG deep learning workshops for data scientists • Benchmark studies for hospital AI teams	Free library; $150-250/hr consulting *Effort:* Medium (PyTorch library, research-grade models) ⚠ MIT ok; medical claims need regulatory review; check dataset terms
HeartyPatch patchinc/heartypatch ★ 150 · Check NOASSERTION · Hardware · Fit 2/5	Single lead ECG heart rate variability monitoring patch with ESP32 *Replaces:* AliveCor KardiaMobile, Apple Watch ECG, Zio patch	Researchers and fitness hobbyists	Hardware kits/assembly Training/courses Consulting/implementation	• ECG patch kits for sports science labs • HRV tracking for athletes • Biomedical teaching kits *Angle:* Sell ECG patch dev kits to health startups	$80-200 per patch *Effort:* Medium (Hardware project, medical claims restricted) ⚠ Custom license read first; ECG is regulated if medical

Model Trains, RC & Hobby · 12

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Inav INAVFlights/inav ★ 646 · GPL GPL-3.0 · Platform · Fit 3/5	Flight control firmware for multirotors, fixed-wing and navigation-capable drones. *Replaces:* ArduPilot, PX4, DJI flight controllers	drone builders and small UAV firms	Hardware kits/assembly Setup + support retainer	• Drone flight controllers for FPV racing shops • Navigation firmware for survey drone firms • Fixed-wing autopilots for agriculture drone services	$80-150 flight controller, support extra *Effort:* High (Flight-safety firmware, hardware-specific) ⚠ GPL-3.0: distributed firmware must ship source; drone regulation applies
Raven RavenLRS/raven ★ 173 · GPL GPL-3.0 · Hardware · Fit 3/5	Long-range radio link system for remote-controlled vehicles and drones. *Replaces:* TBS Crossfire, ExpressLRS, FrSky ACCESS	RC drone racers and long-range pilots	Hardware kits/assembly Premium plugins/add-ons	• Long-range RC links for FPV racers • Radio links for ag-drone operators • Telemetry kits for RC expedition teams	$60-120 receiver kit, firmware free *Effort:* High (Radio hardware, certification and frequency rules) ⚠ GPL-3.0: distributed firmware must ship source; radio rules vary by country
Shc neurobin/shc ★ 2.3k · GPL GPL-3.0 · Tool · Fit 2/5	Shell script compiler that turns bash scripts into binary executables. *Replaces:* Shell script packagers, commercial script obfuscators	sysadmins distributing internal scripts	Consulting/implementation Premium plugins/add-ons	• Compiled scripts for internal IT tools • Binary packaging for small MSP toolkits • Script packaging for vendor deployment kits	Free; $50-100 per packaging job *Effort:* Low (Simple tool, limited scope) ⚠ GPL-3.0: distributed binaries must ship source; compiled scripts are not real protection
Rc_Engine_Sound_ESP32 TheDIYGuy999/Rc_Engine_Sound_ESP32 ★ 463 · Check NONE · Hardware · Fit 2/5	ESP32 engine sound generator for RC vehicles with light control and multiple receiver protocols. *Replaces:* Phantom RC sound modules, Revolution Sound Systems	RC car and truck hobbyists	Hardware kits/assembly Premium plugins/add-ons	• Engine sound modules for RC truck builders • Sound kits for scale-model shops • Light and sound packs for RC events	$30-60 module, sound packs $5 *Effort:* Medium (Hardware plus sound assets, receiver compatibility) ⚠ NONE license: read first; sound assets may be copyrighted

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Qcell uazu/qcell ★ 394 · Permissive Apache-2.0 · Library · Fit 2/5	Rust library offering statically checked alternatives to RefCell and RwLock. *Replaces:* Standard Rust cell types, RwLock crates	Rust developers writing concurrent code	Consulting/implementation Training/courses	• Rust concurrency reviews for fintech teams • Rust training on safe cell patterns • Library integration for embedded Rust teams	Free library; $150-250/hr consulting *Effort:* Low (Rust library, small niche) ⚠ Apache-2.0 ok; Rust-specific, limited market
X-CTRL FASTSHIFT/X-CTRL ★ 269 · Permissive MIT · Hardware · Fit 2/5	Open-source model remote controller for RC vehicles and drones. *Replaces:* Radiomaster remotes, FrSky transmitters	RC pilots and model builders	Hardware kits/assembly Premium plugins/add-ons	• Custom transmitters for RC drone clubs • Remote kits for model-car racers • Controller builds for RC pilot schools	$80-150 kit, firmware free *Effort:* Medium (Hardware plus firmware, radio certification) ⚠ MIT ok; radio certification rules apply; FrSky and Radiomaster are trademarks
Archery orium/archery ★ 182 · Permissive MIT · Library · Fit 2/5	Rust library abstracting over the atomicity of reference-counting pointers. *Replaces:* Standard Rc and Arc types, Rust utility crates	Rust library authors	Consulting/implementation Training/courses	• Rust concurrency consulting for systems teams • Rust pointer training for library authors • Atomic pointer tools for embedded Rust	Free library; $150/hr consulting *Effort:* Low (Small Rust crate, specialist audience) ⚠ MIT ok; Rust-specific, very narrow market
Robak robaki-dev/robak ★ 173 · Check NOASSERTION · Hardware · Fit 2/5	DIY RC car build with open design files and build instructions. *Replaces:* Traxxas RC cars, Arrma RC trucks	RC hobbyists building their own car	Hardware kits/assembly Content/membership	• DIY RC car kits for makerspaces • Build guides for RC clubs • Robot car kits for STEM classrooms	$120-200 kit, guides free *Effort:* Medium (Mechanical and electronics kit assembly) ⚠ NOASSERTION license: read first; design file rights unclear
Resinator squeek502/resinator ★ 152 · Permissive 0BSD · Tool · Fit 2/5	Cross-platform compiler turning Windows .rc resource scripts into .res files. *Replaces:* Microsoft rc.exe, Visual Studio resource compilers	Windows developers building native apps	Consulting/implementation Training/courses	• Build tools for Windows app teams • Resource compiler support for game studios • Cross-platform build pipelines for C++ teams	Free; $150/hr build-tool consulting *Effort:* Low (Focused compiler tool, narrow use) ⚠ 0BSD license is permissive; Microsoft is a trademark
RC_Transmitter TheDIYGuy999/RC_Transmitter ★ 149 · Permissive MIT · Hardware · Fit 2/5	Arduino 2.4GHz and IR remote transmitter with OLED display for RC vehicles. *Replaces:* Radiomaster transmitters, FlySky remotes	RC hobbyists building custom transmitters	Hardware kits/assembly Premium plugins/add-ons	• Custom transmitters for RC club members • Kit remotes for RC school programs • OLED remotes for model-train operators	$50-90 kit, firmware free *Effort:* Medium (Hardware plus firmware, radio compliance) ⚠ MIT ok; radio regulations apply to transmitters; FlySky is a trademark
RP2040-Decoder gab-k/RP2040-Decoder ★ 131 · Check NOASSERTION · Hardware · Fit 2/5	Low-cost DIY DCC decoder for model railroad locomotives based on RP2040. *Replaces:* Lenz decoders, ESU decoders, Digitrax decoders	model railroad hobbyists and train shops	Hardware kits/assembly Setup + support retainer	• DCC decoder kits for model train clubs • Locomotive decoder installs for hobby shops • Decoder upgrades for train show exhibitors	$15-35 decoder, installs $20 *Effort:* Medium (Hardware plus firmware, DCC standards compliance) ⚠ NOASSERTION license: read first; DCC is an NMRA standard
RoverController jakkra/RoverController ★ 127 · Permissive MIT · Tool · Fit 2/5	LoRa and WiFi remote controller for driving a custom rover. *Replaces:* Commercial RC controllers, Spektrum remotes	rover builders and robotics hobbyists	Hardware kits/assembly Premium plugins/add-ons	• LoRa controllers for rover club teams • Remote control kits for STEM competitions • Long-range controllers for survey robot builders	$40-80 kit, software free *Effort:* Medium (Hardware-specific, LoRa radio rules) ⚠ MIT ok; LoRa radio use is regulated by country

ODrive odriverobotics/ODrive ★ 3.8k · Permissive MIT · Hardware · Fit 4/5	High performance brushless motor controller firmware and hardware for robotics *Replaces:* Kelly controllers, Elmo drives, Maxon controllers	Robotics builders and automation startups	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Motor controllers for robot arms • CNC spindle drive kits • Servo drives for camera rigs *Angle:* Sell servo motor driver boards to robotics builders	$100-250 per controller *Effort:* Medium (Hardware manufacturing and tuning support) ⚠ MIT; ODrive trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
moteus mjbots/moteus ★ 1.4k · **Permissive** Apache-2.0 · Hardware · Fit 4/5	Brushless DC motor controller with CAN-FD for robotics and actuators *Replaces:* Maxon EPOS, Elmo drives, ODrive	Robotics developers	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Controllers for legged robot teams • Actuator kits for exoskeleton labs • Servo drives for research robots *Angle:* Sell high-torque actuators for legged robots	$100-200 per controller *Effort:* Medium (Hardware design and firmware, needs production) ⚠ Apache-2.0; mjbots trademark
SimpleFOC simplefoc/Arduino-FOC ★ 3.1k · **Permissive** MIT · Library · Fit 3/5	Arduino library for field oriented control of BLDC and stepper motors *Replaces:* Maxon controllers, ODrive, Elmo drives	Robotics hobbyists and educators	Hardware kits/assembly Training/courses Consulting/implementation	• FOC driver boards for robotics clubs • Gimbal motor kits for camera makers • Smart knob kits for makers *Angle:* Sell gimbal-motor FOC driver boards and kits	$25-80 per driver board *Effort:* Low (Library, simple board packaging) ⚠ MIT; SimpleFOC name
Arduino-SimpleFOCShield simplefoc/Arduino-SimpleFOCShield ★ 634 · **Permissive** MIT · Hardware · Fit 3/5	Arduino shield for running gimbal BLDC motors with the SimpleFOC algorithm. *Replaces:* ODrive, Moteus motor controllers	gimbal and robotics hobbyists	Hardware kits/assembly Premium plugins/add-ons	• Gimbal controllers for camera rig makers • Shields for robotics classes • BLDC drivers for small robotics startups	$40-70 shield, library free *Effort:* Low (Mature shield, Arduino-based) ⚠ MIT ok; Arduino and SimpleFOC names are trademarks; hardware certification
XESC ClemensElflein/xESC ★ 378 · **Check** NOASSERTION · Hardware · Fit 3/5	Low-cost electronic speed controller design for sensored brushless DC motors. *Replaces:* VESC, Hobbywing ESCs	robotics builders and electric skateboard makers	Hardware kits/assembly Premium plugins/add-ons	• ESC boards for electric skateboard makers • Motor drivers for mobile robot kits • ESC builds for small robot-arm startups	$60-120 board, firmware free *Effort:* Medium (Hardware design, power electronics safety) ⚠ NOASSERTION license: read first; high-current hardware safety liability
Tinymovr motionlayer/Tinymovr ★ 322 · **GPL** GPL-3.0 · Hardware · Fit 3/5	Compact brushless motor controller with FOC, absolute angle sensor and CAN bus. *Replaces:* ODrive, Moteus controllers, Maxon EPOS	robotics firms building joint actuators	Hardware kits/assembly Consulting/implementation	• Joint controllers for small robot-arm makers • CAN motor drivers for drone repair shops • Actuator modules for research robot labs	$60-120 module, support extra *Effort:* Medium (Hardware plus firmware, CAN integration) ⚠ GPL-3.0: distributed firmware must ship source; motor safety certification
ESCape32 neoxic/ESCape32 ★ 320 · **GPL** GPL-3.0 · Tool · Fit 3/5	BLDC motor control firmware for 32-bit electronic speed controllers. *Replaces:* BLHeli_32, Bluejay ESC firmware	drone builders and RC ESC makers	Hardware kits/assembly Premium plugins/add-ons	• ESC firmware for FPV drone shops • Custom ESC builds for RC racing teams • Firmware tuning for e-bike ESC makers	$30-60 ESC, firmware free *Effort:* Medium (Firmware plus ESC hardware, flight safety) ⚠ GPL-3.0: distributed firmware must ship source; drone regulation applies
Sapog PX4/sapog ★ 225 · **Permissive** BSD-3-Clause · Tool · Fit 3/5	Advanced multiplatform ESC firmware for brushless motors in drones and robots. *Replaces:* BLHeli firmware, Holybro ESC firmware	drone manufacturers and ESC makers	Hardware kits/assembly Consulting/implementation	• ESC firmware for small drone makers • Motor controller integration for UAV startups • ESC tuning for drone service shops	Free firmware; $100-200/hr integration *Effort:* Medium (Firmware plus hardware, PX4-specific) ⚠ BSD-3-Clause ok; PX4 is a Dronecode trademark; flight-safety liability
Mujoco_mpc google-deepmind/mujoco_mpc ★ 1.8k · **Permissive** Apache-2.0 · Framework · Fit 2/5	Real-time robot behavior synthesis with MuJoCo physics using predictive control. *Replaces:* Commercial robot simulation suites, Drake control tools	robotics researchers prototyping control policies	Consulting/implementation Training/courses	• Control prototyping for robotics startups • Predictive control courses for robotics grad students • Simulation tuning for legged-robot labs	Free; $150-250/hr simulation consulting *Effort:* High (Research framework, needs robotics expertise) ⚠ Apache-2.0 ok; MuJoCo and DeepMind are trademarks
SguanFOC_Library Sguan-ZhouQing/SguanFOC_Library ★ 1.1k · **Permissive** MIT · Library · Fit 2/5	Field-oriented control library for sensored and sensorless PMSM motors on embedded platforms. *Replaces:* Commercial FOC libraries, TI motor SDKs	motor-control engineers building drives	Hardware kits/assembly Consulting/implementation	• FOC firmware for e-bike makers • Motor-control integration for drone ESC startups • Drive tuning for small industrial automation firms	Free library; $100-200/hr consulting *Effort:* Medium (Embedded motor control, hardware-specific tuning) ⚠ MIT ok; docs mostly Chinese; motor safety certification needed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
MiniFOC ZhuYanzhen1/miniFOC ★ 1.1k · AGPL AGPL-3.0 · Hardware · Fit 2/5	Low-cost FOC brushless motor control scheme for DIY builds on cheap hardware. *Replaces:* Commercial BLDC drivers, ODrive controllers	DIY robotics and drone builders	Hardware kits/assembly Consulting/implementation	• Cheap BLDC controllers for robot kit makers • FOC drives for drone repair shops • Motor kits for STEM robotics classes	$20-40 board, firmware free *Effort:* Medium (Hardware plus firmware, electrical safety) ⚠ AGPL-3.0: hosted modifications must publish source; motor electrical safety
FPGA-FOC WangXuan95/FPGA-FOC ★ 995 · GPL GPL-3.0 · Tool · Fit 2/5	FPGA-based field-oriented controller for driving BLDC and PMSM motors. *Replaces:* Commercial FOC IP cores, Xilinx motor control kits	FPGA engineers building motor drives	Consulting/implementation Training/courses	• FPGA motor-control IP for drone startups • FOC courses for FPGA engineers • Custom motor drives for small industrial OEMs	Free code; $150-250/hr consulting *Effort:* High (FPGA design expertise, board-specific) ⚠ GPL-3.0: distributed designs must ship source; FPGA vendor tool terms
Differential-robot-wrist Source-Robotics/Differential-robot-wrist ★ 370 · Permissive MIT · Hardware · Fit 2/5	3D-printed differential wrist mechanism for robot arms, driven by two gimbal motors. *Replaces:* Commercial robot wrists, harmonic drive wrists	robot arm builders and research labs	Hardware kits/assembly Consulting/implementation	• Printed wrists for robot-arm hobbyists • Custom wrist modules for research labs • Low-cost wrists for education robotics	$80-150 kit, STL files free *Effort:* Low (Printed mechanism, reusable design) ⚠ MIT ok; Spectral Micro is a trademark; print tolerances vary
IBLDC Staok/iBLDC ★ 330 · AGPL AGPL-3.0 · Content · Fit 2/5	Compendium of BLDC and PMSM hardware and software notes spanning power levels. *Replaces:* Motor-control courses, vendor motor docs	motor-control engineers and students	Training/courses Content/membership	• BLDC design training for hobby motor builders • PMSM reference guides for OEM engineers • Motor-control course notes for technical schools	Free notes; $200 course bundle *Effort:* Low (Knowledge compendium, content-heavy) ⚠ AGPL-3.0: hosted modifications must publish source; mostly Chinese-language
Ironless-QDD-Actuator CKraft11/Ironless-QDD-Actuator ★ 304 · Check NONE · Hardware · Fit 2/5	Low-cost ironless-rotor quasi-direct-drive actuator, 3D-printed. *Replaces:* Commercial QDD actuators, Unitree joints	robotics researchers building legged robots	Hardware kits/assembly Consulting/implementation	• Low-cost actuators for quadruped labs • Printed joints for education robotics • Actuator builds for robot startups	$150-300 actuator kit, design free *Effort:* High (Mechanical and motor design, precision needed) ⚠ NONE license: read first; high-torque actuator safety risk
Hpm_sdk hpmicro/hpm_sdk ★ 251 · Permissive BSD-3-Clause · Framework · Fit 2/5	SDK for HPMicro RISC-V microcontrollers with drivers and examples. *Replaces:* STM32Cube, NXP MCUXpresso SDK	embedded engineers using RISC-V MCUs	Consulting/implementation Training/courses	• Firmware SDK support for RISC-V startups • Embedded training for HPMicro users • Porting services for industrial IoT firms	Free SDK; $150-250/hr support *Effort:* Medium (Vendor SDK, chip-specific) ⚠ BSD-3-Clause ok; no outside PRs accepted; forks need own upkeep
Winder aotenjo-xyz/winder ★ 247 · Permissive MIT · Hardware · Fit 2/5	BLDC motor winding machine design for building motor coils. *Replaces:* Commercial motor winding machines, Pfeiffer winding systems	motor repair shops and EV motor builders	Hardware kits/assembly Consulting/implementation	• Motor rewinding for e-bike repair shops • Coil winders for drone motor builders • Winding equipment for small motor startups	$400-900 machine, training $150 *Effort:* High (Mechanical machine build, safety and QC) ⚠ MIT ok; winding machines need electrical and mechanical safety

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LMN-3 FundamentalFrequency/LMN-3-Build-Guide ★ 1.1k · GPL GPL-3.0 · Hardware · Fit 3/5	Build guide for LMN-3 portable Linux music workstation *Replaces:* Teenage Engineering OP-1, Akai MPC, Elektron boxes	Music makers and hardware tinkerers	Hardware kits/assembly Content/membership Training/courses	• LMN-3 kits for music hackers • Pocket music workstation for touring DJs • Build workshops for makerspaces *Angle:* Sell portable DAW groovebox kits	$300-700 per kit *Effort:* Medium (Complex build with custom Linux, parts sourcing) ⚠ GPL-3.0; LMN-3 name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenDeck shanteacontrols/OpenDeck ★ 960 · **Permissive** Apache-2.0 · Platform · Fit 3/5	MIDI and OSC controller platform on Zephyr RTOS with config tool *Replaces:* Behringer controllers, Akai APC, Novation Launchpad	Controller builders and live musicians	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Custom MIDI controllers for DJs • Button boxes for sim racers • Stage controllers for theater productions *Angle:* Build custom MIDI controllers for DJs	$80-300 per controller *Effort:* Medium (Firmware platform with boards, needs enclosures) ⚠ Apache-2.0; OpenDeck name
Bela BelaPlatform/Bela ★ 540 · **Check** NOASSERTION · Platform · Fit 3/5	Ultra low latency audio and sensor processing platform with browser IDE *Replaces:* Teensy audio shield, Raspberry Pi audio boards, Kyma systems	Digital musical instrument builders	Hardware kits/assembly Training/courses Consulting/implementation	• Interactive instruments for museum installations • Audio embedded prototyping for universities • Custom synth modules for boutique makers *Angle:* Build interactive sound installations for museums	$150-300 per board, $600 workshops *Effort:* Medium (Needs BeagleBone hardware and Bela board) ⚠ Check license; Bela trademark
16n Faderbank 16n-faderbank/16n ★ 383 · **Check** NOASSERTION · Hardware · Fit 3/5	Sixteen-fader MIDI USB controller with CV and I2C outputs *Replaces:* Behringer BCF2000, Korg nanoKONTROL, Faderfox	Synth and electronic musicians	Hardware kits/assembly Content/membership Marketplace	• Fader controllers for modular synth players • Mixing surfaces for podcasters • Lighting fader panels for DJs *Angle:* Sell MIDI fader controllers	$120-250 per kit *Effort:* Low (Complete design, kit-friendly) ⚠ Check license; 16n name
OpenTheremin V4 GaudiLabs/OpenThereminV4 ★ 249 · **GPL** GPL-3.0 · Hardware · Fit 3/5	Open source theremin instrument with firmware and hardware *Replaces:* Moog Theremini, Moog Etherwave, Roland instruments	Electronic musicians and educators	Hardware kits/assembly Training/courses Content/membership	• Theremin kits for music classes • Assembled theremins for synth fans • Music tech workshops for makerspaces *Angle:* Sell theremin kits and workshops	$200-400 per kit *Effort:* Low (Complete design, kits simple) ⚠ GPL-3.0; OpenTheremin name
Pymeasure pymeasure/pymeasure ★ 794 · **Permissive** MIT · Library · Fit 2/5	Python library for controlling lab instruments, running experiments and live plotting. *Replaces:* LabVIEW instrument drivers, National Instruments software	physics labs and instrument engineers	Consulting/implementation Training/courses	• Experiment automation for university physics labs • Instrument control courses for grad students • Lab automation for materials-testing startups	Free library; $150-250/hr consulting *Effort:* Medium (Python library, instrument-specific drivers) ⚠ MIT ok; instrument vendor names are trademarks
Orchestra jeaye/orchestra ★ 624 · **Weak copyleft** EPL-1.0 · Library · Fit 2/5	Clojure library for instrumenting clojure.spec functions and data checks. *Replaces:* Clojure spec tooling, Malli instrumentation	Clojure developers writing spec-checked code	Consulting/implementation Training/courses	• Clojure spec training for backend teams • Instrumentation for Clojure fintech code • Spec audits for small Clojure shops	Free library; $150/hr consulting *Effort:* Low (Small Clojure library, niche audience) ⚠ EPL-1.0: weak copyleft; Clojure is a trademark of its creators
Tuitar orhun/tuitar ★ 533 · **Permissive** Apache-2.0 · Hardware · Fit 2/5	Portable guitar training tool and DIY kit. *Replaces:* Fender Tone, Yousician, guitar tuner apps	guitar students and music teachers	Hardware kits/assembly Training/courses	• Guitar training kits for music schools • DIY guitar tuners for maker classrooms • Practice devices for beginner guitar teachers	$40-70 kit, training free *Effort:* Medium (Hardware kit plus software, assembly support) ⚠ Apache-2.0 ok; Fender and Yousician are trademarks
Dx7-synth-js mmontag/dx7-synth-js ★ 335 · **Check** NOASSERTION · Tool · Fit 2/5	JavaScript implementation of the Yamaha DX7 synthesizer that runs in the browser. *Replaces:* Yamaha DX7 hardware, Native Instruments FM8	synth hobbyists and browser music apps	Premium plugins/add-ons Mobile app on top	• Browser DX7 emulations for music educators • FM synth plugins for web music apps • Retro sound packs for indie game studios	Free; $5-15 per sound bank *Effort:* Low (Single-synth emulation, mature code) ⚠ NOASSERTION license: read first; Yamaha DX7 is a trademark
R_e_c_u_r cyberboy666/r_e_c_u_r ★ 328 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Open DIY Python and Raspberry Pi video sampler for creating video loops. *Replaces:* Akai video samplers, Teenage Engineering gear	VJs and live-performance artists	Hardware kits/assembly Premium plugins/add-ons	• DIY video samplers for VJ workshops • Pi video loopers for art galleries • Live video kits for festival collectives	$80-150 kit, software free *Effort:* Medium (Pi hardware plus video software setup) ⚠ GPL-3.0: distributed code must ship source; Raspberry Pi is a trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
HelloDrum RyoKosaka/HelloDrum-arduino-Library ★ 312 · Permissive MIT · Library · Fit 2/5	Arduino library for building electronic drums with piezo sensors *Replaces:* Roland V-Drums, Alesis drum kits, Yamaha DTX	DIY drummers and drum builders	Hardware kits/assembly Content/membership Training/courses	• E-drum pad kits for DIY drummers • Practice drum pads for students • Custom drum triggers for churches *Angle:* Build and sell electronic drum kits from mesh pads	$80-250 per drum kit *Effort:* Low (Library plus parts, kit-friendly) ⚠ MIT; HelloDrum name
VISAInstrument cnxy/VISAInstrument ★ 223 · GPL GPL-2.0 · Library · Fit 2/5	C# library for instrument programming over VISA with RS232, USB, GPIB and LAN. *Replaces:* NI-VISA, Keysight IO Libraries	instrument programmers in test labs	Consulting/implementation Training/courses	• VISA driver development for test-lab integrators • C# instrument training for test engineers • Automated test scripts for electronics makers	Free library; $120-200/hr consulting *Effort:* Medium (Instrument-specific drivers, Chinese docs) ⚠ GPL-2.0: distributed code must ship source; NI-VISA is a trademark
PyLabLib AlexShkarin/pyLabLib ★ 213 · GPL GPL-3.0 · Library · Fit 2/5	Python package for device control and experiment automation in labs. *Replaces:* LabVIEW, Keysight VEE, Labber	lab researchers automating experiments	Consulting/implementation Training/courses	• Experiment automation for photonics labs • Device control training for grad students • Test-stand software for optics startups	Free library; $150-250/hr consulting *Effort:* Medium (Device drivers per instrument, lab-specific) ⚠ GPL-3.0: distributed code must ship source; instrument vendor trademarks
108 hatsumatsu/108 ★ 213 · Permissive MIT · App · Fit 2/5	Minimal beat machine played in the browser. *Replaces:* Ableton Live drum racks, Soundtrap	music students and beat-making hobbyists	Premium plugins/add-ons Mobile app on top	• Browser beat tools for music classroom teachers • Drum pattern toys for kids' music apps • Sample kits for beat-maker communities	Free; $3-5 per sample pack *Effort:* Low (Small browser app, limited scope) ⚠ MIT ok; limited feature set; sample licenses separate
Trashed basecamp/trashed ★ 193 · Permissive MIT · Library · Fit 2/5	Ruby gem sending request time, GC and object metrics to StatsD. *Replaces:* Datadog agent, New Relic Ruby agent	Rails teams monitoring app performance	Consulting/implementation Training/courses	• StatsD setup for Rails agencies • Ruby performance monitoring for legacy Rails apps • Metrics training for backend developers	Free gem; $150/hr consulting *Effort:* Low (Old Ruby and Rails support, legacy code) ⚠ MIT ok; Basecamp is a trademark; legacy Rails only
Web-drum-sequencer stufreen/web-drum-sequencer ★ 173 · Check NONE · App · Fit 2/5	Browser drum machine and sequencer built with Web Audio, React and Redux. *Replaces:* Ableton Live, Soundtrap, BandLab	music students and browser music tool users	Premium plugins/add-ons Mobile app on top	• Drum sequencers for music classroom apps • Web beat tools for podcast intro makers • Sequencer widgets for educational music sites	Free; $5-10 premium sound kits *Effort:* Low (Small web app, React-based) ⚠ NONE license: read first; sample audio licenses unclear
1Keys KilledByAPixel/1Keys ★ 154 · GPL GPL-3.0 · App · Fit 2/5	One-kilobyte JavaScript piano playable in the browser. *Replaces:* Online piano apps, Simply Piano	music learners and creative coders	Content/membership Premium plugins/add-ons	• Piano demo embeds for music teacher sites • Keyboard learning widgets for kids' apps • Creative coding exhibits for museums	Free; $50-150 custom embed *Effort:* Low (Tiny demo, little product depth) ⚠ GPL-3.0: distributed code must ship source; minimal product value
Hexpress jmiskovic/hexpress ★ 138 · Permissive Unlicense · App · Fit 2/5	Touchscreen virtual music instrument written in Lua. *Replaces:* Lemur instrument apps, TouchOSC	touchscreen musicians and music tech teachers	Mobile app on top Premium plugins/add-ons	• Touch instruments for music therapy studios • Lua-based instruments for maker music classes • Custom touch controllers for live performance artists	Free; $2-4 app store price *Effort:* Medium (Lua runtime, touch UI work) ⚠ Unlicense: public domain; Lua is a trademark of PUC-Rio
Fmit gillesdegottex/fmit ★ 135 · GPL GPL-2.0 · App · Fit 2/5	Free music instrument tuner application for tuning instruments accurately. *Replaces:* Peterson Strobosoft, commercial tuner apps	music teachers and instrument repair shops	Mobile app on top Premium plugins/add-ons	• Tuning tools for school band programs • Instrument tuning for repair shops • Tuner plugins for music teacher apps	Free; $2-4 pro tuning app *Effort:* Low (Single-purpose tuner, mature) ⚠ GPL-2.0: distributed app must ship source; tuner brand names are trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Script bitfield/script ★ 7.0k · Permissive MIT · Library · Fit 2/5	Go library for writing shell-like scripts in Go with pipes and helpers. *Replaces:* Bash scripting, Python subprocess tooling	Go developers writing system scripts	Consulting/implementation Training/courses	• Go script tooling for DevOps teams • Shell-replacement courses for Go developers • Automation scripts for ops consultancies	Free library; $120-200/hr consulting *Effort:* Low (Go library, mature and simple) ⚠ MIT ok; small library, developer-only audience
Catj soheilpro/catj ★ 1.3k · Permissive MIT · Tool · Fit 2/5	Command-line tool that displays JSON files in a flat, readable format. *Replaces:* jq, JSON viewers, Postman JSON tools	developers reading JSON logs and APIs	Premium plugins/add-ons Consulting/implementation	• JSON viewers for API support teams • Log readers for DevOps consultancies • JSON tooling for data engineers	Free; $5-10 per team license *Effort:* Low (Small CLI tool, narrow use) ⚠ MIT ok; small utility, limited differentiation
Mailcat sharsil/mailcat ★ 957 · Permissive Apache-2.0 · Tool · Fit 2/5	Tool that finds existing email addresses from nicknames using API and SMTP checks. *Replaces:* Hunter.io, Snov.io, Voila Norbert	sales teams and recruiters verifying contacts	Vertical SaaS API/usage-based	• Email verification for opt-in newsletter lists • Address hygiene for nonprofit donor lists • Bounce reduction for ecommerce marketers	$29-99/mo per seat *Effort:* High (Legal and deliverability risk, SMTP probing) ⚠ Apache-2.0 ok; GDPR and anti-spam laws apply to contact lookup
Robokitty rachelnicole/robokitty ★ 771 · GPL GPL-2.0 · Hardware · Fit 2/5	Node-powered DIY cat feeder that also works for dogs *Replaces:* Petnet feeder, Sure Petcare Feeder Connect, Cat Mate	Pet owners and makers	Hardware kits/assembly Content/membership Local service business	• Cat feeder kits for pet sitters • Teaching kits for kids robotics • Rescue shelter feeders *Angle:* Sell DIY pet feeder kits	$50-100 per kit *Effort:* Low (Simple build, little ongoing maintenance) ⚠ GPL-2.0; food safety for pets
Intel-cmt-cat intel/intel-cmt-cat ★ 755 · Check NOASSERTION · Tool · Fit 2/5	User-space software for Intel Resource Director Technology cache and memory monitoring. *Replaces:* Intel vendor tools, cloud cache monitoring suites	data center engineers managing cache allocation	Consulting/implementation Setup + support retainer	• Cache QoS setup for telecom edge operators • Resource tuning for HPC clusters • RDT support for data center consultants	Free; $150-250/hr consulting *Effort:* Medium (Intel hardware-specific, low-level tuning) ⚠ NOASSERTION license: read first; Intel is a trademark
Ngrrram wintermute-cell/ngrrram ★ 674 · GPL GPL-3.0 · App · Fit 2/5	Terminal app that helps you type faster and learn new keyboard layouts. *Replaces:* Typing tutor apps, Keybr, TypingClub	typists and students learning keyboard layouts	Premium plugins/add-ons Mobile app on top	• Layout training for keyboard shop customers • Typing courses for school computing classes • Ergonomic layout training for keyboard buyers	Free; $4-8 per layout pack *Effort:* Low (Terminal app, small user base) ⚠ GPL-3.0: distributed app must ship source; keep it lean
CAT marcinbor85/cAT ★ 494 · Permissive MIT · Library · Fit 2/5	Plain C library for parsing AT commands used to control modems and cellular modules. *Replaces:* Qualcomm AT tools, Quectel cellular SDKs	embedded engineers integrating cellular modems	Consulting/implementation Training/courses	• AT-command firmware for IoT modem integrators • Cellular module training for embedded teams • Modem parsing for smart-meter makers	Free library; $150/hr consulting *Effort:* Low (Small C library, specialized modem use) ⚠ MIT ok; AT command conventions are standard, modem vendor docs apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cat-generator aleju/cat-generator ★ 375 · Permissive MIT · Model · Fit 2/5	Generates cat images with neural networks trained on cat photos. *Replaces:* Stock cat photo sites, AI image generators	pet-content creators and meme makers	API/usage-based Premium plugins/add-ons	• Cat image generation for pet-meme creators • Synthetic cat photos for vet-app mockups • Cat art generators for gift shops	Free code; $0.02-0.05 per image *Effort:* High (Research model, dataset and quality work) ⚠ MIT ok; training images may carry copyright; check dataset terms
NekoCrypt WJZ-P/NekoCrypt ★ 368 · GPL GPL-2.0 · App · Fit 2/5	Android app encrypting text, images and files for private messaging. *Replaces:* Signal, Telegram secret chats, Cryptomator	privacy-conscious Android users	Mobile app on top Premium plugins/add-ons	• Encrypted notes apps for journalists • Private file sharing for small legal teams • Encrypted chat for activists	Free; $2-5 one-time pro app *Effort:* High (Crypto review needed before trust claims) ⚠ GPL-2.0: distributed app must ship source; crypto audit needed before sale
Surepy benleb/surepy ★ 92 · Permissive MIT · Library · Fit 2/5	Python library and CLI to monitor Sure Petcare pet doors, cat flap and feeder *Replaces:* Sure Petcare app, Petnet app	Smart home hobbyists	Setup + support retainer Premium plugins/add-ons Consulting/implementation	• Pet door monitoring for Home Assistant • Dashboards for multi-cat homes • Pet visit alerts for sitters *Angle:* Install smart pet door integrations	$3-8/mo hosted alerts *Effort:* Low (Depends on unofficial Sure Petcare API) ⚠ MIT; Sure Petcare trademark; API may change
Petnet Feeder Service feedernet/petnet-feeder-service ★ 84 · Permissive MIT · Platform · Fit 2/5	Replacement service for the discontinued Petnet v2 smart feeder *Replaces:* Petnet SmartFeeder, Sure Petcare Feeder, Petlibro	Owners of orphaned Petnet feeders	Managed hosting Setup + support retainer Hardware kits/assembly	• Hosted service for stranded Petnet feeders • Retrofit boards for dead feeders • Shelter feeders with schedule dashboards *Angle:* Revive bricked Petnet feeders as a service	$3-6/mo per feeder *Effort:* Medium (Tied to one discontinued product) ⚠ MIT; Petnet trademark
CatGenius CatGenius/catgenius ★ 64 · Check NONE · Hardware · Fit 2/5	Alternative firmware for CatGenie 120 self-washing litter box *Replaces:* CatGenie, Litter-Robot, PetSafe ScoopFree	CatGenie owners	Hardware kits/assembly Setup + support retainer Local service business	• Firmware swap service for CatGenie owners • Replacement controllers for discontinued units • Refurbished CatGenie machines *Angle:* Repair and upgrade CatGenie litter boxes	$60-150 per upgrade *Effort:* Low (Single product firmware, niche) ⚠ No license stated; CatGenie trademark
Multisensor Cat Feeder Molecule5537/diy-multisensor-cat-feeder ★ 60 · Check NONE · Hardware · Fit 2/5	DIY cat feeder with multiple sensors using ESPHome, Home Assistant and Node-RED *Replaces:* Petlibro, Sure Petcare Feeder Connect, Wopet	Home Assistant pet owners	Hardware kits/assembly Setup + support retainer Content/membership	• Home Assistant feeder kits • Multi-cat feeder automation • Pet weight tracking for aging cats *Angle:* Sell smart cat feeders with weight sensing	$70-140 per kit *Effort:* Low (Hobby build using common parts) ⚠ No license stated
Cloud Cat Feeder 3D Models piotrwest/TheUltimateCloudCatFeeder-3DModels ★ 31 · Permissive Apache-2.0 · Hardware · Fit 2/5	3D printed cat feeder with cloud dashboard that weighs the cat and food *Replaces:* Petlibro, Sure Petcare Feeder, Whisker Feeder-Robot	Pet owners and makers	Hardware kits/assembly Content/membership Mobile app on top	• Cat diet feeders for overweight cats • Multi-pet feeders for shelters • Cat weight logs for vet clinics *Angle:* Print and sell automated cat feeders	$80-160 per kit *Effort:* Medium (3D models only, software elsewhere) ⚠ Apache-2.0; pet food safety

Ampscan abel-research/ampscan ★ 25 · Permissive MIT · Library · Fit 2/5	Python package analyzing digitised surface scans for prosthetics and orthotics. *Replaces:* Geomagic scan analysis, Artec analysis tools	prosthetists and orthotic clinics	Consulting/implementation Training/courses	• Scan analysis for orthotic clinics • Prosthetic fit reviews for rehab services • Scan training for P&O students	Free library; $150-300 per clinic analysis *Effort:* Medium (Clinical-adjacent, needs validation) ⚠ MIT ok; clinical use needs P&O validation and regulation
X-Limb MelbourneUniHRL/X-Limb ★ 23 · Check NOASSERTION · Hardware · Fit 2/5	3D printed soft robotic prosthetic hand with multi-articulating capabilities *Replaces:* Ottobock bebionic, Open Bionics Hero Arm, Touch Bionics	Prosthetics researchers and clinics	Hardware kits/assembly Consulting/implementation Local service business	• Research prosthetic hands for universities • Low-cost hands for charity clinics • Soft robotic grippers for labs *Angle:* Print soft prosthetic hands fitted locally; NC terms in repo, license before selling	$300-1500 per hand *Effort:* High (Research design, medical regulation applies) ⚠ Check license; medical device regulation
SuperHouse WMC SuperHouse/WMC ★ 10 · Check NONE · Hardware · Fit 2/5	Open source wheelchair control system motor drive module with CAN bus *Replaces:* Permobil controls, Invacare controllers, Curtis controllers	Disability tech developers	Consulting/implementation Hardware kits/assembly	• Custom power wheelchair controllers • Motor drive modules for assistive devices • Control retrofits for mobility scooters *Angle:* Build wheelchair motor controller retrofits	$300-900 per module *Effort:* High (Safety-critical, medical device regulation) ⚠ No license stated; medical device regulation

Robotics & Robot Arms · 38

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LeRobot huggingface/lerobot ★ 28.7k · Permissive Apache-2.0 · Framework · Fit 4/5	Hugging Face robotics library with models, datasets and tools for real-world robot learning *Replaces:* Boston Dynamics software, Nvidia Isaac, Intrinsic Flowstate	Robotics labs and startups	Consulting/implementation Training/courses Hardware kits/assembly	• Robot learning labs for universities • Kitted SO-101 arms with LeRobot setup • Data collection service for robot startups *Angle:* Sell teleoperation arm kits with training data collection service	$2k-10k per lab project *Effort:* Medium (Python library, active, hardware required) ⚠ Apache-2.0; Hugging Face trademark
Open-source-rover nasa-jpl/open-source-rover ★ 9.8k · Permissive Apache-2.0 · Hardware · Fit 4/5	Build-it-yourself six-wheel rover based on Mars rover designs, open hardware. *Replaces:* Lego Mindstorms rovers, VEX robotics kits	STEM educators and robotics clubs	Hardware kits/assembly Training/courses	• Rover kits for middle school robotics • Mars rover courses for university outreach • Rover builds for science fair clubs	$300-600 kit, course $150 *Effort:* Medium (Mechanical build, parts sourcing and assembly) ⚠ Apache-2.0 ok; NASA and JPL names need approval; rover IP
SO-ARM100 TheRobotStudio/SO-ARM100 ★ 8.0k · Permissive Apache-2.0 · Hardware · Fit 4/5	Standard Open Arm 100 low-cost 3D printable robot arm for learning robotics *Replaces:* UFactory xArm, Universal Robots UR3, Niryo Ned	Robotics students and AI labs	Hardware kits/assembly Training/courses Consulting/implementation	• SO-101 arm kits for schools • Teleoperation data collection arms • Assembly service for AI labs *Angle:* Sell assembled low-cost robot arms for AI research labs	$200-500 per arm kit *Effort:* Low (Design and BOM open, kit packaging easy) ⚠ Apache-2.0; SO-ARM name
Petoi OpenCat PetoiCamp/OpenCat-Quadruped-Robot ★ 5.5k · Permissive MIT · Hardware · Fit 4/5	Open source quadruped robot pet framework for building Boston Dynamics-style four-legged robots *Replaces:* Boston Dynamics Spot, Unitree Go2, Sony Aibo	Educators, hobbyists and STEM schools	Hardware kits/assembly Training/courses White-label reseller	• Robot dog kits for schools • Coding robot classes for kids • Robotics club kits for libraries *Angle:* Sell robot pet kits and coding workshops	$200-400 per robot *Effort:* Medium (Petoi sells kits already, market exists) ⚠ MIT; Petoi and OpenCat names
PAROL6 Source-Robotics/PAROL6-Desktop-robot-arm ★ 3.4k · Check CERN-OHL-S-2.0 · Hardware · Fit 4/5	Open source 3D printed 6-axis desktop robot arm with BOM, STL, firmware and guide *Replaces:* UFactory uArm, Dobot Magician, Niryo Ned	Makers, schools and small automation shops	Hardware kits/assembly Training/courses Consulting/implementation	• Desktop arm kits for engineering classrooms • Pick-and-place for small workshops • Assembly service for makers *Angle:* Sell desktop 6-axis arms for light automation	$600-1500 per kit *Effort:* Medium (Well documented, share-alike hardware) ⚠ CERN-OHL-S share-alike; PAROL6 name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
TurtleBot3 ROBOTIS-GIT/turtlebot3 ★ 2.1k · **Permissive** Apache-2.0 · Hardware · Fit 4/5	ROS packages for TurtleBot3 small educational mobile robot *Replaces:* iRobot Create 3, Clearpath Jackal, Husarion ROSbot	Universities and robotics courses	Hardware kits/assembly Training/courses Consulting/implementation	• ROS course kits for universities • Warehouse robot demos for logistics firms • Robotics lab setups for colleges *Angle:* Sell mobile robot platforms to universities	$1k-2k per robot *Effort:* Medium (Software for ROBOTIS robot, kits sold by ROBOTIS) ⚠ Apache-2.0; TurtleBot trademark
Openpilot commaai/openpilot ★ 64.1k · **Permissive** MIT · Platform · Fit 3/5	Operating system upgrading driver-assistance features on 300+ supported cars. *Replaces:* Tesla Autopilot, GM Super Cruise	car owners wanting open driver assistance	Hardware kits/assembly Setup + support retainer	• Driver-assist kits for independent car enthusiasts • Installation services for fleet trucks • Open assist for classic car shops	$500-1000 hardware kit, install $300 *Effort:* High (Safety-critical, vehicle-specific, regulation heavy) ⚠ MIT ok; comma.ai trademark; vehicle safety regulation may apply
Rerun rerun-io/rerun ★ 11.7k · **Permissive** Apache-2.0 · Platform · Fit 3/5	Visualization and streaming platform for multimodal robotics and sensor data. *Replaces:* Foxglove Studio, Weights & Biases, RViz	robotics teams visualizing sensor logs	Managed hosting Setup + support retainer	• Hosted sensor-log viewers for robotics startups • Visualization setups for autonomous-vehicle labs • Data review tools for drone survey firms	Free core; $200-800/mo managed hosting *Effort:* High (Platform with SDKs, needs integration work) ⚠ Apache-2.0 ok; Rerun is a company brand, check trademark
XLeRobot Vector-Wangel/XLeRobot ★ 5.7k · **Permissive** Apache-2.0 · Hardware · Fit 3/5	Practical dual-arm mobile home robot built for about 660 dollars *Replaces:* Hello Robot Stretch, Unitree G1, Aloha mobile	Robotics hobbyists and researchers	Hardware kits/assembly Training/courses Consulting/implementation	• Home robot kits for AI hobbyists • Teaching mobile manipulators for universities • Assembly service for labs *Angle:* Sell low-cost home mobile manipulator kits	$700-1500 per kit *Effort:* Medium (Needs parts sourcing and calibration) ⚠ Apache-2.0; XLeRobot name
Sesame-robot dorianborian/sesame-robot ★ 5.0k · **Permissive** Apache-2.0 · Hardware · Fit 3/5	Open, affordable mini quadruped robot based on the ESP32. *Replaces:* Unitree Go2 quadrupeds, Petoi robot dogs	robotics educators and hobby robot builders	Hardware kits/assembly Training/courses	• Quadruped kits for robotics classrooms • Mini robot dog builds for makerspaces • Robot programming camps for kids	$150-250 kit, courses $100 *Effort:* Medium (Mechanical build, servo and battery sourcing) ⚠ Apache-2.0 ok; sesame robot name and design rights to check
OpenArm enactic/openarm ★ 3.7k · **Permissive** Apache-2.0 · Hardware · Fit 3/5	Open source humanoid arm for physical AI research and contact-rich tasks *Replaces:* Franka Emika, Kinova Gen3, Universal Robots	Robotics labs	Hardware kits/assembly Consulting/implementation Training/courses	• Research arms for university labs • Teleoperated arms for data collection • Humanoid arm training kits *Angle:* Build humanoid-arm platforms for robotics startups	$5k-15k per arm *Effort:* High (Expensive precision hardware and tuning) ⚠ Apache-2.0; OpenArm name
ALOHA tonyzhaozh/aloha ★ 2.4k · **Permissive** MIT · Hardware · Fit 3/5	Low-cost bimanual teleoperation robot system for imitation learning *Replaces:* Franka Emika, Universal Robots, Kinova	Robotics research labs	Hardware kits/assembly Consulting/implementation Training/courses	• Bimanual research rigs for universities • Teleoperation data kits for AI startups • Imitation learning workshops *Angle:* Build bimanual teleoperation rigs for labs	$8k-25k per setup *Effort:* High (Complex hardware, needs parts sourcing) ⚠ MIT; ALOHA name; hardware safety
BCN3D Moveo BCN3D/BCN3D-Moveo ★ 2.0k · **Permissive** MIT · Hardware · Fit 3/5	3D printed robotic arm for educational purposes *Replaces:* Dobot Magician, UFactory uArm, Niryo One	Schools and makers	Hardware kits/assembly Training/courses Local service business	• Robot arm kits for secondary schools • Maker arm builds for fab labs • Pick and place demo arms *Angle:* Sell educational robot arm kits to vocational schools	$500-1200 per kit *Effort:* Medium (Older design, needs printing and tuning) ⚠ MIT; BCN3D trademark
Thor AngelLM/Thor ★ 1.6k · **Weak copyleft** CC-BY-SA-4.0 · Hardware · Fit 3/5	DIY 3D printable robotic arm with plans and BOM *Replaces:* Dobot, uArm, Niryo One	Makers and robotics hobbyists	Hardware kits/assembly Training/courses Content/membership	• Thor arm kits for makers • Robot arm classes for hobbyists • Pick-and-place demos for small shops *Angle:* Sell printed robot arm kits for STEM programs	$400-900 per kit *Effort:* Medium (Share-alike hardware, assembly effort) ⚠ CC-BY-SA share-alike; Thor name

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Open Robot Actuator open-dynamic-robot-initiative/open_robot_actuator_hardware ★ 1.5k · **Permissive** BSD-3-Clause · Hardware · Fit 3/5	Open hardware for robot actuators from the Open Dynamic Robot Initiative *Replaces:* Unitree actuators, ANYbotics, T-Motor actuators	Legged robot researchers	Hardware kits/assembly Consulting/implementation Training/courses	• Actuators for legged robot research • Robot leg kits for universities • Quadruped lab modules *Angle:* Manufacture brushless actuator modules for legged robots	$300-800 per actuator *Effort:* High (Precision hardware, needs manufacturing partner) ⚠ BSD-3-Clause; research-grade
ToddlerBot hshi74/toddlerbot ★ 802 · **Permissive** MIT · Hardware · Fit 3/5	Open source humanoid robot platform from Stanford research *Replaces:* Unitree G1, Booster T1, Pollen Robotics Reachy	Humanoid research labs	Hardware kits/assembly Consulting/implementation Training/courses	• Small humanoid kits for universities • Locomotion research platforms • Humanoid education kits *Angle:* Sell small humanoid research robots; NC terms in repo, license before selling	$3k-8k per robot *Effort:* High (Research robot, needs assembly and tuning) ⚠ MIT; ToddlerBot name
Koch v1.1 jess-moss/koch-v1-1 ★ 736 · **Permissive** Apache-2.0 · Hardware · Fit 3/5	Version 1.1 of Alexander Koch's low cost robot arm used with LeRobot *Replaces:* UFactory xArm, Dobot Magician, Niryo Ned	LeRobot builders and AI hobbyists	Hardware kits/assembly Training/courses Consulting/implementation	• Koch arm kits for LeRobot users • Teleoperation arm builds for AI labs • Robot education kits *Angle:* Sell leader-follower arm kits to schools	$250-500 per kit *Effort:* Low (Documented build, servo and print parts) ⚠ Apache-2.0; Koch arm name
Nicegui zauberzeug/nicegui ★ 16.3k · **Permissive** MIT · Framework · Fit 2/5	Python framework for building web user interfaces with minimal code. *Replaces:* Streamlit, Gradio, Retool	Python developers building internal dashboards	Consulting/implementation Premium plugins/add-ons	• Internal dashboards for robotics labs • Python admin panels for small agencies • Control UIs for hardware startups	Free core; $150-300 per custom UI *Effort:* Low (Mature framework, widely used) ⚠ MIT ok; NiceGUI is a project brand
Mujoco google-deepmind/mujoco ★ 16.1k · **Permissive** Apache-2.0 · Library · Fit 2/5	General-purpose physics simulator for multi-joint dynamics with contact. *Replaces:* PyBullet, Isaac Sim physics, Unity physics	robotics labs needing contact simulation	Consulting/implementation Training/courses	• Physics simulation for legged-robot startups • Contact modeling courses for robotics grad students • Simulation setup for warehouse-robot integrators	Free; $150-300/hr simulation consulting *Effort:* Medium (Engine integration, expert tuning needed) ⚠ Apache-2.0 ok; MuJoCo and DeepMind are trademarks
Johnny-five rwaldron/johnny-five ★ 13.4k · **Check** NOASSERTION · Framework · Fit 2/5	JavaScript framework for robotics and IoT programming on Arduino and similar boards. *Replaces:* Node-RED, Arduino Cloud	JavaScript developers building IoT prototypes	Training/courses Consulting/implementation	• JavaScript robotics courses for web developers • IoT prototyping for agencies • Arduino dashboards for maker classes	Free framework; $120-200/hr consulting *Effort:* Medium (Framework, Arduino-specific, maintenance uncertain) ⚠ NOASSERTION license: read first; Arduino and Johnny-Five names are trademarks
IsaacLab isaac-sim/IsaacLab ★ 8.6k · **Check** NOASSERTION · Framework · Fit 2/5	Unified framework for robot learning across multiple physics engines and renderers. *Replaces:* NVIDIA Omniverse courses, Gazebo training	robot learning researchers and simulation teams	Consulting/implementation Training/courses	• Robot learning training for manufacturing automation teams • Sim-to-real pipelines for warehouse robot startups • RL policy training for drone labs	Free framework; $200-400/hr consulting *Effort:* High (GPU-heavy, NVIDIA ecosystem dependence) ⚠ NOASSERTION license: read first; NVIDIA Isaac is a trademark
Newton newton-physics/newton ★ 5.9k · **Permissive** Apache-2.0 · Library · Fit 2/5	GPU-accelerated physics simulation engine built on NVIDIA Warp for robotics research. *Replaces:* MuJoCo, Isaac Sim physics	robotics simulation researchers	Consulting/implementation Training/courses	• Physics simulation for robotics research labs • GPU sim training for robotics grad students • Digital-twin sims for factory automation firms	Free library; $200-400/hr consulting *Effort:* High (Early GPU physics engine, NVIDIA dependency) ⚠ Apache-2.0 ok; NVIDIA Warp is a trademark; API still changing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Navigation2 ros-navigation/navigation2 ★ 5.0k · Check NOASSERTION · Framework · Fit 2/5	ROS 2 navigation framework for mobile robot path planning and control. *Replaces:* Locus Robotics software, Clearpath navigation tools	AMR integrators and warehouse automation firms	Consulting/implementation Setup + support retainer	• Navigation stacks for warehouse AMR integrators • ROS 2 setups for university robotics labs • Delivery robot tuning for campus logistics firms	$150-250/hr integration, support $2-5k/yr *Effort:* High (ROS 2 expertise, robot-specific tuning) ⚠ NOASSERTION license: read first; ROS and Open Robotics are trademarks
Diffusion_policy real-stanford/diffusion_policy ★ 4.7k · Permissive MIT · Model · Fit 2/5	Code for diffusion-based visuomotor policies that learn robot actions from demonstrations. *Replaces:* Scripted robot policies, robot-learning services	robot-learning teams training manipulation policies	Consulting/implementation Training/courses	• Imitation-learning setups for manipulation startups • Robot-learning courses for ML engineers • Policy training for warehouse pick-and-place pilots	Free code; $5-15k per policy project *Effort:* High (Research code, data collection needed) ⚠ MIT ok; Stanford research origin; pretrained model terms apply
Mobile-aloha MarkFzp/mobile-aloha ★ 4.5k · Permissive MIT · Hardware · Fit 2/5	Low-cost mobile bimanual robot with whole-body teleoperation for learning manipulation. *Replaces:* Trossen robot arms, commercial mobile manipulators	robot-learning labs and household-robot startups	Hardware kits/assembly Consulting/implementation	• Bimanual robot kits for research labs • Teleop data collection for home-robot startups • Mobile manipulation demos for trade shows	$20-40k per robot build *Effort:* High (Complex mechanical and teleop build, costly parts) ⚠ MIT ok; ALOHA is a research project brand
Evo MichaelGrupp/evo ★ 4.4k · GPL GPL-3.0 · Library · Fit 2/5	Python package for evaluating odometry and SLAM trajectories. *Replaces:* Commercial SLAM evaluation tools, MATLAB SLAM toolboxes	robotics researchers benchmarking SLAM	Consulting/implementation Training/courses	• SLAM benchmark services for mapping startups • Evaluation courses for robotics grad students • Odometry QA for autonomous vehicle teams	Free library; $150-250/hr consulting *Effort:* Low (Python evaluation package, research users) ⚠ GPL-3.0: distributed code must ship source; evaluation claims need care
Drake RobotLocomotion/drake ★ 4.2k · Check NOASSERTION · Framework · Fit 2/5	Model-based design and verification toolbox for robotics, with simulation and optimization. *Replaces:* MATLAB robotics toolboxes, Simulink control tools	robotics teams building control systems	Consulting/implementation Training/courses	• Control design for legged-robot startups • Verification training for robotics grad students • Motion planning support for arm integrators	Free; $200-400/hr consulting *Effort:* High (Large C++ framework, steep learning curve) ⚠ NOASSERTION license: read first; large codebase, slow onboarding
Cylon hybridgroup/cylon ★ 4.2k · Check NOASSERTION · Framework · Fit 2/5	JavaScript framework for robotics, drones and IoT with many hardware adapters. *Replaces:* Johnny-Five, Node-RED	JavaScript developers building drone and IoT apps	Training/courses Consulting/implementation	• JavaScript drone training for web developers • IoT prototyping for agencies • Robot control apps for education startups	Free framework; $120-200/hr consulting *Effort:* Medium (Framework, many adapters to maintain) ⚠ NOASSERTION license: read first; Cylon and Hybrid Group are brand names
Dora dora-rs/dora ★ 4.1k · Permissive Apache-2.0 · Framework · Fit 2/5	Middleware for low-latency AI robotics applications built from dataflow pipelines. *Replaces:* ROS 2 middleware, NVIDIA Holoscan	robotics teams building AI pipelines	Consulting/implementation Managed hosting	• Dataflow stacks for robotics AI startups • Low-latency pipelines for drone inspection firms • Edge AI middleware for warehouse robot integrators	Free core; $200-400/hr consulting *Effort:* High (Middleware with dataflow learning curve) ⚠ Apache-2.0 ok; dora-rs is a community brand
StarVLA starVLA/starVLA ★ 3.9k · Check NOASSERTION · Framework · Fit 2/5	Modular codebase for developing vision-language-action models for robots. *Replaces:* OpenVLA-style robot-policy codebases	robot-learning teams training VLA models	Consulting/implementation Training/courses	• VLA model training for robotics startups • VLA courses for robot-learning students • Policy customization for manipulation labs	Free code; $10-30k per model project *Effort:* High (Research codebase, compute and data heavy) ⚠ NOASSERTION license: read first; pretrained model licenses vary

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Map-anything facebookresearch/map-anything ★ 3.9k · **Permissive** Apache-2.0 · Model · Fit 2/5	Feed-forward model for universal metric 3D reconstruction from images. *Replaces:* Commercial photogrammetry, Matterport	construction firms and 3D mapping services	API/usage-based Consulting/implementation	• 3D reconstruction API for real-estate photo firms • Metric scans for construction progress tracking • Scene capture for insurance inspectors	$0.05-0.20 per scan, usage-based *Effort:* High (Research model, GPU inference) ⚠ Apache-2.0 ok; Meta model weights may have separate license terms
Skills NVIDIA/skills ★ 3.9k · **Permissive** Apache-2.0 · Content · Fit 2/5	Agent skill files for NVIDIA products covering robotics, simulation, CUDA and RAG workflows. *Replaces:* Vendor training courses, prompt libraries	developers using coding agents with NVIDIA tools	Training/courses Content/membership	• Agent skills for robotics engineering teams • CUDA workflow packs for AI infra consultants • RAG skill packs for enterprise developers	Free skills; $20-50/mo skill bundles *Effort:* Low (Skill files, depends on NVIDIA products) ⚠ Apache-2.0 ok; NVIDIA is a trademark; product terms apply
Pinocchio stack-of-tasks/pinocchio ★ 3.9k · **Permissive** BSD-2-Clause · Library · Fit 2/5	C++ library implementing rigid body dynamics and their analytical derivatives. *Replaces:* MATLAB robotics dynamics toolboxes, Drake	robotics engineers building control software	Consulting/implementation Training/courses	• Dynamics code for humanoid research labs • Control library integration for arm makers • Dynamics courses for robotics grad students	Free library; $200-300/hr consulting *Effort:* High (Expert-level C++ library, integration work) ⚠ BSD-2-Clause ok; expert C++ library, narrow niche
Lightly lightly-ai/lightly ★ 3.8k · **Permissive** MIT · Library · Fit 2/5	Python library for self-supervised learning and latent world models on images. *Replaces:* Scale AI data curation, Encord dataset tools	computer-vision teams curating image datasets	API/usage-based Consulting/implementation	• Image dataset curation for auto-parts inspection • Self-supervised training for medical imaging labs • Data pruning for retail shelf-analytics firms	Free library; $1-5k/mo platform tier *Effort:* Medium (Library plus platform tiers, ML expertise) ⚠ MIT ok; Lightly is a company brand; platform features are paid
Gtsam borglab/gtsam ★ 3.8k · **Check** NOASSERTION · Library · Fit 2/5	C++ library for smoothing and mapping in robotics and vision using factor graphs. *Replaces:* Ceres Solver, commercial SLAM software	SLAM engineers and mapping startups	Consulting/implementation Training/courses	• Mapping engines for drone survey startups • SLAM training for robotics grad students • Localization integration for warehouse robot makers	Free library; $200-300/hr consulting *Effort:* High (Expert-level C++ library, integration work) ⚠ NOASSERTION license: read first; GTSAM is a Georgia Tech project
Act-plus-plus MarkFzp/act-plus-plus ★ 3.7k · **Permissive** MIT · Model · Fit 2/5	Imitation-learning code for Mobile ALOHA, including ACT, Diffusion Policy and VINN. *Replaces:* Robot-learning services, commercial teleop systems	robot-learning labs training bimanual policies	Consulting/implementation Training/courses	• Bimanual policy training for research labs • Imitation-learning courses for robotics students • Demo policies for trade show robots	Free code; $5-15k per policy project *Effort:* High (Research code, needs robot hardware) ⚠ MIT ok; ALOHA is a research brand; pretrained weight terms vary
Stanford Pupper stanfordroboticsclub/StanfordQuadruped ★ 1.8k · **Permissive** MIT · Hardware · Fit 2/5	Stanford Pupper quadruped robot code and design *Replaces:* Petoi Bittle, Unitree Go1, Sony Aibo	Robotics classes and hobbyists	Hardware kits/assembly Training/courses Consulting/implementation	• Pupper kits for robotics classes • Teaching quadrupeds for high schools • Legged robot workshops *Angle:* Sell quadruped robot kits to classrooms	$500-900 per kit *Effort:* Medium (Student project, partly dated) ⚠ MIT; Stanford Pupper name
Poppy Humanoid poppy-project/poppy-humanoid ★ 1.1k · **Check** NONE · Hardware · Fit 2/5	3D printed humanoid robot for research and education *Replaces:* Nao, Pepper, Darwin OP, Robotis OP3	Universities and STEM schools	Hardware kits/assembly Training/courses Consulting/implementation	• Humanoid robot labs for schools • Robot teaching kits for universities • Humanoid demos for science museums *Angle:* Rent humanoid robots for exhibitions and education	$5k-12k per robot *Effort:* High (Older design, many servos to maintain) ⚠ No license stated; check Poppy terms

Satellites & Ham Radio · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenWebRX jketterl/openwebrx ★ 1.3k · AGPL AGPL-3.0 · App · Fit 4/5	Multi-user SDR receiver software with web interface *Replaces:* WebSDR, KiwiSDR, SDRplay web servers	Ham radio clubs and SDR hobbyists	Managed hosting Hardware kits/assembly Setup + support retainer	• Hosted SDR receivers for ham clubs • Shortwave listening stations for radio fans • Public SDR servers for hackerspaces *Angle:* Sell web SDR receiver kits for clubs	$5-20/mo hosting, $300 kits *Effort:* Low (Self-contained server, easy to host) ⚠ AGPL-3.0; publish modifications; OpenWebRX name
Direwolf wb2osz/direwolf ★ 2.1k · GPL GPL-2.0 · Tool · Fit 3/5	Software soundcard AX.25 packet modem, TNC and APRS encoder and decoder *Replaces:* Kantronics TNC, Byonics TinyTrak, Mobilinkd TNC	Ham radio operators and APRS users	Hardware kits/assembly Setup + support retainer Content/membership	• APRS iGate kits for ham clubs • Packet radio TNC bundles • Emergency comms kits for volunteer groups *Angle:* Sell APRS iGate boxes	$80-200 per kit *Effort:* Low (Software TNC, easy to bundle on Pi) ⚠ GPL-2.0; amateur radio regulation
TinyGS tinygs/tinyGS ★ 1.5k · GPL GPL-3.0 · Platform · Fit 3/5	Open ground station network for receiving LoRa satellites with ESP32 *Replaces:* Commercial satellite ground station services, AWS Ground Station	Satellite hobbyists and CubeSat teams	Hardware kits/assembly Setup + support retainer Managed hosting	• Ground station kits for universities • LoRa satellite receivers for ham clubs • Remote station hosting for CubeSat teams *Angle:* Sell satellite ground station kits	$60-150 per station *Effort:* Low (Complete firmware, kit simple) ⚠ GPL-3.0; TinyGS name; radio regulation
Nanovna-saver NanoVNA-Saver/nanovna-saver ★ 1.2k · Check NONE · Tool · Fit 3/5	Tool for reading, displaying and saving data from NanoVNA antenna analyzers. *Replaces:* VNWA analyzers, commercial VNA software, Rohde & Schwarz VNAs	ham radio operators and antenna builders	Hardware kits/assembly Premium plugins/add-ons	• Antenna analysis kits for ham clubs • VNA software support for antenna shops • Calibration services for field antenna techs	$30-60 kit, software free *Effort:* Low (Mature tool, works with existing NanoVNA devices) ⚠ NONE license: read first; NanoVNA is a product name, check trademarks
Gpredict csete/gpredict ★ 1.2k · GPL GPL-2.0 · App · Fit 3/5	Satellite tracking application for predicting passes and controlling rotators. *Replaces:* Heavens-Above, commercial satellite trackers	ham radio operators and satellite hobbyists	Premium plugins/add-ons Training/courses	• Pass prediction for amateur satellite clubs • Rotator control setups for ham field-day teams • Satellite tracking workshops for STEM outreach	Free; $5-10 premium plugin *Effort:* Low (Mature desktop app, cross-platform) ⚠ GPL-2.0: distributed app must ship source; Gpredict is a project brand
Pat la5nta/pat ★ 614 · Permissive MIT · App · Fit 3/5	Cross-platform Winlink client for sending email over amateur radio networks. *Replaces:* Winlink Express, commercial radio email clients	emergency communications volunteers	Setup + support retainer Training/courses	• Winlink setup for disaster-response volunteers • Radio email training for ham clubs • Emergency comms kits for county EMA offices	$100-200 setup per station, training $50 *Effort:* Medium (Mature client, radio-licensing and station setup) ⚠ MIT ok; Winlink is a trademark of its operator; ham license needed
Wavelog wavelog/wavelog ★ 587 · Permissive MIT · App · Fit 3/5	Web-based amateur radio logging software for logging contacts from anywhere. *Replaces:* Logbook of The World, QRZ logbook, HAMRS	ham radio contesters and DX clubs	Managed hosting Premium plugins/add-ons	• Hosted logbooks for ham radio clubs • Contest logging for DX expedition teams • Logbook setups for county ARES groups	$5-10/mo hosted logbook *Effort:* Medium (Web app, ham standards and integrations) ⚠ MIT ok; Wavelog is a brand; LoTW and QRZ are third parties
Cloudlog magicbug/Cloudlog ★ 577 · Permissive MIT · App · Fit 3/5	Web-based amateur radio logging app built with PHP and MySQL. *Replaces:* Logbook of The World, QRZ logbook, Wavelog	ham radio operators running shared logs	Managed hosting Premium plugins/add-ons	• Shared logs for ham radio clubs • Logbook hosting for contest teams • Logging plugins for regional ham groups	$5-10/mo hosted logbook *Effort:* Medium (PHP and MySQL stack, mature) ⚠ MIT ok; Cloudlog is a project brand; third-party service integrations
Hermes-Lite 2 softerhardware/Hermes-Lite2 ★ 384 · Check NONE · Hardware · Fit 3/5	Second generation low-cost amateur HF software defined radio transceiver *Replaces:* Flex Radio, Icom IC-7300, Apache Labs ANAN, Yaesu	Amateur radio operators	Hardware kits/assembly Setup + support retainer Training/courses	• HF SDR kits for ham radio clubs • Assembled transceivers for amateurs • SDR teaching rigs for engineering students *Angle:* Sell assembled SDR transceivers to hams	$300-700 per transceiver *Effort:* High (RF hardware production and tuning) ⚠ Check license; radio regulation; amateur use only

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Qdmr hmatuschek/qdmr ★ 361 · GPL GPL-3.0 · App · Fit 3/5	GUI for programming cheap DMR radios under Linux and macOS. *Replaces:* CHIRP, commercial radio programming software	ham radio operators and public-safety volunteers	Setup + support retainer Training/courses	• Radio programming for ham clubs • DMR setup for volunteer fire departments • Radio programming training for ham license classes	$30-60 per radio programming session *Effort:* Low (Mature desktop app, radio-specific) ⚠ GPL-3.0: distributed app ships source; DMR standard, vendor trademarks
Sdroxide dividebysandwich/sdroxide ★ 304 · GPL GPL-3.0 · App · Fit 3/5	Native SDR client in Rust supporting many radios, with CW, RTTY and FT8 digital modes. *Replaces:* SmartSDR, HDSDR, commercial SDR clients	ham radio operators running SDR stations	Premium plugins/add-ons Setup + support retainer	• SDR software setup for ham shack builders • Digital-mode training for DX clubs • Remote SDR web UI for field operators	Free core; $20-40 pro license *Effort:* High (Many radio drivers, Rust build complexity) ⚠ GPL-3.0: distributed app must ship source; FT8 and radio brand trademarks
AetherSDR aethersdr/AetherSDR ★ 257 · GPL GPL-3.0 · App · Fit 3/5	Native amateur-radio workstation client for FlexRadio transceivers on Linux, macOS and Windows. *Replaces:* FlexRadio SmartSDR, Ham Radio Deluxe	FlexRadio owners and ham contest stations	Premium plugins/add-ons Setup + support retainer	• Station software for FlexRadio contest teams • Setup support for ham shack builders • Digital-mode plugins for DX clubs	Free; $25-50 premium features *Effort:* Medium (Vendor-specific client, Qt build) ⚠ GPL-3.0: distributed app must ship source; FlexRadio is a trademark
RFAnalyzer demantz/RFAnalyzer ★ 1.1k · GPL GPL-2.0 · App · Fit 2/5	Android app analyzing RF signals with HackRF, RTL-SDR and Airspy hardware. *Replaces:* SDR apps, commercial spectrum analyzers	SDR hobbyists and RF technicians	Mobile app on top Premium plugins/add-ons	• Mobile spectrum analysis for field RF technicians • SDR apps for ham radio clubs • RF tools for STEM outreach	Free; $5-10 pro app *Effort:* Medium (Hardware-dependent, Android-specific) ⚠ GPL-2.0: distributed app must ship source; HackRF and Airspy are trademarks
Chattervox brannondorsey/chattervox ★ 789 · Check NOASSERTION · Tool · Fit 2/5	AX.25 packet radio chat protocol with digital signatures and binary compression. *Replaces:* APRS, Winlink chat, commercial radio messaging	emergency communications volunteers and ham operators	Setup + support retainer Training/courses	• Emergency comms training for ham clubs • Packet chat setups for disaster response groups • Signed messaging for search-and-rescue teams	Free; $100-200 per team setup *Effort:* Medium (Radio-licensing rules, niche protocol) ⚠ NOASSERTION license: read first; amateur radio transmission rules apply
libcsp libcsp/libcsp ★ 696 · Permissive MIT · Library · Fit 2/5	Cubesat Space Protocol network-layer delivery protocol for CubeSats *Replaces:* Spacecraft flight software suites, GomSpace NanoCom software	CubeSat developers	Consulting/implementation Training/courses Setup + support retainer	• CubeSat communications consulting for universities • Satellite software workshops • Flight software integration for startups *Angle:* Build CubeSat subsystems for university missions	$150-250/hr consulting *Effort:* High (Library only, spaceflight domain knowledge) ⚠ MIT; aerospace export rules
Sdrmm Newspicel/sdrmm ★ 364 · AGPL AGPL-3.0 · App · Fit 2/5	Modular client-server software-defined radio application. *Replaces:* GNU Radio, commercial SDR stacks	SDR developers and radio researchers	Consulting/implementation Training/courses	• SDR server setups for radio research labs • SDR training for ham clubs • Remote SDR services for field teams	Free; $150-250/hr consulting *Effort:* High (Early SDR software, RF expertise needed) ⚠ AGPL-3.0: hosted modifications must publish source; RF rules vary
Ham-exam-web AlliotTech/ham-exam-web ★ 342 · Check NONE · App · Fit 2/5	Ham radio license exam simulator with question banks and practice tests. *Replaces:* HamStudy, ARRL exam prep, ExamPro	ham radio license candidates	Vertical SaaS Mobile app on top	• Exam prep for ham clubs • Practice tests for licensing courses • Question banks for amateur radio schools	$5-10/mo per student, class licenses *Effort:* Medium (Chinese-language question bank, content licensing) ⚠ NONE license: read first; Chinese-language question bank content may be copyrighted

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AntennaSim EA1FUO/AntennaSim ★ 313 · Check NOASSERTION · App · Fit 2/5	Web-based NEC2 antenna simulator with 3D visualization and radiation pattern charts. *Replaces:* EZNEC, 4NEC2, commercial antenna modeling tools	antenna designers and ham radio builders	Vertical SaaS API/usage-based	• Antenna design tools for ham radio clubs • Simulation services for antenna builders • Radiation plots for amateur radio course teachers	Free; $10-25/mo pro tier *Effort:* Medium (Web app, NEC2 engine licensing) ⚠ NOASSERTION license: read first; NEC2 and EZNEC are third-party tools
Gqrx-scanner neural75/gqrx-scanner ★ 306 · Permissive MIT · Tool · Fit 2/5	Frequency scanner for the Gqrx software-defined radio receiver. *Replaces:* SDR scanners, Gqrx add-ons	SDR hobbyists scanning frequencies	Premium plugins/add-ons Consulting/implementation	• Frequency scanners for SDR hobby clubs • Scan setup for radio monitoring hobbyists • Spectrum scripts for STEM radio labs	Free; $5-10 premium scan profiles *Effort:* Low (Simple scanner tool, Gqrx-specific) ⚠ MIT ok; Gqrx is a project name; receiver scanning rules vary
OpenSatKit OpenSatKit/OpenSatKit ★ 305 · Check NONE · Platform · Fit 2/5	Core Flight System application developer kit for satellite software *Replaces:* NASA cFS commercial tools, F Prime tools, Wind River VxWorks	Spacecraft software developers	Training/courses Consulting/implementation	• cFS training for aerospace teams • CubeSat flight software support • University satellite software kits *Angle:* Offer CubeSat flight software integration	$500-2000 per course seat *Effort:* High (Specialist space software, narrow market) ⚠ Check license; aerospace export rules
Esp32_loraprs sh123/esp32_loraprs ★ 281 · GPL GPL-3.0 · Hardware · Fit 2/5	LoRa ESP32 KISS Bluetooth modem with APRS iGate, digipeater and voice features. *Replaces:* APRS trackers, Byonics TinyTrak, commercial APRS modems	APRS operators and emergency comms volunteers	Hardware kits/assembly Setup + support retainer	• APRS modems for field search teams • iGate kits for ham clubs • LoRa tracking for hiking-club safety	$40-70 kit, setup $100 *Effort:* High (Radio-licensed, APRS-IS and firmware setup) ⚠ GPL-3.0: distributed firmware must ship source; amateur radio rules apply
CygnusRFI 0xCoto/CygnusRFI ★ 72 · GPL GPL-3.0 · Tool · Fit 2/5	RFI analysis tool for ground stations and radio telescopes *Replaces:* Radio telescope tools, Spectrum analyzers software	Amateur radio astronomers	Consulting/implementation Training/courses Setup + support retainer	• RFI surveys for amateur radio astronomers • Ground station site checks for ham clubs • Radio telescope testing for schools *Angle:* Offer RFI surveys for ground station sites	$300-1000 per survey *Effort:* Medium (Niche tool, small audience) ⚠ GPL-3.0; narrow audience
Mercury GS Open-Source-Satellite/Mercury-GS ★ 58 · Check NOASSERTION · Tool · Fit 2/5	Program for interacting with a spacecraft in a lab environment before launch *Replaces:* Satellite ground software, COSMOS	CubeSat teams and universities	Consulting/implementation Training/courses	• Ground software setup for CubeSat teams • Pre-launch test benches for universities • Satellite lab training *Angle:* Operate ground station as a service	$150-250/hr consulting *Effort:* High (Niche spacecraft test software) ⚠ Check license; aerospace export rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Openfga openfga/openfga ★ 6.1k · Permissive Apache-2.0 · Platform · Fit 4/5	High-performance authorization engine inspired by Google Zanzibar for developers. *Replaces:* Auth0 FGA, Permit.io, SpiceDB Cloud	SaaS developers building permission systems	Managed hosting Setup + support retainer	• Hosted authorization for B2B SaaS teams • Permission engines for healthcare portals • Access control for multi-tenant marketplaces	$100-500/mo managed hosting *Effort:* Medium (Mature engine, needs integration and ops) ⚠ Apache-2.0 ok; OpenFGA is a CNCF project name; trademark use
ESP-RFID omersiar/esp-rfid ★ 1.5k · Permissive MIT · Hardware · Fit 4/5	ESP8266 RFID access control system with web interface and many reader types *Replaces:* HID access control, Kisi, Paxton Net2, Brivo	Small offices, makerspaces and workshops	Hardware kits/assembly Setup + support retainer Managed hosting	• Door access kits for makerspaces • RFID locks for coworking spaces • Staff access for small clinics *Angle:* Install RFID access control for makerspaces and gyms	$80-200 per door kit *Effort:* Low (Complete firmware, easy to preflash) ⚠ MIT; lock security liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Permify Permify/permify ★ 6.0k · AGPL AGPL-3.0 · Platform · Fit 3/5	Open-source authorization service inspired by Zanzibar for fine-grained permissions. *Replaces:* Auth0 FGA, Oso Cloud, Permit.io	product teams building fine-grained permissions	Managed hosting Consulting/implementation	• Permission services for B2B SaaS startups • Access control for legal document platforms • Authorization setups for internal-tool teams	$200-600/mo managed hosting *Effort:* Medium (Project now tied to FusionAuth) ⚠ AGPL-3.0: hosted modifications must publish source; Permify is a brand
Keto ory/keto ★ 5.4k · Permissive Apache-2.0 · Platform · Fit 3/5	Permission server built on Zanzibar with ACL, RBAC and API-first design in Go. *Replaces:* Auth0 FGA, Oso, Permit.io	backend teams needing scalable permissions	Managed hosting Consulting/implementation	• Permission servers for fintech backends • RBAC setups for healthcare SaaS • Authorization migrations for legacy monolith teams	$150-400/mo managed hosting *Effort:* Medium (Go service, needs ops and integration) ⚠ Apache-2.0 ok; Ory is a company brand; name use needs care
Cerbos cerbos/cerbos ★ 4.6k · Permissive Apache-2.0 · Platform · Fit 3/5	Open-core authorization platform for identities, gateways, workloads and AI agents. *Replaces:* Styra, Permit.io, Oso Cloud	platform teams governing service access	Managed hosting Vertical SaaS	• Access policies for AI-agent platforms • Authorization for multi-cloud platform teams • Policy governance for fintech API gateways	Free core; $500-2k/mo enterprise tier *Effort:* High (Open-core, enterprise features gated) ⚠ Apache-2.0 ok; open-core features gated; Cerbos is a company brand
Topaz aserto-dev/topaz ★ 1.4k · Permissive Apache-2.0 · Platform · Fit 3/5	Cloud-native authorization service for modern applications and APIs using OPA. *Replaces:* Auth0 FGA, Styra DAS, Permit.io	API teams building authorization	Managed hosting Consulting/implementation	• Authorization gateways for API platforms • Policy services for healthcare APIs • Access control for multi-tenant SaaS	$200-500/mo managed hosting *Effort:* Medium (Cloud-native, OPA-based, ops work) ⚠ Apache-2.0 ok; Aserto is a company brand; OPA trademark
Warrant warrant-dev/warrant ★ 1.3k · Permissive Apache-2.0 · Platform · Fit 3/5	Hosted Zanzibar-based authorization service to define, enforce and audit access. *Replaces:* Auth0 FGA, Permit.io, SpiceDB	SaaS teams needing hosted permissions	Vertical SaaS Managed hosting	• Authorization for B2B SaaS teams • Audit-ready access for fintech apps • Permissions for multi-tenant healthcare tools	$299-899/mo hosted service *Effort:* Medium (Hosted service, API integration) ⚠ Apache-2.0 ok; Warrant is a company brand; hosted-service dependency
Nuki Hub technyon/nuki_hub ★ 754 · Permissive MIT · Tool · Fit 3/5	ESP32 hub linking NUKI smart locks to smart home systems via MQTT *Replaces:* Nuki Bridge, Yale Linus, August Connect	Nuki lock owners with Home Assistant	Hardware kits/assembly Setup + support retainer Content/membership	• Nuki bridge replacement for smart homes • Short-term rental lock automation • Home Assistant integration service *Angle:* Offer smart lock local integration installs	$40-90 per hub *Effort:* Low (Tied to Nuki product family) ⚠ MIT; Nuki trademark; lock security liability
Easy-OpenVAS-Installer itiligent/Easy-OpenVAS-Installer ★ 110 · Check NONE · Tool · Fit 3/5	Install and upgrade scripts for an OpenVAS scanner with HTTPS front end. *Replaces:* Tenable Nessus, Qualys VMDR, Rapid7 InsightVM	small IT firms running vulnerability scans	Setup + support retainer Consulting/implementation	• Vulnerability scanning for dental practices • OpenVAS appliances for MSP clients • Quarterly scan reports for small law firms	$500-1500 setup, $99/mo support *Effort:* Medium (Scripts track OpenVAS upgrade paths) ⚠ NONE license: read first; Greenbone and OpenVAS are trademarks; security liability
Bjorn infinition/Bjorn ★ 6.4k · Permissive MIT · Tool · Fit 2/5	Pi-based network scanner with e-paper display that finds open ports and exposed services. *Replaces:* Nmap-based pentest tools, Pwnagotchi	penetration testers and red teams testing networks	Setup + support retainer Training/courses	• Pen-test kits for security training courses • Network audit tools for small MSPs • Pi scanner kits for CTF clubs	$80-150 kit, training $300 per seat *Effort:* Medium (Offensive tool, hardware and legal caveats) ⚠ MIT ok; offensive capability raises legal and misuse liability
Zenstack zenstackhq/zenstack ★ 3.0k · Permissive MIT · Framework · Fit 2/5	TypeScript data layer with type-safe ORM and built-in access control. *Replaces:* Prisma, Supabase RLS tooling	TypeScript teams building data-heavy apps	Consulting/implementation Training/courses	• Access-control ORMs for TypeScript SaaS teams • Prisma migration help for startups • TypeScript data training for agencies	Free core; $150-300/hr consulting *Effort:* Medium (TypeScript framework, ORM-layer changes) ⚠ MIT ok; Prisma is a trademark; migration risk

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Casbin-node-casbin apache/casbin-node-casbin ★ 2.9k · Permissive Apache-2.0 · Library · Fit 2/5	Node.js authorization library supporting ACL, RBAC and ABAC models. *Replaces:* Auth0 authorization, Permit.io SDKs	Node.js developers building permissions	Consulting/implementation Training/courses	• RBAC setups for Node SaaS teams • Authorization training for backend developers • Permission migrations for Express apps	Free library; $150-250/hr consulting *Effort:* Low (Library, well-known Casbin model) ⚠ Apache-2.0 ok; Casbin and Apache names have usage rules
Casbin-jcasbin apache/casbin-jcasbin ★ 2.7k · Permissive Apache-2.0 · Library · Fit 2/5	Java authorization library supporting ACL, RBAC and ABAC models. *Replaces:* Spring Security ACLs, Auth0 authorization	Java backend teams building permissions	Consulting/implementation Training/courses	• RBAC for Java enterprise backends • Authorization courses for Spring developers • Permission migrations for legacy Java apps	Free library; $150-250/hr consulting *Effort:* Low (Library, mature port of Casbin) ⚠ Apache-2.0 ok; Casbin and Apache names have usage rules
Accesscontrol onury/accesscontrol ★ 2.3k · Permissive MIT · Library · Fit 2/5	Node.js role and attribute based access control library. *Replaces:* Casbin, CASL	Node developers building role-based access	Consulting/implementation Training/courses	• RBAC for Express API startups • Access control training for Node teams • Role setups for internal admin tools	Free library; $120-200/hr consulting *Effort:* Low (Small Node library, widely used) ⚠ MIT ok; small library, limited maintenance attention
Nomore403 devploit/nomore403 ★ 1.9k · Permissive MIT · Tool · Fit 2/5	Tool finding HTTP 401 and 403 access-control bypasses via path, method and header mutations. *Replaces:* Burp Suite extensions, bypass scripts	penetration testers and bug-bounty hunters	Training/courses Setup + support retainer	• Access-control testing for pentest firms • Bypass testing courses for bug-bounty hunters • Access-control audits for small SaaS teams	$150-300 per audit, tool free *Effort:* Medium (Offensive security tool, authorization needed) ⚠ MIT ok; offensive tool; written authorization needed for targets
Casbin-pycasbin apache/casbin-pycasbin ★ 1.8k · Permissive Apache-2.0 · Library · Fit 2/5	Python authorization library supporting ACL, RBAC and ABAC models. *Replaces:* Django permissions, Auth0 authorization	Python developers building permissions	Consulting/implementation Training/courses	• RBAC for Django SaaS teams • Permission training for Python backends • Access rules for data-science dashboards	Free library; $150-250/hr consulting *Effort:* Low (Library, well-known Casbin model) ⚠ Apache-2.0 ok; Casbin and Apache names have usage rules
casbin-Casbin.NET apache/casbin-Casbin.NET ★ 1.3k · Permissive Apache-2.0 · Library · Fit 2/5	.NET authorization library supporting ACL, RBAC and ABAC models. *Replaces:* ASP.NET Core authorization, Auth0	C# developers building permissions	Consulting/implementation Training/courses	• RBAC for .NET enterprise apps • Authorization training for C# teams • Permission migrations for ASP.NET apps	Free library; $150-250/hr consulting *Effort:* Low (Library, mature Casbin port) ⚠ Apache-2.0 ok; Casbin and Apache names have usage rules
Php-casbin php-casbin/php-casbin ★ 1.3k · Permissive Apache-2.0 · Library · Fit 2/5	PHP authorization library supporting ACL, RBAC and ABAC models. *Replaces:* Laravel Gates, Spatie permissions	PHP developers building permissions	Consulting/implementation Training/courses	• RBAC for Laravel agencies • PHP authorization training for web developers • Permission setups for WordPress plugin makers	Free library; $120-200/hr consulting *Effort:* Low (Library, mature Casbin port) ⚠ Apache-2.0 ok; Casbin name has usage rules
Nest-access-control nestjsx/nest-access-control ★ 1.2k · Permissive MIT · Library · Fit 2/5	Role and attribute based access control library for NestJS applications. *Replaces:* Casbin, CASL for NestJS	NestJS developers building permissions	Consulting/implementation Training/courses	• RBAC for NestJS SaaS startups • Access control training for Node teams • Permission setups for internal admin apps	Free library; $120-200/hr consulting *Effort:* Low (Small NestJS library, narrow scope) ⚠ MIT ok; NestJS is a trademark; limited maintenance
Raider ADBeveridge/raider ★ 85 · GPL GPL-3.0 · Tool · Fit 2/5	Secure file deletion tool that permanently deletes files on Windows and Linux. *Replaces:* Eraser, BleachBit, Blancco data erasure	IT teams wiping retired devices	Setup + support retainer Consulting/implementation	• Data wiping for small IT asset recyclers • Secure deletion for legal-document firms • Device wipe services for repair shops	$25-50 per device wipe *Effort:* Low (Simple tool, but erasure claims need proof) ⚠ GPL-3.0: distributed app must ship source; erasure claims need certification

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Wiper r3nt0n/wiper ★ 77 · GPL GPL-3.0 · Tool · Fit 2/5	Secure destruction tool for sensitive virtual data, temp files and swap partitions. *Replaces:* Eraser, BleachBit, Blancco	privacy-focused users and small IT teams	Setup + support retainer Premium plugins/add-ons	• Secure wipes for legal and medical offices • Swap and temp cleanup for shared kiosks • Data-destruction setups for small clinics	$30-60 per workstation *Effort:* Low (Simple tool, compliance-claim limits) ⚠ GPL-3.0: distributed app must ship source; wipe claims need verification
Ultrawidelock ultrawidelock/ultrawidelock ★ 63 · Check NOASSERTION · Hardware · Fit 2/5	UWB and NFC smart lock firmware that opens with Apple Wallet key *Replaces:* August, Yale, Level Lock, Schlage Encode	Smart home hobbyists	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Wallet-key door locks for makerspaces • Smart locks for short-term rentals • Hands-free locks for workshops *Angle:* Sell wallet-key smart locks	$150-300 per lock *Effort:* High (Security hardware, needs certification and testing) ⚠ Custom license read first; lock security liability

Libre Solar Charge Firmware LibreSolar/charge-controller-firmware ★ 194 · Permissive Apache-2.0 · Hardware · Fit 3/5	Firmware for Libre Solar MPPT and PWM charge controllers *Replaces:* Victron SmartSolar, Morningstar, Renogy controllers	Off-grid solar installers	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Charge controllers for off-grid kits • Solar controllers for remote sensors • Community solar systems in developing regions *Angle:* Sell off-grid solar home systems in rural markets	$40-120 per controller *Effort:* Medium (Needs hardware and certification) ⚠ Apache-2.0; electrical certification
Libre Solar MPPT LibreSolar/mppt-2420-hc ★ 137 · Check NOASSERTION · Hardware · Fit 3/5	MPPT charge controller hardware with high-side load switch and CAN bus *Replaces:* Victron SmartSolar, Morningstar, Renogy MPPT	Off-grid solar installers	Hardware kits/assembly White-label reseller Setup + support retainer	• Small solar controllers for sheds and RVs • Lamp controller for solar streetlights • Charge controllers for solar sensors *Angle:* Manufacture MPPT charge controllers for off-grid kits	$40-100 per controller *Effort:* Medium (Hardware production and certification) ⚠ Check license; electrical safety
SkyeTracker ClassicDIY/SkyeTracker ★ 88 · Permissive Apache-2.0 · Hardware · Fit 3/5	Dual axis solar tracker project with controller and plans *Replaces:* Array Technologies trackers, Nextracker, Deger trackers	Small solar sites and DIY builders	Hardware kits/assembly Setup + support retainer Local service business	• Dual axis trackers for small farms • Solar tracker kits for off-grid cabins • Tracking retrofit for ground mounts *Angle:* Install dual-axis solar trackers for farms	$400-1200 per tracker kit *Effort:* Medium (Mechanical build and wind safety) ⚠ Apache-2.0; structural and wind safety
Sunpy sunpy/sunpy ★ 1.1k · Permissive BSD-2-Clause · Library · Fit 2/5	Python package for solar physics data, tools and analysis. *Replaces:* IDL solar tools, commercial solar data services	solar physics researchers and space-weather teams	Consulting/implementation Training/courses	• Solar data pipelines for space-weather startups • Solar physics courses for grad students • Analysis services for observatory outreach	Free library; $150-250/hr consulting *Effort:* Low (Mature Python package, scientific user base) ⚠ BSD-2-Clause ok; scientific code, no clinical claims
PlasmaPy PlasmaPy/PlasmaPy ★ 723 · Permissive BSD-3-Clause · Library · Fit 2/5	Python package for plasma physics research and education. *Replaces:* MATLAB plasma tools, commercial plasma simulation codes	plasma physics researchers and fusion labs	Consulting/implementation Training/courses	• Plasma analysis for fusion startups • Plasma physics courses for grad students • Simulation support for lab teams	Free library; $150-250/hr consulting *Effort:* Medium (Scientific library, domain expertise) ⚠ BSD-3-Clause ok; scientific code, verify results
Lunar-Solar-Calendar-Converter isee15/Lunar-Solar-Calendar-Converter ★ 697 · Permissive MIT · Library · Fit 2/5	Converts lunar and solar calendar dates for 1900 to 2100, with code in many languages. *Replaces:* Lunar calendar apps, Chinese almanac apps	calendar app developers and Chinese-speaking users	API/usage-based Premium plugins/add-ons	• Lunar date APIs for Chinese-market apps • Calendar converters for restaurant booking • Almanac data for festival event apps	Free library; $50-100 data license *Effort:* Low (Date conversion library, data-table driven) ⚠ MIT ok; verify cultural-calendar data accuracy
Lunar-python 6tail/lunar-python ★ 692 · Permissive MIT · Library · Fit 2/5	Python calendar library covering lunar, solar, Buddhist and Taoist calendars with festivals. *Replaces:* Chinese almanac apps, lunar calendar APIs	Chinese-market app developers	API/usage-based Premium plugins/add-ons	• Festival calendars for Chinese retail apps • Almanac APIs for astrology apps • Lunar dates for Chinese school scheduling	Free library; $50-150/mo API tier *Effort:* Low (Library with data, language-specific) ⚠ MIT ok; calendar data accuracy and cultural content checks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
EmonLib openenergymonitor/EmonLib ★ 628 · AGPL AGPL-3.0 · Library · Fit 2/5	Arduino library for electricity monitoring with current clamps *Replaces:* Sense, Emporia Vue, Shelly EM, Iotawatt	Energy hobbyists and installers	Hardware kits/assembly Consulting/implementation Setup + support retainer	• Energy monitors for small business • Circuit-level monitors for landlords • Solar export monitors for off-grid homes *Angle:* Sell energy-monitoring clamp kits to small businesses	$60-150 per monitor *Effort:* Low (Library, requires hardware and calibration) ⚠ AGPL-3.0; publish modifications; electrical safety
Chinese-calendar overtrue/chinese-calendar ★ 544 · Permissive MIT · Library · Fit 2/5	Chinese lunar and solar calendar conversion and lookup tool. *Replaces:* Lunar calendar APIs, Chinese almanac apps	Chinese developers adding calendar features	API/usage-based Premium plugins/add-ons	• Calendar lookups for Chinese HR software • Lunar dates for event-planning apps • Festival data for Chinese retail sites	Free library; $30-80 data license *Effort:* Low (Small conversion library, data-driven) ⚠ MIT ok; holiday data needs yearly updates
Tyme4ts 6tail/tyme4ts ★ 521 · Permissive MIT · Library · Fit 2/5	TypeScript calendar library covering lunar, solar, Tibetan and Islamic calendars and festivals. *Replaces:* Lunar calendar APIs, Chinese almanac SDKs	TypeScript developers in Chinese-market apps	API/usage-based Premium plugins/add-ons	• Calendar widgets for Chinese web apps • Festival data for TypeScript shop apps • Lunar dates for event SaaS	Free library; $50-150/mo data tier *Effort:* Low (TypeScript library, data-rich) ⚠ MIT ok; holiday and cultural data accuracy checks
Atlite PyPSA/atlite ★ 411 · Permissive MIT · Library · Fit 2/5	Python package calculating renewable power potentials and time series from weather data. *Replaces:* Commercial renewable siting tools, Renewables.ninja	energy consultants planning wind and solar projects	Consulting/implementation Training/courses	• Solar potential studies for developers • Renewables siting for energy consultancies • Power-potential courses for energy grad students	Free library; $3-8k per siting study *Effort:* Medium (Python library, weather-data pipelines) ⚠ MIT ok; weather data licenses may apply per source
Lunisolar waterbeside/lunisolar ★ 405 · GPL GPL-3.0 · Library · Fit 2/5	TypeScript lunar calendar library with almanac data, eight-character charts and plugins. *Replaces:* Lunar calendar APIs, Chinese almanac apps	TypeScript developers building Chinese-market apps	API/usage-based Premium plugins/add-ons	• Almanac widgets for Chinese web apps • Bazi data APIs for astrology sites • Plugin-based calendars for event SaaS	Free library; $50-150/mo data tier *Effort:* Low (TypeScript library, data-rich, cultural scope) ⚠ GPL-3.0: distributed code must ship source; cultural content accuracy
Sunsynk-power-flow-card slipx06/sunsynk-power-flow-card ★ 405 · Permissive MIT · Tool · Fit 2/5	Home Assistant card emulating the Sunsynk inverter power-flow screen. *Replaces:* Sunsynk inverter app, Victron dashboards	solar installers with Sunsynk inverters	Premium plugins/add-ons Setup + support retainer	• Power-flow dashboards for Sunsynk installers • Solar dashboard setups for off-grid homes • Lovelace cards for solar O&M firms	Free; $10-20 setup per dashboard *Effort:* Low (Lovelace card, Sunsynk-specific) ⚠ MIT ok; Sunsynk and Home Assistant are trademarks
SBFspot SBFspot/SBFspot ★ 381 · Check NOASSERTION · Tool · Fit 2/5	Command-line tool reading power production from SMA solar and battery inverters. *Replaces:* SMA Sunny Portal, Solarman loggers	solar owners with SMA inverters	Setup + support retainer Consulting/implementation	• SMA monitoring for residential solar installers • Production logging for solar O&M firms • Data exports for solar lease companies	$50-120 setup per site *Effort:* Medium (Inverter-specific protocol, CLI tool) ⚠ NOASSERTION license: read first; SMA is a trademark
Solar2MQTT-ESP8266 softwarecrash/Solar2MQTT-ESP8266 ★ 303 · Check NOASSERTION · Hardware · Fit 2/5	ESP8266 WiFi and MQTT interface for MPPT solar inverters using WatchPower. *Replaces:* Solarman loggers, commercial solar monitors	solar hobbyists with MPPT inverters	Hardware kits/assembly Setup + support retainer	• MQTT loggers for off-grid solar cabins • Inverter monitors for solar installers • MPPT telemetry for RV solar builders	$25-45 kit, setup $80 *Effort:* Medium (Inverter-specific protocol, hardware bridging) ⚠ NOASSERTION license: read first; WatchPower and inverter brands are trademarks
Helios-Forecast ReikanYsora/Helios-Forecast ★ 285 · GPL GPL-3.0 · Tool · Fit 2/5	Self-learning solar production forecast for Home Assistant. *Replaces:* Solcast forecasts, Forecast.Solar	solar owners wanting production forecasts	Premium plugins/add-ons Setup + support retainer	• Solar forecasts for battery-optimized homes • Production forecasts for solar installers • Forecast dashboards for off-grid cabin owners	Free; $5-10 per home setup *Effort:* Low (Single forecasting integration, mature) ⚠ GPL-3.0: distributed code must ship source; Home Assistant trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Bms-to-inverter ai-republic/bms-to-inverter ★ 274 · Check NOASSERTION · Tool · Fit 2/5	Application reading battery management systems and writing data to inverters over UART, RS485, Modbus or CAN. *Replaces:* Victron Cerbo GX, commercial battery gateways	battery makers and solar integrators	Setup + support retainer Hardware kits/assembly	• BMS-to-inverter bridges for battery startups • Protocol gateways for solar installers • Battery integration for storage retrofits	$100-300 integration per battery brand *Effort:* High (Many BMS and inverter protocols, safety-critical) ⚠ NOASSERTION license: read first; battery safety and certification
emonhub openenergymonitor/emonhub ★ 106 · Check NONE · Tool · Fit 2/5	Python service linking and decoding input from energy monitors to MQTT and Emoncms *Replaces:* Sense, Emporia, Shelly cloud	Energy hobbyists	Managed hosting Setup + support retainer Hardware kits/assembly	• Hosted energy logging for hobbyists • Gateway installs for solar homes • Data bridge for community energy groups *Angle:* Offer energy audits with installed monitoring gateways	$3-8/mo hosted logging *Effort:* Low (Small service, depends on Emoncms) ⚠ No license stated; OpenEnergyMonitor ecosystem
Freifunk Open MPPT elektra42/freifunk-open-mppt ★ 89 · Check NOASSERTION · Hardware · Fit 2/5	Open hardware and software solar maximum power point tracker *Replaces:* Victron SmartSolar, Renogy controllers	Off-grid solar builders and community networks	Hardware kits/assembly Setup + support retainer Consulting/implementation	• Solar MPPT for community WiFi nodes • Off-grid router power kits • Solar controllers for remote sensors *Angle:* Build solar-powered mesh router stations for villages	$50-100 per controller *Effort:* Medium (Niche design, hardware sourcing needed) ⚠ Check license; electrical safety
Arduino MPPT aplavins/Arduino-MPPT ★ 79 · GPL GPL-2.0 · Hardware · Fit 2/5	Arduino-based MPPT solar charge controller *Replaces:* Victron SmartSolar, Renogy, EPEVER controllers	Hobby solar builders	Hardware kits/assembly Content/membership Training/courses	• Charge controller kits for small solar systems • Teaching kits for solar classes • Controllers for solar lamps *Angle:* Sell DIY MPPT controller kits for education	$30-70 per kit *Effort:* Medium (Hobby design, efficiency not benchmarked) ⚠ GPL-2.0; electrical safety

Space & Rocketry · 8

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Openrocket openrocket/openrocket ★ 3.2k · Check NOASSERTION · Tool · Fit 3/5	Model rocketry aerodynamics and trajectory simulation software. *Replaces:* RockSim, commercial rocket simulators	model rocketry clubs and rocket-design students	Premium plugins/add-ons Training/courses	• Trajectory simulation for model rocket clubs • Rocket design courses for STEM teachers • Aerodynamics plugins for rocket kit sellers	Free; $20-50 pro plugins *Effort:* Medium (Mature desktop tool, aerospace-adjacent) ⚠ NOASSERTION license: read first; rocketry safety and export rules
Chipyard ucb-bar/chipyard ★ 2.5k · Permissive BSD-3-Clause · Platform · Fit 3/5	RISC-V SoC design framework with cores, accelerators and simulation tooling. *Replaces:* Synopsys chip design tools, Cadence SoC flows	chip design teams and university tapeout groups	Consulting/implementation Training/courses	• RISC-V SoC design for chip startups • Chip design courses for university EE students • Tapeout support for small silicon teams	Free; $200-400/hr consulting *Effort:* High (Complex chip design flow, EDA tool dependency) ⚠ BSD-3-Clause ok; RISC-V is a trademark of RISC-V International
RocketPy RocketPy-Team/RocketPy ★ 1.2k · Permissive MIT · Library · Fit 3/5	Python library simulating high-power rocket flight in six degrees of freedom. *Replaces:* OpenRocket, RASAero, commercial trajectory simulators	Rocketry clubs, aerospace students, launch providers	Consulting/implementation Training/courses	• Trajectory studies for amateur rocketry clubs • Flight analysis for university rocket teams • Simulation courses for launch safety officers	$2000-8000 per simulation study, or course fees *Effort:* Medium (scientific Python codebase needs UI and onboarding) ⚠ MIT; outputs are not safety certification, avoid claiming certified flight data
OpenMotor reilleya/openMotor ★ 656 · GPL GPL-3.0 · Tool · Fit 3/5	Desktop simulator predicting internal ballistics of solid rocket motors for experimenters. *Replaces:* Commercial motor design software, spreadsheet calculators	Amateur motor builders, university propulsion teams	Premium plugins/add-ons Consulting/implementation	• Solid motor design tools for propulsion teams • Ballistics consulting for amateur motor makers • Motor simulation training for rocketry clubs	$50-150 per seat, or motor design consulting *Effort:* Medium (desktop app, needs packaging and safety disclaimers) ⚠ GPL-3.0: distributed builds must ship source; motor safety liability

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Rocket rwf2/Rocket ★ 25.8k · Check NOASSERTION · Framework · Fit 2/5	Web framework for Rust with type-safe routing and request handling. *Replaces:* Actix Web, Axum, Express.js	Rust web developers building APIs	Consulting/implementation Training/courses	• Rust API build-outs for fintech startups • Rust web training for backend teams • Migration services from Node.js to Rust	Free framework; $150-250/hr consulting *Effort:* Low (Mature framework, Rust developer audience) ⚠ NOASSERTION license: read first; Rocket is a Rust project name
Cea nasa/cea ★ 225 · Permissive Apache-2.0 · Tool · Fit 2/5	NASA solver for equilibrium composition and thermodynamic properties of gas mixtures. *Replaces:* Chemkin-Pro, commercial combustion codes	Rocket propulsion engineers and combustion researchers	Consulting/implementation Training/courses	• Combustion analysis for small rocket engine builders • Propellant chemistry consulting for launch startups • Propulsion courses for university labs	Free core; $150-200/hr engineering analysis *Effort:* Medium (scientific code, needs wrapper and validation) ⚠ Apache-2.0; avoid implying NASA endorsement; validate outputs
AeroVECTOR GuidodiPasquo/AeroVECTOR ★ 189 · GPL GPL-3.0 · Tool · Fit 2/5	Model rocket simulator for designing active control systems such as TVC and fin control. *Replaces:* RASAero, commercial control-design tools	Model rocketry hobbyists building guided rockets	Training/courses Consulting/implementation	• Control-system training for model rocket clubs • Active fin design studies for hobby rockets • TVC simulation for university teams	$100-300 per control design study, or course fee *Effort:* Medium (research tool, needs UI and validation for others) ⚠ GPL-3.0: distributed builds ship source; control outputs need validation
SCpp EmbersArc/SCpp ★ 175 · Permissive MIT · Library · Fit 2/5	C++ implementations of SCvx, linear MPC and LQR for trajectory generation and tracking. *Replaces:* MATLAB control toolboxes, commercial trajectory optimizers	Robotics and aerospace control researchers	Consulting/implementation Training/courses	• Trajectory tuning for small delivery-drone teams • Control courses for engineering students • Optimization consulting for robotics labs	$120-200/hr control consulting, free library *Effort:* High (research code, heavy integration effort) ⚠ MIT; control algorithms need domain validation before safety use

Synthesizers & Audio Gear · 30

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Surge surge-synthesizer/surge ★ 4.1k · GPL GPL-3.0 · App · Fit 4/5	Open-source hybrid virtual instrument synthesizer for music production. *Replaces:* Serum, Massive, Pigments	Music producers and sound designers on desktop DAWs	Premium plugins/add-ons Content/membership	• Sound packs for EDM producers • Preset libraries for film composers • Surge patch courses for home studios	Free core; $29-79 premium preset packs *Effort:* Medium (plugin UI reskin and distribution setup needed) ⚠ GPL-3.0: distributed plugins ship source; Surge name is an established brand
Mutable Instruments Eurorack pichenettes/eurorack ★ 3.4k · Check NONE · Hardware · Fit 3/5	Eurorack synthesizer module firmware and hardware including Mutable Instruments designs *Replaces:* Make Noise, Intellijel, Moog Eurorack, Doepfer	Modular synth builders	Hardware kits/assembly Marketplace Content/membership	• Module kits for DIY synth builders • Clone modules for Eurorack makers • Assembly service for synth fans *Angle:* Build Eurorack module clones; CC-BY-SA, avoid trademark names	$80-250 per module *Effort:* Medium (Mutable Instruments name not open, branding required) ⚠ Mixed GPL and CC licenses; Mutable Instruments trademark
squeezelite-esp32 sle118/squeezelite-esp32 ★ 2.2k · Check NONE · Hardware · Fit 3/5	ESP32 music streaming based on Squeezelite with multi-room sync, AirPlay and Bluetooth *Replaces:* Sonos, Bose Soundtouch, Apple AirPlay speakers	Audio hobbyists and hi-fi builders	Hardware kits/assembly Setup + support retainer White-label reseller	• Squeezelite streamers for hi-fi • Multi-room audio for restaurants • Retrofit streamers for old amplifiers *Angle:* Install multiroom audio streamers in homes	$80-180 per streamer *Effort:* Low (Mature firmware, easy to flash) ⚠ Check license; Squeezelite and AirPlay trademarks

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
AudioKitSynthOne AudioKit/AudioKitSynthOne ★ 1.8k · **Permissive** MIT · App · Fit 3/5	Open-source iOS synthesizer app built on the AudioKit audio framework. *Replaces:* Korg Gadget, Moog Model 15, Nave	iPad musicians and music education app makers	Mobile app on top Premium plugins/add-ons	• Synth patch packs for iPad producers • Synth lessons inside music education apps • Preset sound packs for songwriters	$4.99-14.99 one-time app, or preset packs *Effort:* Medium (App Store review and AudioKit branding to handle) ⚠ MIT; AudioKit is a brand, rename before publishing
MiniDexed probonopd/MiniDexed ★ 1.7k · **GPL** GPL-3.0 · App · Fit 3/5	Dexed DX7-style FM synthesizer running bare-metal on a Raspberry Pi. *Replaces:* Yamaha DX7 and TX816 hardware, commercial FM plugins	Retro synth hobbyists and budget music makers	Hardware kits/assembly Premium plugins/add-ons	• Pi-based FM synth kits for hobbyists • Budget DX7-style modules for music schools • Preloaded Pi synth units for gigging musicians	$80-150 preloaded Pi kit, software free *Effort:* Medium (needs hardware packaging and firmware updates) ⚠ GPL-3.0: shipped firmware includes source; Yamaha DX7 is a trademark
NeuralPi GuitarML/NeuralPi ★ 1.2k · **GPL** GPL-3.0 · Hardware · Fit 3/5	Raspberry Pi guitar pedal using neural networks to emulate amps and effects *Replaces:* Neural DSP Quad Cortex, Line 6 Helix, Kemper Profiler, Boss Katana	Guitarists and pedal builders	Hardware kits/assembly Content/membership Premium plugins/add-ons	• Neural amp pedal kits for guitarists • Captured amp model packs • Boutique Pi pedal builds *Angle:* Sell AI amp-modeling pedals	$250-500 per pedal, $10 model packs *Effort:* Medium (Needs enclosure and audio hardware) ⚠ GPL-3.0; captured amp models may infringe
Noisecraft maximecb/noisecraft ★ 1.2k · **GPL** GPL-2.0 · App · Fit 3/5	Browser-based visual programming environment for sound synthesis and music composition. *Replaces:* Max/MSP, Pure Data, Reaktor	Music educators and creative coding teachers	Training/courses Premium plugins/add-ons	• Visual audio coding for K-12 music classrooms • Browser synth labs for university audio courses • Sound tools for museum installations	Free web app; $5-15/mo classroom licenses *Effort:* Medium (web app needs accounts and classroom features) ⚠ GPL-2.0: hosting fine; distributed modified builds must ship source
Zynaddsubfx zynaddsubfx/zynaddsubfx ★ 1.2k · **GPL** GPL-2.0 · App · Fit 3/5	Open-source software synthesizer for detailed sound design. *Replaces:* Massive, Pigments, Omnisphere	Sound designers and home studio musicians	Premium plugins/add-ons Content/membership	• Patch libraries for ambient film composers • Synth bundles for Linux podcast producers • Sound-design courses for home producers	Free synth; $25-60 premium patch packs *Effort:* Medium (plugin packaging and branding work required) ⚠ GPL-2.0: distributed binaries ship source; ZynAddSubFX is an established name
Tulipcc shorepine/tulipcc ★ 978 · **Check** NOASSERTION · Hardware · Fit 3/5	Tulip Creative Computer and AMYboard: portable Python synthesizer hardware. *Replaces:* Raspberry Pi music kits, Teensy audio boards	Music educators and portable synth makers	Hardware kits/assembly Training/courses	• Python synth kits for music classrooms • Portable live-coding boards for performers • Creative coding kits for makerspaces	$150-350 per board; hardware margin thin *Effort:* High (hardware manufacturing and certification needed) ⚠ NOASSERTION license; hardware sales need CE/FCC compliance
OctaSine greatest-ape/OctaSine ★ 822 · **AGPL** AGPL-3.0 · App · Fit 3/5	FM synthesizer plugin in VST2 and CLAP formats for macOS, Windows and Linux. *Replaces:* Yamaha DX7 plugins, Native Instruments FM8, Arturia DX7 emulations	Electronic producers and plugin buyers	Premium plugins/add-ons Marketplace	• Plugin sales for EDM producers • FM sound packs for synth beginners • Preset packs for chiptune composers	$30-60 one-time plugin license, free trial *Effort:* Medium (plugin rebranding and code signing needed) ⚠ AGPL-3.0: hosted changes publish source; VST is a Steinberg trademark
Calf calf-studio-gear/calf ★ 806 · **Weak copyleft** LGPL-2.1 · App · Fit 3/5	Open-source plugin suite of effects and instruments, mainly for Linux audio work. *Replaces:* Waves plugin bundles, iZotope effects suites	Linux DAW users and audio plugin developers	Premium plugins/add-ons Consulting/implementation	• Linux studio plugin bundles for podcasters • Mixing presets for indie film sound • Support contracts for Linux studios	Free plugins; $300-800 per studio support contract *Effort:* Medium (needs installers, branding and testing) ⚠ LGPL-2.1 allows linking; repo warns of production issues

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
norns monome/norns ★ 742 · GPL GPL-3.0 · Hardware · Fit 3/5	Sound computer platform with scripts for many sound instruments *Replaces:* Teenage Engineering OP-1, Ableton Push, Elektron boxes	Experimental musicians	Hardware kits/assembly Content/membership Setup + support retainer	• Norns shield kits for sound artists • Script packs for live performers • Norns workshops for schools *Angle:* Sell norns shield sound computers	$250-500 per kit *Effort:* Medium (Hardware tied to Monome, Raspberry Pi Shield) ⚠ GPL-3.0; monome and norns trademarks
Radio Music TomWhitwell/RadioMusic ★ 355 · Check NONE · Hardware · Fit 3/5	Virtual radio Eurorack module that plays samples like radio stations *Replaces:* Make Noise, Intellijel samplers, Mutable Instruments	Eurorack builders	Hardware kits/assembly Marketplace Content/membership	• Radio Music kits for Eurorack builders • Sample card packs for sound designers • Panels and assembly for DIY synth fans *Angle:* Sell sample-player module kits	$80-180 per kit *Effort:* Low (Complete design, kit-friendly) ⚠ No license stated; check author terms
OtterCastAmp Ottercast/OtterCastAmp ★ 341 · Permissive MIT · Hardware · Fit 3/5	Open source WiFi speaker amplifier on a Sochip S3 SoC powered by USB PD *Replaces:* Sonos Amp, WiiM Amp, Bose Soundtouch	Audio hobbyists and installers	Hardware kits/assembly White-label reseller Setup + support retainer	• WiFi amplifier for small cafes • Multi-room audio for workshops • Retrofit streamers for passive speakers *Angle:* Sell WiFi speaker amplifiers for multiroom audio installs	$120-250 per amp *Effort:* Medium (Hardware production and certification needed) ⚠ MIT; wireless certification; Ottercast branding
Zynthian zynthian/zynthian-ui ★ 217 · GPL GPL-3.0 · Platform · Fit 3/5	User interface for Zynthian open synthesizer platform on Raspberry Pi *Replaces:* Native Instruments Maschine, Korg Kronos, Roland Fantom	Synth enthusiasts and performers	Hardware kits/assembly Setup + support retainer Content/membership	• Zynthian synth kits for touring musicians • Preset packs for Zynthian users • Zynthian workshops for studios *Angle:* Sell open synth boxes for live musicians	$400-900 per kit *Effort:* Medium (Software for Raspberry Pi synth, hardware assembly needed) ⚠ GPL-3.0; Zynthian trademark
MOD UI mod-audio/mod-ui ★ 115 · AGPL AGPL-3.0 · App · Fit 3/5	Web-based interface for the MOD guitar pedal platform *Replaces:* Line 6 Helix, Neural DSP Quad Cortex, Boss GT-1000	Guitarists and pedal builders	Premium plugins/add-ons Hardware kits/assembly Setup + support retainer	• Plugin packs for MOD users • Pedalboards for touring guitarists • Raspberry Pi guitar pedal kits *Angle:* Build multi-effects pedalboards for guitarists	$250-500 per pedalboard *Effort:* High (Tied to MOD hardware, AGPL services) ⚠ AGPL-3.0; publish modifications; MOD trademark
Glicol chaosprint/glicol ★ 3.0k · Permissive MIT · Library · Fit 2/5	Graph-oriented live coding language and audio DSP library written in Rust. *Replaces:* Max/MSP, Ableton Live, commercial audio DSP SDKs	Live coders, creative studios, audio tool developers	Consulting/implementation Training/courses	• Live coding workshops for music schools • Browser audio for creative agencies • Generative music installs for galleries	$100-300 per workshop or install, free core *Effort:* High (language and library, needs product layer) ⚠ MIT; niche language, small community; verify maturity
OTTO bitfieldaudio/OTTO ★ 2.8k · Check NOASSERTION · Hardware · Fit 2/5	Standalone sampler, sequencer and multi-engine synth in one box, still in progress. *Replaces:* Elektron Octatrack, Akai MPC, Teenage Engineering OP-1	Electronic musicians wanting a standalone sampler-synth	Hardware kits/assembly Premium plugins/add-ons	• Assembled sampler kits for live performers • Sequencer add-ons for modular builders • Hardware kits for music classrooms	$300-600 assembled unit; kit at lower margin *Effort:* High (hardware and firmware, WIP, certification needed) ⚠ NOASSERTION license: read first; hardware sales need CE/FCC compliance
Fluidsynth FluidSynth/fluidsynth ★ 2.5k · Weak copyleft LGPL-2.1 · Library · Fit 2/5	Software synthesizer engine that plays SoundFont 2 instrument banks. *Replaces:* Commercial SoundFont players, Kontakt, sample-engine SDKs	Game audio developers and music software makers	Consulting/implementation Premium plugins/add-ons	• SoundFont engine for Linux music education apps • GM synth for kids' toy makers • SoundFont playback for karaoke developers	Free engine; $500-3000 integration projects *Effort:* Medium (library needs app shell and branding) ⚠ LGPL-2.1: dynamic linking fine; static or modified library duties apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
beep.js stewdio/beep.js ★ 1.4k · **Check** NOASSERTION · Library · Fit 2/5	JavaScript toolkit for building browser-based synthesizers and audio tools. *Replaces:* Max for Live, browser synth SDKs	Web developers building browser music tools	Consulting/implementation Agency service	• Browser synth prototypes for music startups • Interactive audio builds for ad agencies • Web synth widgets for music stores	$2000-8000 per custom browser synth build *Effort:* High (toolkit, needs full product build) ⚠ NOASSERTION license: read before reuse, check for hidden terms
Mozzi sensorium/Mozzi ★ 1.3k · **Weak copyleft** LGPL-2.1 · Library · Fit 2/5	Sound synthesis library for Arduino *Replaces:* Teensy Audio, Daisy Seed, Pure Data	Electronic musicians and educators	Training/courses Hardware kits/assembly Consulting/implementation	• Arduino synth kits for music classes • Interactive sound installations for galleries • Workshop for kids audio coding *Angle:* Sell Arduino synth kits for workshops	$30-80 per kit *Effort:* Low (Library, not a product) ⚠ LGPL-2.1; library only
DaisySP daisyaudio/DaisySP ★ 1.3k · **Check** NOASSERTION · Library · Fit 2/5	C++ DSP library for the Daisy audio platform *Replaces:* JUCE, Teensy Audio, Faust	Audio effect and synth builders	Consulting/implementation Hardware kits/assembly Training/courses	• Guitar pedal kits using Daisy • Custom DSP modules for boutique synth makers • Audio firmware for pedal startups *Angle:* Sell custom synth voice modules	$100-200/hr consulting *Effort:* Low (DSP library, hardware by Electrosmith) ⚠ Custom license read first; Daisy trademark
Teensy Audio PaulStoffregen/Audio ★ 1.3k · **Check** NONE · Library · Fit 2/5	Teensy audio library for building real-time audio effects and synths *Replaces:* JUCE, Daisy, Pure Data, Axoloti	Audio builders and educators	Consulting/implementation Hardware kits/assembly Training/courses	• Teensy synth kits for music makers • Custom audio firmware for boutique pedals • Educational DSP workshops *Angle:* Sell small-batch digital synths	$50-150 per kit *Effort:* Low (Library for Teensy hardware) ⚠ License unclear, read it; Teensy trademark
Fundsp SamiPerttu/fundsp ★ 1.2k · **Permissive** Apache-2.0 · Library · Fit 2/5	Rust library of building blocks for audio processing and synthesis. *Replaces:* JUCE DSP module, commercial DSP SDKs	Plugin developers and audio software engineers	Consulting/implementation Training/courses	• DSP consulting for Rust plugin startups • Audio DSP courses for game developers • Custom synth engines for mobile studios	Free library; $150-250/hr DSP consulting *Effort:* High (library only, no end-user product) ⚠ Apache-2.0: permissive, keep license notices; no trademark concern
Webaudiofont surikov/webaudiofont ★ 990 · **GPL** GPL-3.0 · Library · Fit 2/5	Browser library playing General MIDI instrument sounds with reverb and EQ effects. *Replaces:* Browser MIDI SDKs, sample-library licensing services	Web developers adding MIDI playback to sites	Consulting/implementation Premium plugins/add-ons	• Browser MIDI players for theory courses • Game sound effects for indie web games • Instrument widgets for piano teachers	Free library; $300-1000 custom web player builds *Effort:* Medium (bundled instrument samples need licensing review) ⚠ GPL-3.0: check bundled sample sources' own licenses before commercial use
TinySoundFont schellingb/TinySoundFont ★ 896 · **Permissive** MIT · Library · Fit 2/5	Single-file C/C++ library that plays SoundFont2 instruments in games and apps. *Replaces:* Game audio middleware, FMOD sample playback add-ons	Indie game developers and embedded audio teams	Consulting/implementation Premium plugins/add-ons	• Retro game audio for indie studios • SoundFont playback for embedded devices • Music engine integration for mobile game studios	Free library; $1000-4000 audio integration per game *Effort:* Medium (single-file library needs game audio integration) ⚠ MIT: permissive, keep notice; no trademark issues
Ornament & Crime mxmxmx/O_C ★ 503 · **Check** NONE · Hardware · Fit 2/5	Eurorack Ornament and Crime display and DAC module firmware *Replaces:* Make Noise Pressure Points, Intellijel Metropolis, Mutable Instruments	Eurorack synth makers	Hardware kits/assembly Marketplace Content/membership	• Module kits for eurorack builders • Panel and PCB sets for DIY players • Assembly service for modular fans *Angle:* Sell assembled O_C modules to modular synth users	$100-220 per module *Effort:* Medium (Open design but unclear license) ⚠ No license stated; ask author
Daisy libDaisy daisyaudio/libDaisy ★ 491 · **Permissive** MIT · Library · Fit 2/5	Hardware library for the Daisy audio platform *Replaces:* JUCE, Teensy Audio, Bela	Audio pedal and synth builders	Consulting/implementation Hardware kits/assembly Training/courses	• Daisy-based pedal kits • Embedded audio consulting • Synth module firmware services *Angle:* Design and sell DSP effect pedals on Daisy	$100-200/hr consulting *Effort:* Low (Hardware library, Electrosmith sells hardware) ⚠ MIT; Daisy trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
HackRF greatscottgadgets/hackrf ★ 8.2k · GPL GPL-2.0 · Hardware · Fit 4/5	Low cost software defined radio platform from 1 MHz to 6 GHz *Replaces:* Ettus USRP, BladeRF, Airspy, SDRplay	Radio researchers and security professionals	Hardware kits/assembly Training/courses Consulting/implementation	• HackRF kits for security classes • SDR labs for universities • RF testing service for IoT makers *Angle:* Manufacture SDR boards for RF testing labs	$300-400 per radio *Effort:* Medium (Production radio needs compliance and testing) ⚠ GPL-2.0; Great Scott Gadgets trademark; radio regulation
Glasgow GlasgowEmbedded/glasgow ★ 2.2k · Permissive 0BSD · Hardware · Fit 4/5	Scots Army Knife for electronics, a reconfigurable digital interface tool *Replaces:* Saleae Logic, Bus Pirate, Total Phase Beagle, Tigard	Hardware hackers and reverse engineers	Hardware kits/assembly Training/courses Consulting/implementation	• Glasgow kits for reverse engineering classes • Embedded debug service for security labs • Teaching tool for electronics courses *Angle:* Sell electronics debug multitools to engineers	$150-300 per unit *Effort:* Medium (FPGA hardware production and QA) ⚠ 0BSD permissive; Glasgow name
NanoVNA ttrftech/NanoVNA ★ 1.4k · Check NONE · Hardware · Fit 4/5	Very tiny palmtop vector network analyzer for antenna and RF measurements *Replaces:* Keysight FieldFox, Rohde Schwarz ZVL, Anritsu MS2024	Ham radio operators and RF engineers	Hardware kits/assembly White-label reseller Training/courses	• NanoVNA kits for ham radio clubs • Antenna tuning service for cell site hobbyists • Calibration kits for makers *Angle:* Sell calibrated antenna analyzers to ham operators	$50-180 per unit *Effort:* Medium (Many clones exist, quality varies) ⚠ No license stated; NanoVNA is widely cloned
Flipper Zero Firmware flipperdevices/flipperzero-firmware ★ 16.9k · GPL GPL-3.0 · Hardware · Fit 3/5	Flipper Zero firmware for multi-tool radio, NFC, RFID and infrared hacking device *Replaces:* Proxmark, WiFi Pineapple, HackRF One	Security hobbyists and pentesters	Training/courses Premium plugins/add-ons Consulting/implementation	• Flipper Zero training for pentesters • Custom firmware packs for security teams • Radio hacking workshops for students *Angle:* Sell custom accessory boards for multi-tool devices	$150-500 per class seat *Effort:* Medium (Hardware by Flipper, firmware bundle only) ⚠ GPL-3.0; Flipper Zero trademark; misuse legal risk
OpenHantek6022 OpenHantek/OpenHantek6022 ★ 1.2k · GPL GPL-3.0 · App · Fit 3/5	DSO software for Hantek 6022BE and 6022BL USB oscilloscopes *Replaces:* Keysight BenchVue, Rigol oscilloscopes, PicoScope software	Electronics hobbyists and students	Hardware kits/assembly Training/courses Setup + support retainer	• Student oscilloscope kits for electronics classes • Preflashed Hantek 6022 bundles • Bench scope for repair shops *Angle:* Bundle USB scopes with open software for schools	$80-150 per scope kit *Effort:* Low (Desktop app, Hantek hardware third party) ⚠ GPL-3.0; Hantek trademark
Openhantek OpenHantek/openhantek ★ 831 · GPL GPL-3.0 · App · Fit 3/5	Desktop oscilloscope software for Hantek and related USB digital scopes. *Replaces:* PicoScope, Hantek vendor software, Rigol UltraScope	Hobbyists and labs running cheap USB scopes	Setup + support retainer Premium plugins/add-ons	• Scope software bundles for USB-scope resellers • Support contracts for makerspace scope fleets • Driver packs for repair shops	$15-40 per seat build, or support plan *Effort:* Medium (desktop app, device-specific drivers needed) ⚠ GPL-3.0: distributed builds ship source; Hantek is a vendor brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
SerialTool skiars/SerialTool ★ 781 · GPL GPL-3.0 · App · Fit 3/5	Cross-platform serial, TCP and UDP debugging tool for embedded developers. *Replaces:* Termite, Realterm, Docklight	Embedded engineers debugging serial and network devices	Premium plugins/add-ons Consulting/implementation	• Serial debugging for IoT device makers • Protocol test tooling for smart-meter vendors • Embedded debugging courses for hardware bootcamps	Free core; $29-59 per seat pro license *Effort:* Low (single-purpose desktop tool, easy to rebrand) ⚠ GPL-3.0: distributed builds must ship source; generic name, low trademark risk
Scopy analogdevicesinc/scopy ★ 503 · GPL GPL-3.0 · App · Fit 3/5	Software oscilloscope and signal analysis toolset from Analog Devices. *Replaces:* Digilent WaveForms, Keysight BenchVue, NI ELVIS software	Engineering students and labs using Analog Devices boards	Training/courses Setup + support retainer	• Scope training for analog design courses • Lab setup for sensor evaluation teams • Signal analysis for prototyping startups	Free app; $1500-5000 lab integration service *Effort:* Medium (vendor-branded tool, needs hardware-specific support) ⚠ GPL-3.0: Analog Devices trademark, rebrand before selling
HaasoscopePro drandyhaas/HaasoscopePro ★ 485 · Permissive MIT · Hardware · Fit 3/5	Affordable 2 GHz, 3.2 GS/s USB oscilloscope with open hardware and software. *Replaces:* Rigol and Siglent mid-range scopes, PicoScope 6000	Makers and RF labs needing fast, cheap scopes	Hardware kits/assembly Premium plugins/add-ons	• Fast scope kits for RF hobbyists • Budget scopes for university teaching labs • Assembled scopes for small repair shops	$250-400 assembled scope, software free *Effort:* High (hardware assembly, certification and supply chain) ⚠ MIT: hardware and software; EMC and safety certification needed for sales
EMBO parezj/EMBO ★ 393 · Permissive MIT · Hardware · Fit 3/5	Low-cost STM32 kit with oscilloscope, logic analyzer, voltmeter, counter and signal generator. *Replaces:* Analog Discovery 2, Digilent WaveForms hardware	Students and makers wanting cheap bench instruments	Hardware kits/assembly Training/courses	• Bench-tool kits for electronics students • Cheap logic analyzers for embedded makers • Instrument kits for vocational schools	$15-30 assembled kit, PC software free *Effort:* Medium (PCB and firmware need packaging and support) ⚠ MIT: permissive; hardware sales need electrical safety compliance
GreatFET greatscottgadgets/greatfet ★ 355 · Permissive BSD-3-Clause · Hardware · Fit 3/5	GreatFET firmware and host software for hardware debug tools *Replaces:* Bus Pirate, Total Phase Beagle, Segger J-Link	Hardware hackers and security researchers	Hardware kits/assembly Training/courses Consulting/implementation	• GreatFET kits for hardware hacking classes • USB debug tools for security labs • Hardware reverse engineering workshops *Angle:* Sell hardware hacking kits for security trainers	$100-250 per board *Effort:* Medium (Hardware manufacturing and support) ⚠ BSD-3-Clause; Great Scott Gadgets trademark
QtSerialMonitor mich-w/QtSerialMonitor ★ 270 · GPL GPL-3.0 · App · Fit 3/5	Qt desktop serial monitor with live data plotting for embedded debugging. *Replaces:* Arduino Serial Plotter, Docklight	Embedded developers plotting sensor data over serial	Premium plugins/add-ons Consulting/implementation	• Serial plotting tools for robotics teams • Sensor logging for home brewery monitoring • Data capture setups for IoT prototypers	Free source; $19-39 paid prebuilt binaries *Effort:* Low (small Qt app, simple UI to rebrand) ⚠ GPL-3.0: distributed builds ship source; Qt needs commercial license for closed apps
Openmeters httpsworldview/openmeters ★ 232 · GPL GPL-3.0 · App · Fit 3/5	Fast audio metering and visualization app for Linux desktops. *Replaces:* iZotope Insight, Waves PAZ meters, Youlean Loudness Meter	Linux audio producers and mastering engineers	Premium plugins/add-ons Consulting/implementation	• Loudness meters for podcast mastering • Linux meters for live-stream engineers • Metering setup for home studio courses	Free core; $30-60 Linux studio support plan *Effort:* Low (single-purpose desktop app, straightforward UI) ⚠ GPL-3.0: distributed builds ship source; Linux-only limits sales
Esp32_oscilloscope BojanJurca/Esp32_oscilloscope ★ 1.1k · Permissive MIT · App · Fit 2/5	ESP32 oscilloscope showing signals in a web browser as the ESP32 samples them. *Replaces:* Rigol DS1054Z, Siglent SDS1104X-E entry scopes	Hobbyist electronics makers and maker classrooms	Hardware kits/assembly Training/courses	• ESP32 scope kits for electronics classrooms • Budget debug scopes for IoT makers • Web scope tools for field technicians	$25-60 kit, software free *Effort:* Medium (ESP32 firmware needs packaging and support) ⚠ MIT; ESP32 sampling limits make it unsuitable for precise measurement

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Instro nominal-io/instro ★ 729 · Permissive Apache-2.0 · Library · Fit 2/5	Open-source library for scripting hardware test instrumentation. *Replaces:* NI LabVIEW, Keysight VEE, NI TestStand	Hardware test teams automating lab instrument rigs	Consulting/implementation Setup + support retainer	• Test automation for drone component makers • Lab automation for battery startups • Instrument scripting for university EE labs	Free library; $5k-20k test rig integration *Effort:* High (needs instrument drivers and test-specific UI) ⚠ Apache-2.0: permissive; instrument vendor SDKs may add licenses
Iio-oscilloscope analogdevicesinc/iio-oscilloscope ★ 347 · GPL GPL-2.0 · App · Fit 2/5	GTK desktop oscilloscope for interfacing with Linux Industrial I/O devices. *Replaces:* LabVIEW-based IIO tools, vendor Windows scope apps	Linux embedded engineers working with sensors	Consulting/implementation Setup + support retainer	• IIO debugging services for sensor makers • Linux sensor bring-up for robotics teams • Scope training for industrial IoT	$1000-3000 per sensor bring-up project *Effort:* Medium (GTK UI and IIO hardware dependency) ⚠ GPL-2.0: distributed builds ship source; Analog Devices trademark applies
Vectorsynthesis macumbista/vectorsynthesis ★ 316 · Permissive MIT · Library · Fit 2/5	Library for vector shapes driven by audio signals sent to scopes and lasers. *Replaces:* Pangolin Lasershow, ILDA show software	Laser show artists and oscilloscope art creators	Consulting/implementation Training/courses	• Audio-visual workshops for festivals • Laser visuals for club events • Oscilloscope art kits for art schools	Free library; $500-2000 per live visual commission *Effort:* High (art-tool library, no product layer) ⚠ MIT: permissive; laser safety standards apply to live shows
Ds1054z pklaus/ds1054z ★ 200 · Check NONE · Library · Fit 2/5	Python package controlling Rigol DS1054Z oscilloscopes over USB or network. *Replaces:* Rigol UltraScope, vendor scope SDKs	Test engineers automating Rigol scope measurements	Consulting/implementation Training/courses	• Scope automation for small EE test labs • Rigol scripting courses for students • Remote scope logging for field engineers	Free package; $800-2000 test script build *Effort:* Low (single-device Python package, easy to wrap) ⚠ MIT; Rigol is a trademark, avoid implying vendor support
PiScope ankitaggarwal011/PiScope ★ 194 · Permissive MIT · App · Fit 2/5	Turns a Raspberry Pi into an oscilloscope and XY plotter using Python. *Replaces:* Entry-level USB oscilloscopes, Analog Discovery	Makers and STEM teachers using Raspberry Pi	Hardware kits/assembly Training/courses	• Pi scope kits for STEM classrooms • XY plotter kits for maker fairs • Pi measurement labs for vocational schools	$30-60 kit with prebuilt Pi image *Effort:* Medium (needs hardware packaging and classroom docs) ⚠ MIT; Raspberry Pi is a trademark, check kit branding

Chrono vicolo-dev/chrono ★ 1.8k · GPL GPL-3.0 · App · Fit 4/5	Modern Android clock app with alarms, timer and stopwatch. *Replaces:* Google Clock, Sleep as Android, Alarmy	Android users wanting an ad-free alarm clock	Mobile app on top Premium plugins/add-ons	• Ad-free alarm app for shift workers • Timer app for kitchen-cooking classes • Clock app for hotel room tablets	Free app; $2-4 one-time pro unlock *Effort:* Medium (Play Store review, branding, new features) ⚠ GPL-3.0: distributed Android apps must ship source to users

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Clock FossifyOrg/Clock ★ 724 · GPL GPL-3.0 · App · Fit 4/5	Ad-free Android clock app combining clock, alarm, stopwatch and timer with widgets. *Replaces:* Google Clock, Samsung Clock, ad-supported clock apps	Android users wanting an ad-free clock app	Mobile app on top Premium plugins/add-ons	• Ad-free clock for elderly phone users • Alarm and timer app for school classrooms • Widget-based clock for kitchen tablets	Free app; donations or $2-3 paid version *Effort:* Medium (Play Store listing and brand assets) ⚠ GPL-3.0: distributed apps must ship source; Android is a Google trademark
Catime vladelaina/Catime ★ 5.0k · Permissive Apache-2.0 · App · Fit 3/5	Tiny C timer app with clock, countdown, stopwatch, Pomodoro and tray controls. *Replaces:* Forest, Focus Keeper, desktop timer utilities	Desktop users needing focus timers and Pomodoro sessions	Premium plugins/add-ons White-label reseller	• Pomodoro timers for remote coding teams • Tray timers for classroom exam hosts • Focus timers for study-program schools	Free core; $3-5 one-time pro skins *Effort:* Low (small Windows-focused app, easy to rebrand) ⚠ Apache-2.0 fine; Pomodoro is a registered trademark in some regions
Clock BlackyHawky/Clock ★ 1.2k · GPL GPL-3.0 · App · Fit 3/5	Customizable privacy-first open-source clock app inspired by AOSP Clock. *Replaces:* Google Clock, Samsung Clock, Xiaomi Clock	Privacy-minded Android users wanting a customizable clock	Mobile app on top Premium plugins/add-ons	• Ad-free alarm app for night-shift nurses • Customizable clock for privacy-focused families • Themed alarm app for phone resellers	Free app; $2-4 pro theme pack *Effort:* Low (simple app, theming already built in) ⚠ GPL-3.0: distributed apps ship source; Android is a Google trademark
Ntpd-rs pendulum-project/ntpd-rs ★ 1.2k · Check NOASSERTION · Tool · Fit 3/5	Full-featured Network Time Protocol implementation including NTS support. *Replaces:* Meinberg time servers, Microchip Symmetricom appliances	Network admins and time-sensitive infrastructure teams	Consulting/implementation Setup + support retainer	• Secure time servers for banks • NTS time for industrial control networks • Time sync support for data centers	Free software; $3000-10000 time-infrastructure deployment *Effort:* Medium (server software, needs appliance packaging) ⚠ NOASSERTION license: read first; NTS and time-sync security needs expert review
HGCircularSlider HamzaGhazouani/HGCircularSlider ★ 2.6k · Permissive MIT · Library · Fit 2/5	Reusable circular progress slider control for iOS applications. *Replaces:* Commercial iOS UI kits, paid Swift component libraries	iOS developers building custom slider interfaces	Premium plugins/add-ons Consulting/implementation	• Circular sliders for fitness tracker apps • Temperature controls for smart-home iOS apps • Radial sliders for music players	Free component; $50-150 paid UI kit bundle *Effort:* Low (single UI control, easy to restyle) ⚠ MIT: permissive; small UI component with unclear recent maintenance
Truetime-android instacart/truetime-android ★ 1.5k · Permissive Apache-2.0 · Library · Fit 2/5	Android library returning true network time via NTP, immune to device clock changes. *Replaces:* Commercial time-sync SDKs, GPS time services	Android developers needing tamper-resistant timestamps	Consulting/implementation Setup + support retainer	• Tamper-proof timestamps for ticketing apps • Secure time for fintech Android apps • Attendance timestamps for workforce apps	Free library; $2000-6000 integration per app *Effort:* High (library, not a product to rebrand) ⚠ Apache-2.0 fine; NTP servers have usage policies; relies on network access
UIUtil Dsiner/UIUtil ★ 1.3k · Check NONE · Library · Fit 2/5	Android UI component collection with animations, menus, sliders and drag-sorting. *Replaces:* Commercial Android UI kits, paid component marketplaces	Android developers wanting ready UI components	Premium plugins/add-ons Consulting/implementation	• Android UI kits for fitness app startups • Drag-sort lists for grocery list apps • Animated menus for restaurant ordering apps	Free library; $50-200 premium component pack *Effort:* Low (modular components, easy to pick and restyle) ⚠ NONE license: no reuse rights; components may have their own licenses
React-native-circular-slider bartgryszko/react-native-circular-slider ★ 883 · Permissive MIT · Library · Fit 2/5	React Native component for circular slider controls on mobile apps. *Replaces:* Commercial React Native UI kits	React Native developers building custom slider UIs	Premium plugins/add-ons Consulting/implementation	• Radial budget pickers for personal finance apps • Dial controls for React Native smart-home apps • Circular goal sliders for fitness apps	Free component; $300-800 custom UI build *Effort:* Low (single component, easy to restyle) ⚠ MIT: permissive; small component, check React Native version support

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Peaclock octobanana/peaclock ★ 806 · Permissive MIT · App · Fit 2/5	Responsive terminal clock, timer and stopwatch with customizable layouts. *Replaces:* Desktop timer apps, Pomodoro trackers	Terminal users wanting a clock and timer	Premium plugins/add-ons Content/membership	• Terminal clock screens for office lobbies • Stopwatch tools for sports coaches • Timer dashboards for remote workshops	Free; $5-10 paid custom theme pack *Effort:* Low (small terminal app, easy to restyle) ⚠ MIT: permissive; small terminal app, limited business value
Widgets widget-js/widgets ★ 741 · Check NONE · App · Fit 2/5	Desktop widgets for Windows built with React. *Replaces:* Rainmeter, 8GadgetPack, Windows widget apps	Windows users wanting custom desktop widgets	Premium plugins/add-ons Marketplace	• Office dashboard widgets for small businesses • Live KPI widgets for trading desks • Desktop widgets for kiosk displays	Free app; $5-15 paid widget packs *Effort:* Medium (widget set needs packaging and testing) ⚠ NONE license: no reuse rights without permission; Windows code signing needed
Literature-clock JohsEnevoldsen/literature-clock ★ 719 · Check NOASSERTION · App · Fit 2/5	Clock showing the time through literary quotes, based on Jaap Meijers' concept. *Replaces:* The Literature Clock book, quote-of-the-day apps	Book lovers and gift-shop customers	Content/membership Premium plugins/add-ons	• Quote clocks for libraries • Literary gift clock kits for bookshops • Reading-time displays for book clubs	Free code; $25-45 printed quote clock kit *Effort:* Medium (quote data and book rights need clearing) ⚠ NOASSERTION license: read first; quote texts may carry copyright

Water Monitoring & Purification · 21

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenCTD OceanographyforEveryone/OpenCTD ★ 226 · Permissive MIT · Hardware · Fit 4/5	Low-cost open source CTD sensor for ocean researchers and citizen scientists *Replaces:* Sea-Bird SBE CTD, RBR instruments, Valeport CTD	Marine researchers and citizen scientists	Hardware kits/assembly Training/courses Consulting/implementation	• CTD kits for coastal NGOs • Teaching oceanography kits • Water quality probes for aquaculture *Angle:* Sell low-cost ocean CTD probes to researchers	$300-700 per kit *Effort:* Medium (Needs waterproofing and calibration) ⚠ MIT; sensor accuracy limits
EnviroDIY ModularSensors EnviroDIY/ModularSensors ★ 90 · Check NOASSERTION · Library · Fit 3/5	Arduino library giving environmental sensors a common interface of functions *Replaces:* Campbell Scientific dataloggers, HOBO loggers, Onset sensors	Environmental researchers and watershed groups	Hardware kits/assembly Consulting/implementation Training/courses	• Stream monitoring loggers for watershed groups • Water quality sensors for universities • Data loggers for citizen science *Angle:* Sell stream monitoring stations to watershed groups	$300-900 per station *Effort:* Medium (Library needs hardware and Monitor My Watershed) ⚠ Custom license read first; Monitor My Watershed dependence
Aquascope Rekin226/aquascope ★ 31 · Permissive MIT · App · Fit 3/5	Browser tool to explore river records and run reproducible water analyses. *Replaces:* Aquarius Time-Series, Hydstra, Excel-based hydrology sheets	Hydrologists and water analysts at small agencies	Vertical SaaS Consulting/implementation	• River data dashboards for flood watch groups • Hydrology analysis for small water agencies • Reproducible reports for environmental consultancies	Free app; $30-80/mo per team workspace *Effort:* Medium (needs hosting, accounts and data connectors) ⚠ MIT; river data sources have their own open-data terms, check each
sensors.AFRICA CodeForAfrica/sensors.AFRICA ★ 26 · GPL GPL-3.0 · Platform · Fit 3/5	Citizen science platform from Code for Africa for air and water sensor data *Replaces:* PurpleAir, Airly, OpenAQ platforms	NGOs and city governments in Africa	Managed hosting Consulting/implementation Training/courses	• Sensor data dashboards for city governments • Air quality networks for African NGOs • Citizen sensing workshops *Angle:* Deploy community water and air sensors with NGOs	$200-800/mo per deployment *Effort:* Medium (Platform for sensor.community style networks) ⚠ GPL-3.0; Code for Africa branding
Water-Monitoring-System vinitshahdeo/Water-Monitoring-System ★ 156 · Permissive MIT · Hardware · Fit 2/5	IoT liquid level monitoring system that alerts users on overflow or low levels. *Replaces:* Tank Utility, Senet tank sensors	Facilities managers watching water tanks	Hardware kits/assembly Setup + support retainer	• Tank overflow alerts for hotel facilities • Water level monitors for farm irrigation • Storage tank alarms for small dairy farms	$80-200 per sensor kit, $5/mo alerts *Effort:* Medium (sensors, enclosure and alerts need packaging) ⚠ MIT: permissive; IoT devices need electrical and radio certification

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Pool-monitor-card wilsto/pool-monitor-card ★ 130 · **Permissive** MIT · Tool · Fit 2/5	Card-style pool water chemistry monitor covering up to 25 parameters. *Replaces:* Hayward and Pentair pool monitors, Pool Stats services	Pool owners and pool service technicians	Setup + support retainer Consulting/implementation	• Chemistry dashboards for pool service companies • Smart pool setups for vacation rentals • Pool monitoring for hotel spa staff	$150-400 per pool setup, or monthly service *Effort:* Medium (sensor integrations vary by pool equipment) ⚠ MIT; pool chemistry advice carries safety liability, add disclaimers
Tubby mzakharo/tubby ★ 118 · **Permissive** MIT · Hardware · Fit 2/5	Hot tub and pool water quality sensor *Replaces:* Sutro, Flipr, Blueriiot Blue Connect	Pool and hot tub owners	Hardware kits/assembly Mobile app on top Setup + support retainer	• Hot tub sensors for rental hosts • Pool monitors for homeowners • Water sensors for vacation rental managers *Angle:* Sell hot tub water-quality monitors to pool services	$80-160 per sensor *Effort:* Medium (Hobby project, sensors need calibration) ⚠ MIT; pool chemical safety
EGRET DOI-USGS/EGRET ★ 101 · **Check** NOASSERTION · Library · Fit 2/5	R package for analyzing long-term water quality and streamflow changes, including WRTDS. *Replaces:* Commercial hydrology software, paid water-quality consultancies	Water agencies and environmental consultants	Consulting/implementation Training/courses	• Stream quality reports for watershed councils • WRTDS analysis for utility compliance teams • R training for environmental consultants	Free package; $150-250/hr analysis consulting *Effort:* High (scientific R package, needs domain UI) ⚠ NOASSERTION license: read first; USGS work may be public domain
Water-quality-gee SERVIR/water-quality-gee ★ 97 · **Permissive** MIT · Library · Fit 2/5	Google Earth Engine scripts for water quality analysis. *Replaces:* Sentinel Hub services, commercial remote sensing vendors	Environmental consultancies doing satellite water monitoring	Consulting/implementation Setup + support retainer	• Lake quality reports for water utilities • Satellite water checks for farm co-ops • Reservoir monitoring for mining firms	Free scripts; $2000-6000 satellite monitoring study *Effort:* High (scripts need pipeline and data sourcing) ⚠ MIT; Earth Engine terms and satellite data licenses apply
Phreeqpython Vitens/phreeqpython ★ 93 · **Permissive** Apache-2.0 · Library · Fit 2/5	Object-oriented Python wrapper for the VIPhreeqc geochemistry module. *Replaces:* PHREEQC GUI tools, Geochemist's Workbench	Hydrogeologists and water treatment engineers	Consulting/implementation Training/courses	• Groundwater chemistry modeling for drilling firms • Water treatment dosing studies for utilities • Geochemistry training for environmental consultants	Free wrapper; $150-250/hr geochemical modeling *Effort:* High (scientific wrapper, needs domain-specific UI) ⚠ Apache-2.0 fine; underlying PHREEQC and VIPhreeqc code has its own terms
Cmf philippkraft/cmf ★ 63 · **GPL** GPL-3.0 · Library · Fit 2/5	Hydrologic modelling toolbox for catchment simulation. *Replaces:* MIKE SHE, HEC-HMS, commercial catchment modeling suites	Hydrology consultants and water resource planners	Consulting/implementation Training/courses	• Flood modeling for municipal planners • Catchment studies for mining permits • Hydrology courses for civil engineering students	Free toolbox; $3000-10000 catchment modeling study *Effort:* High (research toolbox, heavy modeling expertise) ⚠ GPL-3.0: distributed builds ship source; model outputs need expert review
WaterQuality yuntech-bdrc/WaterQuality ★ 56 · **Check** NONE · Model · Fit 2/5	Explainable machine learning model that classifies water quality. *Replaces:* Hach water testing software, manual lab classification	Water utilities and environmental labs	API/usage-based Consulting/implementation	• Water safety scoring for rural utilities • Explainable quality checks for aquaculture farms • Lab sample triage for environmental labs	$500-1500/mo API tier, or model tuning *Effort:* Medium (model needs retraining on local data) ⚠ NONE license: no reuse rights; water-quality decisions need regulatory validation
Waterquality RAJohansen/waterquality ★ 53 · **Check** NOASSERTION · Library · Fit 2/5	Package detecting water quality and cyanobacterial blooms from remote sensing. *Replaces:* Commercial satellite algae monitoring, bloom alert services	Lake managers and water quality monitoring agencies	Consulting/implementation Setup + support retainer	• Bloom alerts for lake-resort operators • Algae monitoring for drinking-water utilities • Satellite reports for fisheries agencies	Free package; $3000-8000 bloom monitoring contract *Effort:* High (remote sensing pipeline needs heavy work) ⚠ NOASSERTION license: read first; satellite data source terms may restrict use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BASINS respec/BASINS ★ 34 · Check NONE · Tool · Fit 2/5	EPA BASINS source repository for watershed and water quality modeling. *Replaces:* Commercial watershed modeling suites, paid TMDL software	State agencies and watershed modeling consultants	Consulting/implementation Training/courses	• TMDL modeling studies for state agencies • Watershed planning for county councils • BASINS training for consulting engineers	Free software; $4000-12000 TMDL modeling study *Effort:* High (government tool, complex setup and data) ⚠ NONE license: no reuse rights; use EPA official releases as reference
Glm-aed AquaticEcoDynamics/glm-aed ★ 34 · GPL GPL-3.0 · Tool · Fit 2/5	Software for simulating aquatic ecosystems, home of the GLM-AED project. *Replaces:* DHI MIKE lake models, commercial limnology services	Lake scientists and reservoir management agencies	Consulting/implementation Training/courses	• Reservoir water quality forecasts for utilities • Lake eutrophication studies for councils • Aquatic modeling courses for limnology students	Free software; $5000-15000 lake modeling project *Effort:* High (research model, expert setup required) ⚠ GPL-3.0: hosting fine; distributed builds must ship source
IoT-WQMS pkErbynn/IoT-WQMS ★ 30 · Check NONE · Hardware · Fit 2/5	IoT water quality monitoring system with notifications for fish farmers *Replaces:* YSI aquaculture sensors, Atlas Scientific, AquaManager	Small fish farmers	Hardware kits/assembly Mobile app on top Setup + support retainer	• Pond monitors for small fish farms • Water alerts for tilapia farmers • Hatchery monitoring kits *Angle:* Install water monitoring for fish ponds	$150-400 per pond kit *Effort:* Medium (Student project, sensors need calibration) ⚠ No license stated
SmartWater smart-data-models/SmartWater ★ 29 · Check NOASSERTION · Library · Fit 2/5	Open data model schemas for water management, wastewater and water quality. *Replaces:* Proprietary utility data models, consultancy schema work	Utility IT teams and smart-city integrators	Consulting/implementation Training/courses	• Data model setup for water utilities • Smart-city water integration for municipal IT • Schema training for utility software vendors	Free schemas; $5000-20000 utility data integration *Effort:* High (schemas, not a product; needs a platform) ⚠ NOASSERTION license: read first; standards-body terms may apply
Ha-netro-watering kcofoni/ha-netro-watering ★ 26 · Permissive Apache-2.0 · Tool · Fit 2/5	Home Assistant integration for Netro Smart Garden irrigation. *Replaces:* Rachio, Orbit B-hyve, Netro's own app	Smart-home users with Netro irrigation systems	Setup + support retainer Consulting/implementation	• Smart irrigation setup for landscaping crews • Home Assistant installs for garden-centre owners • Irrigation automation for community gardens	Free integration; $100-250 per smart-home setup *Effort:* Low (single integration, easy to fork) ⚠ Apache-2.0 fine; Netro is a third-party brand, avoid implying partnership
Wsi ImperialCollegeLondon/wsi ★ 23 · Permissive BSD-3-Clause · Tool · Fit 2/5	Software simulating water quantity and quality in water systems. *Replaces:* InfoWorks WS, Mike Urban, commercial urban water models	Water utilities and urban drainage planners	Consulting/implementation Training/courses	• Drainage modeling for city councils • Water balance studies for housing developers • Modeling courses for civil engineering programs	Free software; $4000-12000 modeling study *Effort:* High (research modeling tool, needs validation) ⚠ BSD-3-Clause fine; model outputs need calibration and expert sign-off
ToxEval DOI-USGS/toxEval ★ 22 · Check NOASSERTION · Library · Fit 2/5	R package analyzing, visualizing and organizing measured chemical concentration data. *Replaces:* Commercial environmental data analytics, toxicity screening tools	Environmental scientists and water quality analysts	Consulting/implementation Training/courses	• Toxicity screening for stormwater permit teams • Chemical data reports for river monitoring groups • R analytics courses for public health labs	Free package; $1500-4000 contaminant data analysis *Effort:* High (analysis package, needs data-pipeline wrapper) ⚠ NOASSERTION license: read first; benchmark data sources may have own terms
EzoGateway 100prznt/EzoGateway ★ 19 · Permissive MIT · App · Fit 2/5	UWP app bringing Atlas Scientific EZO devices to the Internet of Things with REST API *Replaces:* Atlas Scientific gateways, YSI Aquaread	Aquaponics and water sensor hobbyists	Setup + support retainer Consulting/implementation Hardware kits/assembly	• EZO sensor gateways for hydroponic growers • Water probes for aquaculture hobbyists • Water-lab IoT for schools *Angle:* Sell aquaculture water probes integrated with dashboards	$100-250 per gateway *Effort:* Medium (UWP app tied to Windows IoT) ⚠ MIT; Atlas Scientific trademark

Wearables · 23

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Omi BasedHardware/omi ★ 13.9k · Permissive MIT · Hardware · Fit 4/5	Wearable AI device and app that listens to conversations, transcribes, summarizes and suggests actions. *Replaces:* Limitless, Plaud, Otter.ai, Rewind, Humane Pin	Busy professionals wanting AI meeting memory	Hardware kits/assembly Mobile app on top Vertical SaaS	• AI recorder for sales reps • Memory pendant for dementia caregivers • Meeting capture wearable for clinicians *Angle:* Sell AI wearable pendants	$89 device plus $15/mo subscription *Effort:* High (Hardware supply chain, firmware, cloud backend) ⚠ Recording consent laws; Omi brand is trademarked
OpenGlass BasedHardware/OpenGlass ★ 4.2k · Permissive MIT · Hardware · Fit 3/5	Open hardware and software kit adding AI vision and audio to ordinary glasses. *Replaces:* Ray-Ban Meta, Envision Glasses, Be My Eyes hardware	Makers and accessibility product builders	Hardware kits/assembly Consulting/implementation Training/courses	• AI glasses for low-vision users • Glasses kit for museum guides • DIY AI glasses workshop kits *Angle:* Sell AI camera glasses clip-ons	$120-200 per DIY kit *Effort:* High (Custom hardware, sourcing, battery and camera tuning) ⚠ Camera privacy rules; hobby-grade hardware reliability
ZSWatch ZSWatch/ZSWatch ★ 3.4k · GPL GPL-3.0 · Hardware · Fit 3/5	Open-source smartwatch with Zephyr-based firmware and open hardware design. *Replaces:* Garmin, Amazfit, Fitbit smartwatches	Developers and small brands building custom smartwatches	Hardware kits/assembly Premium plugins/add-ons	• Custom watch kits for maker communities • Branded smartwatches for event staff • Open-source watches for wearables courses	$120-250 assembled watch, firmware free *Effort:* High (hardware, certification and battery safety) ⚠ GPL-3.0: distributed firmware ships source; Zephyr is a Linux Foundation trademark
InfiniTime InfiniTimeOrg/InfiniTime ★ 3.4k · GPL GPL-3.0 · Hardware · Fit 3/5	Open firmware for the PineTime smartwatch built on FreeRTOS. *Replaces:* Fitbit, Pebble, Apple Watch basics	Privacy-focused hobbyists and developers	Hardware kits/assembly Setup + support retainer Content/membership	• Privacy smartwatch for journalists • Dev watch kit for schools • Flashing service for PineTime owners *Angle:* Sell open smartwatches preloaded for privacy users	$30-60 flashed watch or service *Effort:* High (Requires hardware, firmware flashing, limited features) ⚠ GPL-3.0 firmware; distributed builds must ship source
Watchy sqfmi/Watchy ★ 2.9k · Permissive MIT · Hardware · Fit 3/5	Open source e-ink smartwatch hardware with Arduino-based firmware. *Replaces:* Pebble, Fitbit, Garmin basics	Makers, educators, hardware tinkerers	Hardware kits/assembly Training/courses Content/membership	• Watchy classroom coding kits • Custom watch faces marketplace • E-ink watch for outdoor workers *Angle:* Sell e-paper watch kits and custom cases	$50-80 per kit *Effort:* High (Hardware manufacturing and logistics needed) ⚠ Check hardware license terms; hobby-grade battery life
Wasp-os wasp-os/wasp-os ★ 945 · GPL GPL-3.0 · Platform · Fit 3/5	MicroPython development environment and firmware for PineTime smartwatches. *Replaces:* Pebble SDK, Zepp OS SDK	Hobbyists and developers building PineTime apps	Hardware kits/assembly Training/courses	• PineTime app training for embedded students • Custom watch faces for PineTime resellers • Watch firmware prototyping for wearable startups	Free firmware; $25-50 preloaded PineTime watch *Effort:* Medium (needs watch faces, apps and branding) ⚠ GPL-3.0: distributed firmware ships source; PineTime and Pine64 are brand names
Edge OpenStrap/edge ★ 884 · AGPL AGPL-3.0 · App · Fit 3/5	App for using health devices without subscriptions, with workouts, sleep, nutrition and recovery tracking. *Replaces:* Whoop, Oura subscriptions, Polar Flow	Fitness wearable owners avoiding subscription fees	Mobile app on top Premium plugins/add-ons	• Subscription-free sleep app for wearable band users • Recovery tracking for amateur runners • Nutrition logs for personal trainers	Free app; $4.99-9.99 one-time pro features *Effort:* High (device protocols and health data compliance) ⚠ AGPL-3.0: hosted modifications publish source; health-data regulation may apply
Bangle.js Apps espruino/BangleApps ★ 582 · Permissive MIT · Hardware · Fit 3/5	App loader and app collection for Bangle.js JavaScript smartwatches. *Replaces:* Garmin, Fitbit, Pebble	Makers and developers of wearables	Hardware kits/assembly Premium plugins/add-ons Training/courses	• Custom Bangle.js apps for sports clubs • Hiking watch apps for guides • Watch coding classes for schools *Angle:* Sell hackable smartwatches with custom apps	$100-200 per watch, paid custom apps *Effort:* Medium (Web app loader; hardware is third party) ⚠ Tied to Bangle.js hardware vendor

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenVision rayl15/OpenVision ★ 192 · **Permissive** MIT · App · Fit 3/5	Open-source iOS app connecting Meta Ray-Ban glasses to AI with multiple backends. *Replaces:* Meta AI app, Be My Eyes	Glasses owners wanting AI assistants on iPhone	Mobile app on top API/usage-based	• Visual assistant for low-vision users • Hands-free note taking for field technicians • AI tour guide for museum visitors	Free app; $5-10/mo for managed AI keys *Effort:* Medium (multiple AI backends and device pairing) ⚠ MIT; Meta and Ray-Ban are trademarks; AI and camera privacy rules apply
OV-Watch No-Chicken/OV-Watch ★ 2.6k · **GPL** GPL-3.0 · Hardware · Fit 2/5	Powerful STM32-based smartwatch running FreeRTOS and the LVGL graphics library. *Replaces:* Amazfit, Fitbit, cheap Chinese smartwatches	Embedded makers building custom smartwatch projects	Hardware kits/assembly Training/courses	• STM32 watch kits for embedded courses • Custom watch builds for makers' clubs • LVGL watch UI training for embedded teams	$80-150 assembled watch kit *Effort:* High (hardware, firmware and enclosure work) ⚠ GPL-3.0: distributed firmware ships source; wearable radio and battery safety rules
OpenSourceSmartGlasses Mentra-Community/OpenSourceSmartGlasses ★ 1.2k · **Check** NONE · Hardware · Fit 2/5	Open-source smart glasses designed as all-day wearable and extensible for makers. *Replaces:* Meta Ray-Ban glasses, Even Realities G1, Brilliant Labs Frame	Makers and startups building wearable AR products	Hardware kits/assembly Premium plugins/add-ons	• Assistive smart glasses for field technicians • Captioned glasses for hearing-impaired classes • Open glasses dev kits for AR startups	$300-600 dev kit; app software free *Effort:* High (hardware, optics, and wireless certification) ⚠ NONE license: no reuse rights; wireless and eye-safety regulations apply
Open-Smartwatch Open-Smartwatch/open-smartwatch-os ★ 1.1k · **GPL** GPL-3.0 · Hardware · Fit 2/5	Open operating system for DIY ESP32-based smartwatches. *Replaces:* Fitbit, Garmin, Apple Watch	Makers and embedded developers	Hardware kits/assembly Training/courses Setup + support retainer	• DIY smartwatch kits for STEM classes • Custom watch firmware for events • Open watch for researchers *Angle:* Sell DIY smartwatch kits	$40-70 per kit *Effort:* High (Hardware product, small ecosystem) ⚠ GPL-3.0; hardware design licensing varies
AsteroidOS AsteroidOS/asteroid ★ 1.1k · **GPL** GPL-2.0 · Hardware · Fit 2/5	Linux-based open operating system for Android Wear smartwatches. *Replaces:* Wear OS, Pebble, Fitbit	Hobbyists reviving old smartwatches	Setup + support retainer Consulting/implementation Content/membership	• Revive old smartwatches service • Linux watch for developers • Privacy watch flashing service *Angle:* Refurbish old smartwatches with AsteroidOS	$20-40 per flash service *Effort:* High (Limited device support, community project) ⚠ GPL-2.0; device compatibility limited
Tapq spaceamoeba-t/tapq ★ 647 · **Permissive** Apache-2.0 · App · Fit 2/5	Voice front-end for talking with AI coding agents, answering prompts and giving instructions. *Replaces:* Wispr Flow, Talon Voice, Superwhisper	Developers who want hands-free coding sessions	Premium plugins/add-ons API/usage-based	• Hands-free coding for accessibility users • Voice control for pair-programming teams • Voice agents for on-call engineers	Free core; $10-20/mo voice usage tier *Effort:* Medium (voice pipeline, API keys, latency tuning) ⚠ Apache-2.0 fine; voice APIs and Claude Code terms apply, check vendor limits
My-TTGO-Watch sharandac/My-TTGO-Watch ★ 602 · **GPL** GPL-2.0 · Hardware · Fit 2/5	ESP32 smartwatch GUI firmware supporting several T-Watch and M5 boards. *Replaces:* Pebble watch firmware, commercial ESP32 watch SDKs	Embedded hobbyists building custom ESP32 watches	Hardware kits/assembly Training/courses	• ESP32 watch builds for makers' clubs • Watch firmware training for embedded courses • Custom ESP32 watches for event staff	$40-90 preloaded ESP32 watch, firmware free *Effort:* Medium (multiple boards, firmware and enclosure) ⚠ GPL-2.0: distributed firmware ships source; LilyGO and M5 are brand names
Waveshare-watch-rs infinition/waveshare-watch-rs ★ 381 · **Check** NOASSERTION · Starter · Fit 2/5	Rust no_std smartwatch firmware for a Waveshare ESP32-S3 touch AMOLED board.	Embedded Rust developers building wearable firmware	Consulting/implementation Training/courses	• Rust firmware training for embedded teams • Board-specific watch firmware for kit makers • Rust wearable prototypes for startups	Free firmware; $150-300/hr embedded Rust work *Effort:* High (board-specific firmware, small community) ⚠ NOASSERTION license: read first; Waveshare board brand, verify reuse terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OpenEarable OpenEarable/open-earable ★ 343 · **Permissive** MIT · Hardware · Fit 2/5	Arduino firmware for open research earbuds with sensors. *Replaces:* Apple AirPods Pro, Jabra Sport, Bose Sport Earbuds	Researchers and wearable developers	Consulting/implementation Hardware kits/assembly Training/courses	• Earbud sensing kits for universities • Posture-tracking earbuds for therapists • Hearing research earbud platform *Angle:* Sell sensing earbuds to research labs	$150-300 per research kit *Effort:* High (Research hardware, low volume) ⚠ Hardware design license; research-grade stability
PulseSensorPlayground WorldFamousElectronics/PulseSensorPlayground ★ 235 · **Permissive** MIT · Library · Fit 2/5	Arduino library collecting PulseSensor heart-rate projects and example code. *Replaces:* Polar H10 SDKs, commercial pulse-sensor modules	Makers and students building heart-rate projects	Hardware kits/assembly Training/courses	• Pulse-sensor kits for biology classrooms • Heart-rate prototypes for wearable startups • Pulse monitoring labs for nursing schools	Free library; $15-30 pulse sensor kit *Effort:* Low (example library, easy to fork) ⚠ MIT: permissive; medical-style heart-rate claims need regulatory caution
InkWatchy Szybet/InkWatchy ★ 227 · **GPL** GPL-3.0 · Hardware · Fit 2/5	E-ink watch firmware for the open-source Watchy and Yatchy watches, with extra features. *Replaces:* Pebble-style e-paper watches, Fossil hybrid watches	E-ink watch hobbyists and maker communities	Hardware kits/assembly Premium plugins/add-ons	• Assembled e-ink watch kits for makers • Watch faces for e-ink retro fans • E-paper watch firmware for STEM clubs	$60-120 preflashed Watchy kit, firmware free *Effort:* Medium (hardware variants and firmware maintenance) ⚠ GPL-3.0: distributed firmware ships source; Watchy hardware licenses vary
SmartGlassesManager Mentra-Community/SmartGlassesManager ★ 216 · **Permissive** MIT · Framework · Fit 2/5	Smart glasses framework aiming for one app across many smart glasses. *Replaces:* Meta glasses SDKs, vendor AR SDKs	AR app developers targeting smart glasses hardware	API/usage-based Consulting/implementation	• Captioning apps for smart glasses users • Warehouse pick-lists for glasses-wearing staff • Translation overlays for travel guides	Free SDK; $5000-15000 per glasses app build *Effort:* Medium (per-device integration and UI work) ⚠ MIT; smart-glasses camera and mic privacy rules vary by region
Gateway-Smartwatch RoboticWorx/Gateway-Smartwatch ★ 214 · **Check** NOASSERTION · Hardware · Fit 2/5	Build kit and instructions for a DIY ESP32 Gateway smartwatch project.	Makers wanting a DIY ESP32 smartwatch	Hardware kits/assembly Training/courses	• DIY watch kits for maker camps • ESP32 watch builds for electronics clubs • Smartwatch soldering workshops for teens	$50-100 parts kit, instructions free *Effort:* Medium (parts sourcing and enclosure design) ⚠ NOASSERTION license: read first; single-creator project, verify reuse rights
Wear-pico umutsevdi/wear-pico ★ 209 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Open-source smartwatch firmware written in C for the Raspberry Pi Pico. *Replaces:* Pebble-style watch firmware, commercial Pico watch kits	Embedded makers building Pico-based watches	Hardware kits/assembly Training/courses	• Pico watch kits for coding clubs • Embedded C watch courses for students • DIY watch builds for STEM camps	$40-80 Pico watch kit, firmware free *Effort:* Medium (hardware variants and display drivers) ⚠ GPL-3.0: distributed firmware ships source; Raspberry Pi is a trademark
ZSWatch jakkra/ZSWatch ★ 92 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Open Zephyr-based smartwatch with hardware and firmware designs. *Replaces:* Fitbit, Garmin, Pebble	Embedded developers and hobbyists	Hardware kits/assembly Training/courses Setup + support retainer	• Zephyr RTOS learning watch kit • Dev watch for IoT teams • Assembled watches for makers *Angle:* Manufacture open Zephyr smartwatches	$90-150 per assembled watch *Effort:* High (Hardware assembly, small project) ⚠ GPL-3.0; hardware needs sourcing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
WeeWX weewx/weewx ★ 1.2k · **GPL** GPL-3.0 · Tool · Fit 4/5	Weather station data logger and report generator with web pages *Replaces:* Weather Underground station tools, Davis WeatherLink	Weather station owners	Hardware kits/assembly Setup + support retainer Managed hosting	• Weather station installs for farms • School weather station kit • Marina wind station dashboards *Angle:* Install farm weather stations with hosted dashboards	$300-900 per station *Effort:* Medium (Python app, extensive drivers) ⚠ GPL-3.0; sensor hardware calibration

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
rtl_433 merbanan/rtl_433 ★ 7.9k · GPL GPL-2.0 · Tool · Fit 3/5	Decodes ISM-band radio signals from weather sensors, remotes and other sensors using SDR dongles. *Replaces:* Davis Instruments, Ambient Weather hubs, Honeywell sensor hubs	Smart home hobbyists and sensor integrators	Hardware kits/assembly Setup + support retainer Vertical SaaS	• Sensor gateway for vacation rentals • Radio sensor hub for greenhouses • Utility meter reader for landlords *Angle:* Sell receivers that integrate cheap weather sensors into smart homes	$99 hardware hub plus $5/mo cloud *Effort:* Medium (CLI tool, needs gateway packaging) ⚠ GPL-2.0; RF regulations by region
ESP32 Weather EPD lmarzen/esp32-weather-epd ★ 6.3k · GPL GPL-3.0 · Hardware · Fit 3/5	Low-power e-paper weather display on ESP32 using OpenWeatherMap data. *Replaces:* Netatmo displays, Acurite displays, La Crosse stations	Home users, small shops, offices	Hardware kits/assembly Content/membership Mobile app on top	• E-paper weather display for cafes • Surf conditions display for beach shops • Weather panel for farm stands *Angle:* Sell e-paper weather displays as gifts	$79-129 assembled display *Effort:* Medium (Firmware configurable, hardware assembly required) ⚠ GPL-3.0; depends on OpenWeatherMap API terms
ESPTimeCast mfactory-osaka/ESPTimeCast ★ 1.6k · Check NOASSERTION · Hardware · Fit 3/5	WiFi LED matrix clock and weather display built on ESP8266/ESP32 with MAX7219. *Replaces:* Divoom Pixoo clocks, LaMetric Time, Nixie clocks	Office lobbies, makers and retro-clock buyers	Hardware kits/assembly Premium plugins/add-ons	• Lobby time displays for small offices • Weather LED clocks for home makers • Retro LED clocks for cafe owners	$30-60 assembled clock, firmware free *Effort:* High (hardware enclosures and electrical safety) ⚠ NOASSERTION license: read first; electronics sales need CE/FCC compliance
Acuparse acuparse/acuparse ★ 64 · AGPL AGPL-3.0 · App · Fit 3/5	Captures, stores and displays AcuRite weather station data, then uploads it to weather networks. *Replaces:* AcuRite Access dashboards, Weather Underground Pro	Home weather station owners on AcuRite hardware	Managed hosting Setup + support retainer	• Weather pages for neighborhood station clubs • Station upload setup for CWOP volunteers • Weather dashboards for campground owners	$10-25/mo managed hosting per station *Effort:* Medium (AcuRite device support and hosting work) ⚠ AGPL-3.0: hosted changes publish source; AcuRite is a trademark
Esp8266-weather-station ThingPulse/esp8266-weather-station ★ 1.1k · Permissive MIT · Library · Fit 2/5	ESP8266 weather station library supporting OpenWeatherMap, Aeris and other sources. *Replaces:* Commercial weather display kits, Netatmo displays	Makers building DIY weather displays	Hardware kits/assembly Consulting/implementation	• Weather displays for hotel reception desks • DIY forecast panels for farm offices • Weather kiosks for school science fairs	Free library; $40-80 display kit *Effort:* Medium (display hardware and API key handling) ⚠ MIT: permissive; weather API terms and rate limits apply
Esp8266-weather-station-color ThingPulse/esp8266-weather-station-color ★ 602 · Permissive MIT · Library · Fit 2/5	Color ESP8266 weather station using a 240x320 ILI9341 TFT display. *Replaces:* Commercial color weather displays	Makers wanting colour weather dashboards	Hardware kits/assembly Consulting/implementation	• Colour weather boards for office receptions • Weather dashboards for home-brew hobbyists • Forecast displays for garden centres	$25-50 display kit, software free *Effort:* Medium (display drivers and layout need rework) ⚠ MIT: permissive; third-party display and weather API terms apply
ESPHome Weather Station hugokernel/esphome-weather-station ★ 344 · Permissive MIT · Hardware · Fit 2/5	ESPHome configuration for the Elektor weather station v2. *Replaces:* Davis Instruments, Ambient Weather, Netatmo	Smart home hobbyists	Hardware kits/assembly Setup + support retainer Training/courses	• Weather station for school gardens • Home Assistant weather kit • Farm microclimate sensor kits *Angle:* Sell solar weather station kits for vineyards	$80-150 per kit *Effort:* Medium (Config for existing hardware design) ⚠ Hardware license unclear; niche
Weewx-belchertown poblabs/weewx-belchertown ★ 224 · GPL GPL-3.0 · Starter · Fit 2/5	Modern weewx web skin with live updates, forecasts and interactive charts. *Replaces:* Weather Underground dashboards, Ambient Weather web portals	Home weather station owners running weewx	Premium plugins/add-ons Setup + support retainer	• Weather pages for neighborhood station networks • Dashboard skins for school weather clubs • Station websites for vineyard owners	Free skin; $50-150 custom theme setup *Effort:* Low (skin template, easy to restyle) ⚠ GPL-3.0: distributed skins ship source; relies on weewx GPL core
Raspberry Pi Weather Station ARCHIVED RaspberryPiFoundation/weather-station ★ 188 · Check NOASSERTION · Hardware · Fit 2/5	Data logging code for the Raspberry Pi Oracle Weather Station HAT. *Replaces:* Davis Instruments, Netatmo, Ambient Weather	Schools and educators	Training/courses Hardware kits/assembly Consulting/implementation	• School weather station program • Weather data logging for STEM clubs • Citizen science weather kits *Angle:* Sell school weather station kits with curriculum	$150-250 per classroom kit *Effort:* Medium (Hardware tied to Raspberry Pi HAT) ⚠ NOASSERTION license; read it first

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Weatherstation byte4geek/weatherstation ★ 154 · **Permissive** MIT · Hardware · Fit 2/5	ESP8266 smart weather station with a responsive web dashboard and dynamic sensor detection. *Replaces:* Ambient Weather stations, Davis Vantage Pro	Hobbyists and small farms wanting local weather data	Hardware kits/assembly Premium plugins/add-ons	• Farm weather stations for small orchards • Local weather logs for school science labs • Station kits for home-garden enthusiasts	$60-120 kit, web dashboard free *Effort:* Medium (sensor calibration and enclosure work) ⚠ MIT; weather sensor accuracy claims need calibration documentation
Solar_WiFi_Weather_Station 3KUdelta/Solar_WiFi_Weather_Station ★ 117 · **Check** NONE · Hardware · Fit 2/5	Solar-powered WiFi weather station using a Zambretti forecaster. *Replaces:* Davis and Ambient weather stations with forecasts	Off-grid homeowners and solar hobbyists	Hardware kits/assembly Training/courses	• Solar weather boxes for remote farms • Forecast stations for off-grid cabins • Solar weather kits for STEM outreach	$80-150 kit, forecaster code free *Effort:* Medium (solar power and enclosure design needed) ⚠ NONE license: no reuse rights; forecast accuracy claims need caveats
Ha_trmnl_weather_station TilmanGriesel/ha_trmnl_weather_station ★ 101 · **Permissive** MIT · Starter · Fit 2/5	Home Assistant weather station display for the TRMNL e-ink device.	TRMNL owners running Home Assistant	Premium plugins/add-ons Setup + support retainer	• E-ink weather boards for office lobbies • Home Assistant displays for smart-home installers • E-ink forecast panels for cafe owners	Free template; $30-80 device setup service *Effort:* Low (template for one device, easy to restyle) ⚠ MIT; TRMNL is a third-party device brand, avoid implying partnership
Volna42BW NC22/Volna42BW ★ 93 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Weather station firmware for ESP8266 or ESP32 with a black-and-white display. *Replaces:* Netatmo, Ambient Weather, Acurite	Hobbyists	Hardware kits/assembly Setup + support retainer Content/membership	• Weather desk display kits • Garden weather display for greenhouses • Gift weather clock for kids *Angle:* Sell e-ink home weather clocks	$40-70 per kit *Effort:* Medium (Small hobby project, hardware sourcing) ⚠ GPL-3.0; tiny community
Weewx-docker felddy/weewx-docker ★ 91 · **Permissive** MIT · Tool · Fit 2/5	Docker container for running the WeeWX weather station server.	Weather station owners running home servers	Setup + support retainer Managed hosting	• Docker weather servers for amateur observers • Hosting setup for neighborhood weather networks • Weather server setup for school science clubs	Free container; $100-250 per station setup *Effort:* Low (container config, easy to rebrand) ⚠ MIT; weewx is a separate GPL project, check its terms
Ecowitt_http_gateway iz0qwm/ecowitt_http_gateway ★ 65 · **Check** NONE · Tool · Fit 2/5	HTTP gateway receiving Ecowitt station data and forwarding it as CSV or JSON. *Replaces:* Ecowitt cloud, Weather Underground uploaders	Ecowitt station owners sending data to other services	Setup + support retainer Consulting/implementation	• Data relays for farm sensor networks • Station uploads for citizen weather groups • CSV exports for agricultural researchers	Free gateway; $100-200 per station integration *Effort:* Low (small gateway, easy to rebrand) ⚠ NONE license: no reuse rights; Ecowitt protocol specs may be vendor-owned
Ecowitt_local alexlenk/ecowitt_local ★ 65 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration for Ecowitt weather stations via the local web interface. *Replaces:* Ecowitt cloud app, paid smart-home bridges	Home Assistant users with Ecowitt weather stations	Setup + support retainer Consulting/implementation	• Local weather sensors for smart-home installers • Offline weather logs for rural households • Ecowitt setup support for weather hobbyists	Free integration; $80-150 smart-home setup *Effort:* Low (single integration, easy to rebrand) ⚠ MIT; Home Assistant and Ecowitt are third-party names, avoid implying endorsement
Offgrid-weather-station vinthewrench/offgrid-weather-station ★ 61 · **Check** NOASSERTION · Hardware · Fit 2/5	Fully local Raspberry Pi weather station using an Ecowitt WS90 and RTL-SDR receiver. *Replaces:* Ecowitt cloud services, Davis WeatherLink	Off-grid homesteaders wanting private weather data	Hardware kits/assembly Setup + support retainer	• Private weather stations for off-grid cabins • Local weather data for organic farms • Weather monitoring kits for rural clinics	$200-400 kit with sensor; software free *Effort:* High (sensor-specific radio setup and support) ⚠ NOASSERTION license: read first; third-party brands; radio receive rules apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
ThingPulse Weather Station ThingPulse/esp32-weather-station-touch ★ 51 · **Permissive** MIT · Hardware · Fit 2/5	Sample weather station app for ThingPulse ESP32 Color Kit Grande. *Replaces:* Netatmo, Acurite, Davis Instruments	Makers using ThingPulse kits	Training/courses Hardware kits/assembly Consulting/implementation	• Weather display for hotel lobbies • Maker class weather kit • Branded weather screen for marinas *Angle:* Sell desk weather displays assembled	$60-100 per branded kit *Effort:* Medium (Sample code tied to vendor hardware) ⚠ ThingPulse trademark and hardware ties

Accounting & Tax Firms · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BittyTax BittyTax/BittyTax ★ 508 · AGPL AGPL-3.0 · App · Fit 4/5	Crypto tax calculator supporting popular wallets, exchanges and imports from other crypto tax platforms. *Replaces:* Koinly, CoinTracker, CoinLedger	Crypto investors and small accounting firms	Vertical SaaS Managed hosting	• Crypto tax filing for DeFi traders • Crypto tax prep for accounting firms • Tax reports for crypto-paid freelancers	$29-99/yr per user, free tier *Effort:* Medium (tax rules per country need localization) ⚠ AGPL-3.0: hosted changes publish source; tax advice may need licensed preparers
Opentax filedcom/opentax ★ 131 · AGPL AGPL-3.0 · Tool · Fit 3/5	Single-binary open-source US federal tax engine for macOS, Linux and Windows. *Replaces:* TurboTax, H&R Block, FreeTaxUSA	Individual filers and tax tool builders	Premium plugins/add-ons API/usage-based	• Federal tax engine for AI tax assistants • Tax prep tools for freelance writers • Tax calculator backend for small accounting firms	Free engine; $15-40 per filing support tier *Effort:* High (tax logic must be certified, rules change yearly) ⚠ AGPL-3.0; e-filing and tax advice rules apply; IRS-facing use needs care
Zatca-xml-js wes4m/zatca-xml-js ★ 92 · Permissive MIT · Library · Fit 3/5	TypeScript implementation of Saudi ZATCA e-invoicing requirements, processes and standards. *Replaces:* Wafeq, commercial ZATCA-compliant invoicing software	Saudi ERP and invoicing software vendors	Consulting/implementation API/usage-based	• ZATCA invoicing for Riyadh retail shops • E-invoice modules for Saudi POS vendors • ZATCA compliance for freelance accountants	Free library; $2000-6000 ZATCA integration per ERP *Effort:* Medium (compliance rules change, needs testing) ⚠ MIT; ZATCA compliance rules change; government certification steps required
Revolut-stocks doino-gretchenliev/revolut-stocks ★ 200 · Permissive MIT · Tool · Fit 2/5	Tax calculator for stock and dividend activities. *Replaces:* Sharesight-style portfolio tax tools, accountant spreadsheets	Retail investors filing stock tax returns	Premium plugins/add-ons Setup + support retainer	• Dividend tax tools for Revolut account holders • Stock tax prep for freelance expats • Investment tax checks for accountant offices	Free calculator; $10-30 per tax-year report *Effort:* Low (small calculator, tax rules need localizing) ⚠ MIT; tax rules vary by country; Revolut is a brand name
Policyengine-us PolicyEngine/policyengine-us ★ 171 · AGPL AGPL-3.0 · Library · Fit 2/5	Python rules engine for US tax-benefit law, with microdata for microsimulation. *Replaces:* Drake, Lacerte, commercial microsimulation models	Policy think tanks and benefits-eligibility apps	API/usage-based Consulting/implementation	• Benefit eligibility tools for nonprofits • Policy simulations for state think tanks • Tax impact models for payroll consultants	Free library; $5k-20k custom policy analysis *Effort:* High (policy model, needs domain expertise) ⚠ AGPL-3.0: hosted changes publish source; tax-benefit results need expert validation
Eu-vat-validator pH-7/eu-vat-validator ★ 98 · GPL GPL-3.0 · Library · Fit 2/5	PHP library validating EU VAT numbers against the European Commission database. *Replaces:* VATlayer, Vatstack, commercial VAT validation APIs	E-commerce developers checking B2B VAT numbers	API/usage-based Consulting/implementation	• VAT checks for Shopify app developers • B2B checkout validation for Magento stores • VAT number checks for EU invoicing SaaS	Free library; $150-400 per integration *Effort:* Low (small PHP library, easy to wrap) ⚠ GPL-3.0: distributed code ships source; EU VIES service has usage limits
Go-siat ron86i/go-siat ★ 88 · Permissive MIT · Library · Fit 2/5	Go SDK for integrating with the SIAT tax administration system. *Replaces:* Commercial tax-authority integration vendors	Tax-authority integrators and billing software vendors	Consulting/implementation Setup + support retainer	• SIAT invoicing for retailers • Go billing backends for regional tax filers • SIAT setup services for small clinics	Free SDK; $1500-4000 per integration project *Effort:* High (country-specific SDK, needs API testing) ⚠ MIT; tax-authority API rules and certificates must match official specs

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Korean-jangbu-for kimlawtech/korean-jangbu-for ★ 88 · Permissive Apache-2.0 · Starter · Fit 2/5	Claude Code skill generating bookkeeping from card PDFs and bank CSVs for Korean small businesses. *Replaces:* Korean bookkeeping firms, Zoho Books Korea	Korean freelancers and one-person companies	Setup + support retainer Consulting/implementation	• Bookkeeping prep for Korean freelance designers • Tax-accountant handoff for solo creators • Card-statement cleanup for Korean startups	Free skill; $50-150/mo bookkeeping prep service *Effort:* Medium (Korean tax rules and sensitive-data handling) ⚠ Apache-2.0 fine; handles sensitive financial data; Korean tax rules and PIPA apply
SAF-T-AO assoft-portugal/SAF-T-AO ★ 82 · Permissive MIT · Library · Fit 2/5	Official XSD schema from Angola's government for SAF-T AO tax files. *Replaces:* Commercial SAF-T export modules	Angolan accounting software developers	Consulting/implementation Setup + support retainer	• SAF-T export for Angolan ERP vendors • Tax file checks for Luanda accounting firms • SAF-T testing for Portuguese-speaking ERPs	Free schema; $2000-5000 SAF-T export module *Effort:* Low (schema file, feeds an export module) ⚠ MIT; schema is government-issued, check version against current rules
Tastyworks-pnl laroche/tastyworks-pnl ★ 82 · Permissive BSD-3-Clause · Tool · Fit 2/5	Prepares a German tax statement from Tastyworks transaction history. *Replaces:* Paid options tax services, broker tax software	German options traders filing tax returns	Consulting/implementation Setup + support retainer	• Tax prep for German options day traders • Tastyworks tax help for expat traders • Options tax filings for German investment clubs	Free script; $40-120 per tax return prep *Effort:* Medium (German tax rules and broker format) ⚠ BSD-3-Clause fine; Tastyworks is a brand; German tax advice needs licensed help
Tax-calculator spatie/tax-calculator ★ 82 · Permissive MIT · Library · Fit 2/5	PHP interfaces and methods for cleaner application tax calculations. *Replaces:* Avalara AvaTax, TaxJar SDKs	PHP developers building checkout and invoicing	Consulting/implementation Premium plugins/add-ons	• Tax logic for Laravel e-commerce shops • Invoice tax modules for PHP accounting apps • Tax refactor services for legacy PHP stores	Free library; $1000-3000 tax logic refactor *Effort:* High (library, tax rules still per-country) ⚠ MIT; tax rules are jurisdiction-specific, library alone is not compliance
Dali-rp2 eprbell/dali-rp2 ★ 80 · Permissive Apache-2.0 · Tool · Fit 2/5	Data loader and input generator preparing crypto transaction files for the RP2 tax calculator. *Replaces:* Koinly, CoinTracker CSV tools	Crypto traders using RP2 for tax reports	Consulting/implementation Setup + support retainer	• RP2 import setup for crypto day traders • Crypto tax prep for small DAOs • Input files for accountants using RP2	Free tool; $100-300 per crypto tax import setup *Effort:* Medium (exchange formats need constant updates) ⚠ Apache-2.0 fine; crypto tax advice needs professional review; RP2 separate
Abacus epogrebnyak/abacus ★ 72 · GPL GPL-3.0 · Tool · Fit 2/5	Small double-entry accounting system with Python API and command line. *Replaces:* QuickBooks, Xero	Developers building small-ledger bookkeeping features	Consulting/implementation Training/courses	• Ledger engines for freelance invoicing apps • Accounting logic courses for Python students • Books for craft sellers	Free library; $1500-4000 custom ledger module *Effort:* High (ledger core, needs UI and compliance) ⚠ GPL-3.0: distributed builds ship source; bookkeeping needs real accountant review

Airlines & Aviation · 15

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
RTLSDR-Airband rtl-airband/RTLSDR-Airband ★ 962 · GPL GPL-2.0 · Tool · Fit 3/5	Multichannel AM and NFM demodulator for RTL-SDR radio receivers. *Replaces:* Commercial radio scanner software, Uniden scanner apps	Aviation radio listeners and airport scanner clubs	Premium plugins/add-ons Setup + support retainer	• Airband scanner kits for aviation clubs • Airport audio feeds for flight schools • Listening stations for airport spotter groups	Free software; $80-200 per listening station setup *Effort:* Medium (radio setup and feed streaming work) ⚠ GPL-2.0: distributed builds ship source; listening laws vary by country

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FlightRadarAPI JeanExtreme002/FlightRadarAPI ★ 437 · **Permissive** MIT · Library · Fit 3/5	Unofficial Python, Node.js and Go SDK for FlightRadar24 flight data. *Replaces:* FlightAware AeroAPI, Cirium, official Flightradar24 API	Developers building flight-tracking apps	API/usage-based Consulting/implementation	• Flight status widgets for airport websites • Arrival alerts for hotel shuttle services • Flight data feeds for travel-insurance tools	Free SDK; $300-1500 per flight-data integration *Effort:* High (unofficial data source, reliance risk) ⚠ MIT; unofficial scraping of FlightRadar24 may violate its terms
Aeris kewonit/aeris ★ 348 · **AGPL** AGPL-3.0 · App · Fit 3/5	Real-time 3D flight radar for the web showing live aircraft positions. *Replaces:* Flightradar24 web, FlightAware map, ADS-B Exchange	Aviation fans and airport viewing-area websites	Vertical SaaS Premium plugins/add-ons	• Live flight maps for airport viewing decks • Aircraft radar widgets for aviation blogs • 3D flight displays for museum exhibits	Free core; $10-30/mo branded embed *Effort:* Medium (map data sources and hosting costs) ⚠ AGPL-3.0: hosted changes publish source; flight data source terms apply
Fly-catcher ANG13T/fly-catcher ★ 246 · **Permissive** MIT · Hardware · Fit 3/5	Device detecting aircraft spoofing by monitoring malicious ADS-B signals on 1090 MHz, built on a Raspberry Pi. *Replaces:* Commercial ADS-B integrity monitors, aviation security monitoring services	Aviation security researchers and drone operators	Hardware kits/assembly Consulting/implementation	• Spoofing detectors for airport perimeter teams • ADS-B integrity checks for drone operators • Aviation security labs for university programs	$150-300 assembled detector, software free *Effort:* High (hardware, RF licensing and security review) ⚠ MIT; radio monitoring and spoofing detection carry legal and regulatory limits
Akashic CaviraOSS/Akashic ★ 161 · **Check** NOASSERTION · Platform · Fit 3/5	Self-hosted, privacy-first platform for connecting, exploring and analyzing complex data. *Replaces:* Palantir Foundry, Palantir Gotham	Mid-size firms needing private data analysis	Managed hosting Setup + support retainer	• Private data hubs for compliance teams • Self-hosted analytics for clinics • Data exploration for investigative newsrooms	Free core; $1000-4000/mo managed deployment *Effort:* High (data integration needs per-customer work) ⚠ NOASSERTION license: read first; Palantir is a trademark, avoid implying affiliation
Enroute Akaflieg-Freiburg/enroute ★ 154 · **GPL** GPL-3.0 · App · Fit 3/5	Free navigation app for VFR pilots. *Replaces:* ForeFlight, Garmin Pilot, SkyDemon	VFR private pilots and flight schools	Mobile app on top Premium plugins/add-ons	• Navigation app for European flight schools • VFR tools for gliding clubs • Pilot training add-ons for glider students	Free app; $5-15 one-time premium map packs *Effort:* Medium (aviation data updates and charts) ⚠ GPL-3.0: distributed apps ship source; aviation navigation data needs updates and disclaimers
Skytrack ANG13T/skytrack ★ 536 · **Check** NONE · Tool · Fit 2/5	Planespotting and aircraft OSINT tool built in Python. *Replaces:* FlightAware, ADS-B Exchange paid tiers, Flightradar24 Business	Planespotters and aviation OSINT researchers	Training/courses Content/membership	• OSINT training for aviation journalists • Planespotting tools for airport clubs • Aircraft tracking courses for investigators	Free tool; $20-60 per OSINT training seat *Effort:* Low (small Python tool, easy to rebrand) ⚠ NONE license: no reuse rights; flight-tracking data may breach provider terms
Jetlog pbogre/jetlog ★ 351 · **GPL** GPL-2.0 · App · Fit 2/5	Personal flight tracker and viewer for logging and reviewing flights. *Replaces:* MyFlightbook, LogTen Pro	Private pilots and aviation enthusiasts	Premium plugins/add-ons Mobile app on top	• Pilot logbook add-ons for flight schools • Flight tracking for airline spotters • Logbook exports for aviation students	Free app; $10-25 one-time pro logbook *Effort:* Medium (logbook data import needs work) ⚠ GPL-2.0: distributed builds ship source; logbook entries may need regulatory accuracy
Mscsim marek-cel/mscsim ★ 350 · **Check** NOASSERTION · App · Fit 2/5	Simple open flight simulator for desktop use. *Replaces:* X-Plane, Microsoft Flight Simulator, Prepar3D	Flight sim hobbyists and flight-school students	Training/courses Premium plugins/add-ons	• Basic sim training for flight schools • Desktop flight sim add-ons for hobby pilots • Simulator labs for aviation students	Free sim; $30-60 paid aircraft add-on *Effort:* High (sim engine needs major upgrades) ⚠ NOASSERTION license: read first; simulator add-ons may need aviation data licenses

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Retro-adsb-radar nicespoon/retro-adsb-radar ★ 304 · **Permissive** MIT · App · Fit 2/5	Retro-styled aircraft radar display showing real-time positions from an ADS-B feed. *Replaces:* Flightradar24 kiosk displays, FlightAware Pro displays	ADS-B hobbyists and retro display builders	Hardware kits/assembly Premium plugins/add-ons	• Retro radar kiosks for airport lounges • ADS-B display kits for aviation clubs • Retro radar screens for cafe installations	Free software; $150-300 Pi-based display kit *Effort:* Medium (display layout and feed setup) ⚠ MIT; ADS-B feed data terms vary; avoid implying official aviation data
Dumpvdl2 szpajder/dumpvdl2 ★ 260 · **GPL** GPL-3.0 · Tool · Fit 2/5	VDL Mode 2 message decoder and protocol analyzer for aviation radio traffic. *Replaces:* Commercial radio protocol analyzers, paid ACARS monitoring services	Aviation radio monitoring networks and researchers	Setup + support retainer Consulting/implementation	• VDL2 monitoring for airline ops teams • Aviation radio feeds for research labs • ACARS monitoring for maintenance shops	Free decoder; $1000-3000 per station setup *Effort:* High (specialist radio decoder, niche expertise) ⚠ GPL-3.0: distributed builds ship source; aviation radio reception may be restricted
QFlightinstruments marek-cel/QFlightinstruments ★ 242 · **Permissive** MIT · Library · Fit 2/5	Qt library of flight instrument widgets: airspeed, altimeter and vertical speed indicators. *Replaces:* Commercial avionics display SDKs	Flight simulator developers and avionics UI teams	Consulting/implementation Training/courses	• Cockpit displays for flight-sim hobbyists • Instrument widgets for drone ground stations • Avionics UI training for software students	Free library; $2000-6000 custom instrument panel *Effort:* High (UI library, needs validation work) ⚠ MIT; not certified for flight use, add safety disclaimers
ADSB-Out lyusupov/ADSB-Out ★ 169 · **GPL** GPL-3.0 · Hardware · Fit 2/5	Add-on device for 1090ES ADS-B Out transmission in aircraft. *Replaces:* Garmin GTX transponders, uAvionix ADS-B units	Experimental aircraft builders and avionics installers	Hardware kits/assembly Consulting/implementation	• ADS-B Out installs for homebuilt aircraft • Avionics retrofits for flying clubs • Transponder upgrade services for small airstrips	$300-800 kit; certified installation billed separately *Effort:* High (aviation certification and transmitter approval) ⚠ GPL-3.0; aircraft transmitters need FAA or regulator approval before use
Dumphfdl szpajder/dumphfdl ★ 162 · **GPL** GPL-3.0 · Tool · Fit 2/5	Multichannel HFDL decoder for aviation high-frequency data link traffic. *Replaces:* Commercial HF data-link monitors	Aviation radio researchers and monitoring networks	Setup + support retainer Consulting/implementation	• HFDL setups for polar-route monitoring teams • Radio feeds for aviation research labs • HF decoding services for airline ops	Free decoder; $800-2000 per station setup *Effort:* High (niche radio decoder, expert setup) ⚠ GPL-3.0: distributed builds ship source; HF monitoring legality varies by country
Libacars szpajder/libacars ★ 157 · **Permissive** MIT · Library · Fit 2/5	Library for decoding various ACARS message payloads from aviation data links. *Replaces:* Commercial ACARS decoders, airline data-link software	Aviation data-link tool developers	Consulting/implementation Training/courses	• ACARS parsing for MRO software vendors • Decoder libraries for ops-data startups • ACARS parsing courses for avionics engineers	Free library; $1000-3000 parser integration *Effort:* High (library, needs product layer) ⚠ MIT: permissive; ACARS payloads may carry airline-operational data

Architecture & Interior Design · 9

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Arcada mehanix/arcada ★ 428 · **Permissive** Apache-2.0 · App · Fit 3/5	Interior design and floor plan editor built with React and Pixi.js. *Replaces:* Floorplanner, Roomstyler, SmartDraw	Interior designers and real-estate listing teams	Vertical SaaS Premium plugins/add-ons	• Floor plans for real-estate listings • Room layouts for furniture retailers • Interior mockups for home-staging firms	$15-40/mo per designer seat *Effort:* Medium (needs catalog, accounts and export work) ⚠ Apache-2.0 fine; keep notices; furniture catalog images need their own rights

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Autocad-MCP U-C4N/Autocad-MCP ★ 243 · **Permissive** MIT · Tool · Fit 3/5	AutoCAD MCP server letting AI agents draw, edit and read DWG and DXF drawings. *Replaces:* AutoCAD scripting services, drafting outsourcing firms	CAD drafting firms wanting AI-assisted automation	Consulting/implementation Setup + support retainer	• AI drafting automation for architecture firms • MCP connectors for CAD consultants • Drawing cleanup tools for facility managers	Free server; $3000-8000 AutoCAD automation setup *Effort:* Medium (needs live AutoCAD and per-firm templates) ⚠ MIT; Autodesk AutoCAD and DWG are trademarks; live CAD access carries risk
NextFloor therealMRBK/NextFloor ★ 116 · **Permissive** MIT · App · Fit 3/5	Draw your home in Home Assistant and watch it live in 3D. *Replaces:* Sweet Home 3D, Floorplanner, RoomSketcher	Home Assistant users wanting live 3D home views	Premium plugins/add-ons Consulting/implementation	• Live 3D floor views for smart-home installers • Home dashboards for senior living monitors • Room models for rental managers	Free app; $100-300 setup service for installers *Effort:* Low (Home Assistant add-on, easy to rebrand) ⚠ MIT; Home Assistant is a trademark; avoid implying endorsement
Opencalque laurent512/opencalque ★ 72 · **Permissive** MIT · App · Fit 3/5	Open-source 2D architectural editor with Figma-like interface and a local CLI for humans and AI agents. *Replaces:* AutoCAD LT, Revit LT, SketchUp	Small architecture firms and drafting freelancers	Vertical SaaS Premium plugins/add-ons	• 2D plan editor for residential contractors • Drafting tools for permit-drawing services • Floor plan CLI for AI-assisted architects	Free core; $20-45/mo per drafting seat *Effort:* Medium (needs templates, export and accounts) ⚠ MIT; architectural drawings need code-compliance review before permits
3d-new-era-ai leandrodaf/3d-new-era-ai ★ 49 · **Permissive** Apache-2.0 · App · Fit 3/5	Open-source home design and floor plan editor in Rust with a built-in MCP server for AI agents. *Replaces:* Sweet Home 3D, Planner 5D, SmartDraw	Homeowners and interior designers wanting AI tools	Premium plugins/add-ons Vertical SaaS	• AI floor plans for home renovation sites • MCP-based design tools for interior studios • Floor plan editors for real-estate agents	Free core; $15-30/mo cloud rendering plan *Effort:* Medium (desktop editor, needs UI and content) ⚠ Apache-2.0 fine; Sweet Home 3D is a separate GPL project, avoid copying
Blueprint3d-modern charmlinn/blueprint3d-modern ★ 155 · **Permissive** MIT · Library · Fit 2/5	TypeScript rewrite of blueprint3d, a browser-based 3D floor plan library. *Replaces:* Floorplanner embeds, Roomle configurators	Web developers building room planner widgets	Consulting/implementation Premium plugins/add-ons	• Room planners for furniture e-commerce • 3D floor plans for moving companies • Layout widgets for flooring retailers	Free library; $1500-4000 planner widget build *Effort:* High (library, needs product UI work) ⚠ MIT: permissive; keep attribution to original blueprint3d authors
Ha-spatial-context Greminn/ha-spatial-context ★ 122 · **Permissive** MIT · Tool · Fit 2/5	Home Assistant integration placing devices on floor plans and showing Zigbee, Wi-Fi and Matter links. *Replaces:* Ekahau site surveys, Home Assistant map cards	Smart-home installers and mesh network hobbyists	Setup + support retainer Consulting/implementation	• Device maps for smart-home installers • Wi-Fi coverage maps for rental landlords • Mesh link audits for property managers	Free integration; $150-400 per home mapping setup *Effort:* Low (single integration, easy to fork) ⚠ MIT; Matter, Zigbee and Wi-Fi are standards or trademarks, verify naming
Sd-interior-design alaradirik/sd-interior-design ★ 109 · **Permissive** MIT · App · Fit 2/5	AI interior redesign that keeps room layouts, driven by text and image prompts. *Replaces:* BoxBrownie, Virtual Staging AI services	Real-estate agents and home-staging firms	API/usage-based Vertical SaaS	• Virtual staging for rental listings • Redesign previews for furniture shops • Room mockups for home-renovation sales	$0.50-2 per image, or $49/mo plan *Effort:* Medium (model hosting, GPU costs, UI needed) ⚠ MIT; generative model weights carry separate licenses, check each
Omniailab-ai-architect tomatoparkdao/omniailab-ai-architect ★ 76 · **Permissive** MIT · Starter · Fit 2/5	AI architecture design skill that asks about needs and site before proposing plans. *Replaces:* Architect consultations, early-stage design studios	Homeowners and small studios planning new builds	Consulting/implementation Setup + support retainer	• Early-stage concept plans for home builders • AI design briefs for small studios • Renovation scoping for interior firms	Free skill; $99-299 per concept brief *Effort:* Medium (Chinese-language skill, localization needed) ⚠ MIT; architectural designs need licensed architect sign-off, building codes apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Can-utils linux-can/can-utils ★ 3.0k · Check NONE · Tool · Fit 3/5	Linux SocketCAN user-space utilities for sending, dumping and analyzing CAN bus traffic. *Replaces:* Vector CANalyzer, PEAK PCAN-View	Embedded Linux engineers working on CAN buses	Training/courses Consulting/implementation	• CAN bus bring-up for EV conversion shops • SocketCAN debugging for robotics teams • Linux CAN training for embedded engineers	Free tools; $1500-4000 CAN bring-up project *Effort:* Low (command-line utilities, mostly reusable) ⚠ NONE license detected; can-utils is GPL-licensed upstream, verify before bundling
LubeLogger hargata/lubelog ★ 3.0k · Permissive MIT · App · Fit 3/5	Vehicle maintenance and fuel mileage tracker *Replaces:* Fleetio, Drivvo, Carfax Car Care	Car owners, small fleets	Managed hosting Vertical SaaS Mobile app on top	• Maintenance logs for small delivery fleets • Garage tracker for car clubs • Service tracking for taxis *Angle:* Branded customer vehicle-maintenance portal for garages	$3-8/mo *Effort:* Medium (Single-tenant, simple .NET) ⚠ MIT; LubeLogger name
AndrOBD fr3ts0n/AndrOBD ★ 2.2k · GPL GPL-3.0 · App · Fit 3/5	Android app reading vehicle diagnostics through ELM327 OBD adapters. *Replaces:* Torque Pro, OBD Fusion, Car Scanner, Autel apps	Car owners and independent mechanics	Mobile app on top White-label reseller Premium plugins/add-ons	• OBD scanner app for fleet drivers • Diagnostics app for EV conversions • Branded scan tool for garages *Angle:* Shop-branded OBD diagnostic app for customers	$5-10 app or $15/mo garage plan *Effort:* Medium (Android app, rebrand and Play store work) ⚠ GPL-3.0; distributed apps must ship source
LIVI f-io/LIVI ★ 1.1k · GPL GPL-3.0 · App · Fit 3/5	Native CarPlay and Android Auto head unit app for Linux, macOS and Android, built in Rust and Slint. *Replaces:* Apple CarPlay head units, Android Auto car stereos	Aftermarket car stereo builders and DIY dashboard makers	Hardware kits/assembly Premium plugins/add-ons	• Car PC kits for retro-car owners • DIY head units for van conversions • Infotainment builds for rideshare fleets	$50-120 preloaded head-unit kit, software free *Effort:* High (CarPlay and Android Auto certification issues) ⚠ GPL-3.0: distributed apps ship source; CarPlay needs Apple entitlement
TSMaster TOSUN-Shanghai/TSMaster ★ 442 · Weak copyleft LGPL-2.1 · App · Fit 3/5	Open environment for automotive bus monitoring, simulation, testing, diagnostics and calibration. *Replaces:* Vector CANoe, ETAS INCA, dSPACE ControlDesk	Automotive test labs and ECU diagnostic teams	Premium plugins/add-ons Setup + support retainer	• Bus monitoring for EV test labs • Diagnostic tooling for independent repair shops • Calibration setups for motorsport teams	Free core; $1000-3000 per seat with support *Effort:* Medium (Windows tool, hardware-vendor dependent) ⚠ LGPL-2.1: linking allowed; TOSUN hardware drivers and vendor terms may apply
OCA Fleet OCA/fleet ★ 62 · AGPL AGPL-3.0 · Platform · Fit 3/5	Odoo modules for managing vehicle fleets. *Replaces:* Fleetio, Samsara Fleet, Verizon Connect	Small companies with vehicle fleets	Setup + support retainer Consulting/implementation Managed hosting	• Fleet management for plumbing contractors • Vehicle tracking for schools • Fleet admin for NGOs *Angle:* Fleet maintenance contracts for repair shops on Odoo	$5-10/vehicle/mo *Effort:* Medium (Needs Odoo instance and customization) ⚠ AGPL-3.0; Odoo ecosystem versions
Opendbc commaai/opendbc ★ 3.5k · Permissive MIT · Library · Fit 2/5	Python API and DBC files for reading and writing car CAN bus signals. *Replaces:* Vector CANdb++, commercial automotive CAN tools	Automotive researchers and aftermarket tuning shops	Consulting/implementation Training/courses	• CAN decoding for aftermarket ADAS installers • Vehicle data tools for fleet telematics • CAN training for automotive technicians	Free library; $2000-6000 vehicle integration project *Effort:* High (vehicle-specific signals, safety-critical work) ⚠ MIT; vehicle control and safety regulations limit commercial deployment

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Automotive-skills-suite jherrodthomas/automotive-skills-suite ★ 3.3k · **Permissive** MIT · Starter · Fit 2/5	Over 100 installable Claude skills covering automotive engineering topics like ISO 26262 and ISO/SAE 21434. *Replaces:* Paid automotive compliance consultancies, ISO 26262 training courses	Automotive engineers preparing ISO compliance work	Training/courses Consulting/implementation	• ISO 26262 prep for Tier-1 suppliers • Cybersecurity checklists for EV startups • Functional-safety training for test engineers	Free skills; $200-600 per seat for training *Effort:* Medium (skills need validation against standards) ⚠ MIT; ISO standards are copyrighted; skills are not a certified compliance tool
Vsomeip COVESA/vsomeip ★ 1.5k · **Weak copyleft** MPL-2.0 · Library · Fit 2/5	SOME/IP middleware implementation for scalable service-oriented vehicle communication. *Replaces:* Vector SOME/IP stacks, Elektrobit EB corbos	Automotive software teams building ECU communication	Consulting/implementation Training/courses	• SOME/IP integration for Tier-2 suppliers • ECU messaging training for automotive engineers • Middleware support for EV software teams	Free library; $5000-20000 middleware integration *Effort:* High (automotive middleware, heavy integration work) ⚠ MPL-2.0: modified files stay open; automotive safety standards apply to deployments
python-OBD brendan-w/python-OBD ★ 1.3k · **GPL** GPL-2.0 · Library · Fit 2/5	Python library for reading OBD-II engine data over ELM327 serial adapters. *Replaces:* Torque Pro, OBD Fusion, Autel diagnostics	Developers building car diagnostics products	Setup + support retainer Consulting/implementation API/usage-based	• Fleet diagnostics logger for delivery vans • Used-car health reports for dealers • Driver coaching telematics for schools *Angle:* Diagnostic kiosk for quick-lube shops	Custom builds $3-10k per project *Effort:* Medium (Library only, needs UI and backend) ⚠ GPL-2.0; derivative works must stay GPL
CANdevStudio GENIVI/CANdevStudio ★ 1.2k · **Weak copyleft** MPL-2.0 · Tool · Fit 2/5	Development tool for CAN bus simulation. *Replaces:* Vector CANoe, dSPACE tools	Automotive test teams simulating CAN networks	Training/courses Consulting/implementation	• CAN simulation training for EV test labs • Virtual CAN rigs for bus-tool startups • Simulation setup for automotive students	Free tool; $2000-5000 test bench setup *Effort:* Medium (GUI tool, needs test-rig workflows) ⚠ MPL-2.0: modified files stay open; GENIVI name is an alliance brand
MasterAgent OpenSparX/MasterAgent ★ 979 · **Permissive** Apache-2.0 · Framework · Fit 2/5	Framework for building AI agents that run on-device with no cloud dependency. *Replaces:* Cloud agent platforms, LangChain Cloud	Device makers wanting offline AI features	Consulting/implementation Premium plugins/add-ons	• Offline assistants for industrial handhelds • On-device AI for car infotainment • Private AI agents for clinic devices	Free SDK; $10k-40k per device integration *Effort:* High (NPU-specific, needs per-device tuning) ⚠ Apache-2.0 fine; Qualcomm NPU and latency claims need device-level testing
Idrive7-apps cauliflowermossgrape/idrive7-apps ★ 537 · **Permissive** MIT · App · Fit 2/5	Custom apps for the iDrive 7 head unit: shift lights, virtual dyno, timers, G-meter and fault scanner. *Replaces:* Torque Pro, Dynolicious apps	BMW owners wanting performance display apps	Premium plugins/add-ons Marketplace	• Track-day timing apps for BMW owners • Dyno display apps for tuning shops • Fault scanner tools for independent BMW garages	Free SDK; $5-15 per app *Effort:* Medium (vehicle-specific, needs per-model testing) ⚠ MIT; BMW and iDrive are trademarks; vehicle apps need safety review
Lwmem MaJerle/lwmem ★ 464 · **Permissive** MIT · Library · Fit 2/5	Lightweight dynamic memory manager for embedded systems with malloc, calloc, realloc and free. *Replaces:* Segger embOS heap tools, commercial RTOS memory managers	Embedded firmware developers on constrained MCUs	Consulting/implementation Training/courses	• Heap tuning for IoT firmware teams • Memory management courses for embedded students • Firmware memory audits for sensor startups	Free library; $1500-5000 firmware memory audit *Effort:* High (embedded library, needs target testing) ⚠ MIT: permissive; memory bugs can be safety-critical in medical devices
Dbcc howerj/dbcc ★ 460 · **Permissive** MIT · Tool · Fit 2/5	Compiler converting CAN DBC files to C, CSV, JSON and XML. *Replaces:* Vector CANdb++, Kvaser database tools	Automotive firmware engineers using DBC files	Consulting/implementation Training/courses	• DBC-to-C codegen for ECU firmware teams • CAN database conversion for test labs • CAN tooling training for embedded students	Free compiler; $1000-3000 DBC integration work *Effort:* Medium (small compiler, needs CAN tool workflows) ⚠ MIT; DBC format is a Vector Informatik format; check trademark naming

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Ivi-homescreen toyota-connected/ivi-homescreen ★ 401 · Check NOASSERTION · Library · Fit 2/5	Flutter Linux embedder for automotive and embedded displays on Wayland, DRM/KMS, EGL and Vulkan. *Replaces:* Qt for Automotive, Crank Software embedded UI tools	Embedded UI teams building Flutter car screens	Consulting/implementation Training/courses	• Flutter dashboards for EV charger screens • Kiosk displays on Linux boards • Embedded UI training for Flutter developers	Free embedder; $10k-30k embedded UI project *Effort:* High (embedded display stack, device-specific porting) ⚠ NOASSERTION license: read first; Flutter is a Google trademark
Iso14229 driftregion/iso14229 ★ 375 · Permissive MIT · Library · Fit 2/5	ISO 14229 UDS server and client library for embedded diagnostic systems. *Replaces:* Vector CANdela, commercial UDS stacks	Embedded ECU developers doing diagnostics	Consulting/implementation Training/courses	• UDS diagnostics for EV battery makers • ECU flashing tools for repair startups • UDS training for automotive test engineers	Free library; $2000-6000 diagnostic stack integration *Effort:* High (protocol library, needs ECU-specific work) ⚠ MIT: permissive; ISO 14229 standard text is paywalled, follow spec terms
Blender-driving-scenario-creator johschmitz/blender-driving-scenario-creator ★ 333 · GPL GPL-3.0 · Tool · Fit 2/5	Blender add-on creating OpenDRIVE and OpenSCENARIO driving scenarios with 3D models. *Replaces:* RoadRunner, Vector VTD, dSPACE ASM	ADAS simulation teams building test scenarios	Consulting/implementation Training/courses	• Driving scenarios for ADAS startups • Scenario creation for university autonomy labs • Scenario authoring courses for sim engineers	Free add-on; $1500-5000 scenario library build *Effort:* Medium (Blender add-on, needs ADAS-specific workflow) ⚠ GPL-3.0: distributed add-ons ship source; OpenDRIVE and OpenSCENARIO are ASAM standards
Keyword-Protocol-2000 aster94/Keyword-Protocol-2000 ★ 328 · GPL GPL-3.0 · Library · Fit 2/5	Implementation of the KWP2000 vehicle diagnostics protocol used on Suzuki OBD systems *Replaces:* Autel diagnostic software, Launch X431 tools	Auto repair and diagnostics tool builders	Consulting/implementation Hardware kits/assembly	• OBD tools for Suzuki repair shops • Diagnostic readers for motorbike shops • Protocol tools for ECU tuning shops	Free library; $2-5k diagnostic tool build *Effort:* Medium (protocol library, needs vehicle testing) ⚠ GPL-3.0; distributed tools must ship source; ECU work may affect emissions law
Automotive Repair Management ARCHIVED ChanMeng666/automotive-repair-management-system ★ 32 · Permissive MIT · App · Fit 2/5	Flask and MySQL web app for managing automotive repair shops. *Replaces:* Shopmonkey, Tekmetric, Mitchell 1 Manager SE	Small independent repair shops	Vertical SaaS Setup + support retainer Managed hosting	• Repair shop software for motorcycle garages • Collision shop tracker • Mobile mechanic job management *Angle:* Work-order and invoice system for independent garages	$49-99/mo per shop *Effort:* Medium (Single-tenant Flask app, small project) ⚠ MIT; limited maturity, no payments
Auto Repair SaaS wangonya/auto-repair-saas ★ 18 · Permissive Apache-2.0 · App · Fit 2/5	Cloud auto repair shop management software. *Replaces:* Shopmonkey, Tekmetric, Autoflow	Small repair shops	Vertical SaaS Managed hosting Setup + support retainer	• Repair shop SaaS for tire shops • Detailing business job manager • Mobile mechanic invoicing *Angle:* Cloud shop management sold per bay	$39-79/mo per shop *Effort:* Medium (Small codebase, needs multitenancy review) ⚠ Early-stage; few features

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
BEEP beepnl/BEEP ★ 130 · AGPL AGPL-3.0 · Platform · Fit 4/5	Bee monitoring app, API and measurement system for hive weight and sensor data *Replaces:* Arnia, Hive-Tech, BroodMinder, Apis Protect	Beekeepers and beekeeping associations	Managed hosting Hardware kits/assembly Vertical SaaS	• Hive monitoring for hobby beekeeper clubs • Apiary dashboards for honey producers • Pollination tracking for orchard growers *Angle:* Hive monitoring app and sensors for beekeeping associations	$5-15/mo per hive, $120 scale *Effort:* Medium (Full stack, needs hosting and hardware supply) ⚠ AGPL-3.0 server changes must be published; BEEP name
BeeAlarmed BeeAlarmed/BeeAlarmed ★ 46 · GPL GPL-3.0 · Hardware · Fit 3/5	Camera-based beehive monitor identifying and tracking bees with neural-network trait detection. *Replaces:* Arnia hive sensors, BroodMinder	Commercial beekeepers and pollination service firms	Hardware kits/assembly Vertical SaaS	• Hive monitoring for pollination contractors • Colony health alerts for honey farms • Camera hive kits for apiary researchers	$300-600 camera kit, $10-20/mo analytics *Effort:* Medium (camera hardware and weatherproofing work) ⚠ GPL-3.0: distributed firmware ships source; bee-health claims need validation
Hive Pal martinhrvn/hive-pal ★ 38 · Check NONE · App · Fit 3/5	Mobile-first app to track beehives, inspections and colony health. *Replaces:* Hive Tracks, BeeKeeper apps, Apiary Book	Beekeepers and apiary businesses	Managed hosting Vertical SaaS Mobile app on top	• Hive tracking for honey producers • Apiary management for pollination services • Beekeeping club hive registry *Angle:* Hosted apiary inspection logbook, $5/mo per beekeeper	$5-15/mo per beekeeper *Effort:* Medium (Web app, no license stated) ⚠ No license, ask author before commercial use
Tanen hmd83/tanen ★ 17 · Permissive Apache-2.0 · Hardware · Fit 3/5	LoRaWAN beehive monitor for weight, temperature and battery on nRF54 with 10 year battery life *Replaces:* Arnia, BroodMinder, Hive-Tech	Commercial beekeepers with remote apiaries	Hardware kits/assembly Managed hosting Setup + support retainer	• Remote apiary monitoring via LoRaWAN • Hive weight loggers for honey producers • Long-life hive sensors for rural beekeepers *Angle:* LoRaWAN hive scales for commercial pollinators	$90-160 per unit, $2/mo data *Effort:* Medium (Needs LoRaWAN gateway coverage and hardware QA) ⚠ Apache-2.0; LoRa regional regulations
Bee ethersphere/bee ★ 1.5k · Permissive BSD-3-Clause · Platform · Fit 2/5	Swarm client implemented in Go, the basic building block for the Swarm decentralized storage network. *Replaces:* AWS S3, Filecoin, Arweave	Developers building decentralized storage apps	API/usage-based Consulting/implementation	• Decentralized file storage for NFT artists • Node operation services for Swarm stakers • Storage backends for dapp developers	Free node; $2000-8000 storage integration *Effort:* High (protocol node, not a product) ⚠ BSD-3-Clause fine; Swarm and Ethereum-linked token economics raise regulatory risk
Test2doc s-mang/test2doc ★ 334 · Permissive MIT · Tool · Fit 2/5	Generates REST API documentation from Go unit tests. *Replaces:* Swagger Codegen, Postman documentation tools, Stoplight	Go backend teams documenting REST APIs	Consulting/implementation Setup + support retainer	• API docs for Go fintech teams • Test-driven doc generation for agency APIs • Docs setup for Go microservice teams	Free tool; $800-2500 documentation setup *Effort:* Low (CLI tool, easy to wrap) ⚠ MIT; small tool, check Go version compatibility before adopting

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Apiary2postman thecopy/apiary2postman ★ 204 · **Permissive** MIT · Tool · Fit 2/5	Generates Postman collections from Apiary Blueprint markup or the Apiary API. *Replaces:* Apiary, paid Postman import services	API teams migrating from Apiary to Postman	Consulting/implementation Setup + support retainer	• Apiary migration services for API vendors • Postman import setup for fintech teams • Docs migration for legacy API catalogs	Free tool; $500-2000 API migration project *Effort:* Low (small converter, easy to wrap) ⚠ MIT; Apiary and Postman are trademarks, avoid implying affiliation
Bee-dashboard ethersphere/bee-dashboard ★ 142 · **Permissive** BSD-3-Clause · App · Fit 2/5	App helping users set up a Bee node and perform actions like cashing out cheques.	Swarm node operators and storage providers	Managed hosting Setup + support retainer	• Node setup services for Swarm operators • Dashboard hosting for storage providers • Cheque cash-out tools for node funders	Free dashboard; $50-150/mo managed node support *Effort:* Medium (tied to Bee node API, needs UI work) ⚠ BSD-3-Clause fine; crypto payout features may trigger money-transmission rules
Serverless-node-dynamodb-api jch254/serverless-node-dynamodb-api ★ 85 · **Permissive** MIT · Starter · Fit 2/5	Starter API built on Serverless, TypeScript, Webpack and DynamoDB. *Replaces:* Paid serverless starter kits, AWS Amplify templates	Developers starting serverless APIs on AWS	Consulting/implementation Setup + support retainer	• Serverless API starters for startups • DynamoDB backends for small SaaS • AWS API setups for agency projects	Free starter; $1500-4000 serverless API build *Effort:* Medium (AWS-specific, needs domain logic) ⚠ MIT; AWS and DynamoDB are trademarks; cloud costs scale with usage
BrAPI plantbreeding/BrAPI ★ 79 · **Permissive** MIT · Framework · Fit 2/5	Version-controlled specification for the Breeding API used by plant breeding databases. *Replaces:* Proprietary breeding data APIs, commercial breeding platforms	Plant breeding programs and agri-data vendors	Consulting/implementation Setup + support retainer	• BrAPI integration for seed companies • Breeding data APIs for university programs • Data exchange for agri-tech startups	Free spec; $5000-20000 breeding data integration *Effort:* High (spec, not product; needs implementation) ⚠ MIT; specification only; implementers must follow version compatibility rules
Bee sschmid/bee ★ 78 · **Permissive** MIT · Tool · Fit 2/5	Plugin-based bash automation framework for running shell tasks. *Replaces:* Make-based build scripts, Ansible for small tasks	DevOps engineers automating shell workflows	Consulting/implementation Training/courses	• Shell automation for small ops teams • Bash task plugins for DevOps bootcamps • Automation setup for solo sysadmins	Free framework; $400-1200 shell automation setup *Effort:* Low (small framework, easy to fork) ⚠ MIT; small bash framework, limited maintenance and security review
Bee-js ethersphere/bee-js ★ 67 · **Permissive** BSD-3-Clause · Library · Fit 2/5	JavaScript client library for connecting to the Bee decentralized storage node.	Web developers building Swarm storage features	Consulting/implementation Premium plugins/add-ons	• Swarm uploads for dapp developers • Decentralized media storage for creator sites • Storage libraries for Web3 startups	Free library; $3000-10000 Web3 storage integration *Effort:* High (library, needs product and node setup) ⚠ BSD-3-Clause fine; Web3 storage claims and token ties need legal review
Rot-web-api MattMcFarland/rot-web-api ★ 59 · **Permissive** MIT · Tool · Fit 2/5	RESTful web API generating roguelike dungeons.	Game developers wanting procedural dungeon data	API/usage-based Consulting/implementation	• Dungeon APIs for indie roguelike studios • Level generators for tabletop RPG apps • Procedural maps for educational game kits	Free API; $0.001-0.01 per dungeon call *Effort:* Low (small API, easy to rebrand) ⚠ MIT; roguelike generator is a community project, no trademark concern

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Swarm-cli ethersphere/swarm-cli ★ 50 · Permissive BSD-3-Clause · Tool · Fit 2/5	Command-line tool to manage a Bee node and interact with the Swarm network.	Swarm node operators and developers	Consulting/implementation Training/courses	• Swarm operator training for storage startups • CLI scripting for node fleet operators • Storage upload scripts for dapp developers	Free CLI; $1000-3000 node operations setup *Effort:* Low (CLI tool tied to the Bee network) ⚠ BSD-3-Clause fine; crypto-network dependencies raise regulatory questions
BEEP Measurement System beepnl/measurement-system-v3 ★ 22 · Check NONE · Hardware · Fit 2/5	BEEP base v3 steel-design hive measurement system hardware *Replaces:* Arnia, BroodMinder, Hive-Tech	Beekeepers using BEEP platform	Hardware kits/assembly White-label reseller Setup + support retainer	• Hive scales for BEEP users • Steel scale bases for commercial apiaries • Weighing platforms for migratory beekeepers *Angle:* Manufacture hive weight bases for apiaries	$150-300 per base *Effort:* Medium (Hardware only, depends on BEEP backend) ⚠ No license stated; BEEP trademark
Smart Beehive Monitor deaneeth/smart-beehive-monitor ★ 21 · Permissive MIT · Hardware · Fit 2/5	ESP32 beehive monitor for temperature, humidity, activity and weight with Firebase. *Replaces:* Arnia, BeeHero, Broodminder	Hobby and small commercial beekeepers	Hardware kits/assembly Vertical SaaS Setup + support retainer	• Hive scale kits for apiaries • Pollination hive monitoring • Beekeeping school sensor kits *Angle:* ESP32 hive monitors for honey producers	$99-149 per hive kit *Effort:* Medium (Reference build, Firebase dependency) ⚠ Hardware reliability outdoors

Massing ibuilder/massing ★ 133 · Permissive MIT · Platform · Fit 4/5	Self-hosted IFC-native AEC platform with web BIM viewer and contractor portal covering RFIs, pay apps, CPM and accounting. *Replaces:* Procore, Autodesk Construction Cloud, Buildertrend, Sage 300 CRE	General contractors	Managed hosting Vertical SaaS Setup + support retainer	• Contractor portal for small GCs • Pay app tracking for subcontractors • RFI tracking for renovation firms *Angle:* Self-hosted IFC platform bundled with onboarding for homebuilders	$99-399/mo per company *Effort:* Medium (Large new project, single-tenant likely) ⚠ Young project; accounting accuracy needs review
BIMserver opensourceBIM/BIMserver ★ 1.8k · AGPL AGPL-3.0 · Platform · Fit 3/5	Open source BIM server for storing, querying and sharing IFC models. *Replaces:* Autodesk BIM 360, Trimble Connect, Bentley ProjectWise	AEC firms and contractors	Managed hosting Setup + support retainer Consulting/implementation	• BIM model hosting for small architects • IFC clash checks for contractors • BIM archive for municipalities *Angle:* Digital twin handover server sold to developers and builders	$100-500/mo per firm *Effort:* High (Java server, dated UI) ⚠ AGPL-3.0; publish server-side changes
Open-pdf-studio OpenAEC-Foundation/open-pdf-studio ★ 1.0k · Weak copyleft LGPL-3.0 · App · Fit 3/5	Open-source PDF viewer and editor with a Rust rendering engine. *Replaces:* Adobe Acrobat Pro, Foxit PDF Editor, Nitro PDF	Offices and engineering teams editing PDFs	Premium plugins/add-ons Vertical SaaS	• PDF markup for construction permit teams • Drawing review for architecture studios • Form editing for small law offices	Free core; $60-120 per seat per year *Effort:* Medium (desktop app, PDF standards compliance work) ⚠ LGPL-3.0: linking allowed with terms; avoid implying Adobe affiliation
xeokit SDK xeokit/xeokit-sdk ★ 949 · AGPL AGPL-3.0 · Library · Fit 3/5	WebGL JavaScript SDK for viewing 3D BIM and IFC models in browsers. *Replaces:* Autodesk Viewer, BIMcollab Zoom, Trimble Connect	AEC software developers	Consulting/implementation Managed hosting API/usage-based	• BIM viewer for facility managers • IFC viewer embed for real estate • Model viewer portal for contractors *Angle:* Browser BIM viewer SaaS for site foremen, per-seat license	Custom builds or $50-300/mo hosted viewer *Effort:* Medium (SDK, viewer product must be built) ⚠ AGPL-3.0 with commercial license option
Web-ifc-three ThatOpen/web-ifc-three ★ 597 · Permissive MIT · Library · Fit 3/5	Official IFC loader for Three.js, rendering building models in browsers. *Replaces:* Autodesk Forge Viewer, Trimble Connect viewer, commercial BIM viewers	BIM software teams building web viewers	Consulting/implementation Setup + support retainer	• Web IFC viewers for architecture firms • BIM previews for construction portals • IFC plugins for facility management apps	Free library; $3000-10000 BIM viewer build *Effort:* Medium (viewer needs UI, data and hosting) ⚠ MIT: permissive; IFC is a buildingSMART standard, check spec terms
House-planner egmalt/house-planner ★ 381 · Permissive MIT · App · Fit 3/5	Self-hosted house planner covering floor plans, 3D views, map overlays and utilities. *Replaces:* Sweet Home 3D, SmartDraw, Planner 5D	Homeowners and renovation planners	Vertical SaaS Managed hosting	• Utility layouts for renovation contractors • Underfloor heating plans for installers • Home plans for self-build groups	Free self-host; $10-25/mo managed house plans *Effort:* Medium (utility modules and map data work) ⚠ MIT; satellite map imagery and map APIs carry separate licenses and costs
IfcOpenShell IfcOpenShell/IfcOpenShell ★ 2.9k · Weak copyleft LGPL-3.0 · Library · Fit 2/5	Open source IFC library and geometry engine for BIM data. *Replaces:* Autodesk Revit APIs, Solibri, Navisworks	BIM software developers	Consulting/implementation API/usage-based Setup + support retainer	• IFC quantity takeoff for estimators • BIM data checker for municipalities • IFC conversion API for contractors *Angle:* BIM model QA and clash-report service for contractors, per-model pricing	Custom projects $5-20k; API usage fees *Effort:* Medium (Library, needs product around it) ⚠ LGPL-3.0; IFC specifics
Dawn alibaba/dawn ★ 1.1k · Permissive MIT · Tool · Fit 2/5	Lightweight task management and build tool for front-end and Node.js projects. *Replaces:* Gulp and Webpack task pipelines, Nx Cloud	Front-end teams managing build pipelines	Consulting/implementation Setup + support retainer	• Build pipeline setup for agency front-end teams • Task tooling for Node.js startups • Build migration services for legacy Gulp projects	Free tool; $1000-3000 build pipeline setup *Effort:* Medium (tooling, needs team-specific workflows) ⚠ MIT; Alibaba is a brand, no endorsement implied
That Open Engine ThatOpen/engine_components ★ 731 · Permissive MIT · Library · Fit 2/5	Components for building BIM and IFC web apps. *Replaces:* Autodesk Viewer, Trimble Connect, Navisworks	BIM web app developers	Consulting/implementation Agency service Training/courses	• Custom BIM viewer for developers • IFC dashboards for contractors • Facility BIM portals *Angle:* White-label web BIM viewer for builder client portals	Project fees $5-30k *Effort:* Medium (Library, apps must be built) ⚠ MIT; ThatOpen branding

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
KDTree viliwonka/KDTree ★ 598 · Permissive MIT · Library · Fit 2/5	Fast KDTree library for Unity with thread-safe querying. *Replaces:* Paid Unity Asset Store spatial libraries	Unity developers needing fast spatial queries	Premium plugins/add-ons Consulting/implementation	• Nearest-neighbor tools for Unity AI agents • Spatial queries for crowd-sim studios • KDTree support for VR tooling teams	Free library; $30-80 Unity asset store listing *Effort:* Low (single utility class, easy to repackage) ⚠ MIT: permissive; Unity Asset Store repackaging needs Unity terms
Elements hypar-io/Elements ★ 422 · Permissive MIT · Library · Fit 2/5	Lightweight BIM library for generating building models in code. *Replaces:* Autodesk Revit API, Dynamo add-ons	Architects and developers scripting building models	Consulting/implementation Training/courses	• Parametric building scripts for architecture studios • BIM automation for modular housing firms • Generative design courses for architecture students	Free library; $3000-10000 BIM automation project *Effort:* High (library, needs product layer and BIM expertise) ⚠ MIT: permissive; BIM outputs need professional review before permits
DDC_Skills_for_AI_Agents_in_Construction datadrivenconstruction/DDC_Skills_for_AI_Agents_in_Construction ★ 395 · Permissive MIT · Starter · Fit 2/5	221 AI skills for construction covering BIM analysis, cost estimation, scheduling and document control. *Replaces:* Paid construction AI consultancies, Procore AI features	Construction firms testing AI agents	Consulting/implementation Training/courses	• AI estimating setup for general contractors • BIM analysis agents for MEP firms • Scheduling AI training for project managers	Free skills; $2000-6000 AI workflow setup *Effort:* Medium (skills need domain testing per firm) ⚠ MIT; construction estimates and BIM outputs need licensed professional review
G-Shark GSharker/G-Shark ★ 241 · Permissive MIT · Library · Fit 2/5	Free open-source geometry library for computational designers in architecture and engineering. *Replaces:* Paid Grasshopper plugins, Rhino SDK tools	Computational design studios and plugin developers	Premium plugins/add-ons Consulting/implementation	• Grasshopper add-ons for facade studios • Geometry tools for parametric furniture • Structural geometry plugins for AEC startups	Free library; $300-800 per plugin license *Effort:* High (library, needs plugin packaging work) ⚠ MIT; Rhino and Grasshopper are McNeel trademarks; check plugin packaging rules
Booben bcrumbs/booben ★ 106 · Permissive Apache-2.0 · Framework · Fit 2/5	Visual web app builder generating React components with GraphQL data bindings. *Replaces:* Retool, Appsmith, Bubble	Frontend teams building internal GraphQL admin tools	Consulting/implementation Premium plugins/add-ons	• GraphQL admin panels for logistics firms • Internal tools builder for clinics • Customer portals for SaaS startups	$49-199/mo per team, self-host free *Effort:* Medium (React-based, GraphQL-specific, moderate customization) ⚠ Apache-2.0 needs notice retention; small project, check maintenance
ProjectEngine TMailletFR/ProjectEngine ★ 32 · GPL GPL-3.0 · Tool · Fit 2/5	Excel-based scheduling and project controls engine with dependency-driven planning. *Replaces:* Microsoft Project, Primavera P6, Smartsheet	Project planners in construction	Premium plugins/add-ons Training/courses Consulting/implementation	• Excel scheduler for small contractors • Project controls templates for engineers • Planning training for site managers *Angle:* Cheap CPM scheduling alternative to Primavera for subcontractors	$99-249 one-time license *Effort:* Low (Excel macro file, easy rebrand) ⚠ GPL-3.0; needs Microsoft Excel

Cooperatives · 16

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Loomio loomio/loomio ★ 2.6k · AGPL AGPL-3.0 · App · Fit 4/5	Collaborative decision-making tool with threads, polls and proposals for groups *Replaces:* Slack polls, Decidim, Doodle, Google Forms	Cooperatives, nonprofits and boards making group decisions	Managed hosting Vertical SaaS Setup + support retainer	• Decision tool for housing co-ops • Voting for HOA boards • Consensus polls for NGOs *Angle:* Member governance and voting for co-ops	$29-99/mo per group *Effort:* Medium (Rails app, multi-group built in) ⚠ AGPL: publish server-side changes; Loomio trademark

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Open Food Network openfoodfoundation/openfoodnetwork ★ 1.3k · AGPL AGPL-3.0 · Platform · Fit 4/5	Marketplace platform linking local producers, hubs and consumers *Replaces:* Local Line, Barn2Door, Farmigo	Food hubs, farmer co-ops	Managed hosting Marketplace Vertical SaaS	• Farm-to-table marketplace for a city • Food co-op ordering for neighborhoods • CSA box manager *Angle:* Online farmers market and food hub platform	3% of orders plus $50/mo *Effort:* Medium (Rails app, multi-shop supported) ⚠ AGPL-3.0; Open Food Network name
CiviCRM civicrm/civicrm-core ★ 796 · AGPL AGPL-3.0 · Platform · Fit 4/5	Constituent relationship management for nonprofits with contacts, donations, events and memberships *Replaces:* Salesforce Nonprofit, Bloomerang, Neon CRM, Blackbaud	Nonprofits and membership associations	Managed hosting Consulting/implementation Setup + support retainer	• CRM for animal shelters • Member management for trade associations • Donor tracking for faith groups *Angle:* Member management for cooperative federations	$100-500/mo per organization *Effort:* Medium (Runs inside Drupal or WordPress, deep config) ⚠ AGPL: publish server-side changes; CiviCRM trademark
Foodsoft foodcoops/foodsoft ★ 360 · Check NOASSERTION · App · Fit 4/5	Web software for non-profit food co-ops: catalog, ordering, accounting and job scheduling. *Replaces:* Local Food Marketplace, GrownBy, Open Food Network, Barn2Door	Food co-ops and buying groups	Managed hosting Setup + support retainer Vertical SaaS	• Food co-op hosting for buying clubs • Ordering for community-supported agriculture • Bulk-buy groups for schools *Angle:* Hosted ordering for food co-ops	$30-100/mo per co-op *Effort:* Medium (Rails app, well established, single-tenant) ⚠ NOASSERTION license, read it first
Juntagrico juntagrico/juntagrico ★ 55 · Weak copyleft LGPL-3.0 · App · Fit 4/5	Management platform for community gardens and vegetable cooperatives: members, shifts, billing. *Replaces:* Farmigo, Local Line, Google Sheets	Community-supported agriculture farms and garden cooperatives	Managed hosting Setup + support retainer	• CSA box scheduling for urban farms • Work-shift tracking for garden co-ops • Member fee billing for food cooperatives	$30-80/mo per cooperative, setup extra *Effort:* Medium (per-instance deploy, translations and branding needed) ⚠ LGPL-3.0 allows use; modifications to the library must be shared
Nova hcmlab/nova ★ 198 · GPL GPL-3.0 · Tool · Fit 3/5	Annotation tool for coding social behaviour in video, with ML-assisted labelling. *Replaces:* Noldus Observer XT, ELAN, ANVIL	Behavioural researchers and psychology labs coding video	Setup + support retainer Consulting/implementation	• Video coding for autism therapy clinics • Interview annotation for HR assessment teams • Classroom interaction coding for education researchers	$40-120/mo per lab, university site licence *Effort:* Medium (academic codebase, GPL-3 forces source sharing) ⚠ GPL-3.0: distributed apps must ship source; research-grade code
Webgme webgme/webgme ★ 173 · Permissive MIT · Platform · Fit 3/5	Web-based generic environment for building domain-specific modelling tools. *Replaces:* MagicDraw, Enterprise Architect	Engineering teams building domain-specific modelling tools	Consulting/implementation Setup + support retainer	• Model-based design for automotive ECU teams • Digital twin modelling for water utilities • Workflow modelling for hospital operations	$3k-10k setup, $500/mo hosted support *Effort:* Medium (generic metamodel helps, UI branding needs work) ⚠ MIT permissive; research-origin project, check maintenance activity
Cobudget cobudget/cobudget ★ 81 · Check NOASSERTION · App · Fit 3/5	Participatory budgeting tool for groups to propose and fund ideas. *Replaces:* Decidim, Loomio, Citizen Lab, Cuberon	Cooperatives, communities and NGOs	Managed hosting Setup + support retainer Consulting/implementation	• Participatory budgeting for housing co-ops • Grant allocation for small foundations • Community fund tool for DAOs *Angle:* Collective budgeting for worker co-ops	$20-100/mo per group *Effort:* Medium (Node app, multi-group support) ⚠ NOASSERTION license, read first
Open Collective opencollective/opencollective ★ 2.3k · Permissive MIT · Content · Fit 2/5	Issue and RFC tracker for the Open Collective platform, not the app itself *Replaces:* Patreon, GitHub Sponsors, Open Collective fiscal hosting	Open source maintainers	Consulting/implementation Content/membership Setup + support retainer	• Fiscal hosting for open source teams • Donation page for local clubs • Budget reporting for software foundations *Angle:* Transparent finances for community groups	Percent fee on funds raised *Effort:* High (Repo holds issues only, not code) ⚠ MIT; real code is in opencollective-api and frontend repos
TaskScheduler arkhipenko/TaskScheduler ★ 1.7k · Permissive BSD-3-Clause · Library · Fit 2/5	Cooperative multitasking scheduler library for Arduino and microcontroller boards. *Replaces:* Segger embOS, Micrium uC/OS	Embedded developers on Arduino, ESP and STM32 boards	Consulting/implementation Training/courses	• Sensor-polling scheduler for IoT loggers • Motor timing for hobby robotics • Embedded scheduling workshops for makerspaces	$99-500 per firmware integration engagement *Effort:* Medium (library code, rebrand mostly docs and packaging) ⚠ BSD-3 requires copyright notice kept; no trademark issues

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
QuarkTS kmilo17pet/QuarkTS ★ 357 · Permissive MIT · Framework · Fit 2/5	Open-source embedded OS with cooperative scheduling, state machines and coroutines. *Replaces:* Micrium uC/OS, Segger embOS	Embedded engineers building microcontroller firmware products	Training/courses Consulting/implementation	• Firmware scheduling for battery sensors • Hierarchical state machines for appliance controllers • RTOS training for embedded bootcamps	$150-400/hr support retainer; library free *Effort:* Medium (embedded C, board ports and testing needed) ⚠ MIT permissive; no safety certification such as IEC 61508 provided
StateOS stateos/StateOS ★ 208 · Permissive MIT · Framework · Fit 2/5	Free RTOS for microcontrollers with a C++ wrapper and std::thread support. *Replaces:* Micrium uC/OS, Segger embOS, Wind River VxWorks	Embedded C++ teams needing an RTOS on microcontrollers	Consulting/implementation Training/courses	• C++ thread API for STM32 industrial controllers • std::thread ports for nRF devices • RTOS onboarding for C++ firmware teams	$2k-8k per port and integration project *Effort:* Medium (ports per MCU family, C++ templating work) ⚠ MIT permissive; safety-critical use unverified, certification unclear
Lambda GMLambda/Lambda ★ 88 · Permissive MIT · Game · Fit 2/5	Cooperative multiplayer game mode mod for Half-Life 2.	Half-Life 2 fans running private co-op servers	Content/membership Premium plugins/add-ons	• Private HL2 co-op servers for LAN parties • Paid map packs for co-op communities • Hosted dedicated servers for Half-Life modders	$3-5/mo per private server slot *Effort:* Medium (mod depends on Valve engine and assets) ⚠ Half-Life and Valve IP; MIT covers mod code, not game assets
Librecoop Stradex/librecoop ★ 67 · GPL GPL-3.0 · Game · Fit 2/5	Cooperative multiplayer mode for the dhewm3 Doom 3 engine port.	Doom 3 fans wanting co-op multiplayer	Premium plugins/add-ons Content/membership	• Co-op Doom 3 servers for LAN parties • Modding toolkit for dhewm3 community • Paid campaign packs for co-op groups	Free core; $2-4/mo for managed servers *Effort:* Low (game-specific, relies on dhewm3 engine base) ⚠ GPL-3.0 needs source shared; id Software Doom 3 assets copyrighted
IntrOS stateos/IntrOS ★ 45 · Permissive MIT · Framework · Fit 2/5	Free cooperative operating system for microcontrollers, small footprint. *Replaces:* Micrium uC/OS	Hobby and student embedded developers on small MCUs	Training/courses Consulting/implementation	• Teaching RTOS basics in university labs • Cooperative scheduling for battery alarm boards • Minimal OS ports for legacy 8-bit parts	Free core; $80-150/hr port and tuning *Effort:* Medium (small codebase, port work per MCU) ⚠ MIT permissive; small community, production readiness unclear
QuarkTS-cpp kmilo17pet/QuarkTS-cpp ★ 39 · Permissive MIT · Library · Fit 2/5	C++ port of the QuarkTS cooperative embedded scheduler and state machine library.	C++ embedded developers porting firmware to QuarkTS	Consulting/implementation Training/courses	• C++ state machines for vending machine firmware • C++ scheduler for drone controller boards • Embedded C++ workshops for hardware startups	$120-200/hr port work; library stays free *Effort:* Medium (C++ port, must track upstream QuarkTS) ⚠ MIT permissive; duplicated maintenance risk versus upstream QuarkTS

QPlayer space928/QPlayer ★ 53 · GPL GPL-3.0 · App · Fit 3/5	Simple media player for theatre cues, designed for live playback during productions. *Replaces:* QLab	Theatre technicians running sound and video playback	Setup + support retainer Training/courses	• Sound cue playback for youth theatre • Lighting-and-audio playback for dance recitals • Playback courses for theatre tech students	Free app; $200-500 per theatre setup *Effort:* Medium (playback UI and theatre workflows need polish) ⚠ GPL-3.0 applies to distributed builds; reliability needs live-show testing
Inkue FonograF/Inkue ★ 52 · GPL GPL-3.0 · App · Fit 3/5	Cross-platform show-control app with cue lists for theatre, concerts and live events. *Replaces:* QLab, ProPresenter	Touring crews and theatre production teams	Setup + support retainer Premium plugins/add-ons	• Cue lists for touring concert crews • Show control for regional theatre companies • Cue playback for corporate event producers	Free app; $99-300/mo for pro support *Effort:* Medium (Tauri and Rust stack, show-critical reliability testing) ⚠ GPL-3.0 source-sharing; live-show reliability and liability disclaimers
Deckboy Utopian-Academy/Deckboy ★ 34 · GPL GPL-3.0 · App · Fit 3/5	Free cue deck for theatre and live video, outputting to screens, NDI, SRT or SDI. *Replaces:* Resolume Arena, Watchout	Theatre video designers and live event crews	Setup + support retainer Premium plugins/add-ons	• Video cue decks for regional theatre • Camera and slide playback for church services • NDI cue playback for conference streams	Free app; $300-800 per show integration *Effort:* Medium (broadcast outputs need hardware testing and support) ⚠ GPL-3.0; NDI, Blackmagic and SMPTE names are trademarks; broadcast testing needed
PyDMXControl MattIPv4/PyDMXControl ★ 142 · GPL GPL-3.0 · Tool · Fit 2/5	Python module for DMX lighting control with fixture profiles, effects and web panel. *Replaces:* Chamsys MagicQ, grandMA2	Makers and small venues running DMX lighting	Setup + support retainer Training/courses	• DMX control for home light shows • Lighting for small bars and cafes • Stage effect scripting for school plays	Free software; $400-1000 per venue lighting setup *Effort:* Medium (fixture profiles, USB DMX hardware, web panel) ⚠ GPL-3.0 distribution rules; lighting electrical safety standards apply
OSC-for-OBS jshea2/OSC-for-OBS ★ 138 · Check NONE · Tool · Fit 2/5	Small tool to control and listen to OBS Studio over OSC messages. *Replaces:* Elgato Stream Deck, TouchOSC	Live streamers and broadcast operators using OBS	Setup + support retainer Premium plugins/add-ons	• OBS control for church livestreams • Scene switching for esports casters • OSC cues for live podcast studios	Free tool; $150-400 per broadcast setup *Effort:* Low (small OBS-specific plugin, easy to rebrand) ⚠ NONE license: copyright reserved; OBS and Elgato trademarks need care

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Olc mikacousin/olc ★ 59 · GPL GPL-3.0 · App · Fit 2/5	Lighting show control software for programming and running live lighting shows. *Replaces:* grandMA, Hog 4	Lighting designers and stage hands running live shows	Setup + support retainer Consulting/implementation	• Show programming for church lighting teams • Sequences for small club lighting • Event lighting for corporate stages	Free app; $500-1500 per show programming *Effort:* Medium (lighting control UI, fixture library needs building) ⚠ GPL-3.0; DMX fixture profile licences may be restricted
SoundBoard micahmo/SoundBoard ★ 58 · Check NONE · App · Fit 2/5	Windows desktop app for organising and playing sound clips quickly. *Replaces:* Soundpad, Voicemod	Streamers and gamers playing sound effects	Premium plugins/add-ons Content/membership	• Sound effect boards for Twitch streamers • Meme soundboards for Discord communities • Cue soundboards for school plays	Free core; $5-10 one-time for pro sound packs *Effort:* Low (Windows app, rebrand and sound packs) ⚠ NONE license: copyright reserved; clip music may breach copyright
Theater GlebBatykov/theater ★ 41 · Permissive MIT · Library · Fit 2/5	Dart actor framework for managing isolates and clusters of isolates.	Dart and Flutter developers building concurrent apps	Consulting/implementation Training/courses	• Isolate pools for Flutter data-heavy apps • Concurrent workers for Dart backend services • Actor-model workshops for Dart teams	Free package; $120-180/hr Dart architecture help *Effort:* Low (Dart package, rename easily) ⚠ MIT fine; small package, check maintenance before production use

Farming & Crop Management · 10

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
farmOS farmOS/farmOS ★ 1.4k · GPL GPL-2.0 · Platform · Fit 4/5	Web-based farm record keeping for crops, livestock, logs and maps *Replaces:* Farmbrite, Granular, FarmLogs	Small diversified farms	Managed hosting Vertical SaaS Consulting/implementation	• Hosted farm records for organic CSA farms • Vineyard operations log • Compliance recordkeeping for livestock producers *Angle:* Hosted farm records for small diversified farms, $15/mo	$25-75/mo per farm *Effort:* Medium (Drupal-based, modular) ⚠ GPL-2.0; multi-farm hosting needs ops
AgOpenGPS AgOpenGPS-Official/AgOpenGPS ★ 980 · Permissive Apache-2.0 · App · Fit 4/5	Precision agriculture mapping, section control and autosteer guidance software *Replaces:* John Deere AutoTrac, Trimble Ag, Raven	Farmers, ag retrofitters	Hardware kits/assembly Setup + support retainer Local service business	• Low-cost tractor autosteer kits • Seeder section control retrofits • Vineyard row guidance installs *Angle:* Low-cost tractor autosteer kits for small farms	$1,500-3,500 per kit *Effort:* High (Windows app, hardware integration) ⚠ Apache-2.0; machine safety liability
Ekylibre ekylibre/ekylibre ★ 495 · AGPL AGPL-3.0 · Platform · Fit 4/5	Open source farm management information system covering crop plans, accounting and traceability. *Replaces:* Farmbrite, Granular, Climate FieldView, Isagri	Farms and agricultural cooperatives	Managed hosting Setup + support retainer Vertical SaaS	• Farm management for French vineyards • Cooperative member tracking • Organic farm certification records *Angle:* Farm management info system for European growers	$30-150/mo per farm *Effort:* Medium (Mature Rails app, French-centric) ⚠ AGPL-3.0; French regulatory defaults
LiteFarm LiteFarmOrg/LiteFarm ★ 252 · GPL GPL-3.0 · Platform · Fit 4/5	Community-led farm management platform with crop plans, tasks and sustainability reporting. *Replaces:* Farmbrite, Croptracker, Granular, AgriWebb	Small and diversified farms	Managed hosting Vertical SaaS Setup + support retainer	• Organic certification records for farms • Farm planner for CSA operations • Regenerative reporting for growers *Angle:* Organic certification recordkeeping sold via co-ops	$15-50/mo per farm *Effort:* Medium (Maintained, multi-farm design) ⚠ GPL-3.0; LiteFarm brand belongs to UBC
Mycodo kizniche/Mycodo ★ 3.3k · GPL GPL-3.0 · Platform · Fit 3/5	Raspberry Pi sensor and relay environmental monitoring and control system *Replaces:* Growlink, TrolMaster, Inkbird	Greenhouse growers, mushroom farmers	Setup + support retainer Hardware kits/assembly Local service business	• Mushroom fruiting room controllers • Reptile habitat monitoring kits • Craft brewery fermentation temperature control *Angle:* Greenhouse and mushroom-farm environment controllers	$499 installed kit *Effort:* Medium (Python/Pi stack, custom hardware) ⚠ GPL-3.0; electrical safety on installs

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FarmBot Web App FarmBot/Farmbot-Web-App ★ 977 · **Permissive** MIT · Platform · Fit 3/5	Web app and API for controlling FarmBot robotic garden machines *Replaces:* FarmBot Cloud, Farmbot Genesis	Home growers, edu labs	Hardware kits/assembly Managed hosting Setup + support retainer	• Robot garden installs for restaurants • School STEM farm lab packages • Managed FarmBot cloud for makerspaces *Angle:* Precision garden robots for schools and urban farms	$20/mo hosted, kit extra *Effort:* High (Needs hardware, complex backend) ⚠ FarmBot name trademark; hardware licensed separately
Tania usetania/tania-core ★ 824 · **Permissive** Apache-2.0 · App · Fit 3/5	Farm management planner for smallholder crops, tasks and inventory *Replaces:* Farmbrite, AgriWebb	Hobbyist and small farmers	Vertical SaaS Managed hosting Consulting/implementation	• Market garden planner for CSA growers • Greenhouse task scheduling for nurseries • Urban rooftop farm tracker *Angle:* Simple farm planner for market gardeners	$15/mo per farm *Effort:* Medium (Go/Vue, development paused) ⚠ Apache-2.0; project stagnant, plan to maintain
Tania PHP **ARCHIVED** usetania/tania ★ 543 · **Permissive** Apache-2.0 · App · Fit 3/5	PHP farm management system for crops, tasks and inventory. *Replaces:* Farmbrite, Croptracker, AgriWebb, Granular	Small farms	Managed hosting Vertical SaaS Setup + support retainer	• Farm planner for market gardens • Crop log for greenhouses • Farm records for small orchards *Angle:* Lightweight farm management for agri-extension programs	$10-30/mo per farm *Effort:* Medium (Older project, single-tenant) ⚠ Apache-2.0; less active
FarmVibes.AI microsoft/farmvibes-ai ★ 908 · **Permissive** MIT · Platform · Fit 2/5	Multi-modal geospatial ML models and workflows for agriculture and sustainability. *Replaces:* Climate FieldView, Planet Labs, Descartes Labs, Farmers Edge	Agtech companies and researchers	Consulting/implementation Managed hosting API/usage-based	• Crop monitoring for cooperatives • Soil analysis for vineyards • Yield forecasting for agronomists *Angle:* Satellite crop-health reports for agronomists	$500-2k/mo per client *Effort:* High (Heavy geospatial ML stack) ⚠ MIT; Microsoft branding, project archived
EppoFindeR openefsa/eppoFindeR ★ 5 · **Weak copyleft** EUPL-1.2 · Library · Fit 2/5	R interface to the EPPO database and public APIs for plant pest and disease data *Replaces:* Manual EPPO database lookups, commercial pest databases	Plant health researchers and crop advisors	Consulting/implementation Training/courses	• Pest data for crop advisory firms • Plant health reports for export inspectors • Pest lookups for agricultural universities	Free package; $2-4k data analysis *Effort:* Medium (R library, needs product built around it) ⚠ EUPL-1.2 copyleft in EU; EPPO data terms apply

Fisheries & Aquaculture · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Anglers' Log cohenadair/anglers-log ★ 36 · **GPL** GPL-3.0 · App · Fit 3/5	Flutter mobile app to log, analyze and share fishing catches. *Replaces:* Fishbrain, FishAngler, Fishidy, Anglr	Recreational anglers	Mobile app on top Content/membership Premium plugins/add-ons	• Catch log for fishing guides • Charter boat catch app • Fly fishing club logbook *Angle:* Catch log app branded for fishing charters	$3-5/mo subscription *Effort:* Medium (Flutter app, rebrand and store listing) ⚠ GPL-3.0; distributed apps must ship source
Openem openem-team/openem ★ 20 · **Permissive** MIT · Library · Fit 3/5	Open-source library for electronic monitoring of fishing vessels using camera video. *Replaces:* Satlink, Archipelago Marine Research	Fisheries monitoring agencies and vessel-camera providers	Consulting/implementation Setup + support retainer	• Catch video review for fishery observers • Compliance monitoring for trawler fleets • Camera-based discard counts for regional agencies	$3-8k per fleet pipeline setup, library free *Effort:* High (monitoring domain expertise, hardware and government compliance) ⚠ MIT fine; vessel monitoring data privacy and fisheries regulation apply
Ss3sim ss3sim/ss3sim ★ 42 · **Check** NOASSERTION · Library · Fit 2/5	R package for running stock-assessment simulation studies with Stock Synthesis.	Fisheries scientists running stock assessment simulations	Consulting/implementation Training/courses	• Simulation studies for fisheries management agencies • Stock assessment courses for marine science students • Quota-model testing for regional councils	Free package; $5-15k per simulation study *Effort:* High (scientific R package, domain expertise needed) ⚠ NOASSERTION license: read first; Stock Synthesis licence terms apply

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mizer sizespectrum/mizer ★ 42 · Check NONE · Library · Fit 2/5	R package for multi-species, size-based ecological modelling of marine communities.	Marine ecologists modelling fish communities	Consulting/implementation Training/courses	• Fish community models for marine parks • Fishing impact studies for port authorities • Ecosystem modelling courses for marine biology students	Free package; $8-20k per ecosystem model study *Effort:* High (research R package, science-domain expertise needed) ⚠ NONE license: copyright reserved; ask authors before commercial use
IoT Water Quality Monitor pkErbynn/IoT-WQMS ★ 30 · Check NONE · Hardware · Fit 2/5	IoT water quality monitoring system with notifications for fish farmers *Replaces:* YSI aquaculture sensors, Atlas Scientific, AquaManager	Small fish farmers	Hardware kits/assembly Mobile app on top Setup + support retainer	• Pond monitors for small fish farms • Water alerts for tilapia farmers • Hatchery monitoring kits *Angle:* Pond water-quality alerts for fish farmers	$150-400 per pond kit *Effort:* Medium (Student project, sensors need calibration) ⚠ No license stated
Rfisheries ropensci/rfisheries ★ 28 · Check NOASSERTION · Library · Fit 2/5	R package for querying fisheries databases hosted at openfisheries.org.	Fisheries analysts pulling catch and landings data	API/usage-based Consulting/implementation	• Catch data pulls for seafood traceability firms • Landings analysis for regional fisheries councils • Data pipelines for fisheries consultancies	Free package; $2-5k per data pipeline project *Effort:* Medium (data source dependency, API stability uncertain) ⚠ NOASSERTION license: read first; openfisheries data terms and attribution
AI Aquaculturing TsaiRongFu/AI-Aquaculturing ★ 25 · Permissive MIT · Tool · Fit 2/5	Uses a camera and MobileNet to detect fish in tanks for smart aquaculture. *Replaces:* Observe Technologies, AKVA Group, Umitron	Fish farmers	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Fish counting for hatcheries • Tank monitoring for ornamental fish • Feeding insights for tilapia farms *Angle:* Camera-based fish feeding monitoring for farms	$50-200/mo per tank *Effort:* High (Research prototype) ⚠ MIT; prototype quality
EchoSMs ices-tools-dev/echoSMs ★ 23 · Permissive MIT · Tool · Fit 2/5	Web-accessible acoustic scattering models for fisheries and plankton scientists.	Acoustic fisheries and plankton scientists	API/usage-based Consulting/implementation	• Acoustic scattering calculators for fish survey teams • Plankton backscatter models for oceanographers • Web tools for acoustic survey training	Free web tool; $1-3k per model calibration project *Effort:* Medium (web service needs scientific validation and hosting) ⚠ MIT fine; scientific model accuracy needs peer review before use
Gfsynopsis pbs-assess/gfsynopsis ★ 18 · Check NONE · Tool · Fit 2/5	Reproducible data synopsis reports for over 100 British Columbia groundfish species.	Regional fisheries managers and marine research groups	Consulting/implementation Training/courses	• Groundfish reports for regional fishery managers • Stock synopsis for regional fisheries offices • Reproducible species reports for marine research teams	Free report code; $4-12k per species synopsis *Effort:* High (species data pipeline, government data, reproducibility work) ⚠ NONE license: copyright reserved; government data terms; ask authors
Datalimited2 cfree14/datalimited2 ★ 15 · Check NONE · Library · Fit 2/5	R package adding stock assessment methods for data-limited fisheries.	Fisheries stock assessors working with sparse data	Consulting/implementation Training/courses	• Stock assessment for small-scale fisheries • Data-limited methods workshops for fisheries agencies • Catch-only assessments for coastal co-ops	Free package; $3-8k per assessment project *Effort:* Low (R package, scientific methods, little product layer) ⚠ NONE license: copyright reserved; ask author before commercial use
RFishBC fishR-Core-Team/RFishBC ★ 14 · Check NONE · Library · Fit 2/5	R package back-calculating fish growth from calcified structures such as otoliths.	Fish ageing labs back-calculating growth history	Consulting/implementation Training/courses	• Growth analysis for fisheries stock labs • Otolith ageing workflows for research agencies • Fish growth courses for marine biology students	Free package; $4-10k per growth-study analysis *Effort:* Medium (R package, scientific rigour, data-specific inputs) ⚠ NONE license: copyright reserved; ask authors before commercial use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Fish-r-man Shyentist/fish-r-man ★ 14 · AGPL AGPL-3.0 · Tool · Fit 2/5	Bundle of analytics tools aimed at fisheries scientists.	Fisheries scientists needing analytics tooling	Consulting/implementation Training/courses	• Analytics dashboards for fishery scientists • Catch analytics for regional fishing cooperatives • Fisheries analytics workshops for environmental consultancies	Free bundle; $2-6k per analytics setup *Effort:* Medium (tool bundle scope unclear, verify contents first) ⚠ AGPL-3.0: publish server changes; bundle scope unclear, verify before building
DISPLACE_GUI frabas/DISPLACE_GUI ★ 12 · GPL GPL-2.0 · Tool · Fit 2/5	Research software for spatial fisheries and natural resource management scenarios.	Spatial fisheries modellers and resource managers	Consulting/implementation Training/courses	• Spatial fishing-effort modelling for marine agencies • Management scenario studies for regional fisheries councils • Fisheries management courses for graduate students	Free software; $8-20k per spatial model study *Effort:* High (scientific GUI, expertise-heavy, complex data inputs) ⚠ GPL-2.0 fine for hosting; research-grade software needs validation

Fitness, Dance & Martial Arts Studios · 11

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
wger wger-project/wger ★ 7.2k · AGPL AGPL-3.0 · App · Fit 4/5	Self-hosted workout, nutrition and weight tracker *Replaces:* MyFitnessPal, Strong, Fitbod, Cronometer	Gym members, trainers	Managed hosting Mobile app on top Vertical SaaS	• Client workout tracker for personal trainers • Nutrition logger for dietitians • Gym member app *Angle:* Workout plans app branded for personal trainers	$5-15/mo *Effort:* Medium (Django, API available, mobile app exists) ⚠ AGPL, publish modifications; wger trademark
Gymie lubusIN/gymie ★ 507 · Check NONE · App · Fit 4/5	Gym and club management system for members, plans, billing and enquiries. *Replaces:* Mindbody, Glofox, Zen Planner, Wodify	Gyms and small fitness clubs	Managed hosting Vertical SaaS Setup + support retainer	• Gym management for martial arts schools • Studio membership for yoga • Dance school billing *Angle:* Membership and billing for gyms and dance studios	$29-79/mo per gym *Effort:* Medium (Laravel app, no license stated) ⚠ No license stated; ask author
Cal.com calcom/cal.com ★ ? · Check NONE · App · Fit 4/5	Scheduling and booking platform (record has no stats or description, likely moved or renamed) *Replaces:* Calendly, Acuity, SavvyCal, Doodle	Teams and platforms needing booking pages	Managed hosting White-label reseller API/usage-based	• Booking pages for consultants • Appointment scheduling for tutors • Demo booking for B2B sales teams *Angle:* Class booking for yoga and dance studios	$12-30/user/mo, free tier *Effort:* Medium (Embeds and platform API exist, ee parts commercial) ⚠ Overlaps cal.diy; no license shown, check upstream; Cal.com trademark
GYM One mayerbalintdev/GYM-One ★ 223 · Check NOASSERTION · App · Fit 3/5	Open-source gym management software for fitness centers *Replaces:* Mindbody, Glofox, Zen Planner, Wodify	Gyms, fitness studios	Managed hosting Vertical SaaS Setup + support retainer	• Management for boutique gyms • Memberships for yoga studios • Check-in for martial arts *Angle:* Turnkey gym software for independent clubs	$29-79/mo per gym *Effort:* Medium (Young PHP app) ⚠ License NOASSERTION, read first
Django-danceschool django-danceschool/django-danceschool ★ 50 · Permissive BSD-3-Clause · App · Fit 3/5	Django CMS project for running a social dance school with classes, members and registrations. *Replaces:* Mindbody, Zen Planner	Social dance schools running classes and memberships	Managed hosting Setup + support retainer	• Class booking for salsa and swing schools • Membership billing for ballroom studios • Workshop registration for tango schools	$50-150/mo per school, setup $500-1500 *Effort:* Medium (Django CMS, booking and payment setup needed) ⚠ BSD-3 fine; payment and member-data compliance; Django CMS upkeep
Rythm.js Okazari/Rythm.js ★ 3.9k · GPL GPL-3.0 · Library · Fit 2/5	JavaScript library that animates page elements to music beats.	Front-end developers adding music-reactive page effects	Consulting/implementation Premium plugins/add-ons	• Beat-reactive landing pages for music labels • Animated event microsites for festivals • Music-reactive widgets for radio station websites	Free library; $1-3k per interactive landing page *Effort:* Low (JS library, restyle and wrap in components) ⚠ GPL-3.0 applies to distributed builds; check dependency licences

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Danser-go Wieku/danser-go ★ 949 · Check NOASSERTION · App · Fit 2/5	Visualiser and custom client for osu! standard maps, also generates osu! videos.	osu! players and rhythm-game content creators	Premium plugins/add-ons Content/membership	• Video generators for osu! content creators • Replay visualisers for rhythm game clubs • Tournament replay videos for esports organisers	Free app; $5-15/mo creator render service *Effort:* Medium (custom osu! client, rendering pipeline and UI work) ⚠ NOASSERTION license: read first; osu! game rules and ppy trademark apply
LaraGym johndavedecano/laragym ★ 364 · Check NONE · App · Fit 2/5	Laravel gym management system, appears dated *Replaces:* Mindbody, Glofox, Zen Planner	Small gyms	Managed hosting Setup + support retainer Vertical SaaS	• Gym management for boutique studios • Memberships for martial arts • Tracker for CrossFit boxes *Angle:* Hosted gym management, $39/mo	$29-79/mo *Effort:* High (Old project, license NONE) ⚠ No license, cannot reuse legally without permission
Gym Management System MiloTnT/gym-management-system ★ 357 · Permissive MIT · App · Fit 2/5	Spring Boot gym management system; Chinese-oriented. *Replaces:* Mindbody, Glofox, Zen Planner	Gyms in China	Setup + support retainer Vertical SaaS Agency service	• Gym membership for local clubs • Class booking for dance studios • Personal training scheduler *Angle:* Spring Boot gym system for Asian fitness chains	$29-59/mo per gym *Effort:* Medium (Chinese UI, single-tenant) ⚠ MIT; student-style project
Dvvr alloystorm/dvvr ★ 93 · Check NONE · App · Fit 2/5	Character model viewer and motion player for PMX, XNALara, VMD and BVH files.	MMD and 3D animation hobbyists and modellers	Premium plugins/add-ons Content/membership	• Model viewers for animation studio asset reviews • Motion preview tools for VTuber modellers • Motion library sales for MMD creators	Free viewer; $10-25 per pro licence *Effort:* Medium (desktop viewer, format support and asset rights) ⚠ NONE license: copyright reserved; model asset and game-rip rights issues
Hajime ARCHIVED Maus3rSR/Hajime ★ 19 · Permissive MIT · App · Fit 2/5	Competition management software for fencing martial arts tournaments. *Replaces:* Fencing Time, Tournament Software, Smoothcomp	Fencing clubs and tournament organizers	Vertical SaaS Setup + support retainer Premium plugins/add-ons	• Tournament bracket tool for HEMA clubs • Judo competition scoring • Fencing club event software *Angle:* Fencing and martial arts competition management	$20-50 per event *Effort:* Medium (Small desktop project) ⚠ MIT; niche audience

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Graphql-prisma-typescript prisma-labs/graphql-prisma-typescript ★ 746 · **Permissive** MIT · Starter · Fit 2/5	GraphQL server reference implementation in TypeScript with Prisma and graphql-yoga.	Node developers building GraphQL backends	Consulting/implementation Training/courses	• GraphQL backends for rental startups • Prisma API courses for TypeScript bootcamps • Backend starters for marketplace MVPs	Free reference; $4-10k per GraphQL backend build *Effort:* Medium (reference implementation, domain model rebuild) ⚠ MIT fine; Airbnb-style example, rename the domain and branding
React-native-calendar-select Tinysymphony/react-native-calendar-select ★ 307 · **Permissive** MIT · Library · Fit 2/5	React Native component for selecting a date range from a calendar, like Airbnb.	React Native developers building booking screens	Consulting/implementation Premium plugins/add-ons	• Date-range pickers for holiday rental apps • Date selection for fitness class booking • Leave-request pickers for HR apps	Free component; $1-3k per booking screen build *Effort:* Low (component, restyle and test on devices) ⚠ MIT fine; check maintenance and React Native version compatibility
Hotel Management System chironyf/hotel-management-system ★ 251 · **GPL** GPL-3.0 · App · Fit 2/5	Chinese hotel system for booking, extending stays and checkout. *Replaces:* Cloudbeds, Mews, Oracle Opera	Small hotels	Setup + support retainer Vertical SaaS Agency service	• Guesthouse front desk • Hostel booking • Capsule hotel manager *Angle:* Guesthouse booking and reporting	$30-60/mo *Effort:* High (Chinese UI, desktop style) ⚠ GPL-3.0; limited features
HotinGo **ARCHIVED** Just-Moh-it/HotinGo ★ 244 · **Permissive** MIT · App · Fit 2/5	Tkinter and MySQL hotel management desktop system. *Replaces:* Cloudbeds, Little Hotelier, RoomRaccoon	Small hotels	Setup + support retainer Vertical SaaS Agency service	• Small guesthouse desktop PMS • Hostel check-in tool • Lodge manager *Angle:* Desktop front desk for small motels	$20-40/mo *Effort:* High (Desktop student project) ⚠ MIT; no multi-user web
Virtual-museum-tour-threejs theringsofsaturn/virtual-museum-tour-threejs ★ 50 · **Check** NONE · Starter · Fit 2/5	Three.js starter for interactive virtual tours of hotels, apartments and attractions *Replaces:* Matterport, Kuula virtual tour services	Hotels, apartment rentals and tourist attractions	Agency service Setup + support retainer	• Virtual tours for boutique hotels • Walkthroughs for apartment rentals • 3D tours for regional attractions	$500-2k per tour build *Effort:* Medium (starter code, needs scene assets and hosting) ⚠ NONE license; no grant; scene assets may be copyrighted

Insurance Agencies · 13

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
OasisLMF OasisLMF/OasisLMF ★ 172 · **Permissive** BSD-3-Clause · Framework · Fit 3/5	Open-source loss modelling framework for catastrophe and insurance risk analysis. *Replaces:* Verisk catastrophe models, Moody's RMS	Catastrophe modellers at insurers and reinsurers	Consulting/implementation Managed hosting	• Flood loss models for regional insurers • Catastrophe modelling for reinsurance brokers • Hurricane loss runs for coastal MGAs	$20-60k per model deployment, support extra *Effort:* High (actuarial expertise, data and regulatory validation) ⚠ BSD-3 fine; actuarial model validation and insurer regulation apply
Quickfire flashvenom/quickfire ★ 47 · **Check** NOASSERTION · App · Fit 3/5	Insurance agency management system with workflows, third-party APIs and AI renewal tools. *Replaces:* Applied Epic, Vertafore AMS360, HawkSoft	P&C agencies, wholesalers and brokers	Vertical SaaS Setup + support retainer	• Renewal workflows for P&C agencies • Quote intake for wholesale brokers • AI renewal assistants for small commercial agencies	$150-400/mo per agency, setup extra *Effort:* High (AMS needs carrier integrations, compliance and AI tooling) ⚠ NOASSERTION license: read first; insurance licensing and AI data privacy rules
Dotnetcore-microservices-poc asc-lab/dotnetcore-microservices-poc ★ 1.9k · **Permissive** Apache-2.0 · Starter · Fit 2/5	Simplified insurance sales system built as .NET Core microservices, as a proof of concept. *Replaces:* Guidewire, Duck Creek	Insurance tech teams learning microservice design	Consulting/implementation Training/courses	• Microservice reference for small insurance brokers • .NET courses for insurance IT teams • Sales-system prototypes for MGAs	Free reference; $80-200/hr architecture consulting *Effort:* High (reference POC, insurance rules and integrations missing) ⚠ Apache-2.0 fine; insurance regulation and data privacy apply to real use

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Micronaut-microservices-poc asc-lab/micronaut-microservices-poc ★ 498 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Simplified insurance sales system built as Micronaut microservices, as a proof of concept. *Replaces:* Guidewire, Duck Creek	Java backend teams building insurance sales APIs	Consulting/implementation Training/courses	• Java microservice training for insurance IT teams • Sales-API prototypes for small brokers • Micronaut workshops for enterprise Java teams	Free reference; $90-180/hr Java consulting *Effort:* High (reference POC, not production insurance logic) ⚠ Apache-2.0 fine; insurance regulation and data privacy apply to real use
Ontology riskine/ontology ★ 119 · **Permissive** Apache-2.0 · Content · Fit 2/5	Global insurance data ontology for mapping insurance concepts between systems.	Insurance data architects and insurtech integrators	Consulting/implementation Training/courses	• Data mapping for insurance API startups • Ontology training for insurance IT teams • Claims schema standards for MGAs	Free ontology; $10-30k data-model integration project *Effort:* Medium (ontology mapping, insurer-specific extensions) ⚠ Apache-2.0 fine; keep attribution; standard may lag industry practice
Insurancerating MHaringa/insurancerating ★ 95 · **Check** NONE · Library · Fit 2/5	R package for insurance pricing and tariff modelling. *Replaces:* Emblem, Radar	Actuaries and pricing analysts at insurers	Consulting/implementation Training/courses	• Motor tariff analysis for small insurers • Pricing courses for actuarial students • Rating-factor studies for MGAs	Free package; $5-15k per tariff analysis project *Effort:* Medium (R package, actuarial expertise, regulatory review) ⚠ NONE license: copyright reserved; actuarial pricing rules and regulator filings apply
Insurancemanagement sumitkumar1503/insurancemanagement ★ 84 · **Permissive** MIT · App · Fit 2/5	Django insurance management system for managing policies and clients. *Replaces:* Applied Epic, Vertafore	Small insurance agencies managing policies	Vertical SaaS Setup + support retainer	• Policy tracking for local insurance agencies • Renewal reminders for auto-insurance brokers • Claims logs for small health-insurance agents	$99-300/mo per agency, setup extra *Effort:* Medium (Django app, carrier integrations and compliance) ⚠ MIT fine; insurance licensing and consumer data privacy rules apply
InsuranceProCRM prolinkinfo/InsuranceProCRM ★ 78 · **Check** NONE · App · Fit 2/5	CRM for insurance agents to manage clients, policies and leads. *Replaces:* Applied Epic, HawkSoft	Independent insurance agents tracking leads	Vertical SaaS Mobile app on top	• Lead tracking for life insurance agents • Renewal management for P&C agencies • Client portals for small benefits brokers	$49-129/mo per agent, free trial *Effort:* Medium (CRM modules, integrations and insurance workflows) ⚠ NONE license: copyright reserved; insurance licensing and privacy rules; sensitive CRM data
Aggregate mynl/aggregate ★ 70 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python tools for building and working with aggregate probability distributions for insurance losses.	Actuaries and insurance risk modellers	Consulting/implementation Training/courses	• Loss distribution models for small reinsurers • Actuarial modelling courses for exam students • Aggregate risk tools for MGA pricing teams	Free library; $4-12k per actuarial modelling project *Effort:* Low (library for actuaries, needs workflows and docs) ⚠ BSD-3 fine; actuarial results need peer review and regulator standards
Azure-functions-billing asc-lab/azure-functions-billing ★ 62 · **Permissive** Apache-2.0 · Starter · Fit 2/5	Serverless .NET Core billing reference built on Azure Functions v2. *Replaces:* Chargebee, Recurly	Azure-based SaaS teams building serverless billing	Consulting/implementation Training/courses	• Serverless invoicing for Azure SaaS startups • Usage billing for insurance MGAs • Azure billing workshops for .NET teams	Free reference; $6-15k per serverless billing build *Effort:* High (reference architecture, payment and tax integrations) ⚠ Apache-2.0 fine; payment, tax and PCI scope need real-world work
Open_insure daxaxelrod/open_insure ★ 53 · **Check** NONE · App · Fit 2/5	Open-source insurance policy management software for tracking policies and clients. *Replaces:* Applied Epic, Vertafore, Duck Creek	Small insurance agencies and start-up MGAs	Vertical SaaS Setup + support retainer	• Policy tracking for small home-insurance agencies • Renewal management for pet-insurance brokers • Policy admin for start-up MGAs	$99-250/mo per agency, setup extra *Effort:* Medium (policy domain logic, carrier integrations, licensing) ⚠ NONE license: copyright reserved; insurance licensing and consumer privacy rules

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Insurance_python open-source-modelling/insurance_python ★ 50 · Permissive MIT · Library · Fit 2/5	Collection of Python actuarial algorithms published by Open Source Modelling.	Python actuaries and insurance data scientists	Consulting/implementation Training/courses	• Python reserving tools for small insurers • Pricing algorithm training for actuarial students • Model libraries for insurance analytics start-ups	Free library; $3-10k per actuarial model build *Effort:* Low (algorithm collection, packaging and docs needed) ⚠ MIT fine; actuarial models need validation before regulatory use
Deeptriangle kasaai/deeptriangle ★ 48 · Check NOASSERTION · Model · Fit 2/5	Deep learning approach to loss reserving using claims development triangles. *Replaces:* Milliman R-Track	Reserving actuaries at insurers and reinsurers	Consulting/implementation API/usage-based	• Reserve estimates for P&C insurers • Claims triangle models for reinsurance brokers • Reserving tools for captive insurers	$5-15k per reserving model build *Effort:* High (research model, actuarial validation and sign-off) ⚠ NOASSERTION license: read first; actuarial sign-off and reserving regulation apply

Laboratories (LIMS) · 30

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
eLabFTW elabftw/elabftw ★ 1.5k · AGPL AGPL-3.0 · App · Fit 4/5	Popular open source electronic lab notebook with experiments, inventory and compliance features. *Replaces:* Benchling, LabArchives, Labguru, PerkinElmer Signals	Research labs	Managed hosting Setup + support retainer Consulting/implementation	• ELN hosting for university labs • Biotech lab notebook • Teaching lab notebooks *Angle:* Managed electronic lab notebook for research labs	$10-30/user/mo *Effort:* Medium (Mature PHP, brandable) ⚠ AGPL-3.0; eLabFTW trademark
SENAITE senaite/senaite.core ★ 402 · GPL GPL-2.0 · Platform · Fit 4/5	Enterprise open source LIMS for laboratory sample and result management. *Replaces:* LabWare, STARLIMS, LabVantage, Thermo SampleManager	Testing and clinical labs	Managed hosting Setup + support retainer Consulting/implementation	• LIMS for water testing labs • Food testing lab system • Cannabis lab compliance software *Angle:* Hosted LIMS for environmental and food labs	$100-500/mo per lab *Effort:* Medium (Plone-based, extensible add-ons) ⚠ GPL-2.0; lab accreditation requirements
SciNote scinote-eln/scinote-web ★ 309 · Check NOASSERTION · App · Fit 4/5	Open source electronic lab notebook for managing experiments and inventory. *Replaces:* Benchling, LabArchives, Labguru, SciNote Pro	Academic and biotech labs	Managed hosting Setup + support retainer Consulting/implementation	• ELN for university labs • Protocol notebook for CRO startups • Teaching lab notebook for schools *Angle:* ELN for biotech startups	$10-30/user/mo *Effort:* Medium (Rails app, brandable) ⚠ NOASSERTION license; SciNote trademark
OpenELIS Global DIGI-UW/OpenELIS-Global-2 ★ 285 · Weak copyleft MPL-2.0 · Platform · Fit 4/5	Open source laboratory information system for clinical and public health labs. *Replaces:* LabWare, Sunquest, Orchard, Epic Beaker	Public health and clinical labs	Setup + support retainer Consulting/implementation Managed hosting	• LIS for rural hospital labs • Lab system for NGO clinics • Public health reporting for ministries *Angle:* Public health lab information system	Project contracts $20-100k *Effort:* High (Large Java system, regulated use) ⚠ MPL-2.0; clinical compliance
Fastp OpenGene/fastp ★ 2.5k · Permissive MIT · Tool · Fit 3/5	Ultra-fast all-in-one FASTQ preprocessor for QC, adapter trimming, filtering and merging *Replaces:* Trimmomatic-based services, CLC Genomics Workbench	Sequencing labs and bioinformatics cores	Consulting/implementation Setup + support retainer	• Read cleanup for clinical sequencing labs • Preprocessing for university genomics cores • Pipeline setup for microbiome startups	Free tool; $3-8k pipeline setup *Effort:* Medium (CLI tool, pipeline integration needed) ⚠ MIT; clinical use needs validation; sequencing data privacy
MultiQC MultiQC/MultiQC ★ 1.5k · GPL GPL-3.0 · Tool · Fit 3/5	Aggregates bioinformatics QC results across many samples into one report *Replaces:* Illumina BaseSpace reports, commercial QC dashboards	Sequencing cores and genomics labs	Consulting/implementation Setup + support retainer	• QC reports for sequencing core facilities • Batch summaries for clinical genomics labs • Report pipelines for agriculture genomics teams	Free tool; $2-5k pipeline setup *Effort:* Medium (reporting tool, pipeline integration needed) ⚠ GPL-3.0; distributed apps must ship source; clinical validation needed
LaminDB laminlabs/lamindb ★ 436 · Permissive Apache-2.0 · Platform · Fit 3/5	Data management for biological and multimodal AI data: query, trace lineage and govern datasets. *Replaces:* Benchling, Dotmatics, Weights & Biases, Palantir Foundry	Biotech R&D teams	Managed hosting Consulting/implementation Setup + support retainer	• Data lineage for biotech startups • Assay data registry for labs • ML dataset governance for pharma *Angle:* Biological data management for labs	$500-2k/mo per team *Effort:* High (Python platform, needs hosted service) ⚠ Apache-2.0; LaminDB brand

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mriqc nipreps/mriqc ★ 383 · Permissive Apache-2.0 · Tool · Fit 3/5	Automated quality control and visual reports for structural and functional MRI scans *Replaces:* Siemens MRI QA suites, commercial neuroimaging QC	Neuroimaging labs and clinical research sites	Consulting/implementation Setup + support retainer	• MRI QC for clinical trial sites • Scan checks for psychiatry research labs • QC reports for brain imaging cohorts	Free tool; $3-8k QC pipeline setup *Effort:* Medium (research-grade, needs validation for use) ⚠ Apache-2.0; not a clinical device, validate before medical use
MISO LIMS miso-lims/miso-lims ★ 317 · GPL GPL-3.0 · Platform · Fit 3/5	Open source LIMS for next-generation sequencing centers. *Replaces:* Illumina BaseSpace Clarity, LabKey, Benchling	Sequencing core facilities	Setup + support retainer Consulting/implementation Managed hosting	• LIMS for sequencing cores • Library prep tracking for genomics labs • Sample tracking for biobanks *Angle:* LIMS for sequencing core facilities	Project fees $10-40k *Effort:* High (Java, genomics-specific) ⚠ GPL-3.0; narrow audience
senaite.lims senaite/senaite.lims ★ 245 · GPL GPL-2.0 · Platform · Fit 3/5	Meta package for SENAITE, an open-source laboratory information management system. *Replaces:* LabWare, STARLIMS, LabVantage	Accredited testing labs needing a LIMS	Setup + support retainer Consulting/implementation	• LIMS for water testing labs • Sample tracking for food safety labs • Accreditation support for environmental labs	$5-20k implementation, $1-3k/mo support *Effort:* High (Plone and Python stack, lab-specific configuration) ⚠ GPL-2.0 fine for hosting; ISO 17025 accreditation validation burden
Afni afni/afni ★ 196 · Check NOASSERTION · Tool · Fit 3/5	Official AFNI source code and documentation for neuroimaging analysis *Replaces:* BrainVoyager, commercial fMRI analysis services	Neuroimaging researchers and imaging centers	Consulting/implementation Training/courses	• fMRI analysis for psychiatry labs • Brain mapping for surgery planning research • Workshops for neuroimaging PhD students	Free software; $2-5k analysis service *Effort:* Medium (research suite, steep learning curve) ⚠ NOASSERTION; check license; medical-use claims not validated
Chemotion ELN ComPlat/chemotion_ELN ★ 190 · AGPL AGPL-3.0 · App · Fit 3/5	Electronic lab notebook for chemistry with reaction and molecule management. *Replaces:* Benchling, PerkinElmer Signals, LabArchives, Dotmatics	Chemistry research labs	Managed hosting Setup + support retainer Consulting/implementation	• ELN for academic chemistry labs • Reaction tracking for CROs • Sample register for materials labs *Angle:* Chemistry lab notebook hosting	$15-40/user/mo *Effort:* High (Complex Rails stack) ⚠ AGPL-3.0; publish server-side changes
NEMO usnistgov/NEMO ★ 186 · Check NOASSERTION · App · Fit 3/5	Laboratory logistics web app for scheduling reservations, controlling tool access and tracking maintenance. *Replaces:* LabCalendar, Calendly	University core facilities managing equipment bookings	Setup + support retainer Managed hosting	• Equipment booking for university core facilities • Tool access control for makerspace labs • Maintenance tracking for shared research instruments	$1-3k setup, $200-500/mo hosting *Effort:* Medium (Django app, access control and training workflows) ⚠ NOASSERTION license: NIST origin, check public-domain terms; government branding
Sequencescape sanger/sequencescape ★ 111 · Permissive MIT · Platform · Fit 3/5	Web-based laboratory information management system for sequencing sample workflows. *Replaces:* Benchling, LabVantage, Clarity LIMS	Genomics core labs running sequencing	Setup + support retainer Consulting/implementation	• Sample tracking for genomics core labs • Sequencing pipelines for hospital labs • Library-prep tracking for biotech start-ups	$8-25k implementation, $2-5k/mo support *Effort:* High (tailored to sequencing workflows, heavy domain configuration) ⚠ MIT fine; genomic data and clinical lab accreditation rules apply
Iskylims BU-ISCIII/iskylims ★ 97 · GPL GPL-3.0 · App · Fit 3/5	Open-source LIMS for next-generation sequencing sample management, statistics and service requests. *Replaces:* Clarity LIMS, Benchling	Sequencing service providers and bioinformatics cores	Managed hosting Setup + support retainer	• NGS sample tracking for sequencing service firms • Bioinformatics request management for university cores • Statistics reports for clinical sequencing labs	$300-900/mo hosted, setup $5-10k *Effort:* Medium (NGS workflow setup and clinical validation) ⚠ GPL-3.0 distributed copies ship source; clinical lab validation (ISO 15189)

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
UniversaLIS roy-harmon/UniversaLIS ★ 58 · Check NONE · App · Fit 3/5	Laboratory information system connecting ASTM and CLSI clinical analyzers over serial and TCP links. *Replaces:* Sunquest, Cerner PathNet	Clinical labs connecting analyzers to records	Setup + support retainer Consulting/implementation	• Analyzer middleware for rural clinical labs • Serial-to-TCP bridges for veterinary labs • Interface integration for private pathology practices	$3-10k per analyzer interface, support extra *Effort:* High (medical device interfacing, validation and clinical regulation) ⚠ NONE license: copyright reserved; clinical lab accreditation and device validation
Inventarium 1966bc/inventarium ★ 25 · GPL GPL-3.0 · App · Fit 3/5	Desktop reagent and consumables inventory with expiry, FEFO, barcodes and purchase requests. *Replaces:* Quartzy, LabCollector	Small labs tracking reagents and expiry dates	Setup + support retainer Premium plugins/add-ons	• Reagent expiry tracking for clinic labs • Consumables inventory for school science labs • Batch tracking for craft soap makers	Free app; $100-300 per lab setup *Effort:* Medium (Tkinter UI, desktop packaging and barcode workflows) ⚠ GPL-3.0 distributed copies ship source; chemical safety data handling rules
Dance OmicsML/dance ★ 389 · Permissive BSD-2-Clause · Library · Fit 2/5	Deep learning library and benchmark platform for single-cell data analysis.	Single-cell genomics labs and bioinformatics teams	Consulting/implementation Training/courses	• Cell-type analysis for biotech R&D • Single-cell workshops for genomics core labs • Benchmark studies for pharma data teams	Free library; $5-15k per analysis pipeline *Effort:* Medium (bioinformatics pipeline, domain expertise needed) ⚠ BSD-2 fine; research benchmark, not validated for clinical decisions
Bombcell Julie-Fabre/bombcell ★ 257 · GPL GPL-3.0 · Tool · Fit 2/5	Automated quality control and neuron classification for spike-sorted electrophysiology data *Replaces:* Manual Phy curation, commercial spike sorting QC	Neuroscience labs with electrophysiology recordings	Consulting/implementation Setup + support retainer	• Spike QC for rodent recording labs • Neuron curation for brain-machine startups • Cell typing for pharmacology labs	Free code; $2-5k curation pipeline *Effort:* Medium (research tool, needs validation) ⚠ GPL-3.0; distributed builds must ship source; research tool, validate
Blobtools DRL/blobtools ★ 218 · GPL GPL-3.0 · Tool · Fit 2/5	Command-line tool for visualizing and quality checking genome assemblies *Replaces:* Commercial genome assembly QC services, Geneious	Genome assembly labs and biodiversity projects	Consulting/implementation Training/courses	• Genome QC for biodiversity projects • Assembly checks for agri-genomics firms • Contamination screens for sequencing cores	Free tool; $2-4k assembly QC report *Effort:* Medium (research-grade CLI, needs packaging) ⚠ GPL-3.0; distributed builds must ship source; research-grade
AfterQC OpenGene/AfterQC ★ 214 · Permissive MIT · Tool · Fit 2/5	Automatic filtering, trimming and quality control for FASTQ sequencing data *Replaces:* Trimmomatic, commercial read QC tools	Sequencing labs running FASTQ pipelines	Consulting/implementation Training/courses	• FASTQ cleanup for diagnostics labs • Read QC for pet genomics startups • Trimming for university sequencing cores	Free tool; $2-4k pipeline setup *Effort:* Medium (superseded by fastp, maintenance uncertain) ⚠ MIT; superseded by fastp; check maintenance status
baobab.lims BaobabLims/baobab.lims ★ 93 · GPL GPL-3.0 · App · Fit 2/5	Open-source laboratory information management system for tracking samples and lab work. *Replaces:* LabVantage, LabWare	Small research and diagnostic labs	Setup + support retainer Consulting/implementation	• LIMS for small pathology labs • Sample tracking for soil testing labs • Research sample workflows for university groups	$3-8k setup, $300-800/mo support *Effort:* Medium (Python LIMS, configuration and lab workflow mapping) ⚠ GPL-3.0 distributed copies ship source; lab accreditation validation needed
PeakLimsApi peaklims/PeakLimsApi ★ 72 · Check NOASSERTION · Platform · Fit 2/5	Source-available, fair-code LIMS with an API-first design for laboratory data. *Replaces:* LabWare, LabVantage	Small labs needing an API-first LIMS	Managed hosting Setup + support retainer	• API-first sample tracking for biotech labs • LIMS back ends for analytical testing firms • Integration layers for instrument-lab start-ups	$200-600/mo hosted, setup $5k *Effort:* High (fair-code licence limits resale, API docs) ⚠ NOASSERTION: source-available fair-code licence restricts commercial resale; read first

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Aquarium aquariumbio/aquarium ★ 68 · Permissive MIT · Platform · Fit 2/5	Lab operating system for designing, scheduling and running biological protocols. *Replaces:* Benchling, LabArchives	Synthetic biology labs managing protocols	Setup + support retainer Consulting/implementation	• Protocol automation for synthetic biology start-ups • Lab workflow setup for university bio groups • Robot-run protocol scheduling for biofoundries	$10-30k lab setup, $1-3k/mo support *Effort:* High (biofoundry workflows, robotics integration, domain-heavy) ⚠ MIT fine; biosafety rules apply; check Aquarium name and origin
MetaLIMS cheinle/MetaLIMS ★ 59 · GPL GPL-3.0 · App · Fit 2/5	Simple open-source LIMS for small metagenomic labs to track samples and results. *Replaces:* LabVantage	Small metagenomics labs	Consulting/implementation Setup + support retainer	• Sample tracking for soil microbiome labs • Metagenomics sample logs for university groups • Lab records for environmental DNA studies	$2-5k setup, $200-400/mo support *Effort:* Medium (small lab scope, workflow configuration) ⚠ GPL-3.0 distributed copies ship source; research data management rules
Liminal-orm dynotx/liminal-orm ★ 57 · Permissive Apache-2.0 · Library · Fit 2/5	ORM and toolkit that keeps Benchling schemas and downstream dependencies in sync.	Biotech data teams using Benchling	Consulting/implementation Training/courses	• Schema sync for biotech data teams • Benchling pipeline support for CRO labs • Data-model courses for lab informatics teams	Free library; $5-15k per Benchling integration project *Effort:* Low (schema-specific, depends on Benchling) ⚠ Apache-2.0 fine; Benchling is a commercial platform, API terms apply
Limbus AberystwythSystemsBiology/limbus ★ 43 · GPL GPL-3.0 · App · Fit 2/5	Standards-compliant biobank information management system from a university research group. *Replaces:* Freezerworks	Biobanks and research cohort teams	Setup + support retainer Managed hosting	• Sample tracking for cohort studies • Consent and specimen records for hospital biobanks • Biobank setup for academic research groups	$4-12k setup, $300-800/mo hosting *Effort:* High (standards compliance, consent and privacy setup) ⚠ GPL-3.0 distributed copies ship source; consent and patient-data regulation
Parkour2 maxplanck-ie/parkour2 ★ 38 · Check NONE · App · Fit 2/5	Laboratory information management system from a Max Planck research institute. *Replaces:* Benchling, LabVantage	Life-science core facilities and institute labs	Setup + support retainer Consulting/implementation	• Core facility LIMS for institute research groups • Sequencing request management for genomics units • Sample logs for academic biology labs	$3-8k setup, $200-500/mo support *Effort:* High (no licence, institute-specific workflows, sparse docs) ⚠ NONE license: copyright reserved; Max Planck name, ask permission before reuse
Biobank CBSR-Biobank/biobank ★ 23 · Check NOASSERTION · App · Fit 2/5	Biorepository application for tracking biospecimens through storage and use. *Replaces:* Sample Manager	Biorepositories and clinical research sample banks	Setup + support retainer Managed hosting	• Specimen tracking for hospital biorepositories • Sample logs for clinical trial sites • Freezer inventory for cancer research groups	$3-9k setup, $250-600/mo hosting *Effort:* High (biospecimen consent rules, clinical data integration) ⚠ NOASSERTION license: read first; patient specimen consent and privacy laws
Bika LIMS bikalims/bika.lims ★ 18 · GPL GPL-2.0 · Platform · Fit 2/5	Docker suite for Ingwe Bika LIMS 4, a laboratory information system. *Replaces:* LabWare, STARLIMS, LabVantage	Testing labs	Setup + support retainer Consulting/implementation Managed hosting	• LIMS for environmental labs • Soil lab system • Water lab software *Angle:* Lab management for clinical and water labs	$100-300/mo *Effort:* High (Legacy, superseded by SENAITE) ⚠ GPL-2.0; legacy project

Landscaping & Lawn Care · 12

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
VROOM VROOM-Project/vroom ★ 1.9k · Permissive BSD-2-Clause · Tool · Fit 4/5	Vehicle routing optimization engine for deliveries and pickups *Replaces:* Routific, OptimoRoute, Onfleet routing	Delivery companies	API/usage-based Managed hosting Vertical SaaS	• Route optimization for florists • Service technician scheduling • Waste collection route planner *Angle:* Daily route optimization for lawn-care crews	$29/mo per driver *Effort:* Medium (C++ solver, needs map backend) ⚠ BSD-2-Clause; needs OSRM or similar

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
QGIS qgis/QGIS ★ 14.8k · GPL GPL-2.0 · App · Fit 3/5	Free cross-platform desktop geographic information system. *Replaces:* ArcGIS, MapInfo, Global Mapper, Hexagon GeoMedia	Planners, surveyors, GIS analysts	Training/courses Consulting/implementation Premium plugins/add-ons	• GIS training for landscapers • Custom QGIS plugins for utilities • Parcel mapping for lawn care *Angle:* Property measurement and site plans for landscape estimators	Courses $199-499, plugins custom *Effort:* High (Large desktop C++ app) ⚠ GPL-2.0; QGIS trademark
OpenMower ClemensElflein/OpenMower ★ 6.8k · Check NOASSERTION · Hardware · Fit 3/5	Open source upgrade for cheap robotic mowers to make them smart and GPS-guided. *Replaces:* Husqvarna Automower, Segway Navimow, Worx Landroid	Homeowners and lawn care firms	Hardware kits/assembly Setup + support retainer Local service business	• Robot mower retrofit for lawn services • Mower kits for golf clubs • Installation service for homeowners *Angle:* Robotic mowing-as-a-service for landscaping companies	$400-800 per kit *Effort:* High (Hardware design, sourcing, installation) ⚠ NOASSERTION license; non-commercial hardware terms likely
OpenSprinkler Firmware OpenSprinkler/OpenSprinkler-Firmware ★ 568 · GPL GPL-3.0 · Hardware · Fit 3/5	Unified firmware for OpenSprinkler smart irrigation controllers. *Replaces:* Rachio, Rain Bird, Hunter Hydrawise, Orbit B-hyve	Homeowners and landscapers	Hardware kits/assembly Setup + support retainer Local service business	• Irrigation retrofits for landscapers • Smart sprinkler install for HOAs • Greenhouse irrigation kits *Angle:* Smart irrigation installs with monthly monitoring plan	$150-250 per controller *Effort:* Medium (Firmware plus hardware sourcing) ⚠ GPL-3.0; OpenSprinkler trademark
SIP Sprinklers Dan-in-CA/SIP ★ 421 · Check NONE · Tool · Fit 3/5	Raspberry Pi sprinkler irrigation controller with web UI *Replaces:* Rachio, Hunter Hydrawise, Orbit B-hyve	Homeowners, small growers	Hardware kits/assembly Local service business Setup + support retainer	• Smart sprinkler controller for orchards • Greenhouse irrigation boxes • Lawn care route controller *Angle:* Raspberry Pi irrigation controllers sold by landscapers	$149-299 per controller *Effort:* Medium (Python on Pi, relay hardware) ⚠ License NONE listed; get permission; electrical work safety
OpenFarm ARCHIVED openfarmcc/OpenFarm ★ 1.7k · Permissive MIT · Content · Fit 2/5	Open database of farming and gardening knowledge and growing guides. *Replaces:* Gardenize, Farmbrite, Smart Gardener	Gardeners and small growers	Content/membership API/usage-based Mobile app on top	• Growing guides for urban farmers • Garden planner for schools • Seed guide for gardeners *Angle:* Planting guide content for garden centers	$3-5/mo premium *Effort:* Medium (Rails app, inactive project) ⚠ MIT; community content license varies
Fields2Cover Fields2Cover/Fields2Cover ★ 923 · Permissive BSD-3-Clause · Library · Fit 2/5	Library for coverage path planning for agricultural robots. *Replaces:* Trimble Ag, John Deere path planning, AgLeader	Agricultural robotics developers	Consulting/implementation API/usage-based Training/courses	• Path planning for mowing robots • Orchard robot routing • Field coverage API *Angle:* Mowing and spraying route planner for grounds crews	Project fees *Effort:* High (Robotics library, engineering heavy) ⚠ BSD-3-Clause; niche
VibeUE kevinpbuckley/VibeUE ★ 817 · Permissive MIT · Tool · Fit 2/5	AI-assisted vibe-coding tool for working inside Unreal Engine. *Replaces:* Unity Muse, GitHub Copilot	Game studios using Unreal Engine for prototypes	Premium plugins/add-ons Training/courses	• AI scripting for Unreal indie studios • Prototype automation for game jams • Unreal AI workshops for game design students	Free plugin; $15-30/mo pro features *Effort:* Medium (Unreal plugin, AI model costs and licence checks) ⚠ MIT fine; Unreal Engine EULA and AI model provider terms apply
Growstuff Growstuff/growstuff ★ 475 · AGPL AGPL-3.0 · Platform · Fit 2/5	Open data project and community site for small-scale food growers. *Replaces:* Gardenize, Seed to Spoon, Farmbrite	Home growers	Content/membership Managed hosting Setup + support retainer	• Garden community for a region • Seed swap site • Crop planner for allotments *Angle:* Plant database powering garden design proposals	$3/mo membership *Effort:* Medium (Rails community site) ⚠ AGPL-3.0; publish server-side changes
Lfai-landscape lfai/lfai-landscape ★ 389 · Permissive Apache-2.0 · Content · Fit 2/5	Overview of top open-source AI and data projects, with GitHub, funding and contributor data. *Replaces:* Crunchbase	AI investors and open-source programme offices	Content/membership API/usage-based	• Open-source AI market maps for VC analysts • Project tracking for corporate open-source offices • Ecosystem reports for AI policy teams	Free map; $200-800/yr for data exports *Effort:* Low (landscape site, data pipeline work and branding) ⚠ Apache-2.0 fine; LF AI and Data name is trademarked, keep attribution

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
FreeShow ChurchApps/FreeShow ★ 1.4k · GPL GPL-3.0 · App · Fit 4/5	Free presenter software for church services, lyrics and media. *Replaces:* ProPresenter, EasyWorship, MediaShout, Planning Center Services	Churches and worship teams	Training/courses Premium plugins/add-ons Setup + support retainer	• Worship slides for small churches • Lyrics and media packs • Live event presenter *Angle:* Worship lyrics projection setup service	Free, paid content packs $5-20 *Effort:* Medium (Electron app, rebrand work) ⚠ GPL-3.0; FreeShow brand
ChurchCRM ChurchCRM/CRM ★ 989 · Permissive MIT · App · Fit 4/5	Free church management for people, groups, events, attendance and giving *Replaces:* Planning Center, Breeze, Pushpay, Church Community Builder	Churches, ministries	Managed hosting Setup + support retainer Vertical SaaS	• Church management for small congregations • Parish software for Spanish-speaking churches • Giving tracker for ministries *Angle:* Hosted church membership and giving, $20/mo	$15-49/mo per church *Effort:* Medium (PHP app, single church per install) ⚠ MIT; donation compliance varies
Rock RMS SparkDevNetwork/Rock ★ 701 · Check NONE · Platform · Fit 4/5	Church management system with CMS and relationship management *Replaces:* Planning Center, Pushpay, Church Community Builder	Large churches, ministries	Managed hosting Consulting/implementation Setup + support retainer	• Hosted Rock for churches • Church website and ChMS bundle • Rock migration services *Angle:* Rock implementation and hosting for megachurches	$100-400/mo per church *Effort:* High (Large .NET platform, multi-site) ⚠ License NONE in metadata but Rock RMS license exists, read first
Quelea quelea-projection/Quelea ★ 205 · GPL GPL-3.0 · App · Fit 4/5	Open source projection software for churches. *Replaces:* ProPresenter, EasyWorship, MediaShout	Churches and worship teams	Training/courses Setup + support retainer Premium plugins/add-ons	• Worship presenter for small churches • Lyric packs for ministries • AV setup for churches *Angle:* Song projection for small churches	Free software, support $20-50/mo *Effort:* Medium (Java desktop app) ⚠ GPL-3.0; Quelea name
B1 Admin ChurchApps/B1Admin ★ 166 · Permissive MIT · App · Fit 3/5	Church management admin front end for the B1 platform *Replaces:* Planning Center, Breeze, Pushpay	Small churches	Managed hosting Vertical SaaS Mobile app on top	• Church admin for small congregations • Mobile app for ministries • Giving for community churches *Angle:* Church management bundle for small congregations	$10-30/mo per church *Effort:* Medium (Part of larger B1 stack) ⚠ MIT; front end only, needs API repos
Falah abdessamadbettal/Falah ★ 161 · Permissive MIT · App · Fit 3/5	Open-source Islamic tools: Quran, Hadith, prayer times, Qibla finder, tafseer and zakat calculators *Replaces:* Muslim Pro, Athan, IslamicFinder	Muslim families and mosques	Mobile app on top Premium plugins/add-ons	• Prayer and zakat tools for Muslim families • Inheritance calculators for Islamic law firms • Quran study apps for mosque schools	Free app; $3/mo ad-free version *Effort:* Medium (religious content needs scholar review) ⚠ MIT; religious content needs scholar review; app store rules
Mosque Screen Mosque-Screens/Mosque-Screen ★ 110 · Check NONE · App · Fit 3/5	Mosque prayer times display screen app. *Replaces:* Masjidbox, Muslim Pro, Prayer Times Screens	Mosques	Hardware kits/assembly Setup + support retainer Managed hosting	• Prayer screens for mosques • Masjid display kits • Prayer time displays for Islamic centers *Angle:* Prayer-time display screens sold to mosques	$150-300 per screen kit *Effort:* Medium (Web app on Raspberry Pi) ⚠ No license stated
Mosque Prayer Display MosqueOS/Mosque-Prayer-Display-Screen ★ 48 · Check NONE · App · Fit 3/5	Mosque prayer times display screen app. *Replaces:* Masjidbox, Prayer Times Screens, Muslim Pro	Mosques	Hardware kits/assembly Setup + support retainer Managed hosting	• Prayer screens for mosques • Masjid display kits • Islamic center displays *Angle:* Turnkey prayer display hardware for masjids	$150-300 per screen kit *Effort:* Medium (Web app on Raspberry Pi) ⚠ No license stated
Barymusic barypia/barymusic ★ 22 · GPL GPL-3.0 · App · Fit 3/5	Web app for managing songs and showing live lyrics on external screens *Replaces:* Easy Worship, ProPresenter, Planning Center Services	Church worship leaders and musicians	Vertical SaaS Managed hosting	• Lyric screens for small church bands • Song libraries for worship teams • Setlist display for gig venues	$10-25/mo per church, free tier *Effort:* Medium (needs CCLI licensing workflow) ⚠ GPL-3.0; lyrics need CCLI or publisher licensing

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Cantara reckel-jm/cantara ★ 16 · GPL GPL-3.0 · App · Fit 3/5	Open source simple song presentation software for worship *Replaces:* Easy Worship, ProPresenter	Worship teams and song leaders	Premium plugins/add-ons Setup + support retainer	• Song slides for small church choirs • Lyric displays for folk music nights • Presentation tools for school assemblies	Free app; $15 support plan *Effort:* Medium (needs polish and lyric licensing workflow) ⚠ GPL-3.0; distributed builds must ship source; lyric copyright
Adhan JS batoulapps/adhan-js ★ 540 · Permissive MIT · Library · Fit 2/5	High-precision Islamic prayer time library for JavaScript. *Replaces:* Muslim Pro, Athan, IslamicFinder	App developers	Consulting/implementation Mobile app on top API/usage-based	• Prayer times app for mosques • Display screens for masjids • Prayer widget for sites *Angle:* Prayer-time engine for Islamic center apps	App sales $2-5 *Effort:* Medium (Library, app needed) ⚠ MIT; calculation method accuracy
Templewallet-extension madfish-solutions/templewallet-extension ★ 206 · Permissive MIT · App · Fit 2/5	Multichain wallet browser extension for Tezos and EVM networks *Replaces:* MetaMask, Kukai, Umami wallets	Tezos and EVM users	Premium plugins/add-ons API/usage-based	• Wallets for Tezos NFT collectors • Multichain wallets for DeFi power users • White-label wallet for DAO treasury teams	Free extension; swap fees and partner revenue *Effort:* High (wallet security audits and store review) ⚠ MIT; wallet security audits; money transmission and financial rules
EcclesiaCRM phili67/ecclesiacrm ★ 65 · Permissive MIT · App · Fit 2/5	CRM software for church management *Replaces:* Planning Center, Breeze	Churches	Managed hosting Setup + support retainer Vertical SaaS	• Church CRM for French congregations • Parish admin • Event tracking for ministries *Angle:* French-language church CRM hosting	$10-25/mo *Effort:* Medium (Small PHP fork of ChurchCRM) ⚠ MIT; small community
SIMASJID ARCHIVED noplanalderson/simasjid ★ 43 · Check NONE · App · Fit 2/5	Indonesian mosque information and management system. *Replaces:* Masjidbox, Church management tools	Mosques in Indonesia	Setup + support retainer Vertical SaaS Managed hosting	• Mosque finance tracker • Zakat management • Kajian scheduling *Angle:* Mosque finance and management system	$5-15/mo per mosque *Effort:* Medium (Indonesian-language PHP) ⚠ No license stated
MasjidLocator talhahasanzia/MasjidLocator ★ 20 · Check NONE · App · Fit 2/5	Locator that finds nearby mosques using Google Maps and Places APIs *Replaces:* Muslim Pro mosque finder, Google Maps search	Muslim travelers and new residents	Mobile app on top Premium plugins/add-ons	• Mosque finder for travelers • Masjid directories for city councils • Prayer spot finder for airports	Free app; $1/mo ad-free *Effort:* Medium (Google API billing and terms) ⚠ NONE license; Google Maps API terms and billing costs
Templewallet-dapp madfish-solutions/templewallet-dapp ★ 16 · Permissive MIT · Library · Fit 2/5	Module for communication between decentralized apps and Temple Wallet *Replaces:* WalletConnect, MetaMask SDK	Tezos dApp developers	Consulting/implementation API/usage-based	• Wallet links for Tezos NFT marketplaces • Dapp connectors for Tezos games • Wallet login for Tezos DAO tools	Free library; $3-8k dapp integration *Effort:* Medium (ties to one wallet and chain) ⚠ MIT; depends on Temple Wallet and Tezos ecosystem changes
Acts2-phyto studio-liturgy/acts2-phyto ★ 15 · GPL GPL-3.0 · App · Fit 2/5	Free open source presentation tool for small home worship gatherings *Replaces:* ProPresenter, Easy Worship, OpenLP	Home church leaders and small gatherings	Premium plugins/add-ons Content/membership	• Slides for house church gatherings • Liturgy slides for small retreats • Worship slides for campus Bible studies	Free app; $5/mo liturgy template packs *Effort:* Medium (needs templates and liturgy content) ⚠ GPL-3.0; distributed builds must ship source; liturgical texts may be copyrighted

Research & Surveys · 33

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
LimeSurvey LimeSurvey/LimeSurvey ★ 3.8k · Check NOASSERTION · App · Fit 4/5	Survey platform with advanced logic and multilingual surveys *Replaces:* SurveyMonkey, Typeform, Qualtrics	Researchers, universities, enterprises	Managed hosting Setup + support retainer Consulting/implementation	• Survey hosting for researchers • HR surveys for SMBs • Multilingual surveys for NGOs *Angle:* Hosted surveys for market research agencies	$19-99/mo *Effort:* Medium (Mature PHP, dated UI) ⚠ GPL (NOASSERTION), fine for hosting; LimeSurvey trademark
Dataverse IQSS/dataverse ★ 1.1k · Check NOASSERTION · Platform · Fit 4/5	Open source research data repository software. *Replaces:* Figshare, Mendeley Data, Dryad, Zenodo	Universities and research institutions	Managed hosting Consulting/implementation Setup + support retainer	• Data repository for universities • Institutional repository for think tanks • Research data hosting *Angle:* Research data repository hosting	$500-3000/mo per institution *Effort:* Medium (Java, mature, brandable) ⚠ NOASSERTION license; Dataverse trademark
Qlib microsoft/qlib ★ 50.1k · Permissive MIT · Framework · Fit 3/5	AI-oriented quant investment platform covering research from idea exploration to deployment *Replaces:* Bloomberg AIM, QuantConnect, Refinitiv quant tools	Quant funds and fintech research teams	Consulting/implementation Training/courses	• Factor models for small hedge funds • Alpha research for fintech startups • Backtesting for crypto quant desks	Free platform; $10-30k model deployment *Effort:* High (quant research stack, data and finance skills needed) ⚠ MIT; investment regulation applies; backtests overfit easily; Microsoft brand
Zotero zotero/zotero ★ 15.9k · Check NOASSERTION · App · Fit 3/5	Reference manager for collecting, organizing, annotating and citing research. *Replaces:* EndNote, Mendeley, RefWorks, Paperpile	Researchers and students	Training/courses Premium plugins/add-ons Content/membership	• Citation training for universities • Zotero plugins for lawyers • Research library for think tanks *Angle:* Reference management training for research teams	Courses $49-149 *Effort:* High (Desktop app, heavy Zotero branding) ⚠ NOASSERTION license; Zotero trademark
jamovi jamovi/jamovi ★ 800 · Check NOASSERTION · App · Fit 3/5	Statistical spreadsheet software that bridges researchers and statisticians. *Replaces:* SPSS, Stata, SAS, GraphPad Prism	Researchers and students	Training/courses Premium plugins/add-ons Consulting/implementation	• Stats training for psychology students • Analysis modules for clinics • Teaching deployments *Angle:* Statistics training for social researchers	Courses $99-299 *Effort:* High (Large app with jamovi branding) ⚠ NOASSERTION license; jamovi trademark
OSF CenterForOpenScience/osf.io ★ 730 · Permissive Apache-2.0 · Platform · Fit 3/5	Open Science Framework platform for research project management and sharing. *Replaces:* Figshare, Mendeley Data, ResearchGate, Dryad	Research institutions	Managed hosting Consulting/implementation Setup + support retainer	• OSF hosting for institutions • Preprint server for societies • Research project hub *Angle:* Research project hosting for institutes	$1000-3000/mo *Effort:* High (Large Python stack) ⚠ Apache-2.0; OSF trademark
OpenClinica OpenClinica/OpenClinica ★ 517 · Check NONE · Platform · Fit 3/5	Open source clinical trial data capture software. *Replaces:* Medidata Rave, REDCap, Veeva EDC, Castor	CROs and academic trial sites	Managed hosting Consulting/implementation Setup + support retainer	• EDC for academic trials • Trial hosting for small CROs • Validated setup service *Angle:* Clinical trial data capture for CROs	$500-2000/mo per study *Effort:* High (Java, validation burden) ⚠ No license in data; commercial vendor trademark
Strata-manager hongfaqiu/strata-manager ★ 53 · Permissive MIT · App · Fit 3/5	Desktop app to set up and manage local LLM models, services, hardware and inference. *Replaces:* LM Studio, Jan, Ollama GUIs	Local-AI hobbyists running models on Windows and Linux PCs	Premium plugins/add-ons Setup + support retainer	• Local model manager for developer teams • Offline chat setup for privacy-focused households • GPU monitoring for home AI labs	Free app; $10-20/mo pro features *Effort:* Medium (desktop app, depends on the Strata inference engine) ⚠ MIT fine; depends on the Strata inference engine, check its licence
Deep-research dzhng/deep-research ★ 19.9k · Permissive MIT · Tool · Fit 2/5	AI research assistant that iterates through web search, scraping and LLM analysis on any topic *Replaces:* Perplexity research, OpenAI deep research, Elicit	Analysts doing quick web research	API/usage-based Premium plugins/add-ons	• Market scans for startup analysts • Competitor briefs for B2B sales teams • Literature sweeps for policy researchers	Free self-host; $30-100/mo hosted *Effort:* Medium (depends on LLM and search APIs, citation checks) ⚠ MIT; scraping terms, LLM API costs, citation accuracy

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
RD-Agent microsoft/RD-Agent ★ 15.3k · **Permissive** MIT · Platform · Fit 2/5	LLM agent system automating R&D loops for data-driven industrial tasks *Replaces:* DataRobot, H2O.ai automated ML	Industrial R&D and data science teams	Consulting/implementation API/usage-based	• Automated feature research for factory data teams • Model tuning for quant desks • R&D automation for battery makers	Free core; $15-40k R&D automation project *Effort:* High (needs LLM budget and sandboxed execution) ⚠ MIT; Microsoft brand; LLM costs and autonomous code safety
Ipatool majd/ipatool ★ 12.2k · **Permissive** MIT · Tool · Fit 2/5	Command-line tool to search the App Store and download apps for supported Apple platforms *Replaces:* Apple Configurator, third-party app archive sites	Developers and IT admins managing app archives	Consulting/implementation Setup + support retainer	• App archives for QA labs • Version pinning for MDM teams • App mirrors for school IT	Free tool; $1-2k admin setup *Effort:* Low (CLI tool, Apple account handling needed) ⚠ MIT; App Store terms limit redistribution; Apple trademark
UI-TARS bytedance/UI-TARS ★ 11.7k · **Permissive** Apache-2.0 · Model · Fit 2/5	Native GUI agent model that automates interaction with desktop and mobile interfaces *Replaces:* Anthropic computer use, OpenAI Operator, UiPath	RPA and QA automation teams	API/usage-based Consulting/implementation	• Desktop automation for back-office clerks • Mobile app testing for QA teams • GUI bots for legacy software users	Free model; $5-20k automation build *Effort:* High (model hosting heavy, needs task-specific tuning) ⚠ Apache-2.0; ByteDance origin, check export and data rules
Feynman Companion-Inc/feynman ★ 10.1k · **Permissive** MIT · Tool · Fit 2/5	Open source AI research agent that searches, reads and summarizes sources *Replaces:* Perplexity research, Elicit	Researchers and analysts needing agents	API/usage-based Premium plugins/add-ons	• Lit reviews for PhD students • Evidence briefs for policy teams • Market research for consultants	Free self-host; usage fees per research run *Effort:* Medium (depends on LLM APIs, citations need checks) ⚠ MIT; citation accuracy and LLM terms; avoid implying academic endorsement
Zmap zmap/zmap ★ 6.4k · **Permissive** Apache-2.0 · Tool · Fit 2/5	Fast single-packet network scanner for Internet-wide network surveys *Replaces:* Shodan, Censys, Masscan services	Security researchers and internet measurement teams	Consulting/implementation Training/courses	• Exposure scans for healthcare networks • Internet inventory for city IT • Measurement studies for university labs	Free tool; $3-10k security survey *Effort:* Medium (scanning needs legal and abuse controls) ⚠ Apache-2.0; scanning raises legal and abuse concerns; ZMap name
LatentSync bytedance/LatentSync ★ 6.3k · **Permissive** Apache-2.0 · Model · Fit 2/5	Lip-sync video model adapting Stable Diffusion to sync mouth movement to audio *Replaces:* HeyGen lip sync, Synthesia, Sync Labs	Video localization studios and creators	API/usage-based Consulting/implementation	• Dubbing for corporate training videos • Lip sync for e-learning localization • Video translation for YouTube creators	Free model; $0.10-0.50 per clip *Effort:* High (GPU-heavy, needs pipeline and consent checks) ⚠ Apache-2.0; deepfake misuse risk, consent and disclosure rules; ByteDance origin
Zotero-arxiv-daily TideDra/zotero-arxiv-daily ★ 6.1k · **AGPL** AGPL-3.0 · Tool · Fit 2/5	Recommends new arXiv papers daily based on your Zotero library *Replaces:* Research Rabbit, Connected Papers, Semantic Scholar alerts	Researchers wanting paper alerts	Premium plugins/add-ons Setup + support retainer	• Paper alerts for PhD students in labs • Reading digests for R&D teams • Literature feeds for grant writers	Free self-host; $5/mo hosted digest *Effort:* Low (personal tool, needs hosting and accounts) ⚠ AGPL-3.0; hosted changes must be published; Zotero and arXiv terms
MegaTTS3 bytedance/MegaTTS3 ★ 6.1k · **Permissive** Apache-2.0 · Model · Fit 2/5	Zero-shot text-to-speech model that can clone a voice from a short sample *Replaces:* ElevenLabs, Murf, Play.ht	Audiobook and voiceover producers	API/usage-based Consulting/implementation	• Voiceovers for indie audiobook authors • Narration for e-learning studios • Voice tracks for podcast producers	Free model; $0.05-0.20 per minute of audio *Effort:* High (GPU-heavy model, needs serving and voice consent flow) ⚠ Apache-2.0; voice cloning consent and deepfake rules; ByteDance origin

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
MIfinlab hudson-and-thames/mlfinlab ★ 5.0k · Check NOASSERTION · Library · Fit 2/5	Machine learning toolkit for portfolio managers and traders with financial data methods *Replaces:* Bloomberg ML tooling, quant research platforms	Quant traders and portfolio managers	Consulting/implementation Training/courses	• Labeling pipelines for crypto trading firms • Backtest validation for small hedge funds • Feature research for fintech quant teams	Free open version; $5-15k quant model setup *Effort:* Medium (commercial version split, finance skills needed) ⚠ NOASSERTION; check license, commercial version separate; investment rules apply
Hyperresearch jordan-gibbs/hyperresearch ★ 4.4k · Permissive MIT · Tool · Fit 2/5	Turns Claude Code or Codex into a deep research agent that collects, searches and synthesizes web sources *Replaces:* OpenAI deep research, Perplexity Pro	Analysts using coding agents for research	Premium plugins/add-ons API/usage-based	• Research workflows for market analysts • Literature sweeps for PhD students • Competitor scans for product teams	Free plugin; $20/mo research pack *Effort:* Low (depends on vendor coding agents) ⚠ MIT; depends on Claude Code and Codex vendor terms; citation accuracy
Openscience synthetic-sciences/openscience ★ 4.4k · Permissive Apache-2.0 · App · Fit 2/5	Open source AI workbench for scientific research work *Replaces:* Elicit, Scite, Benchling AI	Research labs and science teams	Managed hosting Setup + support retainer	• AI workbench for biotech R&D teams • Literature workflows for university labs • Research notebooks for grant offices	Free self-host; $30-100/seat/mo hosted *Effort:* Medium (needs domain tuning and data connectors) ⚠ Apache-2.0; LLM output accuracy; scientific claims need review
Acme google-deepmind/acme ★ 4.1k · Permissive Apache-2.0 · Library · Fit 2/5	Library of reinforcement learning components and agents for research *Replaces:* Stable Baselines services, RLlib commercial support	RL researchers and robotics ML teams	Consulting/implementation Training/courses	• RL controllers for warehouse robots • Policy training for game AI studios • RL courses for ML bootcamps	Free library; $10-30k RL project *Effort:* High (research library, RL expertise required) ⚠ Apache-2.0; research library; DeepMind brand
Scenic google-research/scenic ★ 3.8k · Permissive Apache-2.0 · Library · Fit 2/5	JAX library for computer vision research and model building *Replaces:* Hugging Face training services, PyTorch Lightning enterprise	Computer vision researchers and ML teams	Consulting/implementation Training/courses	• Vision model training for medical imaging labs • Defect detection research for factories • Vision courses for ML bootcamps	Free library; $10-25k vision model project *Effort:* High (JAX expertise required, research-oriented) ⚠ Apache-2.0; JAX expertise required; Google research brand
Academic-humanizer AIScientists-Dev/academic-humanizer ★ 3.7k · Check NOASSERTION · Tool · Fit 2/5	Removes AI-writing patterns from papers and grant proposals while keeping a scholarly voice *Replaces:* QuillBot, Undetectable.ai humanizer tools	Academics and grant writers	Premium plugins/add-ons API/usage-based	• Grant drafts for NIH applicants • Paper editing for ESL researchers • Proposal polishing for NSF submissions	Free basic; $15-40/mo grant editing *Effort:* Low (style editing tool, needs academic integrity guardrails) ⚠ NOASSERTION; academic misconduct risk; funders have AI disclosure rules
Arxiv-mcp-server blazickjp/arxiv-mcp-server ★ 3.3k · Permissive Apache-2.0 · Tool · Fit 2/5	Local MCP server for literature work: reads arXiv LaTeX sections and builds BibTeX from metadata *Replaces:* Zotero sync services, Mendeley, Semantic Scholar APIs	Researchers using AI agents for literature reviews	API/usage-based Premium plugins/add-ons	• Bib export for thesis writers • Section reads for lit review teams • arXiv tooling for AI lab researchers	Free server; $10/mo hosted MCP *Effort:* Low (MCP server, depends on arXiv API) ⚠ Apache-2.0; arXiv API terms and rate limits apply
ChineseResearchLaTeX huangwb8/ChineseResearchLaTeX ★ 3.0k · Permissive MIT · Starter · Fit 2/5	Collection of LaTeX templates for Chinese research papers and theses *Replaces:* Overleaf paid templates, Word thesis templates	Chinese university students writing theses	Content/membership Premium plugins/add-ons	• Thesis templates for Chinese master's students • Journal templates for Chinese scientists • Report templates for research institutes	Free templates; $15-30 formatting service *Effort:* Low (template set, university formats vary) ⚠ MIT; university formatting rules; avoid misusing official logos

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Mindforger dvorka/mindforger ★ 2.7k · GPL GPL-2.0 · App · Fit 2/5	Thinking notebook and Markdown editor for organizing notes *Replaces:* Obsidian, Notion, Roam Research	Writers and researchers keeping notes	Premium plugins/add-ons Mobile app on top	• Note system for PhD students • Writing notebooks for novelists • Research notes for policy analysts	Free app; $5/mo sync *Effort:* Medium (desktop editor, sync and mobile needed) ⚠ GPL-2.0; distributed builds must ship source; crowded note-app market
ML-gfx906 mixa3607/ML-gfx906 ★ 376 · Permissive MIT · Tool · Fit 2/5	Builds of ML software such as llama.cpp and ComfyUI for older AMD gfx906 GPUs.	Owners of older AMD GPUs running local AI	Consulting/implementation Setup + support retainer	• LLM rigs for MI50 homelabs • Cheap inference servers for small studios • Setup services for old AMD workstation owners	$150-400 per GPU rig setup *Effort:* Medium (build scripts, GPU driver support, testing per release) ⚠ MIT fine; AMD ROCm and third-party software licences apply
Gospl Geodels/gospl ★ 89 · GPL GPL-3.0 · Tool · Fit 2/5	Global scalable paleo landscape evolution model for simulating terrain over geological time.	Geoscientists modelling landscape evolution	Consulting/implementation Training/courses	• Landscape evolution studies for mining firms • Paleo-climate courses for geoscience students • Erosion models for environmental consultants	Free model; $8-20k per simulation study *Effort:* High (research-scale model, geoscience and HPC expertise) ⚠ GPL-3.0 distributed copies ship source; validate before commercial use
Speedy DevDock-AI/Speedy ★ 51 · Permissive MIT · Tool · Fit 2/5	Tuned and benchmarked fork for running a large Qwen model with long context on consumer GPUs.	Home-lab AI enthusiasts running large models on consumer GPUs	Consulting/implementation Setup + support retainer	• Long-context inference for legal document review teams • Local coding assistants for small dev shops • Private research assistants for consultants	$200-600 per local inference rig setup *Effort:* High (model-specific tuning, hardware-dependent, fast-moving) ⚠ MIT fine; underlying Qwen model licence terms apply separately
HO-SIRR leomccormack/HO-SIRR ★ 50 · Permissive BSD-3-Clause · Library · Fit 2/5	MATLAB implementation of higher-order spatial impulse response rendering for loudspeaker Ambisonic reproduction.	Spatial audio researchers and immersive-sound studios	Consulting/implementation Training/courses	• Room acoustics rendering for immersive studios • Spatial audio research for university labs • Ambisonics courses for sound engineers	Free code; $4-10k spatial audio rendering project *Effort:* High (MATLAB dependency, research-grade, DSP expertise needed) ⚠ BSD-3 fine; MATLAB licence needed to run code commercially
Comfyui-Strata-T8 T8mars/Comfyui-Strata-T8 ★ 24 · Permissive MIT · Tool · Fit 2/5	ComfyUI nodes for text, vision and managed local inference with GPU handoff.	ComfyUI creators running local image and text pipelines	Premium plugins/add-ons Consulting/implementation	• ComfyUI nodes for AI art studios • Local prompt tools for game concept artists • Image-caption pipelines for stock photo teams	Free nodes; $10-30 per pro node pack *Effort:* Medium (ComfyUI dependency, GPU handoff testing) ⚠ MIT fine; ComfyUI and model licences vary; publisher brand is separate
Strata-gfx906 xxDoman/strata-gfx906 ★ 23 · Permissive MIT · Tool · Fit 2/5	Tuned build of a local LLM inference engine for AMD MI50 and Radeon VII GPUs, with Docker image.	Owners of older AMD GPUs running local AI servers	Setup + support retainer Consulting/implementation	• Local LLM servers for MI50 homelabs • Docker inference boxes for small agencies • Setup services for used-GPU AI hobbyists	$150-350 per Docker inference setup *Effort:* High (GPU-specific builds, engine versions, fast changes) ⚠ MIT fine; underlying model and AMD ROCm licence terms apply separately
Sarsop boettiger-lab/sarsop ★ 11 · GPL GPL-2.0 · Library · Fit 2/5	Library for solving partially observable Markov decision processes (POMDPs).	Robotics and decision engineers planning under uncertainty	Consulting/implementation Training/courses	• Planning under uncertainty for drone inspection • Policy solvers for triage scheduling • POMDP courses for robotics students	Free library; $150-250/hr planning consulting *Effort:* Medium (C++ solver, must be wrapped in domain models) ⚠ GPL-2.0 requires source for distributed builds; solver needs domain modelling

ZoneMinder ZoneMinder/zoneminder ★ 6.0k · GPL GPL-2.0 · App · Fit 4/5	Long-running CCTV recording and monitoring system for IP, USB and analog cameras *Replaces:* Milestone XProtect, Genetec, Verkada	Small businesses, installers, home-security resellers	Setup + support retainer Managed hosting Hardware kits/assembly	• Camera systems for retail shops • Local AI NVR for farms • Monitoring for short-term rental hosts *Angle:* Remote CCTV monitoring service	$15-50/mo per site, install fee *Effort:* High (older PHP and C++ stack) ⚠ GPL: fine for hosting; distributed builds must ship source
Shinobi ShinobiCCTV/Shinobi ★ 654 · Check NOASSERTION · Platform · Fit 4/5	Open source video management system for IP cameras with recording and detection. *Replaces:* Milestone XProtect, Genetec, Blue Iris, Arlo	Security integrators and small sites	Managed hosting White-label reseller Setup + support retainer	• Cloud CCTV for small shops • Camera monitoring for security guards • NVR service for property managers *Angle:* Hosted video surveillance for guard companies	$5-15/camera/mo *Effort:* Medium (Node app, white-label support) ⚠ NOASSERTION license, read it first; Shinobi trademark
Agentguard AxoraSecurity/agentguard ★ 490 · Permissive MIT · Tool · Fit 3/5	Security guard for AI agents that blocks risky skills, prevents data leaks and protects secrets. *Replaces:* Lakera Guard, Protect AI	Teams deploying AI agents with tool access	Managed hosting Premium plugins/add-ons	• Agent guardrails for fintech support bots • Secret protection for dev-tool agents • Tool-call policy for healthcare intake agents	$99-499/mo per team, usage-based *Effort:* Medium (Rule engine, needs integrations and reporting) ⚠ MIT permissive; crowded AI security market; verify rule accuracy
Fast-llm-security-guardrails ZenGuard-AI/fast-llm-security-guardrails ★ 155 · Permissive MIT · Tool · Fit 3/5	Fast guardrail API that screens LLM prompts and outputs for security risks. *Replaces:* Lakera Guard, Robust Intelligence	Startups shipping LLM chat features	API/usage-based Managed hosting	• Prompt filtering for legal chatbots • Guardrails for customer support bots • Output checks for education tutors	Usage-based $0.001 per call, free tier *Effort:* Medium (API product, needs hosting and dashboards) ⚠ MIT permissive; crowded market; verify performance claims before selling
Security-Guard kahanu/Security-Guard ★ 57 · Check NONE · App · Fit 2/5	ASP.NET MVC membership management system built on the legacy Membership provider. *Replaces:* Auth0, Okta	Legacy .NET MVC shops needing membership	Consulting/implementation Setup + support retainer	• Member portal for .NET gyms • Login system for Windows-based clubs • Membership for MVC 4 legacy apps	$2000-6000 per legacy migration *Effort:* Medium (Old MVC 4, Membership provider outdated) ⚠ No license: read first; legacy stack needs security updates
Dsh-remote-mobile IceApriler/dsh-remote-mobile ★ 48 · Permissive MIT · Tool · Fit 2/5	Plugin for DeepSeek Harness that exposes it safely over LAN or Tailscale. *Replaces:* ngrok, Tailscale Funnel	Developers running DeepSeek Harness remotely	Premium plugins/add-ons Consulting/implementation	• Remote access for DeepSeek agent teams • Mobile control for local AI dev boxes • Secure LAN gateway for home labs	$10-20 one-time plugin, free core *Effort:* Medium (Depends on DeepSeek Harness, docs in Chinese) ⚠ MIT permissive; security claims need independent audit

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
React-formular theluk/react-formular ★ 42 · Check NONE · Library · Fit 2/5	Experimental React library binding forms and inputs with the Context API and HOCs. *Replaces:* Formik, React Hook Form	React developers building custom form tooling	Consulting/implementation Training/courses	• Form engine for React admin panels • Composable forms for React Native agencies • Form wrappers for legacy React apps	Free library; $120/hr integration help *Effort:* Medium (Experimental API, few users, needs hardening) ⚠ No license: read first; experimental API, low maturity
Phpclaw-monorepo phpclaw-php/phpclaw-monorepo ★ 32 · Permissive MIT · Framework · Fit 2/5	PHP framework for AI agents with tools, memory, guards and a ReAct loop. *Replaces:* LangChain, LlamaIndex	PHP agencies adding AI features to Laravel sites	Consulting/implementation Training/courses	• AI assistant for WordPress shops • Agent module for Laravel SaaS • Support bot for Magento stores	Free framework; $3000-8000 integration projects *Effort:* Medium (PHP framework, needs integration and UI) ⚠ MIT permissive; Laravel, WordPress and Magento names are trademarks
AWS-Security-Guardrails-TF naman16/AWS-Security-Guardrails-TF ★ 31 · Check NONE · Starter · Fit 2/5	Terraform modules for AWS security guardrails, from the name; no description given. *Replaces:* Prisma Cloud, Wiz	Small AWS teams needing baseline security	Consulting/implementation Setup + support retainer	• Baseline AWS guardrails for seed-stage startups • Terraform hardening for clinic cloud accounts • Compliance baseline for ecommerce stores	$2000-6000 per AWS baseline setup *Effort:* Medium (Terraform modules, needs documentation and testing) ⚠ No license; empty description, verify modules before deploying
Deepseek-harness-security-guard SparkShieldLab/deepseek-harness-security-guard ★ 26 · Permissive MIT · Tool · Fit 2/5	Rule-based guard for DeepSeek Harness agents, hooking tool calls with allow/block policies. *Replaces:* Lakera Guard, Protect AI	Teams running DeepSeek Harness agents	Premium plugins/add-ons Consulting/implementation	• Policy guard for DeepSeek coding agents • Tool-call approval for research bots • Warn-mode guard for agent sandboxes	$10-30/mo per agent, policy packs *Effort:* Medium (Tied to DeepSeek Harness, policy tuning needed) ⚠ MIT permissive; depends on DeepSeek Harness API stability
Clawguard capsulesecurity/clawguard ★ 23 · Permissive MIT · Tool · Fit 2/5	Security guard plugin for OpenClaw that uses an LLM judge to block risky tool calls. *Replaces:* Lakera Guard, Protect AI	OpenClaw users running autonomous agents	Premium plugins/add-ons API/usage-based	• Tool-call judge for trading agents • Command guard for devops bots • Judge layer for research assistants	Usage-based per judged call, free tier *Effort:* Medium (Plugin for OpenClaw, LLM judge costs) ⚠ MIT permissive; LLM judge adds latency and cost
LLMSecGuard aryakvnust/LLMSecGuard ★ 22 · Check NONE · Tool · Fit 2/5	LLM security guard for code, checking generated code for security issues. *Replaces:* Snyk Code, Semgrep	Dev teams using LLMs to write code	API/usage-based Premium plugins/add-ons	• Secure-code checks for AI coding bots • Review gate for fintech code generators • Scanner for student LLM projects	Free tier; $20/mo per developer *Effort:* Medium (Needs scanner accuracy work and integrations) ⚠ No license: confirm reuse rights before building on it
Openclaw-security-guard 2pidata/openclaw-security-guard ★ 16 · Check NOASSERTION · Tool · Fit 2/5	Security layer for OpenClaw: CLI scanner, live dashboard, secrets and prompt-injection checks. *Replaces:* Snyk, GitGuardian, Lakera Guard	OpenClaw operators running agents at work	Premium plugins/add-ons Managed hosting	• Secrets scanner for devops teams • Agent audit dashboard for SaaS startups • MCP server auditing for internal IT	$15-40/mo per agent host, free CLI *Effort:* Medium (Dashboard and scanners need productizing) ⚠ NOASSERTION: read license first; OpenClaw dependency and claims unverified
Sunny-osprey sbnb-io/sunny-osprey ★ 16 · Check NONE · App · Fit 2/5	Sixth-sense security monitoring for guards, powered by Google's Gemma 3n model. *Replaces:* Verkada, Ring Pro	Security guard firms wanting AI monitoring	Vertical SaaS Hardware kits/assembly	• Camera alerts for warehouse night shifts • AI patrol logs for mall guards • Incident detection for parking lots	$80-250/mo per site, camera hardware extra *Effort:* High (Edge-AI hardware and camera integration required) ⚠ No license on record; Gemma model terms apply to deployments
Safe Guard Pro sananie13-eng/safe-guard-pro ★ 3 · Permissive MIT · App · Fit 2/5	Security patrol validation app with biometric authentication and SOS alerts. *Replaces:* Trackforce, Guard Tour apps, Silvertrac, Scoutlook	Security guard companies	Vertical SaaS Mobile app on top Setup + support retainer	• Patrol tracking for guard firms • Night watch app for estates • Checkpoint scans for schools *Angle:* Patrol checkpoint validation app	$3-8/guard/mo *Effort:* Medium (Tiny new project) ⚠ MIT; tiny project

Shipping & Ports · 8

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
RustScan bee-san/RustScan ★ 20.7k · GPL GPL-3.0 · Tool · Fit 3/5	Fast port scanner written in Rust that hands results to Nmap. *Replaces:* Nmap, Masscan	Pentesters and IT teams doing network audits	Consulting/implementation Training/courses	• Attack-surface scans for SMB clients • Port audits for MSP onboarding • Scanner course for junior pentesters	$500-2000 per external scan audit *Effort:* Low (CLI tool, easy to wrap) ⚠ GPL: modified distributions ship source; scanning needs written authorization
Webamp captbaritone/webamp ★ 11.3k · Permissive MIT · App · Fit 2/5	Winamp 2 reimplemented in the browser, playing music with skins and playlists. *Replaces:* Winamp, Foobar2000 web players	Radio stations and retro-audio sites	Premium plugins/add-ons White-label reseller	• Skinned radio players for stations • Retro music embeds for blogs • Nostalgia player for vintage game sites	$19-49 per embedded player license *Effort:* Low (Embeddable JS player with skins) ⚠ MIT permissive; Winamp is a trademark, avoid its logos
Imgui-java SpaiR/imgui-java ★ 829 · Permissive MIT · Library · Fit 2/5	JNI-based Java binding for Dear ImGui, used for fast debug and tool UIs.	Java teams building internal tools and debug UIs	Consulting/implementation Training/courses	• Debug overlays for Java game studios • Internal tools UI for Java teams • Sensor dashboards for Java labs	Free library; $150/hr integration consulting *Effort:* Medium (JNI native binaries built per platform) ⚠ MIT permissive; native builds per platform need maintenance
PLC-CommunTools SmallRob/PLC-CommunTools ★ 784 · Check NONE · Library · Fit 2/5	Chinese industrial PLC and serial/TCP communication test toolkit covering many vendor protocols.	Industrial automation integrators and PLC engineers	Consulting/implementation Training/courses	• PLC protocol testing for factory integrators • Serial IO diagnostics for machine builders • Modbus test kit for solar installers	$1000-3000 per integration engagement *Effort:* High (Chinese docs, many vendor protocols) ⚠ No license; vendor protocol IP may limit commercial use
Portmapper kaklakariada/portmapper ★ 776 · GPL GPL-3.0 · Tool · Fit 2/5	Desktop tool for managing router port forwardings over UPnP.	Home lab and self-hosting users	Premium plugins/add-ons Training/courses	• UPnP port setup for home NAS owners • Port mapping for remote-access installers • Forwarding helper for game server hosts	Free; $40 one-time for a pro GUI *Effort:* Low (Small desktop tool, simple scope) ⚠ GPL: distributed builds ship source; UPnP can expose home networks
IVim terrychou/iVim ★ 647 · Check NONE · App · Fit 2/5	Vim port for iOS and iPad, providing terminal-style text editing on mobile. *Replaces:* Textastic, Working Copy	iPad developers and writers wanting Vim	Mobile app on top Premium plugins/add-ons	• Vim keys for iPad coders • Text editor for iOS sysadmins • Editor for iPad technical writers	$4.99-9.99 one-time app purchase *Effort:* Medium (iOS app, App Store review needed) ⚠ No license; Vim license and App Store rules apply
Penpal Aaronius/penpal ★ 569 · Permissive MIT · Library · Fit 2/5	Promise-based messaging library for iframes, web workers and windows over postMessage.	Frontend engineers building iframe-based widgets	Consulting/implementation Training/courses	• Iframe widget messaging for embed vendors • Worker bridge for analytics SDKs • Cross-window sync for kiosk apps	Free library; $120/hr integration help *Effort:* Low (Small library, drop-in use) ⚠ MIT permissive; small dependency, low differentiation
Africaferry Africa-Fast-Ferry/africaferry ★ 13 · Permissive MIT · Platform · Fit 2/5	Smart contract framework issuing ferry equity and revenue-share tokens under US securities rules. *Replaces:* Securitize, Tokeny	Companies issuing tokenised securities	Consulting/implementation Setup + support retainer	• Tokenised revenue shares for shipping firms • Compliant equity tokens for African startups • Reg S tokens for real estate funds	$50000-200000 per issuance, legal fees extra *Effort:* High (Securities law and ERC-3643 expertise needed) ⚠ MIT permissive; securities law, KYC and Reg D/S compliance required

Solar & Energy · 22

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
evcc evcc-io/evcc ★ 7.5k · Permissive MIT · App · Fit 5/5	Smart EV charging controller using solar surplus, dynamic tariffs and many wallboxes and meters *Replaces:* Tesla app, Zaptec Charge, SolarEdge EV Charger, Easee	Homeowners with solar and EVs	Setup + support retainer Managed hosting Hardware kits/assembly	• Pre-installed evcc boxes for solar installers • Hosted evcc dashboard for homeowners • Charging optimization for small fleets *Angle:* Solar-surplus EV charging installs for electricians	$10-20/mo hosted, $300 box *Effort:* Low (Single Go binary, easy to bundle) ⚠ MIT; check sponsor token terms for some features
OpenDTU tbnobody/OpenDTU ★ 2.2k · GPL GPL-2.0 · Hardware · Fit 4/5	ESP32 software to communicate with Hoymiles, TSUN and Solenso solar inverters *Replaces:* Hoymiles S-Miles Cloud, SolarEdge monitoring, Enphase Enlighten	Balcony solar owners and installers	Hardware kits/assembly Setup + support retainer Managed hosting	• Preflashed OpenDTU for balcony solar owners • Monitoring dashboards for small installers • Cloud-free solar monitoring *Angle:* Microinverter monitoring add-on for installers	$40-80 per gateway *Effort:* Low (Popular, easy to preflash) ⚠ GPL-2.0; OpenDTU name; inverter warranty
OpenEMS OpenEMS/openems ★ 1.6k · AGPL AGPL-3.0 · Platform · Fit 4/5	Open source energy management system for storage, PV and EV charging. *Replaces:* SolarEdge, SMA Sunny Home Manager, Victron, Tesla Powerwall controller	Installers and energy companies	Setup + support retainer Managed hosting Hardware kits/assembly	• Home battery controller for installers • EV charging manager for businesses • Farm solar management *Angle:* Battery and solar energy management for businesses	$300-1000 per site plus $10/mo *Effort:* High (Java, hardware integration heavy) ⚠ AGPL-3.0; OpenEMS trademark
Emoncms emoncms/emoncms ★ 1.3k · AGPL AGPL-3.0 · App · Fit 4/5	Web app for processing, logging and visualizing energy, temperature and environmental data. *Replaces:* Sense, Emporia, Neurio, Grafana Cloud	Energy-conscious homes and installers	Managed hosting Hardware kits/assembly Setup + support retainer	• Energy monitoring for installers • Building monitoring for schools • Solar logging for farms *Angle:* Energy monitoring dashboards for solar installers	$5-15/mo per site *Effort:* Medium (PHP, mature, themable) ⚠ AGPL-3.0; Emoncms and OpenEnergyMonitor marks
SteVe steve-community/steve ★ 1.1k · GPL GPL-3.0 · Platform · Fit 4/5	OCPP server for managing EV charging stations *Replaces:* ChargePoint, Driivz, EVBox Everon	Charging network operators	Managed hosting Setup + support retainer White-label reseller	• Charging backend for apartment garages • EV charging for hotels • Fleet depot charge manager *Angle:* OCPP backend for EV charging operators	$2-5/charger/mo *Effort:* Medium (Java server, OCPP 1.6) ⚠ GPL-3.0; OCPP version coverage
PyPSA PyPSA/PyPSA ★ 2.2k · Permissive MIT · Library · Fit 3/5	Python toolbox for simulating and optimizing modern power systems. *Replaces:* PLEXOS, Aurora, PowerFactory, HOMER	Energy modelers and utilities	Consulting/implementation Training/courses API/usage-based	• Grid modeling for developers • Energy system studies for municipalities • Training for planners *Angle:* Grid planning studies for utilities and co-ops	Consulting $100-200/hr *Effort:* Medium (Python library, models to build) ⚠ MIT; expertise needed
Scaphandre hubblo-org/scaphandre ★ 2.0k · Permissive Apache-2.0 · Tool · Fit 3/5	Agent that measures server and application energy consumption for sustainability reporting. *Replaces:* Watershed, Cloud Carbon Footprint	Platform teams measuring data center energy	Consulting/implementation Premium plugins/add-ons	• Power metering for on-prem Kubernetes teams • Green IT audits for SaaS startups • Energy dashboards for colocation tenants	$500-2000 per audit; $99/mo dashboard *Effort:* Medium (Needs exporter and dashboard integration) ⚠ Apache-2.0 permissive; accuracy depends on hardware power sensors
pvlib pvlib/pvlib-python ★ 1.7k · Permissive BSD-3-Clause · Library · Fit 3/5	Python functions for simulating photovoltaic system performance. *Replaces:* PVsyst, SAM, Aurora Solar, HelioScope	Solar engineers and developers	Consulting/implementation API/usage-based Training/courses	• PV yield estimator for installers • Solar proposal tool • Monitoring analytics for operators *Angle:* PV yield modeling for solar sales proposals	$20-100/mo per user *Effort:* Medium (Library, app to build) ⚠ BSD-3-Clause; modeling expertise needed

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Json-scada riclolsen/json-scada ★ 502 · GPL GPL-3.0 · Platform · Fit 3/5	SCADA and IIoT gateway platform built around MongoDB for industrial data collection. *Replaces:* Ignition, Wonderware	Utilities and plant operators needing SCADA	Managed hosting Setup + support retainer Consulting/implementation	• SCADA for small solar farms • IIoT gateway for water utilities • Plant monitoring for craft breweries	$300-800/mo per site support *Effort:* High (MongoDB backend, industrial protocols, safety) ⚠ GPL: distributed modified builds ship source; SCADA safety rules apply
Gridstatus gridstatus/gridstatus ★ 454 · Permissive BSD-3-Clause · Library · Fit 3/5	Python library extracting electricity market and grid data from ISOs and energy sources. *Replaces:* Yes Energy, OATI webOASIS	Energy traders and battery storage developers	API/usage-based Consulting/implementation	• Battery revenue data for storage developers • Price feeds for virtual power plants • Grid dashboards for solar installers	$199-999/mo data API, enterprise custom *Effort:* Medium (Per-ISO connectors need ongoing maintenance) ⚠ BSD-3 permissive; ISO data terms vary, some restrict redistribution
Zeus ml-energy/zeus ★ 386 · Permissive Apache-2.0 · Tool · Fit 3/5	Measures and optimises energy consumption of AI training and inference workloads. *Replaces:* CodeCarbon, Watershed	ML teams cutting GPU energy costs	Consulting/implementation Premium plugins/add-ons	• GPU power tuning for inference startups • Energy reports for AI labs • Training energy audits for universities	$3000-12000 per audit; free core *Effort:* Medium (Python and GPU tooling, needs dashboard layer) ⚠ Apache-2.0 permissive; energy metrics need careful validation
NREL SAM NREL/SAM ★ ? · Check NONE · App · Fit 3/5	System Advisor Model for renewable energy performance and finance simulation (unclear metadata). *Replaces:* PVsyst, Aurora Solar, HelioScope, HOMER	Solar developers and analysts	Consulting/implementation Training/courses API/usage-based	• Solar feasibility for installers • Wind finance modeling • Training for developers *Angle:* Financial modeling for community solar developers	Consulting $100-200/hr *Effort:* High (Large desktop modeling app) ⚠ License not given; NREL branding
EVerest EVerest/everest-core ★ ? · Check NONE · Platform · Fit 3/5	Open EV charging software stack for chargers including OCPP and ISO 15118 *Replaces:* Proprietary charger firmware	Charger manufacturers	Consulting/implementation Hardware kits/assembly Setup + support retainer	• Firmware for home chargers • Charger retrofit for parking garages • Certification help for small makers *Angle:* Charger firmware stack for EVSE manufacturers	$20-80k per integration *Effort:* High (Embedded Linux, certification effort) ⚠ License NONE here, Apache-2.0 upstream; safety certification
Pcm intel/pcm ★ 3.4k · Permissive BSD-3-Clause · Tool · Fit 2/5	Intel performance counter monitor for CPU, memory and power metrics on Intel servers. *Replaces:* Intel VTune, Datadog host metrics	Performance engineers tuning Intel servers	Consulting/implementation Training/courses	• CPU tuning for HPC labs • Power monitoring for colocation sites • Counter training for kernel teams	$150-250/hr performance consulting *Effort:* Low (CLI and libraries, Intel hardware only) ⚠ BSD-3 permissive; Intel trademark; needs MSR access on hosts
Node-opcua node-opcua/node-opcua ★ 1.7k · Permissive MIT · Library · Fit 2/5	OPC UA industrial communication stack for TypeScript and Node.js. *Replaces:* Kepware, Ignition	Industrial IoT integrators using OPC UA	Consulting/implementation Training/courses	• OPC UA gateways for factory integrators • Node-based SCADA bridges for utilities • OPC UA logging for brewery lines	$3000-10000 per gateway integration project *Effort:* Medium (Library, needs industrial integration work) ⚠ MIT permissive; OPC Foundation certification and spec terms apply
Energy-Languages greensoftwarelab/Energy-Languages ★ 713 · Permissive MIT · Tool · Fit 2/5	Toolkit measuring the energy use of programming languages using benchmark game programs.	Engineers optimising software energy use	Consulting/implementation Training/courses	• Energy audits for backend teams • Language choice reports for CTOs • Green coding workshops for developers	$2000-6000 per green audit *Effort:* Medium (Benchmark tooling, needs productization) ⚠ MIT permissive; academic benchmarks need careful result interpretation
Pypsa-eur PyPSA/pypsa-eur ★ 630 · Check NONE · Model · Fit 2/5	European energy system optimisation model with sector coupling and high-resolution data.	Grid planners and energy consultancies	Consulting/implementation Training/courses	• Grid planning studies for regional utilities • Renewables scenario reports for municipalities • Model training for energy students	$10000-30000 per modelling study *Effort:* High (Heavy data pipelines, expert domain knowledge) ⚠ NONE on record; verify MIT and ENTSO-E data source terms

Project	What it does	Customers	Business models	Niche ideas	Pricing · effort · gotchas
Climate_indices monocongo/climate_indices ★ 461 · **Permissive** BSD-3-Clause · Library · Fit 2/5	Python library computing climate indices for drought, flood, wildfire and energy hazards.	Climate risk analysts and insurers	Consulting/implementation API/usage-based	• Drought indices for crop insurers • Flood risk scoring for utilities • Wildfire indicators for county planners	$5000-15000 per climate risk study *Effort:* Medium (Python library, needs data pipelines) ⚠ BSD-3 permissive; index methods are scientific, cite sources
Gcam-core JGCRI/gcam-core ★ 436 · **Check** NOASSERTION · Model · Fit 2/5	Global Change Analysis Model for integrated energy, land and climate scenario studies.	Climate policy researchers and consultancies	Consulting/implementation Training/courses	• Scenario studies for national energy plans • Land-use models for agri-consultants • Policy modelling courses for universities	$20000-50000 per scenario study *Effort:* High (Large C++ model, expert-heavy setup) ⚠ NOASSERTION: read license; government-funded research origin
Oemof-solph oemof/oemof-solph ★ 428 · **Check** NONE · Library · Fit 2/5	Model generator for energy system modelling and optimisation using LP and MILP.	Energy planners and academic modellers	Consulting/implementation Training/courses	• Microgrid sizing for campus planners • Storage dispatch studies for utilities • Solar-plus-storage models for developers	$8000-25000 per optimisation study *Effort:* High (Modelling expertise needed, Python stack) ⚠ NONE on record; read license first, verify before reuse
Windpowerlib wind-python/windpowerlib ★ 396 · **Permissive** MIT · Library · Fit 2/5	Python library modelling wind turbine and wind farm power output.	Wind developers and yield analysts	Consulting/implementation API/usage-based	• Yield estimates for wind developers • Turbine output APIs for solar-wind hybrids • Yield reports for community wind co-ops	$2000-5000 per yield assessment *Effort:* Medium (Python library, needs turbine data) ⚠ MIT permissive; turbine power curves may be vendor-confidential
OpenLEADR OpenLEADR/openleadr-python ★ 159 · **Permissive** Apache-2.0 · Library · Fit 2/5	Python library for OpenADR 2.0b demand response. *Replaces:* Enel X, CPower, AutoGrid	Energy aggregators and utilities	Consulting/implementation API/usage-based Setup + support retainer	• Demand response client for factories • Utility signal gateway • EV charging flexibility *Angle:* Demand response integration for utilities	Project fees $10-40k *Effort:* High (Protocol library) ⚠ Apache-2.0; niche protocol
